PROCEEDINGS AND DEBATES OF THE 107th CONGRESS, SECOND SESSION

Vol. 148

WASHINGTON, THURSDAY, NOVEMBER 14, 2002

No. 147—Part II

House of Representatives

REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H. CON. RES. 507

Mrs. JONES of Ohio. Mr. Speaker, I ask unanimous consent to have my name removed as a cosponsor of H. Con. Res. 507.

The SPEAKER pro tempore (Mr. ISAKSON). Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

REDUCING PREEXISTING PAYGO BALANCES

Mr. NUSSLE. Mr. Speaker, pursuant to House Resolution 602, I call up the bill (H.R. 5708) to reduce preexisting

PAYGO balances, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The text of H.R. 5708 is as follows:

H.R. 5708

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. Reduction of Preexisting PAYGO Balances.

Upon the enactment of this Act, the Director of the Office of Management and Budget shall reduce any balances of direct spending and receipts legislation for all fiscal years under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 to zero.

The SPEAKER pro tempore. Pursuant to House Resolution 602, the gentleman from Iowa (Mr. NUSSLE) and the gentleman from South Carolina (Mr. SPRATT) each will control 30 minutes.

The Chair recognizes the gentleman from Iowa (Mr. NUSSLE).

Mr. NUSSLE. Mr. Speaker, I yield myself such time as I may consume.

I rise in favor of the bill before us, H.R. 5708. It is a bill that would prevent the automatic spending cuts in Medicare and other entitlements.

Under the Budget Enforcement Act of 1990, entitlement and tax legislation must be offset on a year-by-year basis. We do this so that it will not increase the deficit or reduce the surplus.

If such legislation is not offset, then automatic spending cuts, often called a sequester, are triggered in selected entitlement programs, including Medicare. This so-called pay-as-you-go rule, or what we refer to around here oftentimes as PAYGO, expired at the end of September; but the Office of Management and Budget is still required to trigger a sequester for previously enacted legislation.

On various occasions during which the Federal Government was running large surpluses, this Congress saw fit to depart from the PAYGO rule for selected measures. This was the case with the tax bill enacted last year. Similarly this year on both sides of the aisle, we have promoted initiatives to provide prescription drug benefit coverage under Medicare, and we also did so without offsetting entitlement cuts or tax increases.

But as we know, last year's recession and the shock of the terrorist attacks are still affecting our economy and have changed the budget outlook considerably. As a result, these and other such measures could trigger what we refer to as a PAYGO sequester several weeks after the Congress adjourns. Should we fail to enact this bill, the Office of Management and Budget has estimated that Medicare and other entitlements should be reduced by almost \$125 billion in fiscal year 2003. Given various rules that exempt certain programs from sequestration, or that limit the size of any sequester, the maximum sequester would still be substantial, about \$31 billion, all of which would have to be absorbed in 1 year.

The magnitude of these cuts would be so great as to cause a 4 percent reduction in certain Medicare payments and cuts ranging in the billions in such key programs as crop insurance, the Department of Defense health fund, payments to States for child support enforcement, veterans education and readjustment, and the September 11 victims compensation fund. With the other body unable to pass even a budget this year, we were obviously unable to reach an agreement on legislation to extend PAYGO and other budget rules. It is my hope that this can be done next year as part of a normal budget process.

I would close by reminding our Members and colleagues that the PAYGO rule contributed to the taming of deficits over the past 7 years, and it is my hope that a successor to PAYGO can be developed and coupled with caps on distressary appropriations.

Mr. Speaker, in short, what this bill does is prevents automatic spending cuts in Medicare and other entitlements. As we know in years past, particularly in years of surplus while the PAYGO rule was used, it was not a perfect rule because it suggested that tax cuts and entitlement reforms go on what we call the PAYGO scorecard. Every year in a very routinized way, the last bill has taken care of this concern in years of surplus. That would

have been the intention this year. However, this controversy looms as a result of the fact that we have had this triple budget threat of a downturn in the economy, the terrorist attacks, and the war on terrorism.

Mr. Speaker, I believe all of us want to avoid Draconian cuts to Medicare and to other entitlements or to prevent tax increases in order to pay for this during a time of recession. What we need is a plan, and we have a plan. The House passed a plan. The President has endorsed that plan. If we stick to that plan, we can get back to surpluses, we can get back to fiscal discipline. But in the meantime, let us take this ministerial opportunity to take care of this unfortunate situation so that we can avoid something automatic happening while Congress is not in session.

Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. STENHOLM).

(Mr. STENHOLM asked and was given permission to revise and extend his remarks.)

□ 1900

Mr. STENHOLM. Mr. Speaker, a year ago the Blue Dogs warned about the danger of making long-term commitments for tax cuts or new spending programs. We were concerned that the projections were based on unrealistic assumptions and that the projected surpluses could vanish as quickly as they materialized. We were concerned that the large tax cuts and increased spending would drive up the deficit and the national debt. Our warnings were ignored, and now we are told we will be borrowing virtually all of our Social Security surplus for the next decade and beyond.

After passing legislation that would rack up an additional debt of \$127 billion next year alone, Congress is considering legislation that would wipe the slate clean to remove all those costs from the ledger. The bill before us wipes the slate clean not just for this year and next year but for each of the next 5 years, allowing us to avoid responsibility for legislation adding over \$550 billion in new national debt.

I do not want to cut Medicare or veterans benefits, farm assistance, or child support enforcement. However, we object strongly to clearing the scorecard for the next 5 years, which allows Congress and the President to ignore the impact of legislation that will increase the deficit for the next 5 years without working to plan to stem the tide of red ink.

I agree with what the gentleman from Iowa (Mr. NUSSLE) said a moment ago. This is not the time to be talking about spending cuts or tax increases. I agree. But why not in 2004, 2005, 2006, 2007, and 2008? Why do we feel compelled tonight to say we are going to wipe the slate clean for the next 5 years when we have constantly and the motion to recommit tonight will allow

us to do just that? The motion that the gentleman from Kansas (Mr. MOORE) will offer will say we do not object to wiping the scorecard clean for 2002 and 2003. Obviously 9/11/01 has made a big change in the economics of this country. But let us sit down in the next Congress and let us work out the details of how we are in fact going to deal with these exploding deficits. Let us not exempt new tax cuts or new spending increases from the hard decisions that this body should be trying to make in order to bring our budget back under control. That is what we object to. I do not understand the rationale of why we need to do this for 2004, 2005, 2006, 2007, and 2008. And I would be glad to yield to the chairman if he could answer that question because he made a very compelling argument a moment ago of why we should not do it now.

I do not want to cut Medicare right now. In fact, we need to do just the opposite. We do have to recognize the rationale of the situation we are in today, but why do we want to do it for these outyears? I do not understand that.

Just yesterday Federal Reserve Chairman Alan Greenspan reiterated the importance of restoring the budget enforcement rules for the Federal budget. We should not ignore the chairman's request of this body. "It's important for Congress and the administration to have a long-term budget structure which we continuously update and evaluate so that we have a mechanism to make judgments . . . relative priorities within the overall budget choice process or with respect to the economy . . . we need to get the process back to where it was. We need to reestablish the basic caps on discretionary spending, on PAYGO, introduce new things like triggers or other things which give us a vehicle to function with."

I believe the chairman has agreed with that in the past. I certainly do. Earlier this year Chairman Greenspan told the Committee on the Budget that failing to preserve budget enforcement rules would be a grave mistake. Tonight we are about to do just that. We are about to make a grave mistake saying we are going to waive all PAYGO rules, all discretionary caps, everything for the next 8 years in order to do what? Accomplish somebody's political agenda? Or are we going to seriously roll up our sleeves in the next Congress and deal with it?

Vote for the motion to recommit. Let us wipe the PAYGO slate clean for 2002 and 2003. Wipe it clean. We all will agree, but do not do it for 2004, 2005, 2006, 2007, 2008. That will not be a fiscally responsible thing for this House to do.

Mr. NUSSLE. Mr. Speaker I yield myself such time as I may consume.

Mr. Speaker, while I certainly enjoy the philosophical discussion of budget process and budget enforcement with maybe the best of them, the fact of the matter is that this is a real vote and

you are either going to vote yes to prevent automatic sequestration of Medicare or you are not. It is either a vote to allow OMB, or not even allow, to force OMB for automatic sequestration of Medicare or you are not. So a vote in favor of this bill prevents Medicare cuts. A vote against this bill or a vote even for that matter for the motion to recommit allows Medicare cuts, and it is that simple.

So we will have a lot of time to talk about budget process for many years, weeks, months to come, but the fact of the matter is that this is a real bill. It has real consequences, and therefore it should be passed.

Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 4 minutes to the gentleman from Florida (Mr. DAVIS).

Mr. DAVIS of Florida. Mr. Speaker, I would like to respond to the comments just made by the chairman of the Committee on the Budget. It is correct to say that probably every Member of this body is opposed to cutting Medicare spending to fund the effects of the tax cut whose size in retrospect was way too large given the condition of the economy and the cost to our country of maintaining security at home and abroad, but there is another point involved here in the motion to recommit, and this is what we need to debate.

We are not cutting taxes tonight or spending money. We are engaged in accounting. We just spent a year preaching to corporate America about the need to be open and honest to shareholders and investors and to the public about admitting when they were in deficit and doing the math correctly, and here we are tonight in direct defiance of that principle because what we are voting upon is whether we are going to be honest first with ourselves and then with the American people that we are in deficit spending and in balance only because we are relying upon the Social Security Trust Fund. Every Member of Congress who went home the last campaign campaigned upon fiscal responsibility, the virtues of balancing the budget and paying down the debt, and there are many Democrats and some Republicans that increasingly will argue for that. It has had benefits in terms of interest rates. It has benefits in terms of preparing Social Security and Medicare for the retirement of the baby boomers. One of the key principles that brought Democrats and Republicans together to balance the budget was the principle of pay as you go because pay as you go has meant, until today after this vote, that if you want to increase spending, Medicare or other discretionary spending under formulas or programs, or if you wanted to increase taxes, you had to pay as you go. You had to consider the impact that would have on the balanced budget, growing the deficit.

Tonight we are throwing those rules out. We are saying for the next 5 years, whether it is increased spending or ad-

ditional tax cuts, we do not care what impact it has on the size of the deficit. We are going to dig deeper.

Let us think back to the things we said to corporate America and what we promised the people we represent. Let us have a direct, open, and honest debate tonight. Let us admit to ourselves we made a mistake in terms of the size of the tax cut. We need to come straight with the American public. It starts by coming straight with ourselves. Let us reinstate PAYGO starting the year after this. Let us vote for the motion to recommit because what the motion to recommit says, and my colleagues are going to hear this over and over again, is let us commit, let us make the President commit to a plan to get back to a balanced budget, to stop relying upon the Social Security Trust Fund. The motion to recommit says it is not going to happen tomorrow. We have got security problems we need to deal with. We have got funding at home we need to deal with, but we need to have a plan, and we need to be honest with the folks at home just as we said to corporations across America, we have got a problem, we have got a growing deficit and we are going in the right direction and not the wrong direction. It starts by reinstating the PAYGO principle. I would ask my colleagues, Democrats and Republicans, that care about fiscal responsibility and the growing budget deficit to vote for the motion to recommit.

Mr. NUSSLE. Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 3 minutes to the gentleman from Washington (Mr. MCDERMOTT).

Mr. MCDERMOTT. Mr. Speaker, I want to thank the gentleman from South Carolina (Mr. SPRATT) for yielding me this time.

Mr. Speaker, I think that I want to caution my friends on the Democratic side do not get excited. You guys understand this President is in total control of this country, and he lied to us about taxes and now it is coming home to roost. Do not get exercised because you have got to save your voice. We are going to have 2 years of this stuff where they can do anything they want. This bill is simply giving them the keys to the hen house. The fox has now got it. He has got votes in the Senate, got votes in the House, and the President is going to send up stuff here and he does not have to balance any budget anymore.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. ISAKSON). The Chair would respectfully rule that the gentleman not make such personal references to the President of the United States. The gentleman may proceed in order.

Mr. MCDERMOTT. But you all understand where it is coming from, do you not? I mean it is not falling out of the sky. This is a concentrated effort, and what they wanted to do was they wanted to give all those taxes away so there would be no money to deal with social

programs, and now it happens and they are suddenly afraid. They were fools before. They were saying, well, you can give it all away and we do not have to worry. We will just stiffen our spine and when the people come in here begging, we will send them away. Then they suddenly found out that the people coming in here were veterans.

I mean we are going to war. We are going to create a whole bunch more veterans. Are we going to take care of them? Go to my veterans hospital and you will find out what they are doing right now. Or poor people, of course they do not count anyway. So never mind. Let them yell all they want. And education, well, what do we care about stooges? Let them pile on some more debt.

This is a blank check to the executive branch to write and spend endlessly. And an unfortunate chairman of the committee has to come out here and defend this all by himself. No one will come here and speak with him. He is the only one. They put him out there and they said you are the chairman, you go carry this and just take the lumps, it will not make any difference because down at the White House we will write up some stuff and we will spend on war, we will spend the \$200 billion going to war in Iraq over the next 10 years. That is no problem. We can find that anywhere.

Let us see what else we can find. Oh, we have got to have that insurance for terrorism. Of course that will not cost anything. And in this bill that is coming up next they have got additional money for Medicare. Do my colleagues know what they did? They went down to CBO and they said CBO, do not score this, do not show it cost anything, so they can bring it out here and they can say it does not cost anything, CBO says there is no scoring.

I mean this game is rigged, and you are watching this game be rigged right in front of your eyes. This will be when you come back and want to balance the budget and you look for some rules, you gave them away on whatever this is, the 15th of November. Vote for the recommitment.

Mr. NUSSLE. Mr. Speaker, I yield myself such time as I may consume.

Again for the benefit of the Members, a yes vote is to follow the budget, follow our plan that we have put in place, and a no vote cuts Medicare, crop insurance, military health, child enforcement, veterans education, and the victims of September 11. It is that simple. Again, these are good discussions, nice philosophical arguments, but the facts are still the facts. If you vote for the motion to recommit, you are cutting Medicare. If you vote yes, you are allowing us to continue to follow the budget plan that has been put in place.

Mr. Speaker, I continue to reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield myself such time as I may consume.

Let me make clear that the motion to recommit will wipe clean the scorecard, \$125 billion on the scorecard this

year. It will wipe it clean for 2003. It will only apply to the future and it will only require that the President give us a budget which shows some light at the end of the tunnel, a balanced budget by 2008. So for this year and next year, it will allow us the freedom of movement without being concerned about it.

Mr. Speaker, I yield 2 minutes to the gentleman from Texas (Mr. BENTSEN).

(Mr. BENTSEN asked and was given permission to revise and extend his remarks.)

□ 1915

Mr. BENTSEN. Mr. Speaker, this will probably be the last legislative item that I will debate in my House career; and it is ironic that, given that when I came here as a Member of the House we heard about how we had deficits as far as the eye can see, and, in fact, even before that when I was a member of the staff of this body back in the 1980s we went through a quadrupling of the national debt and we went through Gramm-Rudman I and Gramm-Rudman II, and we never could seem to get a handle on the deficit until 1990 with the Budget Control and Enforcement Act, and we imposed PAYGO and spending caps. Then we extended it in 1993. Then when I got here the Republicans extended in 1997. Then, lo and behold, we got control of the deficit, and we began to argue about how much public debt we could pay down.

Now, in the age of deficits again where we are going to have a \$200 billion deficit in the current fiscal year, apparently, we are going to repeal all the rules. We might as well repeal the Unified Budget Act and go back to the pre-68 rules when we do not know what the real budget is, the Committee on Appropriations can spend what they want to, the Committee on Ways and Means and Energy and Commerce committee can spend what they want to, and at some point, at some point, the American people will pay the tab.

I am afraid that is where we are heading with this. I do not think this is where the chairman wants to go, but I understand he has to follow his orders. But how ironic, coming in when it was deficits as far as the eye can see, and we had a chance to pay down the debt and we started to do it, I leave on a note where once again it is deficits as far as the eye can see; and we are not doing anything to correct it. In fact, we are stepping on the gas to make it even worse.

I think we are going to regret this day for a long time when we see our national debt balloon far beyond anything this country has ever seen before, and I do not think there is any Member of this House who has an idea of how they are going to deal with it, particularly if they do this today. So I hope we will defeat this really unsatisfactory piece of legislation.

Mr. NUSSLE. Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 4 minutes to the gentleman from North Carolina (Mr. PRICE).

Mr. PRICE of North Carolina. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I rise in support of the motion to recommit, which our distinguished colleague from South Carolina (Mr. SPRATT) will be offering.

Today's vote represents a fork in the road of Federal budgeting. We must decide whether to continue down the path of deeper budget deficits or to take those first difficult steps toward returning to a balanced budget.

The pay-as-you-go rule expired at the end of fiscal year 2002. However, PAYGO sequestration for prior laws extends through 2006. These PAYGO rules, which were adopted as part of the 1990 bipartisan budget agreement, have been crucial to the progress that we made during the 1990s to go from record budget deficits to budget surpluses, surpluses that let us retire \$400 billion in the national debt.

With the help of PAYGO and statutory limits on discretionary spending, we were able to improve the bottom line of the budget for 8 consecutive years, culminating in surpluses for fiscal years 1998 through 2000. Unfortunately, the 10-year, \$5.6 trillion surplus that was projected less than 2 years ago has almost disappeared, and the budget has fallen back into annual deficit.

Now more than ever, it is essential that we reaffirm our commitment to the budget tools that can help us restore budget discipline and return the Federal Government to a balanced budget. That is why I am disappointed that the Republican leadership has decided to bring to the floor legislation that would eliminate PAYGO sequestration for all future years to which the law applies.

Mr. Speaker, no one wants across-the-board cuts to Medicare or veterans' education or child support enforcement or other domestic priorities; and contrary to the assertion of the chairman of the Committee on the Budget, the motion to recommit would do no such thing.

The Republican solution, that we ignore the long-term budget deficits facing our Nation, will not make them go away. We should not ignore our budget problems; we should work to solve them.

The Spratt motion to recommit would avoid domestic spending cuts by clearing the PAYGO scorecard for 2002 and 2003. But unlike H.R. 5708, the Spratt motion would require the President to submit a budget that achieves balance within 5 years, excluding the Social Security trust fund surplus, before clearing the PAYGO scorecard for fiscal years 2004 through 2006. The motion to recommit would, therefore, hold Republicans and the President to their professed goal of achieving fiscal balance and protecting Social Security revenues in the process. To avoid future across-the-board cuts, the President would have to reverse course and move the budget back into surplus.

Mr. Speaker, for several months we have been urging the President to hold bipartisan budget negotiations to chart a path back to fiscal control. It is well past time for the President to present Congress with a budget that acknowledges the new fiscal realities confronting our Nation. I urge my colleagues to vote for the motion to recommit and to take the first steps toward restoring fiscal discipline to the Federal budget.

Mr. NUSSLE. Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 2 minutes to the gentleman from Wisconsin (Mr. KIND).

(Mr. KIND asked and was given permission to revise and extend his remarks.)

Mr. KIND. Mr. Speaker, I thank my friend for yielding me time.

Mr. Speaker, this is not some type of rhetorical debating society we are having tonight or some philosophical argument. This is a group of Members who feel it is important enough to stand up in this body tonight to warn the American people about the disastrous fiscal course that this Congress and this administration have embarked upon, which is leading to exploding deficits again and an accumulation of a national debt at exactly the wrong moment in our Nation's mystery, when we have close to 80 million Americans, so-called baby boom generation, all marching lockstep to their retirement in a few short years; and the decisions that we need to make today to prepare the next generation to deal with that challenge are not being made. In fact, one of the fiscal disciplinary rules that has worked well to rein in spending, to maintain balance in our budgetary choices, they are seeking to waive over the next 5 years.

I think everyone agrees that this bill before us is a recognition of a failed budgetary policy of large tax cuts that were not paid for and new spending programs were not paid for. To avoid the inevitable across-the-board cuts with Medicare and veterans benefits and farm programs, we have to pass this legislation.

But I for the life of me do not understand why we cannot deal with the fiscal mess created this fiscal year, give them a little leeway in the next fiscal year, but then support a motion to recommit that calls upon the President to submit a balanced budget plan that leaves our hands and their hands off from Social Security surpluses in the following years so we have a chance to reverse the fiscal course that we have embarked upon.

What is different today than in the past is we do not have the luxury of the 1990s to bring the budget back into balance and to run surpluses to reduce the debt before the baby boomers start their retirement. It is now or never. We can be back next year having another philosophical debate, but at that time we are going to be much deeper in the hole; and I cannot think of anything

more morally irresponsible than to leave the next generation with this mountain of debt for them to bail the country out of.

Mr. NUSSLE. Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 2 minutes to the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. Mr. Speaker, in 1990, President Bush, looking at runaway deficits, put his political career on the line, convened a bipartisan summit on the budget and produced some very important budget rules to get a handle on these out-of-control deficits. Perhaps the most important facets of those rules were pay-as-you-go requirements, requirements that if you spend more tax money, you have got to show where it is accounted for in the budget so you do not run the deficits deeper. If you cut revenue, you got to show where it is accounted for and reduce spending so you do not run those deficits deeper. Those pay-as-you-go requirements have been critical to getting us to a surplus.

Now we are once again dealing with another President and runaway deficits, and we are looking at a completely different response.

I have read with interest accounts of the majority in terms of their agenda for the Congress ahead: make the tax cuts permanent, add prescription drug coverage to Medicare. On the one hand you reduce revenue, on the other hands you increase spending. I am wondering how does all this add up? With this legislation we see they have no intention whatsoever of making it add up. They are going to do it on the deficit. They are going to run up the debt.

Now, the motion to recommit deals with every spending problem that the chairman has illustrated tonight, Medicare fraud programs, the like of it. But over the long term, can we not agree as Republicans and Democrats that this is not the decade to run government on the debt? Because next decade, as the baby boomers retire, expenses are inevitably going to go up, and go up significantly.

This will be the greatest self-indulgent act of the self-indulgent baby boom generation if we do not pay our way now and rely on the kids to bail out the debt that this will bring upon the country. There is not a family I represent that plans for their retirement by running up the debt with the hope that the children will pay for them in retirement. It is wrong for us to do it as a country. Let us reject this approach. Let us pass the motion to recommit.

Mr. NUSSLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the very distinguished gentleman who just spoke suggested that he read with interest our plan, and we all appreciate the fact that he did read with interest our plan. At least we have a plan to read. Since September 11, the Democrats in both bodies have yet to present a plan on how to deal with this.

We understand that you oppose our position. We understand that you oppose the President's plan. We understand that you oppose the direction that we have taken, and that is fine. You have a right to do so.

But I also believe if you are going to complain, you also need to propose; and as of yet, your side has yet to propose an alternative. That is why tonight we are forced to continue to go down the road that we are going, continue to follow the plan that we have put into place in the House, together with the President, and that is why tonight it is important for us to vote down the motion to recommit, which would not follow that plan, and allow this bill to pass so that we do not provide cuts in Medicare and crop insurance, which I know are important to the gentleman as well as to myself and our States, as well as to military health, child enforcement, veterans' education and the victims of September 11.

It is, again, not a philosophical discussion, as the gentleman from Wisconsin said. These are real issues that are going to affect people in a real way. We want to prevent the cuts from happening. As of yet, we see no plan on how to accomplish what you are demanding from the President, even from your side, not even an idea, not even a plan.

A few are bold enough to come down and say raise taxes. A few are bold enough to come down and say that entitlements should be increased. But, by and large, I have not seen anything that has gotten close to a majority of support from the Democratic side.

So I would suggest to the gentleman that while he reads with interest our plan, we wait with interest for yours.

Mr. SPRATT. I yield 30 seconds to the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. Mr. Speaker, I thank the gentleman for yielding me time.

I would just say in response to my friend from Iowa, the question I had about the gentleman's plan is how we pay for it. I see the revenue cuts, I see the spending increases, and the question I had was, How is this paid for?

I believe that by eliminating the budget rules, as you do in this resolution, the answer is clear: you have no intention of paying for it. You will pay for it on the debt that you will pass on to our children.

We would propose in our motion to recommit another way. Let us at least agree that by 5 years from now, by 5 years from now, on a bipartisan basis, we will be having plans to get us to a balanced budget and stop the debt on our children.

Mr. NUSSLE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, the gentleman is asking how are we going to pay for it? We passed a budget. That is how we are going to pay for it.

But I guess my question is, How did you pay for your Medicare plan that

you voted for which costs \$1 trillion? How were you going to pay for that? Let me see here: POMEROY, POMEROY, why, my goodness, POMEROY is on here, without a budget. The gentleman from North Dakota voted for a plan that cost \$1 trillion, and yet he has the audacity to come down and ask how I am going to pay for it?

Let me look at another one here. Let us see, tax cuts. Oh, I cannot believe the gentleman from North Dakota would have voted for tax relief. POMEROY. My goodness, he voted to reduce revenue, and he does not have a budget; and he comes down and asks me how I am going to do it?

The double standard here is amazing.

□ 1930

We have a plan. I know the gentleman does not like it. Fine. Vote no. That is fine. But realize that when the gentleman votes no tonight, he is voting no for seniors. He is voting no for farmers. He is voting no for folks who are veterans. He is voting no for people who rely on these programs. Go ahead and vote no. Knock yourself out. Have a great philosophical discussion. These are facts that the gentleman cannot avoid. That is what he is voting no on. So it is great that he gets to vote for these great programs, trillion dollar drug benefits that the gentleman does not pay for and tax cuts that are not paid for, but then he comes down here and complains about our budget. Come up with a budget, come up with a plan, come up with some ideas, and then come back and tell us why ours are wrong. Otherwise, just vote no tonight and suffer the consequences.

Mr. Speaker, I reserve the balance of my time.

Mr. SPRATT. Mr. Speaker, I yield 15 seconds to the gentleman from North Dakota (Mr. POMEROY).

Mr. POMEROY. Mr. Speaker, I would just say back to my friend, the gentleman from Iowa, the issue is over 5 years, can we not agree we ought to balance the budget? The gentleman's plan does not balance the budget, the plan runs up on the debt. The gentleman has run into the budget rules that require pay-as-you-go requirements and tonight he eliminates those budget rules. This is Katie-bar-the-door on deficit spending and the chairman of the Committee on the Budget owes a great deal of personal responsibility for this action.

Mr. SPRATT. Mr. Speaker, I yield 2 minutes to the gentleman from Tennessee (Mr. TANNER).

(Mr. TANNER asked and was given permission to revise and extend his remarks.)

Mr. TANNER. Mr. Speaker, right now, I do not believe that the majority of the people in this country realize that we are in debt over \$6 trillion; we are paying \$1 billion a day in interest on consumption that we are either unwilling to make cuts to bring the budget into balance, or we are unwilling and do not have the courage to raise

the revenue for a first class, world class military, a first class system of education, a health care system second to none.

Last year we ran a unified deficit of \$159 billion. The statutory debt ceiling will probably have to be increased again next year, creating further incentive for Congress to borrow more money, and it is in this light we are asked to vote on a bill that throws out the PAYGO rules, and for erasing the \$60 billion debt. We are here tonight because the PAYGO rules have failed. We are passing on more and more debt to our children. Those are the facts.

I would say to the gentleman from Iowa, my friend, you all are in control of this place, you are in charge, and all we are asking is that there be some plan put in place before we throw these rules out, these budgetary rules for 5 years, to at least get us, talk with us to get back to a plan that will let us get back in the black in 5 years.

Mr. Speaker, I came here in 1988 because our country was awash in red ink and, sadly, tonight, in 2002, we are back awash in a sea of red ink for as far as the eye can see. We are engaged in a generational mugging of the young people of this country on a scale that is massive and has never before been done, and we are unwilling, all of us, Democrats, Republicans, Independents, you name it, we are unwilling to face up to it. If my colleagues will not talk to us and bring these bills where we cannot even have a chance to sit down and say within the next 5 years can we not agree on a plan as Americans, not as Democrats and Republicans, as Americans with a moral obligation to those who follow. That is all we are asking for.

Mr. SPRATT. Mr. Speaker, I yield 1½ minutes to the gentleman from Arkansas (Mr. BERRY).

Mr. BERRY. Mr. Speaker, I thank the gentleman from South Carolina for yielding me this time, and I appreciate his leadership.

Mr. Speaker, I can tell my colleague this, I say to the gentleman from Iowa. He may think it is cute, he may think it is funny, he may think it is smart to stand over there and act like the Blue Dogs did not submit a plan. He may think that because he put a rule up here that would not let us put a plan on the floor to be voted on that he did something cute. But let me tell my colleague something. He can continue to be intellectually dishonest, he can continue to deceive the American people, but he is passing on a burden to our children and grandchildren, and I will not be a part of it, and he is going to answer for it one of these days, and he deserves it. But I can tell my colleague this: It is not cute. So when my colleague is over there making those smart remarks, just remember, it is not funny.

Mr. SPRATT. Mr. Speaker, I yield myself the remaining time to explain to everybody what is happening here.

In 1990, after years of trying to get our hands around the deficit, we finally

had a budget summit with President Bush and we devised not only a 5-year plan for reducing the deficit, but we also passed something called a Budget Enforcement Act and it contained several new rules, budget process controls which have had a significant impact on our ability to get rid of the deficit.

In particular, we adopted a set of discretionary spending ceilings, a ceiling on discretionary spending, we adopted it in 1991, we renewed it in 1993, and we extended it in 1997, and that held discretionary spending to substantially lower rates of increase than the 1980s. We also adopted something called the pay-as-you-go rule, which said with respect to entitlement spending, if you want to liberalize the entitlement benefit or add a new one, you have to pay for it or you have to go through the catalog of all of the other entitlements and reduce the entitlement by enough to pay for the new one you are creating or an increase in the benefit that you are providing for. In addition, with respect to tax cuts, we said if you want a tax cut, it will have to be budget neutral. You can cut taxes one place, but you have to increase them elsewhere so the deficit is not worsened, or you can offset a tax cut with an entitlement cut so that once again it is budget neutral.

A lot of people at the time scoffed at these process changes on the grounds that we were just rearranging the deck chairs and they would not have any real results. One of those who was skeptical at the time was Alan Greenspan, the chairman of the Fed. When he appeared before our committee this March, March 2, he said in response to my question, Congressman, I thought that whole set of rules had very little chance of working, and I was wrong. It really did matter, much to my surprise. The PAYGO rules, for example, have been extremely and always very useful. That is what the Chairman of the Fed said. He came back to us in September and repeated and said the same thing.

The gentleman from Iowa (Mr. NUSSLE), the chairman of our committee, on June 27 acknowledged that the President was seeking an extension of the discretionary caps and the PAYGO requirement and implied that that needed to be done. I think he and I were in basic agreement on that.

What has happened is we never did it. I introduced legislation to that effect and it has never come to the floor of this place; we have never had a hearing on it. We have never done it. So we are here just before adjournment, the discretionary spending caps are gone in 2002. They are gone. The PAYGO rule has expired. It is gone. The 5-year budgets that we adopted in 1991 and 1993 and 1997 are gone. The last one ran out in 2002.

So all of the devices we had to control the budget that worked spectacularly well in the 1990s; we reduced the deficit from \$290 billion when President Bush left office to \$330 billion surplus

in 2000. When President Bush came to office, the second President Bush came to office, unlike his father, we gave him a budget in surplus, \$127 billion in surplus. It is gone, and the budget devices that worked so well to help us contain the deficit, reduce the deficit every year for 8 straight years in the 1990s are gone too, and there is no effort here to reintroduce them.

Now, there is one last vestige of the PAYGO rule. PAYGO required sequestration, across-the-board cuts. If you ignored the PAYGO rule and increased entitlements or cut taxes and therefore increased the deficit, there was a scorecard kept, and at the end of the year if that scorecard showed an excess amount on it, the law decreed across-the-board reductions in spending in selected accounts. We are now faced with that particular law for this year and for years to come, because even though the PAYGO rule has expired, it still applies as to existing law and future years.

This bill takes out that last vestige. We have done away with sequestration as to any future legislation, we have done away with the PAYGO rule and discretionary spending, no 5-year budget at all, it takes that last vestige. What it does, even worse, is it passes up the opportunity to take the legislation that we have offered to extend the PAYGO rule, to extend the authority for 5-year discretionary spending caps, to extend the authority for sequestration, to reinstall those budget disciplines, those process rules that got rid of the deficit in the 1990s, to reinstate them. This bill completely ignores that opportunity and simply wipes the slate clean.

So what is happening here? What is this all about? The purpose of this is to clear the way for the next session of Congress with no disciplines whatsoever; tax cuts as much as you want. There will be no restraints, no 60-vote margins in the Senate, no other restraints, no PAYGO rules that have to be waived, no scorecard, nothing. This takes away all of the discipline at a time when the budget is literally in free-fall.

We have a deficit that increases this year to \$159 billion from a surplus of \$127 billion last year. It goes up next year and the next year and the next year, and there is no plan in place, nothing implicit in the budget, no 5-year plan to deal with it, and this erases any hope whatsoever of that.

Now, we are offering, we are offering a motion to recommit. The gentleman from Kansas (Mr. MOORE) will offer that motion, and it will simply say as of this year, next year, go ahead and wipe the scorecard clean. But as to future years, the scorecard will still be there, the PAYGO rule will still have that remaining applicability. However, it will not apply if the President sends us a budget which gets in balance finally by the year 2008.

Mr. Speaker, that is a small thing to ask. If we are going to have any kind of

discipline, any kind of planning, it is the right thing to ask for. The right way to vote on this bill is to vote for the motion to recommit and then we will have something that we can live with and something that leaves at least some small modicum of discipline in place.

Mr. NUSSLE. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, budgeting is about choices, and it is about putting together a plan. We did so together with the President this last year. All of the items that we find on the PAYGO scorecard fit within that plan. All of the items as a result need to be taken care of as a result of that plan. This is our proposal to do so to avoid automatic sequestration by OMB.

There has been a number of comments made tonight and I just want to respond to them. First of all, there have been those that say they want to sit down and they want to talk about the future budget, and that is fine. But you need a ticket to the dance and your ticket to the dance is to come up with a plan. Now, the Blue Dogs say they came up with a plan. Well, it is kind of interesting, the Blue Dogs, so-called Blue Dog plan was basically the Republican budget with a trigger. All right. That is kind of interesting. They did not really come up with any other ideas, except for the Republican budget with a trigger. Okay. It did not get any votes, and it did not get the majority of the votes, and, as a result, it really does not qualify much as a plan because it was our plan.

There were really no other plans brought to the table. There were individual bills, however; substitutes, individual proposals. The gentleman from Texas had a farm bill that evidently does not technically fit if in fact you do not have a budget. The gentleman wrote it, wrote it under our budget, supported it, worked hard on it, I compliment the gentleman on it, I voted for it, because it fit within our budget plan. It would not fit now, would it, I would say to the gentleman and to any of my colleagues. Yet should we have automatic spending cuts? Should we have automatic cuts in Medicare in order to pay for it? No. And that is what this bill tonight does. It basically says we should not have automatic cuts in Medicare in order to accomplish that.

□ 1945

I will admit to my colleagues on both sides, and the gentleman from Arkansas, if he thought I was trying to be funny, I was not, because there is nothing funny about it; this is very serious. It is serious for both sides, because it is fine to come down here and say that the tax cuts were too big. Then have the guts to introduce a bill to repeal them. Have the guts to come down here and vote to increase taxes.

They do not have a plan that does that. I do not see too many people with the guts to introduce that kind of legislation.

The same is true on our side, though. We always talk about spending restraint. Boy, we can be spellbinding some nights about how we are going to restrain spending, cut spending. We have even said "cut spending" when in fact that is not really what is going on very often around here. Maybe it is allowing it to grow less than somebody's idea of where it should be, and therefore somebody thinks it has been cut.

The bottom line is, as we go into this next budget, we have some huge choices that we are going to have to make. We have to be serious about them. But I do think that because of the situation that we find ourselves in it is fair to allow, particularly with PAYGO, which was never written to work during times of surpluses, it was only, only written and contemplated for times of deficits, that we should allow that to expire and rewrite the rules.

While we allow that to expire, wiping the slate clean I think is a fair thing to do, particularly if it is going to result in cuts in Medicare, crop insurance, veterans' education, child support recovery, and the victims of September 11.

So what we are suggesting tonight is very simple. That is what the vote is about. This is not about the budget. There is no budget process reform in this bill, trust me. I have written a budget process reform bill. I would know one when I saw it. This is not it, either. All this does is it does two things. It says, follow the budget; and do not allow for automatic cuts in Medicare, crop insurance, military, child support, veterans' education, September 11, and actually a whole host of other automatic cuts that would occur.

Mr. SPRATT. Mr. Speaker, will the gentleman yield?

Mr. NUSSLE. I yield to the gentleman from South Carolina.

Mr. SPRATT. Mr. Speaker, would it be the chairman's intention in the next Congress to introduce legislation, pass it through our committee, bring it to the floor, which would reinstate discretionary spending caps and the PAYGO rule for 5 additional years?

Mr. NUSSLE. Reclaiming my time, Mr. Speaker, the gentleman and I need to discuss that. I would be not only very happy to consider that, but I would even go further with regard to budget process issues. There are a number of them that should be discussed, now that we have an opportunity to do so.

I would hope that we can do that quietly and calmly and with sober regard to the consequences of our actions. We have not done that. Unfortunately, people around here do not necessarily follow the budget process as well as they should; and as a result, demagoguery has reigned with regard to many of these budget rules in the past with regard to changes that we have tried to bring to the floor.

I would hope that we could bring a budget process reform bill to the floor;

I have written a PAYGO extension in the past that actually contemplated this very situation that we are in; and I would hope also caps.

Mr. SPRATT. If the gentleman would yield further, Mr. Speaker, and sequestration?

Mr. NUSSLE. I want to make the budget have the force of law, so that we cannot waive it all the time on the floor. That is a proposal that I recommended. There are a number that I would suggest that the committee and the Congress need to consider.

But tonight we have a very simple situation that we need to address. It has been ministerially addressed in years past, and we should do so again tonight, and join together and prevent cuts to Medicare, crop insurance, military health, child support enforcement, veterans' education, and the victims of September 11.

Let us follow the budget plan, let us pass this bill, and let us reject the motion to recommit, which basically says: let us not follow a plan, but let us wait and cut Medicare 3 years from now.

Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. ISAKSON). Pursuant to House Resolution 602, the bill is considered as read for amendment, and the previous question is ordered.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

MOTION TO RECOMMIT OFFERED BY MR. MOORE

Mr. MOORE. Mr. Speaker, I offer a motion to recommit.

The SPEAKER pro tempore. Is the gentleman opposed to the bill in its present form?

Mr. MOORE. Yes, Mr. Speaker, I am. The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. MOORE moves to recommit the bill H.R. 5708 to the Committee on the Budget with instructions to report the same back to the House forthwith with the following amendment:

Strike all after the enacting clause and insert the following:

SEC. 1. REDUCTION OF PREEXISTING PAYGO BALANCES.

Upon the enactment of this Act, the Director of the Office of Management and Budget shall reduce any balances of direct spending and receipts legislation for fiscal years 2002 and 2003 under section 252 of the Balanced Budget and Emergency Deficit Control Act of 1985 to zero. If the President submits a budget for the Government under section 1105(a) of title 31, United States Code, that projects an on-budget balance or an on-budget surplus by fiscal year 2008, then such Director shall reduce all balances of direct spending and receipts legislation under such section 252 to zero.

Mr. MOORE (during the reading). Mr. Speaker, I ask unanimous consent that the motion to recommit be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Kansas?

There was no objection.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Kansas (Mr. MOORE) is recognized for 5 minutes in support of his motion to recommit.

Mr. EDWARDS. Mr. Speaker, will the gentleman yield?

Mr. MOORE. I yield to the gentleman from Texas.

(Mr. EDWARDS asked and was given permission to revise and extend his remarks.)

Mr. EDWARDS. Mr. Speaker, I rise in support of the motion to recommit and in opposition to the Republican deficit tax.

Mr. Speaker, if the House Republican leadership continues forward with its fiscally irresponsible tax policies, it will be responsible for passing the largest tax increase in American history—the deficit tax. The deficit tax is real. It is permanent. It is a tax on small businesses and families all across America. In fact, on a per capita basis, the deficit tax cost each American citizen over \$1000 last year. Very simply, as the \$6 trillion national debt is increased, it increases the interest payments on that debt, which must be paid by taxing hard-working American families.

As bad as the deficit tax is, there's even another burden resulting from increasing the national debt. It is called higher interest rates on loans for homes, cars, credit cards and small business. When the economy gets back on its feet, borrowing hundreds of billions of dollars to finance a huge national deficit will drive up interest rates, in effect, a tax increase on families and businesses.

We all know that this measure tonight to address the pay-go rules was necessary for this year and next in order to prevent major cuts in entitlement programs such as Medicare and veterans benefits. However, by opposing the Moore motion to recommit, the Republican leadership in this House is throwing out fiscal discipline rules for several years after that. I will vote for this measure, because we cannot allow Medicare and veterans benefits to be slashed, but the Republican leadership, by forcing an up or down vote on suspending pay-go rules for the next four to five years, is leading this House down the path of higher national debt, higher annual deficits, and, yes, a deficit tax on our families and our children for the rest of their lives.

House Republicans may brag about tax cuts at election time, but they should be honest in telling our families and children that they are imposing a permanent deficit tax that will take dollars out of their paychecks for generations to come.

Instead of partisan budget bills, what this Congress should do for the good of our economy and the future of our children is to sit down on a bipartisan basis and make tough decisions on how to balance the federal budget.

That would be the right thing to do.

Mr. MOORE. Mr. Speaker, a year ago, several of my colleagues and I who believe in fiscal responsibility urged caution in making long-term commitments for tax cuts or new spending programs. We were concerned that budget projections were based on unrealistic economic assumptions and that the projected surplus might never mate-

rialize. We were concerned that large tax cuts and spending programs could drive up the deficit and add to our \$6.3 trillion national debt. Our warnings were ignored.

This year, Congress will be borrowing virtually all of the Social Security surplus for the next decade. There were those who said we will have enough money for everything. That turned out not to be true, Mr. Speaker. Next year we will have a deficit of \$127 billion.

Today Congress is considering legislation that would wipe the slate clean for the next 5 years. This would allow Congress to avoid responsibility for legislation, adding billions more to the national debt by wiping clean the PAYGO scorecard. What is worse, this bill provides no safeguard for the future, Mr. Speaker; no guarantees that our children and grandchildren will not suffer under a massive national debt, now at \$6.3 trillion.

American families live by three basic rules: number one, do not spend more money than you make; number two, pay your debts; number three, invest in the basics of the future. I think Congress should live by those same simple rules.

I am glad that American families do not use Congress' accounting methods, Mr. Speaker. American families cannot wipe the slate clean when they overspend. The Blue Dogs have repeatedly said that Congress and the President need to sit down and develop a plan to deal with our escalating national debt: no recriminations, no finger-pointing, or blaming, but just sit down and try to come up with a plan out of this crisis. Unfortunately, our calls have been ignored, leaving us in the situation we face today.

This motion to recommit requires as a condition of waiving the PAYGO rules that the President present a balanced budget next year. The President's budget would be required to put us on a path to balancing the budget by 2008 without borrowing the Social Security surplus, a goal that I believe every Member of this Congress wants.

This motion to recommit allows the slate to be wiped clean for fiscal year 2003 to avoid sequestration, because it is too late to do anything about the current fiscal year. There would be no cuts in any programs that have been commented on by the chairman of the Committee on the Budget. This is the least we can do to stop the bleeding, to turn back red ink and get us in the black again, and to get our country out of the deficit ditch and back on the way to fiscal responsibility.

Mr. NUSSLE. Mr. Speaker, I rise in opposition to the motion to recommit.

The SPEAKER pro tempore. The gentleman from Iowa (Mr. NUSSLE) is recognized for 5 minutes.

Mr. NUSSLE. Mr. Speaker, the President said in his first address to the Congress that there were three reasons why this country may have to return to deficits: one was an emergency, one was a war, one was an economic reces-

sion. There is no one in this body who predicted any of those three.

Warnings were not heeded? Wake up. There was not anybody warning about Osama bin Laden and September 11, so do not make those accusations. They are not true. That is why we find ourselves in a deficit.

The President submitted a plan last year, and he will submit a plan this year, which he must do by law. The House last year passed a plan. The House will do so again this year, which we must do so by law.

The other body, and I know I have to be careful, here. I do not want to say anything wrong, because we have our rules. However, my understanding is what I am allowed to say is that no budget passed in the other body last year. We will wait and see what happens this next year.

The point I am getting at is that we need a plan in order to move forward. The President has proved he has a plan. The House has proved they have a plan. No other plans have been presented. No other plans have received a majority of support. No other plans have seen the light of day. Therefore, let us follow the plan that the President has laid out.

Let us not allow us to get off track with absolutely no vision for the future, which is what is being suggested here tonight. Instead, let us reject the motion to recommit, and let us vote to prevent automatic cuts to Medicare, to veterans' health, to veterans' benefits, veterans' education, to crop insurance, and the like. These Draconian cuts are not necessary if we continue to follow the plan that the President and the House has laid out.

I urge my colleagues to vote "no" on the motion to recommit and vote to prevent these cuts on final passage.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SPRATT. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of passage.

The vote was taken by electronic device, and there were—ayes 187, noes 201, not voting 43, as follows:

Ms. WATERS changed her vote from "aye" to "no."

Ms. RIVERS changed her vote from "no" to "aye."

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

PERSONAL EXPLANATION

Mr. BEREUTER. Mr. Speaker, on November 14, 2002, this Member unavoidably missed two roll call votes. On Roll Call Number 481 (motion to recommit on H.R. 5708, a bill to reduce pre-existing PAYBO Balances), this Member would have voted "no." On Roll Call Number 482 (final passage of H.R. 5708), this Member would have voted "aye."

"SEC. 877A. TAX RESPONSIBILITIES OF EXPATRIATION.

"(a) GENERAL RULES.—For purposes of this subtitle—

"(1) MARK TO MARKET.—Except as provided in subsections (d) and (f), all property of a covered expatriate to whom this section applies shall be treated as sold on the day before the expatriation date for its fair market value.

"(2) RECOGNITION OF GAIN OR LOSS.—In the case of any sale under paragraph (1)—

"(A) notwithstanding any other provision of this title, any gain arising from such sale shall be taken into account for the taxable year of the sale, and

"(B) any loss arising from such sale shall be taken into account for the taxable year of the sale to the extent otherwise provided by this title, except that section 1091 shall not apply to any such loss.

Proper adjustment shall be made in the amount of any gain or loss subsequently realized for gain or loss taken into account under the preceding sentence.

"(3) EXCLUSION FOR CERTAIN GAIN.—

"(A) IN GENERAL.—The amount which, but for this paragraph, would be includible in the gross income of any individual by reason of this section shall be reduced (but not below zero) by \$600,000. For purposes of this paragraph, allocable expatriation gain taken into account under subsection (f)(2) shall be treated in the same manner as an amount required to be includible in gross income.

"(B) COST-OF-LIVING ADJUSTMENT.—

"(i) IN GENERAL.—In the case of an expatriation date occurring in any calendar year after 2002, the \$600,000 amount under subparagraph (A) shall be increased by an amount equal to—

"(I) such dollar amount, multiplied by

"(II) the cost-of-living adjustment determined under section 1(f)(3) for such calendar year, determined by substituting 'calendar year 2001' for 'calendar year 1992' in subparagraph (B) thereof.

"(ii) ROUNDING RULES.—If any amount after adjustment under clause (i) is not a multiple of \$1,000, such amount shall be rounded to the next lower multiple of \$1,000.

"(4) ELECTION TO CONTINUE TO BE TAXED AS UNITED STATES CITIZEN.—

"(A) IN GENERAL.—If a covered expatriate elects the application of this paragraph—

"(i) this section (other than this paragraph and subsection (i)) shall not apply to the expatriate, but

"(ii) in the case of property to which this section would apply but for such election, the expatriate shall be subject to tax under this title in the same manner as if the individual were a United States citizen.

"(B) REQUIREMENTS.—Subparagraph (A) shall not apply to an individual unless the individual—

"(i) provides security for payment of tax in such form and manner, and in such amount, as the Secretary may require,

"(ii) consents to the waiver of any right of the individual under any treaty of the United States which would preclude assessment or collection of any tax which may be imposed by reason of this paragraph, and

"(iii) complies with such other requirements as the Secretary may prescribe.

"(b) ELECTION TO DEFER TAX.—

"(1) IN GENERAL.—If the taxpayer elects the application of this subsection with respect to any property treated as sold by reason of subsection (a), the payment of the additional tax attributable to such property shall be postponed until the due date of the return for the taxable year in which such property is disposed of (or, in the case of property disposed of in a transaction in which gain is not recognized in whole or in part, until such other date as the Secretary may prescribe).

"(2) DETERMINATION OF TAX WITH RESPECT TO PROPERTY.—For purposes of paragraph (1), the additional tax attributable to any property is an amount which bears the same ratio to the additional tax imposed by this chapter for the taxable year solely by reason of subsection (a) as the gain taken into account under subsection (a) with respect to such property bears to the total gain taken into account under subsection (a) with respect to all property to which subsection (a) applies.

"(3) TERMINATION OF POSTPONEMENT.—No tax may be postponed under this subsection later than the due date for the return of tax imposed by this chapter for the taxable year which includes the date of death of the expatriate (or, if earlier, the time that the security provided with respect to the property fails to meet the requirements of paragraph (4), unless the taxpayer corrects such failure within the time specified by the Secretary).

"(4) SECURITY.—

"(A) IN GENERAL.—No election may be made under paragraph (1) with respect to any property unless adequate security is provided to the Secretary with respect to such property.

"(B) ADEQUATE SECURITY.—For purposes of subparagraph (A), security with respect to any property shall be treated as adequate security if—

"(i) it is a bond in an amount equal to the deferred tax amount under paragraph (2) for the property, or

"(ii) the taxpayer otherwise establishes to the satisfaction of the Secretary that the security is adequate.

"(5) WAIVER OF CERTAIN RIGHTS.—No election may be made under paragraph (1) unless the taxpayer consents to the waiver of any right under any treaty of the United States which would preclude assessment or collection of any tax imposed by reason of this section.

"(6) ELECTIONS.—An election under paragraph (1) shall only apply to property described in the election and, once made, is irrevocable. An election may be made under paragraph (1) with respect to an interest in a trust with respect to which gain is required to be recognized under subsection (f)(1).

"(7) INTEREST.—For purposes of section 6601—

"(A) the last date for the payment of tax shall be determined without regard to the election under this subsection, and

"(B) section 6621(a)(2) shall be applied by substituting '5 percentage points' for '3 percentage points' in subparagraph (B) thereof.

"(c) COVERED EXPATRIATE.—For purposes of this section—

"(1) IN GENERAL.—Except as provided in paragraph (2), the term 'covered expatriate' means an expatriate.

“(2) EXCEPTIONS.—An individual shall not be treated as a covered expatriate if—

“(d) EXEMPT PROPERTY; SPECIAL RULES FOR PENSION PLANS.—

“(1) EXEMPT PROPERTY.—This section shall not apply to the following:

“(A) UNITED STATES REAL PROPERTY INTERESTS.—Any United States real property interest (as defined in section 897(c)(1)), other than stock of a United States real property holding corporation which does not, on the day before the expatriation date, meet the requirements of section 897(c)(2).

“(B) SPECIFIED PROPERTY.—Any property or interest in property not described in subparagraph (A) which the Secretary specifies in regulations.

“(2) SPECIAL RULES FOR CERTAIN RETIREMENT PLANS.—

“(A) IN GENERAL.—If a covered expatriate holds on the day before the expatriation date any interest in a retirement plan to which this paragraph applies—

“(i) such interest shall not be treated as sold for purposes of subsection (a)(1), but

“(ii) an amount equal to the present value of the expatriate’s nonforfeitable accrued benefit shall be treated as having been received by such individual on such date as a distribution under the plan.

“(B) TREATMENT OF SUBSEQUENT DISTRIBUTIONS.—In the case of any distribution on or after the expatriation date to or on behalf of the covered expatriate from a plan from which the expatriate was treated as receiving a distribution under subparagraph (A), the amount otherwise includible in gross income by reason of the subsequent distribution shall be reduced by the excess of the amount includible in gross income under subparagraph (A) over any portion of such amount to which this subparagraph previously applied.

“(C) TREATMENT OF SUBSEQUENT DISTRIBUTIONS BY PLAN.—For purposes of this title, a retirement plan to which this paragraph applies, and any person acting on the plan’s behalf, shall treat any subsequent distribution described in subparagraph (B) in the same manner as such distribution would be treated without regard to this paragraph.

“(D) APPLICABLE PLANS.—This paragraph shall apply to—

“(i) any qualified retirement plan (as defined in section 4974(c)),

“(ii) an eligible deferred compensation plan (as defined in section 457(b)) of an eligible employer described in section 457(e)(1)(A), and

“(iii) to the extent provided in regulations, any foreign pension plan or similar retirement arrangements or programs.

“(e) DEFINITIONS.—For purposes of this section—

“(1) EXPATRIATE.—The term ‘expatriate’ means—

“(A) any United States citizen who relinquishes citizenship, and

“(B) any long-term resident of the United States who—

“(i) ceases to be a lawful permanent resident of the United States (within the meaning of section 7701(b)(6)), or

“(ii) commences to be treated as a resident of a foreign country under the provisions of a tax treaty between the United States and the foreign country and who does not waive the benefits of such treaty applicable to residents of the foreign country.

“(2) EXPATRIATION DATE.—The term ‘expatriation date’ means—

“(A) the date an individual relinquishes United States citizenship, or

“(B) in the case of a long-term resident of the United States, the date of the event described in clause (i) or (ii) of paragraph (1)(B).

“(B) the date the individual furnishes to the United States Department of State a signed statement of voluntary relinquishment of United States nationality confirming the performance of an act of expatriation specified in paragraph (1), (2), (3), or (4) of section 349(a) of the Immigration and Nationality Act (8 U.S.C. 1481(a)(1)–(4)),

“(D) the date a court of the United States cancels a naturalized citizen’s certificate of naturalization.

Subparagraph (A) or (B) shall not apply to any individual unless the renunciation or voluntary relinquishment is subsequently approved by the issuance to the individual of a certificate of loss of nationality by the United States Department of State.

“(4) LONG-TERM RESIDENT.—The term ‘long-term resident’ has the meaning given to such term by section 877(e)(2).

“(f) SPECIAL RULES APPLICABLE TO BENEFICIARIES’ INTERESTS IN TRUST.—

“(1) IN GENERAL.—Except as provided in paragraph (2), if an individual is determined under paragraph (3) to hold an interest in a trust on the day before the expatriation date—

“(A) the individual shall not be treated as having sold such interest,

“(B) such interest shall be treated as a separate share in the trust, and

“(C)(i) such separate share shall be treated as a separate trust consisting of the assets allocable to such share,

“(ii) the separate trust shall be treated as having sold its assets on the day before the expatriation date for their fair market value and as having distributed all of its assets to the individual as of such time, and

“(iii) the individual shall be treated as having recontributed the assets to the separate trust.

Subsection (a)(2) shall apply to any income, gain, or loss of the individual arising from a distribution described in subparagraph (C)(ii). In determining the amount of such distribution, proper adjustments shall be made for liabilities of the trust allocable to an individual’s share in the trust.

“(2) SPECIAL RULES FOR INTERESTS IN QUALIFIED TRUSTS.—

“(A) IN GENERAL.—If the trust interest described in paragraph (1) is an interest in a qualified trust—

“(i) paragraph (1) and subsection (a) shall not apply, and

“(ii) in addition to any other tax imposed by this title, there is hereby imposed on each distribution with respect to such interest a tax in the amount determined under subparagraph (B).

“(B) AMOUNT OF TAX.—The amount of tax under subparagraph (A)(ii) shall be equal to the lesser of—

“(i) the highest rate of tax imposed by section 1(e) for the taxable year which includes the day before the expatriation date, multiplied by the amount of the distribution, or

“(ii) the balance in the deferred tax account immediately before the distribution determined without regard to any increases under subparagraph (C)(ii) after the 30th day preceding the distribution.

“(C) DEFERRED TAX ACCOUNT.—For purposes of subparagraph (B)(ii)—

“(i) OPENING BALANCE.—The opening balance in a deferred tax account with respect to any trust interest is an amount equal to the tax which would have been imposed on the allocable expatriation gain with respect to the trust interest if such gain had been included in gross income under subsection (a).

“(ii) INCREASE FOR INTEREST.—The balance in the deferred tax account shall be increased by the amount of interest determined (on the balance in the account at the time the interest accrues), for periods after the 90th day after the expatriation date, by using the rates and method applicable under section 6621 for underpayments of tax for such periods, except that section 6621(a)(2) shall be applied by substituting ‘5 percentage points’ for ‘3 percentage points’ in subparagraph (B) thereof.

“(iii) DECREASE FOR TAXES PREVIOUSLY PAID.—The balance in the tax deferred account shall be reduced—

“(I) by the amount of taxes imposed by subparagraph (A) on any distribution to the person holding the trust interest, and

“(II) in the case of a person holding a nonvested interest, to the extent provided in regulations, by the amount of taxes imposed by subparagraph (A) on distributions from the trust with respect to nonvested interests not held by such person.

“(ii) the balance in the tax deferred account immediately before such date.

“(B) **DEFERRED AMOUNT.**—For purposes of this subsection, the deferred amount is the amount of the increase in the covered expatriate’s income tax which, but for the election under subsection (a)(4) or (b), would have occurred by reason of this section for the taxable year including the expatriation date.

The SPEAKER pro tempore. Pursuant to House Resolution 609, the gentleman from California (Mr. THOMAS) and the gentleman from California (Mr. STARK) each will control 30 minutes.

Mr. THOMAS. Mr. Speaker, I ask unanimous consent that the time allotted be 30 minutes in its entirety, divided equally between myself and the gentleman from California (Mr. STARK).

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

The SPEAKER pro tempore. The gentleman from California (Mr. THOMAS)

and the gentleman from California (Mr. STARK) each will control 15 minutes.

The Chair recognizes the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume. I want to thank the gentleman from California for the courtesy so that we can expeditiously examine this very modest bill. As we discussed under the rule earlier, there are three provisions in the bill: one, to correct a flaw dealing with the continuation of TANF, or welfare; secondly, to make sure that the unemployment program, in a modest way, continues until the House reconvenes in the 108th Congress; and the third is to provide the administration with some legal protection if they decide to make some decisions which would allow some adjustments in the Medicare program.

Mr. Speaker, I reserve the balance of my time.

Mr. STARK. Mr. Speaker, I yield myself such time as I may consume.

(Mr. STARK asked and was given permission to revise and extend his remarks.)

Mr. STARK. Mr. Speaker, I suspect that many people will vote for this bill, but it cannot go unnoticed that the bill does not do nearly enough. It is a day late and a dollar short. It does not really improve Medicare and deal with many of the providers. It merely gives the administration, hopefully, the right to correct a glitch in the way physicians are reimbursed. There is some great discussion going on that they may already have that. The fight seems to be that correcting the physician glitch will cost 43 billion bucks and the question is, Do we get billed again for that or does the administration? And does it fit, or increase the deficit or does it not? So there is no guarantee that your physician friends will get their problem corrected. There is some guarantee that the hospitals, nursing homes, rural hospitals, teaching hospitals and the uninsured will absolutely get nothing.

As to the welfare reform bill, there may be a lot of blame as to why we have not reauthorized it; but in any event, since 1996, the day it was passed, the funding for welfare reform, or welfare payments in this country has dropped by 11 percent. We are not doing anything to increase it and that is tragic. Welfare reform is more than a benefit check. It is child care and job training; it is education, the very foundations of self-sufficiency.

It is too bad now, particularly that we do not worry about PAYGO anymore, that we cannot at least deal with the millions of poor families even a tenth as well as we deal with the very rich in the tax cuts that we have given them. Fourteen million families eligible for child care assistance do not receive it and millions of Americans out of work are struggling. We are not doing an adequate job in unemployment, where this bill really falls down. I will turn soon to my colleague from

Maryland, the ranking member of the Subcommittee on Human Resources, to explain that to you. We have spent trillions of dollars in tax cuts for the rich and we are tonight going to talk about a mere billion dollars to extend unemployment benefits for only a small portion of the Americans who are struggling. Again, it is not fair and it is not adequate.

There was a time when we in Congress could hold up our heads high and say that we took care of all Americans who were unable to fend for themselves. We are not even doing that. I think that it is tragic that here we are in the last hours of this Congress and we are attending to something that I do not think any bill at this time could correct all the problems. It is kind of a sad commentary that we have come this far and left so many people impoverished and unaided by a government that has given so much to the wealthy.

Mr. Speaker, I reserve the balance of my time.

Mr. THOMAS. Mr. Speaker it is my pleasure to yield 1 minute to the gentleman from California (Mr. HERGER), the chairman of the Subcommittee on Human Resources of the Committee on Ways and Means.

Mr. HERGER. Mr. Speaker, I rise in support of H.R. 5063, as amended. This bill would temporarily extend unemployment benefits for an additional 5 weeks. It also will extend the funding and rules for the Nation's welfare reform program through March 31, 2003, allowing us additional time to reauthorize the historic 1996 law.

Mr. Speaker, we must keep the pressure on to reauthorize welfare reform for 5 years as quickly as possible. This will be our goal in the next Congress, and we look forward to working with both Republicans and Democrats to get this job done.

I urge my colleagues to support this bill.

Mr. STARK. Mr. Speaker, I am pleased to yield 3 minutes to the distinguished gentleman from Maryland (Mr. CARDIN), the ranking member of the Subcommittee on Human Resources.

Mr. CARDIN. Mr. Speaker, let me thank the gentleman from California for yielding me this time. As the chairman of the Committee on Ways and Means has said, this is a modest bill that moves forward in three areas in a very modest way. It is the last train out of the station, and I would urge my colleagues to support the bill.

Mr. Speaker, it does deal, as the chairman of the Subcommittee on Human Resources said, with a 3-month extension of TANF. That is better than what was in the continuing resolution. It guarantees that our States will receive at least their first quarter payments. That is important. But I know we are all disappointed that we were unable in this Congress to reauthorize the program for 5 years. Certainly we wanted to reauthorize it for more than 3 months.

Secondly, the gentleman from California (Mr. STARK) has already commented on the Medicare provisions. We hope that the provisions here will help the physician reimbursement system. But we are all disappointed that we were unable to complete the structure changes for skilled nursing facilities, rehabilitation therapists, hospitals, home health. There were provisions in here that were noncontroversial for our military. None of that was able to get accomplished in this Congress, and I think we are all very disappointed that we were unable to do that.

But, Mr. Speaker, I want to talk about the third area, unemployment insurance. Yes, there is a modest improvement in the underlying legislation, but I think we should be very disappointed that we have done nothing at all to help the 1.8 million Americans who will have exhausted their unemployment insurance benefits before we will have an opportunity to revisit this program again next year. That is particularly disappointing when you recognize the fact that in every prior recession, in a bipartisan way, we have extended Federal unemployment insurance benefits as a safety net to those who are hurt through the recession through no fault of their own.

We have \$25 billion in the Federal unemployment trust account. The money is there. The number of people suffering from long-term unemployment has doubled over the last year. We know that if we provide assistance that money will get back into the economy quickly and help us in the recovery. That is why in every prior recession, we have been very clear in providing additional help through the Federal unemployment insurance system. Yet in this recession we have failed. I think that is extremely disappointing, and I would hope that we could have done better.

Mr. THOMAS. Mr. Speaker, it is my pleasure to yield 2 minutes to the gentleman from Pennsylvania (Mr. ENGLISH), a member of the Committee on Ways and Means.

Mr. ENGLISH. Mr. Speaker, more than 800,000 unemployed workers throughout the U.S. and over 35,000 in Pennsylvania alone are faced with the grim reality that their unemployment benefits will end just 3 days after Christmas. With the economy in such bad straits and so many working families suffering, we cannot stand by and let the Grinch steal Christmas from the unemployed whose holidays are already constrained by an extended period of unemployment. This cutoff is hanging like a sword of Damocles, like a Grinch, over these families; and we need to act today.

This bill removes the December 28 cutoff on benefits. It allows more than 800,000 unemployed workers nationwide who will already be receiving extended benefits to temporarily continue receiving benefits when the current program expires. This bill extends federally funded benefits by up to 5 weeks

per individual. This bill continues through January 2003 the current availability of additional weeks of federally funded extended benefits in certain high-unemployment States. As a long-time supporter of this issue, I feel it critical that we move now to provide extended unemployment benefits to these families.

I urge my colleagues to join me in standing up to the Grinch and making sure that America's unemployed continue to receive benefits after Christmas.

Mr. STARK. Mr. Speaker, I yield 2 minutes to the gentleman from Michigan (Mr. LEVIN), who understands that while the opposition is willing to spend over a trillion dollars in tax cuts to the wealthy, they are unwilling to make good on their earlier promise to spend a thousandth of that amount to insure nursing home patients.

(Mr. LEVIN asked and was given permission to revise and extend his remarks.)

□ 2045

Mr. LEVIN. Mr. Speaker, first on unemployment comp, the gentleman from Pennsylvania (Mr. ENGLISH), about 35,000 will be benefitted, at the most, 5 weeks. More than twice that will face Christmas having exhausted their benefits and get no help through extended benefits because of the failure of this Congress to act more than twice. So this is not really a modest program. It is really a flawed program and an inferior one because 800,000 will get several weeks. Over 1,800,000 who will exhausted their benefits will get zero, and it will be simply because of the accident of when they exhausted their benefits. If they exhausted them earlier or later, they come up with zero, and that is not the way this country should respond to the needs of people who are unemployed through no fault of their own.

Let me just finish by saying something about this approach in terms of physicians. We needed to do something, but what you are doing is essentially more appearance than it is reality in terms of the cost. You do not come forth here with a proposal that addresses this directly, which will cost \$20 to \$60 billion over 10 years. You do not want CBO to score it. So you come forth and give carte blanche to the administration to do what they say they cannot do anyway, and because it would be done administratively it would not be scored, but it will come out of the budget and will add \$20 to \$80 billion in the deficit over 10 years, and it will not address the other needs of other providers. That really is one modest approach. It is a flawed and inferior approach. It forces us perhaps to vote yes, but realizing the terrible, terrible shortcomings of this approach.

Mr. THOMAS. Mr. Speaker, I yield 1 minute to the gentlewoman from Washington (Ms. DUNN), a member of the Committee on Ways and Means.

(Ms. DUNN asked and was given permission to revise and extend her remarks.)

Ms. DUNN. Mr. Speaker, as we all know, the extended unemployment benefits we passed last year are due to expire on December 28. Without an extension thousands of dislocated workers will lose the unemployment benefits they need to make ends meet as they search for a job. The problem is extenuated in areas like Washington State, where unemployment rates continue to be high and jobs are very tough to find.

Extending the Federal unemployment benefits for an additional 5 weeks will help about 45,400 dislocated workers living in Washington State alone. It is the least that we in Congress can do before adjourning for the year to ensure that every family has a happy holiday season. This bill is a targeted approach to help individuals who need it the most. It is a step toward providing temporary assistance at a time when our country is getting back on the track to recovery.

I urge my colleagues to vote for this important bill, and I hope that the other body will adopt this bill before leaving for the year.

Mr. STARK. Mr. Speaker, I yield 3 minutes to the gentleman from Washington (Mr. MCDERMOTT).

Mr. MCDERMOTT. Mr. Speaker, this is a really interesting bill because it really kind of lays it out cold-bloodedly. The President, or the White House, has had 2 million jobs lost since they came into office, and they do not care. When the White House announced their special interests for this session, they said we want homeland security, we want Federal judges and we want terrorism insurance. Not one single word about the economy.

I come from a State where there is 7 percent unemployment. The Northwest is the highest in the country. And anybody who exhausts their benefits before January 1 gets nothing. Oh, excuse me. They get 5 weeks after the first of the year. That is all they get is 5 weeks. As the gentleman from Maryland (Mr. CARDIN) has already said, we have \$25 billion sitting in a fund to deal with this, and you come out here with a 5-week plan. I mean Merry Christmas, folks. Are you going to send turkeys around at Thanksgiving also as part of this program? Why can you not ever admit that you fouled up the economy and the people you have put out of work you are unwilling to take care of when you have the money sitting there? It is sitting there. I cannot understand how you are going to go home to people and say, well, we are sorry, we will be back in on January 7 and we will pass something real quick; so do not worry, do not worry, do not worry. I mean you are saying at Christmas time to people you are not going to take care of them.

Our unemployment in this country, we have gone up 25 percent in long-term unemployment in the last 6 months, and there is no question between now and February an estimated 1.8 million people are going to lose

their unemployment insurance, and you are not doing anything for them, just a little tiny Band-Aid. And it is pretty clear where your priorities are. You are willing in the last bill to take off all the financial controls to spend on defense, to go \$100 billion, \$200 billion into debt in Iraq, but you will not give anything but 5 weeks of unemployment to the people who have lost their jobs in this mess you have created.

I think that we will be back in January, we will all vote for this. We know it is inadequate, but that is what you are offering them, and we are not going to say no. We are not fools. But the fact is you are going to come back in here in January and you are going to hear the same speech from me because I am going to say to you why are you only taking it 3 months or you will go 6 months? You will not recognize what you have created here, and you have long-term unemployment that is going up in this country and you just cannot seem to face it. So we will vote on this inadequate piece.

Mr. THOMAS. Mr. Speaker, I yield myself such time as I may consume.

I appreciate the gentleman's argument that we are giving someone 5 weeks. That is like saying we picked up a hitchhiker on the West Coast and drove him within three blocks of the Statue of Liberty and he is complaining because we did not drop him right at the door. As a matter of fact, we did not wait until he finished his business and then took him back to California. Because the facts are, and the gentleman is from Washington State so let us use Washington State, there are people in Washington State who have received more than 1 year of unemployment benefits. They have received 26 weeks, an additional 26 weeks, and the 5 weeks the gentleman from Washington (Mr. MCDERMOTT) was talking about was part of, on top of all of those months, an additional 13 weeks which was a 50/50 match between the State and the Federal Government. And of course States have their own programs in which they can continue to extend it.

So for the gentleman to take the time to create the impression that all we are doing is 5 weeks is to say that at the very least that is 5 weeks on top of 26 weeks, on top of 26 weeks, on top of an additional 7. So when you really look at it in terms of the way in which the benefits have been provided, a short way of saying it is there are people who have received unemployment benefits for better than a year.

Mr. Speaker, I reserve the balance of my time.

Mr. STARK. Mr. Speaker, I yield myself such time as I may consume.

I guess that the distinguished chairman of the Committee on Ways and Means and the gentlewoman from Washington State (Ms. DUNN), the previous speaker, said it all. It is the least we can do, and it is a modest bill. We could do better. We should do better.

We have never had a modest tax cut coming from the other side of the aisle. It is only modest when we try to help the least fortunate among us. So while one never looks a gift horse in the mouth, I am sure that the few people it does help will be happy. I intend to support the bill. I only wish that we could have had the leadership to do better for more people in this country.

Mr. KUCINICH. Mr. Speaker, last month's New York Times predicted that if there is to be an economic recovery in our future, it will be a "jobless recovery." I would submit that for the 8.2 million Americans who are unemployed, an economic recovery that does not provide more jobs is no recovery at all. And of course, as consumer confidence plunged to a nine year low in October, any economic recovery—with or without more job openings—seems strongly in doubt.

For this reason, H.R. 5063's plan to extend the Temporary Emergency Unemployment Compensation (TEUC) program, which is presently scheduled to expire on December 28, 2002, is woefully inadequate and provides an extremely limited amount of additional unemployment relief.

According to the Center on Budget and Policy Priorities, between now and February 2, 2003, 1.8 million jobless workers in need of assistance would fail to receive it under this plan. Only three states, Arkansas, Oregon, and Washington, are eligible for the five-week extension of the TEUC program authorized by this bill.

And when one considers that the number of long-term unemployed who are looking for work after 27 weeks almost doubled over the last year, that the Economic Policy Institute has reported there are 2.7 unemployed workers for every job opening, and that the Congressional Budget Office expects the unemployment rate to remain near 6 percent until the second half of 2003, it is clear to me that American workers deserve a better and more comprehensive unemployment plan.

In fact, the bill's proposal represents an enormous missed opportunity. The failure to provide additional weeks of benefits to those who have already exhausted their federal benefits is a missed opportunity to provide a dose of immediate, well-targeted economic stimulus.

In addition, the federal unemployment trust funds will have an estimated surplus of \$24 billion at the end of this year. And yet, the Republican proposal is estimated to cost less than \$1 billion, leaving \$23 billion unused, helping no one. This approach seems inconsistent with the basic purpose of the trust funds: to build large resources when work is plentiful in order to provide relief to unemployed workers when they need it most. I think that time is now.

It is unfortunate that no alternative to the proposal contained in H.R. 5063 was allowed by the majority's rule. An effective alternative proposal would have recognized that American workers from the heart of this nation, and that Federal unemployment insurance was intended for those workers during tough times like toady. An effective alternative proposal would have also recognized that the number of unemployed Americans is as high today as it was when the original and comprehensive Federal extended benefits program was enacted in March. This time, workers may receive much less.

In a so-called "jobless recovery", millions of Americans will remain jobless. Under today's so-called unemployment plan, 1.8 million Americans will also be without unemployment compensation. We can do better for American workers.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I will be voting for this bill, reluctantly. I feel it is a feeble attempt to run away from the challenges that face us, and to shirk our responsibilities to the American people. But because it is the only legislation the Majority is giving us the opportunity to vote on, and because it will get a modicum of temporary help to some struggling people, I'll support it.

Everyday, I receive a deluge of letters and calls from my constituents—doctors, hospitals, patient-advocacy groups, and nursing homes—letting me know that they are in trouble. Jobless rates are up. The October 1 Medicare Cliff passed us by, and we did almost nothing to mitigate the damages. Doctor reimbursements have been slashed, we are short of nurses and have lost funds to bring in new ones. Our long-term care facilities are on the brink of financial ruin. If we do not provide appropriate funds for vital services, these services could be lost. Reimbursement rates are so low in some sectors that medical facilities lose money by treating patients, so Medicare patients may soon be denied care in some areas. People will suffer.

I understand that emergencies do happen. Sometimes, we need to bend and maneuver the rules of the House to get issues handled expeditiously. But, we have seen these problems on the horizon for months. We all knew it. I, with, many like-minded colleagues have been pushing hard for real change—bold steps to take care of the challenges that face our constituents and our health care system. But good bills have been languishing here in the House. There was always an excuse for inaction. We have run out of excuses though.

I and my Democratic colleagues have consistently supported a package with provisions that would improve reimbursements to doctors and hospitals serving Medicare patients, would eliminate the 15 percent reduction in home health payments, would strengthen Medicare+Choice programs, and would help rural providers. But, unfortunately, these provisions were defeated.

Instead, the Majority has gutted an excellent bill from the other body that would have helped our men and women serving in the military receive fair tax relief, and would have stopped the horrible practice of some wealthy individuals who renounce their U.S. citizenship in order to avoid their responsibilities to pay taxes. In a time of war, what kind of a signal are we sending to our people in uniform, by sacrificing their needs, in order to play politics, and benefit the worst tax-evaders?

What we have before us today is a mockery of what good legislation can be. It is a band-aid approach to bypass surgery. It is a token for few, but an insult to the many health care providers who are struggling to meet the needs of our nation's sick. If it gets past the Senate, it will provide a brief extension for welfare recipients in programs such as Temporary Assistance for Needy Families (TANF), and child assistance, it extends, for a short time, unemployment benefits for people who are now receiving benefits and who live in a few selected states. Those in other states, and those 1 million workers whose benefits have

expired, but who are still struggling in our flailing economy to find work, receive no help.

I will vote for this bill, because it is better than nothing. But, I feel the Republican leadership has squandered an opportunity to do good. They should have brought us this bill as it passed the other body, so we could show our support to the people in our military. They should have worked with the Senate to get real relief to the unemployed, which would have provided a stimulus to our economy, rather than giving a free pass to tax dodgers overseas. They should have worked with Democrats to ensure adequate reimbursements to our health providers, so that services will be there for the people on Medicare.

Instead, we have a bill that will go nowhere once it leaves the House. I hope we will do more for the American people in the 108th Congress.

Mr. DINGELL. Mr. Speaker, I support the provision in this bill that extends the welfare program and the related Temporary Medical Assistance (TMA) program through the end of March. TMA allows families leaving welfare for work to keep their Medicaid insurance coverage. My only question is why my Republican colleagues would extend such an important program for one quarter when it would make much more sense to extend it for one year, two years, or more.

Similarly, I support the effort in this bill to prevent payment cuts to physicians in Medicare. However, I regret that the bill does not accomplish nearly enough.

We do need to help physicians under Medicare, but we also need to help other providers. Hospitals, home health agencies, and nursing homes are in a similar situation. I hear from my constituents on these issues nearly every day. We cannot turn a blind eye to their problems because, like physicians, their role in caring for Medicare beneficiaries is critical.

This bill also neglects to provide States with any Medicaid fiscal relief, which is urgently needed to prevent hundreds of thousands of working Americans from losing their health insurance coverage. States are already cutting back on coverage—and as a result, pregnant women and children, senior citizens in nursing homes, working disabled, and women with breast or cervical cancer all across the country may soon find themselves without health insurance.

Ultimately, I will support this bill, because doing something is better than doing nothing. Yet it seems callous for the House Republican Leadership to let Congress leave without addressing these critical issues. We should be preventing millions of Americans from losing their health insurance and protecting the Medicare program for America's seniors.

Mr. STARK. Mr. Speaker, I yield back the balance of my time.

Mr. THOMAS. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. SIMPSON). All time for debate has expired.

Pursuant to House Resolution 609, the previous question is ordered.

The question is on the motion offered by the gentleman from California (Mr. THOMAS).

The motion was agreed to.

A motion to reconsider was laid on the table.

TERRORISM RISK PROTECTION
ACT

Mr. OXLEY. Mr. Speaker, pursuant to House Resolution 607, I call up the conference report on the bill (H.R. 3210) to ensure the continued financial capacity of insurers to provide coverage for risks from terrorism.

The clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to the rule, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of November 13, 2002, at page H8722).

The SPEAKER pro tempore. The gentleman from Ohio (Mr. OXLEY) and the gentleman from New York (Mr. LAFALCE) each will control 30 minutes.

The Chair recognizes the gentleman from Ohio (Mr. OXLEY).

GENERAL LEAVE

Mr. OXLEY. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the conference report.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Ohio?

There was no objection.

Mr. OXLEY. Mr. Speaker, I yield myself 6 minutes.

September 11, 2001, will go down in history as one of the most tragic days in American history as a foreign terrorist network unleashed a devastating attack against our Nation, killing or injuring thousands and causing greater insured losses than all recent natural disasters combined. This attack not only destroyed the lives of innumerable innocent people from all corners of the world, but it was also intended to disrupt the very center of America's financial infrastructure.

Fortunately, the American people and our economy proved stronger and more resilient than anyone could have imagined. Under the leadership of our President, we have fought back, destroyed the terrorist launching pad, and fortified our borders and financial infrastructure security. We absorbed the terrorists' best hit, and our financial system and our will remain as strong as ever.

In the insurance industry not a single American firm was rendered insolvent and insurers were able to expedite claims payments to rush aid to those most in need.

The one weak link in our comeback has been the foreign reinsurance market, which since 9/11 has been understandably uncomfortable with providing further coverage for terrorist attacks. An effective insurance industry relies on spreading risk as broadly as possible, in the case of reinsurance across the entire globe. American insurers rely on foreign reinsurance to protect their solvency against truly catastrophic events. Insurers simply cannot responsibly provide protection

for American businesses without some sort of financial backstop, and where the foreign private sector can no longer fill that role we must step in to protect our economy against the threat of future attacks.

A recent Real Estate Roundtable survey cited more than \$15 billion in real estate projects across the U.S. being delayed or canceled because of their terrorism exposure. If the building projects do not go forward, it means that the architects, engineers, construction workers, and realtors do not work. Our economy will continue to be impaired and thousands of American jobs will continue to be lost. We cannot afford to allow the terrorists this victory. We must act.

Another survey found that 84 percent of responding American businesses do not believe their companies have sufficient coverage in the face of another terrorist attack and 71 percent find it difficult or impossible to obtain adequate coverage. We survived 9/11, but without a reinsurance backstop for terrorism, another attack could force thousands of companies into bankruptcy with no protection or recourse. At a time when we are preparing for war in the Middle East and facing repeated terrorism security warnings in the United States, we cannot afford not to have a Federal backstop in place.

President Bush immediately realized the significance of this economic problem and called on the Congress to pass legislation soon after 9/11 and has been tirelessly pressing Congress for legislation ever since. The House quickly answered this call with passage of legislation last November 1 a year ago and now stands ready to deliver. We have worked closely with the President and the Senate to draft strong bipartisan legislation that is pro-consumer, pro-taxpayer and pro-business. This legislation, the Terrorism Risk Insurance Act, will provide a Federal backstop for Americans to protect against future catastrophic terrorist attacks. We provide American businesses with immediate protection upon enactment while long-term contracts are being negotiated. The Federal backstop then phases out over time with insurers paying a steadily increasing deductible of 7 to 15 percent of their premiums before the Federal catastrophic protection kicks in.

□ 2100

As the reinsurance market flows back in, the Federal involvement would phase out in 3 years.

We also provide full protection for the American taxpayers. The conference report provides for full payback of any Federal assistance, with the first 10 to \$15 billion of losses required to ultimately be borne by the insurance industry as mandatory retention and payback. The remainder will be recouped based on economic conditions.

Consumers are provided with mandatory availability of terrorism coverage and with a significant disclosure to improve their competitive options.

This bill is absolutely necessary to the well-being of the American economy to protect U.S. jobs and against future terrorist attacks. We need this backstop in place now.

I would be remiss if I did not point out the considerable contributions made by my colleague and subcommittee chairman, the gentleman from Louisiana (Mr. BAKER). Without his hard work and dedication, this legislation would not have been possible. Also I recognize the important contributions to protect Americans by our full committee ranking member, the gentleman from New York (Mr. LAFALCE), and our subcommittee ranking member, the gentleman from Pennsylvania (Mr. KANJORSKI), here in the House, as well as Senators DODD, SARBANES and GRAMM.

Our House conference report was signed by every single conferee on our committee, and its bipartisan support is a testament to the work of the President and these Members.

I just want to take this opportunity to thank my good friend, JOHN LAFALCE. I think he is probably handling his last bill in his role as ranking member on the committee. But I want to personally thank him for his dedication and service to our Nation, and particularly his hard work on this very, very important legislation on terrorism insurance. We have worked continuously for the last 2 years, and I just cannot say enough about his dedication and hard work. We are going to miss you, John, and all of the opportunities we have had to work together on numerous issues; and we wish you the very best in your retirement.

Mr. LAFALCE. Mr. Speaker, I yield myself such time as I may consume.

(Mr. LAFALCE asked and was given permission to revise and extend his remarks.)

Mr. LAFALCE. Mr. Speaker, I thank the gentleman from Ohio very, very much for his very kind comments. It, too, has been a pleasure working with him, especially the past 2 years during his chairmanship of the Committee on Financial Services.

Mr. Speaker, after very many fits and starts, the terrorism reinsurance package will finally become a reality, despite persistent opposition by many in this body who stalled passage of this bill for almost a year by seeking to unfairly limit the rights of victims resulting from a terrorist attack.

Our Nation has been faced with numerous economic dislocations as a result of the September 11 attacks as it continues to prepare for the specter of future attacks. A case in point is the legitimate concern raised that the market relating to terrorism coverage has evaporated, forcing primary insurers to increase prices or withdraw coverage, so we have had both an unavailability and an unaffordability problem.

This is not an insurance industry problem, because if the insurance industry cannot reinsure the risk of future terrorist attacks, or will not, it

will either not offer terrorism coverage or will price it out of the reach of most consumers and leave areas of the country particularly susceptible to terrorist attacks without coverage, and, most importantly, stall or scuttle future building projects. The consequences of such action for our economy and for consumers, should this continue, could be devastating.

The conference report achieves what I believe is an acceptable balance. The bill makes insurance available by constructing a short-term Federal backstop with minimal government intrusion into the insurance market by ending 3 years after a private sector mechanism emerges. In addition, it requires significant contributions by industry that keeps industry on the hook for substantial losses, thereby protecting the American taxpayer.

More importantly, the bill also avoids making this important economic package a Trojan horse for tort reform, a favorite of many in this body and many in the White House, some of whom worked long and hard for over a year to derail this bill in order to advance what I consider to be an ideological agenda at the expense of economic growth and the protection of American businesses.

Rather, the bill before us tonight provides for prudent measures that protect the interests of taxpayers and maintains the legitimate rights of victims by, one, creating an exclusive Federal cause of action governed by applicable state law for all suits for property loss, personal injury or death arising out of a terrorist event; secondly, consolidating claims into a single Federal district court; and, third, ensuring that the Federal Government will not be directly or indirectly responsible in its role as a reinsurer for any punitive damages.

I support this important response to mitigate the economic fallout from the threat of future attacks on this Nation, and I urge my colleagues to support this conference report, as I have and all the Democratic conferees have, and then I would urge the President to sign it into law swiftly.

Mr. Speaker, I reserve the balance of my time.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from New Jersey (Mr. FERGUSON), a valuable member of the committee, as well as the conference committee.

Mr. FERGUSON. Mr. Speaker, I thank the chairman for yielding me time.

Mr. Speaker, I rise today in strong support of this terrorism insurance legislation that is crucial to our economic security in this Nation. This year alone the lack of terrorism insurance has terminated or delayed billions of dollars' worth of commercial property financing. Across this country we have seen hospitals, office buildings, malls, stadiums and museums among the many facilities that are having difficulty finding terrorism coverage.

With commercial development stalling, workers are also missing out on jobs. That is why it is imperative that we pass this terrorism insurance legislation to protect American jobs and strengthen our economy as we protect ourselves against future terrorist attacks.

Without coverage, the economic impact of another terrorist attack would indeed be devastating. The U.S. could face a string of bankruptcies, loan defaults and layoffs that would intensify the blow of the attack. As a conferee on this legislation, I am proud to say that we have produced legislation that is a direct response to the uncertainty in the insurance market that is hindering the economy and costing American jobs.

Under this legislation, private insurance would pay for damages up to a certain amount, and the Federal Government would guarantee against catastrophic losses. By establishing a temporary risk-spreading program to shore up the insurance market, it will help provide much-needed confidence and certainty, while also minimizing government regulation, which would only go into effect if a terrorist attack occurred. It will also effectively limit market disruptions, encourage economic stabilization, and facilitate the transition to a viable private market for terrorism risk insurance.

Most importantly, we have carefully crafted a package with much-needed taxpayer protections, including mandatory payback and recoupment. This ensures the availability and affordability of terrorism insurance in the market, while also maintaining the flexibility to protect taxpayers and policyholders.

I applaud President Bush and the gentleman from Ohio (Chairman OXLEY) for their determination and leadership in moving this legislation that will strengthen our economic security. I urge my colleagues to support this terrorism insurance legislation to help create jobs, strengthen economic growth, and reduce the impact of any future terrorist attack.

Mr. LAFALCE. Mr. Speaker, I yield 5 minutes to the gentleman from Pennsylvania (Mr. KANJORSKI), the distinguished ranking member of the Subcommittee on Capital Markets, Insurance and Government Sponsored Enterprises responsible for the terrorist insurance bill.

Mr. KANJORSKI. Mr. Speaker, I rise in support of the conference report on the Terrorism Risk Insurance Act. We need this economic stabilization to provide an inoculation for our ailing economy.

Since last year's terrorist attacks, insurance rates for businesses have risen significantly across the country. One recent report by the Insurance Information Institute found that insurance rates have increased by 30 percent or more after last year's terrorist attacks. One of the primary factors contributing to these dramatic increases is the lack of terrorism insurance.

The failure to create a Federal terrorism insurance backstop has also had serious implications for our economy. As the report of the Joint Economic Committee found, the problems associated with terrorism reinsurance pose a significant threat to sustained economic growth. The Real Estate Roundtable found that the lack of terrorism insurance availability for commercial properties has resulted in the cancellation or delay of \$15 billion in real estate deals, resulting in the loss of potentially 300,000 fewer good-paying construction jobs.

Terrorism insurance is critical to protecting jobs and promoting America's economic security, whether in Wilkes-Barre, Scranton, or Hazleton, Pennsylvania, or in New York City. The issue of terrorism insurance may also affect our national economy more immediately and more drastically than any tax or spending issue that Congress has considered in recent years. Without Federal intervention in the insurance marketplace, our already-sluggish economy will likely experience increased instability in the near future.

The conference report before us today is workable; it is an effective compromise, one that provides substantial financial protection. I am pleased that the conference report contains a number of provisions which I advocated. For example, the legislation designates the Secretary of the Treasury as the administrator of the program and clearly authorizes auditing powers and penalties.

Additionally, I worked to ensure that this conference report allows the Treasury Secretary to consider the effect of payback surcharges on urban, smaller commercial, and rural areas and on different lines of insurance. These considerations are important because they will ensure that the individual policyholders will be treated fairly and a small business, a farmer or other rural policy holder will not be asked to disproportionately subsidize losses associated with national symbols like a skyscraper or large manufacturing plant.

Moreover, through the process of considering this bill, I have worked to adapt the simplest, cleanest bill to get us through the period of uncertainty until the private sector can price the terrorism reinsurance.

Mr. Speaker, this bill should have been before the Congress a year ago. We worked diligently in the subcommittee; and if the report of the subcommittee had been presented to this floor a year ago, I am convinced in my own mind there would have been well over 420 votes to support it. Unfortunately, as the ranking member of the committee indicated, this got caught up in ideology and other factors, trying to make it a locomotive, if you will, to handle tort reform.

I think this is a perfect example of how we could start the new year and the new Congress in recognizing that partisanship and special interests or

ideologies should not be made part of public policy. We can start by looking at this case as a case in chief as to how legislation can be accomplished and how it cannot be accomplished and why 1 year lost of construction time and investment is not worth the attempt to win some political point or political benefit.

I compliment the chairman of the committee and the chairman of my subcommittee; and particularly I want to compliment, pay respect to, the ranking member from western New York. Without his diligence and without their diligence, we probably could be arguing until the cows come home.

Fortunately, everybody realized that America needs this bill. The insurance industry, which is probably the least likely industry that wants Federal involvement, recognized that this is a role government should play. But most of all, Mr. Speaker, the American people and the American economy need this bill.

I urge my colleagues to support this conference report to their fullest extent.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from Texas (Mr. DELAY), the majority whip, soon to be majority leader.

Mr. DELAY. Mr. Speaker, I thank the chairman for yielding me time.

Mr. Speaker, the chairman has done a lot of hard work on this bill, and I rise today to support the terrorism insurance legislation before us and to highlight the important work still to be done on this issue.

I had my doubts about this legislation from the very beginning. The most accurate assessment of the risk to Americans is developed by the private marketplace, free from government interference. However, terrorism insurance is not always available, and sometimes it is available only at prices people cannot pay. But the most troubling aspect of this bill is the flaw that leaves American taxpayers holding the bag and trial lawyers running away with the loot.

□ 2115

The House passed a bill containing strong liability protections. The most important was an outright ban on punitive damages. We now have a conference report that lacks this ban.

Mr. Speaker, President Bush's top four economic advisers explained it best in a June 10 letter. They said very directly, "Punitive damages are designed to punish criminal or near criminal wrongdoing. American companies that are attacked by terrorists should not be subject to predatory lawsuits. The availability of punitive damages in terrorism cases would result in inequitable relief for injured parties, and threaten bankruptcies for American companies."

I wish these were the only problems with this bill. But the most troublesome aspect is the prospect that tax-

payer dollars may be negotiated away in an out of court settlement. There is no sufficient mechanism in this bill to protect a raid on the Treasury by predatory trial lawyers.

Unfortunately, there is an industry in America today that profits from tragedy and suffering. Businesses and property owners and victims who have lost their lives are innocent bystanders in terrorist attacks. My concern is that we are handing this industry additional tools to take advantage and compound these tragedies.

President Bush repeatedly said during this election that we need to stand with the "hard hats" and not the trial lawyers, and I agree with that.

However, this bill falls very short of the President's intent. The Wall Street Journal described its weaknesses as a "bonanza for trial lawyers."

I raised these concerns with President Bush. He agreed that there is more work left to protect victims of terrorism and the Federal Treasury, and he pledged to work with us next year to resolve these flaws.

I want to thank President Bush for that pledge to protect the taxpayers.

As long as I have been in Congress I have guarded the taxpayers, and we are working to fix the problems with this bill.

We are going to lock the doors of the Federal Treasury against trial lawyers who would exploit flaws in this new law to soak the taxpayers.

I am going to stand with hard-working Americans. I am going to stand with those "hard hats," and I am going to oppose anyone who seeks to plunder the Federal Treasury.

Mr. LAFALCE. Mr. Speaker, I yield 4 minutes to the distinguished gentleman from Manhattan (Mrs. MALONEY).

Mrs. MALONEY of New York. Mr. Speaker, I thank the gentleman for yielding me this time and for his fine leadership on this committee and on this legislation.

I rise in strong support of the conference report for the Terrorism Risk Protection Act, which provides a Federal safety net in the form of a loan program to the insurance industry in the event of another terrorist attack.

September 11 cost the insurance industry more than \$40 billion and many insurers have since dropped terror insurance completely or hiked premiums to extreme levels.

The lack of comprehensive and affordable terrorism insurance has blocked billions in development deals, halting construction and costing jobs.

The bill provides loans to insurers for 90 percent of damages over a deductible and can apply to terrorist events over \$5 million. Very importantly, it sunsets 3 years after passage.

This is an economic stimulus bill for New York City and the country.

Cathy Wylde of New York City Partnership estimates that passage of this bill will add 1 percent to the GDP of New York City, and some economists

believe it will have the same impact for the Nation. It is extremely important to get our economy moving again. It is about jobs, putting people to work, and not letting terrorists cut off credit.

One example of the impact of the lack of terror insurance is the situation facing the managers of the Conde Nast building in Times Square. This 48-story property is a New York City landmark that houses a publishing empire and the famous NASDAQ market site from which the TV networks broadcast updates on the stock market.

While the building's owners have always carried insurance to cover the \$430 million mortgage, after September 11 terrorism coverage insurance alone for the building skyrocketed to \$5 million a year. The building's owners were unable to pay this high amount while the bank holding the mortgage demanded that they carry full coverage. As my colleagues might expect, this situation has led to prolonged litigation.

Passage of this legislation will resolve the situation for the Conde Nast building and for many other properties like it across the Nation.

Importantly, this is not just a New York City or New York State problem.

According to a recent report by the Mortgage Bankers Association, the lack of terrorist insurance has led to downgrades by the rating agencies of commercial real estate property around the country. The MBA alone believes the downgrades have cost its industry \$8 billion in canceled or delayed projects.

I am very pleased that today's bill contains a compromise on the tort reform issue.

Finally, I want to thank the chairman of the committee, and to the Democratic leader of the Committee on Financial Services, I want to thank very much the gentleman from New York (Mr. LAFALCE) for his tireless work on this issue and so many others. He stood for principle throughout consideration of the debate on this bill and, I would say, all legislation before the committee. We will truly miss his contributions to the Committee on Financial Services and to this Congress. I believe this will probably be the last bill that the gentleman will manage on the floor and we appreciate very much the gentleman's wonderful leadership and all of his fine work for his district, New York State, and I would say for the country.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 4 minutes to the gentleman from Louisiana (Mr. BAKER), the chairman of the Subcommittee on Capital Markets, Insurance and Government Sponsored Enterprises.

Mr. BAKER. Mr. Speaker, I appreciate the chairman yielding me this time and certainly want to compliment his leadership on this most important matter, and certainly the gentleman from New York (Mr. LAFALCE) and the

gentleman from Pennsylvania (Mr. KANJORSKI), who have worked tirelessly with us to propound a resolution to this most difficult problem.

The important point I wish to speak to tonight is the significance of the mechanism by which we assist the industry while requiring repayment of taxpayer dollars. When one of these tragic events occurs, certainly the most important thing we can do is to keep our economy working and not have the tragic event of terrorism which takes the lives of innocent human beings, which causes the destruction of properties, to extend into the workforce and cause people to lose their employment by the loss of construction jobs or other opportunities. Without the passage of this act, should there be another unfortunate event, which all of us hope never occurs, we would face very uncertain times.

The industry was able to respond, gratefully, to the horrific events in New York, but capital is depleted and we do not know what ability they may have if we suffer an event on such a grand scale again.

Tonight we are responding to those eventualities by saying yes, we will help industry, we will help you in times of short-term liquidity, when your bank account is low, when you have paid out the claims and you cannot meet the next obligation, but we are going to require that industry to put their money up first; we do not go to the taxpayer as the first stop. But then we say to those companies, here is the taxpayer loan and it is in fact a loan where we are going to enable you to continue to operate by extending credit to you during this time of crisis, but we are going to expect you to pay it back.

That is a unique standard. This House has acted in other areas of concern relating to business operation in times of terrorist attack and we have not required the extension of taxpayer funds to be repaid. Tonight, we establish a new standard. Yes, we are willing to help big business; yes, we are willing to do what is necessary to keep our economy going, but when the economy returns and the industry is enjoying a profit, we are going to expect to get our money back. I think that is not only entirely appropriate, but the highest standard of conduct for this committee to have exercised. We should not ever open the taxpayer checkbook to industry of any sort without demanding a high standard of conduct. Tonight we are setting it: You are going to give us the money back.

Now, the Secretary of the Treasury does have the discretion, should we be in desperate economic circumstance where the imposition of the repayment would not be wise, meaning it would raise the premiums on homeowners, on business owners, or that the industry simply could not generate the resources to pay the money back. So we have a balanced approach. We say yes, we will help in times of crisis and we

expect you to pay us back, but if economic conditions do not warrant it, the Secretary of the Treasury shall report to this Congress why he believes that the repayment should not occur. I think this is an excellent balance utilizing common sense and taxpayer resources to do that which we all are driven to do: to ensure that our economy functions, that terrorists do not win, that innocent working people are not harmed, and that at the end of the day our economic interests are protected.

I wish to commend all of the parties who have contributed mightily to this effort and say, job well done.

With regard to those issues concerning punitive damages, I agree with our whip. I do believe that we should be very careful in opening the doors to allow those who choose to file unwarranted litigation and suits and take 30 or 40 or 50 percent of the award that is granted, particularly in the area of punitive damages, for no apparent public policy reason, and I hope it is an area that with the President's leadership we can return to next year and resolve in the favor of the American taxpayer.

Mr. LAFALCE. Mr. Speaker, I yield 4 minutes to the gentleman from Texas (Mr. BENTSEN), a departing Member of Congress and a very distinguished representative who is here with his lovely daughter to witness what I think will probably be his final remarks in Congress.

Mr. BENTSEN. Mr. Speaker, I thank the gentleman for yielding me this time, and I want to say at the outset what a pleasure it has been to serve with the gentleman from New York (Mr. LAFALCE) on the Committee on Financial Services.

I rise in strong support of the conference report. I want to echo the comments of my colleague from Louisiana, because I think he does understand the prudent nature of this legislation. I for one have been one who is concerned about the extension of government credit where markets already exist which can provide for that. What we learned in the aftermath of the despicable attacks of September 11 was that in addition to the human carnage there was also an economic fallout, particularly as it related to the insurance market. In effect, the insurance market for terrorism which heretofore had been a very narrow and inexpensive market basically was unpriceable. One could not buy it at any price. And as such, not only were existing loans on commercial structures out of compliance with their loan documents, but innumerable new projects were halted because lenders were not able to, or were not comfortable to provide credit where the risk of terrorism would not be covered by the insurance market.

So it became necessary for the Congress to act.

We started looking at this issue shortly after September 11, 2001, and as the gentleman from New York and the gentlemen from Ohio and Louisiana

will recall, we had a number of issues that were thrown on the table. We had the reinsurers who were here, hat in hand, and wanted a program much like what Great Britain has done with the City of London and expanded across the entire nation; we had the Treasury Secretary and the administration that was here with a proposal which, quite frankly, would have put the taxpayers I think, and I think the majority of the committee felt, a little bit too much on the hook than we felt was the appropriate way to go. Actually, over time, a pretty sensible bill was crafted, bipartisan bill was crafted, primarily with the leadership of the gentleman from Ohio and the gentleman from Louisiana, and I was proud to join them on that legislation, along with the senior Senator from the State of Maryland.

As we went forward, the principle that the gentleman from Louisiana espoused became very clear, and it was that the government would provide a backstop using the credit of the American taxpayer, but that we would not do it forever, that it would have a sunset, and that there would have to be some payback mechanism; that if we were going to extend the credit, we needed a way that we could recoup the losses to the taxpayer.

□ 2130

As the gentleman said, that was a rather unprecedented approach. It has survived in this legislation, and it was not supported across the board by a number of Republicans and Democrats, but it did survive. I think a lot of credit goes particularly to the gentleman from Louisiana (Mr. BAKER), because he was quite adamant in that regard.

In addition, I want to address the question of tort, because we discussed that in the committee when we first moved the bill on this side of the street. I have to take issue with the comments of my dear colleague, the gentleman from Texas (Mr. DELAY), my neighbor in Texas, the majority whip, soon to be majority leader. As I see the final conference report, there are a number of changes that are designed to protect the taxpayers from excessive litigation: number one, all tort claims are consolidated; number two, they are all Federal claims and not State claims; number three, if I read it properly, no claims can be made against Federal taxpayer dollars.

There are some who, unfortunately, sought to use this bill as a proxy for the issue of tort reform. Yet I do not think that was what the gentleman from Ohio, the chairman, wanted to do; and quite frankly I do not think that is what the gentleman from Louisiana wanted to do, because they understood what the core problem was.

Over the last year and a half, almost, that we have been working on this legislation, I have yet to meet one business leader, one commercial developer, one insurance person who has said that the tort issue is an issue that must be

addressed. The concern they had was that there was no insurance market available and that development had come to a screeching halt.

Tonight, we finally have a product which is prudent for the American taxpayer, which sets a very fine precedent going forward for future Congresses as they look at the extension of Federal credit. I hope our colleagues will adopt this package. I wish we could have done it sooner, but thank goodness we are doing it now. I commend the chairman and the chairman of the subcommittee, and my colleague, the gentleman from New York, and the ranking member for the work they have done.

Mr. OXLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, let me recognize my good friend, the gentleman from Texas (Mr. EDWARDS), who also is involved in his last bill on the floor, at least for a while. He has been a principled member of our committee and has provided reasoned judgment throughout a number of the issues that the committee has dealt with over the last 2 years. I want him to know he has my personal thanks and recognition for his excellent work.

Mr. Speaker, I yield 3 minutes to the gentlewoman from New York (Mrs. KELLY), chairman of the Subcommittee on Oversight and Investigations.

Mrs. KELLY. Mr. Speaker, I thank the gentleman from Ohio for yielding time to me.

Mr. Speaker, on September 11, our world fundamentally changed with the cowardly act of a handful of terrorists. Passage of this bill represents another significant step in our efforts to address the new realities we confront.

This bill addresses the fact that one of the key objectives of the terrorist networks is to disrupt our economy. The losses of September 11 and the continued terrorist threat demonstrate that we must provide basic protections for our economy.

The September 11 attacks resulted in the largest single hit to our insurance industry in history. Since then, businesses and insurance markets have faced a new reality. Insurers are being asked to insure terrorism risk when they have no realistic way to determine the fair price for that risk, or, in the vast majority of cases, being able to obtain any reinsurance for it.

Moreover, no one can presently calculate the proper odds for where or when the next attack will occur. We do know, however, that our government officials believe that we should expect additional attacks. Consequently, the vast majority of insurers have been reluctant to cover terrorism, especially for major buildings, factories, or gathering places.

Where terrorism insurance is available or is required by law, insurers are now charging high premiums for it and offering very limited capacity to protect against the risk of insolvency. I believe that the GAO put it best when

they testified before my oversight committee that "large companies, businesses of any size perceived to be in or near a target location, or those with some concentration of personnel or facilities, are unlikely to be able to obtain a meaningful level of terrorism coverage at an economically viable price."

Hospitals have been especially hard hit by this terrorism insurance crisis. Representatives of some of the New York hospitals testified before my subcommittee that they have seen a 256 percent increase in their coverage of their insurance rates for only one-third of the previous coverage. It is only one example of the crisis. I have many, many more and will insert letters into the RECORD which demonstrate this.

It is clear that the current lack of terrorism coverage acts as a chill factor, restraining our economy. We heard that businesses, particularly in cities and near potential targets, wanting to build are being required to carry terrorism insurance. However, there is little or no terrorism coverage available, so some new construction is being stopped before it can even start. This is causing the loss of new jobs at a time when creating jobs should be one of our highest priorities.

In short, the failure to act quickly on terrorism insurance legislation is imposing a fear tax on America, costing real jobs when the country is trying to pull out of a recession.

In addition, the administration says that another terrorist attack is extremely likely, and we must plan now for how the government should react to an attack; now, not after another attack. We have learned countless lessons from September 11 on homeland security, and the need for this legislation is one of them.

This conference report is a good solution to the problem and deserves our full support. I ask my colleagues on both sides of the aisle to join me in support of jobs by voting for this conference report.

I thank the gentleman from Ohio (Chairman OXLEY) for his leadership, and I thank his wonderful staff for their work on this issue.

Mr. Speaker, I include for the RECORD the following letters regarding terrorism insurance:

JULY 8, 2002.

Hon. SUE KELLY,
House of Representatives, Longworth House Office Building, Washington, DC.

DEAR CONGRESSWOMAN KELLY: Our members, the owners, institutional investors and others in real estate in New York City, appreciate the leadership you have provided in dealing with the critical problem of the absence of adequate terrorism insurance coverage.

I understand from a recent conversation with one of our members, Douglas Durst, that you are interested in having some specific examples of the problems the absence of terrorism insurance coverage has created. Those examples follow:

4 Times Square, also known as the Conde Nast building, is in litigation with its lender due to the absence of terrorism insurance

coverage. The lender, La Salle Bank and CIGNA has threatened to invade the "lock box" into which rents are deposited in order to buy \$430 million in terrorism insurance, the amount of the mortgage. The insurer for the portfolio held by the owners of 4 Times Square has refused to write coverage for this building claiming it is "high profile." The owners have recently obtained \$100 million in terrorism insurance but without no coverage for biological or chemical events. As for the remaining \$330 million dollars in coverage the lenders require, the courts will resolve whether the money to buy such coverage, if available, can be claimed from the cash flow of the property. Should the courts determine that the cash flow can be invaded for this purpose, the full interest due to the investors holding certificates will not be paid, the rating services will downgrade the securities which are already on the Moody's watchlist, and the individuals who invested will see their investment eroded. Meanwhile, the owner-builder of 4 Times Square has equity of \$450 million invested in this \$880 million building and no coverage. That owner, who typically would be investing in the construction of a new building is stymied.

A lending officer at HypoVereinsbank, the major construction lender in the nation, has advised us that at least 5 major construction projects in his portfolio are not going forward until the terrorism insurance situation is resolved. HypoVereinsbank wants full terrorism coverage including biological and chemical causes as well as certainty that for the duration of construction the insurance will be available. Four of these projects are in New York, the fifth in Chicago. Andy Veith, the lending officer will try to reach you later this week either by phone or e-mail.

Downtown, a one million square foot office building owner could not obtain refinancing for the underlying mortgage of approximately \$200 million because terrorism insurance was unavailable. Finally, a lender agreed to go forward if the owner committed to pay \$41 per square foot for stand alone terrorism insurance coverage. At the same time that the owner faced that \$1 million additional drain on the cash flow of the building, he also had to absorb an increase of from \$110,000 to \$550,00 over the prior year's cost of insurance. This additional cost, in addition to excluding terrorism risk, does not cover mold or biological, nuclear or chemical events whether terrorist generated or otherwise. The owner now has \$1,440,000 additional insurance expenses with less comprehensive coverage on the environmental risk side than before, and has to self-insure for the equity that he has invested in the property.

A REIT portfolio, which includes major office complexes in Boston, San Francisco, D.C. as well as a trophy midtown Manhattan building, can get only \$250 million in terrorism coverage for the entire portfolio worth several billion. If there is one more terrorism incident, it is likely that even this limited coverage will be lost given its not uncommon 30-day cancellation clause.

Other examples from across the country, including hospitals, stadiums, major transportation centers and other vital private and public investments that are not covered by terrorism insurance, along with a vivid description of the ripple effect this problem is having on the overall economy, appear in the May 23rd Joint Economic Committee report to Congress.

It is most important that enactment of some form of government temporary back up for terrorism insurance coverage occur quickly.

We appreciate your efforts to resolve this critical problem.

Sincerely,

DEBORAH B. BECK,
Executive Vice President.

WIEN & MALKIN LLP,
New York, NY, July 9, 2002.

Re insurance.

Hon. SUSAN KELLY,
*Longworth House Office Building,
Washington, DC.*

DEAR CONGRESSWOMAN KELLY: Thank you for your efforts to date to highlight the extremely difficult insurance market for commercial real estate owners and developers in New York City and other major cities across the United States.

Our firm represents a portfolio of over 8,000,000 square feet of office space located in Manhattan, including the Empire State Building that as a result of the events of September 11th, is once again the tallest building in New York City. I feel that our recent experience trying to renew the insurance for these buildings underscores the problems that Congress needs to address.

The maximum amount of property insurance that we have been able to obtain at any price is \$200 million dollars for this portfolio, less than half of our coverage of the \$550 million maintained for the past 12 months. This level of insurance is significantly below replacement cost of any one of our properties, leaving our investors with significant risk.

Of even greater concern, this \$200 million dollar program does not cover any loss between \$75 million and \$100 million. This "hole" in coverage further places our investors at risk and limits our ability to obtain future financing.

The program outlined above specifically excludes any act of terrorism. We have only managed to secure a \$25 million dollar terrorism program because of insurance providers' general unwillingness to issue coverage in New York City. We also found it necessary to purchase a \$50 million pollution liability program in the event of a chemical or biological attack because such an attack is excluded from the terrorism program noted above. Despite the drastic reduction of coverage, the premium for this program has increased an astonishing 500%.

In summary, it is clear that the insurance industry has opted to limit its exposure in major cities, resulting in reduced capacity, limited competition, and exorbitant pricing. The insurance industry's unwillingness to provide adequate levels of coverage at reasonable rates will translate into higher rents for tenants (to whom increased operating expenses are generally passed under typical lease clauses), fewer new construction projects and a general depression in the real estate market as the inability to shift certain risks historically assumed by the insurance industry drives people from the market.

I hope this information will help you in your continuing efforts to persuade your colleagues to rectify this situation.

Very truly yours,

PETER L. MALKIN.

Mr. LAFALCE. Mr. Speaker, I reserve the balance of my time.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from California (Mr. COX).

Mr. COX. Mr. Speaker, I thank the gentleman for yielding time to me.

I rise in support of this legislation, which is urgently needed and has been urgently needed since September 11, and particularly since November of 2001, when this House first passed it.

By backstopping the market's provision of terrorism insurance, this legis-

lation will be a boon for new construction everywhere in America. But construction cannot get completed in America because financing is not available, and the reason financing is not available is that terrorism insurance is not available. This bill will fix that. By taking a huge, unquantifiable risk out of the equation, we will make writing terrorism insurance feasible again and will help Americans get back to work and start growing the economy.

We are dealing with this bill much later than we should be, many months after it should have been completed, because there has been a disagreement about protections against abusive litigation. This bill that we are voting on tonight is imperfect in that respect. Several of the protections of taxpayers' interests and the national interest that were built into this legislation in the original House-passed version have been deleted. These differences are not minor.

From the original House bill, we have eliminated a prohibition on punitive damages. We have eliminated fair-share liability for noneconomic damages, such as pain and suffering, and a requirement that attorneys' fees be reasonable. I do not believe that any of these provisions should be eliminated; but in the very brief time that I have remaining, Mr. Speaker, I will address just one of them: fair-share liability for noneconomic damages.

When the U.S. Government certifies that the terrorists were responsible, it should not be possible for lawyers to come in and assert, because of 1 percent liability found or prospectively that might be found for another party, that 100 percent of the obligation should rest there, particularly when we are talking about noneconomic damages; that is to say, completely notional damages like pain and suffering, things that lawyers can gin up by asserting it, merely by asserting it in a complaint. In each of these circumstances, the taxpayers will be made liable.

Mr. Speaker, we need to fix these flaws in the bill immediately when the 108th Congress convenes. On that understanding, I am supporting this bill because it is so desperately needed to put America back to work.

Mr. OXLEY. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from Connecticut (Mr. SHAYS), a valuable member of the committee and a member of the conference committee.

Mr. SHAYS. Mr. Speaker, I thank the gentleman for yielding time to me.

Mr. Speaker, following the terrorist attacks of September 11, the Committee on Financial Services moved quickly to study the lack of availability of terrorism insurance. Under the leadership of the gentleman from Ohio (Chairman OXLEY) and the subcommittee chairman, the gentleman from Louisiana (Mr. BAKER), we held hearings, met with financial experts, and alternately passed legislation to

create a Federal insurance backstop to cover losses in the event of future terrorist attacks.

The legislation we are considering today is consistent with the bill passed by the House last November. Like its predecessor, it addresses the availability and affordability of terrorism insurance while protecting taxpayers and policyholders. It gives insurance companies the assistance they sought without giving them a blank check.

Mr. Speaker, the economy may be growing, but it sure does not feel that way. This bill is truly one of the keys to getting our economy back on track, spurring development, and creating jobs. I urge all of my colleagues to approve this measure and send it to the President, because it is not a question of if but when, where, and what magnitude we will face a terrorist attack using conventional weapons or, just as likely, weapons of mass destruction. The casualties could be large and the liability beyond comprehension.

Mr. LAFALCE. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I support this bill; and I encourage everyone to vote for it. It is a shame we were not able to pass it a year ago, about the time we reported our bill out of committee and passed it on the floor of the House; but I do think this is a much better bill now than the one we passed earlier.

Mr. Speaker, I yield back the balance of my time.

Mr. OXLEY. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this, as I indicated in my opening remarks, is a very, very important piece of legislation. It is critical that the Congress act. The President has called for us to act.

Let me cite from an article today in The Washington Post regarding the threat of attack that "terrorist groups may be planning a new wave of attacks on Western targets. Even before the purported bin Laden tape surfaced on the al-Jazeera satellite network on Tuesday, the CIA, FBI, and National Security Agency had detected a significant spike in intelligence chatter over the previous 10 days that strongly indicated new assaults are being planned, officials in U.S. intelligence agencies said."

In congressional testimony last month, CIA Director George Tenet warned that recent attacks in Yemen, Kuwait, and Bali signal an escalation in terrorist activity which he characterized as "as bad as it was last summer, before the airliner hijacking assaults on the World Trade Center and the Pentagon."

"That threat environment level was high then and it has not lessened," a senior administration official said yesterday. "Bin Laden's appearances have always been carefully orchestrated, and unfortunately, they have often presaged a major al Qaeda attack or development."

Mr. Speaker, it is time that this Congress act. I appreciate the strong bipartisan support that this legislation has

entertained over the last several months. This is a good example of Congress at its best, but it is even more important that we provide this framework for protection of the American economy. This bill does exactly that. I ask my colleagues for strong support for this conference report.

Ms. JACKSON-LEE of Texas. Mr. Speaker, the September 11 terrorist attacks have devastated many industries and sectors changing the landscape of the American economy, including the insurance industry.

The legislation before us today, H.R. 3210, is a reasonable piece of legislation and I am particularly pleased that the majority has shown the wisdom of removing the tort liability limitation provisions of the legislation. I joined my colleagues on the Judiciary Committee and those on the Financial Services Committee who worked hard to eliminate Section 15, a tort reform provision, which would effectively have banned punitive damages in terrorism-related cases. This provision was absolutely unnecessary.

This passage of this measure is important because the insurance industry has stated that, while it will be able to cover the estimated \$40 billion in claims resulting from the Sept. 11 terrorist attacks, any new and renewed policies will not cover terrorist-inflicted damage unless the government helps cover that unknown liability. This is an issue of great concern to Congress and to the nation.

This legislation can make a great difference. Earlier this year, we acted swiftly and deliberately assisting the Airlines industry in the amount of \$15 billion to save this important industry which was so severely devastated by the September 11 attacks. I am glad that we have come to an agreement that will allow us to act with bi-partisan sensibility to help this important sector of our economy as well.

This is not just an insurance industry problem. Rather, it is a national issue because if the insurance industry cannot reinsure the risk of further terrorist attacks, it will either increase premiums to the detriment of consumers, or simply stop offering terrorism coverage altogether. Furthermore, without adequate insurance coverage, lenders will not be able to lend and new investments will not be made, creating a credit crunch that could further devastate our economy.

Under this bill "each insurer will be responsible for paying out a certain amount in claims a deductible—before Federal assistance becomes available. This deductible is based on a percentage of direct earned premiums from the previous calendar year, and rises from 7 percent during the first year to 10 in year 2 and 15 percent in year 3. For losses above an insurer's deductible, the Federal government will cover 90 percent, while the company pays 10 percent."

"If the Federal government pays for insured losses during the course of a year, the Treasury Secretary will be required to recoup the difference between total industry costs (individual insurers' losses up to their deductibles, plus the industry's 10 percent cost share above the deductibles) and the following fixed dollar amounts per year: \$10 billion for year 1, plus the last few months of 2002; \$12.5 billion for year 2; and \$15 billion for year 3. The recoupment will be accomplished through a surcharge on policyholders. The Secretary has discretion on the timing of

the surcharge, but the surcharge cannot be more than 3 percent of the premium paid for a policy in a given year. Losses covered by the program will be capped at \$100 billion; above this amount, Congress is to determine the procedures for and the source of any payments. The Secretary may assess civil penalties on participating insurance companies for submission of false or misleading information or failure to repay the Secretary for any amount required to be repaid."

I lend my support to this bill. Congress can and must act to protect the most vulnerable sectors of our economy, and those who most need assistance. The underlying bill holds the promise of protecting the insurance industry and the millions of Americans dependent on it. The version of the bill before us today goes a long way toward restoring confidence to our nations lenders and should help bolster our struggling economy. As such, I urge my colleagues to support the measure before us tonight.

Mr. NEY. Mr. Speaker, I just want to take a quick moment to comment on an important part of this legislation, group life insurance. H.R. 3210 contains a study of group life insurance and I would like to clarify that it was the intent of the House that the term "group life insurance," as it appears in the text, is used in its typical and customary sense to mean "an insurance contract that provides life insurance coverage, accidental death coverage, or a combination of both for a number of persons under a single contract and that provides such coverage on the basis of a group selection of risks."

Mr. BEREUTER. Mr. Speaker, this Member rises today to express his support for the conference report of the Terrorism Risk Protection Act (H.R. 3210). This conference report will help ensure that businesses are able to acquire property and casualty insurance while still providing taxpayer protection against terrorist losses. This Member is pleased that the House and Senate conferees have reached an agreement on terrorism insurance which President George W. Bush is expected to sign. This Member is a cosponsor of H.R. 3210, which the House first passed on November 29, 2001, by a vote of 227–193.

This Member would first like to thank the distinguished gentleman from Ohio (Mr. OXLEY), the Chairman of the House Financial Services committee, for both introducing this legislation and for his efforts in bringing this conference report to the House Floor. Additional appreciation is expressed to the distinguished gentleman from Louisiana (Mr. BAKER) who also played a crucial role in crafting the conference report on H.R. 3210. Moreover, this Member would also like to thank the distinguished gentleman from New York (Mr. LAFALCE), the Ranking Minority Member of the Financial Services Committee, for his bipartisan cooperation and assistance on this conference report.

The uncertainty caused by the terrorist events on September 11, 2001, has resulted in the possibility of serious problems for the insurance industry and the insured from additional severe terrorist attacks. To illustrate this, reinsurance companies provide insure against massive losses for insurance companies. Since this terrorist attack, many primary companies, because they cannot receive reinsurance, have sent notice cancellations to businesses indicating that they will not receive

coverage for losses caused by terrorist activities. If both small and large businesses continue to be unable to receive insurance, it will contribute to the further instability of the American economy. Insurance provides a very important element of the stability needed by businesses to continue functioning and investing and for bankers to continue lending to businesses.

As a Member of the House Financial Services Committee, which has jurisdiction over the important elements of the limited Federal role in commercial insurance, this Member supports this conference report for the following two reasons. First, obviously it helps ensure that commercial insurance continues to be available for businesses—and available at affordable costs. Second, it provides necessary taxpayer protections against possible severe terrorist losses to businesses.

Under this conference report, a temporary Federal terrorism insurance program would be established within the Treasury Department. Under this program, Federal funds would be provided to property and casualty insurance companies when losses reach the "trigger" level. In particular, Federal funds would pay 90 percent of the terrorism-related losses of insurance companies that exceed 7 percent of the company's premiums in 2003; 10 percent of a company's premiums in 2004; and 15 percent of a company's premiums in 2005. Each insurance company would pay for 100 percent of insured losses up to those thresholds and 10 percent of the losses above those levels. This Federal terrorism insurance program would cover industry-wide losses up to \$100 billion per year.

It is also very important to note that this conference report provides for the mandatory repayment of some of the Federal funds used to cover insured losses. Under this conference report, for 2003, the insurance industry must repay the Federal assistance which is the difference between the sum of all insured losses paid by the industry and \$10 billion. For 2004 and 2005, these repayments would be made for the difference between the sum of all insured losses and \$12.5 billion and \$15 billion, respectively. These repayments would be collected through a surcharge on the policies of all commercial insurance policyholders. Therefore, this conference report is not an insurance company bailout; it protects the American taxpayer against a big hit while continuing to maintain insurability against terrorist attacks.

Furthermore, this conference report also provides taxpayer protection from punitive damages in lawsuits which claim terror-related losses or injuries. To illustrate this, this conference report requires all terror-related lawsuits to be considered in Federal court, rather than in state courts. Moreover, this conference report does not set a Federal standard for awarding punitive damages in terror-related lawsuits. However, it instead allows the state law in which the terrorist act occurred to prevail with respect to punitive damages. Most importantly, the conference report requires that punitive damages awarded through these lawsuits will not be paid for by Federal funds used to cover losses from terrorism. For my Nebraska constituents, it is important to note that punitive damages are not allowed under Nebraska state law in Nebraska state courts.

In conclusion, Mr. Speaker, this conference report balances the need of businesses to continue to receive commercial insurance

against terrorist acts at affordable costs, with taxpayer liability protection. As a result, this Member urges his colleagues to support the conference report of H.R. 3210.

Mr. OXLEY. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mr. SIMPSON). Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The conference report was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. GIBBONS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bill, H.R. 3758.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Nevada?

There was no objection.

CONFERENCE REPORT ON H.R. 4628, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2003

Mr. GIBBONS submitted the conference report and statement on the bill (H.R. 4628) to authorize appropriations for the fiscal year 2003 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

CONFERENCE REPORT ON S. 1214, MARITIME TRANSPORTATION SECURITY ACT OF 2002

Mr. LOBIONDO. Pursuant to House Resolution 605, I call up the conference report on the Senate bill (S. 1214) to amend the Merchant Marine Act, 1936, to establish a program to ensure greater security for United States seaports, and for other purposes, and ask for its consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 605, the conference report is considered as having been read.

(For conference report and statement, see proceedings of the House of November 13, 2002, at page H8561.)

The SPEAKER pro tempore. The gentleman from New Jersey (Mr. LOBIONDO) and the gentlewoman from Florida (Ms. BROWN) each will control 30 minutes.

The Chair recognizes the gentleman from New Jersey (Mr. LOBIONDO).

Mr. LOBIONDO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in strong support of the Maritime Transportation Security

Act of 2002. I would first like to thank the members of the conference committee who have provided the leadership and vision to create this landmark legislation, especially the gentleman from Alaska (Chairman YOUNG), the ranking member, the gentleman from Minnesota (Mr. OBERSTAR), Senator HOLLINGS, and Senator MCCAIN and Senator LOTT.

The Maritime Transportation Security Act of 2002 establishes a comprehensive national system to increase transportation security for our ports and waterways. This legislation was developed to prevent a terrorist attack along our Nation's largest and perhaps most vulnerable border, consisting of 95,000 miles of coastline with hundreds of ports. The United States maritime industry contributes \$742 billion to the gross domestic product each year, and a ripple effect of an attack on an American port would be absolutely devastating.

The goal of S. 1214 is to deter terrorist attacks against ocean shipping without adversely affecting the flow of U.S. commerce through our ports. Striking this balance has been a key and essential element of my approach to this issue, and I believe that this bill achieves this goal.

S. 1214 requires the Coast Guard to conduct vulnerability assessments of our United States ports. The results of the assessments will be used to implement a national maritime transportation security planning system, consisting of a comprehensive national plan, specific area plans, and local vessel and marine facility plans.

S. 1214 also establishes a requirement for the Coast Guard to assess the effectiveness of security systems in certain foreign ports and to deny entry to vessels from ports that do not maintain effective security. Under S. 1214 individuals who enter secure areas on vessels or facilities will be required to have background checks and transportation security cards that will be issued by the Federal Government.

The Maritime Transportation Security Act authorizes grants for enhanced facilities security at U.S. ports for the next 6 fiscal years. These grants will help cover the costs of port security improvements and fund research and development projects to determine which technologies will best improve port security.

I have personally visited ports located in and around my home State of New Jersey and have seen the security challenges facing these facilities. Securing our ports is a critical Federal responsibility and the grant program is helping ports around America increase security and deter any would-be attackers.

Shipping containers are particularly adaptable to use by a terrorist, and S. 1214 contains several provisions to improve the securities of our containers. The bill requires the Secretary of the Department in which the Coast Guard is operating to maintain a cargo track-

ing, identification and screening system for shipping containers shipped to and from the United States.

Finally, the bill requires the establishment of performance standards to enhance the physical security of shipping containers, including standards for container seals and locks.

Mr. Speaker, this bill contains other important security enhancements concerning enhanced vessel crew member identification, Coast Guard sea marshals and vessel transponders to track the movement of vessels in United States waters.

Equally significant, the bill contains several additional security enhancements and other Coast Guard provisions previously passed by the House. The Coast Guard, as one of the Nation's five armed services, has a key role in homeland security, particularly as it relates to port security and defense readiness. These provisions strengthen the authority of the Coast Guard to confront the terrorist threat facing us today. Strong maritime homeland security requires a strong Coast Guard with the resources it needs to protect the country from a terrorist attack.

During my chairmanship of the Subcommittee on Coast Guard and Maritime Transportation, I have long said that the Coast Guard needs three things, essentially, to be successful: More money, more manpower, and more modern assets. Fortunately, this measure addresses all three needs and will help the Coast Guard to keep serving America both proudly and successfully. The bill authorizes expenditures for the United States Coast Guard for fiscal year 2003. Title V of the bill authorizes approximately \$6 billion for Coast Guard programs and operations for fiscal year 2003. The bill funds the Coast Guard at levels requested by the President of the United States. An injection of \$550 million in additional operating resources will also allow the Coast Guard to address chronic budget shortfalls. The bill fully embraces the President's call for an additional 2,000 Coast Guard personnel.

Many of the Coast Guard's most urgent needs are similar to those experienced by the Department of Defense, including spare parts shortages and personnel training deficits. Title V authorizes \$725 million for Coast Guard acquisitions. This funding will help support the recapitalization of the Coast Guard's vital assets, especially the Coast Guard's deep water program, which is so long overdue.

Immediately following the events of September 11, 2001, the Coast Guard launched the largest home port security operation since World War II. And as part of operation Noble Eagle and Operation Enduring Freedom, the Coast Guard established ports and coast line patrols with 55 cutters, 42 aircraft, and hundreds of small boats. Over 2,800 Coast Guard reservists were called to active duty to support maritime homeland security operations in 350 of our Nation's ports. The Coast

Guard enforced over 118 Maritime security zones around Navy vessels, cruise ships, nuclear power plants and other facilities.

The Coast Guard now requires a 96-hour advance notice for all ships entering U.S. ports. I want to commend the Coast Guard for their rapid response to the September 11 attacks and thank them for their tremendous service to our Nation. Fortunately, we have already provided the Coast Guard with broad legal authorities to implement the necessary security measures within U.S. ports. However, without substantial additional Coast Guard resources, we are not going to be able to significantly enhance maritime security.

Mr. Speaker, I want to take this opportunity to commend the men and women of the Coast Guard who, as I said before, have done such an exceptional job in service to their country. America benefits from a small Coast Guard that is equipped to stop terrorists and drug smugglers and support the country's defense to respond to national emergencies. We must now act to put the Coast Guard on a sound financial footing to be ready to respond to increasing homeland security demands and to carry out other critical missions.

Finally, Mr. Speaker, I would like to take this opportunity to thank the hard working House staff members who really have made this bill possible. Both from the House and Senate side the staff members worked extremely hard with long hours on this bill. An accomplishment of this magnitude is in large part due to their efforts.

I would like to single out one person in particular, Rebecca Dye, who I have had the pleasure of working with as my tenure as chairman of the Subcommittee on Coast Guard and Maritime Transportation, who has worked tirelessly throughout the 2 years that I have been chair and especially worked tirelessly on this bill. She will be leaving us shortly, and I want to take the opportunity to say what is our loss will be the gain for the United States of America. I thank Rebecca very much for her service to this committee, and I wish her the best of luck in the future.

Mr. Speaker, I urge all Members to support this conference report.

Mr. Speaker, I reserve the balance of my time.

Ms. BROWN of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in strong support of the conference report on S. 1214, the Maritime Transportation Security Act of 2002.

The events of September 11, 2001 has changed America forever. Every Member of Congress has examined the programs and policies within their committee to determine what they need to do to help protect the people of the United States from terrorists. The conference report we are considering today will provide the framework to secure

our seaports and coastal communities from terrorist actions.

Each year 95 percent of the U.S. imports and exports are moved by ships. U.S. consumers are dependent upon foreign oil for the gas they use in their cars. U.S. manufacturers are dependent upon the just-in-time delivery system of the container ships to resupply their manufacturing line.

We have recently seen the impact that a shutdown of the marine transportation system can cause when the West Coast waterfront employees locked out the longshoremen from unloading ships in port. A terrorist attack in our ports could have had an even more devastating impact on our Nation's economy.

Each year thousands of Americans enjoy cruises out of Florida ports. Cruise terminals and ships must ensure that cruises are not just enjoyable but also safe. The cruise ship industry is already working closely with the Coast Guard to protect the vacationing public. This legislation will help make the working relationship even closer.

On October 3, 2001, I introduced H.R. 3013, the Ports and Maritime Security Act of 2001. This legislation is very similar to the conference report we are considering today. They both require port vulnerability assessments of our Nation's ports, they both require terminal security plans, and they both establish a new grant system to help ports and terminal operators pay for security improvement. I believe that S. 1214 will lead to major improvements in securing the international maritime transportation system from threats of terrorists and from being used to deliver a weapon of mass destruction to the United States.

Section 70105 restricts access to secure areas of terminals to individuals that have a biometric security card that have passed a background investigation. Only those individuals that have unescorted access to a secure area, such as those people that have access to open containers or cargo manifests, will need a card.

Two provisions in S. 1214 are in particular interest to my home Port of Jacksonville and the 12 other ports throughout the Nation that have tremendous importance in times of war. In awarding the security grants established under Section 70107, the Secretary is directed to make it a priority for ports that have great defense importance, such as the Port of Jacksonville, to receive funds. Without securing these military load center ports, our troops that are deployed overseas may not receive the vital supplies they need.

We are contemplating military action in Iraq. Funding for these specific ports is vital, not only for the security of the soldiers protecting our freedom, but for the citizens and communities who proudly support these important ports.

The second provision ensures that the Secretary can award grants to

ports for securing measures they have already taken since September 11, 2001.

In addition, S. 1214 contains the text of H.R. 3507, the Coast Guard Authorization Act for Fiscal Year 2003. This act contains many provisions to improve housing for Coast Guard personnel, to provide compensated leave for Coast Guard personnel that are in isolated duty locations, and to improve maritime safety.

I would like to thank the gentleman from Alaska (Chairman YOUNG), the gentleman from New Jersey (Mr. LOBIONDO), and the ranking member, the gentleman from Minnesota (Mr. OBERSTAR) for the bipartisan effort they have used to develop this legislation.

Mr. Speaker, I reserve the balance of my time.

Mr. LOBIONDO. Mr. Speaker, I yield such time as he may consume to the gentleman from Alaska (Mr. YOUNG), the chair of our full committee, who has done such a great job in helping pull this together.

(Mr. YOUNG of Alaska asked and was given permission to revise and extend his remarks.)

Mr. YOUNG of Alaska. Mr. Speaker, I thank the gentleman for yielding me time.

Mr. Speaker, I want to thank the gentleman from New Jersey (Mr. LOBIONDO) for his great work as chairman of the subcommittee. I run my committee a little different than most of the other chairmen. I like to have my subcommittee chairmen that handle the bill to do the work, and I deeply appreciate what an outstanding job he has done with the Coast Guard. And he has Coast Guard facilities in his district and represents the Coast Guard quite well and the ports, which is something that I think this bill will help take care of.

We have a serious problem, which I think we have met in this bill, and that is the importation of product without screening. We do that. We really think that this will make sure that something cannot, it could happen, but cannot readily happen because of the passage of this legislation, product damaging to the Nation through our ports, and we will be able to make sure that does not occur. Of course, the Coast Guard plays an immense role in that.

□ 2200

Mr. Speaker, I know that the gentleman from New Jersey (Mr. LOBIONDO) has done this before; but I, too, would like to acknowledge Rebecca Dye, who has not only been a staffer for me for many, many years on the committee, her husband worked for the government; and even better, Rebecca is going to move on. This is her last presentation. She has been nominated by the President to serve as a commissioner on the Federal Maritime Commission, and I expect her nomination to be approved by the Senate very shortly. I am very proud of her actions

and ability to go forth and serve in an industry that I deeply respect, and that is the maritime industry. She has been a great professional, has done an outstanding job, and formerly served in the Coast Guard as a Reservist. She knows what she is doing.

I would also like to thank Patty Seeman for her hard work, and Ed Lee for his hard work, and of course Liz Megginson, chief of staff.

This bill has been a long time coming. We had to work with Senator HOLLINGS, and I love him to death; but working with Senator HOLLINGS can sometimes be difficult. Working with Senators always is difficult, and I know that I am not supposed to say that. The next rule change, we will be able to do that.

Mr. Speaker, I think this is a good piece of legislation. I know the hour is late and this is a so-called lame duck session; but this is one part of this lame-duck session we should be proud of. It protects our Nation, supports the Coast Guard, and helps our ports. I am extremely proud of this legislation. I urge my colleagues to vote for this legislation, if we have a recorded vote. I thank all Members who have worked together on a bipartisan basis, particularly the gentleman from Minnesota (Mr. OBERSTAR), the ranking member. We have done a good job on this legislation.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. WHITFIELD). The Chair reminds Members to avoid improper references to the Senate.

Ms. BROWN of Florida. Mr. Speaker, I yield 3 minutes to the gentleman from Virginia (Mr. SCOTT).

Mr. SCOTT. Mr. Speaker, I rise in support of the bill, which I believe will go a long way towards securing our ports against potential terrorist threats.

The events of 9–11, as devastating as they were, exposed our vulnerability to terrorist attacks. None of us believe future threats will be restricted to the tools of war used on that day, so it is important for all of us to closely examine all of our security issues, particularly our port security.

My district includes the port of the Hampton Roads, the second busiest port on the eastern seaboard. There is military and commercial presence in the port. It is the home of the Navy's Atlantic fleet, and the port is used for numerous maneuvers and military exercises. It is also one of the largest commercial container ports in the United States. Almost 800,000 containers moved through the port last year. Keeping this area secure from terrorist attacks is important to all of us, so we went to work.

Along with other Members, I toured the West Coast and local ports, including the one in Richmond, Virginia, and convened the First Responders and Homeland Security Task Forces in my district to seek advice. The Democratic Homeland Security Task Force also

came up with recommendations. This legislation contains many of the ideas and recommendations from those efforts.

For example, the legislation requires the new Department of Homeland Security to perform vulnerability assessments on all of our U.S. ports. It requires the development of national, area, and individual port facility anti-terrorism plans. Individual vessels and shore facilities that may be targets of terrorist attacks are required to prepare individual anti-terrorist security plans. This legislation also requires the new Department of Homeland Security to develop and maintain an antiterrorism cargo identification, tracking and screening system for containerized cargo shipped through the United States ports, and to develop performance standards for the physical security of shipping containers. And it establishes a matching grant program so the Federal Government can help share the costs of increased security.

The port of Hampton Roads has already adopted many initiatives to address the potential threats, and the bill will make additional improvements possible.

Many of these ideas originated with our local first responders, and I thank them for participating in this process. This bill is a vital step in making certain that our country's ports and those who live and work nearby are kept safe from terrorism. I urge my colleagues to support the bill.

Mr. LOBIONDO. Mr. Speaker, I reserve the balance of my time.

Ms. BROWN of Florida. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we have a good bill with lots of important provisions, including new matching grants to improve port security, a national security card for port workers and truck drivers, antiterrorism response teams and sea marshals, and Coast Guard authority to block ships for nonsecure ports.

We still have a lot of work to do, but this is a great start; and I strongly urge my colleagues to support the passage of the conference report of Senate 1214, the Maritime Transportation Security Act of 2002.

I also want to thank staff, and in particular John Cullatner. Against all odds, they did an excellent job.

Mr. Speaker, I yield back the balance of my time.

Mr. LOBIONDO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to thank the gentleman from Alaska (Mr. YOUNG), who has led us in this effort, the gentleman from Minnesota (Mr. OBERSTAR), the gentlewoman from Florida (Ms. BROWN), and our entire staff.

We have outlined why this is such a critical and important bill, and I would like to take a moment to reemphasize the job that the Coast Guard is doing for the Nation.

On September 10, 2001, the Coast Guard was dedicating about 2 percent

of its resources to port and homeland security. On September 12, 2001, that percentage rose to 60 percent. They have been doing a magnificent job in protecting our ports and deploying for homeland security. Many Members have expressed their strong support for the Coast Guard and the job that they have done, but it is time for us to recognize by more than words and saying thank you, that they need more operational dollars, more acquisition dollars, and more personnel.

With the provisions outlined in this piece of legislation for authorization of almost \$6 billion, honoring the request of the President of the United States, we are taking a large step towards making sure that the Coast Guard will have the assets that they need to continue to do a great job.]

Mr. HORTON. Mr. Speaker, I rise today in support of S. 1214, the Port and Maritime Security Act of 2002 Conference Report. As many of you know, I have been privileged to represent the Ports of Los Angeles and Long Beach for the past 10 years. Each day these ports receive cargo from points around the globe. The San Pedro Bay port complex is the third largest seaport in the world. These ports are responsible for over 30 percent of all U.S. waterborne trade with an estimated value of \$162 billion a year. The bulk of these imports arrive in 20- or 40-foot containers aboard some of the world's largest cargo ships. Additionally, our ports handle millions of cruise passengers annually. Insuring the safety of containers and passengers entering and exiting the ports of this country is a daunting task. Currently, only about 2 percent of the shipping containers entering the country are inspected. This simply will not do. Passing this comprehensive port security legislation will insure that more containers are inspected and that our ports are properly protected.

I am particularly pleased that section 203 of this legislation incorporates a bill that I introduced in the 106th Congress. This section authorizes the Secretary of Transportation to make grants to the American Merchant Marine Veterans Memorial Committee to construct an addition to the American Merchant Marine Memorial Wall of Honor in San Pedro, California. Thus far, the Committee has already raised well over \$500,000 to begin construction on the second phase of this memorial. Plans for the addition to the memorial call for panels to list the names of those who died while serving in the U.S. Merchant Marine.

Since 1775, the maritime community has played a critical role in gaining and preserving American freedom. The Merchant Marine served as our first Navy and defeated the British Navy in our fight for independence. We owe much to the brave mariners past and present who have served in the Merchant Marine. The American Merchant Marine Memorial Wall of Honor located in San Pedro, California, is a symbol of the debt we owe those who have served so bravely.

Many of my colleagues will remember how the Merchant Marine secured its place in American history during the Second World War. During that conflict, the 250,000 men and women in the U.S. merchant fleet made enormous contributions to the eventual winning of the war, keeping the lifeline of freedom open to our troops overseas and to our allies.

This fleet was truly the "Fourth Arm of Defense" as it was called by President Franklin D. Roosevelt and other military leaders.

The members of the U.S. Merchant Marine faced danger from submarines, mines, armed raiders, destroyers, aircraft, "kamikaze," and the elements. At least 6,800 mariners were killed at sea and more than 11,000 were wounded at sea. Of those injured, at least 1,100 later died from their wounds. More than 600 men and women were taken prisoner by our enemies. In fact, one in 32 mariners serving aboard merchant ships in the Second World War died in the line of duty, suffering a greater percentage of war-related deaths than all other U.S. services.

Since that time, the U.S. Merchant Marine has continued to serve our nation, promoting freedom and meeting the high ideals of its past members. It is fitting to honor the past and present members of the U.S. Merchant Marine. This is why I introduced legislation in the previous Congress that would provide additional federal funding for the memorial wall in San Pedro. Twice the House has approved legislation authorizing funds for this worthy memorial, today I am pleased that the House and Senate are moving to approve this authorization in the port security conference report.

Throughout the development of the conference report, I have sought to provide the greatest protection for ports and the communities that surround them against terrorist attacks. I am pleased that the conferees have included port security grants and research and development grants that will encourage the development and use of state-of-the-art technology. Like the conferees, I believe it is important to encourage the private sector to continually advance the state of the art as a means of enhancing detection capabilities and thus enhancing deterrence over time.

When he is reviewing project proposals and awarding grants, I encourage the Secretary of Transportation to give preference to those projects that incorporate technologies that are capable of automatically detecting shielded nuclear weapons, liquid and other explosives, and chemical and biological agents weapons in fully loaded cargo containers without the need for humans to open the containers to manually inspect them. Based on testimony received by the Congress, it would appear that pulsed fast neutron technology is capable today of meeting this need. As a result, I hope that this technology and other technologies will be identified, developed, and installed in our ports as part of the ongoing process of enhancing port security through this legislation.

Long Beach State's Center for the Commercial Deployment of Transportation Technologies (CCDoTT) has been developing maritime technology for many years, and has recently turned their attention to port security technology as well. In the FY03 Defense Appropriations bill CCDoTT was granted \$4.3 million for continuation of their important work to develop more efficient cargo handling in ports, high-speed ship designs, and port security research. This funding will allow the center to continue assessing cargo inspection technologies that can help meet the needs of agencies such as the U.S. Customs Service and the Coast Guard.

Section 70107 of the accompanying report authorizes an additional \$15 million for fiscal years 2003 through 2008 for research and development grants for port security. I am

pleased that report language for the Port and Maritime Security Act of 2002 particularly notes the importance of the research being done at Long Beach State's Center for the Commercial Deployment of Transportation Technologies. This language encourages the Secretary of Transportation and the Secretary of Defense to obligate any current and prior year appropriations under the continuing cooperative agreement. The Center is sponsored by the U.S. Maritime Administration and U.S. Department of Defense and I am certain it will continue to provide invaluable research for America's maritime interests. Again, I am pleased with, and strongly support, this timely port security legislation.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I rise to support S. 1214, Maritime Transportation Antiterrorism Act. Commercial vessels continued to experience an increased threat of criminal attack. Vessels seem to bear the brunt of these attacks which manifest themselves in the form of sea robbery, hijacking, terrorism, and piracy.

A complex set of security issues threaten the maritime industry and the movement of cargo in international trade. Those threats include terrorism, piracy, smuggling of stowaways and drugs, cargo theft and fraud, bribery and extortion. Enacting requisite port security measures and coordination, cooperation, and communication with government and maritime industry components are necessary.

In my home District, the Port of Houston Authority is a dynamic port that has helped to fuel the Houston area's development as a center of international business and trade. Companies that do business internationally also find Houston attractive because of its well-developed industrial and financial infrastructure; skilled work force; and diverse population. Ample space and favorable conditions for industrial development, as well as for cargo handling, makes the Port of Houston an excellent choice location for industry.

Port security is an essential part for a safe, secure, and competitive operation of the maritime transportation system. It promotes the development of commerce and is an essential element in maritime trade competitiveness, which cannot be achieved merely by modernizing port infrastructure and increasing operating productivity.

Consequently, port security can surface as a significant issue in trade negotiations and government and industry courses of action should be coordinated to facilitate effective solutions. Port authorities should develop the means for exchanging current information on port security issues and for the dissemination of intelligence to the commercial industry. We must protect our ports from criminal attacks and allow them to maintain their trade and commerce.

S. 1214 helps to protect our ports, such as the Port of Houston. This bill directs the Secretary of Transportation to (1) assess port vulnerability; (2) prepare a National Maritime Transportation Antiterrorism Plan [the Plan] for deterring catastrophic emergencies; and (3) review and approve Area, vessel, and facility antiterrorism plans.

Further, S. 1214 requires that the Plan to (1) coordinate Federal, State, and local efforts, including Coast Guard maritime antiterrorism teams and Federal Maritime Antiterrorism Coordinators; (2) identify security resources; and (3) include a system of surveillance and notice

to ensure earliest possible identification of emergencies. The bill requires the Secretary to establish a system of antiterrorism response plans for vessels in coordination with the Federal Emergency Management Agency. The bill requires that there be transportation security cards for entry to any antiterrorism secure area of a vessel or facility. The bill requires the Under Secretary of Transportation for Security to develop and maintain an antiterrorism cargo identification and screening system, including performance standards for seals and locks of shipping containers.

Moreover, S. 1214 requires that Federal Maritime Antiterrorism Coordinators develop, update, and integrate Area Maritime Transportation Antiterrorism Plans, as needed. The bill also requires owners or operators of vessels or facilities to prepare an antiterrorism plan for deterring a catastrophic emergency, including the identification of the plan implementor, the availability of antiterrorism measures, training and drills.

S. 1214 directs the Secretary to establish maritime antiterrorism teams to protect vessels, ports, facilities, and cargo in U.S. waters. Also, S. 1213 directs the Secretary to assess the effectiveness of antiterrorism measures maintained at specified foreign ports and make recommendations for improvements, if necessary.

The bill authorizes the Secretary to prescribe conditions of entry for or to deny entry into the United States to vessels arriving from foreign ports with ineffective antiterrorism measures. In addition, S. 1214 requires the advance electronic transmission of passenger and crew manifests from commercial vessels arriving in the United States from a foreign port.

The increasing nature and international scope of the maritime security issues, which threatens our port, requires participation and response from all levels of government. The lack of a secure trade corridor can hamper the economic growth of a port and possibly the country itself. A viable maritime security program is good business. A much bigger economic interdependency exists within the entire transportation network. Ports are committed to developing effective maritime security programs based on the recognition of ports as interchange hubs of commerce, critical to international trade.

In addition to the benefits that this bill will bring to the security of nation's ports, this measure also makes important changes to our nations maritime policy that will help us compete in the global marketplace and gives needed resources and flexibility to the Coast Guard and the men and women that make up this great agency, allowing it to better protect our nation's shores. I strongly support S. 1214. This bill is good for the Port of Houston and good for American ports. Therefore, I strongly urge my fellow members to support this bill.

Mr. OBERSTAR. Mr. Speaker, I rise today in strong support of the Conference Report on S. 1214, the "Maritime Transportation Security Act of 2002". Last year, Congress enacted landmark legislation to help protect the aviation industry from terrorist attacks. Today, we finalize legislation to help secure U.S. ports, vessels, and our intermodal transportation system from terrorist attack.

More than six million containers arrive in the United States each year from foreign ports

carrying goods that are vital for consumers and manufacturers. Virtually all of the oil imported into the United States arrives by ship. We are a nation dependent upon international shipping.

Yet this transportation system can also be used as a means of delivering a weapon of mass destruction to the heartland of America. It is far easier for a country to put a nuclear bomb in a container and ship it to the United States and have it detonated by a Global Positioning System receiver than it is to build a missile system to deliver a nuclear warhead.

Securing America's seaports and the cargo we import from being used by a terrorist is a daunting task. There are more than 95,000 miles of coastline in the United States. One only has to look at the volume of drugs imported each year by sea to see just how porous our borders are. However, it is a challenge we must address.

The Conference Report on S. 1214 is modeled after the successful Oil Pollution Act of 1990 (OPA). OPA established a strong command and control system—and clarified that the Coast Guard has the ultimate authority to determine how best to clean up an oil spill. S. 1214 establishes a similar system to develop and implement plans to deter terrorist attacks on our ports and on vessels operating in and out of our ports. The system includes development of national plans, area security plans, facility security plans, and vessel security plans.

To help ports, local governments, and facility operators pay for these security improvements, S. 1214 establishes a port security grant program to provide a 75 percent matching grant for security measures that are implemented to address vulnerabilities identified by the Coast Guard. Many ports and facilities in the United States have made security improvements since September 11, 2001. S. 1214 allows the Secretary to make grants to reimburse these entities for any security improvements they have made since that date that are consistent with their facility security plans.

However, protecting the United States must begin overseas. By the time that a weapon of mass destruction in a containership reaches a U.S. port, it is too late. S. 1214 requires the Secretary to review security standards in foreign ports and intermodal transportation systems. If foreign governments do not address their vulnerabilities and provide adequate security for cargoes that are being shipped to the United States, the Secretary may prevent ships from those countries from entering the U.S.

S. 1214 also helps protect our marine terminals by establishing a transportation security card system for those individuals that have "unescorted access" to secure areas of marine facilities (e.g., areas with open containers or areas where individuals have access to cargo manifests). The Department of Transportation currently envisions four levels of security access that can be granted by the card. For example, Level 1 Access identifies a person as someone who has unescorted access to the unsecure areas of a terminal. A Level 4 Access means that person has had a security background check to ensure that he or she is not a "terrorist security threat" and may have access to areas in a terminal that could cause a transportation security incident. On vessels such as a passenger vessel, the bridge and engine room areas may be des-

ignated as secure areas to ensure that passengers do not try to take over the control of the vessel.

Other security provisions in S. 1214 include: Directing the Secretary to develop enhanced standards for identifying crewmembers on foreign-flag vessels entering the United States and urging the Secretary to undertake the negotiation of a new international agreement on seafarer identification.

Directing the Secretary to implement a new system to collect, integrate, and analyze maritime intelligence concerning vessels operating on or bound for U.S. waters.

Requiring all self-propelled commercial vessels more than 65 feet in length to carry position-indicating transponders and electronic charts to make it easier to track their movements in U.S. waters.

Authorizing the Secretary to develop a long-range vessel tracking system using the satellite communication system on all ships.

Expanding the Deepwater Port Act to allow for the licensing offshore facilities for off-loading of Liquefied Natural Gas (LNG). This provision will help ensure that new LNG off-loading facilities are built offshore—not in coastal cities such as Boston and Charleston.

Allowing Coast Guard personnel to be assigned as sea marshals on vessels that pose a risk to U.S. communities such as tankers.

Establishing a port security training program at the U.S. Maritime Academy, the six state maritime academies, and the Appalachian Transportation Institute to help provide training and standards for maritime security professionals.

Requiring the Secretary to develop and maintain security standards related to cargo identification, tracking, screening, and the physical security of containers including standards for seals and locks.

S. 1214 also contains the Coast Guard Authorization Act for Fiscal Year 2003.

After a three-year struggle, we have reached agreement with the Other Body to reauthorize the Coast Guard and enact many changes to improve maritime safety and the quality of life for the men and women who serve in the Coast Guard.

These changes include:

Extending Coast Guard Housing Authorities from 2001 to 2007.

Allowing the Secretary to grant extra leave to Coast Guard personnel serving at isolated duty stations.

Allowing for the accelerated promotion of officers when a selection board finds to be of particular merit.

Increasing the amount that the Coast Guard may borrow from the Oil Spill Liability Trust Fund to pay for the removal cost of removing oil from a spill from \$50 million to \$100 million.

Requiring tug boats escorting vessels through facilities owned by the U.S. Government to be U.S.-flag vessels.

Establishing standards for working conditions and hours-of-service limitations for Coast Guard personnel working in Search and Rescue Centers.

Requiring the Commandant to ensure that all Coast Guard personnel are equipped with adequate safety equipment, including hypothermia protective clothing, when performing search and rescue missions.

Allowing mortgages and other financial instruments used to finance ships to be filed with the Coast Guard electronically.

Establishing whistle-blower protection for seamen on board vessels when the seaman believes that a serious injury may occur if he performs his duties as ordered by his employer.

Extending the period of time during which the Coast Guard can issue a recall for a recreational vessel from five years after the date of construction to ten years after that date.

Requiring the Coast Guard to publish on the internet all major marine casualty reports immediately and all other casualty reports within two years.

Allowing the Secretary to suspend the payment of retired pay of former Coast Guard personnel if the person has left the United States to avoid criminal prosecution or civil liability.

As I mentioned earlier, Mr. Speaker, S. 1214 establishes a new transportation worker biometric security card system including background checks, an appeals process, and protection of an individual's private information from his or her employer. Many of these security enhancement and worker protection provisions were not included last year in the USA Patriot Act that requires all commercial truck drivers who haul hazardous materials to undergo a criminal background check before receiving their Commercial Drivers License hazmat endorsement. Because the provisions enacted in the Patriot Act leave behind a vague and confusing regime, many states have not begun to implement the requirements. Even the U.S. Department of Transportation has acknowledged that a problem exists in Section 1012 of the USA Patriot Act and has advised state motor vehicle departments that these provisions "cannot be implemented without rulemaking by DOT."

I believe that the provisions in S. 1214 that provide an individual with the right to appeal the denial of a security card and the protection of information collected during that person's background investigation should be extended to commercial truck drivers that are subject to the Patriot Act. These standards have been developed on a bipartisan basis with the support of labor and employers. If the Department of Transportation fails to include these standards in the regulations they prescribe to implement the Patriot Act by the end of the year, we should move forward with legislation to correct these problems early next year.

Finally, I would like to thank Chairman YOUNG, Mr. LOBIONDO, and Ms. BROWN for the cooperative effort that they have put forth to develop this bipartisan port security legislation. Together, we have succeeded crafting meaningful legislation to improve the security of the marine transportation system against terrorist acts.

I urge my colleagues to support the Conference Report on S. 1214.

Mr. SHAW. Mr. Speaker, I rise in support of this legislation, which represents the next crucial step in improving America's transportation security. This bill coordinates various federal law enforcement efforts with local port authorities, develops uniform standards, and helps pay for technology upgrades and other security infrastructure at our ports. I am very pleased that this bill authorizes \$6 billion for the Coast Guard, an agency that is severely overworked and underfunded.

This legislation is of particular importance to the State of Florida and its 14 publicly owned deepwater seaports, including Port Everglades, Port of Palm Beach and Port of Miami

in South Florida. The challenge of protecting against potential threats to security in Florida is unique due to the state's extensive coastline, vigorous international trade, and passenger cruise activities. Our geography dictates that we must be prepared as a front-line homeland defense point against terrorism, as well as illegal immigration and drug trafficking.

Florida seaports represent some of the busiest bulk cargo and container ports in the nation, and improved security at our seaports is critical for protection of the state's citizens and millions of visitors, as well as the state's continued economic vitality.

The treat of terrorism and other crimes to Florida seaports is well documented. A 1999 state-commissioned study found that the Florida port are highly vulnerable and recommended comprehensive security plans at each Florida seaport. In 2002, the State of Florida enacted legislation mandating that such action be undertaken.

As the Chairman of the Florida Congressional Delegation, I am pleased that this bill does not penalize the Florida ports that have been pro-active in taking the necessary steps to improve security. A shining example of such a port is Port Everglades in my district. Even before September 11, Port Everglades has laid out a comprehensive security improvement plan. Since that day, the port has expedited its efforts, turning a 48 month plan to improve security into an impressive, 18 month, \$37 million plan that is now near completion. I commend the Broward County Board of County Commissioners for their foresight. The fine work they've done should serve as a model for ports around the nation.

As one of the first Members of Congress to introduce comprehensive seaport security legislation, along with my friend and colleague Senator BOB GRAHAM, I am gratified that we are finally completing our work on this most important issue. It is overdue.

Mr. BORSKI. Mr. Speaker, I rise today to support the U.S. Coast Guard's Armed Drug Interdiction (HITRON) Mission. The HITRON Mission is a unique and important weapon in the arsenal against illegal drugs and counterterrorism. The MH-68A armed helicopter, which was designed, assembled and maintained in Philadelphia, Pennsylvania, is an integral part of the HITRON mission. I thank the gentleman from North Carolina, Mr. COBLE, for his leadership on this matter. The gentleman from North Carolina and I have been deeply concerned that the short-term lease for the MH-68A expires in January of 2003, potentially jeopardizing the HITRON mission if the lease is not extended in a timely fashion. The Integrated Coast Guard Systems Group (ICGS—led by Lockheed Martin-Northrup Grumman) has recommended the Coast Guard fashion a permanent Deep Water Airborne use of force (AUF) program and test a heavier multipurpose helicopter for the drug and terrorist intervention mission. While this is certainly a reasonable approach, there must be no interruption in the program before a permanent fleet is fully deployed. I am pleased that the Coast Guard has agreed that there must be no interruption and is executing the lease extension. I join in congratulating the Coast Guard on a successful program.

Mr. LOBIONDO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the conference report.

There was no objection.

The SPEAKER pro tempore. The question is on the conference report.

The conference report was agreed to.

A motion to reconsider was laid on the table.

GENERAL LEAVE

Mr. LOBIONDO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the conference report on S. 1214.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from New Jersey?

There was no objection.

RECESS

The SPEAKER pro tempore. Pursuant to clause 12 of rule I, the Chair declares the House in recess subject to the call of the Chair.

Accordingly (at 10 o'clock and 8 minutes p.m.), the House stood in recess subject to the call of the Chair.

□ 2310

AFTER RECESS

The recess having expired, the House was called to order by the Speaker pro tempore (Mr. WHITFIELD) at 11 o'clock and 10 minutes p.m.

CONFERENCE REPORT ON H.R. 4628, INTELLIGENCE AUTHORIZATION ACT FOR FISCAL YEAR 2003

Mr. GOSS. Mr. Speaker, I ask unanimous consent that it be in order at any time to consider the conference report to accompany H.R. 4628; that all points of order against the conference report and against its consideration be waived; and that the conference report be considered as read.

The SPEAKER pro tempore (Mr. WHITFIELD). Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. GOSS. Mr. Speaker, pursuant to the unanimous consent request, I call up the conference report on the bill (H.R. 4628) to authorize appropriations for fiscal year 2003 for intelligence and intelligence-related activities of the United States Government, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to the order of the House of today, the conference report is considered as read.

(For conference report and statement, see prior proceedings of the House of today.)

The SPEAKER pro tempore. The gentleman from Florida (Mr. GOSS) and the gentlewoman from California (Ms. PELOSI) each will control 30 minutes.

The Chair recognizes the gentleman from Florida (Mr. GOSS).

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today to present the conference report for the fiscal year 2003 intelligence authorization bill. I believe that hard work and careful deliberation have produced a comprehensive bill that funds the critically important work of our intelligence community.

Mr. Speaker, the events over the past year remind us just how critical the intelligence community work is. As has been the longstanding custom of the Permanent Select Committee on Intelligence, this conference report is a bipartisan product which reflects admirably on our committee's members and its highly professional staff. I want to thank all involved. Because of the late hour of the evening, I am not going to enumerate all of the staffers and members, but I think all of them will take satisfaction in knowing that we have had a good year.

At this point, I would like to mention one other important issue. With the conclusion of this conference, the committee will lose the talents of several valued members: the gentleman from Georgia (Mr. CHAMBLISS), who led our Subcommittee on Terrorism and Homeland Security, and put out actually the first report on the counterterrorism situation; the gentleman from Delaware (Mr. CASTLE), who led our Subcommittee on Technical and Tactical Intelligence and has dealt with some of the more challenging problems that confront the Committee on Intelligence; the gentleman from California (Mr. CONDIT) and the gentleman from Indiana (Mr. ROEMER) on the minority side, who have been heavily involved in some of the issues we will be talking about later; and in particular, the gentlewoman from California (Ms. PELOSI), our esteemed ranking member.

She will graduate, I am told, to ex officio status. It will be a fine graduation. We know she is nearby when we need her. The gentlewoman from California (Ms. PELOSI) has made a significant contribution to the Permanent Select Committee on Intelligence work during her 10 years of service on the committee. Most notable, however, has been her determination to work collectively to rebuild and reenergize our Nation's intelligence capabilities after the September 11 attacks. She has been willing to work energetically and efficiently in a fashion that puts national security first before politics or partisanship. I say to the gentlewoman from California (Ms. PELOSI), or Madam Leader, soon to be, we thank her very much for her efforts.

This conference report authorizes funds for fiscal year 2003 intelligence-related activities, the Community Management Account, and the Central Intelligence Agency Retirement and Disability System.

I want to take a very short moment to highlight several provisions of the

report for the consideration of the Members. First, the bill includes several provisions designed to strengthen our Nation's fight against international terrorism, including a cross-agency foreign terrorist asset-tracking center to identify and disrupt terrorist financial support networks. I am pleased to report we have had some success at disruption, and I look forward to more.

It also establishes an ongoing notification procedure to assure timely congressional oversight of national security-related financial enforcement actions by the executive branch, something that we have had a lot of discussion about.

Other initiatives of note are several provisions intended to enhance the language-training capacity within intelligence and defense agencies to combat our language shortfalls; again, something that has been a pet project of our committee for a number of years. The bill will enhance the training capacity by establishing a flagship language initiative within the National Security Education Program.

The third area of focus is to strengthen the capacity of the national counterterrorism executive within the Office of the Directorate of the CIA. Several recent espionage cases, most notably the Aldrich Ames case, the Robert Hanssen case, the Ana Montes case, require that we place greater efforts in assessing our counterterrorism vulnerabilities with respect to hostile intelligence services, let alone terrorist-type activity that affect our men and women in the service, even on our own shores, as we are reminded tonight with the matter involving Mir Aimal Kasi.

This legislation recognizes the concern that insufficient attention has been given to the area of counterterrorism.

Finally, I wanted to commend all involved for their diligent work on reaching a compromise on the creation of an independent commission. It shows the American people that we can work together to reach consensus. Sometimes it takes a little longer than we hoped, but usually we get there.

Mr. Speaker, I barely scratched the surface regarding the many issues and investments contained in this bill that go toward protecting our national interests. As we all know, much of it is classified. The only way to be ready to address the diverse threats to our security, both at home and abroad, is by having a vibrant first line of defense, as the President has said, that provides indications and warning. This first line of defense has to start with our intelligence community, and we have to give them the support and the oversight necessary to do that job. This conference report directly helps to strengthen our capabilities, put them on target, and ensures the protection of our rights and liberties, now and in the future.

Mr. Speaker, I reserve the balance of my time.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of the conference report and thank the gentleman from Florida (Mr. GOSS), our distinguished chairman of the Permanent Select Committee on Intelligence, for his very kind words of farewell to me as I leave the committee after 10 years of service there. It has been a privilege to serve on the Permanent Select Committee on Intelligence; and as the gentleman said, we always put national security first, so our work there is generally conducted in a bipartisan way, and never more so than under the leadership of our chairman, who has been very bipartisan in his approach and given us the opportunity to air our differences, which largely are not partisan, but just differences of opinion that Republicans and Democrats may share.

In any case, the tenor of his leadership has been one that has been conducive to a very bipartisan atmosphere which is very wholesome for the work that we do, and that work is vital to our country.

So, Mr. Speaker, I thank him for his kind remarks. I congratulate the gentleman on his excellent leadership. It has been an honor to serve with the gentleman, and I look forward to working with the gentleman from the perspective of the Democratic leader.

Mr. Speaker, this is the last bill I will manage from appropriations or from the Permanent Select Committee on Intelligence; and I, too, want to join the chairman in thanking our other departing members on the Democratic side, the gentleman from California (Mr. CONDIT) and the gentleman from Indiana (Mr. ROEMER), for their distinguished leadership on the committee.

We will all benefit from the work of the gentleman from Indiana (Mr. ROEMER) tonight when we discuss the independent commission, which is in this bill thanks to his relentless leadership, and also bid adieu to the gentleman from Delaware (Mr. CASTLE) and the gentleman from Georgia (Mr. CHAMBLISS), who is going on to other work.

When I joined the committee 10 years ago, the Gulf War had been recently concluded. As I leave as a voting member, the threat of war has returned to the Gulf region. One of the primary purposes of intelligence is to enable U.S. military forces to wage any campaign successfully, with a minimum of casualties. Force protection is our primary responsibility.

Great progress has been made since the Gulf War in using intelligence to improve the accuracy and effectiveness of weapons and in hastening the flow of intelligence to military commanders. Those efforts are sustained appropriately in this conference report.

Equal in importance to the role of intelligence in making certain that wars are won is its role in preventing wars from being fought; some might even say, and I agree, even more important.

The conference report, particularly in the emphasis it places on strengthening the intelligence analytic function, should improve the quality of information policymakers and diplomats need to anticipate and resolve problems before they lead to armed confrontation.

The committee's work this year has been influenced greatly by the events of September 11, 2001. Our Subcommittee on Terrorism and Homeland Security, chaired by the gentleman from Georgia (Mr. CHAMBLISS) and the ranking member, the gentlewoman from California (Ms. HARMAN), has been at the forefront of efforts to draw lessons from those events and fashion corrective measures which lessen the chances for successful future attacks.

□ 2320

The conference report has counterterrorism at its highest funding priority. Next year, I expect that with the benefit of the recommendations to be made in the report of the joint September 11 inquiry the committee and its Senate counterpart are conducting, significant changes will be proposed in the way in which the intelligence community conducts its antiterrorism activities.

As thorough as the work of the joint inquiry has been, the dimensions of the September 11 attacks demands an additional kind of review. I am pleased that the conference report will establish a commission to take a comprehensive, independent, I hope, look across the agencies of government at the preparation for, and response to, those horrific events.

I expect that the commission, which I mentioned is in this bill because of the leadership of the gentleman from Indiana (Mr. ROEMER), will benefit greatly from the work of the joint inquiry and the Subcommittee on Terrorism and Homeland Security as it undertakes its critical assignment.

The brave and dedicated men and women of the intelligence community perform an invaluable service for our country, and I want them to know how impressed we have all been by the work they do under frequently dangerous and demanding conditions. They deserve our appreciation. The conference report should assist them particularly in the area of language training in ways which will improve their effectiveness in years to come.

Given the uncertainties and complexities of the threats we face, especially those posed by international terrorists and proliferators of weapons of mass destruction, it is imperative that the ranks of intelligence officers be as diverse as possible. Not enough progress has been made in this area despite repeated expressions of interest by members of the committee. I hope greater attention will be paid to this matter in the future.

Mr. Speaker, as I said, I went on the committee 10 years ago. My interest there centered around stopping the

proliferation of weapons of mass destruction, protecting our civil liberties as we try to gain as much intelligence as possible around the world to protect our forces, and also the prevention of war, as well as protecting us from terrorism. I hope that as we go forward with homeland security, which is essential to our country's security, that we will recall that each one of us takes an oath to protect and defend the Constitution of the United States, and as we protect and defend our country we must honor our oath to protect the Constitution and the civil liberties contained therein.

I am very pleased that President Bush has made stopping the proliferation of weapons of mass destruction a high priority. It is a pervasive problem, not only in Iraq but in other places in the world and it must have our attention. The United States must have a policy which is consistent to stop that proliferation.

Mr. Speaker, the capability to acquire intelligence is integral to the security of the American people. The conference report makes an important contribution to maintaining that capability. I commend the chairman for his leadership in putting this bill together and I urge its adoption.

Mr. Speaker, I reserve the balance of my time.

Mr. GOSS. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Nebraska (Mr. BEREUTER), the vice chairman of the committee and the chairman of the subcommittee that fuses capability and policy, a very challenging job these days.

(Mr. BEREUTER asked and was given permission to revise and extend his remarks.)

Mr. BEREUTER. Mr. Speaker, I rise in strong support of the conference report.

Mr. Speaker, the conference report addresses a number of pressing intelligence needs. This Member will focus his remarks on only two.

First, the legislation takes important steps to strengthen the intelligence community's analytical core. In recent years certain circumstances have demanded that we focus on terrorists, proliferators and drug traffickers. These are far more difficult targets to track than was the old Soviet Union. Frankly, the intelligence community took far too long to adapt to these new threats. It did not reach out aggressively to recruit human intelligence sources that could have provided us invaluable information.

The community lost far too many skilled analysts whose job it is to provide early warning. This legislation provides much needed funding to build a dynamic, wide-ranging global analytical capability.

A second important component of the intelligence authorization relates to terrorist finances. One of the major intelligence initiatives in the wake of 9/11 has been an attack on the financial

assets of terrorist organizations and their supporters.

Terrorist networks such as al Qaeda obviously cannot function without significant financing. And al Qaeda, for example, is supported by, one, a shadowy network of fund-raisers, money lenders, and shakedown artists; two, businesses and charities serving as front organizations; and, three, unscrupulous facilitators and middlemen. However, with the decision of the executive branch to fully exploit the existing authorities to target terrorist finances and with the granting of additional authorities under the U.S. PATRIOT Act, we are now aggressively attacking the money flow. To date over \$100 million of suspected terrorist money has been seized or frozen by the United States and its allies and that is just the beginning.

Mr. Speaker, this is an important and powerful tool in the war on terrorism. In order to maintain responsible legislative oversight over this effort, the Intelligence Authorization Act will require semi-annual reports on the number of assets seized, as well as the number of entities or individuals found to have engaged in financial support for terrorism.

It will also require information on the total number of requests for asset seizures that have been granted, denied or modified. This important oversight will ensure the war against terrorism financing remains on track.

In closing, this Member would congratulate the distinguished chairman of the committee, the gentleman from Florida (Mr. GOSS) and the distinguished gentlewoman from California (Ms. PELOSI) for the leadership they have demonstrated in bringing forth a genuinely bipartisan product. I will say in her existing capacity we will certainly miss the gentlewoman's long and very important experience and contributions on the Permanent Select Committee on Intelligence.

The conference report is a very serious effort. Each and every member of the committee dedicated long hours to the drafting of the legislation. Each member recognizes the importance of our action. This body can justifiably be proud of our efforts of the HPSCI, I believe, and particularly the leadership of the gentleman from Florida (Mr. GOSS) and the gentlewoman from California (Ms. PELOSI).

Finally, and of crucial importance, the staff of the committee is truly excellent in their knowledge and commitment to our oversight and our authorization responsibilities.

Mr. Speaker, this Member strongly urges adoption of the conference report of H.R. 4628.

Ms. PELOSI. Mr. Speaker, I yield 5 minutes to the gentleman from Georgia (Mr. BISHOP), a distinguished member of the committee and the ranking member of the Subcommittee on Technical and Tactical Intelligence of the Permanent Select Committee on Intel-

Mr. BISHOP. Mr. Speaker, I thank the gentlewoman for yielding me time.

Mr. Speaker, I rise in support of this conference report, but before I get started I want to express my own personal gratitude to the leadership of this committee, and most especially to the leadership of our ranking member, the gentlewoman from California (Ms. PELOSI), for the hard work she has done in leading the Democrats on this committee and the contributions that she has made to the committee as a whole.

I believe very strongly that her leadership has worked through the Permanent Select Committee on Intelligence to make the world and our country a little more of hope, a little less of fear and a little better because she traveled here, and we are very grateful for her leadership and we will miss her very much. Although she has gone on to more responsibility and we expect equally great things from her there, I do want to say that we certainly are appreciative of her hard work, and we will miss her, and it has meant a tremendous amount to our country and our intelligence community.

The committee worked hard to provide the resources that our military forces and our intelligence community require to prevail in the war on terrorism and to safeguard all of our other national security interests. The gentleman from Florida (Mr. GOSS) and the ranking member, the gentlewoman from California (Ms. PELOSI), my counterpart on the Subcommittee on Technical and Tactical Intelligence of the Permanent Select Committee on Intelligence, the gentleman from Delaware (Mr. CASTLE) and all of the other committee members deserve great credit for this important bipartisan authorization act.

In addition, this conference report adds substantial funds to the budget of the National Imagery and Mapping Agency to enable NIMA to award a contract for a major modernization program. I remain very concerned that the administration failed to budget enough funds for this effort despite the large budget increases following September 11.

□ 2330

The capabilities that this modernization effort will provide are essential for the kind of flexible military operations on display in Afghanistan.

When our bill was being debated in the House earlier this year, I indicated my concern about the Department of Defense's apparent neglect of the communications and exploitation infrastructure needed to support the large fleet of unmanned aerial vehicles that the Department intends to procure over the next several years. These drones performed magnificently in Afghanistan, but this potential will never be realized without a larger investment in the means to get the data back from the aircraft and get it exploited. I had hoped the administration would signal its intention to fix these problems, but

this has not happened. Congress must address this matter next year if the administration fails to do so in the fiscal year 2004 budget request.

This conference report also requires that some changes and initiatives be undertaken to correct problems with respect to the sharing of information within and between the intelligence and law enforcement communities. There is more work to be done in this area, but the direction in this conference report, if implemented faithfully, should help. We understand the importance of protecting sources and methods, but believe that this can be done within a much more expansive information-sharing paradigm.

Finally, I wanted to speak to the implementation of the proposed compensation reform plan. Section 402 of the bill is similar to section 402 of the House bill. The Senate amendment had no similar provision. Section 402 delays implementation of the Central Intelligence Agency's proposed compensation reform plan until February 1, 2004. Prior to that date, the director of Central Intelligence may conduct a pilot project to assess the efficacy and fairness of a revised personnel compensation plan and report to the Permanent Select Committee on Intelligence 45 days after completion of the pilot project. Section 402 includes a sense of the Congress that an employee personnel evaluation mechanism with evaluation training for managers and employees of the CIA and the National Security Agency should be phased in first and then followed by introduction of a new compensation plan.

Mr. Speaker, this was a concern that was raised by the employees that has contributed to a great deal of consternation and perhaps some problems that we might anticipate if it were implemented, and I am happy that the conference report reflects the concerns raised on this issue, and that we will first, before having an en masse, grand-scale implementation, first have the pilot program instituted so any kinks or problems can be worked out.

With that, I think it is a good conference report. I think we have done good work, and I urge my colleagues to support it.

Mr. GOSS. Mr. Speaker, I reserve the balance of my time.

Ms. PELOSI. Mr. Speaker, I yield 2 minutes to the gentlewoman from California (Ms. HARMAN), the ranking member of the Subcommittee on Terrorism and Homeland Security, and acknowledge the valuable contribution that subcommittee has made to our national security.

Ms. HARMAN. Mr. Speaker, I thank the gentlewoman for yielding me this time.

Mr. Speaker, During this term of Congress, much of my time and passion has been devoted to the activities of this committee and the contents of this conference report. It is a great committee with great bipartisan leadership, membership, and staff. It is

with relief, pride and some sadness that I stand here at midnight to urge passage of the conference report.

My special appreciation goes to our ranking member, the esteemed gentlewoman from California (Ms. PELOSI), who today achieved an historic first, and who over all of the years that I have served with her on this committee, has distinguished herself with fairness, probity, intelligence, and leadership skills. We will miss her, and we will welcome her back as an ex officio member.

I would also like to use my last statement of the 107th Congress to state my respect and praise for the gentleman from Indiana (Mr. ROEMER), another departing member. It is fitting that one of the last votes of this Congress will fulfill his promise to the families of the 9-11 victims. The gentleman from Indiana (Mr. ROEMER) has worked tirelessly and passionately to enact an independent commission to investigate the 9-11 attacks. That commission will be part of this conference report. In fact, the bold actions of the gentlewoman from California (Ms. PELOSI) and the gentleman from Indiana (Mr. ROEMER) saved the commission, saved the bipartisan tradition of the committee, and reflects the vote a majority of this House took some months ago.

I would finally like to recognize that other colleagues are departing: the gentleman from Delaware (Mr. CASTLE), the gentleman from California (Mr. CONDIT), and especially the gentleman from Georgia (Mr. CHAMBLISS), who is moving to the other body where he will serve on its intelligence committee. I would advise the gentleman if he gets lonely over there, he can come home for advice and counsel.

Mr. Speaker, this is our first real chance after 9-11 to set new directions in the intelligence community, and we do that. We provide substantially more funding, more training, and more support to penetrate, prevent and disrupt the plans of terrorist organizations.

I would say that the Department of Homeland Security legislation that we passed yesterday provides for an integrated strategy to protect the homeland, but that strategy must be built on world-class intelligence. This bill provides that critical base. I urge its passage.

Ms. PELOSI. Mr. Speaker, I yield 4 minutes to the gentleman from Indiana (Mr. ROEMER), a departing member of the Permanent Select Committee on Intelligence, yet one who has demonstrated leadership right up to the last day of the Congress to ensure that we have an independent commission and that it would be one that will make our country safer.

Mr. ROEMER. Mr. Speaker, I thank the gentlewoman from California (Ms. PELOSI) for those kind and generous words.

Abraham Lincoln, when he went from Springfield, Illinois, to Washington,

D.C. to take on a new job that he was elected to by the people of the United States, stood on a platform in Springfield, Illinois, and looked out at his hometown people and said to these people and their kindness, "I owe everything."

To the people of Indiana that I have served for the last 12 years in this distinguished body, I owe them everything, for the privilege and the humble responsibility of casting votes on their behalf with common sense and dignity, as we have and will tonight, to try to make this a more secure Nation and a Nation that works together in a bipartisan way to accomplish things.

When I talk about people, I want to commend the gentleman from Florida (Mr. GOSS), the chairman of the committee, for his distinguished leadership to bring this bill to the floor tonight in a most dangerous and precarious world.

I want to especially congratulate the gentlewoman from California (Ms. PELOSI), my good friend and our leader. I have two buttons in my pocket tonight with the gentlewoman's name on them that I will give to my 5-year-old daughter, Sarah, and my 2-year-old daughter, Grace. I think the talent and the dreams of women and people around the world are boundless tonight because of what example she has set. It is not just getting elected, and not only being a woman; it is being a leader and bringing a bill to the floor and keeping this body working into the night to get these things accomplished, like an independent commission.

We do live in a dangerous world where planes can wreak devastation, and a vial of smallpox that can fit in a pocket can kill millions. Therefore, this bill tonight, as the last bill of the 107th Congress, is indeed vital for our Nation's security.

We outline new language, training and proficiency programs in this bill which are funded at higher levels. We improve information sharing to decrease the problems of communication and stove-piping between the FBI and the CIA, and we put more emphasis on human intelligence, which is the most important work that we could do, not just relying on satellites in the sky.

□ 2340

Finally, a great big embrace and thanks for the idealism and effectiveness and hope to the families of the victims of 9-11 who have worked so hard and been such a great example to me of how grassroots work can make this body function better. These families, led by people like Stephen Push and Kristin Breitweiser, have really led us to tonight's success on the creation of this independent commission. It is not everything, it is not perfect, but it has come a long way from opposition and dead-on-arrival predictions that it would go nowhere. We have that in a bipartisan way in this bill tonight.

It still has a lot of challenges, Mr. Speaker, and one is the subpoena power. The linchpin for me of an effective investigative body and a truly

independent commission is the ability for this commission to have subpoena power, to threaten the subpoena, to ultimately deliver on it and to get depositions and to pry open doors that want to remain closed. We have that in this bill, especially if Senator MCCAIN and Senator SHELBY can have the one appointment that has been promised to them out of the five Republican appointments and that helps us get to this level of six votes that can trigger subpoenas. That is crucial in this. I hope that that colloquy and that gentlemen's agreement and that codified promise is in this bill and in the legislation's intent.

I also hope that we will follow the good path of the joint inquiry. Led by that staff and this great staff here on the floor tonight, we have uncovered a lot of questions, we have a lot of suggestions and recommendations for fixing the problems that led to 9-11, but we have so much more to do in front of us, which this independent commission in a seamless way can undertake and make recommendations for.

In summing up, Mr. Speaker, there is a Shakespeare play where one character says to the other in a bragging way, "I can call spirits from the deep," and the other character says, "Well, anybody can do that, but will they come?" Will they come? I hope and I pray for this most distinguished people's House that we will call forth the very best in us and bring forth the very best ideas and challenge these people in this great country to vote in the next 2 years on great ideas put forward by Republicans and Democrats and some in bipartisan ways to keep this country strong, to move us in a positive direction and do it in the spirit of the founders of this great Nation.

I appreciate the service to this country and wish good things for the people of this body. Thank you very much and Godspeed.

Mr. GOSS. Mr. Speaker, I yield such time as he may consume to the distinguished gentleman from Illinois (Mr. LAHOOD), a very valued member of our committee and well known to the Members of this body.

Mr. LAHOOD. I thank the gentleman for yielding me this time.

Mr. Speaker, I do not think there are two other people in the Chamber that I have more regard for than the chairman of the committee and the ranking member. Both people are very, very hardworking people. They have done extraordinary work for the country. The leadership of Chairman GOSS and our ranking member, the gentlewoman from California (Ms. PELOSI), has just been extraordinary, particularly given what happened after 9-11 and particularly given the events that we have been through in the House and as members of the joint committee studying what happened prior to 9-11. I have really enjoyed the opportunity for the last 4 years to serve with both of these people. I want to say a word about my friend from Indiana (Mr. ROEMER) be-

cause I know he will be leaving and his service has been valued very much by all the members of the committee. I know that you will be missed, Tim, and I know that it will be a great loss to our committee. And also to you, Madam Leader, you will also be missed and thank you for your service to the committee.

I rise in very, very reluctant opposition to the conference report. As those people on the committee know, I have objected very strenuously to the idea of a commission. Almost from the very first day that this idea has been proposed, I thought it was a bad idea. I have thought it was a bad idea because what is going to happen is you are going to have people with little or no experience, and many of us on the committee have tried to gain experience over the years and tried to gain knowledge in terms of what the community is about, the intelligence-gathering community and how they do their work and what the failures are, and to have some kind of a concept of a so-called blue ribbon committee, I think, really is going to fall far short of what people's expectations are.

I know that some people think this commission is going to provide a lot of answers and provide a lot of opportunity to assuage the feelings of the family members of the victims. I think we are holding out a real, real big false hope for the family members. I have always felt that. Many of us on the committee have tried to become experts. It is difficult to do. But there are people who are experts. I consider Chairman GOSS and I consider Ranking Member PELOSI experts because of the time that they have devoted. I think the gentleman from Indiana (Mr. ROEMER) is an expert because of the time he has devoted. But to try and get 10 people from the outside to come in and understand all of this in such a short period of time I think holds out a very big false hope. It just does not make sense.

I really think this is a mistake. I want people to understand that this is a good bill, it is a good conference report in every other regard except for the idea of holding out a false hope to the families that are left behind of the victims, that somehow this blue ribbon commission is going to be the panacea, that is going to answer all the questions, that is going to lay the blame where it needs to be laid. You know I have characterized this as the blame game commission and I know you do not like to hear me say that, but that is how I feel about it. There are people here that want to try and find blame within the government, whether it is in the CIA or the FBI or within the administration. I characterize this as no more than that, an opportunity for 10 citizens to try and come together and understand something that is so complicated and so complex that it makes little sense to try and hold out hope to people that this will really give the answers to the families that have been left behind. It will not. It simply will

not. I think that hopefully our joint committee can offer some answers out of the kind of work that we have done for the last year and will continue to do until the final report is written.

The idea that this is a blue ribbon commission where people are going to be paid, I think, detracts from what kind of a blue ribbon commission is it. It is right in the bill that there are going to be people who are going to be paid for this. Why do we have to pay people to serve on a blue ribbon commission? I wish I would have had an opportunity to at least strike that out of the bill, but we do not have an opportunity to strike these kinds of things out of conference reports. I think the idea of compensation is nonsense. It degrades the commission; it degrades the idea that it is a blue ribbon commission.

The final thing that I would say to my friends here in the House and to colleagues is that this really is an opportunity, I think, for people just prior really to a political election to lay on the table some kind of a report to try and lay blame at the foot of an administration. That is how I see it. This report will come out maybe a few days or a month or two before the next Presidential election. I have no idea what the report will say, but I know there are people out there that want to find blame. I have the feeling that that is what this commission will be out to do, to look for those who made mistakes, to look for those, to find fault with institutions in our government that probably in some ways did not serve the interest the way they should have.

As one Member, and I hate to do it because I know a lot of work has gone into this bill, into this conference report, but I intend to vote against it. I think this is a terrible mistake. It sends a terrible message. I do not want the families out there to think that when this report comes in from some so-called blue ribbon commission, it is going to answer. It is not going to answer.

□ 2350

Some of these things are unanswerable and those of us that have served on the joint committee know that some of these things are unanswerable. So I thank the chairman for the opportunity to speak, and in no way do I want to be degrade any member of the committee, any member who supports this. I just think it is a bad idea, it is a bad time to do it, it does not make sense, and it is going to hold out a false hope that we are never ever going to be able to meet.

Ms. PELOSI. Mr. Speaker, I yield 3½ minutes to the distinguished gentleman from Iowa (Mr. BOSWELL), who is the ranking member on the Subcommittee of Human Intelligence, Analysis and Counterintelligence.

(Mr. BOSWELL asked and was given permission to revise and extend his remarks.)

Mr. BOSWELL. Mr. Speaker, I want to make the gentleman from Illinois

(Mr. LAHOOD), my good friend, feel better. I have tremendous respect for him, and he knows that and I think he does for me. But as I reflect on the time it takes for the efforts gone forth, and I want to commend, as the rest of my colleagues have, our chairman and ranking member for their efforts and the efforts of the staff, but as I have observed the time necessary to go into this kind of depth, I think the blue ribbon commission is very necessary to get the answers that we ought to be able to get. So we reflect on the joint committee and the ability of Members, all the other things that demand our time and so on. I think it becomes pretty clear that we need this extra assistance to give the country and to give those families the information that they need, and they will not be satisfied with anything less.

So I tonight rise in appreciation to support this conference report because its time has come, and the people in this country ought to know that this committee under this leadership, the gentleman from Florida (Mr. Goss), the gentlewoman from California (Ms. PELOSI), have done everything that they can possibly do to protect our country to be sure that one of their principles of safety, principles of war and principles of safety, is to have good reliable intelligence and to be timely and to be accurate.

So I am very happy to support this conference report. I think it supports the global efforts to counterterrorism and other threats to international security, and the conference report, like the House bill passed in July, reflects a commitment of this committee to invest in the people of the intelligence community and intelligence disciplines across the board, especially human intelligence. The conference reports includes the provisions on language training and proficiency maintenance found in the House bill. The conference report unfortunately delays the effective date of the provisions found in the House bill, setting forth a new authorization for the innovative language training program known as the National Flagship Initiative under the National Security Education Program, NSEP. Although disappointing, it should be noted that both the House and Senate have endorsed the National Flagship Initiative and the conference report includes a provision to ensure that the delay does not affect the ongoing NSEP pilot to fund programs to develop competency at the superior level in languages critical to national security.

Over the last few months, the House and Senate intelligence committees have made significant progress in the joint investigation they have been conducting into the circumstances surrounding the terrorist attacks of September 11. The inquiry, however, has focused on U.S. intelligence agencies and must soon conclude its work. So I support the establishment of the independent commission. I have been dis-

appointed in how long it has taken for the agreement to be reached on whether a commission would be established and how it would be structured, but we are there.

While the final language on the commission may not be satisfactory to everyone, I believe it is important that a commission with a broad mandate and independent authorities be established by statute. I will follow with great interest its work, especially with respect to its investigation beyond the topics addressed by the joint inquiry. I urge the support of this report.

Ms. PELOSI. Mr. Speaker, I yield 3½ minutes to the very distinguished gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK. Mr. Speaker, I congratulate the members of this committee for the product and the way in which they have done it. I was particularly impressed by the very gracious remarks of the chairman of this committee about his opposite, the ranking minority member, and frankly at a time when there is some political sniping going on that seems to me wholly inaccurate, having him so generously acknowledge the important role the gentlewoman from California (Ms. PELOSI) has played on the single most important national security issue now before this Congress is a very impressive act, and I appreciate his doing that. I should underline that what we have here is the gentlewoman from California in her role on this committee having played a wholly responsible constructive role at the center of national policy. I would ask people to contrast that with some of the silly political assassination efforts that are going on.

Speaking of silly, I want to talk about an amendment we need. We have had a policy for driving gay people out of the military lest gay men and women be allowed to help defend this country, and it has been called the policy of Don't Ask, Don't Tell. We have a new name for it. It is called Don't Ask, Don't Tell, Don't Translate, because the Army in its wisdom pursuant to a dictate given to it by this body in its wisdom has just thrown out over the past year nine linguistic specialists, six of whom were studying Arabic. Apparently the Army feels that worrying about what people do in their private lives is more important than enhancing our ability to translate from Arabic. As the gentleman from Wisconsin (Mr. OBEY), the ranking member of the Committee on Appropriations said, it is a good thing for Lawrence Arabia they were not around when he was getting involved in the Middle East. The notion that they would take people who were studying Arabic, one member of this group had completed 30 weeks of training, he was getting very good marks, he trying to learn Arabic, in the process of learning Arabic, no, we do not want him because he is gay. I understand that anti-gay prejudice gets a certain leeway here. I have been

fighting against that, but to put it ahead of national security seems to me excessive. We have been told that we have a problem because we do not have enough skillful linguists. So when they kick out six Arabic speakers, two Korean speakers, and someone who speaks Mandarin Chinese, I am appalled. And let us be clear that while there is a policy on the books of which I do not approve, it is not self-executing. The military has the discretion not to apply it in some cases, and to expel from the military American citizens who are motivated by the most profound patriotism and are in the process of learning Arabic at a time when that is essential to national security, to kick them out because they are gay is preposterous, and while it is late in the session and late in the evening, too late I hope for my colleagues to bring up that bankruptcy bill they were playing with, I hope when we return next year we will look at this Don't Ask, Don't Tell, Don't Translate policy, and the notion that the Federal Government at this time should deprive itself of skillful people who want to work for national security in translating from Arabic into English and from Chinese and Korean into English, the notion that we would deny ourselves this greatly needed asset because some people do not like people like me is as silly as I can think. We are not here talking about trivia. We are not talking about anything superficial. We are talking about prejudice being elevated over national security.

Mr. Speaker, I include in the RECORD at this point an article from the AP by Margie Mason and an article from the New Republic by Nathaniel Frank which document this particular piece of stupidity.

MILITARY DISMISSES 6 GAY ARABIC LINGUISTS
AMID SHORTAGE OF TRANSLATORS
(By Margie Mason)

SAN FRANCISCO.—Nine Army linguists, including six trained to speak Arabic, have been dismissed from the military because they are gay.

The soldiers' dismissals come at a time when the military is facing a critical shortage of translators and interpreters for the war on terrorism.

Seven of the soldiers were discharged after telling superiors they are gay, and the two others got in trouble when they were caught together after curfew, said Steve Ralls, spokesman for the Servicemembers Legal Defense Network, a group that defends homosexuals in the military.

Six were specializing in Arabic, two were studying Korean and one was studying Mandarin Chinese. All were at the Defense Language Institute in Monterey, the military's primary language training center.

The government has aggressively recruited Arabic speakers since the Sept. 11 attacks.

"We face a drastic shortage of linguists, and the direct impact of Arabic speakers is a particular problem," said Donald R. Hamilton, who documented the need for more linguists in a report to Congress as part of the National Commission on Terrorism.

One of the discharged linguists said the military's policy on gays is hurting its cause.

"It's not a gay-rights issue. I'm arguing military proficiency issues they're throwing out good, quality people," said Alastair Gamble, a former Army specialist.

Harvey Perritt, spokesman for the Army Training and Doctrine Command at Fort Monroe in Tidewater, Va., confirmed the dismissals occurred between October 2001 and September 2002, but declined to comment further on the cases.

He said 516 linguists enrolled in the Arabic course this year at the Monterey institute and 365 graduated.

The military's "don't ask, don't tell" policy allows gays to serve provided they keep quiet about their sexual orientation.

Gamble and former Pfc. Robert Hicks were discovered in Gamble's room during a surprise inspection in April, Gamble said.

After their discharges, Gamble and Hicks applied for other federal jobs where they could use their language skills in the war on terrorism, but neither was hired, Gamble said.

"DON'T ASK, DON'T TELL" V. THE WAR ON TERRORISM

(By Nathaniel Frank)

On October 25, one week after CIA Director George Tenet warned that the United States now faces a terrorist threat every bit as grave as it did the summer before the September 11 attacks, the Council on Foreign Relations issued the most sobering report to date: "America remains dangerously unprepared to prevent and respond to a catastrophic terrorist attack. In all likelihood, the next attack will result in even greater casualties and widespread disruption to American lives and the economy."

The key to preventing that kind of calamity, most experts agree, is intelligence. And one of the basic requirements of good intelligence about the Arab world is the ability to speak its language. Unfortunately, study after study has indicated that the U.S. government faces a severe shortage of Arabic speakers. Less than one month after September 11, 2001, a House Intelligence Committee report criticized the FBI, CIA, and National Security Agency (NSA) for relying on "intelligence generalists" rather than linguists with expertise in a specific foreign language, culture, and geographical area. The report concluded that "at the NSA and CIA, thousands of pieces of data are never analyzed, or are analyzed 'after the fact' because there are too few analysts; even fewer with the necessary language skills. Written materials can sit for months, and sometimes years, before a linguist with proper security clearances and skills can begin a translation." According to a Government Accounting Office (GAO) study released in January 2002, in 2001, the U.S. Army, FBI, and State and Commerce Departments failed to fill all their jobs that required expertise in Arabic, Chinese, Korean, Farsi, or Russian. The GAO study concluded that staff shortages at these agencies "have adversely affected agency operations and compromised U.S. military, law enforcement, intelligence, counterterrorism and diplomatic efforts." As recently as last month, the Associated Press reported that the Army faces such a critical shortage of Arabic speakers that it is considering recruiting non-Americans from Middle Eastern countries into its Special Forces teams.

Which makes it all the more shocking that, in a two-month period this fall, the Defense Language Institute (DLI)—an elite training school for military linguists in Monterey, California—discharged seven fully competent Arabic linguists. The reason? They were discovered to be gay.

DLI is a language-training center run by the Army, but soldiers from all major military branches study there. Because of its battery of entrances tests and the intensity of its courses, DLI is reputed to attract students who are older and more skilled than most enlisted personnel. Its Northern California location also, it seems, attracts a large share of gay students. "There were way too many gay people at DLI for anybody to fear the 'don't ask, don't tell' policy," says one gay former student who arrived at DLI in 2001. While there, he was out to all his gay peers and to any enlisted personnel who seemed gay-friendly. "Nobody cared," he explains. "I knew someone who was a flaming queen in a uniform, and nobody cared. Sometimes we lived on halls that were more than 50 percent homosexual. ... I never even got a sideways glance."

Still, this tolerant atmosphere does not extend to commanders, who, when a soldier's homosexuality is clearly discovered, are forced by federal law to pursue and expel him. This includes highly trained linguists like Alastair Gamble, an Emory University-educated Army specialist fired from DLI this August after completing more than 30 weeks of intensive Arabic. (DLI's Arabic course requires 63 weeks for a basic knowledge, compared with only 25 weeks for Spanish, French, Italian, or Portuguese, and only the strongest students are selected to take it.) Gamble was a human-intelligence collector, a position the GAO report cited as one of the Army's "greatest foreign language needs." And Gamble was a catch for DLI in other ways, too. He had studied German for seven years in high school and continued in college, where he also studied Latin and linguistics. Once in the Army, he completed interrogation training, a nine-week intelligence course that trains a small number of soldiers to collect information through direct questioning techniques. He then spent six weeks working for the Foreign Area Officer program, which trains officers to work with U.S. allies, where his performance won him a Certificate of Commendation from his commander. He entered DLI in June 2001 to study Arabic and earned a perfect 300 on his physical fitness test. Gamble reports that his grades placed him at the top of his class and that several teachers told him they thought he was the strongest student in the class.

In April, Gamble was finishing his second semester of the Arabic basic course at DLI when, during a surprise "health and welfare" inspection at 3:30 a.m., he was caught in his room with his boyfriend, also an army language specialist. (In eight months of dating, the two men say they had never before broken visitation policies. But Gamble's boyfriend was nearing the end of his course and preparing to relocate to Goodfellow Air Force Base in Texas. As their separation approached, they decided they could risk one night of sleeping side by side.) After the two men were found in bed, nearly a dozen people searched the room while Gamble was escorted to his First Sergeant's office. Gamble says he was not yet thinking about being discharged. "I was just absolutely embarrassed," he recalls. "There's really nothing like having someone who's your age, but a slight rank above you, discussing whether or not lube is sufficient evidence to prove homosexuality. It's like getting felt up; it's horrible." The searched turned up a gay-themed, non-pornographic film, photographs showing affectionate, but not sexual, behavior between Gamble and his boyfriend, and several gift cards expressing romantic sentiments. Two weeks later, Gamble was officially notified that his unit was initiating an investigation into his sexual orientation. He was pulled from class and honorably discharged on August 2. About eight weeks later, his boyfriend was discharged as well.

Gamble and his boyfriend are no alone. The Servicemembers Legal Defense Network (SLDN), a legal aid and advocacy organization that assists men and women harmed by "don't ask, don't tell," announced in its latest quarterly report that it had assisted six other Arabic speakers recently discharged from DLI for being gay. Though only two chose to speak publicly, SLDN reports that all seven soldiers were fired while in the midst of, or having completed, the intensive DLI Arabic training course.

The army has cast the firings as routine enforcement of Army regulations. Harvey Perritt, a spokesman for U.S. Army Training and Doctrine Command, says the expulsions of competent Arabic linguists are "not relevant" to the nation's current war against largely Arabic-speaking terrorists. He insists that discharges resulting from "don't ask, don't tell" are consistent with those for other violations of Army regulations. "If someone is enrolled somewhere and they don't pass the P.T. [physical training] standards," he says, by way of comparison, "they'll be discharged. There are policies and they are always in effect."

But, regardless of what you believe about gays in the military, that's just not true. Both during the Gulf war and after the September 11 attacks, the Pentagon authorized "stop-loss" orders, allowing branch secretaries to retain soldiers who would otherwise be discharged for committing petty crimes, minor physical shortcomings, or other reasons. What's more, the military even has a history of suspending personnel policies regarding gays and lesbians during wartime, when it needs maximum retention of soldiers. In 1991, The Wall Street Journal reported that the Pentagon had allowed homosexuals to serve in the Persian Gulf, despite a ban on all gay service, and only moved to discharge several gay veterans after the war ended. For his best-selling 1993 book, *Conduct Unbecoming*, the late San Francisco Chronicle reporter Randy Shilts interviewed two Arab-language specialists fired from the Army for being gay. According to Shilts, the NSA contacted the two when the Gulf war began, begging them to return to service to help the war effort. (The two men declined.)

In other words, the military implicitly acknowledges that, during wartime, the gay ban may undermine national security rather than protect it. And since its leaders have consistently argued that national security should be the only criterion for determining whether gays should serve, it may be time for a new look at an "interim" policy formulated nearly ten years ago. Today's war on terrorism is less about squadrons and battalions than about deciphering the behavior of a shadowy enemy who attacks in secret. For national security's sake, let's hope our leaders are finally ready to acknowledge in public what they're admitted privately for quite some time: It is this enemy that threatens our nation's freedoms and survival, not the open homosexuality of patriotic Americans standing ready to serve.

Ms. PELOSI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to associate myself with the concerns expressed by the gentleman from Massachusetts (Mr. FRANK) regarding putting national security second to anything. It is our first priority to protect the American people. It is in the Preamble to the Constitution first to provide for the common defense and we really must revisit this idea, especially at the time of such tremendous need for linguistic skills, especially in the languages expressed by the gentleman from Massachusetts (Mr. FRANK).

Mr. Speaker, I am pleased to thank so many people who made this bill possible, my distinguished chairman for sure, all of the members of the committee acting in bipartisan fashion, and I want to commend the wonderful staff that we have. I want to acknowledge on the Democratic side our counsel Mike Sheehy who heads up the Democratic staff. We do not really think in terms of Democrat and Republican. It just somehow breaks down that way.

□ 0000

But we act in a very bipartisan way, members and staff. Chris Healey, Beth Larson, Ilene Romack, Wyndee Parker, Carolyn Bartholomew, Bob Emmett, Kirk McConnell, Marcel Lettre and, again, Mike Sheehy, who heads up our side. I want to commend Tim Sample, who is the major honcho staff person of the Committee, Chris Bartow, Mike Meermans and all of the other members of the staff for all of their hard work.

Mr. Speaker, I want to just respond briefly, because the hour is late, very briefly, to the very serious concerns and the sincerity in which they were expressed by the gentleman from Illinois (Mr. LAHOOD). The purpose of the commission is not to assign blame; it is to find out why and how 9-11 happened. I agree with the gentleman, if the purpose is to assign blame, we should not have the commission. That would not be constructive. But we must try our very best to make sure that a 9-11 or anything like it does not happen again; and in order to do that, we have to get to the bottom of it.

This commission will build on the work of the Joint Inquiry, in which this committee and the Senate committee have been engaged, and we are very pleased with the work of our staff director, Eleanor Hill, and the very, very able staff of the inquiry. It will build on that.

But this commission, the purpose of it is to have fresh eyes take a new fresh look at what happened and also to go beyond those agencies of government that the inquiry has looked at, to look at every agency of government that had any responsibility for protecting the American people from terrorism.

So with that, Mr. Speaker, I would just say as we go into this commission, we are walking on hallowed ground. There is no place for politics or assigning blame here, but we do have a responsibility to reduce risk to the American people, to find answers as to why 9-11 happened, to prevent it from happening again, to provide comfort to the families who have been a source of strength. We try to console them. They are an inspiration and a source of strength to us, as the gentleman from Indiana (Mr. ROEMER) indicated.

Whatever we do, we must bring honor to the memory of those who lost their lives on September 11. I think our work in the Joint Inquiry is an excellent product, will be an excellent product

when the report comes out, and that this work of the independent commission will bring honor to the memory of those who died as well.

Mr. Speaker, I urge our colleagues to support the conference report.

Mr. Speaker, I yield back the balance of my time.

Mr. GOSS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I would like to point out that we always have in the intelligence community many options and many things to consider; and while we do it on a bipartisan basis, we do not always agree on what are the best ways to proceed when you are dealing with some very complex questions of national security. Part of the richness of the judgment of our committee, I think, is we do have many perspectives, and we have heard some of them here tonight. I think that bodes well for our institution.

I would also, in addition to thanking the gentleman from Indiana (Mr. ROEMER) for his persistence and commitment to the idea of where we go next from the Joint Committee with our review process, like to underscore that other Members have been very helpful in the breakthrough. Certainly Members of the other body as well, but I want to thank the gentleman from Georgia (Mr. CHAMBLISS) in particular, who has been referred to already as the gentleman who led with the gentleman from California (Ms. HARMAN) the Subcommittee on Terrorism and Homeland Security effort, which was very important and a landmark piece for our work. The gentleman from Georgia (Mr. CHAMBLISS) was also a man who was instrumental in the breakthrough on the compromise that we came through on the independent commission. So I think that he is owed a special thanks for that.

For the family groups, the survivors of 9-11, Stephen Push and Kristin Breitweiser and so forth, we referred to them and spent hours talking to them, I suppose, collectively between all of us.

We all know that we have a responsibility, and I totally agree with my distinguished ranking member about the hallowed ground involved. I do not suppose a day has gone by since 9-11 that I and other members of our committee and perhaps all of us in the room have not thought, is there something we missed? Should we have known? Did we fail in our oversight? Did something go wrong? Was there a smoking gun? Did we somehow fail the American people? Were we derelict in our duty? I can honestly look Kristin Breitweiser and Stephen Push or anybody else in the eye and say I know of no such failure. I know of collectively a lot of things we could have done better, but I see nothing yet that leads me to a smoking gun.

This year we have joined with the other body in doing a very intense review of the 9-11 event. It is not over. We will be issuing a report and that

will lead to further efforts. That is appropriate. We will see where that takes us.

The question still needs to be asked and will continue to need to be asked, did we miss something? Did we do our oversight right? I hope the next commission on oversight, on the 9-11 review, will in fact come back to the congressional oversight and find out if we did our job properly.

I think we are accountable on these committees. I am certainly prepared for that, and I would love the opportunity to answer questions and give the point of view of the committee, because I am very proud of the effort that our committee has put into that. But it does not mean we have all the wisdom or judgment in the world.

Besides that review, we have tried very hard to make sure we understand the nature of the threat we are fighting in the war on terrorism and anthrax and propaganda and all the other miscreants that we deal with now on the basis of whether they are terrorists or violators of law. We are not quite sure, but they need to be stopped in their tracks. So we are fighting a global war, and we have got men and women out there taking risks, taking chances, doing hard work and sometimes, sadly, getting killed. Those people we owe a responsibility to.

The oversight and the advocacy role of our committee is on their behalf as well, to make sure they have the tools, the training, the capabilities they need to do their job, to protect all of us and to make sure in this very specialized area of intelligence they are operating in bounds, because we have promised the American people, our constituency, that we will make sure that we never violate our pledge to the American people that we will not spy on the American people. We will preserve our liberty. So we take that very seriously as well.

Then I think we come to the next question, and that is the question of catching the perpetrators of 9-11. Certainly we have not got them all, and certainly we have learned in the past 48 hours or so that Osama bin Laden himself may still be alive. This is ongoing. It will require patience, and it will require commitment. I would thank the members of the committee, the members of the staff and all who have helped us in that commitment, because that commitment remains before this body.

On behalf of the American people, I urge support for this very important bill.

Mr. GIBBONS. Mr. Speaker, I rise in support of the Intelligence Authorization bill, and I thank my friend and colleague from Florida for yielding me this time.

This is a very good bill. It addresses intelligence needs that were identified in past years by the Intelligence Committee. But only in the past year, after the deaths of innocent Americans, and innocent citizens of other countries,

are these needs getting the broad attention they deserve.

Throughout much of the 1990's, after the end of the Cold War, there was a debate about whether America really needed to spend so much money on defense. As for intelligence, some people even said there was no longer any need for the CIA. I believe that debate is now over.

The bill before you today will help the intelligence agencies increase and sharpen their effectiveness—especially against terrorist groups.

If you want to know the plans and intentions of terrorist groups you have to have HUMINT—"human intelligence". This is the information you get from human sources—also known as "assets" or "agents" or simply "spies". I want to emphasize that this year's intelligence authorization bill does a great deal to strengthen our HUMINT capability. For one thing, there is money to hire more CIA operations officers.

CIA's operations officers are doing a great job, but they are few and far between. We need more, and this bill will help ensure that there will be more. This bill also provides money to hire more intelligence analysts and linguists. Likewise, there is money for more foreign language training. It is not hard to understand that if your operations officers and analysts have not learned the language of your enemy, you will not succeed in learning his plans and intentions.

These HUMINT and foreign language-related items are just some of the good provisions of this Intelligence Authorization bill. They are long overdue.

The clock is ticking, and America's enemies continue with their planning. I urge your support for our intelligence professionals, and I urge your support for this bill.

Mr. GOSS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the conference report.

The previous question was ordered.

The SPEAKER pro tempore (Mr. WHITFIELD). The question is on the conference report.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LAHOOD. Mr. Speaker, I object to the vote on the ground that a quorum is not present and make the point of order that a quorum is not present.

The SPEAKER pro tempore. Evidently a quorum is not present.

The Sergeant at Arms will notify absent Members.

The vote was taken by electronic device, and there were—yeas 366, nays 3, not voting 62, as follows:

Mr. KERNs changed his vote from "yea" to "nay."

Mr. ALLEN changed his vote from "nay" to "yea."

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. PASCCELL. Mr. Speaker, on rollcall No. 483, I was unavoidably absent. Had I been present, I would have voted "yea."

GENERAL LEAVE

Mr. GOSS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on H.R. 4628 and the conference report just considered and passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

TRIBUTE TO TERRY MORRIS

(Mr. TOM DAVIS of Virginia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TOM DAVIS of Virginia. Mr. Speaker, I rise to honor our friend, my neighbor, Terry Morris, the Tally Clerk of the House, who is going to retire this December after 33 years of service to the House of Representatives.

Mr. Speaker, Terry accepted a position as Assistant Tally Clerk 33 years ago, and 16 years later he took over the helm as the Chief Tally Clerk, responsible for all votes in the House of Representatives. At the time of his retirement, Terry will have served longer in the House than all but 5 of the 435 currently serving Members.

During Terry Morris' tenure, the House has voted on the Gulf War, giving 18-year-olds the right to vote, impeachment, on antiterrorism measures in the wake of the attacks on September 11, and on authorizing the President to use military force against the threat of weapons of mass destruction from Iraq.

Terry's professional objectivity and down-to-earth style have made him many friends among Members on both sides of the aisle, particularly among new Members, whom he assists in familiarizing themselves with voting procedures. Terry's service has spanned both Democratic and Republican majorities, during which time his goal has always been to serve the whole House of Representatives, regardless of party.

Perhaps Terry's most unusual and important day as Tally Clerk came on December 19, 1998, when the House took four votes over a period of 2 hours on four separate articles of impeachment, two of which passed and two of which failed. Terry has been quoted as saying, "Of the thousands of votes I had taken in my career, I knew this would be the most significant."

Terry is originally from Madison, Wisconsin, where he majored in political science at the University of Wisconsin at Madison. Terry and his wife, Barbara, have two sons, Tim, a senior at Mary Washington College in Fredericksburg, Virginia, and Christopher, a sophomore at Bishop O'Connell High School in Arlington, Virginia. Terry is an avid golfer and tennis player, and one of the founders of the Capitol Hill Tennis Club. In his retirement, Terry intends to spend more time golfing, playing tennis and visiting friends around the country.

So we wish you Godspeed, Terry. We thank you for everything that you have given of yourself to this institution. We are the better for having known you, and the poorer for your leaving. We will not forget you.

Mr. OBEY. Mr. Speaker, will the gentleman yield?

Mr. TOM DAVIS of Virginia. I yield to the gentleman from Wisconsin.

Mr. OBEY. Mr. Speaker, let me simply say in addition to being educated at the University of Wisconsin, where he did receive a degree in political science, I would point out that I knew him before he worked here when he was a page in the Wisconsin Legislature, when he looked just a little bit younger than both he and I look tonight.

I just want to say that I know that every day the American people look in on this institution on C-SPAN and they see these faces at the desk, they have no idea who these people are and what

they do. They have no idea the contribution they make to the Republic. Terry has done everything except the one thing which is impossible: It has been impossible for him to make us look better than we deserve, and so we are going to have to let it go at that.

Terry, we wish you luck in retirement.

Ms. WATERS. Mr. Speaker, will the gentleman yield?

Mr. TOM DAVIS of Virginia. I yield to the gentlewoman from California.

Ms. WATERS. Mr. Speaker, I would just like to take a moment to add to the words of my colleagues about a most unusual man.

Terry Morris sits at that desk, impeccable in his dress, never a hair out of place, a smile on his face, serving day in and day out. He goes so far as to remind Members they have not voted by looking for them in every imaginable way, connecting with his eyes, reminding Members they have voted twice and they should not do that. He is perhaps one of the friendliest clerks and assistant that we have in this House. He helps Members regardless of party, and he has made friends on both sides of the aisle.

One of my joys in this House is coming in and seeing his face, speaking with him, exchanging a few words and just knowing he is going to be there for me and all of us. I am sorry to see him leave. He is one of those persons we would like to have stay forever; but after 33 years he deserves to retire. I wish him well.

Mr. MORAN of Virginia. Mr. Speaker, will the gentleman yield?

Mr. TOM DAVIS of Virginia. I yield to the gentleman from Virginia.

Mr. MORAN of Virginia. Mr. Speaker, as the gentleman from Virginia (Mr. TOM DAVIS) has mentioned all of the specifics of Terry Morris' life, I would just add that he is a constituent of mine. I am proud that is the case. But in so many ways, he is a constituent of this entire United States Congress. This is where he chose to spend most of his life, 33 years. Imagine, he has been up there for 33 years, 16 years as Assistant Clerk, and the last 17 as the Chief Tally Clerk.

As our colleague just stated, we take it for granted, every time we pass in that vote, Terry is smiling. He is looking professional. He is even looking alert. Here it is after midnight, and he is still smiling and looking alert. I do not know that we can do it. He does it day in and day out in such a way that we take it for granted. That is the kind of professionalism that the American public counts on.

□ 0050

When they have seen him on C-SPAN, I know he has just been sort of part of the institution, but the people listening in and who may one day read the CONGRESSIONAL RECORD ought to know that in many ways there is no more prized servant of the American people than Terry Morris has proven himself to be.

And so for the person you are and for what you have contributed to this institution, Terry, we will forever be grateful. Thank you.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I yield to the gentleman from Michigan (Mr. DINGELL).

Mr. DINGELL. Mr. Speaker, I thank the distinguished gentleman from Virginia for yielding. I rise today to pay tribute to Terry Morris, who is retiring after 33 years of distinguished service to this House of Representatives. He has served as an assistant tally clerk and has fulfilled the duties of chief tally clerk for the past 16 years and more with great distinction. He is one of those who quietly and in an unassuming fashion makes this House of Representatives work.

In a body which is characterized by high levels of partisanship and by strong feelings, I would note that he has not only served with distinction but with fairness, and he has served well. He is known for his professional and friendly personality and for the fact that he has carried out his responsibilities with dignity, with respect for the institution, and with good faith towards all of the Members of this body. He has been an officer of this House for 33 years. He has seen history made. He has worked on many difficult and complex issues with fairness and impartiality. His service has spanned the careers of five Democratic Speakers and two Republican Speakers of this House. I speak not only on my own behalf but on behalf of his many friends in this institution when I commend him for his work and for his effort.

All of us here offer our best wishes and gratitude to him for his service and to his wife, Barbara. We wish them great happiness and the best of all things as they embark on a new chapter in their lives. All of us say to Terry Morris, not only thank you, but well done, Terry. We are grateful for what you have done for us.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I yield to the gentleman from Wisconsin (Mr. KIND).

Mr. KIND. I thank my friend for yielding. As someone who hails from our neck of the woods and whose family is still sprinkled in many of our congressional districts, it is with special pride that we are here to honor you and to thank you for your many years of service in this great House, Terry. I was just 5 years old when you started your career here. Not to date you, but you have lived through eight administrations and seven separate Speakers of the House of Representatives. So I think it is safe to say that you are a great repository of a lot of the institutional memory that exists in this place. Besides you and Charlie, I think you two are the only two who probably recall the Members whose names we are honoring on courthouses and post offices throughout this country virtually every week out here. But I also want to thank you for what you mean for our government.

There is a lot of cynicism in regards to our political system today, and a lot of times that is because the only thing people back home see is the partisan clashes and the heated debates that we have. I feel it is part of our obligation to go home and report to people who do not see what we get to see how well our government functions and the fact that we have thousands of employees, in the Federal agencies, in our offices, in this House who wake up every morning with the sole goal of trying to improve this great country of ours. You do it with honor, you do it with integrity, and you do it with a lot of style and a lot of class. That is why I, after my third term, am even more hopeful and optimistic about this great government of ours, because of people like you.

I just have one request before you do leave, and that is to make sure that you download all the information that is in your brain and make sure it is all written so that we do not have to re-create the wheel. I will never forget the story you told me that after one of the late tally votes, which is seldom held around here anymore, someone asked you where the written procedure is for the tally vote, and you looked at them with a blank expression and said, "There is no written procedure. It's right here." Everyone was shocked and horrified that you were going to go home that night being the only one with the knowledge on how to do this type of work. So you sat down before you went home and actually wrote out what the procedure is like.

Again, we thank you for your great service. I personally thank you for all the conversations and the advice that you have given me. We wish you and Barbara and the two boys all the best in your retirement. Thank you very much.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I yield to the gentleman from Michigan (Mr. KILDEE).

Mr. KILDEE. Mr. Speaker, a very loyal and distinguished member of the House staff is retiring after 33 years. I personally owe much to him for helping me preserve my longtime voting record. More than once he has advised the Speaker that I had not yet arrived. I am grateful to him for that. Terry's service has spanned five Democratic Speakers and two Republican Speakers of the House. Many people can spend 33 years here and never have to vote on the awesome question of war or impeachment. He has experienced both of those awesome questions here in his responsibility.

Terry and his wife, Barbara, have two sons: Tim, a senior at Mary Washington College in Fredericksburg, Virginia, and Christopher, a sophomore at Bishop O'Connell High School in Arlington, Virginia.

Terry will be greatly missed. He is a friend of this House. He is a personal friend of mine. I am a better person because of Terry Morris.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I yield to the gentlewoman from Wisconsin (Ms. BALDWIN).

Ms. BALDWIN. Terry, as a fellow Madisonian and a fellow Wisconsinite, you have made us very proud. Terry reminds me of what is great about the people of Wisconsin. We are actively involved in our democracy and government, and we have an outstanding work ethic. Wisconsinites understand what it means to serve their country; and Terry Morris has done so impeccably, in both his capacity as assistant tally clerk and as chief tally clerk. He has been a good friend to me in our frequent reminiscences about Wisconsin and Madison. I will miss you very much. Terry, thank you so very much for your service to this House and this Nation. You make Wisconsin proud. You make all of us proud. Best wishes in your retirement.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I yield to the gentleman from Maryland (Mr. HOYER).

Mr. HOYER. Terry, your service has been recalled and set before us. All of us appreciate your service, that is clear. I think you are emblematic of the fine service that is given by those of you who do not get to speak on this floor, those of you whose names do not scroll across the screen, those of you who work anonymously but so effectively on behalf of the American public. Terry, I wanted to add my thanks and the thanks of all the Members of this side of the aisle, along with TOM on behalf of all the Members on that side of the aisle, because you work not in a partisan sense but you work for this institution to ensure that the people's House functions as the people would like. As TOM DAVIS said, we will miss you. You have served your country well. God bless you.

CONFERENCE REPORT ON H.R. 333, BANKRUPTCY ABUSE PREVENTION AND CONSUMER PROTECTION ACT OF 2002

Mr. GEKAS. Mr. Speaker, I call up the conference report to accompany the bill (H.R. 333) to amend title 11, United States Code, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore (Mr. SIMPSON). Pursuant to clause 8, subsection C of rule XXII, the conference report is considered read.

POINT OF ORDER

Mr. BLUNT. Mr. Speaker, I make a point of order under clause 9 of rule XXII that the conference report includes matter outside the scope of the differences between the two Houses that were committed to the conference committee for resolution. I specifically cite section 331 of the conference report which is described in the joint explanatory statement of the managers as having no counterpart in either the House bill or the Senate amendment.

The SPEAKER pro tempore. Does any other Member wish to be heard on the point of order?

Mr. FRANK. Mr. Speaker, I wish to be heard on the point of order.

Mr. Speaker, I gather that this point of order is being lodged by the leadership of the House against the very bill that the leadership of the House was trying to persuade Members to vote for a couple of hours ago. So my concern is, how did a bill that was perfectly in order at about 8 o'clock fall out of order?

□ 0100

And I am concerned that we have a situation in which the leadership of this House apparently consciously brought forward a bill that they knew to be violative of the rules of the House, sought to pass it, and when not enough arms could be twisted, they now have become late converts to the rules.

PARLIAMENTARY INQUIRY

Mr. FRANK. So, Mr. Speaker, I do have a parliamentary inquiry. I am sorry the gentlemen do not want to hear this flip-flop, but I did not bring it up. I have a parliamentary inquiry, Mr. Speaker, which I believe is regular order. You might want to explain to a few of them over there. I understand on that side knowledge and commitment to the rules is a sometime thing, but a parliamentary inquiry is in order.

Is this bill against which the point of order has been lodged exactly the same bill that the leadership was trying to get people to vote for a few hours ago?

The SPEAKER pro tempore (Mr. SIMPSON). The gentleman has not raised a parliamentary inquiry.

Mr. FRANK. The parliamentary inquiry is, is this the same piece of legislation on which we voted a couple of hours ago? I think a parliamentary inquiry is relevant when we ask about what is in fact before the House. I have not had a chance to read it. Is this the same bill that the House was voting on a few hours ago?

The SPEAKER pro tempore. The conference report called up by the gentleman from Pennsylvania (Mr. GEKAS) that is the object of the pending point of order was earlier the object of House Resolution 606, which the House rejected. The gentleman from Pennsylvania (Mr. GEKAS) may make a motion after the Chair rules. He has not made that and it is not pending before the House now.

Mr. FRANK. Pardon me, Mr. Speaker, but the gentleman from Missouri (Mr. BLUNT) has made a point of order against something. I guess that is the question. The parliamentary inquiry is against what it is that the gentleman from Missouri has lodged a point of order? You said does anyone want to be heard on the point of order. He made a point of order. Against what vehicle did he make a point of order, then?

The SPEAKER pro tempore. The point of order is against the conference report against which no points of order have been waived.

Mr. FRANK. So the point of order is against the very conference report that this leadership which is now making the point of order tried to pass. I have

heard about being born again in some context, but born again parliamentarian is a new concept to me, and I think it ought to be clear. I want to be heard on the point of order, and I want to say that I want to defend the House leadership. If you sustain this point of order, you will be ruling that the very bill this House leadership tried to get majority Members to vote for a few hours ago was out of order. I do not think we ought to have the ruling calling into question the fealty of the House Republican leadership to the Rules of the House.

The SPEAKER pro tempore. Does any other Member wish to be heard on the point of order?

If not, for the reasons stated by the gentleman from Missouri (Mr. BLUNT) the point of order is sustained and the conference report is vitiated.

CONCURRING IN SENATE AMENDMENT, WITH AN AMENDMENT, TO H.R. 333, BANKRUPTCY ABUSE PREVENTION AND CONSUMER PROTECTION ACT OF 2001

Mr. GEKAS. Mr. Speaker, I offer a motion.

The SPEAKER pro tempore. The Clerk will report the motion.

The Clerk read as follows:

Mr. GEKAS moves that the House recede from disagreement to the Senate amendment and concur therein with the following amendment:

In lieu of the matter proposed to be inserted by the Senate amendment, insert the matter after the enacting clause in H.R. 5745 as introduced on November 14, 2002.

TITLE I—NEEDS-BASED BANKRUPTCY

SEC. 101. CONVERSION.

Section 706(c) of title 11, United States Code, is amended by inserting "or consents to" after "requests".

SEC. 102. DISMISSAL OR CONVERSION.

(a) IN GENERAL.—Section 707 of title 11, United States Code, is amended—

(1) by striking the section heading and inserting the following:

"§ 707. Dismissal of a case or conversion to a case under chapter 11 or 13";

and

(2) in subsection (b)—

(A) by inserting "(1)" after "(b)";

(B) in paragraph (1), as so redesignated by subparagraph (A) of this paragraph—

(i) in the first sentence—

(I) by striking "but not at the request or suggestion of" and inserting "trustee, bankruptcy administrator, or";

(II) by inserting ", or, with the debtor's consent, convert such a case to a case under chapter 11 or 13 of this title," after "consumer debts"; and

(III) by striking "a substantial abuse" and inserting "an abuse"; and

(ii) by striking the next to last sentence; and

(C) by adding at the end the following:

"(2)(A)(i) In considering under paragraph (1) whether the granting of relief would be an abuse of the provisions of this chapter, the court shall presume abuse exists if the debtor's current monthly income reduced by the amounts determined under clauses (ii), (iii), and (iv), and multiplied by 60 is not less than the lesser of—

"(I) 25 percent of the debtor's nonpriority unsecured claims in the case, or \$6,000, whichever is greater; or

"(II) \$10,000.

"(ii)(I) The debtor's monthly expenses shall be the debtor's applicable monthly expense amounts specified under the National Standards and Local Standards, and the debtor's actual monthly expenses for the categories specified as Other Necessary Expenses issued by the Internal Revenue Service for the area in which the debtor resides, as in effect on the date of the entry of the order for relief, for the debtor, the dependents of the debtor, and the spouse of the debtor in a joint case, if the spouse is not otherwise a dependent. Notwithstanding any other provision of this clause, the monthly expenses of the debtor shall not include any payments for debts. In addition, the debtor's monthly expenses shall include the debtor's reasonably necessary expenses incurred to maintain the safety of the debtor and the family of the debtor from family violence as identified under section 309 of the Family Violence Prevention and Services Act, or other applicable Federal law. The expenses included in the debtor's monthly expenses described in the preceding sentence shall be kept confidential by the court. In addition, if it is demonstrated that it is reasonable and necessary, the debtor's monthly expenses may also include an additional allowance for food and clothing of up to 5 percent of the food and clothing categories as specified by the National Standards issued by the Internal Revenue Service.

"(II) In addition, the debtor's monthly expenses may include, if applicable, the continuation of actual expenses paid by the debtor that are reasonable and necessary for care and support of an elderly, chronically ill, or disabled household member or member of the debtor's immediate family (including

parents, grandparents, siblings, children, and grandchildren of the debtor, the dependents of the debtor, and the spouse of the debtor in a joint case who is not a dependent) and who is unable to pay for such reasonable and necessary expenses.

“(III) In addition, for a debtor eligible for chapter 13, the debtor’s monthly expenses may include the actual administrative expenses of administering a chapter 13 plan for the district in which the debtor resides, up to an amount of 10 percent of the projected plan payments, as determined under schedules issued by the Executive Office for United States Trustees.

“(IV) In addition, the debtor’s monthly expenses may include the actual expenses for each dependent child less than 18 years of age, not to exceed \$1,500 per year per child, to attend a private or public elementary or secondary school if the debtor provides documentation of such expenses and a detailed explanation of why such expenses are reasonable and necessary, and why such expenses are not already accounted for in the National Standards, Local Standards, or Other Necessary Expenses referred to in subclause (I).

“(V) In addition, the debtor’s monthly expenses may include an allowance for housing and utilities, in excess of the allowance specified by the Local Standards for housing and utilities issued by the Internal Revenue Service, based on the actual expenses for home energy costs if the debtor provides documentation of such actual expenses and demonstrates that such actual expenses are reasonable and necessary.

“(iii) The debtor’s average monthly payments on account of secured debts shall be calculated as the sum of—

“(I) the total of all amounts scheduled as contractually due to secured creditors in each month of the 60 months following the date of the petition; and

“(II) any additional payments to secured creditors necessary for the debtor, in filing a plan under chapter 13 of this title, to maintain possession of the debtor’s primary residence, motor vehicle, or other property necessary for the support of the debtor and the debtor’s dependents, that serves as collateral for secured debts; divided by 60.

“(iv) The debtor’s expenses for payment of all priority claims (including priority child support and alimony claims) shall be calculated as the total amount of debts entitled to priority, divided by 60.

“(B)(i) In any proceeding brought under this subsection, the presumption of abuse may only be rebutted by demonstrating special circumstances that justify additional expenses or adjustments of current monthly income for which there is no reasonable alternative.

“(ii) In order to establish special circumstances, the debtor shall be required to itemize each additional expense or adjustment of income and to provide—

“(I) documentation for such expense or adjustment to income; and

“(II) a detailed explanation of the special circumstances that make such expenses or adjustment to income necessary and reasonable.

“(iii) The debtor shall attest under oath to the accuracy of any information provided to demonstrate that additional expenses or adjustments to income are required.

“(iv) The presumption of abuse may only be rebutted if the additional expenses or adjustments to income referred to in clause (i) cause the product of the debtor’s current monthly income reduced by the amounts determined under clauses (ii), (iii), and (iv) of subparagraph (A) when multiplied by 60 to be less than the lesser of—

“(I) 25 percent of the debtor’s nonpriority unsecured claims, or \$6,000, whichever is greater; or

“(II) \$10,000.

“(C) As part of the schedule of current income and expenditures required under section 521, the debtor shall include a statement of the debtor’s current monthly income, and the calculations that determine whether a presumption arises under subparagraph (A)(i), that shows how each such amount is calculated.

“(3) In considering under paragraph (1) whether the granting of relief would be an abuse of the provisions of this chapter in a case in which the presumption in subparagraph (A)(i) of such paragraph does not apply or has been rebutted, the court shall consider—

“(A) whether the debtor filed the petition in bad faith; or

“(B) the totality of the circumstances (including whether the debtor seeks to reject a personal services contract and the financial need for such rejection as sought by the debtor) of the debtor’s financial situation demonstrates abuse.

“(4)(A) The court, on its own initiative or on the motion of a party in interest, in accordance with the procedures described in rule 9011 of the Federal Rules of Bankruptcy Procedure, may order the attorney for the debtor to reimburse the trustee for all reasonable costs in prosecuting a motion filed under section 707(b), including reasonable attorneys’ fees, if—

“(i) a trustee files a motion for dismissal or conversion under this subsection; and

“(ii) the court—

“(I) grants such motion; and

“(II) finds that the action of the attorney for the debtor in filing under this chapter violated rule 9011 of the Federal Rules of Bankruptcy Procedure.

“(B) If the court finds that the attorney for the debtor violated rule 9011 of the Federal Rules of Bankruptcy Procedure, the court, on its own initiative or on the motion of a party in interest, in accordance with such procedures, may order—

“(i) the assessment of an appropriate civil penalty against the attorney for the debtor; and

“(ii) the payment of such civil penalty to the trustee, the United States trustee, or the bankruptcy administrator.

“(C) In the case of a petition, pleading, or written motion, the signature of an attorney shall constitute a certification that the attorney has—

“(i) performed a reasonable investigation into the circumstances that gave rise to the petition, pleading, or written motion; and

“(ii) determined that the petition, pleading, or written motion—

“(I) is well grounded in fact; and

“(II) is warranted by existing law or a good faith argument for the extension, modification, or reversal of existing law and does not constitute an abuse under paragraph (1).

“(D) The signature of an attorney on the petition shall constitute a certification that the attorney has no knowledge after an inquiry that the information in the schedules filed with such petition is incorrect.

“(5)(A) Except as provided in subparagraph (B) and subject to paragraph (6), the court, on its own initiative or on the motion of a party in interest, in accordance with the procedures described in rule 9011 of the Federal Rules of Bankruptcy Procedure, may award a debtor all reasonable costs (including reasonable attorneys’ fees) in contesting a motion filed by a party in interest (other than a trustee, United States trustee, or bankruptcy administrator) under this subsection if—

“(i) the court does not grant the motion; and

“(ii) the court finds that—

“(I) the position of the party that filed the motion violated rule 9011 of the Federal Rules of Bankruptcy Procedure; or

“(II) the attorney (if any) who filed the motion did not comply with the requirements of clauses (i) and (ii) of paragraph (4)(C), and the motion was made solely for the purpose of coercing a debtor into waiving a right guaranteed to the debtor under this title.

“(B) A small business that has a claim of an aggregate amount less than \$1,000 shall not be subject to subparagraph (A)(ii)(I).

“(C) For purposes of this paragraph—

“(i) the term ‘small business’ means an unincorporated business, partnership, corporation, association, or organization that—

“(I) has fewer than 25 full-time employees as determined on the date on which the motion is filed; and

“(II) is engaged in commercial or business activity; and

“(ii) the number of employees of a wholly owned subsidiary of a corporation includes the employees of—

“(I) a parent corporation; and

“(II) any other subsidiary corporation of the parent corporation.

“(6) Only the judge, United States trustee, or bankruptcy administrator may file a motion under section 707(b), if the current monthly income of the debtor, or in a joint case, the debtor and the debtor’s spouse, as of the date of the order for relief, when multiplied by 12, is equal to or less than—

“(A) in the case of a debtor in a household of 1 person, the median family income of the applicable State for 1 earner;

“(B) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number or fewer individuals; or

“(C) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of 4 or fewer individuals, plus \$525 per month for each individual in excess of 4.

“(7)(A) No judge, United States trustee, trustee, bankruptcy administrator, or other party in interest may file a motion under paragraph (2) if the current monthly income of the debtor and the debtor’s spouse combined, as of the date of the order for relief when multiplied by 12, is equal to or less than—

“(i) in the case of a debtor in a household of 1 person, the median family income of the applicable State for 1 earner;

“(ii) in the case of a debtor in a household of 2, 3, or 4 individuals, the highest median family income of the applicable State for a family of the same number or fewer individuals; or

“(iii) in the case of a debtor in a household exceeding 4 individuals, the highest median family income of the applicable State for a family of 4 or fewer individuals, plus \$525 per month for each individual in excess of 4.

“(B) In a case that is not a joint case, current monthly income of the debtor’s spouse shall not be considered for purposes of subparagraph (A) if—

“(i)(I) the debtor and the debtor’s spouse are separated under applicable nonbankruptcy law; or

“(II) the debtor and the debtor’s spouse are living separate and apart, other than for the purpose of evading subparagraph (A); and

“(ii) the debtor files a statement under penalty of perjury—

“(I) specifying that the debtor meets the requirement of subclause (I) or (II) of clause (i); and

“(II) disclosing the aggregate, or best estimate of the aggregate, amount of any cash

or money payments received from the debtor's spouse attributed to the debtor's current monthly income."

TITLE II—ENHANCED CONSUMER PROTECTION**Subtitle A—Penalties for Abusive Creditor Practices****SEC. 201. PROMOTION OF ALTERNATIVE DISPUTE RESOLUTION.**

“(j) Subsection (a)(2) does not operate as an injunction against an act by a creditor that is the holder of a secured claim, if—

“(1) such creditor retains a security interest in real property that is the principal residence of the debtor;

“(2) such act is in the ordinary course of business between the creditor and the debtor; and

“(3) such act is limited to seeking or obtaining periodic payments associated with a valid security interest in lieu of pursuit of in rem relief to enforce the lien.”.

SEC. 203. DISCOURAGING ABUSE OF REAFFIRMATION PRACTICES.

(a) IN GENERAL.—Section 524 of title 11, United States Code, as amended section 202, is amended—

(1) in subsection (c), by striking paragraph (2) and inserting the following:

“(2) the debtor received the disclosures described in subsection (k) at or before the time at which the debtor signed the agreement;”;

(2) by adding at the end the following:

“(k)(1) The disclosures required under subsection (c)(2) shall consist of the disclosure statement described in paragraph (3), completed as required in that paragraph, together with the agreement, statement, declaration, motion and order described, respectively, in paragraphs (4) through (8), and shall be the only disclosures required in connection with the reaffirmation.

“(2) Disclosures made under paragraph (1) shall be made clearly and conspicuously and in writing. The terms ‘Amount Reaffirmed’ and ‘Annual Percentage Rate’ shall be disclosed more conspicuously than other terms, data or information provided in connection with this disclosure, except that the phrases ‘Before agreeing to reaffirm a debt, review these important disclosures’ and ‘Summary of Reaffirmation Agreement’ may be equally conspicuous. Disclosures may be made in a

different order and may use terminology different from that set forth in paragraphs (2) through (8), except that the terms ‘Amount Reaffirmed’ and ‘Annual Percentage Rate’ must be used where indicated.

“(3) The disclosure statement required under this paragraph shall consist of the following:

“(A) The statement: ‘Part A: Before agreeing to reaffirm a debt, review these important disclosures.’;

“(B) Under the heading ‘Summary of Reaffirmation Agreement’, the statement: ‘This Summary is made pursuant to the requirements of the Bankruptcy Code’;

“(C) The ‘Amount Reaffirmed’, using that term, which shall be—

“(i) the total amount which the debtor agrees to reaffirm; and

“(ii) the total of any other fees or cost accrued as of the date of the disclosure statement.

“(D) In conjunction with the disclosure of the ‘Amount Reaffirmed’, the statements—

“(i) ‘The amount of debt you have agreed to reaffirm’; and

“(ii) ‘Your credit agreement may obligate you to pay additional amounts which may come due after the date of this disclosure. Consult your credit agreement.’.

“(E) The ‘Annual Percentage Rate’, using that term, which shall be disclosed as—

“(i) if, at the time the petition is filed, the debt is an extension of credit under an open end credit plan, as the terms ‘credit’ and ‘open end credit plan’ are defined in section 103 of the Truth in Lending Act, then—

“(I) the annual percentage rate determined under paragraphs (5) and (6) of section 127(b) of the Truth in Lending Act, as applicable, as disclosed to the debtor in the most recent periodic statement prior to the agreement or, if no such periodic statement has been given to the debtor during the prior 6 months, the annual percentage rate as it would have been so disclosed at the time the disclosure statement is given to the debtor, or to the extent this annual percentage rate is not readily available or not applicable, then

“(II) the simple interest rate applicable to the amount reaffirmed as of the date the disclosure statement is given to the debtor, or if different simple interest rates apply to different balances, the simple interest rate applicable to each such balance, identifying the amount of each such balance included in the amount reaffirmed, or

“(III) if the entity making the disclosure elects, to disclose the annual percentage rate under subclause (I) and the simple interest rate under subclause (II);

“(ii) if, at the time the petition is filed, the debt is an extension of credit other than under an open end credit plan, as the terms ‘credit’ and ‘open end credit plan’ are defined in section 103 of the Truth in Lending Act, then—

“(I) the annual percentage rate under section 128(a)(4) of the Truth in Lending Act, as disclosed to the debtor in the most recent disclosure statement given to the debtor prior to the reaffirmation agreement with respect to the debt, or, if no such disclosure statement was given to the debtor, the annual percentage rate as it would have been so disclosed at the time the disclosure statement is given to the debtor, or to the extent this annual percentage rate is not readily available or not applicable, then

“(II) the simple interest rate applicable to the amount reaffirmed as of the date the disclosure statement is given to the debtor, or if different simple interest rates apply to different balances, the simple interest rate applicable to each such balance, identifying the amount of such balance included in the amount reaffirmed, or

“(III) if the entity making the disclosure elects, to disclose the annual percentage rate under (I) and the simple interest rate under (II).

“(F) If the underlying debt transaction was disclosed as a variable rate transaction on the most recent disclosure given under the Truth in Lending Act, by stating ‘The interest rate on your loan may be a variable interest rate which changes from time to time, so that the annual percentage rate disclosed here may be higher or lower.’.

“(G) If the debt is secured by a security interest which has not been waived in whole or in part or determined to be void by a final order of the court at the time of the disclosure, by disclosing that a security interest or lien in goods or property is asserted over some or all of the obligations the debtor is reaffirming and listing the items and their original purchase price that are subject to the asserted security interest, or if not a purchase-money security interest then listing by items or types and the original amount of the loan.

“(H) At the election of the creditor, a statement of the repayment schedule using 1 or a combination of the following—

“(i) by making the statement: ‘Your first payment in the amount of \$ _____ is due on _____ but the future payment amount may be different. Consult your reaffirmation or credit agreement, as applicable.’, and stating the amount of the first payment and the due date of that payment in the places provided;

“(ii) by making the statement: ‘Your payment schedule will be:’, and describing the repayment schedule with the number, amount and due dates or period of payments scheduled to repay the obligations reaffirmed to the extent then known by the disclosing party; or

“(iii) by describing the debtor’s repayment obligations with reasonable specificity to the extent then known by the disclosing party.

“(I) The following statement: ‘Note: When this disclosure refers to what a creditor “may” do, it does not use the word “may” to give the creditor specific permission. The word “may” is used to tell you what might occur if the law permits the creditor to take the action. If you have questions about your reaffirmation or what the law requires, talk to the attorney who helped you negotiate this agreement. If you don’t have an attorney helping you, the judge will explain the effect of your reaffirmation when the reaffirmation hearing is held.’.

“(J)(i) The following additional statements:

“‘Reaffirming a debt is a serious financial decision. The law requires you to take certain steps to make sure the decision is in your best interest. If these steps are not completed, the reaffirmation agreement is not effective, even though you have signed it.

“‘1. Read the disclosures in this Part A carefully. Consider the decision to reaffirm carefully. Then, if you want to reaffirm, sign the reaffirmation agreement in Part B (or you may use a separate agreement you and your creditor agree on).

“‘2. Complete and sign Part D and be sure you can afford to make the payments you are agreeing to make and have received a copy of the disclosure statement and a completed and signed reaffirmation agreement.

“‘3. If you were represented by an attorney during the negotiation of the reaffirmation agreement, the attorney must have signed the certification in Part C.

“‘4. If you were not represented by an attorney during the negotiation of the reaffirmation agreement, you must have completed and signed Part E.

“5. The original of this disclosure must be filed with the court by you or your creditor. If a separate reaffirmation agreement (other than the one in Part B) has been signed, it must be attached.

“6. If you were represented by an attorney during the negotiation of the reaffirmation agreement, your reaffirmation agreement becomes effective upon filing with the court unless the reaffirmation is presumed to be an undue hardship as explained in Part D.

“7. If you were not represented by an attorney during the negotiation of the reaffirmation agreement, it will not be effective unless the court approves it. The court will notify you of the hearing on your reaffirmation agreement. You must attend this hearing in bankruptcy court where the judge will review your agreement. The bankruptcy court must approve the agreement as consistent with your best interests, except that no court approval is required if the agreement is for a consumer debt secured by a mortgage, deed of trust, security deed or other lien on your real property, like your home.

“Your right to rescind a reaffirmation. You may rescind (cancel) your reaffirmation at any time before the bankruptcy court enters a discharge order or within 60 days after the agreement is filed with the court, whichever is longer. To rescind or cancel, you must notify the creditor that the agreement is canceled.

“What are your obligations if you reaffirm the debt? A reaffirmed debt remains your personal legal obligation. It is not discharged in your bankruptcy. That means that if you default on your reaffirmed debt after your bankruptcy is over, your creditor may be able to take your property or your wages. Otherwise, your obligations will be determined by the reaffirmation agreement which may have changed the terms of the original agreement. For example, if you are reaffirming an open end credit agreement, the creditor may be permitted by that agreement or applicable law to change the terms of the agreement in the future under certain conditions.

“Are you required to enter into a reaffirmation agreement by any law? No, you are not required to reaffirm a debt by any law. Only agree to reaffirm a debt if it is in your best interest. Be sure you can afford the payments you agree to make.

“What if your creditor has a security interest or lien? Your bankruptcy discharge does not eliminate any lien on your property. A ‘lien’ is often referred to as a security interest, deed of trust, mortgage or security deed. Even if you do not reaffirm and your personal liability on the debt is discharged, because of the lien your creditor may still have the right to take the security property if you do not pay the debt or default on it. If the lien is on an item of personal property that is exempt under your State’s law or that the trustee has abandoned, you may be able to redeem the item rather than reaffirm the debt. To redeem, you make a single payment to the creditor equal to the current value of the security property, as agreed by the parties or determined by the court.’

“(ii) In the case of a reaffirmation under subsection (m)(2), numbered paragraph 6 in the disclosures required by clause (i) of this subparagraph shall read as follows:

“6. If you were represented by an attorney during the negotiation of the reaffirmation agreement, your reaffirmation agreement becomes effective upon filing with the court.’

“(4) The form of reaffirmation agreement required under this paragraph shall consist of the following:

“Part B: Reaffirmation Agreement. I/we agree to reaffirm the obligations arising under the credit agreement described below.

“Brief description of credit agreement:
“Description of any changes to the credit agreement made as part of this reaffirmation agreement:

“Signature: _____ Date: _____
“Borrower:
“Co-borrower, if also reaffirming:
“Accepted by creditor:
“Date of creditor acceptance.’

“(5)(A) The declaration shall consist of the following:

“Part C: Certification by Debtor’s Attorney (If Any).

“I hereby certify that (1) this agreement represents a fully informed and voluntary agreement by the debtor(s); (2) this agreement does not impose an undue hardship on the debtor or any dependent of the debtor; and (3) I have fully advised the debtor of the legal effect and consequences of this agreement and any default under this agreement.

“Signature of Debtor’s Attorney:
Date: _____

“(B) In the case of reaffirmations in which a presumption of undue hardship has been established, the certification shall state that in the opinion of the attorney, the debtor is able to make the payment.

“(C) In the case of a reaffirmation agreement under subsection (m)(2), subparagraph (B) is not applicable.

“(6)(A) The statement in support of reaffirmation agreement, which the debtor shall sign and date prior to filing with the court, shall consist of the following:

“Part D: Debtor’s Statement in Support of Reaffirmation Agreement.

“1. I believe this agreement will not impose an undue hardship on my dependents or me. I can afford to make the payments on the reaffirmed debt because my monthly income (take home pay plus any other income received) is \$_____, and my actual current monthly expenses including monthly payments on post-bankruptcy debt and other reaffirmation agreements total \$_____, leaving \$_____ to make the required payments on this reaffirmed debt. I understand that if my income less my monthly expenses does not leave enough to make the payments, this reaffirmation agreement is presumed to be an undue hardship on me and must be reviewed by the court. However, this presumption may be overcome if I explain to the satisfaction of the court how I can afford to make the payments here: _____.

“2. I received a copy of the Reaffirmation Disclosure Statement in Part A and a completed and signed reaffirmation agreement.’

“(B) Where the debtor is represented by an attorney and is reaffirming a debt owed to a creditor defined in section 19(b)(1)(A)(iv) of the Federal Reserve Act, the statement of support of the reaffirmation agreement, which the debtor shall sign and date prior to filing with the court, shall consist of the following:

“I believe this agreement is in my financial interest. I can afford to make the payments on the reaffirmed debt. I received a copy of the Reaffirmation Disclosure Statement in Part A and a completed and signed reaffirmation agreement.’

“(7) The motion, which may be used if approval of the agreement by the court is required in order for it to be effective and shall be signed and dated by the moving party, shall consist of the following:

“Part E: Motion for Court Approval (To be completed only where debtor is not represented by an attorney.). I (we), the debtor, affirm the following to be true and correct:

“I am not represented by an attorney in connection with this reaffirmation agreement.

“I believe this agreement is in my best interest based on the income and expenses I have disclosed in my Statement in Support of this reaffirmation agreement above, and because (provide any additional relevant reasons the court should consider):

“Therefore, I ask the court for an order approving this reaffirmation agreement.’

“(8) The court order, which may be used to approve a reaffirmation, shall consist of the following:

“Court Order: The court grants the debtor’s motion and approves the reaffirmation agreement described above.’

“(1) Notwithstanding any other provision of this title the following shall apply:

“(1) A creditor may accept payments from a debtor before and after the filing of a reaffirmation agreement with the court.

“(2) A creditor may accept payments from a debtor under a reaffirmation agreement which the creditor believes in good faith to be effective.

“(3) The requirements of subsections (c)(2) and (k) shall be satisfied if disclosures required under those subsections are given in good faith.

“(m)(1) Until 60 days after a reaffirmation agreement is filed with the court (or such additional period as the court, after notice and a hearing and for cause, orders before the expiration of such period), it shall be presumed that the reaffirmation agreement is an undue hardship on the debtor if the debtor’s monthly income less the debtor’s monthly expenses as shown on the debtor’s completed and signed statement in support of the reaffirmation agreement required under subsection (k)(6)(A) is less than the scheduled payments on the reaffirmed debt. This presumption shall be reviewed by the court. The presumption may be rebutted in writing by the debtor if the statement includes an explanation which identifies additional sources of funds to make the payments as agreed upon under the terms of the reaffirmation agreement. If the presumption is not rebutted to the satisfaction of the court, the court may disapprove the agreement. No agreement shall be disapproved without notice and a hearing to the debtor and creditor and such hearing shall be concluded before the entry of the debtor’s discharge.

“(2) This subsection does not apply to reaffirmation agreements where the creditor is a credit union, as defined in section 19(b)(1)(A)(iv) of the Federal Reserve Act.’

(b) LAW ENFORCEMENT.—

(1) IN GENERAL.—Chapter 9 of title 18, United States Code, is amended by adding at the end the following:

“§ 158. Designation of United States attorneys and agents of the Federal Bureau of Investigation to address abusive reaffirmations of debt and materially fraudulent statements in bankruptcy schedules

“(a) IN GENERAL.—The Attorney General of the United States shall designate the individuals described in subsection (b) to have primary responsibility in carrying out enforcement activities in addressing violations of section 152 or 157 relating to abusive reaffirmations of debt. In addition to addressing the violations referred to in the preceding sentence, the individuals described under subsection (b) shall address violations of section 152 or 157 relating to materially fraudulent statements in bankruptcy schedules that are intentionally false or intentionally misleading.

“§ 527. Disclosures

“(a) A debt relief agency providing bankruptcy assistance to an assisted person shall provide—

“(1) the written notice required under section 342(b)(1) of this title; and

“(2) to the extent not covered in the written notice described in paragraph (1), and not later than 3 business days after the first date on which a debt relief agency first offers to provide any bankruptcy assistance services to an assisted person, a clear and conspicuous written notice advising assisted persons that—

“(A) all information that the assisted person is required to provide with a petition and thereafter during a case under this title is required to be complete, accurate, and truthful;

“(B) all assets and all liabilities are required to be completely and accurately disclosed in the documents filed to commence the case, and the replacement value of each asset as defined in section 506 of this title must be stated in those documents where requested after reasonable inquiry to establish such value;

“(C) current monthly income, the amounts specified in section 707(b)(2), and, in a case under chapter 13, disposable income (determined in accordance with section 707(b)(2), are required to be stated after reasonable inquiry; and

“(D) information that an assisted person provides during their case may be audited pursuant to this title, and that failure to provide such information may result in dismissal of the case under this title or other sanction including, in some instances, criminal sanctions.

“(b) A debt relief agency providing bankruptcy assistance to an assisted person shall provide each assisted person at the same time as the notices required under subsection (a)(1) with the following statement, to the extent applicable, or one substantially

similar. The statement shall be clear and conspicuous and shall be in a single document separate from other documents or notices provided to the assisted person:

“IMPORTANT INFORMATION ABOUT BANKRUPTCY ASSISTANCE SERVICES FROM AN ATTORNEY OR BANKRUPTCY PETITION PREPARER.

“If you decide to seek bankruptcy relief, you can represent yourself, you can hire an attorney to represent you, or you can get help in some localities from a bankruptcy petition preparer who is not an attorney. THE LAW REQUIRES AN ATTORNEY OR BANKRUPTCY PETITION PREPARER TO GIVE YOU A WRITTEN CONTRACT SPECIFYING WHAT THE ATTORNEY OR BANKRUPTCY PETITION PREPARER WILL DO FOR YOU AND HOW MUCH IT WILL COST. Ask to see the contract before you hire anyone.

“The following information helps you understand what must be done in a routine bankruptcy case to help you evaluate how much service you need. Although bankruptcy can be complex, many cases are routine.

“Before filing a bankruptcy case, either you or your attorney should analyze your eligibility for different forms of debt relief made available by the Bankruptcy Code and which form of relief is most likely to be beneficial for you. Be sure you understand the relief you can obtain and its limitations. To file a bankruptcy case, documents called a Petition, Schedules and Statement of Financial Affairs, as well as in some cases a Statement of Intention need to be prepared correctly and filed with the bankruptcy court. You will have to pay a filing fee to the bankruptcy court. Once your case starts, you will have to attend the required first meeting of creditors where you may be questioned by a court official called a ‘trustee’ and by creditors.

“If you choose to file a chapter 7 case, you may be asked by a creditor to reaffirm a debt. You may want help deciding whether to do so and a creditor is not permitted to coerce you into reaffirming your debts.

“If you choose to file a chapter 13 case in which you repay your creditors what you can afford over 3 to 5 years, you may also want help with preparing your chapter 13 plan and with the confirmation hearing on your plan which will be before a bankruptcy judge.

“If you select another type of relief under the Bankruptcy Code other than chapter 7 or chapter 13, you will want to find out what needs to be done from someone familiar with that type of relief.

“Your bankruptcy case may also involve litigation. You are generally permitted to represent yourself in litigation in bankruptcy court, but only attorneys, not bankruptcy petition preparers, can give you legal advice.”.

“(c) Except to the extent the debt relief agency provides the required information itself after reasonably diligent inquiry of the assisted person or others so as to obtain such information reasonably accurately for inclusion on the petition, schedules or statement of financial affairs, a debt relief agency providing bankruptcy assistance to an assisted person, to the extent permitted by nonbankruptcy law, shall provide each assisted person at the time required for the notice required under subsection (a)(1) reasonably sufficient information (which shall be provided in a clear and conspicuous writing) to the assisted person on how to provide all the information the assisted person is required to provide under this title pursuant to section 521, including—

“(1) how to value assets at replacement value, determine current monthly income, the amounts specified in section 707(b)(2)

and, in a chapter 13 case, how to determine disposable income in accordance with section 707(b)(2) and related calculations;

“(2) how to complete the list of creditors, including how to determine what amount is owed and what address for the creditor should be shown; and

“(3) how to determine what property is exempt and how to value exempt property at replacement value as defined in section 506 of this title.

“(d) A debt relief agency shall maintain a copy of the notices required under subsection (a) of this section for 2 years after the date on which the notice is given the assisted person.”

"(3) 'foreign court' means a judicial or other authority competent to control or supervise a foreign proceeding;

"(5) 'foreign nonmain proceeding' means a foreign proceeding, other than a foreign main proceeding, taking place in a country where the debtor has an establishment;

"(6) 'trustee' includes a trustee, a debtor in possession in a case under any chapter of this title, or a debtor under chapter 9 of this title;

"(7) 'recognition' means the entry of an order granting recognition of a foreign main proceeding or foreign nonmain proceeding under this chapter; and

"(8) 'within the territorial jurisdiction of the United States', when used with reference to property of a debtor, refers to tangible property located within the territory of the United States and intangible property deemed under applicable nonbankruptcy law to be located within that territory, including any property subject to attachment or garnishment that may properly be seized or garnished by an action in a Federal or State court in the United States.

"§ 1503. International obligations of the United States

"To the extent that this chapter conflicts with an obligation of the United States arising out of any treaty or other form of agreement to which it is a party with one or more other countries, the requirements of the treaty or agreement prevail.

"§ 1504. Commencement of ancillary case

"A case under this chapter is commenced by the filing of a petition for recognition of a foreign proceeding under section 1515.

"§ 1505. Authorization to act in a foreign country

"A trustee or another entity (including an examiner) may be authorized by the court to act in a foreign country on behalf of an estate created under section 541. An entity authorized to act under this section may act in any way permitted by the applicable foreign law.

"§ 1506. Public policy exception

"Nothing in this chapter prevents the court from refusing to take an action governed by this chapter if the action would be manifestly contrary to the public policy of the United States.

"§ 1507. Additional assistance

"(a) Subject to the specific limitations stated elsewhere in this chapter the court, if recognition is granted, may provide addi-

tional assistance to a foreign representative under this title or under other laws of the United States.

"(b) In determining whether to provide additional assistance under this title or under other laws of the United States, the court shall consider whether such additional assistance, consistent with the principles of comity, will reasonably assure—

"(1) just treatment of all holders of claims against or interests in the debtor's property;

"(2) protection of claim holders in the United States against prejudice and inconvenience in the processing of claims in such foreign proceeding;

"(3) prevention of preferential or fraudulent dispositions of property of the debtor;

"SUBCHAPTER II—ACCESS OF FOREIGN REPRESENTATIVES AND CREDITORS TO THE COURT

"§ 1509. Right of direct access

"(a) A foreign representative may commence a case under section 1504 by filing directly with the court a petition for recognition of a foreign proceeding under section 1515.

"(b) If the court grants recognition under section 1515, and subject to any limitations that the court may impose consistent with the policy of this chapter—

"(1) the foreign representative has the capacity to sue and be sued in a court in the United States;

"(2) the foreign representative may apply directly to a court in the United States for appropriate relief in that court; and

"(3) a court in the United States shall grant comity or cooperation to the foreign representative.

"(c) A request for comity or cooperation by a foreign representative in a court in the United States other than the court which granted recognition shall be accompanied by a certified copy of an order granting recognition under section 1517.

"(d) If the court denies recognition under this chapter, the court may issue any appropriate order necessary to prevent the foreign representative from obtaining comity or cooperation from courts in the United States.

"(e) Whether or not the court grants recognition, and subject to sections 306 and 1510, a foreign representative is subject to applicable nonbankruptcy law.

"(f) Notwithstanding any other provision of this section, the failure of a foreign representative to commence a case or to obtain recognition under this chapter does not affect any right the foreign representative may have to sue in a court in the United States to collect or recover a claim which is the property of the debtor.

"§ 1510. Limited jurisdiction

"The sole fact that a foreign representative files a petition under section 1515 does not subject the foreign representative to the jurisdiction of any court in the United States for any other purpose.

"§ 1511. Commencement of case under section 301 or 303

"(a) Upon recognition, a foreign representative may commence—

“(1) an involuntary case under section 303; or

“(2) a voluntary case under section 301 or 302, if the foreign proceeding is a foreign main proceeding.

“(b) The petition commencing a case under subsection (a) must be accompanied by a certified copy of an order granting recognition. The court where the petition for recognition has been filed must be advised of the foreign representative's intent to commence a case under subsection (a) prior to such commencement.

“§ 1512. Participation of a foreign representative in a case under this title

“Upon recognition of a foreign proceeding, the foreign representative in the recognized proceeding is entitled to participate as a party in interest in a case regarding the debtor under this title.

“§ 1513. Access of foreign creditors to a case under this title

“(a) Foreign creditors have the same rights regarding the commencement of, and participation in, a case under this title as domestic creditors.

“(b)(1) Subsection (a) does not change or codify present law as to the priority of claims under section 507 or 726 of this title, except that the claim of a foreign creditor under those sections shall not be given a lower priority than that of general unsecured claims without priority solely because the holder of such claim is a foreign creditor.

“(2)(A) Subsection (a) and paragraph (1) do not change or codify present law as to the allowability of foreign revenue claims or other foreign public law claims in a proceeding under this title.

“(B) Allowance and priority as to a foreign tax claim or other foreign public law claim shall be governed by any applicable tax treaty of the United States, under the conditions and circumstances specified therein.

“§ 1514. Notification to foreign creditors concerning a case under this title

“(a) Whenever in a case under this title notice is to be given to creditors generally or to any class or category of creditors, such notice shall also be given to the known creditors generally, or to creditors in the notified class or category, that do not have addresses in the United States. The court may order that appropriate steps be taken with a view to notifying any creditor whose address is not yet known.

“(b) Such notification to creditors with foreign addresses described in subsection (a) shall be given individually, unless the court considers that, under the circumstances, some other form of notification would be more appropriate. No letter or other formality is required.

“(c) When a notification of commencement of a case is to be given to foreign creditors, the notification shall—

“(1) indicate the time period for filing proofs of claim and specify the place for their filing;

“(2) indicate whether secured creditors need to file their proofs of claim; and

“(3) contain any other information required to be included in such a notification to creditors under this title and the orders of the court.

“(d) Any rule of procedure or order of the court as to notice or the filing of a claim shall provide such additional time to creditors with foreign addresses as is reasonable under the circumstances.

“SUBCHAPTER III—RECOGNITION OF A FOREIGN PROCEEDING AND RELIEF

“§ 1515. Application for recognition

“(a) A foreign representative applies to the court for recognition of the foreign pro-

ceeding in which the foreign representative has been appointed by filing a petition for recognition.

“(b) A petition for recognition shall be accompanied by—

“(1) a certified copy of the decision commencing the foreign proceeding and appointing the foreign representative;

“(2) a certificate from the foreign court affirming the existence of the foreign proceeding and of the appointment of the foreign representative; or

“(3) in the absence of evidence referred to in paragraphs (1) and (2), any other evidence acceptable to the court of the existence of the foreign proceeding and of the appointment of the foreign representative.

“(c) A petition for recognition shall also be accompanied by a statement identifying all foreign proceedings with respect to the debtor that are known to the foreign representative.

“(d) The documents referred to in paragraphs (1) and (2) of subsection (b) shall be translated into English. The court may require a translation into English of additional documents.

“§ 1516. Presumptions concerning recognition

“(a) If the decision or certificate referred to in section 1515(b) indicates that the foreign proceeding is a foreign proceeding and that the person or body is a foreign representative, the court is entitled to so presume.

“(b) The court is entitled to presume that documents submitted in support of the petition for recognition are authentic, whether or not they have been legalized.

“(c) In the absence of evidence to the contrary, the debtor's registered office, or habitual residence in the case of an individual, is presumed to be the center of the debtor's main interests.

“§ 1517. Order granting recognition

“(a) Subject to section 1506, after notice and a hearing, an order recognizing a foreign proceeding shall be entered if—

“(1) the foreign proceeding for which recognition is sought is a foreign main proceeding or foreign nonmain proceeding within the meaning of section 1502;

“(2) the foreign representative applying for recognition is a person or body; and

“(3) the petition meets the requirements of section 1515.

“(b) The foreign proceeding shall be recognized—

“(1) as a foreign main proceeding if it is taking place in the country where the debtor has the center of its main interests; or

“(2) as a foreign nonmain proceeding if the debtor has an establishment within the meaning of section 1502 in the foreign country where the proceeding is pending.

“(c) A petition for recognition of a foreign proceeding shall be decided upon at the earliest possible time. Entry of an order recognizing a foreign proceeding constitutes recognition under this chapter.

“(d) The provisions of this subchapter do not prevent modification or termination of recognition if it is shown that the grounds for granting it were fully or partially lacking or have ceased to exist, but in considering such action the court shall give due weight to possible prejudice to parties that have relied upon the order granting recognition. The case under this chapter may be closed in the manner prescribed under section 350.

“§ 1518. Subsequent information

“From the time of filing the petition for recognition of the foreign proceeding, the foreign representative shall file with the court promptly a notice of change of status concerning—

“(1) any substantial change in the status of the foreign proceeding or the status of the foreign representative's appointment; and

“(2) any other foreign proceeding regarding the debtor that becomes known to the foreign representative.

“§ 1519. Relief that may be granted upon filing petition for recognition

“(a) From the time of filing a petition for recognition until the court rules on the petition, the court may, at the request of the foreign representative, where relief is urgently needed to protect the assets of the debtor or the interests of the creditors, grant relief of a provisional nature, including—

“(1) staying execution against the debtor's assets;

“(2) entrusting the administration or realization of all or part of the debtor's assets located in the United States to the foreign representative or another person authorized by the court, including an examiner, in order to protect and preserve the value of assets that, by their nature or because of other circumstances, are perishable, susceptible to devaluation or otherwise in jeopardy; and

“(3) any relief referred to in paragraph (3), (4), or (7) of section 1521(a).

“(b) Unless extended under section 1521(a)(6), the relief granted under this section terminates when the petition for recognition is granted.

“(c) It is a ground for denial of relief under this section that such relief would interfere with the administration of a foreign main proceeding.

“(d) The court may not enjoin a police or regulatory act of a governmental unit, including a criminal action or proceeding, under this section.

“(e) The standards, procedures, and limitations applicable to an injunction shall apply to relief under this section.

“(f) The exercise of rights not subject to the stay arising under section 362(a) pursuant to paragraph (6), (7), (17), or (27) of section 362(b) or pursuant to section 362(n) shall not be stayed by any order of a court or administrative agency in any proceeding under this chapter.

“§ 1520. Effects of recognition of a foreign main proceeding

“(a) Upon recognition of a foreign proceeding that is a foreign main proceeding—

“(1) sections 361 and 362 apply with respect to the debtor and that property of the debtor that is within the territorial jurisdiction of the United States;

“(2) sections 363, 549, and 552 of this title apply to a transfer of an interest of the debtor in property that is within the territorial jurisdiction of the United States to the same extent that the sections would apply to property of an estate;

“(3) unless the court orders otherwise, the foreign representative may operate the debtor's business and may exercise the rights and powers of a trustee under and to the extent provided by sections 363 and 552; and

“(4) section 552 applies to property of the debtor that is within the territorial jurisdiction of the United States.

“(b) Subsection (a) does not affect the right to commence an individual action or proceeding in a foreign country to the extent necessary to preserve a claim against the debtor.

“(c) Subsection (a) does not affect the right of a foreign representative or an entity to file a petition commencing a case under this title or the right of any party to file claims or take other proper actions in such a case.

“§ 1521. Relief that may be granted upon recognition

“(a) Upon recognition of a foreign proceeding, whether main or nonmain, where

necessary to effectuate the purpose of this chapter and to protect the assets of the debtor or the interests of the creditors, the court may, at the request of the foreign representative, grant any appropriate relief, including—

“(1) staying the commencement or continuation of an individual action or proceeding concerning the debtor’s assets, rights, obligations or liabilities to the extent they have not been stayed under section 1520(a);

“(2) staying execution against the debtor’s assets to the extent it has not been stayed under section 1520(a);

“(3) suspending the right to transfer, encumber or otherwise dispose of any assets of the debtor to the extent this right has not been suspended under section 1520(a);

“(4) providing for the examination of witnesses, the taking of evidence or the delivery of information concerning the debtor’s assets, affairs, rights, obligations or liabilities;

“(5) entrusting the administration or realization of all or part of the debtor’s assets within the territorial jurisdiction of the United States to the foreign representative or another person, including an examiner, authorized by the court;

“(6) extending relief granted under section 1519(a); and

“(7) granting any additional relief that may be available to a trustee, except for relief available under sections 522, 544, 545, 547, 548, 550, and 724(a).

“(b) Upon recognition of a foreign proceeding, whether main or nonmain, the court may, at the request of the foreign representative, entrust the distribution of all or part of the debtor’s assets located in the United States to the foreign representative or another person, including an examiner, authorized by the court, provided that the court is satisfied that the interests of creditors in the United States are sufficiently protected.

“(c) In granting relief under this section to a representative of a foreign nonmain proceeding, the court must be satisfied that the relief relates to assets that, under the law of the United States, should be administered in the foreign nonmain proceeding or concerns information required in that proceeding.

“(d) The court may not enjoin a police or regulatory act of a governmental unit, including a criminal action or proceeding, under this section.

“(e) The standards, procedures, and limitations applicable to an injunction shall apply to relief under paragraphs (1), (2), (3), and (6) of subsection (a).

“(f) The exercise of rights not subject to the stay arising under section 362(a) pursuant to paragraph (6), (7), (17), or (27) of section 362(b) or pursuant to section 362(n) shall not be stayed by any order of a court or administrative agency in any proceeding under this chapter.

“§ 1522. Protection of creditors and other interested persons

“(a) The court may grant relief under section 1519 or 1521, or may modify or terminate relief under subsection (c), only if the interests of the creditors and other interested entities, including the debtor, are sufficiently protected.

“(b) The court may subject relief granted under section 1519 or 1521, or the operation of the debtor’s business under section 1520(a)(3) of this title, to conditions it considers appropriate, including the giving of security or the filing of a bond.

“(c) The court may, at the request of the foreign representative or an entity affected by relief granted under section 1519 or 1521, or at its own motion, modify or terminate such relief.

“(d) Section 1104(d) shall apply to the appointment of an examiner under this chap-

“§ 1523. Actions to avoid acts detrimental to creditors

“§ 1524. Intervention by a foreign representative

“Upon recognition of a foreign proceeding, the foreign representative may intervene in any proceedings in a State or Federal court in the United States in which the debtor is a party.

“SUBCHAPTER IV—COOPERATION WITH FOREIGN COURTS AND FOREIGN REPRESENTATIVES

“SUBCHAPTER V—CONCURRENT PROCEEDINGS

“§ 1528. Commencement of a case under this title after recognition of a foreign main proceeding

“After recognition of a foreign main proceeding, a case under another chapter of this title may be commenced only if the debtor has assets in the United States. The effects of such case shall be restricted to the assets of the debtor that are within the territorial jurisdiction of the United States and, to the extent necessary to implement cooperation

and coordination under sections 1525, 1526, and 1527, to other assets of the debtor that are within the jurisdiction of the court under sections 541(a) of this title, and 1334(e) of title 28, to the extent that such other assets are not subject to the jurisdiction and control of a foreign proceeding that has been recognized under this chapter.

“§ 1529. Coordination of a case under this title and a foreign proceeding

“If a foreign proceeding and a case under another chapter of this title are taking place concurrently regarding the same debtor, the court shall seek cooperation and coordination under sections 1525, 1526, and 1527, and the following shall apply:

“(1) If the case in the United States is taking place at the time the petition for recognition of the foreign proceeding is filed—

“(A) any relief granted under section 1519 or 1521 must be consistent with the relief granted in the case in the United States; and

“(B) even if the foreign proceeding is recognized as a foreign main proceeding, section 1520 does not apply.

“(2) If a case in the United States under this title commences after recognition, or after the filing of the petition for recognition, of the foreign proceeding—

“(A) any relief in effect under section 1519 or 1521 shall be reviewed by the court and shall be modified or terminated if inconsistent with the case in the United States; and

“(B) if the foreign proceeding is a foreign main proceeding, the stay and suspension referred to in section 1520(a) shall be modified or terminated if inconsistent with the relief granted in the case in the United States.

“(3) In granting, extending, or modifying relief granted to a representative of a foreign nonmain proceeding, the court must be satisfied that the relief relates to assets that, under the laws of the United States, should be administered in the foreign nonmain proceeding or concerns information required in that proceeding.

“(4) In achieving cooperation and coordination under sections 1528 and 1529, the court may grant any of the relief authorized under section 305.

“§ 1530. Coordination of more than 1 foreign proceeding

“In matters referred to in section 1501, with respect to more than 1 foreign proceeding regarding the debtor, the court shall seek cooperation and coordination under sections 1525, 1526, and 1527, and the following shall apply:

“(1) Any relief granted under section 1519 or 1521 to a representative of a foreign nonmain proceeding after recognition of a foreign main proceeding must be consistent with the foreign main proceeding.

“(2) If a foreign main proceeding is recognized after recognition, or after the filing of a petition for recognition, of a foreign nonmain proceeding, any relief in effect under section 1519 or 1521 shall be reviewed by the court and shall be modified or terminated if inconsistent with the foreign main proceeding.

“(3) If, after recognition of a foreign nonmain proceeding, another foreign nonmain proceeding is recognized, the court shall grant, modify, or terminate relief for the purpose of facilitating coordination of the proceedings.

“§ 1531. Presumption of insolvency based on recognition of a foreign main proceeding

“In the absence of evidence to the contrary, recognition of a foreign main proceeding is, for the purpose of commencing a proceeding under section 303, proof that the debtor is generally not paying its debts as such debts become due.

“§ 1532. Rule of payment in concurrent proceedings

“Without prejudice to secured claims or rights in rem, a creditor who has received payment with respect to its claim in a foreign proceeding pursuant to a law relating to insolvency may not receive a payment for the same claim in a case under any other chapter of this title regarding the debtor, so long as the payment to other creditors of the same class is proportionately less than the payment the creditor has already received.”.

(D) consumers are aware that making only required minimum payments will increase the cost and repayment period of an open end credit obligation; and

(E) the availability of low minimum payment options is a cause of consumers experiencing financial difficulty.

(3) REPORT TO CONGRESS.—Findings of the Board in connection with any study conducted under this subsection shall be submitted to Congress. Such report shall also include recommendations for legislative initiatives, if any, of the Board, based on its findings.

The SPEAKER pro tempore. The gentleman from Pennsylvania (Mr. GEKAS)

will be recognized for 30 minutes in support of the motion, and the gentleman from New York (Mr. NADLER) will be recognized for 30 minutes.

The Chair recognizes the gentleman from Pennsylvania (Mr. GEKAS).

Mr. GEKAS. Mr. Speaker, I yield myself such time as I may consume. The upshot of all this parliamentary movement that we have witnessed just now is to bring back to the Chamber the conference report on the bankruptcy reform bill without the odious language that caused such a bitter debate earlier in the day which in effect would remove the abortion language altogether. In addition, it would remove the language that would call for new judges to be appointed in various jurisdictions, not because of the substance of that portion of the provisions but because this would eliminate the possibility of a point of order being lodged on the budgetary portion of the bill. So in effect we have a clean conference report without the judges and without the abortion clinic language vested in it.

Mr. Speaker, I reserve the balance of my time.

PARLIAMENTARY INQUIRIES

Mr. NADLER. Mr. Speaker, I have a parliamentary inquiry before I start my 30 minutes.

The SPEAKER pro tempore. The gentleman may inquire.

Mr. NADLER. Mr. Speaker, we have just been handed a 472-page bill labeled H.R. 5745. My inquiry is, is this brand new bill what is now before the House that none of us have had a chance to read?

The SPEAKER pro tempore. That is the text incorporated by reference in the pending motion.

Mr. NADLER. The motion is to consider this bill?

The SPEAKER pro tempore. The text is incorporated by reference in the motion.

Mr. NADLER. My next parliamentary inquiry is, is this brand new 472-page bill that no one has had a chance to read, including me, that we just saw for the first time about 5 minutes ago identical to anything we have ever seen before, or is this a brand new bill that we are going to debate sight unseen?

The SPEAKER pro tempore. That is not a parliamentary inquiry.

Mr. NADLER. Is this a new bill or is this a copy of something else?

The SPEAKER pro tempore. The bill was introduced today.

Mr. NADLER. But my question is, is this the same as something else that we have seen before or is it new, since we have not had a chance to read it?

The SPEAKER pro tempore. That is not a parliamentary inquiry. That is a matter for debate.

Mr. NADLER. Then I will ask the gentlemen, somebody over there, to yield and answer that question.

Mr. FRANK. Parliamentary inquiry, Mr. Speaker.

The SPEAKER pro tempore. The gentleman may inquire.

Mr. FRANK. The gentleman referred to this as a conference report. Conference reports are handled under one set of procedures. Is this in fact still a conference report, and will it be treated in the other body that way, or is it a brand new bill, to be treated as a brand new bill?

The SPEAKER pro tempore. This motion contains a proposed amendment to the Senate amendment. It is not a conference report.

Mr. FRANK. So it is not a conference report, and therefore if we were to pass it, it does not have the status of a conference report when it goes to the other body?

The SPEAKER pro tempore. That is correct.

Mr. NADLER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we are told, and we have to take it on faith, that this 472-page amendment, although it says H.R. 5745, it is a new bill, is the same as the conference report minus the Schumer amendment, minus the judgeships, but otherwise it is supposedly identical. We have to take on faith that this brand new 472-page bill that we have never seen before is in fact the same as the conference report text minus the two differences we have been told about. We have to take it on faith because we have not been given any opportunity at all to read the bill.

Not being satisfied with the humiliation of having one of their top priority bills defeated by their own Members earlier today, the Republican leadership now insults our intelligence by wasting our time at one o'clock in the morning with a bill they know the Senate will not even glance at. The conference report whose rule was defeated earlier today and which was just ruled out of order a few minutes ago was the result of months of painstaking negotiations with the other body. Now we are going to undo the results of all those negotiations in a few minutes and produce a brand new bill that we know the Senate will not even glance at. Mr. Speaker, even everyone, even the banks who have paid for this legislation with cold hard cash, know that this midnight stunt cannot result in a live bill. I find it hard to believe that even the Members putting on this little show can believe that it is intended even vaguely seriously.

□ 0110

It does not really matter how Members vote on this bill tonight, because the bill is not going anywhere, although I am sure the vote totals will be hastily inserted into a press release that has already been drafted.

I am not going to get into the merits of the bill. We debated the merits of the bill this afternoon, although I will note that the 28 new bankruptcy judges and the extensions of temporary judgeships that will otherwise expire that were contained in the conference report have been removed.

Now, with the great increase in bankruptcy filings that supposedly motivated the bill in the first place, everyone concedes that we need those judicial positions in order to process all the bankruptcy proceedings, especially with all the new requirements that will be imposed by this bill, which will necessitate a lot of new judicial time, according to everyone.

I find it interesting that with all the wailing and gnashing of teeth about the terrible impact on justice of the Senate's failure to confirm promptly the President's judicial nominees, we are suddenly eliminating 28 judges and many existing judges who will now be permitted to expire for no apparent reason. Why are the Republicans suddenly eliminating all these, everyone admits, needed judicial positions? Now, I understand the political necessity of paying obeisance and bowing down deeply to the religious right by eliminating the Schumer amendment, but why eliminate these judicial positions that are, everyone concedes, essential?

It is no wonder that the voters are cynical about Congress, when the leadership here, the Republican leadership, insists on putting on circuses purely to entertain the lobbyists who have put up the money behind this bill. We know this bill will not pass the Senate. It will not go to the President. It is the legislative equivalent of a fraternity stunt.

Has anyone, by the way, even read this brand new bill, these 457 new pages? I would ask anyone who has read this bill to raise their hand.

I do not see any hands raised.

I know the voters are bursting with pride as they watch this at 1 in the morning; but the fact is, this is a legislative stunt for no purpose except saying to the lobbyists, we passed it, even though we passed it in a form we know the Senate will not glance at and we are just wasting everyone's time.

Mr. Speaker, I will not waste further time by getting into the merits of this bill.

Mr. Speaker, I reserve the balance of my time.

Mr. GEKAS. Mr. Speaker, I yield such time as he may consume to the gentleman from Delaware (Mr. CASTLE).

Mr. CASTLE. Mr. Speaker, I would like to enter into a colloquy. I had an earlier discussion with the gentleman from Missouri (Mr. BLUNT), who is not on the floor as I can see now, the new whip, if somebody knows where he is.

I would like to discuss this with the sponsor of the legislation. I am concerned about the new judges. To me it is absurd that we are at this point anyhow. We should have passed this bill earlier today.

But of those 28 new judges, four of them would be in Delaware. As the gentleman knows, Delaware's bankruptcy court is extraordinarily busy, and even after the four new judges would still have the highest caseload of any court in the United States of America. As it

is now, we are borrowing courts from actually the gentleman's jurisdiction, from Pennsylvania, on a regular basis to handle the bankruptcy matters there.

I understand that this was deleted from the bill because it could present apparently some sort of budgetary point of order, as I understand the circumstances. There are 28 new judges, and I think there are some expired judges there. Do we know how many expired judge terms there are? Does anyone on staff know?

Mr. GEKAS. Mr. Speaker, will the gentleman yield?

Mr. CASTLE. I yield to the gentleman from Pennsylvania.

Mr. GEKAS. We are not certain of that. Let me assure the gentleman that indeed this deletion of the judges does not in any way sway us away from our commitment to have these judges appointed and to assume their positions as bankruptcy judges. This is, just as we outlined, necessary in order to get the main body of the bill on bankruptcy reform to the vote for the Members. So we reassure the gentleman that the commitment to the judges is intact and that will be part of a final solution to this problem.

Mr. CASTLE. Mr. Speaker, reclaiming my time, the gentleman from Missouri (Mr. BLUNT) is here now. If I could inquire of the gentleman as part of this inquiry his representations concerning these new judges and what would happen to them in the future, if this legislation were to pass tonight and then were to pass the Senate tomorrow.

Mr. BLUNT. Mr. Speaker, will the gentleman yield?

Mr. CASTLE. I yield to the gentleman from Missouri.

Mr. BLUNT. The gentleman makes a good point. Because of the passage of the legislation, I think we would need to add the judges as the legislation did that came back from the conference committee. I think that was a wise addition, and the gentleman certainly has my commitment, and I believe the commitment of the majority of our colleagues, would be my thought, that we would follow up with the sections of this bill that relate to judges, assuming that the bill is passed in the other body.

Mr. CASTLE. Well, reclaiming my time, my sense is that this bill will not pass in the other body, and perhaps in this sense it should not pass, and I think it should have passed today. As it is, I am getting some acknowledgment over there on that side.

But I think it is extraordinarily important. I cannot stress how important this is. I cannot stress how stressed our courts are as a result of this. It has been very disruptive to the entire district court practice, because the district court judges have actually had to do this in my State and a lot of other jurisdictions that are missing judges and with expired terms.

So we have a tremendous judicial problem in this country, and this needs

to be acted on immediately. Again, I think bankruptcy is probably going to be a subject for next year. The way it has been handled today, it will not get through the House and Senate. But if it did, the aspect of the judges absolutely has to take the highest priority at the earliest possible time.

Mr. BLUNT. Mr. Speaker, if the gentleman will yield further, I agree totally with the gentleman. I think it became clear during the further discussion of the bill that we sent to the other body and during the conference that we needed to deal with this question of judges as well, and certainly would believe that that would follow any legislation that passed that did not include these judges.

Mr. CASTLE. Mr. Speaker, reclaiming my time, I thank both the gentlemen. I am not entirely appeased by what I heard. Obviously, I believe the judges should be in there, but I do take your word for it on that basis.

Again, this is legislation, in my judgment, we should not be considering at 1:15 in the morning. It should have happened a lot earlier in the day, and it would be over in the Senate already. But so be it. Hopefully, the word of everybody tonight will be held up.

Mr. NADLER. Mr. Speaker, I yield 5 minutes to the gentleman from Massachusetts (Mr. FRANK).

Mr. FRANK. Mr. Speaker, as I realized how much time was going to be wasted on this effort to allow some Members to get back in the graces of some of their financial supporters whom they had to alienate, and as we were lionizing, justifiably, Mr. Morris, the refrain kept going through my head, Hey, Mr. Tally Clerk, tally up our votes; daylight comes and we want to go home.

We cannot go home because here is what happened: the bankruptcy bill came up, and some Members on the Republican side had to choose between people who are interested in vigorously protesting abortion and the financial community; and they decided to support the people who vigorously protest abortion, which meant that the bill died.

Now, there is no way this bill is going to pass. Understand that what they did then was this. Let us be clear about the sequence. The bill died because some of the Members there were torn between the people opposed to abortion and the people with money. And you would have thought they could have waited until maybe February or March to get back in the graces of the people with money. But apparently the separation anxiety on the Republican side of not being continuously in the bosom, if not the pocket, of large financial interests, was so great that they had to come up with, and let me use the technical parliamentary term, the cockamamie scheme I have ever seen on the floor of a legitimate democratic legislature.

You bring a bill to the floor, it is losing, and you do everything you can to

get people to vote for it. And when you cannot get them to vote for it, you then decide that what you try to get them to vote for violates the rules of the House. So you bring back your own bill, which violated the rules of the House, and say to people, well, you know these rules, maybe they are more important than we thought.

So you then make a point of order against your own bill to change it, knock out a very important provision about judges, the gentleman from Delaware asked a legitimate question, he gets a little bit of mumbo-jumbo because none of this makes any sense, and he sits down with a little grumble, and now you want to vote to send this bill to the Senate. People should understand, this will go to the Senate not as a conference report, but as a stand-alone bill.

□ 0120

It will pass in the other body if someone gets unanimous consent to pass it.

Now, I think frankly there are a lot of things more likely to get unanimous consent than this. No one thinks that this bill will even be taken up in the Senate. So here is what puzzles me. Yes, I understand that people in the financial industry to whom many of you are attached emotionally, politically, and in any other way, they are distressed that you voted no, and they want you now to vote yes, so you can vote both ways on the same bill in the same evening. Not that bad.

But here is the problem. When the bill had a chance to pass, you voted to kill it. Now, when it is dead, you vote to pass it. And I got to say this, I have to ask you this question, I have to ask you this question because I am interested in your techniques. For this you are going to get credit? I mean, if you can persuade, and let me say in tribute, if you can persuade these sophisticated financial people to give you credit for something this phony, then you are selling too cheap. Why do you not get a platinum credit card with negative interest rates? I mean, you are going to these people and they are going to accept this? You killed the bill when it could have passed, and now you are going through this, it is not a charade because there is talking, but I do not know what it is.

Let me just say, Mr. Speaker, just to summarize, Members kill a bill because of some honest concern about the first amendment rights of people who are protesting. I honor that. Do not degrade that. Stay with that. What you have done is to transform this statement of principle by then bringing back the bill you tried to get people to vote for, announcing that your own bill violated the Rules of the House, now alleging allegiance to the Rules of the House, and engaging in the most transparent, cynical, legislative maneuver I have ever seen, giving Members a chance to switch their votes to be recorded on a bill to make contributors and other financial interests happy in

the full knowledge that it will end here.

Mr. Speaker, politics is a nice business, and we are all in it. But this is so cynical, so an interruption of the legislative process that you ought to be embarrassed about it.

Mr. GEKAS. Mr. Speaker, I reserve the balance of my time.

Mr. NADLER. Mr. Speaker, the total absurdity of the situation having been well explained by the gentleman from Massachusetts, I yield back the balance of our time.

Mr. GEKAS. Mr. Speaker, I yield 30 seconds to the gentleman from California (Mr. THOMAS).

Mr. THOMAS. Mr. Speaker, I thank the gentleman for yielding me this time.

I too was moved by the gentleman from Massachusetts and I observed how much his side of the aisle thought he made cogent points, and as we move to the vote I am going to see how many people support the position with their vote.

Mr. GEKAS. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the motion.

The previous question was ordered.

PARLIAMENTARY INQUIRY

Mr. NADLER. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore (Mr. SIMPSON). The gentleman will state it.

Mr. NADLER. Mr. Speaker, before I yielded back the balance of my time, the gentleman from Pennsylvania had yielded back the balance of his time, had he not?

The SPEAKER pro tempore. No. The gentleman reserved the balance of his time.

PARLIAMENTARY INQUIRY

Ms. JACKSON-LEE of Texas. Mr. Speaker, I have a parliamentary inquiry.

The SPEAKER pro tempore. The gentleman will state it.

Ms. JACKSON-LEE of Texas. The inquiry is to be clear on what the Members are voting on. Are they not voting on a bill that we just saw with no judges to rule on the law?

The SPEAKER pro tempore. The gentleman is not stating a parliamentary inquiry.

Ms. JACKSON-LEE of Texas. The parliamentary inquiry is, Mr. Speaker, is this bill without any judicial support in terms of the judges provision? Is that not in the bill?

The SPEAKER pro tempore. That is not a parliamentary inquiry.

The question is on the motion offered by the gentleman from Pennsylvania (Mr. GEKAS).

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. FRANK. Mr. Speaker, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 244, noes 116, not voting 72, as follows:

The SPEAKER pro tempore (Mr. SIMPSON). Is there objection to the request of the gentleman from California?

There was no objection.

TRIBUTE TO THE HONORABLE GEORGE GEKAS, MEMBER OF CONGRESS

(Mr. DELAY asked and was given permission to address the House for 1 minute.)

Mr. DELAY. Mr. Speaker, I take this time to honor the man who just finished the bill on bankruptcy reform, the gentleman from Pennsylvania (Mr. GEKAS) who has served in this body for 20 years, has worked on the bankruptcy reform bill for over 10 years, probably the whole 20 years that he has been in Congress, just stood up here and took all the abuse that could be hurled at him and showed what kind of man he was and passed that bill and sent it over to the Senate where we hope that it will receive the consideration that it deserves.

This is a man that has worked so hard, has been so collegial with the other Members of this body, who lost his last election. Tonight he is closing down the Congress with a bill that he has worked on his entire career and it is sort of indicative of who we are and what we are here. He is a man that is

so humble that he would not even stick around on the floor tonight. He went and left the floor after passing his bill because he knows that many other Members had worked on the bill. He is a humble man, a man of great musical talent, a man that has served on the Committee on the Judiciary, went through all the things that the Committee on the Judiciary works on and not the least of which was the impeachment, a very difficult time for this House, was a stalwart, and the kind of legislation that came out of that committee, was a subcommittee chairman for the last 8 years and honored this House by his presence and honored this House by his service, a very distinguished service that we greatly appreciate. We honor tonight GEORGE GEKAS who closes the 107th Congress by passing a bill that he has worked on for so long.

Mr. TOM DAVIS of Virginia. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from Virginia.

Mr. TOM DAVIS of Virginia. Let me join my friend from Texas in also honoring GEORGE GEKAS and his 20 years of service to this body. I think the crowning achievement this evening was an overwhelming vote for this bankruptcy bill. The objectionable parts of this bill were not inserts that he put in there as part of the political sausage-making that goes on between the House and the Senate; but the overwhelming 244-116 vote I think speaks well for the kind of bill that he worked with his colleagues across party lines to put together.

A graduate of Dickinson from Harrisburg, Pennsylvania, he was very under-spoken, not just soft-spoken, but understated, was someone who was not always out there getting the credit, issuing press releases, but he was here. He had one of the best attendance records in the House, often driving between Harrisburg and Washington, D.C., between sessions, getting back to his district as often as possible. He was an impeachment manager as the majority whip noted and had a distinguished career in the Committee on the Judiciary where he was involved in the intricacies of many bills that came out of there. His 20 years of service here I think are a reflection of the dedication that he put into public service which preceded his election to Congress. He will be missed from this body. I will miss him. Again, I congratulate him for this crowning achievement, the passage of this bankruptcy bill tonight.

Mr. YOUNG of Alaska. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from Alaska.

Mr. YOUNG of Alaska. Mr. Speaker, I thank the gentleman for yielding. I can only say, Members may not know that GEORGE is a person that can speak three different languages. He served in the military with honor as an officer. He has probably the greatest knowledge of anybody I have ever met. To have GEORGE GEKAS as a dear friend, as

he was and is, is something I will always cherish. We are two opposites. I am the barbarian and he is the intellect. But we worked together. I watched him on this floor especially during the impeachment time, the dignity he brought and the knowledge that he had, the legal background that he used; I have the greatest respect for his abilities. I cherished his friendship and tonight was a crowning night for him. We did lose him, but we really have never lost him because he will always be in our hearts.

Mr. DELAY. I appreciate the gentleman's comments.

Mr. NUSSLE. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from Iowa.

Mr. NUSSLE. Mr. Speaker, I would also like to add my voice to the many who praise GEORGE GEKAS tonight on his many accomplishments in his career. He is one of the ones who has encouraged those of us who have tried to reform the budget process. Every year he introduces the bill on the automatic continuing resolution which might have come in handy maybe this year. Who knows? At almost 2 o'clock in the morning, maybe we would have been done a lot sooner. But obviously with controversy but always with a good heart and a cheerful heart. He also demonstrated to me that we also have a personal side to all of us. We are legislators, we are chairmen, we get to be big shots on the floor once in a while. But GEORGE was also the kind of guy that liked to go and tickle the ivories and play the piano. He is a frustrated musician along with a few of the rest of us around here. He had a personal side to him, too, which was fun to get to know even for someone who did not serve with him as long as some of the rest of my colleagues. I congratulate him on his bill tonight and wish him Godspeed.

Mr. NADLER. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from New York.

Mr. NADLER. I thank the gentleman for yielding.

Mr. Speaker, I want to join in the tribute to the gentleman from Pennsylvania (Mr. GEKAS) tonight. The gentleman from Pennsylvania served for 4 years as chairman of the Subcommittee on Administrative and Commercial Law; I served for those 4 years as the ranking Democratic member. Though we often disagreed and obviously we disagreed on the bill we just passed, I must comment that the gentleman from Pennsylvania conducted the subcommittee with unfailing promptness and with unfailing courtesy and consideration despite, on some occasions, considerable provocation from me. I want to pay tribute to him on this occasion. We will miss him.

Mr. LEWIS of California. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from California.

Mr. LEWIS of California. Mr. Speaker, I appreciate the majority whip yielding. George Gekas is a friend of all of ours. The gentleman from Pennsylvania has made a great contribution to the House. It has been my privilege to not just be his friend but to work very intently on his behalf. He is a great guy. We will miss him in the House. He has made a great contribution to the House. Indeed, I appreciate very much the gentleman from Texas raising this point at this moment as he has had this fantastic success at the end of his legislative career.

Mr. BOEHLERT. Mr. Speaker, will the gentleman yield?

Mr. DELAY. I yield to the gentleman from New York.

Mr. BOEHLERT. Mr. Speaker, I want to thank the gentleman for initiating this tribute. It is well deserved, for a guy that I have had the pleasure of knowing for 20 years. We came together in 1982 in the freshman class. Over those 20 years, I have had a chance to get to know this distinguished and very fine gentleman very well. He is a versatile guy in so many respects. He is a many-dimensional guy and one who has devoted a generation to service in the House and to service of the people of Pennsylvania. He will be missed. I think it is so fitting that he came in here as a winner in 1982 and he leaves here as a winner tonight with his signature legislation.

□ 0210

Mr. DELAY. Mr. Speaker, I appreciate the gentleman's remarks. I yield to the gentleman from Michigan (Mr. EHLERS).

Mr. EHLERS. Mr. Speaker, I thank the gentleman for yielding. I am a relative newcomer here, but I have always enjoyed Congressman GEKAS in the many discussions we have had. He is very proud of his Greek heritage, loves to serve us the Greek delicacies that we all enjoy and is also a superb piano player. But beyond that he is an outstanding Congressman, and at one time I had a bill before his subcommittee. He treated me with fairness, with honor, and went above and beyond the call of duty of a chairman in helping me get my legislation through, and I still remember that as a newcomer to have someone with that maturity and that experience be willing to help me in my efforts before his subcommittee. He is a great gentleman. We are going to miss him here, but at least he goes out with a crowning achievement and we can all be proud of that.

Mr. DELAY. Mr. Speaker, I appreciate the gentleman from Michigan.

I think the gentleman from California (Mr. DREIER) would like me to yield.

Mr. DREIER. Mr. Speaker, I thank my friend for yielding. And, Mr. Speaker, I want to join in this tribute to our friend GEORGE GEKAS, and my friend from Iowa (Mr. NUSSLE) just mentioned the fact that Mr. GEKAS regularly talked about the need for us to have an

automatic continuing resolution, and it was the Committee on Rules that he came before on a regular basis, and I remember one time where on every single appropriations bill, he would come before the Committee on Rules making the case. So he was dogged in his pursuit of that just as he was in his pursuit of bringing about bankruptcy reform, and we all know that this process has been a very messy, difficult one, but it is exactly as James Madison envisaged it, and I think that he was looking down and saw GEORGE GEKAS work through this process over a long period of time.

Mr. Speaker, I would also, when I think about GEORGE GEKAS, like to take a moment to mention another of our colleagues who is retiring, my very good friend from California, STEVE HORN. When I think of GEORGE GEKAS, I think of STEVE HORN, another well-educated work horse. Steve Horn is an individual who came to this institution with an amazing background, having been a college president, and he is someone who, because of his tremendous institutional memory having worked as an aid to former Senator Tom Kuchel of California, he brought an understanding of the work of the other body and an expertise which will be sorely missed.

As I think back and I see my friend from Virginia (Mr. TOM DAVIS) here, I am reminded of the work that we did on the issue of Y2K, and he will recall that our colleague Mr. HORN began very early having a wide range of hearings focusing on the governmental challenge of dealing with the turn of the century and the Y2K issue. And I want to say that he and his wonderful wife Nini have worked night and day representing a very difficult and challenging area in southern California but at the same time understanding the responsibility that they have had in this institution. So I would just like to say, Mr. Speaker, that he will be sorely missed and I certainly wish him well in his retirement. And I thank my friend for yielding.

Mr. TOM DAVIS of Virginia. Mr. Speaker, will the gentleman yield?

Mr. DELAY. Mr. Speaker, I yield to the gentleman from Virginia.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I appreciate the gentleman from California (Mr. DREIER) bringing up STEVE HORN. I have known STEVE HORN I think longer than anyone in this body because I was a Senate page from 1963 to 1967 and STEVE HORN worked there as a legislative aid to Senator Tom Kuchel. When he left Senator Kuchel's office, his replacement was a young man named Leon Paneta. So history works in strange ways, but I kept up with STEVE through the years, followed his career in the presidential administration he went into, leaving Tom Kuchel, and then into his academic career. Of course STEVE had degrees from Harvard and Stanford, was a university president, well regarded in the Long Beach community.

When he was elected to Congress in 1992, it was a huge upset. This was a district that had been drawn to elect a Democrat, and STEVE won it and held it every time, the only Republican most years to be elected in that area because he transcended politics.

He was a very detail-oriented Member. He took copious notes on every hearing, what Members were saying. I hope some day he will publish that and share that with the world. He was active not just in the Y2K legislation that the gentleman from California (Mr. DREIER) and I worked on, he also wanted to put the "M" back in OMB, management, and he was a stickler for bringing management back into government. He felt that we spent too much time on budgetary items and not enough time managing that budget. I think this evening on some of the unanimous consent legislation going through, some of that will bear the imprint of Mr. HORN, as did a lot of legislation that passed through this body from his work on the Committee on Government Reform and Oversight when he was a very active subcommittee chairman for years.

Mr. DREIER. Mr. Speaker, would the gentleman yield briefly for one comment?

Mr. DELAY. I yield to the gentleman from California (Mr. DREIER).

Mr. DREIER. Mr. Speaker, I would like to say that my friend is absolutely right reminding us of the fact that STEVE HORN took copious notes in a wide range of meetings, and I want to say that sometimes even when I was having conversations with my friend Mr. HORN he was taking notes, and I would like very much to go on record saying that I hope he never publishes those particular notes that he has taken in a number of conversations we had.

Mr. TOM DAVIS of Virginia. Mr. Speaker, I would agree with the gentleman. But anyway STEVE is going to be missed. He is leaving on his own volition. We always like to say there are three ways to leave public office and two of them are not very pleasant. STEVE has opted for the third role, but I hope he will remain active in government and somewhere find a place for him perhaps in the administration because he has a lot to give and a great education and great experience.

SENSE OF HOUSE THAT NATIONAL PARK SERVICE SHOULD FORM COMMITTEE FOR ESTABLISHING GUIDELINES FOR NATIONAL DESIGN COMPETITION

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the resolution (H. Res. 591) expressing the sense of the House of Representatives that the National Park Service should form a committee for the purpose of establishing guidelines to launch a national design competition, and ask for its immediate consideration in the House.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the resolution, as follows:

H. RES. 591

Whereas President Thomas Jefferson received the approval of Congress on 6 February 28, 1803, to fund an expedition into the West with orders to explore the Missouri River and such tributaries as might lead to the Pacific Ocean on the most direct and practicable water route for purposes of commerce, in addition to which, the expedition was to gather scientific and geographical information, and to encourage peace among any Indian Nations encountered;

Whereas Meriwether Lewis, Captain of the First Regiment of Infantry, and former Secretary to President Jefferson, was appointed to lead the expedition, and he selected, with the approval of the President, William Clark to serve equally as a Captain in a leadership role;

Whereas the Expedition returned to St. Louis, Missouri, on September 23, 1806, after a 28-month journey covering 8,000 miles during which it traversed 11 future States: Illinois, Missouri, Kansas, Nebraska, Iowa, North Dakota, South Dakota, Montana, Idaho, Washington, and Oregon; and

Whereas the expedition was one of the most remarkable and productive scientific and military exploratory expeditions in all American history: Now, therefore, be it

Resolved, That the House of Representatives directs the National Park Service to form a committee for the purpose of establishing guidelines to launch a national design competition for the following project: In as much as Congress desires to memorialize the Lewis and Clark Expedition and because the City of St. Louis was the departing and returning points of the Expedition as depicted by its Gateway to the West Arch, therefore the City of St. Louis should display a proper recognition of these great men in the form of a heroic sculpture portraying the Expedition to be built in the Luther Ely Smith Park in downtown St. Louis, which lies between the Arch and the Old Courthouse, all now governed by the National Park Service.

The resolution was agreed to.

A motion to reconsider was laid on the table.

PRESIDENT JOHN ADAMS COMMEMORATIVE WORK IN THE DISTRICT OF COLUMBIA

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the joint resolution (H.J. Res. 117) approving the location of the commemorative work in the District of Columbia honoring former President John Adams, and ask for its immediate consideration in the House.

The Clerk read the title of the joint resolution.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the joint resolution, as follows:

H.J. RES. 117

Whereas section 8908 of title 40, United States Code, provides that the location of a

commemorative work in the area described as Area I shall be deemed disapproved unless approved by law not later than 150 days after notification to Congress that the commemorative work should be located in Area I;

Whereas Public Law 107-62 (115 Stat. 411) authorized the Adams Memorial Foundation to establish a commemorative work on Federal land in the District of Columbia to honor former President John Adams and his legacy; and

Whereas the Secretary of the Interior has notified Congress of her determination that a memorial to former President John Adams should be located in Area I: Now, therefore, be it

Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. APPROVAL OF COMMEMORATIVE WORK.

(a) APPROVAL.—Congress approves the location for the commemorative work to honor former President John Adams and his legacy, as authorized by Public Law 107-62 (115 Stat. 411), within Area I as described in section 8908 of title 40, United States Code, subject to the limitation in subsection (b).

(b) LIMITATION.—The commemorative work approved in subsection (a) shall not be located within the Reserve.

(c) DEFINITION OF RESERVE.—In this section the term "Reserve" means the area of The National Mall extending from the United States Capitol to the Lincoln Memorial, and from the White House to the Jefferson Memorial, as depicted on the map entitled "Commemorative Areas Washington, DC and Environs," numbered 869/86501A and dated May 1, 2002.

The joint resolution was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

BAINBRIDGE ISLAND JAPANESE-AMERICAN MEMORIAL STUDY ACT OF 2002

Mr. HANSEN. Mr. Speaker, I ask unanimous consent for the immediate consideration in the House of the bill (H.R. 3747) to direct the Secretary of the Interior to conduct a study of the site commonly known as Eagledale Ferry Dock at Taylor Avenue in the State of Washington for potential inclusion in the National Park System.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3747

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE; FINDINGS.

(a) SHORT TITLE.—This Act may be cited as the "Bainbridge Island Japanese-American Memorial Study Act of 2002".

(b) FINDINGS.—The Congress finds the following:

(1) During World War II on February 19, 1942, President Franklin Delano Roosevelt signed Executive Order 9066, setting in motion the forced exile of more than 110,000 Japanese Americans.

(2) In Washington State, 12,892 men, women and children of Japanese ancestry experienced three years of incarceration, an incarceration violating the most basic freedoms of American citizens.

(3) On March 30, 1942, 227 Bainbridge Island residents were the first Japanese Americans in United States history to be forcibly removed from their homes by the U.S. Army and sent to internment camps. They boarded the ferry Kehloken from the former Eagledale Ferry Dock, located at the end of Taylor Avenue, in the city of Bainbridge Island, Washington State.

(4) The city of Bainbridge Island has adopted a resolution stating that this site should be a National Memorial, and similar resolutions have been introduced in the Washington State Legislature.

(5) Both the Minidoka National Monument and Manzanar National Historic Site can clearly tell the story of a time in our Nation's history when constitutional rights were ignored. These camps by design were placed in very remote places and are not easily accessible. Bainbridge Island is a short ferry ride from Seattle and the site would be within easy reach of many more people.

(6) This is a unique opportunity to create a site that will honor those who suffered, cherish the friends and community who stood beside them and welcomed them home, and inspire all to stand firm in the event our nation again succumbs to similar fears.

(7) The site should be recognized by the National Park Service based on its high degree of national significance, association with significant events, and integrity of its location and setting. This site is critical as an anchor for future efforts to identify, interpret, serve, and ultimately honor the Nikkei—persons of Japanese ancestry—influence on Bainbridge Island.

SEC. 2. EAGLEDALE FERRY DOCK LOCATION AT TAYLOR AVENUE STUDY AND REPORT.

(a) STUDY.—The Secretary of the Interior shall carry out a special resource study regarding the national significance, suitability, and feasibility of designating as a unit of the National Park System the property commonly known as the Eagledale Ferry Dock at Taylor Avenue and the historical events associated with it, located in the town of Bainbridge Island, Kitsap County, Washington.

(b) REPORT.—Not later than 1 year after funds are first made available for the study under subsection (a), the Secretary of the Interior shall submit to the Committee on Resources of the House of Representatives and the Committee on Energy and Natural Resources of the Senate a report describing the findings, conclusions, and recommendations of the study.

(c) REQUIREMENTS FOR STUDY.—Except as otherwise provided in this section, the study under subsection (a) shall be conducted in accordance with section 8(c) of Public Law 91-383 (16 U.S.C. 1a-5(c)).

The bill was ordered to be engrossed and read a third time, was read the third time, and passed, and a motion to reconsider was laid on the table.

CARIBBEAN NATIONAL FOREST WILDERNESS ACT OF 2002

Mr. HANSEN. Mr. Speaker, I ask unanimous consent for the immediate consideration in the House of the bill (H.R. 3955) to designate certain National Forest System lands in the Commonwealth of Puerto Rico as components of the National Wilderness Preservation System, and for other purposes.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the bill, as follows:

H.R. 3955

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Caribbean National Forest Wilderness Act of 2002".

SEC. 2. WILDERNESS DESIGNATION, CARIBBEAN NATIONAL FOREST, PUERTO RICO.

YAVAPAI RANCH LAND EXCHANGE REFINEMENT ACT OF 2002

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the bill (H.R. 5513) to authorize and direct the exchange of certain land in the State of Arizona between the Secretary of Agriculture and Yavapai Ranch Limited Partnership, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the bill, as follows:

H.R. 5513

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Yavapai Ranch Land Exchange Refinement Act of 2002”.

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds that—

(1) certain parcels of private land in the approximately 170 square miles of land commonly known as the “Yavapai Ranch” and located in Yavapai County, Arizona, are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as part of Prescott National Forest;

(2) the private land is owned by the Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. in an intermingled checkerboard pattern, with the United States or Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. owning alternate square mile sections of land or fractions of square mile sections;

(3) much of the private land within the checkerboard area (including the land located in or near the Pine Creek watershed, Juniper Mesa Wilderness Area, Haystack Peak, and the Luis Maria Baca Float No. 5) is located in environmentally sensitive areas that possess outstanding attributes and values for public management, use, and enjoyment, including opportunities for—

- (A) outdoor recreation;
- (B) preservation of stands of old growth forest;
- (C) important and largely unfragmented habitat for antelope, deer, elk, mountain lion, wild turkey, and other wildlife species;
- (D) watershed protection and enhancement;
- (E) scientific research;
- (F) rangeland;
- (G) ecological and archaeological resources; and
- (H) scenic vistas;

(4) the checkerboard ownership pattern of land within the Yavapai Ranch detracts from sound and efficient management of the intermingled National Forest System land;

(5) if the private land in the checkerboard area is subdivided or developed, the intermingled National Forest System land will become highly fragmented and lose much of the value of the land for wildlife habitat and future public access, use, and enjoyment;

(6) acquisition by the United States of certain parcels of land that have been offered by Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. for addition to Prescott National Forest will serve important public objectives, including—

- (A) acquiring private land that meets the criteria for inclusion in the National Forest System in exchange for land with lower public, environmental, and ecological values;
- (B) consolidating a large area of National Forest System land to preserve—
 - (i) permanent public access, use, and enjoyment of the land; and
 - (ii) efficient management of the land;
- (C) minimizing cash outlays by the United States to achieve the objectives described in subparagraphs (A) and (B);

(D) significantly reducing administrative costs to the United States through—

- (i) consolidation of Federal land holdings for more efficient land management and planning;
- (ii) elimination of approximately 350 miles of boundary between private land and the Federal parcels;
- (iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and
- (iv) other administrative cost savings;

(E) significantly protecting the watershed and stream flow of the Verde River in Arizona by reducing the land available for future development within that watershed by approximately 25,000 acres; and

(F) conserving the waters of the Verde River through the recording of declarations restricting the use of water on Federal land located near the communities of Camp Verde, Cottonwood and Clarkdale to be exchanged by the United States to Yavapai Ranch Limited Partnership or the Northern Yavapai, L.L.C.;

(7) Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. have selected parcels of National Forest System land that are logical for conveyance to

Yavapai Ranch Limited Partnership or the Northern Yavapai, L.L.C. through a land exchange because the parcels—

(A) are located in less environmentally sensitive areas than the land to be acquired by the United States;

(B) have significantly lower recreational, wildlife, ecological, aesthetic, and other public purpose values than the land to be acquired by the United States; and

(C) are encumbered by special use permits and rights-of-way for a variety of purposes (including summer youth camps, municipal water treatment facilities, sewage treatment facilities, city parks, and airport-related facilities) that—

(i) limit the usefulness of the parcels for general National Forest System purposes; but

(ii) are logical for pass-through conveyances from Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. to the permit or right-of-way holders;

(8) because of residential and ranchette-style subdivisions and developments on land adjacent to the Yavapai Ranch, it is in the interest of the public—

(A) to authorize, direct, facilitate, and expedite the exchange of Federal land and non-Federal land; and

(B) to establish a large consolidated area of National Forest System land; and

(9) without a land exchange, Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. will be forced to initiate development of the non-Federal land.

(b) **PURPOSE.**—The purpose of this Act is to further the public interest by authorizing, directing, facilitating, and expediting the exchange of Federal land and non-Federal land between the United States, Yavapai Ranch Limited Partnership, and the Northern Yavapai, L.L.C.

SEC. 3. DEFINITIONS.

In this Act:

(1) **CAMP VERDE DECLARATION.**—The term “Camp Verde Declaration” means the Declaration of Covenants, Conditions, and Restrictions executed by Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C., on or about August 12, 2002, and recorded in the official records of Yavapai County, Arizona, that is intended to run with the land and imposes certain water use restrictions, water source limitations, and water conservation measures on the future development of the land described in section 4(a)(2)(D).

(2) **COTTONWOOD DECLARATION.**—The term “Cottonwood Declaration” means the Declaration of Covenants, Conditions and Restrictions executed by Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C., on or about August 12, 2002, and recorded in the official records of Yavapai County, Arizona, that is intended to run with the land and imposes certain water use restrictions, water source limitations, and water conservation measures on the future development of the land described in section 4(a)(2)(E).

SECTION 1. SHORT TITLE.

This Act may be cited as the "Prescott and San Isabel National Forests Land Exchange Act of 2002".

TITLE I—YAVAPAI RANCH LAND EXCHANGE, ARIZONA

SEC. 101. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds that—

(1) certain parcels of private land in the approximately 170 square miles of land commonly known as the "Yavapai Ranch" and located in Yavapai County, Arizona, are intermingled with National Forest System land owned by the United States and administered by the Secretary of Agriculture as part of Prescott National Forest;

(2) the private land is owned by the Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. in an intermingled checkerboard pattern, with the United States or Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. owning alternate square mile sections of land or fractions of square mile sections;

(3) much of the private land within the checkerboard area (including the land lo-

cated in or near the Pine Creek watershed, Juniper Mesa Wilderness Area, Haystack Peak, and the Luis Maria Baca Float No. 5) is located in environmentally sensitive areas that possess outstanding attributes and values for public management, use, and enjoyment, including opportunities for—

(A) outdoor recreation;

(B) preservation of stands of old growth forest;

(C) important and largely unfragmented habitat for antelope, deer, elk, mountain lion, wild turkey, and other wildlife species;

(D) watershed protection and enhance-

ment;

(E) scientific research;

(F) rangeland;

(G) ecological and archaeological re-

sources; and

(H) scenic vistas;

(4) the checkerboard ownership pattern of land within the Yavapai Ranch detracts from sound and efficient management of the intermingled National Forest System land;

(5) if the private land in the checkerboard area is subdivided or developed, the intermingled National Forest System land will become highly fragmented and lose much of the value of the land for wildlife habitat and future public access, use, and enjoyment;

(6) acquisition by the United States of certain parcels of land that have been offered by Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. for addition to Prescott National Forest will serve important public objectives, including—

(A) acquiring private land that meets the criteria for inclusion in the National Forest System in exchange for land with lower public, environmental, and ecological values;

(B) consolidating a large area of National Forest System land to preserve—

(i) permanent public access, use, and enjoyment of the land; and

(ii) efficient management of the land;

(C) minimizing cash outlays by the United States to achieve the objectives described in subparagraphs (A) and (B);

(D) significantly reducing administrative costs to the United States through—

(i) consolidation of Federal land holdings for more efficient land management and planning;

(ii) elimination of approximately 350 miles of boundary between private land and the Federal parcels;

(iii) reduced right-of-way, special use, and other permit processing and issuance for roads and other facilities on National Forest System land; and

(iv) other administrative cost savings;

(E) significantly protecting the watershed and stream flow of the Verde River in Arizona by reducing the land available for future development within that watershed by approximately 25,000 acres; and

(F) conserving the waters of the Verde River through the recording of declarations restricting the use of water on Federal land located near the communities of Camp Verde, Cottonwood and Clarkdale to be exchanged by the United States to Yavapai Ranch Limited Partnership or the Northern Yavapai, L.L.C.; and

(7) Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. have selected parcels of National Forest System land that are logical for conveyance to Yavapai Ranch Limited Partnership or the Northern Yavapai, L.L.C. through a land exchange because the parcels—

(A) are located in less environmentally sensitive areas than the land to be acquired by the United States;

(B) have significantly lower recreational, wildlife, ecological, aesthetic, and other public purpose values than the land to be acquired by the United States; and

(C) are encumbered by special use permits and rights-of-way for a variety of purposes (including summer youth camps, municipal water treatment facilities, sewage treatment facilities, city parks, and airport-related facilities) that—

(i) limit the usefulness of the parcels for general National Forest System purposes; but

(ii) are logical for pass-through conveyances from Yavapai Ranch Limited Partnership and the Northern Yavapai, L.L.C. to the permit or right-of-way holders.

(b) PURPOSE.—The purpose of this title is to authorize, direct, and facilitate the exchange of Federal land and non-Federal land between the United States, Yavapai Ranch Limited Partnership, and the Northern Yavapai, L.L.C.

Mr. HANSEN (during the reading). Mr. Speaker, I ask unanimous consent that the amendment in the nature of a substitute be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection. The amendment in the nature of a substitute was agreed to.

The bill was ordered to be engrossed and read a third time, was read the third time, and passed.

The title of the bill was amended so as to read: “A bill to provide for a land exchange in the State of Arizona between the Secretary of Agriculture and Yavapai Ranch Limited Partnership and a land exchange in the State of Colorado to acquire a private inholding in the San Isabel National Forest, and for other purposes.”

A motion to reconsider was laid on the table.

AMERICAN WILDLIFE ENHANCEMENT ACT OF 2001

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that the Committee on Resources be discharged from further consideration of the Senate bill (S. 990) to amend the Pittman-Robertson Wildlife Restoration Act to improve the provisions relating to wildlife conservation and restoration programs, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the Senate bill.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

Mr. GILCHREST. Mr. Speaker, reserving the right to object, and I will not object, but I just want to take this moment to tell the gentleman from Utah, the chairman of the Committee on Resources, that he has stayed the course, he has given that committee dignity, he has worked to improve the resources and nature’s bounty and the approachability to use those resources for human progress; and I just wanted to say, Jim, thank you for your service to your country. I enjoyed serving on your committee.

Mr. DREIER. Mr. Speaker, will the gentleman yield?

Mr. GILCHREST. I yield to the gentleman from California.

Mr. DREIER. Mr. Speaker, I would like to join in extending congratulations. We have just talked about two of our colleagues who are retiring. They were not in the Chamber. We actually have three of our colleagues in the Chamber at this moment at 2:22 in the morning as we retire.

Of course, we have our friend, the gentleman from Texas (Mr. ARMEY), who is always in this Chamber, no matter what; and our friend, the gentleman from Utah (Mr. HANSEN); and our friend, the gentleman from Oklahoma (Mr. WATKINS), here as well.

I would like to say to all three of our colleagues who are retiring how much we have appreciated their extraordinary service to this institution.

I had the privilege of being elected in 1980 with Jim Hansen. He came as a

former speaker of the House of Representatives of the State legislature in Utah and did a phenomenal job there, and came in with a class that was actually larger than the one that will be coming in for the 108th Congress. We ended up with a class of, in a bipartisan way, I think about 76 Members or so. We had 53 Republicans who came in, and it was the day that Ronald Reagan was elected President of the United States that Jim Hansen and I were elected to the House of Representatives. He provided just extraordinary leadership to us.

I want to say on this issue that he has dealt with on the Committee on Resources dealing with the challenges that especially those of us in the West face, that I have appreciated his great service and his wonderful friendship; and I would like to say he will be missed, along with our friends, the gentleman from Texas (Mr. ARMEY) and, of course, the gentleman from Oklahoma (Mr. WATKINS), who we are going to be hearing from I expect before too terribly long. He has just informed me he will be in both Oklahoma and Washington, D.C., and I am not going to say exactly why he will be in both locations. His wife told him that there is a reason for that, but I am not going to state it right now. But his service here has been extraordinary, working very hard in his work on the Committee on Ways and Means.

I thank all of our friends who are retiring, but especially those three who are here at now 2:25 in the morning.

Mr. TOM DAVIS of Virginia. Mr. Speaker, will the gentleman yield?

Mr. GILCHREST. I yield to the gentleman from Virginia.

Mr. TOM DAVIS of Virginia. Mr. Speaker, let me commend my friend, the gentleman from Utah (Mr. HANSEN), for a distinguished career here, not only his stewardship of the Committee on Resources, but his stewardship of the most popular committee in the House, the Committee on Standards of Official Conduct. I know that could the gentleman have stayed on the Committee on Standards of Official Conduct as chairman, he would have probably stayed in this body, and his disappointment at going off that.

But Jim was a pillar of integrity, picked by the leadership because of that, because of his objectivity in dealing with these kinds of issue, and the gentleman added a great dimension to this body. We will miss you and I hope you stay active, Jim.

Mr. FARR of California. Mr. Speaker, will the gentleman yield?

Mr. GILCHREST. I yield to the gentleman from California.

Mr. FARR of California. Mr. Speaker, I would like to rise also. I came here as a freshman and was assigned to the Committee on Resources, which I think is probably the most important committee in Congress, because it really deals with the terrain of America, the landscape of America, the things that brings us such respect for this country,

its diversity and its incredible geography and beauty; and I found the gentleman from Utah (Mr. HANSEN) to be an incredibly warm chairman, always listening, being very fair, a real gentleman as a chairman; and I have to say on the other side of the aisle that we were treated always fairly and our views were respected and bills were passed.

I think that we are going to miss him. We are going to miss somebody that represents a State that really knows the beauty of America; and under his leadership we, Congress, rose to help that State put on the Olympics. It would not have happened without his leadership.

So it is a real pleasure to have served with him, and I wish him all the luck in the world. Thank you.

Mr. INSLEE. Mr. Speaker, will the gentleman yield?

Mr. GILCHREST. I yield to the gentleman from Washington.

Mr. INSLEE. Mr. Speaker, I would just like to report from the Democratic cloakroom that when we saw this spontaneous tribute to the gentleman from Utah (Mr. HANSEN), somebody said, You know, he is a really nice guy, and there was universal shaking of the heads affirmatively. That is the highest praise.

This has been a tremendous opportunity to work with the gentleman, Mr. Chairman, and Utah is a beautiful state and you have made it a little nicer being such a gracious person here.

Mr. GILCHREST. Mr. Speaker, reclaiming my time, I would say to WES WATKINS, DICK ARMEY, JIM HANSEN, thank you from the country's heart.

Mr. HANSEN. Mr. Speaker, will the gentleman yield?

Mr. GILCHREST. I yield to the gentleman from Utah.

Mr. HANSEN. Mr. Speaker, I would like to express my appreciation for the kind words of my colleagues and friends. It has been very kind of them to say these things.

Mr. GILCHREST. Mr. Speaker, I withdraw my reservation of objection.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

The Clerk read the Senate bill, as follows:

(2) develop, in cooperation with the State of Louisiana Department of Wildlife and Fisheries and the State of Maryland Department of Natural Resources, a long-term nutria control or eradication program, as appropriate, with the objective to significantly reduce and restore the damage nutria cause to coastal wetlands in the States of Louisiana and Maryland.

TITLE VI—ACQUISITION OF GARRETT ISLAND, MARYLAND

SEC. 601. SHORT TITLE.

This title may be cited as the “Blackwater National Wildlife Refuge Expansion Act”.

SEC. 602. FINDINGS.

The Congress finds the following:

(1) Garrett Island, located at the mouth of the Susquehanna River in Cecil County, Maryland, is a microcosm of the geology and geography of the region, including hard rock piedmont, coastal plain, and volcanic formations.

(2) Garrett Island is the only rocky island in the tidal waters of the Chesapeake.

(3) Garrett Island and adjacent waters provide high-quality habitat for bird and fish species.

(4) Garrett Island contains significant archaeological sites reflecting human history and prehistory of the region.

SEC. 603. AUTHORITY TO ACQUIRE PROPERTY FOR INCLUSION IN THE BLACKWATER NATIONAL WILDLIFE REFUGE.

(a) ACQUISITION.—The Secretary of the Interior may use otherwise available amounts to acquire the area known as Garrett Island, consisting of approximately 198 acres located at the mouth of the Susquehanna River in Cecil County, Maryland.

(b) ADMINISTRATION.—Lands and interests acquired by the United States under this section shall be managed by the Secretary as the Garrett Island Unit of the Blackwater National Wildlife Refuge.

(c) PURPOSES.—The purposes for which the Garrett Island Unit is established and shall be managed are the following:

(1) To support the Delmarva Conservation Corridor Demonstration Program.

(2) To conserve, restore, and manage habitats as necessary to contribute to the migratory bird populations prevalent in the Atlantic Flyway.

(3) To conserve, restore, and manage the significant aquatic resource values associated with submerged land adjacent to the unit and to achieve the habitat objectives of the agreement known as the Chesapeake 2000 Agreement.

(4) To conserve the archeological resources on the unit.

(5) To provide public access to the unit in a manner that does not adversely impact natural resources on and around the unit.

TITLE VII—OTTAWA NATIONAL WILDLIFE REFUGE COMPLEX EXPANSION

SEC. 701. SHORT TITLE.

This title may be cited as the “Ottawa National Wildlife Refuge Complex Expansion and Detroit River International Wildlife Refuge Expansion Act”.

SEC. 702. FINDINGS.

The Congress finds the following:

(1) The western basin of Lake Erie, as part of the Great Lakes ecosystem, the largest freshwater ecosystem on the face of the Earth, is vitally important to the economic and environmental future of the United States.

(2) Over the past three decades, the citizens and governmental institutions of both the United States and Canada have devoted increasing attention and resources to the restoration of the water quality and fisheries of the Great Lakes, including the western basin. This increased awareness has been accompanied by a gradual shift to a holistic “ecosystem approach” that highlights a growing recognition that shoreline areas—the nearshore terrestrial ecosystems—are an integral part of the western basin and the Great Lakes ecosystem as a whole.

(3) The Great Lakes account for more than 90 percent of the surface freshwater in the nation. The western basin receives approximately 90 percent of its flow from the Detroit River and only approximately 10 percent from tributaries.

(4) The western basin of Lake Erie is an important ecosystem that includes a number of distinct islands, channels, rivers, and shoals that support dense populations of fish, wildlife, and aquatic plants.

(5) The coastal wetlands of Lake Erie support the largest diversity of plant and wildlife species in the Great Lakes. The moderate climate of Lake Erie and its more southern latitude allow for many species

that are not found in or along the northern Great Lakes. More than 300 species of plants, including 37 significant species, have been identified in the aquatic and wetland habitats of the western basin.

(6) The shallow western basin of Lake Erie, from the Lower Detroit River to Sandusky Bay, is home to the largest concentration of marshes in Lake Erie, including Mouille, Metzger, and Magee marshes, the Maumee Bay wetland complex, the wetland complexes flanking Locust Point, and the wetlands in Sandusky Bay. The larger United States islands in western Lake Erie have wetlands in their small embayments.

(7) The wetlands in the western basin of Lake Erie comprise as some of the most important waterfowl habitat in the Great Lakes. Waterfowl, wading birds, shore birds, gulls and terns, raptors, and perching birds all use the western basin wetlands for migration, nesting, and feeding. Hundreds of thousands of diving ducks stop to rest in the Lake Erie area on their fall migration from Canada to the east and south. The wetlands of the western basin of Lake Erie provide a major stopover for ducks such as migrating bufflehead, common goldeneye, common mergansers, and ruddy duck.

(8) The international importance of Lake Erie is manifested in the United States congressional designation of the Ottawa and Cedar Point National Wildlife Refuges.

(9) Lake Erie has an international reputation for walleye, perch, and bass fishing, recreational boating, birding, photography, and duck hunting. On an economic basis, Lake Erie tourism accounts for an estimated \$1,500,000,000 in retail sales and more than 50,000 jobs.

(10) Many of the 417,000 boats that are registered in Ohio are used in the western basin of Lake Erie, in part to fish for the estimated 10,000,000 walleye that migrate from other areas of the lake to spawn. This internationally renowned walleye fishery drives much of Ohio's \$2,000,000,000 sport fishing industry.

(11) Coastal wetlands in the western basin of Lake Erie have been subjected to intense pressure for 150 years. Prior to 1850, the western basin was part of an extensive coastal marsh and swamp system of approximately 122,000 hectares that comprised a portion of the Great Black Swamp. By 1951, only 12,407 wetland hectares remained in the western basin. Half of that acreage was destroyed between 1972 and 1987. Therefore, today only approximately 5,000 hectares remain. Along the Michigan shoreline, coastal wetlands were reduced by 62 percent between 1916 and the early 1970s. The development of the city of Monroe, Michigan, has had a particularly significant impact on the coastal wetlands at the mouth of the Raisin River: only approximately 100 hectares remain physically unaltered today in an area where 70 years ago marshes were 10 times more extensive. In addition to the actual loss of coastal wetland acreage along the shores of Lake Erie, the quality of many remaining diked wetlands has been degraded by numerous stressors, especially excessive loadings of sediments and nutrients, contaminants, shoreline modification, exotic species, and the diking of wetlands. Protective peninsula beach systems, such as the former Bay Point and Woodtick, at the border of Ohio and Michigan near the mouth of the Ottawa River and Maumee Bay, have been eroded over the years, exacerbating erosion along the shorelines and impacting the breeding and spawning grounds.

(b) ADDITIONAL PURPOSES.—In addition to the purposes of the Refuge Complex under

other laws, regulations, executive orders, and comprehensive conservation plans, the Refuge Complex shall be managed for the following purposes:

(1) To strengthen and complement existing resource management, conservation, and education programs and activities at the Refuge Complex in a manner consistent with the primary purpose of the Refuge Complex to provide major resting, feeding, and wintering habitats for migratory birds and other wildlife, and to enhance national resource conservation and management in the western basin of Lake Erie.

(2) To conserve, enhance, and restore the native aquatic and terrestrial community characteristics of the western basin of Lake Erie (including associated fish, wildlife, and plant species), both in the United States and Canada in partnership with nongovernmental and private organizations, as well as private individuals dedicated to habitat enhancement.

(3) To facilitate partnerships among the United States Fish and Wildlife Service, Canadian national and provincial authorities, State and local governments, local communities in the United States and in Canada, conservation organizations, and other non-Federal entities to promote public awareness of the resources of the western basin of Lake Erie.

(4) To advance the collective goals and priorities established in the "Great Lakes Strategy 2002—A Plan for the New Millennium", by the United States Policy Committee comprised of various Federal agencies, including the United States Fish and Wildlife Service, the National Oceanic and Atmospheric Administration, the United States Geological Survey, the Forest Service, and the Great Lakes Fishery Commission, as well as the State governments and tribal governments in the Great Lakes. These goals, broadly stated, include working together to protect and restore the chemical, physical, and biological integrity of the Great Lakes basin ecosystem.

(c) PRIORITY USES.—In providing opportunities for compatible fish and wildlife dependent recreation, the Secretary, in accordance with paragraphs (3) and (4) of section 4(a) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd(a)), shall ensure that hunting, fishing, wildlife observation and photography, and environmental education and interpretation are the priority public uses of the Refuge Complex.

(d) COOPERATIVE AGREEMENTS REGARDING NON-FEDERAL LANDS.—The Secretary may enter into cooperative agreements with the State of Ohio or the State of Michigan, or any political subdivision thereof, and with any other person or entity for the management in a manner consistent with this title of lands that are owned by such State, subdivision, or other person or entity and located within the boundaries of the Refuge Complex and to promote public awareness of the resources of the western basin of Lake Erie and encourage public participation in the conservation of those resources.

TITLE VIII—BEAR RIVER MIGRATORY BIRD REFUGE CLAIMS SETTLEMENT

SEC. 801. SHORT TITLE.

This title may be cited as the “Bear River Migratory Bird Refuge Settlement Act of 2002”.

SEC. 802. FINDINGS.

The Congress finds the following:

(1) The Secretary of the Interior and the State of Utah have negotiated a preliminary agreement concerning the ownership of lands within the Bear River Migratory Bird Refuge located in Bear River Bay of the Great Salt Lake, Utah.

(2) The State is entitled to ownership of those sovereign lands constituting the bed of the Great Salt Lake, and, generally, the location of the sovereign lands boundary was set by an official survey of the Great Salt Lake meander line.

(3) The establishment of the Refuge in 1928 along the shore of the Great Salt Lake, and lack of a meander line survey within the Refuge, has led to uncertainty of ownership of some those sovereign lands.

(4) In order to settle the uncertainty concerning the sovereign land boundary caused by the gap in the surveyed Great Salt Lake meander line within the Refuge, the Secretary and the State have agreed to the establishment of a fixed sovereign land boundary along the southern boundary of the Refuge and the State has agreed to release any claim to the lake bed above such boundary line.

(5) The Secretary and the State have expressed their intentions to establish a mutually agreed upon procedure to address the conflicting claims to ownership of the lands and interests in land within the Refuge.

SEC. 803. DEFINITIONS.

In this title:

(1) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(2) REFUGE.—The term “Refuge” means the Bear River Migratory Bird Refuge located in Bear River Bay of the Great Salt Lake, Utah.

(3) AGREEMENT.—The term “agreement” means the agreement to be signed by the Secretary and the State to establish a mutually agreeable procedure for addressing the conflicting claims to ownership of the lands and interests in land within the Refuge.

(4) STATE.—The term “State” means the State of Utah.

SEC. 804. REQUIRED TERMS OF LAND CLAIMS SETTLEMENT, BEAR RIVER MIGRATORY BIRD REFUGE, UTAH.

(a) SPECIFIC TERMS REQUIRED IN AGREEMENT.—The Secretary shall not enter into an agreement with the State for the quitclaim or other transfer of lands or interests in lands within the Refuge unless the terms of the agreement include each of the following provisions:

(1) Nothing in the agreement shall be construed to impose upon the State or any agency of the State any obligation to convey to the United States any interest in water owned or controlled by the State, except upon appropriate terms and for adequate consideration.

(2) Nothing in the agreement shall constitute admission or denial of the United States claim to a Federal reserved water right.

(3) The State shall support the United States application to add an enlarged Hyrum Reservoir, or another storage facility, as an alternate place of storage under the Refuge’s existing 1000 cubic feet per second State certified water right. Such support shall be contingent upon demonstration by the United States that no injury to water rights shall occur as a result of the addition.

(4) Nothing in the agreement shall affect jurisdiction by the State or the United States Fish and Wildlife Service over wildlife resources management, including fishing, hunting and trapping, within the Refuge.

(5) If the State elects to bring suit against the United States challenging the validity of the deed issued pursuant to the agreement, and if such suit is successful in invalidating such deed, the State will—

(A) pay the United States for the fair market value of all real property improvements on the property at the time of invalidation, such as dikes, water control structures and buildings;

(B) repay any amounts paid by the United States because of ownership of the land by the United States from the date of establishment of the Refuge, such as payments in lieu of taxes; and

(C) repay any amounts paid to the State pursuant to the agreement.

(6) Subject to the availability of funds for this purpose, the Secretary shall agree to pay \$15,000,000 to the State upon delivery by the State of a quitclaim deed that meets all applicable standards of the Department of Justice and covers all lands and interests in lands claimed by the State within the Refuge. Such payment shall be subject to the condition that the State use the payment for the purposes, and in the amounts, specified in subsections (b) and (c).

(b) WETLANDS AND WILDLIFE PROTECTION PROGRAMS.—

(1) DEPOSIT.—The State shall deposit \$10,000,000 of the amount paid pursuant to the agreement, as required by subsection (a)(6), in a restricted account, known as the Wetlands and Habitat Protection Account, to be used as provided in paragraph (2).

(2) AUTHORIZED USES.—The Executive Director of the Utah Department of Natural Resources may withdraw from the Wetlands and Habitat Protection Account, on an annual basis, amounts equal to the interest earned on the amount deposited under paragraph (1) for the following purposes:

(A) Wetland or open space protection in and near the Great Salt Lake.

(B) Enhancement and acquisition of wildlife habitat in and near the Great Salt Lake.

(c) RECREATIONAL TRAILS DEVELOPMENT.—The Utah Department of Natural Resources shall use \$5,000,000 of the amount paid pursuant to the agreement, as required by subsection (a)(6), as follows:

(1) \$2,000,000 for the development, improvement, and expansion of the James V. Hansen Shoshone Trail.

(2) \$1,000,000 for the development, improvement, and expansion of the Ogden-Weber Trail System.

(e) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$15,000,000 for the payment required by subsection (a)(6) to be included as a term of the agreement.

TITLE IX—EDUCATION AND ADMINISTRATIVE CENTER AT BEAR RIVER MIGRATORY BIRD REFUGE, UTAH

SEC. 901. SHORT TITLE.

This title may be cited as the “Bear River Migratory Bird Refuge Visitor Center Act”.

SEC. 902. FINDINGS.

The Congress finds the following:

(1) The Bear River marshes have been a historical waterfowl oasis and an important inland waterfowl flyway for thousands of years.

(2) The Congress created the Bear River Migratory Bird Refuge as one of the first National Wildlife Refuges, for the purpose of protecting waterfowl habitat and migratory birds, educating the public regarding, and enhancing public appreciation of, waterfowl habitat and migratory birds.

(3) The Bear River Migratory Bird Refuge was virtually destroyed by devastating floods that occurred between 1983 and 1985.

(4) Refuge employees, aided by volunteers, have taken valiant actions to rebuild the Refuge by restoring habitat, increasing its attractiveness to waterfowl, reducing waterfowl botulism, and providing recreational and educational opportunities to the public.

(5) The Bear River Migratory Bird Refuge lacks a functional education and administrative center.

(6) The creation of such a facility would significantly enhance public appreciation of waterfowl and the need to preserve waterfowl habitat.

(7) The Congress has taken significant steps to provide funding for the construction of an education and administrative center.

SEC. 903. DEFINITIONS.

For the purpose of this title, the following definitions apply:

(1) SECRETARY.—The term “Secretary” means the Secretary of the Interior.

(2) REFUGE.—The term “Refuge” means the Bear River Migratory Bird Refuge in Box Elder County, Utah.

(3) EDUCATION AND ADMINISTRATIVE CENTER.—The term “Education and Administrative Center” means the facility identified in the Environmental Assessment dated 1991 and entitled “Restoration and Expansion of the Bear River Migratory Bird Refuge”.

SEC. 904. AUTHORIZATION OF CONSTRUCTION OF THE EDUCATION CENTER.

(a) CONSTRUCTION.—The Secretary shall construct the Education and Administrative Center at the Refuge for the purposes of providing for the interpretation of resources of the Refuge for the education and benefit of the public, for the advancement of research, protection, and health of waterfowl habitat, and for the administration of the Bear River Migratory Bird Refuge.

(b) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$11,000,000 to carry out subsection (a).

TITLE X—ACCOKEEK CREEK NATIONAL WILDLIFE REFUGE

SEC. 1001. ACCOKEEK CREEK NATIONAL WILDLIFE REFUGE ESTABLISHMENT.

(a) **SHORT TITLE.**—This title may be cited as the “Accokeek Creek National Wildlife Refuge Establishment Act”.

(b) **ESTABLISHMENT.**—The Secretary of the Interior (in this section referred to as the “Secretary”) shall establish the Accokeek Creek National Wildlife Refuge. The refuge shall consist of any lands and waters owned or managed by the Secretary and located within the refuge acquisition boundary depicted on a map entitled “Accokeek Creek National Wildlife Refuge, Land Acquisition Boundary, Stafford County, Virginia” and dated August 2000.

(c) **PURPOSES.**—The purposes for which the Refuge is established are the following:

(1) To provide long-term protection of ecologically unique habitats of the peninsula between Accokeek and Potomac Creeks in Stafford County, Virginia, known as the Crow’s Nest, and certain adjacent property that supports numerous species of neotropical migratory birds, waterfowl, and sport and commercial fish, and numerous rare and endangered plant species.

(2) To provide appropriate public access to, and compatible fish and wildlife dependent recreation in, the Refuge.

(d) **ACQUISITION.**—

(1) **IN GENERAL.**—(A) The Secretary may acquire by donation, purchase with donated or appropriated funds, or exchange the lands and waters, or interests therein (including conservation easements), within the boundaries of the Refuge.

(B) No such lands, waters, or interests therein may be acquired without the consent of the owner thereof.

(2) **TRANSFERS FROM OTHER AGENCIES.**—The head of any Federal agency having administrative jurisdiction over Federal property located within the boundaries of the Refuge may, with the approval of the Secretary, transfer such property without consideration to the administrative jurisdiction of the Secretary for inclusion in the Refuge.

(e) **ADMINISTRATION.**—

(1) **IN GENERAL.**—The Secretary shall administer all federally owned lands, waters, and interests therein that are within the boundaries of the Refuge in accordance with the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd et seq.) and this section. The Secretary may use such additional statutory authority as may be available for the conservation of fish and wildlife, and the provision of fish and wildlife dependent recreational opportunities, as the Secretary considers appropriate to carry out the purposes described in subsection (c).

(2) **PRIORITY USES.**—In providing opportunities for compatible fish and wildlife dependent recreation, the Secretary, in accordance with paragraphs (3) and (4) of section 4(a) of the National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd(a)), shall ensure that hunting, fishing, wildlife observation and photography, and environmental education and interpretation are the priority public uses of the Refuge.

TITLE XI—MISCELLANEOUS

SEC. 1101. AMENDMENTS TO THE NATIONAL FISH AND WILDLIFE FOUNDATION ESTABLISHMENT ACT.

(a) **REQUIREMENT TO NOTIFY CONGRESS REGARDING GRANTS.**—Section 4(i) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3703(i)) is amended by adding “in excess of \$5,000” after “a grant of funds”.

(b) **MATCHING CONTRIBUTIONS BY SUBRECIPIENTS.**—Section 10(a)(3) of the National Fish and Wildlife Foundation Establishment Act (16 U.S.C. 3709(a)(3)) is amended by adding “or subrecipient” after “made to the Foundation”.

TITLE XII—MARINE TURTLE CONSERVATION

SEC. 1201. SHORT TITLE.

This title may be cited as the “Marine Turtle Conservation Act of 2002”.

SEC. 1202. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—The Congress finds that—

(1) marine turtle populations have declined to the point that the long-term survival of the loggerhead, green, hawksbill, Kemp’s ridley, olive ridley, and leatherback turtle in the wild is in serious jeopardy;

(2) 6 of the 7 recognized species of marine turtles are listed as threatened or endangered species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.), and all 7 species have been included in Appendix I of CITES;

(3) because marine turtles are long-lived, late-maturing, and highly migratory, marine turtles are particularly vulnerable to the impacts of human exploitation and habitat loss;

(4) illegal international trade seriously threatens wild populations of some marine turtle species, particularly the hawksbill turtle;

(5) the challenges facing marine turtles are immense, and the resources available have not been sufficient to cope with the continued loss of nesting habitats caused by human activities and the consequent diminution of marine turtle populations;

(6) because marine turtles are flagship species for the ecosystems in which marine turtles are found, sustaining healthy populations of marine turtles provides benefits to many other species of wildlife, including many other threatened or endangered species;

(7) marine turtles are important components of the ecosystems that they inhabit, and studies of wild populations of marine turtles have provided important biological insights;

(8) changes in marine turtle populations are most reliably indicated by changes in the numbers of nests and nesting females; and

(9) the reduction, removal, or other effective addressing of the threats to the long-term viability of populations of marine turtles will require the joint commitment and effort of—

(A) countries that have within their boundaries marine turtle nesting habitats; and

(B) persons with expertise in the conservation of marine turtles.

(b) **PURPOSE.**—The purpose of this title is to assist in the conservation of marine turtles and the nesting habitats of marine turtles in foreign countries by supporting and providing financial resources for projects to conserve the nesting habitats, conserve marine turtles in those habitats, and address other threats to the survival of marine turtles.

SEC. 1203. DEFINITIONS.

(B) any other person or group with the demonstrated expertise required for the conservation of marine turtles.

(2) **REQUIRED ELEMENTS.**—A project proposal shall include—

(A) a statement of the purposes of the project;

(B) the name of the individual with overall responsibility for the project;

(C) a description of the qualifications of the individuals that will conduct the project;

(B) review each project proposal in a timely manner to determine whether the proposal meets the criteria specified in subsection (d).

(2) CONSULTATION; APPROVAL OR DISAPPROVAL.—Not later than 180 days after receiving a project proposal, and subject to the availability of funds, the Secretary, after consulting with other Federal officials, as appropriate, shall—

(A) consult on the proposal with the government of each country in which the project is to be conducted;

(B) after taking into consideration any comments resulting from the consultation, approve or disapprove the project proposal; and

(C) provide written notification of the approval or disapproval to the person that submitted the project proposal, other Federal officials, and each country described in subparagraph (A).

(d) CRITERIA FOR APPROVAL.—The Secretary may approve a project proposal under this section if the project will help recover and sustain viable populations of marine turtles in the wild by assisting efforts in foreign countries to implement marine turtle conservation programs.

(e) PROJECT SUSTAINABILITY.—To the maximum extent practicable, in determining whether to approve project proposals under this section, the Secretary shall give preference to conservation projects that are designed to ensure effective, long-term conservation of marine turtles and their nesting habitats.

TITLE II—YANKTON SIOUX AND SANTEE SIOUX TRIBES EQUITABLE COMPENSATION

SEC. 201. SHORT TITLE.

This title may be cited as the “Yankton Sioux Tribe and Santee Sioux Tribe Equitable Compensation Act”.

SEC. 202. FINDINGS.

Congress finds that—

(1) by enacting the Act of December 22, 1944, commonly known as the “Flood Control Act of 1944” (58 Stat. 887, chapter 665; 33 U.S.C. 701–1 et seq.) Congress approved the Pick-Sloan Missouri River Basin program (referred to in this section as the “Pick-Sloan program”)—

(A) to promote the general economic development of the United States;

(B) to provide for irrigation above Sioux City, Iowa;

(C) to protect urban and rural areas from devastating floods of the Missouri River; and

(D) for other purposes;

(2) the waters impounded for the Fort Randall and Gavins Point projects of the Pick-Sloan program have inundated the fertile, wooded bottom lands along the Missouri River that constituted the most productive agricultural and pastoral lands of, and the homeland of, the members of the Yankton Sioux Tribe and the Santee Sioux Tribe;

(3) the Fort Randall project (including the Fort Randall Dam and Reservoir) overlies the western boundary of the Yankton Sioux Tribe Indian Reservation;

(4) the Gavins Point project (including the Gavins Point Dam and Reservoir) overlies the eastern boundary of the Santee Sioux Tribe;

(5) although the Fort Randall and Gavins Point projects are major components of the Pick-Sloan program, and contribute to the economy of the United States by generating a substantial amount of hydropower and impounding a substantial quantity of water, the reservations of the Yankton Sioux Tribe and the Santee Sioux Tribe remain undeveloped;

(6) the United States Army Corps of Engineers took the Indian lands used for the Fort Randall and Gavins Point projects by condemnation proceedings;

(7) the Federal Government did not give the Yankton Sioux Tribe and the Santee Sioux Tribe an opportunity to receive compensation for direct damages from the Pick-Sloan program, even though the Federal Government gave 5 Indian reservations upstream from the reservations of those Indian tribes such an opportunity;

(8) the Yankton Sioux Tribe and the Santee Sioux Tribe did not receive just compensation for the taking of productive agricultural Indian lands through the condemnation referred to in paragraph (6);

TITLE VI—CHEROKEE, CHOCTAW, AND CHICKASAW NATIONS CLAIMS SETTLEMENT ACT

SEC. 601. SHORT TITLE.

This title may be cited as the "Cherokee, Choctaw, and Chickasaw Nations Claims Settlement Act".

SEC. 602. FINDINGS.

The Congress finds the following:

(1) It is the policy of the United States to promote tribal self-determination and economic self-sufficiency and to encourage the resolution of disputes over historical claims through mutually agreed-to settlements between Indian Nations and the United States.

(2) There are pending before the United States Court of Federal Claims certain lawsuits against the United States brought by the Cherokee, Choctaw, and Chickasaw Nations seeking monetary damages for the alleged use and mismanagement of tribal resources along the Arkansas River in eastern Oklahoma.

(3) The Cherokee Nation, a federally recognized Indian tribe with its present tribal headquarters south of Tahlequah, Oklahoma, having adopted its most recent constitution on June 26, 1976, and having entered into various treaties with the United States, including but not limited to the Treaty at Hopewell, executed on November 28, 1785 (7 Stat. 18), and the Treaty at Washington, D.C., executed on July 19, 1866 (14 Stat. 799), has maintained a continuous government-to-government relationship with the United States since the earliest years of the Union.

(4) The Choctaw Nation, a federally recognized Indian tribe with its present tribal headquarters in Durant, Oklahoma, having adopted its most recent constitution on July 9, 1983, and having entered into various treaties with the United States of America, including but not limited to the Treaty at Hopewell, executed on January 3, 1786 (7

Stat. 21), and the Treaty at Washington, D.C., executed on April 28, 1866 (7 Stat. 21), has maintained a continuous government-to-government relationship with the United States since the earliest years of the Union.

(5) The Chickasaw Nation, a federally recognized Indian tribe with its present tribal headquarters in Ada, Oklahoma, having adopted its most recent constitution on August 27, 1983, and having entered into various treaties with the United States of America, including but not limited to the Treaty at Hopewell, executed on January 10, 1786 (7 Stat. 24), and the Treaty at Washington, D.C., executed on April 28, 1866 (7 Stat. 21), has maintained a continuous government-to-government relationship with the United States since the earliest years of the Union.

(6) In the first half of the 19th century, the Cherokee, Choctaw, and Chickasaw Nations were forcibly removed from their homelands in the southeastern United States to lands west of the Mississippi in the Indian Territory that were ceded to them by the United States. From the "Three Forks" area near present day Muskogee, Oklahoma, downstream to the point of confluence with the Canadian River, the Arkansas River flowed entirely within the territory of the Cherokee Nation. From that point of confluence downstream to the Arkansas territorial line, the Arkansas River formed the boundary between the Cherokee Nation on the left side of the thread of the river and the Choctaw and Chickasaw Nations on the right.

(7) Pursuant to the Act of April 30, 1906 (34 Stat. 137), tribal property not allotted to individuals or otherwise disposed of, including the bed and banks of the Arkansas River, passed to the United States in trust for the use and benefit of the respective Indian Nations in accordance with their respective interests therein.

(8) For more than 60 years after Oklahoma statehood, the Bureau of Indian Affairs believed that Oklahoma owned the Riverbed from the Arkansas State line to Three Forks, and therefore took no action to protect the Indian Nations' Riverbed resources such as oil, gas, and Drybed Lands suitable for grazing and agriculture.

(9) Third parties with property near the Arkansas River began to occupy the Indian Nations' Drybed Lands—lands that were under water at the time of statehood but that are now dry due to changes in the course of the river.

(10) In 1966, the Indian Nations sued the State of Oklahoma to recover their lands. In 1970, the Supreme Court of the United States decided in the case of Choctaw Nation vs. Oklahoma (396 U.S. 620), that the Indian Nations retained title to their respective portions of the Riverbed along the navigable reach of the river.

(11) In 1987, the Supreme Court of the United States in the case of United States vs. Cherokee Nation (480 U.S. 700) decided that the riverbed lands did not gain an exemption from the Federal Government's navigational servitude and that the Cherokee Nation had no right to compensation for damage to its interest by exercise of the Government's servitude.

(12) In 1989, the Indian Nations filed lawsuits against the United States in the United States Court of Federal Claims (Case Nos. 218-89L and 630-89L), seeking damages for the United States' use and mismanagement of tribal trust resources along the Arkansas River. Those actions are still pending.

(13) In 1997, the United States filed quiet title litigation against individuals occupying some of the Indian Nations' Drybed Lands. That action, filed in the United States District Court for the Eastern District of Oklahoma, was dismissed without prejudice on technical grounds.

(14) Much of the Indian Nations' Drybed Lands have been occupied by a large number of adjacent landowners in Oklahoma. Without Federal legislation, further litigation against thousands of such landowners would be likely and any final resolution of disputes would take many years and entail great expense to the United States, the Indian Nations, and the individuals and entities occupying the Drybed Lands and would seriously impair long-term economic planning and development for all parties.

(15) The Councils of the Cherokee and Choctaw Nations and the Legislature of the Chickasaw Nation have each enacted tribal resolutions which would, contingent upon the passage of this title and the satisfaction of its terms and in exchange for the moneys appropriated hereunder—

(A) settle and forever release their respective claims against the United States asserted by them in United States Court of Federal Claims Case Nos. 218-89L and 630-89L; and

(B) forever disclaim any and all right, title, and interest in and to the Disclaimed Drybed Lands, as set forth in those enactments of the respective councils of the Indian Nations.

(16) The resolutions adopted by the respective Councils of the Cherokee, Choctaw, and Chickasaw Nations each provide that, contingent upon the passage of the settlement legislation and satisfaction of its terms, each Indian Nation agrees to dismiss, release, and forever discharge its claims asserted against the United States in the United States Court of Federal Claims, Case Nos. 218-89L and 630-89L, and to forever disclaim any right, title, or interest of the Indian Nation in the Disclaimed Drybed Lands, in exchange for the funds appropriated and allocated to the Indian Nation under the provisions of the settlement legislation, which funds the Indian Nation agrees to accept in full satisfaction and settlement of all claims against the United States for the damages sought in the aforementioned claims asserted in the United States Court of Federal Claims, and as full and fair compensation for disclaiming its right, title, and interest in the Disclaimed Drybed Lands.

(17) In those resolutions, each Indian Nation expressly reserved all of its beneficial interest and title to all other Riverbed lands, including minerals, as determined by the Supreme Court in *Choctaw Nation v. Oklahoma*, 397 U.S. 620 (1970), and further reserved any and all right, title, or interest that each Nation may have in and to the water flowing in the Arkansas River and its tributaries.

SEC. 603. PURPOSES.

The purposes of this title are to resolve all claims that have been or could have been brought by the Cherokee, Choctaw, and Chickasaw Nations against the United States, and to confirm that the Indian Nations are forever disclaiming any right, title, or interest in the Disclaimed Drybed Lands, which are contiguous to the channel of the Arkansas River as of the date of the enactment of this title in certain townships in eastern Oklahoma.

SEC. 604. DEFINITIONS.

SEC. 605. SETTLEMENT AND CLAIMS; APPROPRIATIONS; ALLOCATION OF FUNDS.

(a) **EXTINGUISHMENT OF CLAIMS.**—Pursuant to their respective tribal resolutions, and in exchange for the benefits conferred under this title, the Indian Nations shall, on the date of enactment of this title, enter into a consent decree with the United States that waives, releases, and dismisses all the claims they have asserted or could have asserted in their cases numbered 218-89L and 630-89L pending in the United States Court of Federal Claims against the United States, including but not limited to claims arising out of any and all of the Indian Nations' interests in the Disclaimed Drybed Lands and arising out of construction, maintenance and operation of the McClellan-Kerr Navigation Way. The Indian Nations and the United States shall lodge the consent decree with the Court of Federal Claims within 30 days of the enactment of this title, and shall move for entry of the consent decree at such time as all appropriations by Congress pursuant to the authority of this title have been made and deposited into the appropriate tribal trust fund account of the Indian Nations as described in section 606. Upon entry of the consent decree, all the Indian Nations' claims and all their past, present, and future right, title, and interest to the Disclaimed Drybed Lands, shall be deemed extinguished. No claims may be asserted in the future against the United States pursuant to sections 1491, 1346(a)(2), or 1505 of title 28, United States Code, for actions taken or failed to have been taken by the United States for events occurring prior to the date of the extinguishment of claims with respect to the Riverbed.

(b) RELEASE OF TRIBAL CLAIMS TO CERTAIN DRYBED LANDS.—

(1) **IN GENERAL.**—Upon the deposit of all funds authorized for appropriation under subsection (c) for an Indian Nation into the appropriate trust fund account described in section 606—

(A) all claims now existing or which may arise in the future with respect to the Disclaimed Drybed lands and all right, title, and interest that the Indian Nations and the United States as trustee on behalf of the Indian Nation may have to the Disclaimed Drybed Lands, shall be deemed extinguished;

(B) any interest of the Indian Nations or the United States as trustee on their behalf

in the Disclaimed Drybed Lands shall further be extinguished pursuant to the Trade and Intercourse Act of 1790, Act of July 22, 1790 (ch. 33, 1 Stat. 137), and all subsequent amendments thereto (as codified at 25 U.S.C. 177);

(C) to the extent parties other than the Indian Nations have transferred interests in the Disclaimed Drybed Lands in violation of the Trade and Intercourse Act, Congress does hereby approve and ratify such transfers of interests in the Disclaimed Drybed Lands to the extent that such transfers otherwise are valid under law; and

(D) the Secretary is authorized to execute an appropriate document citing this title, suitable for filing with the county clerks, or such other county official as appropriate, of those counties wherein the foregoing described lands are located, disclaiming any tribal or Federal interest on behalf of the Indian Nations in such Disclaimed Drybed Lands. The Secretary is authorized to file with the counties a plat or map of the disclaimed lands should the Secretary determine that such filing will clarify the extent of lands disclaimed. Such a plat or map may be filed regardless of whether the map or plat has been previously approved for filing, whether or not the map or plat has been filed, and regardless of whether the map or plat constitutes a final determination by the Secretary of the extent of the Indian Nations' original claim to the Disclaimed Drybed Lands. The disclaimer filed by the United States shall constitute a disclaimer of the Disclaimed Drybed Lands for purposes of the Trade and Intercourse Act (25 U.S.C. 177).

(2) **SPECIAL PROVISIONS.**—Notwithstanding any provision of this title—

(A) the Indian Nations do not relinquish any right, title, or interest in any lands which constitute the Wetbed Lands subject to the navigational servitude exercised by the United States on the Wetbed Lands. By virtue of the exercise of the navigational servitude, the United States shall not be liable to the Indian Nations for any loss they may have related to the minerals in the Wetbed Lands;

(B) no provision of this title shall be construed to extinguish or convey any water rights of the Indian Nations in the Arkansas River or any other stream or the beneficial interests or title of any of the Indian Nations in and to lands held in trust by the United States on the date of enactment of this title which lie above or below the mean high water mark of the Arkansas River, except for the Disclaimed Drybed Lands; and

(C) the Indian Nations do not relinquish any right, title, or interest in any lands or minerals of certain unallotted tracts which are identified in the official records of the Eastern Oklahoma Regional Office, Bureau of Indian Affairs. The disclaimer to be filed by the Secretary of the Interior under section 605(b)(1) of this title shall reflect the legal description of the unallotted tracts retained by the Nations.

(3) **SETOFF.**—In the event the Court of Federal Claims does not enter the consent decree as set forth in subsection (a), the United States shall be entitled to setoff against any claims of the Indian Nations as set forth in subsection (a), any funds transferred to the Indian Nations pursuant to section 606, and any interest accrued thereon up to the date of setoff.

(4) **QUIET TITLE ACTIONS.**—Notwithstanding any other provision of law, neither the United States nor any department of the United States nor the Indian Nations shall be made parties to any quiet title lawsuit or other lawsuit to determine ownership of or an interest in the Disclaimed Drybed Lands

initiated by any private person or private entity after execution of the disclaimer set out in section 605(b)(1). The United States will have no obligation to undertake any future quiet title actions or actions for the recovery of lands or funds relating to any Drybed Lands retained by the Indian Nation or Indian Nations under this title, including any lands which are Wetbed Lands on the date of enactment of this title, but which subsequently lie above the mean high water mark of the Arkansas River and the failure or declination to initiate any quiet title action or to manage any such Drybed Lands shall not constitute a breach of trust by the United States or be compensable to the Indian Nation or Indian Nations in any manner.

(5) **LAND TO BE CONVEYED IN FEE.**—To the extent that the United States determines that it is able to effectively maintain the McClellan-Kerr Navigation Way without retaining title to lands above the high water mark of the Arkansas River as of the date of enactment of this title, said lands, after being declared surplus, shall be conveyed in fee to the Indian Nation within whose boundary the land is located. The United States shall not be obligated to accept such property in trust.

(c) **AUTHORIZATION FOR SETTLEMENT APPROPRIATIONS.**—There is authorized to be appropriated an aggregate sum of \$40,000,000 as follows:

- (2) 37.5 percent to be deposited into the trust fund account established under section 606 for the Choctaw Nation.

GENERAL LEAVE

Mr. HANSEN. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include extraneous material on the bills and resolutions just passed.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Utah?

There was no objection.

(Mr. WATKINS of Oklahoma asked and was given permission to speak out of order.)

GRATITUDE AND THANKS

Mr. WATKINS of Oklahoma. Mr. Speaker, I would like to express my personal gratitude and thanks to the gentleman from Utah (Mr. HANSEN) for his tremendous years of service, 20 years, and for his great leadership on the Committee on Standards of Official Conduct as well as the Committee on Resources. I would like to also thank, and we would be remiss if we did not thank, the staff for the tremendous work they have done in trying to put things together so they would be workable and also so we could pass something.

So, I thank the chairman and thanks to all of the staff for all of their tremendous work and help. It has been wonderful being in this body. This is my last remarks as an official Member and I just want to thank all of my colleagues for allowing me to come and be with you and serve over these years.

(Mr. DAVIS of Virginia asked and was given permission to speak out of order.)

TRIBUTE TO MR. ARMEY

Mr. DAVIS of Virginia. Mr. Speaker, before we get to the majority leader being recognized, this is his final night on the job. I wanted to pay tribute to the gentleman from Texas (Mr. ARMEY) and his contribution to this House just in the short time I have been here.

First elected in 1984, an article in the Texas Observer called him one of the Texas 6-packs that year, 6 new Republican Members that had been elected and the consensus was these Members are never going to amount to anything,

if you read the article. But the gentleman from Texas (Mr. ARMEY) has made a tremendous difference in this House, with the crowning achievement I think just this week with the Homeland Security legislation which he worked so long on, arbitrating between committees of jurisdiction, negotiating with the Senate, moving a bill that was considered dead just a week ago, bringing life to it, and bringing it to a very successful conclusion here in the House and sending it to the Senate.

Mr. Speaker, I congratulate the gentleman for this most important piece of legislation that I think is going to change the course of this Nation for a long time.

He has also been active in passing the Government Performance Results Act. This is an act that not every Member understands, but it tries to hold Federal agencies accountable for performance and results, and with this administration we are starting to see some of those results come in as we exercise legislative oversight over the executive branch.

We think of BRACs and the base closing commissions, something that this body has struggled with for a generation and could not work out because of the political wheeling and dealing it went through. This has saved billions of dollars in the defense budget. We have been able to transfer those dollars into other defense items and into domestic purposes, and this was Mr. ARMEY's idea, though not even on the committee of jurisdiction, that he brought forward to this body, because a good idea will win any day. You do not have to be strong and powerful and in a leadership position to get it through. This was done early in his career.

The Contract With America, something that I signed as a candidate in 1984, was the brainchild of Mr. ARMEY, something that came through this body. Much of that legislation became law, everything from welfare reform, unfunded mandates and a number of areas, balancing the budget, as a part of that Contract With America. DICK ARMEY was the author of that and the leader of that as we moved it through the 104th Congress.

The gentleman from Texas (Mr. ARMEY) is a native of Cando, North Dakota with a doctorate in economics. Many of us do not realize that he ran in and completed six marathons. I also want to congratulate him for just over the last few weeks having lost over 40 pounds, getting down to that marathon weight again. Maybe perhaps we will see him do some others.

DICK, I wish you the best in your retirement. You have made a lasting contribution to this country. You have set a high standard for your success here, and Mr. Majority Leader, it has been my great privilege to serve with you.

Mr. NUSSLE. Mr. Speaker, will the gentleman yield?

Mr. DAVIS of Virginia. I yield to the gentleman from Iowa.

Mr. NUSSLE. Mr. Speaker, I would like to add my words as well to a brief

tribute to our majority leader. We would not be a majority if it was not for DICK ARMEY. There are many people who know that. Unfortunately, there are too many people who do not know that. His work and his labor oftentimes is done behind the scenes and oftentimes I think many people, many people are allowed to take the credit because of his work. I think it was Ronald Reagan that said that if you are willing to share the credit, you can get anything done in Washington, or something like that, and DICK ARMEY has always been willing to share the credit, to allow somebody to move up, to be elevated, to get their work done, to facilitate a dream on their behalf. His famous phrase or his motto has always been "Freedom works," and it does work. America works because freedom works, and America is better off because of the freedom that DICK ARMEY has come to fight for in the Congress of the United States.

This is a terrible way to end at 2:30 in the morning, because there were so many things done at 2:30 in the afternoon to be proud of, but you can be proud of all of the things that you have done from the moment you came here to the moment that you depart, and I think probably the one thing that I will always know is that you will always be there as a friend, not only to me, but to all of us. That is what I will know the most and that is what I will remember the most, is your friendship and the pat on the back and sometimes the kick in the drawers, and we all need that from time to time. That is what friends are for. I hope that friendship will continue with all of us.

We wish you Godspeed and we also wish Susan and your family Godspeed, because we know there are great things ahead, because freedom does work and you will ensure that freedom continues to work in America, no matter what ventures you undertake. So Godspeed, friend. Thank you so much for your service. We love you.

H.R. 5716, to amend the Employee Retirement Income Security Act of 1974 and the Public Health Service Act to extend the mental health benefits parity provisions for an additional year.

H.R. 5716

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the “Mental Health Parity Reauthorization Act of 2002”.

SEC. 2. EXTENSION OF MENTAL HEALTH PROVISIONS.

(a) ERISA.—Section 712(f) of the Employee Retirement Income Security Act of 1974 (29 U.S.C. 1185a(f)) is amended by striking “December 31, 2002” and inserting “December 31, 2003”.

(b) PHSA.—Section 2705(f) of the Public Health Service Act (42 U.S.C. 300gg-5(f)) is amended by striking “December 31, 2002” and inserting “December 31, 2003”.

Mr. BOEHNER. Mr. Speaker, in 1996, Congress enacted the Mental Health Parity Act to prevent employers and health insurers from establishing annual and lifetime limits on mental health insurance coverage unless similar limits were also established for medical and surgical health coverage. These mental health parity benefits offered through the Employee Retirement Income Security Act (ERISA) were set to expire on December 31, 2002.

Today the House will take an important step to extend mental health parity benefits for another year. Over the past six years, the parity law has made significant improvements in mental health coverage. It did so by striking a good balance—providing important mental health benefits to patients without placing unworkable mandates on employers.

I committed last year to give the issue of mental health parity serious and substantial consideration at the Committee on Education and the Workforce. As part of that commitment, the Subcommittee on Employer-Employee Relations held the first House hearing on the issue of mental health parity on March 13, 2002. At this hearing, the Subcommittee heard testimony from both mental health advocates and employers concerning current federal mental health parity law, state laws that impact the issue, and the implications of expanding mental health parity for other employers and employees.

The Committee will continue to examine the issue of mental health parity in a balanced

manner that doesn't jeopardize workers' existing health care benefits of discourage employers from voluntarily providing quality benefits to their employees. It is important to remember that the number of uninsured Americans increased to 41.2 million last year, and health insurance costs are expected to rise by 15 percent this year. Congress should carefully consider the implications of any new or expanded federal regulations before enacting proposals that increase health care costs and force more Americans to lose their health insurance.

However, today's vote on H.R. 5716 is a vote to preserve the mental health benefits that workers currently enjoy. I hope you will join me in support of this bill.

H.R. 5604, to designate the Federal building and United States courthouse located at 46 East Ohio Street in Indianapolis, Indiana, as the "Birch Bayh Federal Building and United States Courthouse".

H.R. 5604

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. DESIGNATION.

The Federal building and United States courthouse located at 46 East Ohio Street in Indianapolis, Indiana, shall be known and designated as the "Birch Bayh Federal Building and United States Courthouse".

SEC. 2. REFERENCES.

Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building and United States courthouse referred to in section 1 shall be deemed to be a reference to the "Birch Bayh Federal Building and United States Courthouse".

Mr. OBERSTAR. Mr. Speaker, H.R. 5604 is a bill to designate the federal building located at 46 East Ohio St., Indianapolis, Indiana, as the "Birch Bayh Federal Building and United States Courthouse." This bill is sponsored by the entire Indiana delegation in the U.S. House of Representatives.

Birch Bayh was born on January 22, 1928, in Terre Haute, Indiana. He attended public schools in Indiana and joined the army in

1946. In 1954, he was elected to the Indiana House of Representatives where he served for eight years, including terms as Minority Leader and later, as Speaker of the House.

In 1962, when he was only 34 years old, Birch Bayh was elected to the first of three terms in the U.S. Senate. Senator Bayh quickly became a leader on issues of education, equal rights, and Constitutional law. As Chairman of the Constitutional Subcommittee of the Senate Judiciary Committee, Senator Bayh authored two amendments to the Constitution—the 25th Amendment setting forth the order of Presidential succession, and the 26th Amendment lowering the voting age from 21 to 18 years of age. During his time in the Senate, Senator Bayh also served on the Appropriations Committee and the Select Committee on Intelligence.

Senator Bayh was a champion of equal rights for women and minorities. He authored Title IX to the Higher Education Act, which mandates equal opportunities for women students and faculty in our Nation's schools. Further, Senator Bayh was a strong supporter of two pieces of landmark legislation—the 1964 Civil Rights Act and the 1965 Voting Rights Act. He was also instrumental in enacting the Juvenile Justice Act, which mandates the separation of juvenile offenders from adult prison populations.

Since leaving the Senate in the 1980s, Senator Bayh has continued his commitment to public service. He serves as a member of the William Fulbright Foreign Scholarship Board, National Institute Against Prejudice and Violence, and the University of Virginia's Miller Center Commission on Presidential Disability and the 25th Amendment.

It is entirely fitting and proper to honor the contributions of Senator Birch Bayh with this designation and I urge my colleagues to support H.R. 5604.

Mr. OBERSTAR. Mr. Speaker, H.R. 5611 is a bill to designate the federal building located at 324 Twenty-Fifth Street in Ogden, Utah as the James V. Hansen Federal Building.

Congressman HANSEN began his career in public service in local government in Farmington, Utah. He later served four terms in the Utah House of Representatives, where he served as Speaker of the House in his final term. In 1980, he was elected to the United

States Congress from Utah's First Congressional District, and has served 11 consecutive terms.

During his service in the House, Congressman HANSEN has been an active member of the Armed Services Committee, Chairman of the Ethics Committee, and most recently, Chairman of the Resources Committee. He has fought for legislation to revise the private mortgage insurance program to benefit American homeowners, and has been instrumental in the development of environmental and natural resources policy.

After 22 years of service in the U.S. House of Representatives, Congressman HANSEN has decided to retire. It is both fitting and proper that on this, the last day of the Session for this Body in the 107th Congress, we honor the career of Congressman HANSEN with this designation.

Congress makes the following declarations:

(1) The United States and the international community should support efforts that advance the development of democratic civil authorities and institutions in Afghanistan and the establishment of a new broad-based, multi-ethnic, gender-sensitive, and fully representative government in Afghanistan.

(2) The United States, in particular, should provide its expertise to meet immediate humanitarian and refugee needs, fight the production and flow of illicit narcotics, and aid in the reconstruction of Afghanistan's agriculture, health care, civil service, financial, and educational systems.

(3) By promoting peace and security in Afghanistan and preventing a return to conflict, the United States and the international community can help ensure that Afghanistan does not again become a source for international terrorism.

(4) The United States should support the objectives agreed to on December 5, 2001, in Bonn, Germany, regarding the provisional arrangement for Afghanistan as it moves toward the establishment of permanent institutions and, in particular, should work intensively toward ensuring the future neutrality of Afghanistan, establishing the principle that neighboring countries and other countries in the region do not threaten or interfere in one another's sovereignty, territorial integrity, or political independence, including supporting diplomatic initiatives to support this goal.

(5) The special emergency situation in Afghanistan, which from the perspective of the

American people combines security, humanitarian, political, law enforcement, and development imperatives, requires that the President should receive maximum flexibility in designing, coordinating, and administering efforts with respect to assistance for Afghanistan and that a temporary special program of such assistance should be established for this purpose.

(6) To foster stability and democratization and to effectively eliminate the causes of terrorism, the United States and the international community should also support efforts that advance the development of democratic civil authorities and institutions in the broader Central Asia region.

SEC. 102. PURPOSES OF ASSISTANCE.

The purposes of assistance authorized by this title are—

(1) to help assure the security of the United States and the world by reducing or eliminating the likelihood of violence against United States or allied forces in Afghanistan and to reduce the chance that Afghanistan will again be a source of international terrorism;

(2) to support the continued efforts of the United States and the international community to address the humanitarian crisis in Afghanistan and among Afghan refugees in neighboring countries;

(3) to fight the production and flow of illicit narcotics, to control the flow of precursor chemicals used in the production of heroin, and to enhance and bolster the capacities of Afghan governmental authorities to control poppy cultivation and related activities;

(4) to help achieve a broad-based, multi-ethnic, gender-sensitive, and fully representative government in Afghanistan that is freely chosen by the people of Afghanistan and that respects the human rights of all Afghans, particularly women, including authorizing assistance for the rehabilitation and reconstruction of Afghanistan with a particular emphasis on meeting the educational, health, and sustenance needs of women and children to better enable their full participation in Afghan society;

(5) to support the Government of Afghanistan in its development of the capacity to facilitate, organize, develop, and implement projects and activities that meet the needs of the Afghan people;

(6) to foster the participation of civil society in the establishment of the new Afghan government in order to achieve a broad-based, multiethnic, gender-sensitive, fully representative government freely chosen by the Afghan people, without prejudice to any decisions which may be freely taken by the Afghan people about the precise form in which their government is to be organized in the future;

(7) to support the reconstruction of Afghanistan through, among other things, programs that create jobs, facilitate clearance of landmines, and rebuild the agriculture sector, the health care system, and the educational system of Afghanistan; and

(8) to include specific resources to the Ministry for Women's Affairs of Afghanistan to carry out its responsibilities for legal advocacy, education, vocational training, and women's health programs.

The following principles should guide the provision of assistance authorized by this title:

(1) TERRORISM AND NARCOTICS CONTROL.—Assistance should be designed to reduce the likelihood of harm to United States and other allied forces in Afghanistan and the region, the likelihood of additional acts of international terrorism emanating from Afghanistan, and the cultivation, production,

trafficking, and use of illicit narcotics in Afghanistan.

(2) **ROLE OF WOMEN.**—Assistance should increase the participation of women at the national, regional, and local levels in Afghanistan, wherever feasible, by enhancing the role of women in decisionmaking processes, as well as by providing support for programs that aim to expand economic and educational opportunities and health programs for women and educational and health programs for girls.

(3) **AFGHAN OWNERSHIP.**—Assistance should build upon Afghan traditions and practices. The strong tradition of community responsibility and self-reliance in Afghanistan should be built upon to increase the capacity of the Afghan people and institutions to participate in the reconstruction of Afghanistan.

(5) **COORDINATION.**—Assistance should be part of a larger donor effort for Afghanistan. The magnitude of the devastation—natural and man-made—to institutions and infrastructure make it imperative that there be close coordination and collaboration among donors. TITLE II—MILITARY ASSISTANCE FOR AFGHANISTAN AND CERTAIN OTHER FOREIGN COUNTRIES AND INTERNATIONAL ORGANIZATIONS

SEC. 201. SUPPORT FOR SECURITY DURING TRANSITION IN AFGHANISTAN.

It is the sense of Congress that, during the transition to a broad-based, multi-ethnic, gender-sensitive, fully representative government in Afghanistan, the United States should support—

(2) EXCEPTION.—No country the government of which has been determined by the

Secretary of State to have repeatedly provided support for acts of international terrorism under section 620A of the Foreign Assistance Act of 1961 (22 U.S.C. 2371), section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), or section 40(d) of the Arms Export Control Act (22 U.S.C. 2780(d)) shall be eligible to receive assistance under section 202.

SEC. 206. PROMOTING SECURE DELIVERY OF HUMANITARIAN AND OTHER ASSISTANCE IN AFGHANISTAN.

(a) FINDINGS.—Congress finds the following:

(1) The President has declared his view that the United States should provide significant assistance to Afghanistan so that it never again becomes a haven for terrorism.

(2) The delivery of humanitarian and reconstruction assistance from the international community is necessary for the safe return of refugees and is critical to the future stability of Afghanistan.

(3) Enhanced stability in Afghanistan through an improved security environment is critical to the fostering of the Afghan Interim Authority and the traditional Afghan assembly or “Loya Jirga” process, which is intended to lead to a permanent national government in Afghanistan, and also is essential for the participation of women in Afghan society.

(4) Incidents of violence between armed factions and local and regional commanders, and serious abuses of human rights, including attacks on women and ethnic minorities

throughout Afghanistan, create an insecure, volatile, and unsafe environment in parts of Afghanistan, displacing thousands of Afghan civilians from their local communities.

(5) The violence and lawlessness may jeopardize the “Loya Jirga” process, undermine efforts to build a strong central government, severely impede reconstruction and the delivery of humanitarian assistance, and increase the likelihood that parts of Afghanistan will once again become safe havens for al-Qaida, Taliban forces, and drug traffickers.

(6) The lack of security and lawlessness may also perpetuate the need for United States Armed Forces in Afghanistan and threaten the ability of the United States to meet its military objectives.

(7) The International Security Assistance Force in Afghanistan, currently led by Turkey, and composed of forces from other willing countries without the participation of United States Armed Forces, is deployed only in Kabul and currently does not have the mandate or the capacity to provide security to other parts of Afghanistan.

(8) Due to the ongoing military campaign in Afghanistan, the United States does not contribute troops to the International Security Assistance Force but has provided support to other countries that are doing so.

(9) The United States is providing political, financial, training, and other assistance to the Afghan Interim Authority as it begins to build a national army and police force to help provide security throughout Afghanistan, but this effort is not meeting the immediate security needs of Afghanistan.

(10) Because of these immediate security needs, the Afghan Interim Authority, its Chairman, Hamid Karzai, and many Afghan regional leaders have called for the International Security Assistance Force, which has successfully brought stability to Kabul, to be expanded and deployed throughout the country, and this request has been strongly supported by a wide range of international humanitarian organizations, including the International Committee of the Red Cross, Catholic Relief Services, and Refugees International.

(11)(A) On January 29, 2002, the President stated that “[w]e will help the new Afghan government provide the security that is the foundation of peace”.

(B) On March 25, 2002, the Secretary of Defense stated, with respect to the reconstruction of Afghanistan, that “the first thing . . . you need for anything else to happen, for hospitals to happen, for roads to happen, for refugees to come back, for people to be fed and humanitarian workers to move on the country . . . [y]ou’ve got to have security”.

(b) STATEMENT OF POLICY.—It should be the policy of the United States to support measures to help meet the immediate security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government.

(c) PREPARATION OF STRATEGY.—Not later than 45 days after the date of the enactment of this Act, and every six months thereafter, the President shall transmit to the Committee on International Relations and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate a strategy for meeting the immediate and long-term security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a func-

tioning, representative Afghan national government.

The authority of this title shall expire after December 31, 2004.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Senator Paul Wellstone was a tireless advocate for the people of Minnesota, particularly for new immigrants and the economically disadvantaged.

(2) Paul and Sheila Wellstone loved St. Paul, Minnesota, and often walked the neighborhoods of St. Paul to better understand the needs of the people.

(3) Neighborhood House was founded in the late 1800’s in St. Paul, Minnesota, by the women of Mount Zion Temple as a settlement house to help newly arrived Eastern European Jewish immigrants establish a new life and thrive in their new community.

(4) Paul and Sheila Wellstone were very committed to Neighborhood House and its mission to improve the lives of its residents.

(5) When Senator Wellstone became aware that the Neighborhood House Community Center was no longer adequate to meet the needs of the St. Paul community, he suggested that Neighborhood House request Federal funding to construct a new facility.

(6) As an honor to Paul and Sheila Wellstone, a Federal grant shall be awarded to Neighborhood House to be used for the design and construction of a new community center in St. Paul, Minnesota, to be known as “The Paul and Sheila Wellstone Center for Community Building”.

SEC. 3. CONSTRUCTION GRANT.

(a) GRANT AUTHORIZED.—The Secretary of Housing and Urban Development shall award a grant to Neighborhood House of St. Paul, Minnesota, to finance the construction of a new community center in St. Paul, Minnesota, to be known as “The Paul and Sheila Wellstone Center for Community Building”.

(b) MAXIMUM AMOUNT.—The grant awarded under this section shall be \$10,000,000.

(c) USE OF FUNDS.—Funds awarded under this section shall only be used for the design and construction of the Paul and Sheila Wellstone Center for Community Building.

(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated \$10,000,000 for fiscal year 2003, which shall remain available until expended, to carry out this Act.

Ms. McCOLLUM. Mr. Speaker, I rise today in support of legislation (S. 3156) to create a

living memorial for Paul and Sheila Wellstone in my home district of St. Paul. I am pleased that both the House and Senate were able to agree on such a fitting tribute.

Senator Wellstone was my colleague, but Paul and Sheila were also my constituents and my friends. Over the years, Paul and I have walked the streets door knocking and listening to the concerns of Minnesotans, working together to address the challenges of our communities and neighborhoods. Paul and Sheila’s enthusiasm for public service and their commitment to Minnesota were unmatched.

Today, I stand with the Minnesota Congressional delegation to pay tribute to Paul and Sheila with a true living memorial to their lives of serving the people of Minnesota.

This legislation will authorize the design and construction of a new community center in St. Paul at the Neighborhood House. The Neighborhood House has played a long-standing role in building community values among diverse peoples. Since the 19th century, the Neighborhood House has supported ethnic and cultural groups through times of transition or need so that they go beyond mere self-sufficiency, develop critical workforce skills, and become active members of our democratic process. From Hmong immigrants to Hispanic women facing domestic violence, the Neighborhood House provides all those who come an opportunity to improve the quality of their lives.

The new center to be named after Paul and Sheila Wellstone will host youth and family programs, immigrant education programs such as English classes, employment services and workforce development. It will provide a forum for new citizens to learn and integrate themselves into their new society and will strengthen Minnesota’s richly diverse community.

Paul and Sheila Wellstone were advocates for people from all walks of life. They were open to all Minnesotans. In the Senate, Paul spoke for those who had no voice and he worked hard to empower those who needed help the most. This new center embodies the ideals and principles that Paul and Sheila lived every day.

I thank all my colleagues in Congress for honoring Paul and Sheila Wellstone in a way that will continue their work and improve the lives of Minnesotans for years to come.

H. Res. 604, expressing the sense of the House of Representatives that the United States should adopt a global strategy to respond to the current coffee crisis, and for other purposes.

H. RES. 604

Whereas since 1997 the price of coffee has declined nearly 70 percent on the world market and has recently reached its lowest level in a century;

Whereas the collapse of coffee prices has resulted in a widespread humanitarian crisis for 25,000,000 coffee growers and for more than 50 developing countries where coffee is a critical source of rural employment and foreign exchange earnings;

Whereas, according to a recent World Bank report, 600,000 permanent and temporary coffee workers in Central America have been left unemployed in the last two years;

Whereas the World Bank has referred to the coffee crisis as “the silent Mitch”, equating the impact of record-low coffee prices

upon Central American countries with the damage done to such countries by Hurricane Mitch in 1998;

Whereas 6 of 14 immigrants who died in the Arizona desert in May 2001 were small coffee farmers from Veracruz, Mexico;

Whereas The Washington Post, The New York Times, and The Wall Street Journal report that cultivation of illicit crops such as coca and opium poppy is increasing in traditional coffee-growing countries, such as Colombia and Peru, which have been adversely affected by low international coffee prices;

Whereas the economies of some of the poorest countries in the world, particularly those in Africa, are highly dependent on trade in coffee;

Whereas coffee accounts for approximately 80 percent of export revenues for Burundi, 54 percent of export revenues for Ethiopia, 34 percent of export revenues for Uganda, and 31 percent of export revenues for Rwanda;

Whereas, according to the Oxfam International Report “Mugged: Poverty in your Coffee Cup”, in the Dak Lak province of Vietnam, one of the lowest-cost coffee producers in the world, the price farmers receive for their product covers as little as 60 percent of their costs of production and the income derived by the worst-off farmers in that region is categorized as “pre-starvation” income;

Whereas on February 1, 2002, the International Coffee Organization (ICO) passed Resolution 407;

Whereas Resolution 407 calls for exporting member countries to observe minimum standards for exportable coffee and provide for the issuance of ICO certificates of origin according to those standards;

Whereas ICO Resolution 407 calls on importing member countries to “make their best endeavors to support the objectives of the programme”;

Whereas both the Specialty Coffee Association of America (SCAA) and the National Coffee Association (NCA) support ICO Resolution 407 and have publicly advocated for the United States to rejoin the International Coffee Organization;

Whereas on July 24, 2002, the Subcommittee on the Western Hemisphere of the Committee on International Relations of the House of Representatives held a hearing on the coffee crisis in the Western Hemisphere;

Whereas the United States Agency for International Development (USAID) has already established coffee sector assistance programs for Colombia, Bolivia, the Dominican Republic, East Timor, El Salvador, Ethiopia, Guatemala, Haiti, Honduras, Nicaragua, Panama, Peru, Rwanda, Tanzania, and Uganda; and

Whereas the report accompanying the Foreign Operations, Export Financing, and Related Programs Appropriations Bill, 2003 (House Report 107-663), highlights the coffee price crisis as a global issue and “urges USAID to focus its rural development and relief programs on regions severely affected by the coffee crisis, especially in Colombia”:

Now, therefore, be it

Resolved, That—

(1) it is the sense of the House of Representatives that—

(A) the United States should adopt a global strategy to respond to the coffee crisis with coordinated activities in Latin America, Africa, and Asia to address the short-term humanitarian needs and long-term rural development needs of countries adversely affected by the collapse of coffee prices; and

(B) the President should explore measures to support and complement multilateral efforts to respond to the global coffee crisis; and

(2) the House of Representatives urges private sector coffee buyers and roasters to

work with the United States Government to find a solution to the crisis which is economically, socially, and environmentally sustainable for all interested parties, and that will address the fundamental problem of oversupply in the world coffee market.

Whereas George Rogers Clark boldly and courageously led fewer than 200 soldiers to recapture the British Fort Sackville at Vincennes, Indiana, in the winter of 1778–1779;

Whereas the soldiers marched across Illinois through flooded and frozen territory and reached Vincennes on the evening of February 23, 1779;

Whereas upon surrounding Fort Sackville, George Rogers Clark was able to give the impression of having a much larger army convincing the British that they were no match for Clark's forces;

Whereas on the morning of February 25, 1779, the British Lieutenant Governor Henry Hamilton surrendered Fort Sackville to George Rogers Clark and his soldiers;

Whereas this victory foiled British attempts to drive the Americans out of the region west of the Appalachians and pulled vital resources from the eastern theater during the American Revolution;

Whereas George Rogers Clark showed great leadership by commanding an expedition northward in 1782 to control unrest caused by British forces in the region;

Whereas George Rogers Clark continued to offer leadership after the Revolutionary War by serving as an advisor to his community; and

Whereas the 250th anniversary of George Rogers Clark's birth is November 19, 2002: Now, therefore, be it

H. RES. 582

Whereas the prevalence of runaway and homeless situations among youth is staggering, with studies suggesting that between 1,300,000 and 2,800,000 youth live on the streets of the United States each year;

Whereas running away from home is widespread, with 1 out of every 7 youth in the United States running away from home before the age of 18;

Whereas runaway youth most often are youth who have been expelled from their

homes by their families, physically, sexually, and emotionally abused at home, discharged by State custodial systems without adequate transition plans, separated from their parents through death and divorce, too poor to secure their own basic needs, and ineligible or unable to access adequate medical or mental health resources;

Whereas effective programs supporting runaway youth and assisting youth and their families in remaining at home succeed because of partnerships created among families, community-based human service agencies, law enforcement agencies, schools, faith-based organizations, and businesses;

Whereas preventing youth from running away from home and supporting youth in high-risk situations is a family, community, and national priority;

Whereas the future well-being of the Nation is dependent on the opportunities provided for youth and families to acquire the knowledge, skills, and abilities necessary for youth to develop into safe, healthy, and productive adults;

Whereas the National Network for Youth and its members advocate on behalf of runaway and homeless youth and provide an array of community-based supports that address their critical needs;

Whereas the National Runaway Switchboard provides crisis intervention and referrals to reconnect runaway youth to their families and to link youth to local resources that provide positive alternatives to running away from home; and

Whereas the National Network for Youth and National Runaway Switchboard are co-sponsoring National Runaway Prevention Month, during the month of November, to increase public awareness of the life circumstances of youth in high-risk situations and the need for safe, healthy, and productive alternatives, resources, and supports for youth, families, and communities: Now, therefore, be it

H.R. 5504, to provide for the improvement of the safety of child restraints in passenger motor vehicles, and for other purposes.

SECTION 1. SHORT TITLE.

This Act may be cited as "Anton's Law".

SEC. 2. FINDINGS.

Congress finds the following:

(1) It is the policy of the Department of Transportation that all child occupants of motor vehicles, regardless of seating position, be appropriately restrained in order to reduce the incidence of injuries and fatalities resulting from motor vehicle crashes on the streets, roads, and highways.

(2) Research has shown that very few children between the ages of 4 to 8 years old are in the appropriate restraint for their age when riding in passenger motor vehicles.

(3) Children who have outgrown their child safety seats should ride in a belt-positioning

booster seat until an adult seat belt fits properly.

(4) Children who were properly restrained when riding in passenger motor vehicles suffered less severe injuries from accidents than children not properly restrained.

SEC. 3. IMPROVEMENT OF SAFETY OF CHILD RESTRAINTS IN PASSENGER MOTOR VEHICLES.

(a) *IN GENERAL.*—The Secretary of Transportation (hereafter referred to as the "Secretary") shall initiate a rulemaking proceeding to establish performance requirements for child restraints, including booster seats, for the restraint of children weighing more than 50 pounds.

(b) *ELEMENTS FOR CONSIDERATION.*—In the rulemaking proceeding required by subsection (a), the Secretary shall—

(1) consider whether to include injury performance criteria for child restraints, including booster seats and other products for use in passenger motor vehicles for the restraint of children weighing more than 50 pounds, under the requirements established in the rulemaking proceeding;

(2) consider whether to establish performance requirements for seat belt fit when used with booster seats and other belt guidance devices;

(3) consider whether to address situations where children weighing more than 50 pounds only have access to seating positions with lap belts, such as allowing tethered child restraints for such children; and

(4) review the definition of the term "booster seat" in Federal motor vehicle safety standard No. 213 under section 571.213 of title 49, Code of Federal Regulation, to determine if it is sufficiently comprehensive.

(c) *COMPLETION.*—The Secretary shall complete the rulemaking proceeding required by subsection (a) not later than 30 months after the date of the enactment of this Act.

SEC. 4. DEVELOPMENT OF ANTHROPOMORPHIC TEST DEVICE SIMULATING A 10-YEAR OLD CHILD.

(b) *ADOPTION BY RULEMAKING.*—Within 1 year following the development and evaluation carried out under subsection (a), the Secretary shall initiate a rulemaking proceeding for the adoption of an anthropomorphic test device as developed under subsection (a).

SEC. 5. REQUIREMENTS FOR INSTALLATION OF LAP AND SHOULDER BELTS.

(a) *IN GENERAL.*—Not later than 24 months after the date of the enactment of this Act, the Secretary shall complete a rulemaking proceeding to amend Federal motor vehicle safety standard No. 208 under section 571.208 of title 49, Code of Federal Regulations, relating to occupant crash protection, in order to—

(1) require a lap and shoulder belt assembly for each rear designated seating position in a passenger motor vehicle with a gross vehicle weight rating of 10,000 pounds or less, except that if the Secretary determines that installation of a lap and shoulder belt assembly is not practicable for a particular designated seating position in a particular type of passenger motor vehicle, the Secretary may exclude the designated seating position from the requirement; and

(2) apply that requirement to passenger motor vehicles in phases in accordance with subsection (b).

(b) *IMPLEMENTATION SCHEDULE.*—The requirement prescribed under subsection (a)(1) shall be implemented in phases on a production year basis beginning with the production year that begins not later than 12 months after the end of the year in which the regulations are prescribed under subsection (a). The final rule shall apply

to all passenger motor vehicles with a gross vehicle weight rating of 10,000 pounds or less that are manufactured in the third production year of the implementation phase-in under the schedule.

SEC. 6. EVALUATION OF INTEGRATED CHILD SAFETY SYSTEMS.

(a) *EVALUATION.*—Not later than 180 days after the date of enactment of this Act, the Secretary shall initiate an evaluation of integrated or built-in child restraints and booster seats. The evaluation should include—

(1) the safety of the child restraint and correctness of fit for the child;

(2) the availability of testing data on the system and vehicle in which the child restraint will be used;

(3) the compatibility of the child restraint with different makes and models;

(4) the cost-effectiveness of mass production of the child restraint for consumers;

(5) the ease of use and relative availability of the child restraint to children riding in motor vehicles; and

(6) the benefits of built-in seats for improving compliance with State child occupant restraint laws.

(1) the evaluation required by Section 6 of this Act; and

(2) research of the nature and causes of injury to children involved in motor vehicle crashes.

(b) *LIMITATION.*—Funds appropriated under subsection (a) shall not be available for the general administrative expenses of the Secretary.

Mr. TAUZIN. Mr. Speaker, today we are considering an important and needed piece of safety legislation, H.R. 5504, the "Child Safety Enhancement Act of 2002." This bill, introduced by Rep. SHIMKUS, aims to protect the "forgotten child"—those children who are too large for the child safety seat, but too small for adult seat belts. Make no mistake about it, this bill will save the lives of innocent children who are too often the victims of automobile accidents.

This bill will enhance child passenger safety by requiring the National Highway Traffic Safety Administration (NHTSA) to draft a final rule establishing performance requirements for child restraints, including booster seats, for children weighing more than 50 pounds when riding in passenger vehicles, and the installation of three-point lap and shoulder belts in rear seats.

The legislation mandates that NHTSA initiate a rulemaking that will require the installation of the three-point, lap and shoulder belt

assembly in certain rear seats within one year after enactment. This installation requirement must be phased in over three production years. NHTSA may, in accordance with past practice, allow for the earning of credits for early compliance or compliance beyond the mandated phase-in, allowing manufacturers to utilize credits in future model years. This section is intended to maximize occupant safety and it should not be construed to promote or inhibit liability. This legislation does not change the law on liability, and it is not intended to be a sword or a shield in litigation.

Again, I thank Mr. SHIMKUS for shepherding this good bill through the Energy and Commerce Committee, and I strongly support its passage.

PASSED, AS AMENDED BY THE COMMITTEE
AMENDMENT AS FURTHER AMENDED

(e) GRANT REQUIREMENTS.—A grant under this Act shall be subject to all the terms and conditions that a grant is subject to under section 3038(f) of the Transportation Equity Act for the 21st Century (49 U.S.C. 5310 note; 112 Stat. 393).

SEC. 3. PLAN REQUIREMENT.

(a) IN GENERAL.—The Secretary may not make a grant under this Act to a private operator of over-the-road buses until the operator has first submitted to the Secretary—

(1) a plan for making security improvements described in section 2 and the Secretary has approved the plan; and

(2) such additional information as the Secretary may require to ensure accountability for the obligation and expenditure of amounts made available to the operator under the grant.

(b) COORDINATION.—To the extent that an application for a grant under this section proposes security improvements within a specific terminal owned and operated by an entity other than the applicant, the applicant shall demonstrate to the satisfaction of the Secretary that the applicant has coordinated the security improvements for the terminal with that entity.

SEC. 4. OVER-THE-ROAD BUS DEFINED.

In this Act, the term "over-the-road bus" means a bus characterized by an elevated passenger deck located over a baggage compartment.

SEC. 5. BUS SECURITY ASSESSMENT.

(a) IN GENERAL.—Not later than 180 days after the date of enactment of this Act, the Secretary of Transportation shall transmit to the Committee on Commerce, Science, and Transportation of the Senate and the Committee on Transportation and Infrastructure of the House of Representatives a preliminary report in accordance with the requirements of this section.

(b) CONTENTS OF PRELIMINARY REPORT.—The preliminary report shall include—

(1) an assessment of the over-the-road bus security grant program;

(2) an assessment of actions already taken to address identified security issues by both public and private entities and recommendations on whether additional safety and security enforcement actions are needed;

(3) an assessment of whether additional legislation is needed to provide for the security of Americans traveling on over-the-road buses;

(4) an assessment of the economic impact that security upgrades of buses and bus facilities may have on the over-the-road bus transportation industry and its employees;

(5) an assessment of ongoing research and the need for additional research on over-the-road bus security, including engine shut-off mechanisms, chemical and biological weapon detection technology, and the feasibility of compartmentalization of the driver; and

(6) an assessment of industry best practices to enhance security.

(c) CONSULTATION WITH INDUSTRY, LABOR, AND OTHER GROUPS.—In carrying out this section, the Secretary shall consult with over-the-road bus management and labor representatives, public safety and law enforcement officials, and the National Academy of Sciences.

SEC. 6. FUNDING.

There is authorized to be appropriated to the Secretary of Transportation to carry out this Act \$99,000,000 for fiscal year 2003. Such sums shall remain available until expended.

Mr. OBERSTAR. Mr. Speaker, I rise in strong support of the amendment in the nature of a substitute to H.R. 3429, the Max Cleland Over-the-Road Bus Security and Safety Act of 2002.

I am pleased that the House is moving forward with this important piece of transportation security legislation. Since reporting the bill in June, the Committee has worked aggressively to bring the bill to the Floor. Unfortunately, every Committee effort to advance the bill was blocked by the Republican Leadership. I am pleased, therefore, with the Leadership's recent change of heart, even at this late date, to allow the Committee to advance this important piece of legislation.

The bill has been worked out with our counterparts on the Commerce Committee in the Other Body and has the strong support of our side of the aisle. We expect both bodies will clear the bill for the President's signature.

Since the September 11 terrorist attacks, over-the-road bus drivers and passengers have been the targets of many serious assaults, including two assaults killing a total of nine passengers and another assault injuring 33 passengers. As recently as September 30, 2002, a bus driver was attacked with a knife while transporting 49 passengers on a Greyhound bus in California. As a result of the attack, the bus went off the road and ended up on its side. Although the driver survived, two of the 49 passengers died.

These violent incidents point to the immediate need to improve security measures for intercity buses and bus terminals. On August 2, 2002, the President signed into law the FY2002 Supplemental Appropriations Act (P.L. 107-206). The Act provided \$15 million for grants and contracts to enhance security for intercity bus operations. However, the Department of Transportation (DOT) has not released a single penny of these funds. In fact, DOT has not even established an application process by which entities can apply for these security funds.

The Administration's failure to make these funds available is inexcusable. The recent California attack was the fourth attack on an intercity bus driver in the past year. Any further delay in releasing these funds risks the lives of thousands of low-income Americans whose only mode of transportation may be travel by bus. The Administration must take immediate action to make these funds available.

Mr. Speaker, H.R. 3429, as amended, moves us in the right direction. It directs the Secretary of Transportation to establish a program for making grants to private operators of over-the-road buses for system-wide security improvements to their operations, including constructing and modifying terminals, garages, or over-the-road buses to assure their security; protecting the driver; training employees in recognizing security threats; hiring and training security officers; installing camera and video surveillance equipment; and establishing an emergency communications system linked to law enforcement and emergency personnel.

Since September 11, the intercity bus industry has spent millions on enhanced security measures. The funds provided by the bill will supplement measures already undertaken by the industry to increase the security of the bus system and restore the public's confidence in traveling by bus.

H.R. 3429, as amended, authorizes \$99 million in fiscal year 2003 to allow the Secretary to make grants to private bus operators for system-wide security improvements to their operations. The federal share of the cost of any grant is 90 percent.

I urge my colleagues to support the amendment in the nature of a substitute to H.R. 3429.

Mr. YOUNG of Alaska. The purposes of this bill are to establish a direct grant program to help improve the system-wide security of over-the-road bus operations, and to authorize the Secretary of Transportation to conduct a security assessment of over-the-road bus operations.

Over-the-road buses, or motorcoaches, operate in both commuter and intercity operations. The motorcoach industry, which includes regularly scheduled point-to-point service and chartered tour operations, carried more than 774 million passengers in the United States in 2000. According to the Bureau of Transportation Statistics, the intercity bus transportation industry serves 5000 locations nationwide, many of which are rural communities that might not have other modes of intercity transportation available to the public. Of the 4,000 bus companies operating in this country, 90 percent operate fewer than 25 buses.

There are worrisome precedents for security breaches on buses. For example, in the Middle East, terrorists have used buses to cause mass casualties in a number of crowded cities. In the United States, Greyhound drivers and passengers were the targets of at least 4 serious assaults last year, one killing 7 passengers and another injuring 33 passengers, and at least 3 other serious security breaches. No other major United States transportation mode had as many incidents of passenger attacks during that period. These incidents occurred in states throughout the country, including Tennessee, Arizona, Utah, Oklahoma, Pennsylvania, and Vermont.

In response to the incidents, bus companies have taken a number of steps to enhance se-

curity. These steps include: performing random screening of passengers and baggage at selected terminals; requiring ticket identification; providing cell phones to drivers as an interim emergency communications system; increasing security personnel in terminals; giving the driver the right to limit access to the first row of seats; and establishing information and communications systems to aid and coordinate with law enforcement.

In the 2002 Supplemental Appropriations Act for Further Recovery From and Response to Terrorist Attacks on the United States (P.L. 107-206), \$15 million was provided of bus security improvements intended to address the same type of security-related issues as identified in this bill. This appropriation represents the first installment of funds for over-the-road bus security and the Managers encourage the Secretary to move forward expeditiously to utilize these funds for their intended purpose.

Section-by-section Analysis

Section 1. Short title.

This Act may be cited as the "Max Cleland Over-the-Road Bus Security and Safety Act of 2002".

Section 2. Emergency over-the-road bus security assistance.

This section directs the Secretary of Transportation, acting through the Administrator for the Federal Motor Carrier Safety Administration, to establish a program for making grants to private operators of over-the-road buses for system-wide security improvements to their operations. Improvements eligible for grants include: constructing and modifying terminals, garages, facilities and over-the-road buses to assure their security; improvements to protect or isolate the driver; upgrading, purchasing or installing manifest or ticketing systems; hiring security officers; training employees; installing surveillance equipment; conducting employee background checks; establishing emergency communications systems; and implementing passenger screening programs. Operators may also receive grants for eligible projects providing reimbursement for extraordinary security-related costs incurred since September 11, 2001. In making grants, the Secretary is directed to give due consideration to operators of over-the-road buses that have already taken measures to enhance security since September 11, 2001.

This section also makes clear that grants under this bill will adhere to the existing requirements for over-the-road bus operators under section 3038(f) of the Transportation Equity Act for the 21st Century.

The federal share will be 90 percent of the cost of the improvement for which any grant is made.

Section 3. Plan requirement.

This section requires that the Secretary approve a plan for security improvements submitted by an over-the-road bus operator before a grant may be made. The plan submitted by the operator must comply with the uses described in Section 2 and include any additional information the Secretary deems necessary to ensure the accountability for amounts made available through the grant program.

This section also provides that an applicant for a grant for improvements at a terminal owned and operated by an entity other than the applicant must demonstrate to the Secretary that the improvements have been coordinated with the terminal's owner or operator.

Section 4. Over-the-road bus defined.

This section defines an over-the-road bus as a bus characterized by an elevated passenger deck located over a baggage compartment, consistent with the definition used in the Transportation Equity Act for the 21st Century (P.L. 105–178).

Section 5. Bus security assessment.

This section directs the Secretary to submit a preliminary report within 180 days of enactment to the Senate Committee on Commerce, Science and Transportation and the House Committee on Transportation and Infrastructure. The report will include assessments of: the grant program established by the bill; actions taken by public and private entities to address security issues and recommendations on whether additional actions; including legislation are needed; the economic impact of security upgrades on the over-the-road bus industry and its employees; ongoing and needed research on over-the-road bus security; and industry best practices to enhance security. In conducting the assessments, the Secretary is to consult with over-the-road bus management and labor representatives, public safety and law enforcement officials, and the National Academy of Sciences.

Section 6. Funding.

This section authorizes \$99 million for the grant program for fiscal year 2003 and provides that such sums shall remain available until expended.

Mr. YOUNG of Alaska. Mr. Speaker, I move to call up H.R. 3429, as amended, from the desk, and pass the bill by unanimous consent.

Mr. Speaker, the Max Cleland Over-the-Road Bus Security and Safety Act, H.R. 3429, will enhance the security of the nation's intercity bus network by directing the Secretary of Transportation to establish a grant program for security improvements to over-the-road operations.

The bipartisan legislation was introduced last December, and was marked up by the full Transportation and Infrastructure Committee on June 13, 2002. The amended bill before you reflects an agreement between the House Transportation and Infrastructure Committee and the Senate Commerce Committee, which reported a companion bill, S. 1739. The Senate bill was introduced and championed by Senator MAX CLELAND, and the bill has been named for him to commemorate his work on this legislation.

Since last year's terrorist attacks on New York and Washington, D.C., the Transportation Committee has re-examined the security of all modes of transportation. The intercity bus industry transports more than 750 million passengers a year, and is an important element of an intermodal national transportation system.

Unfortunately, recent terrorist bombings on foreign buses and bus stations, as well as attacks against bus drivers here in the U.S., demonstrate the need for strengthened bus security.

\$15 million has already been appropriated for improvements to bus security in the fiscal year 2002 emergency supplemental, and another \$15 million is pending for fiscal year 2003. It is imperative that we authorize this grant program now so the Secretary of Transportation will have direction from Congress on how these funds shall be spent.

H.R. 3429 authorizes a total of \$99 million for fiscal year 2003 from the general fund for

discretionary grants to private operators of intercity bus service for a number of security-related costs, including: constructing or modifying terminals, bus garages or other facilities to assure security; protecting or isolating the bus driver; upgrading, purchasing, or installing passenger ticketing systems; employee training; hiring security officers; installing cameras and video surveillance equipment on buses and in facilities; creating employee identification and background check programs; establishing emergency communications systems; and implementing passenger screening programs at terminals and on buses.

These grants can be made for new security improvements, or can be used to reimburse extraordinary security costs incurred in the wake of September 11, 2001.

There are number of changes from the House Committee-reported bill, which can be summarized as follows:

1. The Secretary is directed to establish the grant program through the Federal Motor Carrier Safety Administration, the regulatory agency that is responsible for over-the-road bus safety.

2. The total authorization period is one year, rather than three years, and the total amount authorized is \$99 million instead of \$200 million. This program will be reauthorized in the larger context of TEA 21 reauthorization next year.

3. A new section requested by the Senate is included that requires an assessment of the current status of security issues as they relate to the over-the-road bus industry. This report is due in six months, and will be helpful to the authorizing Committees as we work on TEA 21 reauthorization.

Mr. Speaker, thank you for allowing this bill to move through in these last days of the 107th Congress.

PASSED, AS AMENDED BY THE COMMITTEE

SEC. 2. FINDINGS AND PURPOSES.

(a) **FINDINGS.**—Congress finds the following:

(1) The use of computers and the Internet is rapidly transforming societal interactions and the relationships among citizens, private businesses, and the Government.

(2) The Federal Government has had uneven success in applying advances in information technology to enhance governmental functions and services, achieve more efficient performance, increase access to Government information, and increase citizen participation in Government.

(3) Most Internet-based services of the Federal Government are developed and presented separately, according to the jurisdictional boundaries of an individual department or agency, rather than being integrated cooperatively according to function or topic.

(4) Internet-based Government services involving interagency cooperation are especially difficult to develop and promote, in part because of a lack of sufficient funding mechanisms to support such interagency cooperation.

(5) Electronic Government has its impact through improved Government performance and outcomes within and across agencies.

(6) Electronic Government is a critical element in the management of Government, to be implemented as part of a management framework

that also addresses finance, procurement, human capital, and other challenges to improve the performance of Government.

(7) To take full advantage of the improved Government performance that can be achieved through the use of Internet-based technology requires strong leadership, better organization, improved interagency collaboration, and more focused oversight of agency compliance with statutes related to information resource management.

(b) **PURPOSES.**—The purposes of this Act are the following:

(1) To provide effective leadership of Federal Government efforts to develop and promote electronic Government services and processes by establishing an Administrator of a new Office of Electronic Government within the Office of Management and Budget.

(2) To promote use of the Internet and other information technologies to provide increased opportunities for citizen participation in Government.

(3) To promote interagency collaboration in providing electronic Government services, where this collaboration would improve the service to citizens by integrating related functions, and in the use of internal electronic Government processes, where this collaboration would improve the efficiency and effectiveness of the processes.

(4) To improve the ability of the Government to achieve agency missions and program performance goals.

(5) To promote the use of the Internet and emerging technologies within and across Government agencies to provide citizen-centric Government information and services.

(6) To reduce costs and burdens for businesses and other Government entities.

(7) To promote better informed decisionmaking by policy makers.

(8) To promote access to high quality Government information and services across multiple channels.

(9) To make the Federal Government more transparent and accountable.

(10) To transform agency operations by utilizing, where appropriate, best practices from public and private sector organizations.

(11) To provide enhanced access to Government information and services in a manner consistent with laws regarding protection of personal privacy, national security, records retention, access for persons with disabilities, and other relevant laws.

(a) FINDINGS.—Congress finds the following:

(1) Individuals, businesses, and other organizations have varying degrees of legal protection when providing information to the Federal Government for strictly statistical purposes.

(2) Pledges of confidentiality by the Federal Government provide assurances to the public that information about individuals or organizations or provided by individuals or organizations for exclusively statistical purposes will be held in confidence and will not be used against such individuals or organizations in any Federal Government action.

(3) Protecting the confidentiality interests of individuals or organizations who provide infor-

mation for Federal statistical programs serves both the interests of the public and the needs of society.

(4) Declining trust of the public in the protection of information provided to the Federal Government adversely affects both the accuracy and completeness of statistical analyses.

(5) Ensuring that information provided for statistical purposes receives protection is essential in continuing public cooperation in statistical programs.

(b) PURPOSES.—The purposes of this subtitle are the following:

(1) To ensure that information supplied by individuals or organizations to an agency for statistical purposes under a pledge of confidentiality is used exclusively for statistical purposes.

(2) To ensure that individuals or organizations who supply information to the Federal Government for statistical purposes will neither have that information disclosed in identifiable form to anyone not authorized by this title nor have that information used for any purpose other than a statistical purpose.

(3) To safeguard the confidentiality of individually identifiable information acquired under a pledge of confidentiality for statistical purposes by controlling access to, and uses made of, such information.

SEC. 512. LIMITATIONS ON USE AND DISCLOSURE OF DATA AND INFORMATION.

(a) USE OF STATISTICAL DATA OR INFORMATION.—Data or information acquired by an agency under a pledge of confidentiality and for exclusively statistical purposes shall be used by officers, employees, or agents of the agency exclusively for statistical purposes.

(b) DISCLOSURE OF STATISTICAL DATA OR INFORMATION.—

(1) Data or information acquired by an agency under a pledge of confidentiality for exclusively statistical purposes shall not be disclosed by an agency in identifiable form, for any use other than an exclusively statistical purpose, except with the informed consent of the respondent.

(2) A disclosure pursuant to paragraph (1) is authorized only when the head of the agency approves such disclosure and the disclosure is not prohibited by any other law.

(3) This section does not restrict or diminish any confidentiality protections in law that otherwise apply to data or information acquired by an agency under a pledge of confidentiality for exclusively statistical purposes.

(c) RULE FOR USE OF DATA OR INFORMATION FOR NONSTATISTICAL PURPOSES.—A statistical agency or unit shall clearly distinguish any data or information it collects for nonstatistical purposes (as authorized by law) by a rule that provides that the respondent supplying the data or information is fully informed, before the data or information is collected, that the data or information could be used for nonstatistical purposes.

(d) DESIGNATION OF AGENTS.—A statistical agency or unit may designate agents, by contract or by entering into a special agreement containing the provisions required by section 502, who may perform exclusively statistical activities, subject to the limitations and penalties described in this title.

SEC. 513. FINES AND PENALTIES.

Whoever, being an officer, employee, or agent of an agency acquiring information for exclusively statistical purposes, having taken and subscribed the oath of office, or having sworn to observe the limitations imposed by section 512, comes into possession of such information by reason of his or her being an officer, employee, or agent and, knowing that the disclosure of the specific information is prohibited under the provisions of this title, willfully discloses the information in any manner to a person or agency not entitled to receive it, shall be guilty of a class E felony and imprisoned for not more than 5 years, or fined not more than \$250,000, or both.

Subtitle B—Statistical Efficiency**SEC. 521. FINDINGS AND PURPOSES.**

(a) **FINDINGS.**—Congress finds the following:

(1) Federal statistics are an important source of information for public and private decision-makers such as policymakers, consumers, businesses, investors, and workers.

(2) Federal statistical agencies should continuously seek to improve their efficiency. Statutory constraints limit the ability of these agencies to share data and thus to achieve higher efficiency for Federal statistical programs.

(3) The quality of Federal statistics depends on the willingness of businesses to respond to statistical surveys. Reducing reporting burdens will increase response rates, and therefore lead to more accurate characterizations of the economy.

(4) Enhanced sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics for exclusively statistical purposes will improve their ability to track more accurately the large and rapidly changing nature of United States business. In particular, the statistical agencies will be able to better ensure that businesses are consistently classified in appropriate industries, resolve data anomalies, produce statistical samples that are consistently adjusted for the entry and exit of new businesses in a timely manner, and correct faulty reporting errors quickly and efficiently.

(5) Congress enacted the International Investment and Trade in Services Act of 1990 that allowed the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics to share data on foreign-owned companies. The Act not only expanded detailed industry coverage from 135 industries to over 800 industries with no increase in the data collected from respondents but also demonstrated how data sharing can result in the creation of valuable data products.

(6) With subtitle A of this title, the sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics continues to ensure the highest level of confidentiality for respondents to statistical surveys.

(b) **PURPOSES.**—The purposes of this subtitle are the following:

(1) To authorize the sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics for exclusively statistical purposes.

(2) To reduce the paperwork burdens imposed on businesses that provide requested information to the Federal Government.

(3) To improve the comparability and accuracy of Federal economic statistics by allowing the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics to update sample frames, develop consistent classifications of establishments and companies into industries, improve coverage, and reconcile significant differences in data produced by the three agencies.

(4) To increase understanding of the United States economy, especially for key industry and regional statistics, to develop more accurate measures of the impact of technology on productivity growth, and to enhance the reliability of the Nation's most important economic indicators, such as the National Income and Product Accounts.

SEC. 522. DESIGNATION OF STATISTICAL AGENCIES.

For purposes of this subtitle, the term "Designated Statistical Agency" means each of the following:

(1) The Bureau of the Census of the Department of Commerce.

(2) The Bureau of Economic Analysis of the Department of Commerce.

(3) The Bureau of Labor Statistics of the Department of Labor.

SEC. 523. RESPONSIBILITIES OF DESIGNATED STATISTICAL AGENCIES.

The head of each of the Designated Statistical Agencies shall—

(1) identify opportunities to eliminate duplication and otherwise reduce reporting burden and cost imposed on the public in providing information for statistical purposes;

(2) enter into joint statistical projects to improve the quality and reduce the cost of statistical programs; and

(3) protect the confidentiality of individually identifiable information acquired for statistical purposes by adhering to safeguard principles, including—

(A) emphasizing to their officers, employees, and agents the importance of protecting the confidentiality of information in cases where the identity of individual respondents can reasonably be inferred by either direct or indirect means;

(B) training their officers, employees, and agents in their legal obligations to protect the confidentiality of individually identifiable information and in the procedures that must be followed to provide access to such information;

(C) implementing appropriate measures to assure the physical and electronic security of confidential data;

(D) establishing a system of records that identifies individuals accessing confidential data and the project for which the data were required; and

(E) being prepared to document their compliance with safeguard principles to other agencies authorized by law to monitor such compliance.

SEC. 524. SHARING OF BUSINESS DATA AMONG DESIGNATED STATISTICAL AGENCIES.

(a) **IN GENERAL.**—A Designated Statistical Agency may provide business data in an identifiable form to another Designated Statistical Agency under the terms of a written agreement among the agencies sharing the business data that specifies—

(1) the business data to be shared;

(2) the statistical purposes for which the business data are to be used;

(3) the officers, employees, and agents authorized to examine the business data to be shared; and

(4) appropriate security procedures to safeguard the confidentiality of the business data.

(b) **RESPONSIBILITIES OF AGENCIES UNDER OTHER LAWS.**—The provision of business data by an agency to a Designated Statistical Agency under this subtitle shall in no way alter the responsibility of the agency providing the data under other statutes (including section 552 of title 5, United States Code (popularly known as the "Freedom of Information Act"), and section 552b of title 5, United States Code (popularly known as the "Privacy Act of 1974")) with respect to the provision or withholding of such information by the agency providing the data.

(c) **RESPONSIBILITIES OF OFFICERS, EMPLOYEES, AND AGENTS.**—Examination of business data in identifiable form shall be limited to the officers, employees, and agents authorized to examine the individual reports in accordance with written agreements pursuant to this section. Officers, employees, and agents of a Designated Statistical Agency who receive data pursuant to this subtitle shall be subject to all provisions of law, including penalties, that relate—

(1) to the unlawful provision of the business data that would apply to the officers, employees, and agents of the agency that originally obtained the information; and

(2) to the unlawful disclosure of the business data that would apply to officers, employees, and agents of the agency that originally obtained the information.

(d) **NOTICE.**—Whenever a written agreement concerns data that respondents were required by law to report and the respondents were not informed that the data could be shared among the Designated Statistical Agencies, for exclusively

statistical purposes, the terms of such agreement shall be described in a public notice issued by the agency that intends to provide the data. Such notice shall allow a minimum of 60 days for public comment.

SEC. 525. LIMITATIONS ON USE OF BUSINESS DATA PROVIDED BY DESIGNATED STATISTICAL AGENCIES.

(a) **IN GENERAL.**—Business data provided by a Designated Statistical Agency pursuant to this subtitle shall be used exclusively for statistical purposes.

(b) **PUBLICATION OF DATA.**—Publication of business data acquired by a Designated Statistical Agency shall occur in a manner whereby the data furnished by any particular respondent are not in identifiable form.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—Congress finds the following:

(1) The use of computers and the Internet is rapidly transforming societal interactions and the relationships among citizens, private businesses, and the Government.

(2) The Federal Government has had uneven success in applying advances in information technology to enhance governmental functions and services, achieve more efficient performance, increase access to Government information, and increase citizen participation in Government.

(3) Most Internet-based services of the Federal Government are developed and presented separately, according to the jurisdictional boundaries of an individual department or agency, rather than being integrated cooperatively according to function or topic.

(4) Internet-based Government services involving interagency cooperation are especially difficult to develop and promote, in part because of a lack of sufficient funding mechanisms to support such interagency cooperation.

(5) Electronic Government has its impact through improved Government performance and outcomes within and across agencies.

(6) Electronic Government is a critical element in the management of Government, to be implemented as part of a management framework that also addresses finance, procurement, human capital, and other challenges to improve the performance of Government.

(7) To take full advantage of the improved Government performance that can be

achieved through the use of Internet-based technology requires strong leadership, better organization, improved interagency collaboration, and more focused oversight of agency compliance with statutes related to information resource management.

(b) PURPOSES.—The purposes of this Act are the following:

(1) To provide effective leadership of Federal Government efforts to develop and promote electronic Government services and processes by establishing an Administrator of a new Office of Electronic Government within the Office of Management and Budget.

(2) To promote use of the Internet and other information technologies to provide increased opportunities for citizen participation in Government.

(3) To promote interagency collaboration in providing electronic Government services, where this collaboration would improve the service to citizens by integrating related functions, and in the use of internal electronic Government processes, where this collaboration would improve the efficiency and effectiveness of the processes.

(4) To improve the ability of the Government to achieve agency missions and program performance goals.

(5) To promote the use of the Internet and emerging technologies within and across Government agencies to provide citizen-centric Government information and services.

(6) To reduce costs and burdens for businesses and other Government entities.

(7) To promote better informed decision-making by policy makers.

(8) To promote access to high quality Government information and services across multiple channels.

(9) To make the Federal Government more transparent and accountable.

(10) To transform agency operations by utilizing, where appropriate, best practices from public and private sector organizations.

(11) To provide enhanced access to Government information and services in a manner consistent with laws regarding protection of personal privacy, national security, records retention, access for persons with disabilities, and other relevant laws.

Subtitle A—Confidential Information Protection

SEC. 511. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds the following:

(1) Individuals, businesses, and other organizations have varying degrees of legal protection when providing information to the agencies for strictly statistical purposes.

(2) Pledges of confidentiality by agencies provide assurances to the public that information about individuals or organizations or provided by individuals or organizations for exclusively statistical purposes will be held

in confidence and will not be used against such individuals or organizations in any agency action.

(3) Protecting the confidentiality interests of individuals or organizations who provide information under a pledge of confidentiality for Federal statistical programs serves both the interests of the public and the needs of society.

(4) Declining trust of the public in the protection of information provided under a pledge of confidentiality to the agencies adversely affects both the accuracy and completeness of statistical analyses.

(5) Ensuring that information provided under a pledge of confidentiality for statistical purposes receives protection is essential in continuing public cooperation in statistical programs.

(b) PURPOSES.—The purposes of this subtitle are the following:

(1) To ensure that information supplied by individuals or organizations to an agency for statistical purposes under a pledge of confidentiality is used exclusively for statistical purposes.

(2) To ensure that individuals or organizations who supply information under a pledge of confidentiality to agencies for statistical purposes will neither have that information disclosed in identifiable form to anyone not authorized by this title nor have that information used for any purpose other than a statistical purpose.

(3) To safeguard the confidentiality of individually identifiable information acquired under a pledge of confidentiality for statistical purposes by controlling access to, and uses made of, such information.

SEC. 512. LIMITATIONS ON USE AND DISCLOSURE OF DATA AND INFORMATION.

(a) USE OF STATISTICAL DATA OR INFORMATION.—Data or information acquired by an agency under a pledge of confidentiality and for exclusively statistical purposes shall be used by officers, employees, or agents of the agency exclusively for statistical purposes.

(b) DISCLOSURE OF STATISTICAL DATA OR INFORMATION.—

(1) Data or information acquired by an agency under a pledge of confidentiality for exclusively statistical purposes shall not be disclosed by an agency in identifiable form, for any use other than an exclusively statistical purpose, except with the informed consent of the respondent.

(2) A disclosure pursuant to paragraph (1) is authorized only when the head of the agency approves such disclosure and the disclosure is not prohibited by any other law.

(3) This section does not restrict or diminish any confidentiality protections in law that otherwise apply to data or information acquired by an agency under a pledge of confidentiality for exclusively statistical purposes.

(c) RULE FOR USE OF DATA OR INFORMATION FOR NONSTATISTICAL PURPOSES.—A statistical agency or unit shall clearly distinguish any data or information it collects for nonstatistical purposes (as authorized by law) and provide notice to the public, before the data or information is collected, that the data or information could be used for nonstatistical purposes.

(d) DESIGNATION OF AGENTS.—A statistical agency or unit may designate agents, by contract or by entering into a special agreement containing the provisions required under section 502(2) for treatment as an agent under that section, who may perform exclusively statistical activities, subject to the limitations and penalties described in this title.

SEC. 513. FINES AND PENALTIES.

Whoever, being an officer, employee, or agent of an agency acquiring information for exclusively statistical purposes, having

taken and subscribed the oath of office, or having sworn to observe the limitations imposed by section 512, comes into possession of such information by reason of his or her being an officer, employee, or agent and, knowing that the disclosure of the specific information is prohibited under the provisions of this title, willfully discloses the information in any manner to a person or agency not entitled to receive it, shall be guilty of a class E felony and imprisoned for not more than 5 years, or fined not more than \$250,000, or both.

Subtitle B—Statistical Efficiency

SEC. 521. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds the following:

(1) Federal statistics are an important source of information for public and private decision-makers such as policymakers, consumers, businesses, investors, and workers.

(2) Federal statistical agencies should continuously seek to improve their efficiency. Statutory constraints limit the ability of these agencies to share data and thus to achieve higher efficiency for Federal statistical programs.

(3) The quality of Federal statistics depends on the willingness of businesses to respond to statistical surveys. Reducing reporting burdens will increase response rates, and therefore lead to more accurate characterizations of the economy.

(4) Enhanced sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics for exclusively statistical purposes will improve their ability to track more accurately the large and rapidly changing nature of United States business. In particular, the statistical agencies will be able to better ensure that businesses are consistently classified in appropriate industries, resolve data anomalies, produce statistical samples that are consistently adjusted for the entry and exit of new businesses in a timely manner, and correct faulty reporting errors quickly and efficiently.

(5) The Congress enacted the International Investment and Trade in Services Act of 1990 that allowed the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics to share data on foreign-owned companies. The Act not only expanded detailed industry coverage from 135 industries to over 800 industries with no increase in the data collected from respondents but also demonstrated how data sharing can result in the creation of valuable data products.

(6) With subtitle A of this title, the sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics continues to ensure the highest level of confidentiality for respondents to statistical surveys.

(b) PURPOSES.—The purposes of this subtitle are the following:

(1) To authorize the sharing of business data among the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics for exclusively statistical purposes.

(2) To reduce the paperwork burdens imposed on businesses that provide requested information to the Federal Government.

(3) To improve the comparability and accuracy of Federal economic statistics by allowing the Bureau of the Census, the Bureau of Economic Analysis, and the Bureau of Labor Statistics to update sample frames, develop consistent classifications of establishments and companies into industries, improve coverage, and reconcile significant differences in data produced by the three agencies.

(4) To increase understanding of the United States economy, especially for key industry

and regional statistics, to develop more accurate measures of the impact of technology on productivity growth, and to enhance the reliability of the Nation's most important economic indicators, such as the National Income and Product Accounts.

SEC. 522. DESIGNATION OF STATISTICAL AGENCIES.

For purposes of this subtitle, the term "Designated Statistical Agency" means each of the following:

- (1) The Bureau of the Census of the Department of Commerce.
- (2) The Bureau of Economic Analysis of the Department of Commerce.
- (3) The Bureau of Labor Statistics of the Department of Labor.

SEC. 523. RESPONSIBILITIES OF DESIGNATED STATISTICAL AGENCIES.

The head of each of the Designated Statistical Agencies shall—

(1) identify opportunities to eliminate duplication and otherwise reduce reporting burden and cost imposed on the public in providing information for statistical purposes;

(2) enter into joint statistical projects to improve the quality and reduce the cost of statistical programs; and

(3) protect the confidentiality of individually identifiable information acquired for statistical purposes by adhering to safeguard principles, including—

(A) emphasizing to their officers, employees, and agents the importance of protecting the confidentiality of information in cases where the identity of individual respondents can reasonably be inferred by either direct or indirect means;

(B) training their officers, employees, and agents in their legal obligations to protect the confidentiality of individually identifiable information and in the procedures that must be followed to provide access to such information;

(C) implementing appropriate measures to assure the physical and electronic security of confidential data;

(D) establishing a system of records that identifies individuals accessing confidential data and the project for which the data were required; and

(E) being prepared to document their compliance with safeguard principles to other agencies authorized by law to monitor such compliance.

SEC. 524. SHARING OF BUSINESS DATA AMONG DESIGNATED STATISTICAL AGENCIES.

(a) IN GENERAL.—A Designated Statistical Agency may provide business data in an identifiable form to another Designated Statistical Agency under the terms of a written agreement among the agencies sharing the business data that specifies—

- (1) the business data to be shared;
- (2) the statistical purposes for which the business data are to be used;
- (3) the officers, employees, and agents authorized to examine the business data to be shared; and
- (4) appropriate security procedures to safeguard the confidentiality of the business data.

(b) RESPONSIBILITIES OF AGENCIES UNDER OTHER LAWS.—The provision of business data by an agency to a Designated Statistical Agency under this subtitle shall in no way alter the responsibility of the agency providing the data under other statutes (including section 552 of title 5, United States Code (popularly known as the Freedom of Information Act), and section 552b of title 5, United States Code (popularly known as the Privacy Act of 1974)) with respect to the provision or withholding of such information by the agency providing the data.

(c) RESPONSIBILITIES OF OFFICERS, EMPLOYEES, AND AGENTS.—Examination of business data in identifiable form shall be limited to the officers, employees, and agents authorized to examine the individual reports in accordance with written agreements pursuant to this section. Officers, employees, and agents of a Designated Statistical Agency who receive data pursuant to this subtitle shall be subject to all provisions of law, including penalties, that relate—

(1) to the unlawful provision of the business data that would apply to the officers, employees, and agents of the agency that originally obtained the information; and

(2) to the unlawful disclosure of the business data that would apply to officers, employees, and agents of the agency that originally obtained the information.

(d) NOTICE.—Whenever a written agreement concerns data that respondents were required by law to report and the respondents were not informed that the data could be shared among the Designated Statistical Agencies, for exclusively statistical purposes, the terms of such agreement shall be described in a public notice issued by the agency that intends to provide the data. Such notice shall allow a minimum of 60 days for public comment.

SEC. 525. LIMITATIONS ON USE OF BUSINESS DATA PROVIDED BY DESIGNATED STATISTICAL AGENCIES.

(a) USE, GENERALLY.—Business data provided by a Designated Statistical Agency pursuant to this subtitle shall be used exclusively for statistical purposes.

(b) PUBLICATION.—Publication of business data acquired by a Designated Statistical Agency shall occur in a manner whereby the data furnished by any particular respondent are not in identifiable form.

SEC. 526. CONFORMING AMENDMENTS.

(a) DEPARTMENT OF COMMERCE.—Section 1 of the Act of January 27, 1938 (15 U.S.C. 176a) is amended by striking "The" and inserting "Except as provided in the Confidential Information Protection and Statistical Efficiency Act of 2002, the".

(b) TITLE 13.—Chapter 10 of title 13, United States Code, is amended—

(1) by adding after section 401 the following:

"§ 402. Providing business data to Designated Statistical Agencies

"The Bureau of the Census may provide business data to the Bureau of Economic Analysis and the Bureau of Labor Statistics ('Designated Statistical Agencies') if such information is required for an authorized statistical purpose and the provision is the subject of a written agreement with that Designated Statistical Agency, or their successors, as defined in the Confidential Information Protection and Statistical Efficiency Act of 2002.";

(2) in the table of sections for the chapter by adding after the item relating to section 401 the following:

"402. Providing business data to Designated Statistical Agencies."

Mr. SAWYER. Mr. Speaker, I rise in support of this bill. I am pleased that H.R. 2458 includes title 5 of the bill to improve the government's statistical capabilities. As the lead Democratic sponsor of this section, I would like to thank the gentleman from California (Mr. HORN) for the opportunity to work with him on this legislation and for his leadership on this issue. This measure has been years in the making. It builds on the gentleman from California's approach to provide limited data sharing among agencies as well as my bill to strengthen the confidentiality of government statistics. My remarks focus on the new confidentiality provisions contained in the bill.

The confidentiality measures create a uniform set of protections for statistical information that would replace the current patchwork of rules and extend these protections to all individually identifiable data collected for statistical purposes. This will encourage greater public cooperation with government surveys and improve the quality of federal statistics.

In too many instances, existing law does not ensure that personal information collected with remain confidential. More than 70 federal agencies or statistical units collect such data but only 12 are covered by government regulations to protect personal identifiable information from disclosure, and only a handful of those have the stronger protection of law. Some of these uncovered units collected information on highly sensitive topics such as substance abuse and mental health. Such sensitive data deserves the most stringent of protections from disclosure. While agency policy may have once been enough in the past, real public trust requires that information be shielded by the force of law.

Statutory protection under this legislation would prevent any regulatory or law enforcement misuse of these data. This recommendation was first made under the Privacy Act of 1974. However, that Act has several loopholes that allow for disclosure of personally identifiable information without the informed consent of those who supplied the information. These are twelve categories of such exemptions and the Act fails to distinguish between data collected for research purposes and data collected for administrative purposes, offering minimal protection from improper disclosure.

The commission recommended that no record or information collected for statistical purpose be used in identifiable form to make any decision or take any action directly affecting the person to whom the record pertains. H.R. 5215 embodies the commission's recommendation.

Improvements that this bill would make in our nation's statistical programs are long overdue. The measures are needed not only to protect the public but also to ensure the public's continued cooperation and participation in essential government research. Informed public policy relies on it. I am pleased that this measure has the support of the House and urge the Senate to pass this legislation before adjourning for the year.

Mr. TOM DAVIS of Virginia. Mr. Speaker, as the federal government has increased its use of the Internet and other information technologies to conduct its business, the need for a comprehensive approach to the management Electronic Government initiatives has become evident. Therefore, Congressman JIM TURNER, the Ranking Member of the Government Reform Subcommittee on Technology and Procurement Policy, introduced H.R. 2458, the Electronic Government Act of 2002. H.R. 2458 is a bipartisan bill to enhance the management and promotion of electronic government services and processes and to increase the electronic availability of information to the public. I worked closely with Congressman TURNER to develop this bill. H.R. 2458 was reported favorably by the Committee on Government Reform with a unanimous vote. With agreed upon changes reflected in the text before the House today, the bill is supported by the Science and Armed Services Committees, as well as by the leadership of the Senate Governmental Affairs Committee.

Following action by the House, the legislation is expected to be taken up by the Senate and acted on in its present form.

The bill contains five titles, covering a broad array of government information management issues.

Title I would strengthen government-wide approaches to improving the use of information technology for service delivery and governmental efficiency and effectiveness by establishing an Office of Electronic Government in the Office of Management and Budget (OMB), a statutory interagency Chief Information Officers (CIO) Council, a program to promote contractor innovation and excellence in E-Gov services and processes, and an interagency E-Gov Fund to provide funding for innovative E-Gov initiatives.

Title II would mandate a number of specific initiatives to enhance Federal E-Gov capabilities. Among its provisions are requirements to support broader use of electronic signatures, a develop a Federal Internet portal, improve public access to public information in Federal agencies and the courts, strengthen privacy protections, improve Federal workforce information technology skills, and make greater use of share-in-savings contracts.

Title III, "Federal Information Security Management Act of 2002" (FISMA), would permanently authorize a government-wide risk-based approach to information security and otherwise strengthen Government Information Security Reform (GISRA) provisions of the FY 2001 Defense Authorization Act.

Title IV would provide authorization of appropriations for the legislation and effective dates for its provisions.

Title V would reduce paperwork burdens and improve privacy protections by establishing new procedures for statistical data sharing among key statistical agencies.

Following favorable action on the bill by the Committee on Government Reform, the managers renewed discussions with the Administration, including OMB, the Department of Defense, and the Department of Commerce, and the Committees on Science and Armed Services, and the Senate Committee on Government Affairs. The resulting agreement involved making a number of revisions to the reported bill. The changes are described below.

Section 205 of H.R. 2458 is revised at the request of the Administration to ensure that on-line access to Federal court records not compromise legitimate privacy and security concerns. The revised language would require the judiciary to develop rules to clearly set forth litigant rights and obligations, as well as court responsibilities with regards to the treatment of privacy and security issues associated with court records.

Section 209 is revised with the addition of subsection (b) to require the Director of OPM, in consultation with the Director of OMB, the CIO Council, and the Administration of GSA, to analyze, identify, assess, and oversee the government-wide development of information technology and information resource management training curricula and methods. Agency heads will use these curricula and methods to establish training programs that meet their needs for information technology and information resource management while designing the training to maximize efficiency and economy.

Section 210 authorizing the government-wide use of share-in savings contracts for information technology has been amended to

sunset in September 2005, rather than in 2009. The provision has also been amended to prohibit the agency letting the contract to retain any savings attributable to a decrease in the number of employees performing the function and to prohibit the inclusion in savings of enhanced revenues from the collection of fees, taxes, debts, claims, or other amounts collected by the government. The requirement that the General Accounting Office (GAO) review the Office of Management and Budget report to Congress on the use by the agencies of the share-in-savings authority has been expanded to include an independent assessment by the GAO of the effectiveness of share-in-savings contracts and of whether the authority should be continued. Finally the section now provides for the repeal of the current share-in-savings pilot authority in 40 U.S.C. 11521.

Section 213(b) requires a study to evaluate the best practices of community technology centers that receive federal funds. 213(b)(1) is amended to clarify that OMB must ensure that such a study is conducted.

Likewise, Section 214(b)(1) is amended to clarify that OMB must ensure a study is conducted on the use of information technology to enhance crisis management.

A new section 216 is added to Title II that calls for the development of protocols for geographic information systems so that industry and government can develop innovative multi-layered maps and analyses using the government's massive amount of geographic data. This section is not intended to inappropriately move activity into the government that is best left to the private sector. Furthermore, nothing in this provision is intended to encourage the development of technical standards that would require the procurement of specific hardware or software.

A new subsection (c) is added to § 3533 in section 301 of the bill. This subsection delegates to the Secretary of the Defense and the Director of Central Intelligence OMB authority under § 3533(a)(1) for developing and overseeing the implementation of information security policies, and under § 3533(a)(2) for providing risk-based information security protections, for DOD and CIA systems that process information whose unauthorized access, use, disclosure, disruption, modification, or destruction would have a debilitating impact on the missions of the agencies. This revision was requested by the Administration and the Armed Services Committee.

§ 3536(a)(4) in section 301 of the bill is modified to require that the Federal information security incident center described under this section is to keep the National Institute of Standards and Technology (NIST), as well as other appropriate agencies, informed about information security incidents and related matters.

Section 303 of the legislation as reported by the Committee on Government Reform would amend 40 U.S.C. 11331 to transfer to OMB the authority to promulgate information security standards, which is currently a responsibility of the Secretary of Commerce. After much discussion about the practical consequences of such a transfer, it was agreed to retain the current law's structure while strengthening it in a number of instances. First, FISMA's revision of 40 U.S.C. 11331, at sec. 303, is modified to maintain standards promulgation by the Secretary of Commerce, largely as currently provided in law. § 11331 is

revised, however, to continue FISMA provisions for minimum mandatory security standards, a time limit on promulgation of the standards, and the elimination of waiver authority. Second, FISMA's § 3533(a), in sec. 301, is revised accordingly to strike references to OMB promulgation of the NIST-developed standards. In place of that mandate, OMB would be required, at § 3533(a)(1), to use its oversight authority to ensure agency use of such standards, and at § 3533(a)(8), to include an assessment of the standards in its annual report to Congress. Third, to harmonize other references in the legislation to standards promulgation, a number of provisions in Titles I and II are also revised purely for the sake of consistency: i.e., in § 3602(f)(8) in sec. 101, in sec. 202(a)(2), in sec. 202(f)(2), in sec. 207(d)(2)(iii), in § 3534(a)(1)(B)(i) in sec. 301, in § 20(c)(3), (e)(1), and (e)(8) in sec. 303, and in sec. 304(6). Finally, sec. 306 is stricken because given the transfer back to Commerce of all standards promulgation, there is no need to address the division in authority between OMB (security standards) and Commerce (system standards).

Section 303's amendments to section 20 of the NIST Act, 15 U.S.C. 278g-3, are modified in several respects. First, NIST guidance concerning the identification of national security systems, at subsection (b)(3), is to be developed in conjunction with the Department of Defense, including the National Security Agency. Second, as requested by the Administration and the Science Committee, subsections (c)(5), (6), and (7) are modified to be "to the maximum extent practicable." These changes are intended to preserve the policy of reliance on flexible, performance-based, technology-neutral requirements, while recognizing that there likely will be times where needs such as interoperability or the reality of market predominance will require guidance that addresses specific technologies or products. Third, as requested by the Science Committee, the bill drops subsection (d), which would have established a NIST Office for Information Security Programs. Finally, also at the request of the Science Committee, subsection (e) is revised consistent with current law to provide for NIST technical assistance to agencies, at (e)(2), and to authorize NIST to help the private sector, upon request, with NIST guidance and other assistance, at (e)(6).

Title V of this bill is based on H.R. 5215, the Confidential Information Protection and Statistical Efficiency Act of 2002, introduced by Congressman STEPHEN HORN, Chairman of the Government Reform Subcommittee on Government Efficiency, Financial Management and Intergovernmental Relations. Chairman HORN and Ranking Member JANICE D. SCHAKOWSKY have worked tirelessly with the Administration to finalize these provisions. This section creates the opportunity for three federal statistical agencies to reduce reporting burdens on businesses while simultaneously making the process of developing economic statistics more efficient. This title provides the statutory changes necessary to allow the Bureau of Economic Analysis, the Bureau of Labor Statistics, and the U.S. Census Bureau to enter into negotiated agreements to share confidential business information. The magnitude of the gains in efficiency and burden reduction will turn on the willingness of these agencies to move swiftly to capitalize on the opportunities presented by these changes.

Title V also include language introduced in this Congress by Representatives SAWYER and WAXMAN, which provides strong protection from disclosure for information provided to the government by individuals and businesses. A new provision added to Title V provides a resolution to a longstanding problem of information exchange between the Congressional Budget Office and statistical agencies by making it clear that Congressional intent is for CBO, in fulfilling its statistical service to the Congress, to have access to the necessary information held by statistical agencies in the executive branch.

Finally, a number of technical corrections are made: At § 3532(b)(2)(A) in sec. 101 to correct a paragraph indentation; and at § 3533(a)(8)(D) in sec. 101 to correct a subsection cross-reference.

With these changes, the managers of H.R. 2458 are able to state that the legislation before the House of Representatives today reflects agreement across the aisle, among key members and committees in both houses of Congress, and with the executive branch. I urge passage of this bill.

Mr. TURNER. Mr. Speaker, I want to thank Chairman DAVIS for the bipartisan manner in which we have worked to address the issues in H.R. 2458, the E-Government Act of 2002, as amendment. In addition to incorporating many of the changes agreed to by the Senate and Administration, we have been able to address concerns that I and others had with this legislation since the bill has been marked up by the Government Reform Committee. I thank Chairman DAVIS and BURTON, as well as Representative HENRY WAXMAN, ranking member of the Government Reform Committee, for working constructively with me on those issues. I believe all of us hope that this bill will become law before the end of the 107th Congress.

The information technology revolution of the last decade has had a profound impact on almost all aspects of our economy and government. Providing a statutory basis for applying some of the impacts of that revolution to the federal government is a complicated, but necessary, step. The Subcommittee on Technology and Procurement Policy has held numerous hearings on the issues H.R. 2458 addresses, and I want to commend Chairman DAVIS for his attention to this topic.

When it comes to information technology, effective use of the internet, and other cutting edge information resources, the federal government is playing catch-up with the private sector, which seems to have been able to integrate the new technology into its day-to-day operations more rapidly and effectively than the federal government. And while we have played catch-up, we're losing money through inefficiency, and we're wasting the time of millions of citizens, who deserve the modern effective government information technology can help us achieve. This bill will go some way toward improving the federal government's use of information technology.

That is why I, along with Senator LIEBERMAN, introduced the E-Government Act, to help us move toward that goal by improving leadership and funding, as well as addressing other critical issues like privacy, training, and accessibility. I believe the measure holds great promise for improving government and its relationship to American citizens.

The measure before us also incorporates other legislation which has bipartisan support,

including bill Chairman DAVIS authored, H.R. 3844, the Federal Information Security Management Act, and H.R. 5215, the Confidential Information Protection and Statistical Efficiency Act, introduced by Chairman HORN. These are all important measures and I urge my colleagues to support them.

Attest:

Secretary.

Mr. DINGELL. Mr. Speaker, I rise in strong support of the Senate amendment to H.R. 3609. The Senate passed this bill yesterday by unanimous consent. The text is based upon bipartisan, bicameral agreements reached during the conference consideration of H.R. 4, the energy bill.

I am truly pleased to be here to mark a very important event: for the first time in a decade, we are on the verge of enacting pipeline safety legislation that would actually enhance the safety of our Nation's pipelines. I want to commend Chairman TAUZIN, Chairman YOUNG, Ranking Member OBERSTAR, and our Senate colleagues on both sides of the aisle for making this possible.

There is a mounting body of evidence that our system of pipeline safety regulation is wholly inadequate. Unfortunately, until now, Congress has failed to move on any meaningful reforms. During the last Congress, the House considered legislation that was more about public relations than public safety. Because that legislation did little more than restate existing law and provide cover for maintaining the deadly status quo, Mr. OBERSTAR and I—along with many of our colleagues—successfully opposed enactment of that legislation.

The legislation we are considering today is largely based on the legislation that passed the House overwhelmingly in July, while incorporating many of the provisions of previously passed Senate legislation. It is the result of a good faith, sincere effort to do what is doable for the sake of safety, rather than hold out for everything that every stakeholder ever wanted. I know it is not a perfect product, but it is a distinct improvement over the Senate legislation and current law. Let me just detail a few of the improvements.

H.R. 3609, as amended, requires that a pipeline facility be inspected within ten years or less and re-inspected at least once every seven years. Facilities may be inspected more frequently and the Secretary is required to determine under what circumstances more frequent inspections are required. I certainly hope Secretary Mineta requires more frequent inspections, but currently, there are no time limits or rules for inspection of gas pipelines in high consequence areas, so this is a major improvement over currently law.

The bill before us also adopts the more stringent House inspection provisions, spelling out very specifically the minimum requirements of an operators integrity management plan. It requires the Secretary of Transportation to establish specific criteria for judging the adequacy of an operator's plan and establishes a specific process for the Secretary to review and assess the adequacy of an operator's inspection plans and amendments to the plan, requiring the Secretary to order revisions to inadequate plans. Also, while it allows some inspections to be conducted by direct assessment, the legislation requires the Secretary to define "direct assessment" by rules rather than leave the term undefined.

Because the Department of Transportation (DOT) has a terrible history of compliance with Congressional directives, the language provides a "fail-safe" to ensure pipelines get inspected by placing the obligation to conduct inspections directly on the pipeline operator if the Secretary fails to undertake a rulemaking.

The bill before us also includes the language on operator qualifications based upon the House-passed legislation. As with the inspection language, the House provision on operator qualifications is much more stringent and detailed. It requires the development of standards and criteria, the verification of operators' plans, and it contains a mechanism to ensure that operators develop and implement qualification plans even if the DOT never completes a rulemaking procedure. And, it begins to move toward licensing of pipeline operators by establishing a pilot program on licensing of pipeline computer control room operators.

This bill authorizes far more money for pipeline safety than the original Senate language. It authorizes new technical assistance grants to communities and a new research program. Most importantly, this legislation contains the House language assuring that most of the money authorized by this legislation will be spent on the regulation of pipelines, not on less important matters.

Other improvements to current law include new authority to issue Safety Orders, allowing the Secretary to take quick, meaningful action when there is a potentially unsafe condition; the establishment of a toll-free national three-digit "call before you dig" or "one-call" phone system; increased emphasis on environmental protection; and more enforcement tools to make it easier for both DOT and the Department of Justice to go after bad actors.

This is a good piece of legislation and I again want to express my appreciation to those in the environmental community and organized labor who have worked with me over the years on these matters. They, along with the industry stakeholders who have chosen to play a constructive role in his process, deserve to be recognized for helping us make it possible to go forward with the support of every Member of our Committee and hopefully today with support of the entire House of Representatives.

Mr. Speaker, I urge passage of the bill.

Mr. OBERSTAR. Mr. Speaker, I rise in support of the Senate amendment to H.R. 3609, the Pipeline Safety and Improvement Act of 2002. This evening, the House finally will be able to enact pipeline safety legislation that is worthy of the name. It has been a long and difficult journey to reach this point. Energy and Commerce Committee Ranking Member DINGELL and I introduced strong pipeline safety legislation in this and the last Congress, while at the same time we fought to forestall the passage of much weaker legislation. Although it has required two more years of difficult negotiations on pipeline safety, I am pleased to say that nearly all the areas that Congressman DINGELL and I wanted to address are covered in the bill.

Is this bill perfect? No, but it has come a long way from the version that was introduced last December. My primary criticism of this compromise bill is that it does not go far enough in giving citizens information about the status of pipelines serving their communities—the so-called community right-to-know issue. However, in the current security-focused environment, we were unable to arrive at language that a majority of our colleagues could agree upon. Notwithstanding that limitation, this is a very good bill deserving of your support. Let me share with you some highlights of the Pipeline Safety Improvement Act of 2002.

First and foremost, this bill establishes specific timeframes for inspecting all natural gas

transmission pipelines serving high consequence areas (e.g., high population areas). These pipelines must all be inspected within ten years of enactment of this legislation. Moreover, at least 50 percent of these pipelines must be inspected within the first five years. Pipeline operators must prioritize their facilities based on risk factors and ensure that assessments with the highest risks are given priority and inspections are completed within this first five-year period. Subsequently, these pipelines must be re-inspected no less frequently than ever seven years. At first, the natural gas pipeline industry strenuously opposed any periodic inspection requirements. When it became apparent that they couldn't win that position, they suggested inspection timeframes of up to 20 years and the Office of Pipeline Safety (OPS) appeared to agree with them. Fortunately, the interests of safety prevailed over the interests of the bottom line.

The bill also includes a requirement that pipeline operators provide training to ensure that individuals have the necessary knowledge and skills to perform their tasks in a safe manner. The bill specifically excludes the mere observation of an employee's on-the-job performance to decide whether or not he or she is qualified to perform the task to which he is assigned. The bill also requires OPS to establish a pilot program to certify pipeline employees who operate computer systems for controlling pipelines. This pilot program will help us determine whether we should require pipeline operators to certify all pipeline employees in safety-sensitive positions.

In addition, the bill raises the civil penalties for each violation from \$25,000 to \$100,000, and the maximum civil penalty from \$500,000 to \$1 million. These penalties are significantly higher than the penalties included in H.R. 3609, as reported. The bill also contains meaningful protections for employees who provide information about violations of Federal law governing pipeline safety or refuse to participate in any illegal practices relating to pipeline safety.

The bill allows for the coordination of environmental reviews for pipeline repair projects. It limits the instances where discretionary administrative environmental reviews might be minimized or eliminated to repair projects that would result in no more than minimal adverse effects on the environment and requires that an Interagency Committee of Federal agencies with responsibilities relating to pipeline repair projects unanimously agree that the environmental impact would be minimal.

This bill contains a number of other provisions that also should greatly advance the goal of improving pipeline safety. However, I must offer a word of caution. Simply because we enact a good, strong pipeline safety bill is no guarantee that its provisions will be vigorously carried out. In 1988 and 1992, Congress passed pipeline safety laws that required significant pipeline safety improvements, only to watch OPS basically ignore the law. Likewise, the Office of Pipeline Safety has been unresponsive, or slow to act, on safety recommendations made by the Department of Transportation's Office of Inspector General, the General Accounting Office, and the National Transportation Safety Board. The current leadership at OPS and at its parent agency, the Research and Special Programs Administration, has promised to do a better job. Nevertheless, the Administration needs to

know that we in the Congress are watching to make certain that the provisions of this pipeline safety act are being carried out faithfully.

Two years ago, I helped lead the effort in the House to defeat a Senate-passed, pipeline safety bill. That bill was too weak, especially in light of the then-recent tragedies in Bellingham, Washington and Carlsbad, New Mexico. We defeated that bill, believing that no bill was better than a weak one. That was the right thing to do. Now, we finally have a strong bill—one that will significantly improve pipeline safety and protect those who live near them or work on them. It is sad that it took so long to do the right thing for the American people.

I urge my colleagues to support the Senate amendment to H.R. 3609, the Pipeline Safety Improvement Act of 2002.

Mr. YOUNG of Alaska. Mr. Speaker, I am pleased to submit the accompanying Joint Explanatory Statement of the Pipeline Safety Improvement Act of 2002.

To expedite enactment of the significant pipeline safety reforms included in this bill, the leadership of the House Transportation and Infrastructure and Energy and Commerce Committees has worked with the Senate Commerce, Science, and Transportation Committee in developing the bill. This Joint Explanatory Statement therefore represents the views of the Chairmen and Ranking Members of the Transportation and Infrastructure Committee and the Energy and Commerce Committee, along with the Chairman and Ranking Member of the Senate Commerce Committee.

This Joint Explanatory Statement will provide legislative history for interpreting this important pipeline safety legislation.

JOINT EXPLANATORY STATEMENT OF THE HONORABLE DON YOUNG, THE HONORABLE JAMES L. OBERSTAR, THE HONORABLE W.J. (BILLY) TAUZIN, THE HONORABLE JOHN D. DINGELL AND THE HONORABLE ERNEST HOLLINGS THE HONORABLE JOHN MCCAIN

November 14, 2002

**section-by-section analysis of h.r. 3609
pipeline safety improvement act of 2002**

Section 1. Short title; amendment of title 49, United States Code.

This section designates the act as the "Pipeline Safety Improvement Act of 2002."

Section 2. One-call notification programs.

This section requires that state one-call notification programs provide for the participation of government operators and contact excavators. Section 2 also requires that state one-call notification programs document enumerated items set forth in the statute. Additionally, the requirement that the Secretary of Transportation include certain information in reports submitted under section 60124 of Title 49 is made permanent. Authorizations for appropriations for grants to states for fiscal years 2003 through 2006 are provided at \$1,000,000 per year, and grants for administration in section 6107(b) are updated for fiscal years 2003 through 2006. This section also amends section 6105 of Title 49 by requiring the Secretary of Transportation to encourage the states, operators of one-call notification programs, operators of underground facilities, and excavators (including government and contract excavators) to use the practices set forth in the best practices report entitled "Common Ground," as periodically updated, and requires the Secretary of Transportation to provide technical assistance to a non-profit organization specifically established for the purpose of reducing construction-related damage to underground facilities. Authorizations for appropriations for fiscal years 2003 through 2006 are provided at \$500,000 per year, but would not be derived from user fees collected under section 60301 of title 49.

Section 3. One-call notification of pipeline operators.

This section provides for the enforcement of one-call notification programs by a state authority if the state's program meets the requirements set forth in the statute. The application of the term "person" who intends to engage in an activity necessitating the use of the one-call system is expanded to include government employees or contractors.

This section amends section 60123(d) of Title 49 by rearranging the phrase "knowingly and willfully" to address the problem raised when a court interpreted existing law to require a knowing and willful standard to, not only engaging in an excavation activity, but also to subsequently damaging a pipeline facility. The consequence of the court's interpretation makes prosecutions more difficult by requiring the government to show the defendant knew subsequent damages would result from excavation activity and that the defendant's conduct was willful. This section of the bill corrects the court's interpretation by now requiring that the "knowingly and willfully" standard apply only to engaging in an excavation activity.

This section also provides that penalties under the criminal penalties section can be reduced if the violator promptly reports a violation.

Section 4. State oversight role.

This section amends section 60106 of Title 49 to allow the Secretary of Transportation to make an agreement with a state authority authorizing the state authority to participate in the oversight of interstate pipeline transportation including incident investigation, new construction, and other inspection and investigatory duties. However the Secretary shall not delegate the enforcement of safety standards for interstate pipeline facilities to a state authority. This section further provides that the Secretary may terminate agreements with the State authorities if a gap results in the State authority's oversight responsibilities of intrastate pipeline transportation, the State authority fails to meet requirements set forth in this section, or continued participation in the oversight of interstate pipeline transportation would not promote pipeline safety. Existing state agreements shall continue until a new agreement between the state and the DOT is executed or December 31, 2003, whichever is sooner.

Section 5. Public education programs.

Section 5 amends section 60116 of Title 49 to include hazardous liquid pipeline facilities in this section requiring a continuing program to educate the public on the use of one-call notification systems, the possible hazards associated with unintended releases, and how to tell if an unintended release occurred, what steps should be taken for public safety in the event of a pipeline release, and how to report such an event. This section also requires owners and operators to review existing public education programs for effectiveness and to modify their programs as necessary. In addition, the section allows the Secretary to issue standards prescribing the elements of public education programs and develop materials for use in such programs.

Previous versions of Senate-passed pipeline safety legislation also included a provision calling for the coordination of emergency preparedness between operators of pipeline facilities and state and local officials, as well as to provide for public access to certain safety information. Agreement was not reached on how safety information could be accessed by the public in a manner that would protect security-sensitive information from distribution. The managers agreed that this issue would be better dealt with in the context of the pending homeland security legislation.

Section 6. Protection of employees providing pipeline safety information.

This section adds provisions for the protection of employees who are discharged or otherwise discriminated against with respect to compensation, terms, conditions, or privileges of employment for (1) providing information to the Federal government about alleged violations of Federal law relating to pipeline safety; (2) refusing to participate in any practice made illegal by Federal law relating to pipeline safety; or (3) assisting or participating in any proceeding to carry out the purposes of pipeline safety legislation. This section establishes the procedural framework in which complaints are handled by the Secretary of Labor and the remedies available to the prevailing party.

This section contains a provision that essentially says if a preliminary order provides that an employee must be allowed to return to work, the filing of any objection by the employer "shall not operate to stay any reinstatement remedy contained in the preliminary order." The intention of this language is to assure that the mere filing of an objection would not work as an automatic stay, thus precluding an employee from returning to work pending the outcome of the matter. However, this language would not preclude an employer from filing an independent motion for a stay if sufficient grounds exist for the filing of such a motion.

Section 7. Safety orders.

Section 7 adds a paragraph to section 60117 of Title 49 to give the Secretary of Transportation authority to order an operator of a facility to take corrective action if the Secretary decides that a potential safety-related condition exists. The office of Pipeline Safety (OPS) requested this provision so that corrective action could be taken immediately rather than waiting until a facility is classified as "hazardous" prior to requiring corrective action.

Section 8. Penalties.

This section modifies the existing penalties provisions set forth in section 60112 of Title 49 to allow the Secretary of Transportation to decide if the operation of a pipeline facility, is "or would be" hazardous to life, property, or the environment. The purpose of the modification is to give the Secretary authority to take action prior to the facility, the construction of the facility, or any component of the facility actually becoming hazardous, thereby establishing a framework of preventative actions, rather than actions only in response to an imminent hazard.

In subsection (a)(1) of section 60122, the amounts of the penalties have been increased. The per day, per incident, amount has been increased from \$25,000 to \$100,000. The maximum civil penalty for a related series of violations has been increased from \$500,000 to \$1,000,000. The section of the bill also provides that, in determining the amount of a civil penalty, the Secretary of Transportation shall consider as an additional consideration in section 60122(b) of Title 49, the adverse impact on the environment. The Secretary of Transportation may

consider the economic benefit gained from the violation without reduction because of subsequent damages.

This section also modifies the enforcement section of the statute (section 60120(a)(1) of Title 49) by specifically providing that the court may award appropriate relief, including a temporary or permanent injunction, punitive damages, and the assessment of civil penalties. The current statutory language specifying that the Attorney General may proceed only at the request of the Secretary of Transportation remains in effect.

Section 8 also requires that the Comptroller General conduct a study of the actions, policies, and procedures of the Secretary of Transportation for assessing and collecting fines and penalties.

Section 9. Pipeline safety information grants to communities.

Section 9 requires the Secretary of Transportation to make grants for technical assistance to local communities and groups of individuals (not including for-profit entities) relating to the safety of pipelines in local communities. The purpose of this provision is to provide grants to communities for technical assistance such as engineering or scientific analysis of pipeline safety issues. Applicants must compete for the grants in a procedure established by the Secretary of Transportation, who shall also establish the criteria for the recipients. Additionally, the Secretary must establish procedures to ensure that the funds have been properly accounted for and spent in a manner consistent with the purpose of the grants. Any one grant recipient may not receive more than \$50,000. The grant funds cannot be used for lobbying or in direct support of litigation. This section authorizes the appropriation of \$1,000,000 for each of the fiscal years 2003 through 2006.

Section 10. Operator assistance in investigations.

This section requires the operator of a pipeline facility to make available information and records to the Secretary of Transportation or the National Safety Transportation Board (NTSB) in the event of an accident, subject to constitutional protections for operators and employees. Actions taken by an operator pursuant to this section shall be in accordance with the terms and conditions of any applicable collective bargaining agreement.

Section 11. Population encroachment and rights-of-way.

This section requires the Secretary of Transportation, along with the Federal Energy Regulatory Commission (FERC) and other federal agencies and state and local governments, to study land use practices and zoning ordinances, as well as the preservation of environmental resources, with regard to pipeline rights-of-way. Based upon the purposes set forth in this section, a report is to be written that identifies successful practices, ordinances, and laws addressing population encroachment on pipeline rights-of-way, being mindful of protecting the public safety, pipeline workers, and the environment. The report must be completed within one year from the date of enactment and provided to Congress, appropriate federal agencies, and the States for further distribution to the appropriate local authorities.

Section 12. Pipeline integrity, safety, and reliability research and development.

This section requires the heads of the participating agencies to carry out a program of research, development, demonstration, and standardization to ensure the integrity of pipelines. The Secretary of Energy, Secretary of Transportation, and the Director of the National Institute of Standards and

Technology (NIST) each have defined roles. The Secretary of Transportation, in coordination with the Secretary of Energy and the Director of the National Institute of Standards and Technology, shall prepare and submit to Congress a 5-year plan to guide the activities under this section. The plan shall also be submitted to the Technical Pipeline Safety Standards Committee and the Technical Hazardous Liquid Pipeline Safety Standards Committee for review. The section authorizes appropriations for the fiscal years 2003 through 2006 in the following amounts: Secretary of Energy: \$10,000,000; the Secretary of Transportation: \$10,000,000; and the National Institute of Standards and Technology: \$5,000,000. Any sums authorized pursuant to this section shall not be derived from user fees. In addition \$3,000,000 from the Oil Spill Liability Trust Fund shall be transferred to the Secretary of Transportation, as provided in appropriations Acts, to carry out programs for detection, prevention, and mitigation of oil spills for each of the fiscal years 2003 through 2006.

Even though the Secretary of Transportation does not regulate gathering lines, the participating agencies are encouraged to include such lines in their research, development, demonstration, and standardization efforts on the integrity of gathering lines.

Section 13. Pipeline qualification programs.

This section requires the Secretary of Transportation to require operators of pipeline facilities to develop qualification programs for their personnel who perform covered tasks (as defined in the Code of Federal Regulations). This section also requires the Secretary to have in place standards and criteria for such qualification programs, including a method for examining or testing the qualifications of individuals who perform covered tasks. Such method may include written examination, oral examination, on-the-job training, simulations, observation during on-the-job performance, and other forms of assessment. The method may not be limited to observation of on-the-job performance, except with respect to tasks where the Secretary has determined specifically that such observation is the best method of examining or testing qualifications. Further, the Secretary must ensure that the results of any such on-the-job performance observations are documented in writing. The Secretary may waive or modify requirements if not inconsistent with pipeline safety. The Secretary is required to verify each operator's qualification program, including modifications to previously verified programs. In the event the Secretary fails to establish standards and criteria as set forth in this section, pipeline facility operators are required to develop and implement qualification programs based on the requirements of this section. The Secretary is required to report to Congress within 5 years on the status and results of personnel qualification regulations. A pilot program is established for the certification of individuals who operate computer-based systems for controlling the operations of pipelines. The pilot program seeks the participation of 3 pipeline facilities.

Section 14. Risk analysis and integrity management programs for gas pipelines.

This section requires operators of pipeline facilities subject to section 60109 of Title 49 to adopt and implement a written integrity management program to reduce risks to each facility. Within 12 months of the enactment of the bill, this section requires the Secretary of Transportation to prescribe standards to direct each operator's conduct of a risk analysis and adoption and implementation of an integrity management program, which must occur within 24 months from the enactment of the section. Minimum require-

ments are set forth in this section for integrity management programs and for the rule regulating the same, which include a baseline integrity assessment of each of an operator's facilities which must be completed within 10 years after the enactment of the section (at least 50 percent of such facilities shall be assessed no later than 5 years after the date of enactment of this section), and a reassessment of each facility at a minimum of once every 7 years, with prioritization being based on all relevant risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures.

The Secretary of Transportation is required to issue a rule on integrity management programs, and each operator of a pipeline facility subject to section 60109 of Title 49 is required to adopt and implement an integrity management program, even if the Secretary does not issue a rule. This section does not apply to natural gas distribution lines because section 60109 of Title 49 does not, nor was it intended to, apply to natural gas distribution lines.

Section 14 authorizes the Secretary of Transportation to grant waivers and modifications pursuant to section 60118(c) of Title 49 for any requirement for reassessment of a facility for reasons that may include the need to maintain local product supply or the lack of internal inspection devices. The waivers or modifications shall not be inconsistent with pipelines safety.

This section also requires that the Comptroller General conduct a study to evaluate the 7-year reassessment interval required by this section. The study is to be completed and transmitted to Congress no later than 4 years from the date of enactment.

In this section, each operator of a gas pipeline facility is required to conduct a risk analysis for facilities located in high consequence areas and to adopt and implement an integrity management program for each such facility to reduce associated risks. This section requires each operator to prioritize facilities for integrity assessment based on all risk factors, including any history of leaks, repairs, or failures, and directs the operator to give priority to facilities with the highest risks.

The Department of Transportation's Research and Special Programs Administration (RSPA) issued a final rule defining "high consequence areas" on August 6, 2002. The managers strongly support RSPA's regulation defining high consequence areas, although recognize that the definition could be subject to alteration by future regulatory action by RSPA.

Pipeline safety regulations have long required gas operators to survey and patrol along their pipeline rights-of-way to classify areas of population. The new definition of high consequence areas builds on the existing classification of areas where the potential consequences of a gas pipeline accident may be significant or may do considerable harm to people and their property, and includes current class 3 and 4 locations, facilities with persons who are mobility impaired, confined, or hard to evacuate, and places where people gather for recreational and other purposes.

In the July 2002 Technical Pipeline Safety Standards Committee meeting to consider the proposed definition, RSPA made clear its intent to include in its definition known areas where people gather, such as the Pecos River pipeline crossing near Carlsbad, New Mexico, which was commonly used by campers and fishermen and was the location of a pipeline rupture in August 2000 that resulted in 12 fatalities. The managers support is expressed for this new definition of high consequence areas and expect RSPA to further

clarify the application of the definition in the substantive rule to be issued on integrity management programs.

Section 15. National Pipeline Mapping System.

Section 15 requires operators of pipeline facilities, except distribution lines and gathering lines, to provide to the Secretary of Transportation geospatial data appropriate for use in the National Mapping System, the name and address of the person with primary operational control, and a means for a member for the public to contact the operator for additional information about the facilities. There is a requirement to update the information as necessary.

Section 16. Coordination of environmental reviews.

Section 16 requires the President to establish an interagency committee for the purpose of developing and ensuring the implementation of a coordinated environmental review and permitting process in order for pipeline operators to complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary of Transportation.

The chairman of the Council on Environmental Quality shall chair the Interagency Committee, which shall consist of representatives of Federal agencies with responsibilities relating to pipeline repair projects. The Interagency Committee shall evaluate Federal permitting requirements and shall examine the access, excavation, and restoration practices of the pipeline industry for the purpose of developing a compendium of best practices used by the industry to access, excavate, and restore the site of a pipeline repair. Based upon the evaluation conducted, the members of the Interagency Committee shall enter into, by unanimous consent, a memorandum of understanding to provide for the coordinated and expedited pipeline repair permit review process so that pipeline operators may commence and complete pipeline repairs within any time periods imposed on the repair projects by rules promulgated by the Secretary of Transportation. Each agency represented on the Interagency Committee is required to revise its regulations to implement the provisions of the memorandum of understanding.

This section also provides for the implementation of alternative mitigation measures to be used by operators of pipeline facilities until all applicable permits have been granted. To the extent necessary, the Secretary of Transportation is required to revise the regulations of the Department to accommodate such implementation. However, such revisions shall not allow an operator of a pipeline facility to implement alternate mitigation measures unless to do so would be consistent with the protection of human health, public safety, and the environment; the operator has applied for and is diligently and in good faith pursuing all required Federal, state, and local permits necessary to carry out the repair project; and is compatible with pipeline safety.

The Secretary of Transportation is required to designate an ombudsman to assist in expediting pipeline repairs and resolving disagreements between Federal, state, and local permitting agencies and the operator of a pipeline facility. The actions of the ombudsman must be consistent with the protection of human health, public safety, and the environment.

The Secretary of Transportation is required to encourage states and local governments to consolidate their respective permitting processes for pipeline repair projects that are subject to any time periods for repairs specified by rule by the Secretary of Transportation.

Section 17. Nationwide toll-free number system.

Section 17 requires the Secretary of Transportation to work in conjunction with the Federal Communications Commission (FCC), facility operators, excavators, and one-call notification system operators for the establishment of a nationwide toll-free 3-digit telephone number system to be used by state one-call notification systems.

Section 18. Implementation of Inspector General recommendations.

Section 18 requires the Secretary of Transportation to respond to each of the recommendations of the Department of Transportation Inspector General contained in RT-2000-069 every 90 days and to submit the responses to the appropriate committees of Congress.

Section 19. NTSB safety recommendations.

Section 19 requires RSPA and OPS to respond to recommendations received from the NTSB within 90 days from receipt of such recommendations. Such responses shall state the intentions of the OPS with respect to the recommendations and shall state the timetable for completing the procedures and reasons for refusals to do so. The responses shall be made available to the public. The OPS is required to submit an annual report describing each recommendation received and the OPS response to each recommendation for the previous year.

Section 20. Miscellaneous amendments.

Section 20 amends section 60102(a) of Title 49 by adding language expressing that the purpose of the chapter is to provide adequate protection against risks to life and property posed by pipeline transportation pipeline facilities by improving the regulatory and enforcement authority of the Secretary of Transportation.

This section also modifies the qualifications of the individuals selected to serve on the Technical Safety Standards Committees pursuant to section 60115 of Title 49 so that none of the individuals selected for committee membership from the general public "may have a significant financial interest in the pipeline, petroleum, or gas industry." The intent of this provision is to prevent industry employees and individuals with a sizable stake in the pipeline industry from serving as representatives from the general public, not prevent service from individuals who have pipeline, petroleum, or gas industry stock interests in their retirement plans.

Section 21. Technical amendments.

Section 21 makes technical amendments to correct previous drafting errors in the existing legislation.

Section 22. Authorization of appropriations.

Section 22 authorizes appropriations for the Department of Transportation and state grants for safety programs for the fiscal years 2003 through 2006.

Section 23. Inspections by direct assessment.

Section 23 requires the Secretary of Transportation to issue regulations prescribing standards for inspections of a pipeline facility by direct assessment.

Section 24. State pipeline safety advisory committees.

Section 24 requires the Secretary of Transportation to respond within 90 days after receiving recommendations from advisory committees appointed by the Governor of any state.

Section 25. Pipeline bridge risk study.

Section 25 requires the Secretary of Transportation to conduct a study to determine whether cable-suspension pipeline bridges pose structural or other risks. The Secretary may only use funds specifically appropriated to carry this section.

Section 26. Study and Report on Natural Gas Pipeline and Storage Facilities in New England.

Section 26 requires the Federal Energy Regulatory Commission, in consultation with the Department of Energy, to conduct a study on the natural gas pipeline transmission network in New England and natural gas storage facilities associated with that network and report back to the relevant House and Senate Committees within a year of the date of enactment.

TAKEN FROM THE SPEAKER'S TABLE AND CONCURRED IN SENATE AMENDMENT

H.R. 5469, to amend title 17, United States Code, with respect to the statutory license for webcasting, and for other purposes.

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the "Small Webcaster Settlement Act of 2002".

SEC. 2. FINDINGS.

Congress finds the following:

(1) *Some small webcasters who did not participate in the copyright arbitration royalty panel proceeding leading to the July 8, 2002 order of the Librarian of Congress establishing rates and terms for certain digital performances and ephemeral reproductions of sound recordings, as provided in part 261 of the Code of Federal Regulations (published in the Federal Register on July 8, 2002) (referred to in this section as "small webcasters"), have expressed reservations about the fee structure set forth in such order, and have expressed their desire for a fee based on a percentage of revenue.*

(2) *Congress has strongly encouraged representatives of copyright owners of sound recordings and representatives of the small webcasters to engage in negotiations to arrive at an agreement that would include a fee based on a percentage of revenue.*

(3) *The representatives have arrived at an agreement that they can accept in the extraordinary and unique circumstances here presented, specifically as to the small webcasters, their belief in their inability to pay the fees due pursuant to the July 8 order, and as to the copyright owners of sound recordings and performers, the strong encouragement of Congress to reach an accommodation with the small webcasters on an expedited basis.*

(4) *The representatives have indicated that they do not believe the agreement provides for or in any way approximates fair or reasonable royalty rates and terms, or rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller.*

(5) *Congress has made no determination as to whether the agreement provides for or in any way approximates fair or reasonable fees and terms, or rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller.*

(6) *Congress likewise has made no determination as to whether the July 8 order is reasonable or arbitrary, and nothing in this Act shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of such order.*

(7) *It is, nevertheless, in the public interest for the parties to be able to enter into such an agreement without fear of liability for deviating from the fees and terms of the July 8 order, if it is clear that the agreement will not be admissible as evidence or otherwise taken into account in any government proceeding involving the setting or adjustment of the royalties payable to copyright owners of sound recordings for the public performance or reproduction in ephemeral phonorecords or copies of such works, the determination of terms or conditions related thereto,*

or the establishment of notice or recordkeeping requirements.

SEC. 3. SUSPENSION OF CERTAIN PAYMENTS.

(a) NONCOMMERCIAL WEBCASTERS.—

(1) IN GENERAL.—The payments to be made by noncommercial webcasters for the digital performance of sound recordings under section 114 of title 17, United States Code, and the making of ephemeral phonorecords under section 112 of title 17, United States Code, during the period beginning on October 28, 1998, and ending on May 31, 2003, which have not already been paid, shall not be due until June 20, 2003.

(2) DEFINITION.—In this subsection, the term “noncommercial webcaster” has the meaning given that term in section 114(f)(5)(E)(i) of title 17, United States Code, as added by section 4 of this Act.

(b) SMALL COMMERCIAL WEBCASTERS.—

(1) IN GENERAL.—The receiving agent may, in a writing signed by an authorized representative thereof, delay the obligation of any 1 or more small commercial webcasters to make payments pursuant to sections 112 and 114 of title 17, United States Code, for a period determined by such entity to allow negotiations as permitted in section 4 of this Act, except that any such period shall end no later than December 15, 2002. The duration and terms of any such delay shall be as set forth in such writing.

(2) DEFINITIONS.—In this subsection—

(A) the term “webcaster” has the meaning given that term in section 114(f)(5)(E)(iii) of title 17, United States Code, as added by section 4 of this Act; and

(B) the term “receiving agent” shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002.

SEC. 4. AUTHORIZATION FOR SETTLEMENTS.

Section 114(f) of title 17, United States Code, is amended by adding after paragraph (4) the following:

“(5)(A) Notwithstanding section 112(e) and the other provisions of this subsection, the receiving agent may enter into agreements for the reproduction and performance of sound recordings under section 112(e) and this section by any 1 or more small commercial webcasters or noncommercial webcasters during the period beginning on October 28, 1998, and ending on December 31, 2004, that, once published in the Federal Register pursuant to subparagraph (B), shall be binding on all copyright owners of sound recordings and other persons entitled to payment under this section, in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress. Any such agreement for small commercial webcasters shall include provisions for payment of royalties on the basis of a percentage of revenue or expenses, or both, and include a minimum fee. Any such agreement may include other terms and conditions, including requirements by which copyright owners may receive notice of the use of their sound recordings and under which records of such use shall be kept and made available by small commercial webcasters or noncommercial webcasters. The receiving agent shall be under no obligation to negotiate any such agreement. The receiving agent shall have no obligation to any copyright owner of sound recordings or any other person entitled to payment under this section in negotiating any such agreement, and no liability to any copyright owner of sound recordings or any other person entitled to payment under this section for having entered into such agreement.

“(B) The Copyright Office shall cause to be published in the Federal Register any agreement entered into pursuant to subparagraph (A). Such publication shall include a statement containing the substance of subparagraph (C). Such agreements shall not be included in the Code of Federal Regulations. Thereafter, the terms of such agreement shall be available, as an option, to any small commercial webcaster or

noncommercial webcaster meeting the eligibility conditions of such agreement.

“(C) Neither subparagraph (A) nor any provisions of any agreement entered into pursuant to subparagraph (A), including any rate structure, fees, terms, conditions, or notice and recordkeeping requirements set forth therein, shall be admissible as evidence or otherwise taken into account in any administrative, judicial, or other government proceeding involving the setting or adjustment of the royalties payable for the public performance or reproduction in ephemeral phonorecords or copies of sound recordings, the determination of terms or conditions related thereto, or the establishment of notice or recordkeeping requirements by the Librarian of Congress under paragraph (4) or section 112(e)(4). It is the intent of Congress that any royalty rates, rate structure, definitions, terms, conditions, or notice and recordkeeping requirements, included in such agreements shall be considered as a compromise motivated by the unique business, economic and political circumstances of small webcasters, copyright owners, and performers rather than as matters that would have been negotiated in the marketplace between a willing buyer and a willing seller, or otherwise meet the objectives set forth in section 801(b).

“(D) Nothing in the Small Webcaster Settlement Act of 2002 or any agreement entered into pursuant to subparagraph (A) shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of the determination by the Librarian of Congress of July 8, 2002, of rates and terms for the digital performance of sound recordings and ephemeral recordings, pursuant to sections 112 and 114.

“(E) As used in this paragraph—

“(i) the term ‘noncommercial webcaster’ means a webcaster that—

“(I) is exempt from taxation under section 501 of the Internal Revenue Code of 1986 (26 U.S.C. 501);

“(II) has applied in good faith to the Internal Revenue Service for exemption from taxation under section 501 of the Internal Revenue Code and has a commercially reasonable expectation that such exemption shall be granted; or

“(III) is operated by a State or possession or any governmental entity or subordinate thereof, or by the United States or District of Columbia, for exclusively public purposes;

“(ii) the term ‘receiving agent’ shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002; and

“(iii) the term ‘webcaster’ means a person or entity that has obtained a compulsory license under section 112 or 114 and the implementing regulations therefor to make eligible non-subscription transmissions and ephemeral recordings.

“(F) The authority to make settlements pursuant to subparagraph (A) shall expire December 15, 2002, except with respect to noncommercial webcasters for whom the authority shall expire May 31, 2003.”

SEC. 5. DEDUCTIBILITY OF COSTS AND EXPENSES OF AGENTS AND DIRECT PAYMENT TO ARTISTS OF ROYALTIES FOR DIGITAL PERFORMANCES OF SOUND RECORDINGS.

(a) FINDINGS.—Congress finds that—

(1) in the case of royalty payments from the licensing of digital transmissions of sound recordings under subsection (f) of section 114 of title 17, United States Code, the parties have voluntarily negotiated arrangements under which payments shall be made directly to featured recording artists and the administrators of the accounts provided in subsection (g)(2) of that section;

(2) such voluntarily negotiated payment arrangements have been codified in regulations issued by the Librarian of Congress, currently found in section 261.4 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002;

(3) other regulations issued by the Librarian of Congress were inconsistent with the voluntarily negotiated arrangements by such parties concerning the deductibility of certain costs incurred for licensing and arbitration, and Congress is therefore restoring those terms as originally negotiated among the parties; and

(4) in light of the special circumstances described in this subsection, the uncertainty created by the regulations issued by the Librarian of Congress, and the fact that all of the interested parties have reached agreement, the voluntarily negotiated arrangements agreed to among the parties are being codified.

(b) DEDUCTIBILITY.—Section 114(g) of title 17, United States Code, is amended by adding after paragraph (2) the following:

“(3) A nonprofit agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts to any person or entity entitled thereto other than copyright owners and performers who have elected to receive royalties from another designated agent and have notified such nonprofit agent in writing of such election, the reasonable costs of such agent incurred after November 1, 1995, in—

“(A) the administration of the collection, distribution, and calculation of the royalties;

“(B) the settlement of disputes relating to the collection and calculation of the royalties; and

“(C) the licensing and enforcement of rights with respect to the making of ephemeral recordings and performances subject to licensing under section 112 and this section, including those incurred in participating in negotiations or arbitration proceedings under section 112 and this section, except that all costs incurred relating to the section 112 ephemeral recordings right may only be deducted from the royalties received pursuant to section 112.

“(4) Notwithstanding paragraph (3), any designated agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts, the reasonable costs identified in paragraph (3) of such agent incurred after November 1, 1995, with respect to such copyright owners and performers who have entered with such agent a contractual relationship that specifies that such costs may be deducted from such royalty receipts.”

(c) DIRECT PAYMENT TO ARTISTS.—Section 114(g)(2) of title 17, United States Code, is amended to read as follows:

“(2) An agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) shall distribute such receipts as follows:

“(A) 50 percent of the receipts shall be paid to the copyright owner of the exclusive right under section 106(6) of this title to publicly perform a sound recording by means of a digital audio transmission.

“(B) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Musicians (or any successor entity) to be distributed to nonfeatured musicians (whether or not members of the American Federation of Musicians) who have performed on sound recordings.

“(C) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Television and Radio Artists (or any successor entity) to be distributed to nonfeatured vocalists (whether or not members of the American Federation of Television and Radio Artists) who have performed on sound recordings.

“(D) 45 percent of the receipts shall be paid, on a per sound recording basis, to the recording

artist or artists featured on such sound recording (or the persons conveying rights in the artists' performance in the sound recordings).”.

SEC. 6. REPORT TO CONGRESS.

By not later than June 1, 2004, the Comptroller General of the United States, in consultation with the Register of Copyrights, shall conduct and submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a study concerning the economic arrangements among small commercial webcasters covered by agreements entered into pursuant to section 114(f)(5)(A) of title 17, United States Code, as added by section 4 of this Act, and third parties, and the effect of those arrangements on royalty fees payable on a percentage of revenue or expense basis.

Mr. BERMAN. Mr. Speaker, I rise to support House adoption of the Senate substitute amendment to H.R. 5649. This legislation provides important assistance to noncommercial webcasters, small commercial webcasters, recording artists, and owners of sound recording copyrights.

Early last month, the House passed H.R. 5649 on voice vote under suspension of the rules. As passed by the House, H.R. 5649 provided small commercial webcasters with a discount on the webcasting royalties they owed. The House-passed bill actually specified the rates and terms of the discount these webcasters would receive.

Unfortunately, H.R. 5649 was stalled in the Senate. Certain broadcasters expressed concern that the terms of the discount specified in H.R. 5649 would have a precedential effect in future webcasting royalty-setting proceedings. Noncommercial webcasters expressed the concern that H.R. 5649 did not give them a discount on webcasting royalties, as it did for small commercial webcasters. The Senate decided to amend H.R. 5649 to address these concerns, and the bill before us today reflects those accommodations.

The Senate substitute delays the webcasting royalty obligations of noncommercial webcasters, which came due late last month, until June 20, 2003. The bill also allows the collecting agent to delay the royalty obligation owed by any 1 or more small commercial webcaster until December 15, 2002.

Instead of specifying the rates and terms of the discount for noncommercial and small commercial webcasters, the Senate substitute delegates the ability to establish an industry-wide discount to the collecting agent for copyright owners and recording artists. The understating and expectation of both the House and the Senate is that the collecting agent will offer noncommercial and small commercial webcasters a royalty discount based on the terms and conditions set in the House-passed version of H.R. 5649. In other words, Congress expects that the collecting agent will offer noncommercial and small commercial webcasters the same deal represented by H.R. 5649.

There is no doubt that this approach is unusual. Unlike the typical statutory license rate-setting process, this approach does not involve any governmental entity in the rate-setting process, except for the Copyright Office's ministerial task of publishing those agreements in the Federal Register. This should not be considered a precedent or model for future legislation. It is a response to the unique circumstances surrounding the reaction to the rates set by the Librarian of Congress, the ensuing negotiations between copyright owners

and webcasters, and the opposition H.R. 5649 generated in the Senate.

Again, I ask my colleagues to support the Senate substitute to H.R. 5649.

Mr. SENSENBRENNER. Mr. Speaker, on October 7, 2002, the House passed H.R. 5649, the “Small Webcaster Amendments Act of 2002,” under suspension of the Rules. Earlier this evening, the Senate passed a substitute version of the bill, which I urge the House to adopt by unanimous consent.

By way of background, H.R. 5649 as originally drafted suspended the implementation of the Librarian of Congress's decision regarding royalty rates that webcasters must pay to copyright owners for the performance of copyrighted works for six months beginning on October 20. At the time, the purpose of this delay was to ensure that all parties would receive the judicial process to which they are entitled under the law before the rate took effect.

H.R. 5649 placed a burr under the saddle of both the copyright holders and the small webcasters to conclude negotiations on these matters that began last summer. The parties negotiated around the clock and arrived at a deal that set new rates and payment terms, obviating the need for further legal or administrative intervention.

Following House passage of H.R. 5649, Senator HELMS expressed concerns regarding the potential effect of codifying the actual agreement in the statute on future rate proceedings. As a result, and after further negotiations in the past two days, the parties have developed the Helms substitute before us which makes the following changes:

It contains a “findings” section which explains the need for the legislation.

It suspends the obligation of non-commercial webcasters, such as college radio stations, to pay copyright holders royalties owed until June 20, 2003. This will give both sides extra time to negotiate a new deal.

Under H.R. 5649 as originally passed by the House, SoundExchange, the non-profit entity which collects and distributes royalties owed copyright holders, is permitted to deduct its operating and legal expenses from collected fees. The substitute retains this feature and also permits any other for-profit entity designated as an agent by the affected copyright holders to deduct its expenses in the same manner.

SoundExchange is authorized to negotiate an agreement on behalf of all copyright owners and performers with small webcasters. Affected small commercial webcasters will not pay royalties through December 15, 2002, which is intended to facilitate the implementation of a settlement identical to the terms set forth in H.R. 5649 as passed by the House.

The Comptroller General and the Register of Copyrights will develop a joint report for the House and Senate Committees on the Judiciary regarding the effect of “economic arrangements among small webcasters and third parties” on royalty fees owed copyright holders.

Finally, Mr. Speaker, I would like to commend both the small webcasters and the copyright owners for their diligent efforts to reach an agreement. I understand that this is a complex and controversial issue and both sides met the challenge by continuing to negotiate in good faith.

H.R. 5649, as amended, is a good bill. It will ultimately accomplish the same goal as H.R. 5649 as passed by the House, only in a dif-

ferent way. I urge my colleagues to support the bill.

TAKEN FROM THE SPEAKER'S TABLE AND CONCURRING IN SENATE AMENDMENT

H.R. 3833, to facilitate the creation of a new, second-level Internet domain within the United States country code domain that will be a haven for material that promotes positive experiences for children and families using the Internet, provides a safe online environment for children, and helps to prevent children from being exposed to harmful material on the Internet, and for other purposes.

Strike out all after the enacting clause and insert:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Dot Kids Implementation and Efficiency Act of 2002”.

SEC. 2. FINDINGS AND PURPOSES.

(a) FINDINGS.—The Congress finds that—

(1) the World Wide Web presents a stimulating and entertaining opportunity for children to learn, grow, and develop educationally and intellectually;

(2) Internet technology also makes available an extensive amount of information that is harmful to children, as studies indicate that a significant portion of all material available on the Internet is related to pornography;

(3) young children, when trying to use the World Wide Web for positive purposes, are often presented—either mistakenly or intentionally—with material that is inappropriate for their age, which can be extremely frustrating for children, parents, and educators;

(4) exposure of children to material that is inappropriate for them, including pornography, can distort the education and development of the Nation's youth and represents a serious harm to American families that can lead to a host of other problems for children, including inappropriate use of chat rooms, physical molestation, harassment, and legal and financial difficulties;

(5) young boys and girls, older teens, troubled youth, frequent Internet users, chat room participants, online risk takers, and those who communicate online with strangers are at greater risk for receiving unwanted sexual solicitation on the Internet;

(6) studies have shown that 19 percent of youth (ages 10 to 17) who used the Internet regularly were the targets of unwanted sexual solicitation, but less than 10 percent of the solicitations were reported to the police;

(7) children who come across illegal content should report it to the congressionally authorized CyberTipline, an online mechanism developed by the National Center for Missing and Exploited Children, for citizens to report sexual crimes against children;

(8) the CyberTipline has received more than 64,400 reports, including reports of child pornography, online enticement for sexual acts, child molestation (outside the family), and child prostitution;

(9) although the computer software and hardware industries, and other related industries, have developed innovative ways to help parents and educators restrict material that is harmful to minors through parental control protections and self-regulation, to date such efforts have not provided a national solution to the problem of minors accessing harmful material on the World Wide Web;

(10) the creation of a “green-light” area within the United States country code Internet domain, that will contain only content that is appropriate for children under the age of 13, is analogous to the creation of a children's section within a library and will promote the positive experiences of children and families in the United States; and

(11) while custody, care, and nurture of the child reside first with the parent, the protection of the physical and psychological well-being of minors by shielding them from material that is harmful to them is a compelling governmental interest.

(b) PURPOSES.—The purposes of this Act are—

(1) to facilitate the creation of a second-level domain within the United States country code Internet domain for the location of material that is suitable for minors and not harmful to minors; and

(2) to ensure that the National Telecommunications and Information Administration oversees the creation of such a second-level domain and ensures the effective and efficient establishment and operation of the new domain.

SEC. 3. NTIA AUTHORITY.

Section 103(b)(3) of the National Telecommunications and Information Administration Organization Act (47 U.S.C. 902(b)(3)) is amended—

(1) in subparagraph (A), by striking “and” at the end;

(2) in subparagraph (B), by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following new subparagraph:

“(C) shall assign to the NTIA responsibility for providing for the establishment, and overseeing operation, of a second-level Internet domain within the United States country code domain in accordance with section 157.”.

SEC. 4. CHILD-FRIENDLY SECOND-LEVEL INTERNET DOMAIN.

The National Telecommunications and Information Administration Organization Act (47 U.S.C. 901 et seq.) is amended in part C by adding at the end the following new section:

“SEC. 157. CHILD-FRIENDLY SECOND-LEVEL INTERNET DOMAIN.

“(a) RESPONSIBILITIES.—The NTIA shall require the registry selected to operate and maintain the United States country code Internet domain to establish, operate, and maintain a second-level domain within the United States country code domain that provides access only to material that is suitable for minors and not harmful to minors (in this section referred to as the ‘new domain’).

“(b) CONDITIONS OF CONTRACTS.—

“(1) INITIAL REGISTRY.—The NTIA shall not exercise any option periods under any contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain unless the initial registry agrees, during the 90-day period beginning upon the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002, to carry out, and to operate the new domain in accordance with, the requirements under subsection (c). Nothing in this subsection shall be construed to prevent the initial registry of the United States country code Internet domain from participating in the NTIA’s process for selecting a successor registry or to prevent the NTIA from awarding, to the initial registry, the contract to be successor registry subject to the requirements of paragraph (2).

“(2) SUCCESSOR REGISTRIES.—The NTIA shall not enter into any contract for operating and maintaining the United States country code Internet domain with any successor registry unless such registry enters into an agreement with the NTIA, during the 90-day period after selection of such registry, that provides for the registry to carry out, and the new domain to operate in accordance with, the requirements under subsection (c).

“(c) REQUIREMENTS OF NEW DOMAIN.—The registry and new domain shall be subject to the following requirements:

“(1) Written content standards for the new domain, except that the NTIA shall not have any authority to establish such standards.

“(2) Written agreements with each registrar for the new domain that require that use of the

new domain is in accordance with the standards and requirements of the registry.

“(3) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to use the new domain in accordance with the standards and requirements of the registry.

“(4) Rules and procedures for enforcement and oversight that minimize the possibility that the new domain provides access to content that is not in accordance with the standards and requirements of the registry.

“(5) A process for removing from the new domain any content that is not in accordance with the standards and requirements of the registry.

“(6) A process to provide registrants to the new domain with an opportunity for a prompt, expeditious, and impartial dispute resolution process regarding any material of the registrant excluded from the new domain.

“(7) Continuous and uninterrupted service for the new domain during any transition to a new registry selected to operate and maintain new domain or the United States country code domain.

“(8) Procedures and mechanisms to promote the accuracy of contact information submitted by registrants and retained by registrars in the new domain.

“(9) Operability of the new domain not later than one year after the date of the enactment of the Dot Kids Implementation and Efficiency Act of 2002.

“(10) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit two-way and multiuser interactive services in the new domain, unless the registrant certifies to the registrar that such service will be offered in compliance with the content standards established pursuant to paragraph (1) and is designed to reduce the risk of exploitation of minors using such two-way and multiuser interactive services.

“(11) Written agreements with registrars, which shall require registrars to enter into written agreements with registrants, to prohibit hyperlinks in the new domain that take new domain users outside of the new domain.

“(12) Any other action that the NTIA considers necessary to establish, operate, or maintain the new domain in accordance with the purposes of this section.

“(d) OPTION PERIODS FOR INITIAL REGISTRY.—The NTIA shall grant the initial registry the option periods available under the contract between the NTIA and the initial registry to operate and maintain the United States country code Internet domain if, and may not grant such option periods unless, the NTIA finds that the initial registry has satisfactorily performed its obligations under this Act and under the contract. Nothing in this section shall preempt or alter the NTIA’s authority to terminate such contract for the operation of the United States country code Internet domain for cause or for convenience.

“(e) TREATMENT OF REGISTRY AND OTHER ENTITIES.—

“(1) IN GENERAL.—Only to the extent that such entities carry out functions under this section, the following entities are deemed to be interactive computer services for purposes of section 230(c) of the Communications Act of 1934 (47 U.S.C. 230(c)):

“(A) The registry that operates and maintains the new domain.

“(B) Any entity that contracts with such registry to carry out functions to ensure that content accessed through the new domain complies with the limitations applicable to the new domain.

“(C) Any registrar for the registry of the new domain that is operating in compliance with its agreement with the registry.

“(2) SAVINGS PROVISION.—Nothing in paragraph (1) shall be construed to affect the applicability of any other provision of title II of the

Communications Act of 1934 to the entities covered by subparagraph (A), (B), or (C) of paragraph (1).

“(j) DEFINITIONS.—For purposes of this section, the following definitions shall apply:

“(1) HARMFUL TO MINORS.—The term ‘harmful to minors’ means, with respect to material, that—

Mr. SHIMKUS. Mr. Speaker, it is with great pride that I rise today upon the passage of H.R. 3833, The “Dot Kids Implementation and Efficiency Act of 2002.” This bill creates a subdomain on the “.us” country-code that will store only child-friendly sites.

I would like to thank Senators ENSIGN and DORGAN as the Senate sponsors of this bill, and I give special recognition to the coauthors, Congressman ED MARKEY and the Telecommunications Subcommittee Chairman FRED UPTON, for their tireless effort and leadership on this project.

In addition to the members, I would also like to thank the talented and hard-working staff involved: Kelly Zerzan, Will Nordwind, Collin Crowell, Brendan Kelsay, Tim Kurth, and my staffer, Courtney Andersen. I would also like to thank Bryan Cunningham and Emmett O’Keefe for navigating this bill through the Senate. Hundreds of hours, a great deal of research, thought, patience, compromise and perseverance went into this legislation. It has truly been a labor of love for us all and I thank you.

I must not forget the organizations that supported this vision. H.R. 3833 was endorsed by the National Center for Missing and Exploited Children, the National Law Center for Children and Families, a Safer America for Everyone (SAFE) as well as by the Family Research Council. I thank these groups for taking a stand to help keep children safe on the Internet.

Mr. Speaker, this is a good day for children in America. Soon, kids will have their own playground on the Internet. When surfing on the “kid.us” domain, parents can rest assured that their children are gaining the educational and entertainment benefits of the Internet, without exposure to predators or inappropriate content.

We have all heard the horror stories about the harm that can come to unsupervised children online. I will sleep better at night knowing that we, as a body of representatives, took this positive step to help safeguard our children against the dangers that lurk on the World Wide Web.

I thank my colleagues for once again voting to pass H.R. 3833, the “Dot Kids Act.” This is a good piece of legislation, which demonstrates to our children that we care.

Mr. MARKEY. Mr. Speaker, I rise in support of this bill. I am an original cosponsor of the bill along with Mr. SHIMKUS, Chairman UPTON, as well as many other members. I want to commend Chairman TAUZIN, Ranking Member DINGELL and everyone involved for the excellent process on this bill that has led to a consensus, bipartisan proposal. This bill was approved unanimously by the House Energy and Commerce Committee, and was approved by the House back in May by a vote of 406 to 2.

The Senate has slightly altered the House-passed version and I support approving this amended version and sending it to President Bush for his signature. This is a consensus bill and a model of how legislative proposals can achieve success in a closely divided Congress. There is a reason that this is the sole telecommunications bill of any significance for

ordinary people that we will enact in the 107th Congress. And that’s because it was a bill that we worked together on—Republicans and Democrats—from the start. When we encountered issues, we resolved them by working together, and we sought out bipartisan support on the other side of the Capitol as well. Senator DORGAN and Senator ENSIGN also deserve tremendous credit for this achievement.

As many parents today know, the Internet often appears to be a veritable jungle of web sites. When a child logs on to search for games, stories, or educational material, search engines often turn up pages for the kids laden with pornography, violence or other content that is simply not appropriate for young children. To give children their own playground on the Internet, and to facilitate the easier browsing and filtering of content that many parents desire, we are poised now to enact H.R. 3833, the “Dot Kids Implementation and Efficiency Act.”

This bill directs the Department of Commerce, through the National Telecommunications and Information Administration (NTIA) to accelerate the creation of a “dot kids” domain by making it a secondary domain under our nation’s country code top level domain, which is “dot us.” The Department of Commerce awarded a free contract last October to authorize private sector management and commercialization of “dot U.S.”

I opposed the awarding of a free contract to a company to essentially manage and profit from a public asset. We only have one country code and the Department of Commerce should have ensured that the broader public interest was incorporated in any contract to manage the dot U.S. domain, or, as I indicated in a letter to the Department of Commerce in the summer of 2001, the contract should have been auctioned to the highest qualified bidder. We should be long past the time in this country of giving away public assets to private companies to profit from for free. Nevertheless, the DoC awarded the dot U.S. contract to NeuStar in October of 2001, and Congress must now subsequently ensure that future contract awards or extensions incorporate public interest conditions in such contract awards and “dot.kids” is clearly in the public interest.

What is essentially being proposed in the creation of a place on the Internet for websites that end in “dot kids-dot U.S.” (e.g., www.example.kids.us) The proposed “dot kids” domain will be a cyberspace sanctuary for content that is suitable for kids and will be an area devoted of content that is harmful to such minors.

I want to address at this point, very briefly, some of the free speech concerns that any endeavor that any endeavor of this type will inevitably raise. First let me emphasize how this approach departs from previous Congressional activity in this policy area. First, the proposed legislation will not subject all of the Internet communications to “harmful to minors” standard. If you’re in Tennessee, Taiwan, or Timbuktu you can publish or speak any content you want on the Internet. This proposal doesn’t affect your ability to do so on a “dot com,” “dot net,” “dot org,” or anywhere else. This proposal

now only addresses a subset of Internet commerce—the “dot us” space.

Moreover, it doesn’t even curtail speech throughout the entirety of the “dot U.S.” country code domain. If you’re in Providence, Rhode Island or Provo, Utah under this bill you are free to exercise your constitutional rights and this legislation contains no proposal that would subject anyone utilizing the “dot us” space to a standard suitable only for kids. Speech more appropriate for adults or teenagers will not be affected by this bill and can appear elsewhere in the “dot U.S.” domain.

The bill solely stipulates that if you want to operate in the “dot kids-dot U.S.” area—in other words, a mere subset of the “dot us” country code domain—you have entered a kid-friendly zone—a green light district if you will—where the content is suitable for children 12 and under. The “dot kids” proposal is not aimed at censoring Internet content per se. Rather, it is crafted to help organize content more appropriate for kids in a safe and secure cyber-zone, where the risk of young children clicking outside of that zone to unsuitable content, or being preyed upon or exploited online by adults posing as kids, is vastly diminished. Organizing kid-friendly content in this manner will enhance the effectiveness of filtering software and may better enable parents to set their children’s browsers so that their kids only surf within the “dot kids” domain.

And I also want to emphasize that use of the “dot kids” domain is not compulsory. Signing up for a “dot kids” domain—or parents sending their kids to websites in that location—remains completely voluntary and the free choice of both content speakers and parents. Finally, I want to note that this bill is not meant in any way to diminish or thwart the many laudable private sector efforts to create new and alternative ways for kids to have a safe and educational online experience. Our efforts here today are meant to supplement, not supplant, initiatives underway elsewhere by ensuring that our “dot us” country code reflects our public interest goals as a society in a way that hopefully can harness the best of advance technology for kids across the country.

Thank you, Mr. Speaker, and I again want to thank Mr. SHIMKUS, Chairman TAUZIN, Mr. DINGELL, and Chairman UPTON for their work on the bill.

Amendment to the title of S. 2237

Amend the title so as to read: "An Act to amend title 38, United States Code, to improve authorities of the Department of Veterans Affairs relating to veterans' compensation, dependency and indemnity compensation, and pension benefits, education benefits, housing benefits, memorial affairs benefits, life insurance benefits, and certain other benefits for veterans, to improve the administration of benefits for veterans, to make improvements in procedures relating to judicial review of veterans' claims for benefits, and for other purposes."

Mr. SIMPSON. Mr. Speaker, I rise in strong support for S. 2237, the Veterans Benefits Act of 2002. This sweeping measure encompasses enhancements to veterans' compensation, pension, insurance and home loan benefits, among other matters.

The Veterans Benefits Act of 2002 comprises provisions included in S. 2237 and five House bills previously considered in this body. I will highlight a few of the provisions:

I am especially pleased that we are able to extend VA health care eligibility to surviving spouses who remarry after age 55. Under current law, a surviving spouse is not entitled to this benefit while married. As I explained to Ms. Blackwell following her testimony before our subcommittee, I wish we had the means at this time to be more generous to these deserving spouses. However, as the chairman has indicated, this is a first step in restoring entitlement to the host of benefits these women and men must give up when they remarry later in life. I thank MIKE BILIRAKIS for his leadership on this issue.

The bill also includes modest increases in funding for State approving agencies given the additional statutory duties SAAs now perform in maintaining the integrity of servicemember and veterans' education and training programs. These new funding levels are \$14 million for fiscal year 2003, \$18 million for fiscal year 2004, \$18 million for fiscal year 2005, \$19 million for fiscal year 2006, and \$19 million for fiscal year 2007.

I especially look forward to an aggressive initiative by SAAs in seeking out and approving for veterans' training, employer-based on-job training, and apprenticeship opportunities across the country. Our veterans use of VA educational assistance programs for OJT and

apprenticeship is very limited. Lastly, I agree with Chairman SMITH; VA's OJT apprenticeship program largely is still based on the original World War II model. Congress has some serious work to do in updating this program next year.

S. 2237, as amended, provides coverage under the Soldiers' and Sailors' Civil Relief Act to members of the National Guard who are called to active service for more than 30 consecutive days to respond to a national emergency. I recognize LANE EVANS for his work on this proposal.

The bill also increases the Medal of Honor special pension from \$600 to \$1,000 per month. I am pleased we are able to recognize, albeit in a small way, our nation's real heroes.

S. 2237, as amended, authorizes the Secretary of the Army to place a new memorial at Arlington National cemetery in honor of veterans who fought in the Battle of the Bulge of World War II, one of the greatest land battles of that war.

In addition, S. 2237 provides enhancements to existing authorities which provide compensation to women veterans and veterans with hearing loss.

Mr. Speaker, we have worked with the Senate on this bill for many months, and I'm proud of the outcome. Many veterans and their survivors will indeed benefit.

I must give due recognition to the Chairman and Ranking Member, CHRIS SMITH and LANE EVANS, respectively, for their unwavering leadership. During the 107th Congress, this committee has brought to the floor 23 bills, all of which passed the House overwhelmingly. I must also thank my good friend, the Ranking Member of the Benefits Subcommittee, SILVESTRE REYES.

Mr. Speaker, I urge my colleagues to support S. 2237, this final veterans package of the 107th Congress.

Mr. EVANS. Mr. Speaker, I rise in strong support of the bill, S. 2237, as agreed to by both the House and the Senate. This bill improves compensation benefits for hearing disabled veterans and for women veterans, extends protection under the Soldiers' and Sailors' Civil Relief Act to members of the National Guard and provides improvements to the judicial review of claims for veterans benefits.

The agreement before the House is the result of the efforts of many people on both sides of the aisle. I thank our Chairman, CHRIS SMITH, for his determined and effective leadership. I also thank other Members of our House Committee; the leadership of the Veterans Affairs Committee in the other body and, of course, the staff of our House Committee who have worked long and hard on this legislation. In particular, I thank Mary Ellen McCarthy and Geoffrey Colver for their untiring efforts.

S. 2237 incorporates provisions from a number of bills passed by the House. The Veterans Benefits Act of 2002 will allow surviving spouses who remarry after age 55 to retain CHAMPVA health insurance benefits. Mr. Speaker, I was honored by the Gold Star Wives of America for my advocacy on behalf of surviving spouses of veterans. While I am pleased that these spouses, like civil service surviving spouses will be able to retain health insurance benefits, I am extremely disappointed that the provision allowing Dependency and Indemnity Compensation (DIC) recipients to remarry after age 65 and retain

those benefits was not included in the final bill. I hope that in the next Congress, these surviving spouses will be able to receive full comparability with federal civil service survivors who are allowed to remarry at age 55 without loss of benefits.

The bill also includes provisions similar to those contained in H.R. 4017, which I introduced, in order to provide members of the National Guard who serve for at least 30 consecutive days with protections under the Soldiers' and Sailors' Civil Relief Act (SSCRA). The SSCRA protects those who are serving our country from civil actions and reduces the rate of interest on certain obligations entered into prior to being activated for military service. When we ask the men and women of the National Guard to respond to a national emergency, such as the services required following the tragedies of September 11th, we have a responsibility to assure that their service to our country will not place them in unnecessary financial jeopardy.

Mr. Speaker, the bill expands the jurisdiction of the Court of Appeals for the Federal Circuit over cases appealed from the Court of Appeals for Veterans Claims to cover all questions of law and not merely interpretations of statutes and regulations. It clarifies the authority of the Court of Appeals for Veterans Claims to reverse decisions of the Board of Veterans Appeals in appropriate cases and requires the decisions be based upon the record as a whole, taking into account the pro-veteran rule known as "benefit of the doubt." Under the bill, non-attorneys who are permitted to practice before the Court of Veterans Appeals will be able to qualify for fees under the Equal Access to Justice Act even if they are not supervised by an attorney. Under current law, these practitioners are eligible for these fees only if their work is supervised by an attorney. I hope these changes will provide fairer and more efficient decisions on veterans' claims.

In addition to these benefit provisions, S. 2237 also:

Authorizes a study by the National Academy of Science concerning the relationship of military hearing loss and acoustic trauma to military service.

Authorizes the placement of a memorial to the World War II Battle of the Bulge at Arlington National Cemetery.

Allows severely disabled service-connected veterans who qualify for Veterans Mortgage Life Insurance to retain their coverage regardless of age.

Authorizes a two-year program of hybrid adjustable rate mortgages under the VA home loan program.

Provides for an increase to \$1000 per month in special pension benefits payable to persons who have been awarded the Medal of Honor.

Sets forth the amounts of benefits to be paid as service-connected compensation and DIC benefits effective December 1, 2002.

S. 2237 will now be considered by the Senate. If S. 2237 is passed by the Senate as approved by the House, it will be sent to the White House to be signed into law by President Bush.

Mr. Speaker, I urge my colleagues to support this legislation.

Mr. SMITH of New Jersey. Mr. Speaker, the bill which is before the House represents a compromise measure that has been worked out with the Senate on a number of benefit-related measures considered this year.

In May of this year, the House considered and passed H.R. 4085, the Veterans and Survivors Benefits Expansion Act. There were three major provisions in that bill: (1) the annual cost-of-living adjustment for disabled veterans and the survivors eligible for dependency and indemnity compensation; (2) a revision to the eligibility for survivor benefits so that surviving spouses of veterans who died of service-related causes could retain their eligibility for veterans' benefit even if they remarried after age 65; and (3) a reduction in the loan fees payable by reservists who use the VA home loan program.

The Senate stripped all but the COLA from H.R. 4085 at the end of September and returned it to the House. We agreed to the clean COLA bill, which was signed by President Bush and is Public Law 107-247.

The Senate also sent us a benefits bill, S. 2237, which has become the vehicle for the compromises worked out by the two committees for the provisions previously contained in H.R. 4085 and a number of provisions contained in the Senate bill passed last month.

Because of an evolving budget situation, the committees found themselves forced to offset virtually all of the PAYGO costs associated with the bill. The Senate bill had basically none of the provisions originally contained in H.R. 4085. Instead, it proposed to expand eligibility for service-connected hearing loss and allow veterans to obtain a "hybrid" adjustable rate mortgage using their VA home loan eligibility.

The compromise includes modified versions of these important Senate provisions. It does not include the DIC change proposed by the House, although it provides eligibility for CHAMPVA for surviving spouses who remarried after age 55. They must apply for this benefit within one year of the date the President signs this legislation. This and other changes were made in order to keep the bill within strict budget guidelines governing direct spending, or PAYGO.

The compromise includes a House-passed provision authorizing the placement of a memorial at Arlington National Cemetery honoring veterans of the Battle of the Bulge. It includes as well a provision which originated in the House to raise the Medal of Honor pension to \$1,000 monthly and to make retroactive payments for those who were awarded this medal.

A provision is also included to extend coverage under the Soldiers' and Sailors' Civil Relief Act to members of the National Guard who are called to active service for more than 30 consecutive days to respond to a national emergency. Many members expressed an interest in this particular provision, and I commend Mr. EVANS for a similar proposal in H.R. 4017. Senator Wellstone was the author of a Senate proposal, and I am pleased that our compromise agreement on this is built upon their work.

For the benefit of my colleagues, I include at this point in the RECORD a joint explanatory statement describing the compromise agreement we have reached with the other body.

Mr. Speaker, I urge all Members to support this bipartisan measure for our Nation's veterans.

EXPLANATORY STATEMENT ON HOUSE
AMENDMENT TO SENATE BILL, S. 2237

S. 2237, as amended, the "Veterans Benefits Act of 2002," reflects a Compromise Agree-

ment the Senate and House Committees on Veterans' Affairs have reached on the following bills considered in the House and Senate during the 107th Congress: S. 2237 ("Senate Bill"), H.R. 2561, H.R. 3423, H.R. 4085, H.R. 4940, and H.R. 5055 ("House Bills"). S. 2237, as amended, passed the Senate on September 26, 2002; H.R. 2561 and H.R. 3423, as amended, passed the House on December 20, 2001; H.R. 4085, as amended, passed the House on May 21, 2002; and H.R. 4940, as amended, and H.R. 5055 passed the House on July 22, 2002.

The Senate and House Committees on Veterans' Affairs have prepared the following explanation of S. 2237, as amended, ("Compromise Agreement"). Differences between the provisions contained in the Compromise Agreement and the related provisions of S. 2237, H.R. 2561, H.R. 3423, H.R. 4085, H.R. 4940, H.R. 5055, are noted in this document, except for clerical corrections, conforming changes made necessary by the Compromise Agreement, and minor drafting, technical, and clarifying changes.

TITLE I—COMPENSATION AND BENEFITS
IMPROVEMENTS

Retention of Civilian Health and Medical Program of the Department of Veterans Affairs for Surviving Spouses Remarrying After Age 55

Current law

Section 103(d) of title 38, United States Code, prohibits a surviving spouse who has remarried from receiving dependency and indemnity compensation ("DIC"), VA health insurance under the Civilian Health and Medical Program of the Department of Veterans Affairs ("CHAMPVA"), home loan, and education benefits. These benefits may be reinstated in the event the subsequent remarriage is terminated.

House bill

Section 3 of H.R. 4085 would allow a surviving spouse who remarries after attaining age 65 to retain DIC, CHAMPVA health insurance, home loan, and education benefits. Spouses who remarried at age 65 or older prior to enactment of the bill would have one year from the date of enactment to apply for reinstatement of DIC and related benefits. The amount of DIC would be paid with no reduction of certain other benefits to which the surviving spouse might be entitled.

Senate bill

The Senate Bill contains no comparable provision.

Compromise agreement

Section 101 of the Compromise Agreement would provide that a surviving spouse, upon remarriage after attaining age 55, would retain CHAMPVA eligibility. Surviving spouses who remarried after attaining age 55 but prior to enactment of this Act would have one year to apply for reinstatement of this benefit. The Committees expect the Secretary will maintain data concerning the number of surviving spouses who become eligible or retain eligibility under this provision.

The Committees intend in the 108th Congress to consider full restoration of benefits for surviving spouses who remarry after attaining age 55.

Clarification of Entitlement to Special Monthly Compensation for Women Veterans Who Have Service-connected Loss of Breast Tissue

Current law

Section 1114(k) of title 38, United States Code, authorizes the Department of Veterans Affairs ("VA") to provide special monthly compensation to any woman veteran who "has suffered the anatomical loss of one or

both breasts (including loss by mastectomy)" as a result of military service. Regulations published at section 4.116 of title 38, Code of Federal Regulations, have limited this compensation to "Anatomical loss of a breast exists when there is complete surgical removal of breast tissue (or the equivalent loss of breast tissue due to injury). As defined under this section, radical mastectomy, modified radical mastectomy, and simple (or total) mastectomy result in anatomical loss of a breast, but wide local excision, with or without significant alteration of size or form, does not."

Senate bill

Section 101 of S. 2237 would amend section 1114(k) of title 38, United States Code, to specify that women veterans who have suffered the anatomical loss of half of the tissue of one or both breasts in or as a result of military service may be eligible for special monthly compensation.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 102 of the Compromise Agreement follows the Senate language, and would amend it to extend eligibility to women veterans who have suffered the anatomical loss of 25 percent or more of tissue from one or both breasts (including loss by mastectomy or partial mastectomy) or who received radiation treatment of breast tissue. The Committees intend that this change should extend eligibility for special monthly compensation to women veterans whose medical treatments (other than "cosmetic surgery") or injuries have resulted in a significant change in size, form, function, or appearance of one or both breasts.

Specification of Hearing Loss Required for Compensation For Hearing Loss in Paired Organs

Current Law

Under section 1160 of title 38, United States Code, special consideration is extended to a veteran's service-connected disabilities in "paired organs or extremities," such as kidneys, lungs, feet, or hands. For these paired organs or extremities, VA is authorized when rating disability to consider any degree of damage to both organs, even if only one resulted from military service. Total impairment is not a requirement for kidneys, hands, feet, or lungs. Proportional impairment, such as "the loss or loss of use of one kidney as a result of service-connected disability and involvement of the other kidney as a result of non-service-connected disability," is specifically provided for in subsections (2), (4), and (5) of section 1160(a) of title 38, United States Code. However, total deafness in both ears is required under section 1160(a)(3) of title 38, United States Code, for special consideration of hearing loss.

Senate bill

Section 102 of S. 2237 would eliminate the word "total" from section 1160(a)(3) of title 38, United States Code, and allow VA to consider partial non-service-connected hearing loss in one ear when rating disability for veterans with compensable service-connected hearing loss in the other ear.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 103 of the Compromise Agreement follows the Senate language.

Assessment of Acoustic Trauma Associated With Military Service From World War II to Present

Current law

There is no applicable current law.

SENATE BILL

Section 103(a) of S. 2237 would authorize the Secretary to establish a presumption of service connection for hearing loss or tinnitus in veterans who served in certain military occupational specialties during specific periods of time if VA finds that evidence warrants such a presumption. Section 103(b) would extend presumption rebuttal provisions in title 38, United States Code, to cover service-connected hearing loss, should such a presumption be established.

Section 103(c) of the Senate Bill would require VA to enter into a contract with the National Academy of Sciences ("NAS") or an equivalent scientific organization to review scientific evidence on forms of acoustic trauma that could contribute to hearing disorders for personnel serving in specific military occupational specialties. Section 103(c)(2)(B) of the Senate Bill would direct NAS to identify forms of acoustic trauma likely to cause hearing damage in servicemembers, and, in section 103(c)(2)(C), to determine whether such damage would be immediate, cumulative, or delayed. Section 103(c)(2)(D) of the Senate Bill would require NAS to assess when audiometric data collected by the military services became adequate to allow an objective assessment of individual exposure by VA, examining a representative sample of records from World War II to present by period of service. Section 103(c)(2)(E) of the Senate Bill would require NAS to identify military occupational specialties in which servicemembers are likely to be exposed to sufficient acoustic trauma to cause hearing disorders.

Section 103(d) of S. 2237 would require VA to report on medical care provided to veterans for hearing disorders from fiscal years 1999-2001; on the number of disability compensation claims received and granted for hearing loss, tinnitus, or both during those years; and an estimate of the total cost to VA of adjudicating those claims in full-time employee equivalents.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 104 of the Compromise Agreement would strike sections 103(a) and 103(b) of the Senate Bill authorizing a presumption of service connection. The Compromise Agreement follows the Senate language requiring VA to enter into a contract with NAS, but would change the focus of the study to assessment of acoustic trauma associated with military service from World War II to present.

The Compromise Agreement would strike sections 103(c)(2)(B), 103(c)(2)(D), 103(c)(2)(E), and all references to military occupational specialties. The Compromise Agreement follows the Senate language requiring NAS to determine how much exposure to acoustic trauma or noise damage during military service might cause or contribute to hearing loss, hearing threshold shift, or tinnitus, and whether this damage may be immediate- or delayed-onset, cumulative, progressive, or a combination of these.

The Compromise Agreement would preserve provisions requiring NAS to assess when audiometric measures became adequate to assess individual hearing threshold shift reliably and when sufficiently protective hearing conservation measures became available. It would also add a third provision requiring NAS to identify age, occupational history, and other factors which could contribute to an individual's noise-induced hearing loss.

In assessing when audiometric data collected by the military became adequate for

VA to evaluate if a veteran's hearing threshold shift could be detected at or prior to separation, the Committees intend for NAS to review and report on a representative sample of individual records. This should reflect not only an appropriate distribution of individuals among the various Armed Forces, but within each military service branch so that these records represent servicemembers who might reasonably be expected to have different levels of noise exposure in the course of their duties. The representative sample should also include records of servicemembers discharged during or after distinct periods of war or conflict and consider the environment in which they served in order to gauge how adequately each branch collected audiometric data following World War II, the Korean conflict, the Vietnam era, and during and following the Persian Gulf War.

The Compromise Agreement would generally follow the Senate language requiring VA to report on hearing loss claims and medical treatment for hearing disorders. The Compromise Agreement would amend this language to refer to the number of decisions issued and their results, rather than claims submitted in fiscal years 2000 through 2002, and would remove references to military occupational specialties.

TITLE II—MEMORIAL AFFAIRS

Prohibition on Certain Additional Benefits For Persons Committing Capital Crimes

Current law

Sections 2411 and 2408(d) of title 38, United States Code, prohibit persons who are convicted of capital crimes from interment or memorialization in National Cemetery Administration cemeteries, Arlington National Cemetery ("ANC"), or a State cemetery that receives VA grant funding. Section 5313 of title 38, United States Code, further limits VA benefits available to veterans who die while fleeing prosecution or after being convicted of a capital crime.

Senate bill

Section 402 of S. 2237 would prohibit the issuance of Presidential Memorial Certificates, flags, and memorial headstones or grave markers to veterans convicted of or fleeing from prosecution for a State or Federal capital crime.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 201 of the Compromise Agreement follows the Senate language.

Procedures for Disqualification of Persons Committing Capital Crimes For Interment or Memorialization in National Cemeteries

Current law

Section 2411 of title 38, United States Code, prohibits interment or memorialization in National Cemetery Administration cemeteries or in Arlington National Cemetery ("ANC") of any person convicted of a capital crime. This section further prohibits interment or memorialization of persons found by the Secretary of Veterans Affairs or the Secretary of the Army to have committed capital crimes but who avoided conviction of the crime through flight or death preceding prosecution. In such cases, the Secretary of Veterans Affairs or the Secretary of the Army must receive notice from the Attorney General of the United States, or the appropriate State official, of the Secretary's own finding before the prohibition shall apply.

Senate bill

Section 403 of S. 2237 would eliminate the requirement that the Secretary of Veterans Affairs or the Secretary of the Army be notified of a finding by the Attorney General or

the appropriate State official in cases of persons who are found to have committed capital crimes but who avoided conviction of the crime through flight or death preceding prosecution.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 202 of the Compromise Agreement follows the Senate language.

Application of Department of Veterans Affairs Benefit for Government Markers for Marked Graves of Veterans at Private Cemeteries to Veterans Dying on or After September 11, 2001

Current law

Section 2306(d)(1) provides that the Secretary shall furnish a government marker to those families who request one for the marked grave of a veteran buried at a private cemetery, who died on or after December 27, 2001.

House Bill

Section 6 of H.R. 4940 would make section 2306(d)(1) retroactive to veterans who died on or after September 11, 2001.

Senate Bill

The Senate Bill contains no comparable provision.

Compromise agreement

Section 203 of the Compromise Agreement follows the House language.

Authorization of Placement of Memorial in Arlington National Cemetery Honoring World War II Veterans Who Fought in the Battle of the Bulge

Current law

Section 2409 of title 38, United States Code, authorizes the Secretary of Army to erect appropriate memorials or markers in Arlington National Cemetery to honor the memory of members of the Armed Forces.

House bill

H.R. 5055 would authorize the Secretary of the Army to place in ANC a new memorial marker honoring veterans who fought in the Battle of the Bulge during World War II. The Secretary of the Army would have exclusive authority to approve an appropriate design and site within ANC for the memorial.

Senate bill

The Senate Bill contains no comparable provision.

Compromise agreement

Section 204 of the Compromise Agreement would authorize the Secretary of the Army to place in ANC a new memorial marker honoring veterans who fought in the Battle of the Bulge.

TITLE III—OTHER MATTERS

Increase in Aggregate Annual Amount Available for State Approving Agencies for Administrative Expenses for Fiscal Years 2003, 2004, 2005, 2006, and 2007

Current law

Section 3674(a)(4) of title 38, United States Code, funds State approving agencies. From fiscal years 1995 to 2000, State approving agency ("SAA") funding was capped, with no annual increase, at \$13 million. Public Law 106-419 increased SAA funding to \$14 million for fiscal years 2001 and 2002. Under current law, the authorization amount was reduced to \$13 million as of October 1, 2002. SAAs are the agencies that determine which schools, courses, and training programs qualify as eligible for veterans seeking to use their GI Bill benefits.

Senate bill

Section 201 of S. 2237 would restore SAA funding to \$14 million per year and would in-

crease it to \$18 million per year during fiscal years 2003, 2004, and 2005.

House bill

Section 6 of H.R. 4085 contains an identical provision.

Compromise agreement

Section 301 of the Compromise Agreement would restore SAA funding at \$14 million for fiscal year 2003, \$18 million for fiscal year 2004, \$18 million for fiscal year 2005, \$19 million for fiscal year 2006, and \$19 million for fiscal year 2007.

Authority for Veterans' Mortgage Life Insurance To Be Carried Beyond Age 70

Current law

Section 2106(i)(2) of title 38, United States Code, provides that Veterans' Mortgage Life Insurance ("VMLI") shall be terminated on the veteran's seventieth birthday. VMLI is designed to provide financial protection to cover eligible veterans' home mortgages in the event of death. VMLI is issued only to those severely disabled veterans who have received grants for Specially Adapted Housing from the Department of Veterans Affairs.

House bill

Section 5(b) of H.R. 4085 would permit veterans eligible for specially-adapted housing grants to continue their VMLI coverage beyond age 70. No new policies would be issued after age 70.

Senate bill

The Senate Bill contains no comparable provision.

Compromise agreement

Section 302 of the Compromise Agreement follows the House language.

Authority To Guarantee Hybrid Adjustable Rate Mortgages

Current law

There is no authorization in current law for VA to guarantee adjustable rate mortgages ("ARMs") and hybrid adjustable rate mortgages ("hybrid ARMs"). A hybrid ARM combines features of fixed rate mortgages and adjustable rate mortgages. A hybrid ARM has a fixed rate of interest for at least the first 3 years of the loan, with an annual interest rate adjustment after the fixed rate has expired.

Senate bill

Section 301 of S. 2237 would authorize VA to establish a three-year pilot program to guarantee hybrid ARMs and reauthorize a fiscal year-1993 to 1995 pilot program to guarantee conventional ARMs. This authority would begin in fiscal year 2003 and expire at the end of fiscal year 2005.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 303 of the Compromise Agreement would authorize VA to guarantee hybrid ARMs for a period of two years. The effective date of this provision would be October 1, 2003.

Increase in the Amount Payable as Medal of Honor Special Pension

Current law

Section 1562 of title 38, United States Code, provides a special pension of \$600 per month to recipients of the Medal of Honor. Eligibility to receive the Medal of Honor special pension is contingent upon having first been awarded the Medal of Honor.

Senate bill

Section 104 of S. 2237 would increase the Medal of Honor special pension from \$600 to \$1,000 per month. Beginning in January 2003, the pension amount would be adjusted annu-

ally to maintain the value of the pension in the face of the rising cost of living. The amount of this adjustment would match the percentage of the cost-of-living adjustment paid to Social Security recipients. The Senate Bill would also provide for a one-time, lump-sum payment in the amount of special pension the recipient would have received between the date of the act of valor and the date that the recipient's pension actually commenced.

House bill

H.R. 2561 would increase the special pension payable to Medal of Honor recipients from \$600 to \$1,000 per month, and provide a lump sum payment for existing Medal of Honor recipients in an amount equal to the total amount of special pension that the person would have received had the person received special pension during the period beginning the first day of the month that began after the act giving rise to the receipt of the Medal of Honor, and ending with the last day of the month preceding the month that such person's special compensation commenced. H.R. 2561 also would provide criminal penalties for the unauthorized purchase or possession of the Medal and for making a false representation as a Medal recipient.

Compromise agreement

Section 304 of the Compromise Agreement follows the Senate language, but would modify the effective date of the provision to September 1, 2003. It is the Committee's understanding that the first month a Medal of Honor recipient would receive special pension is October 2003.

It is the Committee's intent that the lump sum payment of special pension be determined using the rates of special pension and the laws of eligibility in effect (including applicable age requirements) for months beginning after an individual's act of gallantry. Excluded from this rule would be the law of eligibility requiring an individual to have been awarded a Medal of Honor.

Extension of Protections Under Soldiers' and Sailors' Civil Relief Act of 1940 to National Guard Members Called to Active Duty Under Title 32, United States Code

Current law

The Soldiers' and Sailors' Civil Relief Act of 1940 ("SSCRA"), sections 510 et seq., of title 50, United States Code Appendix, suspends enforcement of certain civil liabilities and provides certain rights and legal protections to servicemembers who have been called up to active duty under title 10, United States Code. However, these protections do not extend to National Guard members called to duty under section 502(f) of title 32, United States Code, "to perform training or other duty." Certain homeland security duties performed under title 32, United States Code, such as protecting the nation's airports, have been carried out at the request and expense of the Federal government with National Guard members under the command of their state governors.

Senate bill

Section 401 of S. 2237 would expand SSCRA protections to include those National Guard members serving full-time, upon an order of the Governor of a State at the request of the head of a Federal law enforcement agency and with the concurrence of the Secretary of Defense, under 502(f) of title 32, United States Code for homeland security purposes.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 305 of the Compromise Agreement would provide that when members of the National Guard are called to active service for

more than 30 consecutive days under section 502(f) of title 32, United States Code, to respond to a national emergency declared by the President, coverage under the provisions of the SSCRA would be available. The Committees note that this provision is intended to extend protections of the SSCRA to members of the National Guard when called to duty under circumstances similar to those following the terrorist attacks of September 11, 2001.

EXTENSION OF INCOME VERIFICATION
AUTHORITY

Current law

Section 6103(l)(7)(D) of the Internal Revenue Code gives the Internal Revenue Service ("IRS") authority to furnish income information to the VA from IRS records so that VA might determine eligibility for VA need-based pension, parents dependency and indemnity compensation, and priority for VA health-care services. This provision currently expires on September 30, 2003, pursuant to Public Law 105-33.

Section 5317 of title 38, United States Code, provides parallel authority for VA to use IRS information and requires VA to notify applicants for needs-based benefits that income information furnished by the applicant may be compared with the information obtained from the Departments of Health and Human Services and Treasury under section 6103(l)(7)(D). This parallel authority is scheduled to expire on September 30, 2008, pursuant to Public Law 106-409.

Senate bill

Section 106(a) of S. 2237 would extend section 6103(l)(7)(D) of the Internal Revenue Code through September 30, 2011. Section 106(b) would extend section 5317 of title 38, United States Code, through September 30, 2011.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 306 of the Compromise Agreement would extend section 6103(l)(7)(D) of the Internal Revenue Code through September 30, 2008.

Fee for Loan Assumption

Current law

Section 3729(b)(2)(1) of title 38, United States Code, requires a 0.50 percent loan fee for active-duty servicemembers, veterans, Reservists, and others participating in loan assumptions under section 3714.

Senate bill

The Senate Bill contains no comparable language.

House bill

The House Bills contain no comparable language.

Compromise agreement

Section 307 of the Compromise Agreement would increase the loan fee for assumptions for loans closed more than 7 days after enactment in fiscal year 2003 from 0.50 percent to 1.0 percent. The Committees intend this fee increase to expire at the end of fiscal year 2003.

TITLE IV—JUDICIAL MATTERS

The U.S. Court of Appeals for Veterans Claims ("CAVC") is an Article I Court of limited jurisdiction. It has come to the Committees' attention that the Administration has disregarded Congressional intent in interpreting the CAVC to be part of the Executive Branch and subject to rescissions of Executive Branch agency budgets, pursuant to section 1403 of Public Law 107-206. The Committees note that while the budget for the Court is included in the President's budget,

the Executive Branch has no authority to review it. Public Law 100-687, section 4082(a). It is the Committees' intent to clarify that the CAVC is not part of the Executive Branch. The Committees have so stated on other occasions, e.g., "The Court, established by the Congress under Article I of the Constitution to exercise judicial power, has unusual status as an independent tribunal that is not subject to the control of the President or the executive branch." House of Representatives Report 107-156, July 24, 2001, and Senate Report 107-86, October 15, 2001.

Standard for Reversal by Court of Appeals for Veterans Claims of Erroneous Finding of Fact by Board of Veterans' Appeals

Current law

Under section 7261(a)(4) of title 38, United States Code, the Court of Appeals for Veterans Claims applies a "clearly erroneous" standard of review to findings of fact made by the Board of Veterans' Appeals ("BVA"). The "clearly erroneous" standard has been defined as requiring CAVC to uphold BVA findings of fact if the findings are supported by "a plausible basis in the record . . . even if [CAVC] might not have reached the same factual determinations." *Wensch v. Principi*, 15 Vet. App. 362, 366-68 (2001). The recent U.S. Court of Appeals for the Federal Circuit decision of *Hensley v. West*, 212 F.3d 1255 (Fed. Cir. 2000) emphasized that CAVC should perform only limited, deferential review of BVA decisions, and stated that BVA fact-finding "is entitled on review to substantial deference." *Id.* at 1263.

Section 5107(b) of title 38, United States Code, provides that VA must find for the claimant when, in considering the evidence of record, there is an approximate balance of positive and negative evidence regarding any material issue including the ultimate merits of the claim. This "benefit of the doubt" standard applicable to proceedings before VA is unique in administrative law. Under the benefit of the doubt rule, unless the preponderance of the evidence is against the claimant, the claim is granted. *Gilbert v. Derwinski*, 1 Vet. App. 49 (1990) and *Forshey v. Principi*, 284 F.3d 1335 (Fed. Cir. 2002).

Senate bill

Section 501 of S. 2237 would amend section 7261(a)(4) of title 38 to change the standard of review CAVC applies to BVA findings of fact from "clearly erroneous" to "unsupported by substantial evidence." Section 502 would also cross-reference section 5107(b) in order to emphasize that the Secretary's application of the "benefit of the doubt" to an appellant's claim would be considered by CAVC on appeal.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 401 of the Compromise Agreement follows the Senate language with the following amendments.

The Compromise Agreement would modify the standard of review in the Senate bill in subsection (a) by deleting the change to a "substantial evidence" standard. It would modify the requirements of the review the Court must perform when it is making determinations under section 7261(a) of title 38, United States Code. Since the Secretary is precluded from seeking judicial review of decisions of the Board of Veterans Appeals, the addition of the words "adverse to the claimant" in subsection (a) is intended to clarify that findings of fact favorable to the claimant may not be reviewed by the Court. Further, the addition of the words "or reverse" after "and set aside" is intended to emphasize that the Committees expect the Court to

reverse clearly erroneous findings when appropriate, rather than remand the case.

New subsection (b) would maintain language from the Senate bill that would require the Court to examine the record of proceedings before the Secretary and BVA and the special emphasis during the judicial process on the benefit of the doubt provisions of section 5107 (b) as it makes findings of fact in reviewing BVA decisions. This would not alter the formula of the standard of review on the Court, with the uncertainty of interpretation of its application that would accompany such a change. The combination of these changes is intended to provide for more searching appellate review of BVA decisions, and thus give full force to the "benefit of doubt" provision.

The Compromise Agreement would also modify the effective date of this provision to apply to cases that have not been decided prior to the enactment of this Act. This provision would not apply to cases in which a decision has been made, but are not final because the time to request panel review or to appeal to the U.S. Court of Appeals for the Federal Circuit ("Federal Circuit") has not expired.

Review by Court of Appeals for the Federal Circuit of Decisions of Law

Current law

Under section 7292(a) of title 38, United States Code, the Federal Circuit may only review CAVC decisions involving questions of law "with respect to the validity of any statute or regulation." It does not explicitly have the authority to hear appeals of CAVC decisions that are not clearly legal interpretations of statutes or regulations.

Senate bill

Section 502 of S. 2237 would amend sections 7292(a) and (c) of title 38, United States Code, to specifically provide for appellate review of a CAVC decision on any rule of law.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 402 of the Compromise Agreement follows the Senate language.

Authority of Court of Appeals for Veterans Claims to Award Fees Under Equal Access to Justice Act to Non-Attorney Practitioners

Current law

Currently, section 2412(d) of title 28, United States Code, the Equal Access to Justice Act ("EAJA"), shifts the burden of attorney fees from the citizen to the government in cases where the government's litigation position is not substantially justified and the citizen qualifies under certain income and asset criteria. Qualified non-attorneys admitted to practice before the CAVC may only receive fees if the EAJA application is signed by an attorney.

Senate bill

Section 503 of S. 2237 would allow qualified non-attorneys admitted to practice before the CAVC to be awarded fees under EAJA for representation provided to VA claimants without the requirement that an attorney sign the EAJA application.

House bill

The House Bills contain no comparable provision.

Compromise agreement

Section 403 of the Compromise Agreement follows the Senate language.

The Committees expect that in determining the amount of reasonable fees payable to non-attorney practitioners, the Court will apply the usual rules applicable to fees

for the work of other non-attorneys such as paralegals and law students based upon prevailing market rates for the kind and quality of the services furnished. 28 U.S.C. §2412(d)(2)(A). See, *Sandoval v. Brown*, 9 Vet. App. 177, 181 (1996).

LEGISLATIVE PROVISIONS NOT ADOPTED
ARLINGTON NATIONAL CEMETERY

Current law

Eligibility for burial at Arlington National Cemetery is governed by federal regulations at section 553.15 of title 32, Code of Federal Regulations. The following categories of persons are eligible for in-ground burial: active duty members of the Armed Forces, except those members serving on active duty for training; retired members of the Armed Forces who have served on active duty, are on a retired list and are entitled to receive retirement pay; former members of the Armed Forces discharged for disability before October 1, 1949, who served on active duty and would have been eligible for retirement under 10 U.S.C. 1202 had the statute been in effect on the date of separation; honorably discharged members of the Armed Forces awarded the Medal of Honor, Distinguished Service Cross, Air Force Cross or Navy Cross, Distinguished Service Medal, Silver Star, or Purple Heart; former prisoners of war who served honorably and who died on or after November 30, 1993; provided they were honorably discharged from the Armed Forces, elected federal officials (the President, Vice President, and Members of Congress), federal cabinet secretaries and deputies, agency directors and certain other high federal officials (level I and II executives), Supreme Court Justices, and chiefs of certain diplomatic missions; the spouse, widow or widower, minor child (under 21 years of age) and, at the discretion of the Secretary of the Army, certain unmarried adult children, and certain surviving spouses.

House bill

H.R. 4940 would codify eligibility criteria for in-ground burial at Arlington National Cemetery: members of the Armed Forces who die on active duty; retired members of the Armed Forces, including reservists who served on active duty; members or former members of a reserve component who, but for age, would have been eligible for retired pay; members of a reserve component who die in the performance of duty while on active duty training or inactive duty training; former members of the Armed Forces who have been awarded the Medal of Honor, Distinguished Service Cross (Air Force Cross or Navy Cross), Distinguished Service Medal, Silver Star, or Purple Heart; former prisoners of war who die on or after November 30, 1993; the President or any former President; members of the Guard or Reserves who served on active duty, who are eligible for retirement, but who have not yet retired; the spouse, surviving spouse, minor child and at the discretion of the Superintendent of Arlington, and certain unmarried adult children. Veterans who do not meet these requirements might qualify for the placement of their cremated remains in Arlington's columbarium.

H.R. 4940 would also provide the President the authority to grant a waiver for burial at Arlington in the case of an individual not otherwise eligible for burial under the criteria outlined above but whose acts, service, or contributions to the Armed Forces were so extraordinary as to justify burial at Arlington. The President would be allowed to delegate the waiver authority only to the Secretary of the Army.

H.R. 4940 would codify existing regulatory eligibility for interment of cremated re-

mains in the columbarium at Arlington (generally, this includes all veterans with honorable service and their dependents), clarify that only memorials honoring military service may be placed at Arlington and set a 25-year waiting period for such memorials, and clarify that in the case of individuals buried in Arlington before the date of enactment, the surviving spouse is deemed to be eligible if buried in the same gravesite.

The Senate Bill contains no comparable provision.

Increase of Veterans' Mortgage Life Insurance ("VMLI") Coverage to \$150,000

Current law

Section 2106(b) of title 38, United States Code, provides that VMLI may not exceed \$90,000.

House bill

Section 5(a) of H.R. 4085 would increase the maximum amount of coverage available under Veterans' Mortgage Life Insurance from \$90,000 to \$150,000. This would increase the amount of the outstanding mortgage, which would be payable if the veteran were to die before the mortgage is paid in full.

Senate bill

The Senate Bill contains no comparable provision.

Uniform Home Loan Guaranty Fees for Qualifying Members of the Selected Reserve and Active Duty Veterans

Current law

Section 3729(b) of title 38, United States Code, provides the amounts in fees to be collected from each person participating in VA's Home Loan Guaranty Program. Currently, members of the Selected Reserve pay a 0.75 percent higher funding fee under the home loan program than other eligible veterans.

House bill

Section 4 of H.R. 4085 would amend the Loan Fee Table in section 3729(b) of title 38, United States Code, to provide for uniformity in the funding fees charged to members of the Selected Reserve and active duty veterans for VA home loans. The fee would be reduced for the period beginning on October 1, 2002, and ending on September 30, 2005.

Senate bill

The Senate Bill contains no comparable provision.

Prohibit Assignment of Monthly Veterans Benefits and Create an Education and Outreach Campaign About Financial Services Available to Veterans

Current law

Section 5301 of title 38, United States Code, currently prohibits the assignment or attachment of a veteran's disability compensation or pension benefits. In recent years, private companies have offered contracts to veterans that exchange up-front lump sums for future benefits.

Senate bill

Section 105 of S. 2237 would clarify the applicability of the prohibition on assignment of veterans benefits through agreements regarding future receipt of compensation, pension, or dependency and indemnity compensation. This provision would make violation of this prohibition punishable by a fine and up to one year in jail.

This provision would also require VA to create a five-year education and outreach campaign to inform veterans about available financial services.

House bill

The House Bills contain no comparable provision.

Clarification of Retroactive Application of Provisions of the Veterans Claims Assistance Act

Current law

Public Law 106-475, the Veterans Claims Assistance Act of 2000 ("VCAA"), restored and enhanced VA's duty to assist claimants in developing their claims for veterans benefits. Specifically, section 3(a) of the VCAA requires VA to take certain steps to assist claimants.

Two recent decisions by the U.S. Court of Appeals for the Federal Circuit have found that the provisions in the VCAA pertaining to VA's duty to assist cannot be applied retroactively to claims pending at the time of its enactment. In *Dyment v. Principi*, 287 F.3d 1377 (Fed. Cir. 2002), the Federal Circuit stated: "The Supreme Court has held that a federal statute will not be given retroactive effect unless Congress has made its contrary intention clear. There is nothing in the VCAA to suggest that section 3(a) was intended to applied [sic] retroactively." In *Bernklau v. Principi*, 291 F.3d 795, 806 (Fed. Cir. 2002), the Court again concluded: "[S]ection 3(a) of the VCAA does not apply retroactively to require that proceedings that were complete before the Department of Veterans Affairs and were on appeal to the Court of Appeals for Veterans Claims or this court be remanded for readjudication under the new statute."

Senate bill

Section 504 of S. 2237 would apply section 3 of VCAA retroactively to cases that were ongoing either at various adjudication levels within VA or pending at the applicable Federal courts prior to the date of VCAA's enactment. Section 505 of the Senate Bill would provide for claims decided between the handing down of the *Dyment* case and enactment of this provision to receive the full notice, assistance, and protection afforded under the VCAA.

SEC. 2. FINDINGS.

Congress finds the following:

(1) The National Science Foundation has made major contributions for more than 50 years to strengthen and sustain the Nation's academic research enterprise that is the envy of the world.

(2) The economic strength and national security of the United States and the quality of life of all Americans are grounded in the Nation's scientific and technological capabilities.

(3) The National Science Foundation carries out important functions in supporting basic research in all science and engineering disciplines and in supporting science, mathematics, engineering, and technology education at all levels.

(4) The research and education activities of the National Science Foundation promote the discovery, integration, dissemination, and application of new knowledge in service to society

and prepare future generations of scientists, mathematicians, and engineers who will be necessary to ensure America's leadership in the global marketplace.

(5) The National Science Foundation must be provided with sufficient resources to enable it to carry out its responsibilities to develop intellectual capital, strengthen the scientific infrastructure, integrate research and education, enhance the delivery of mathematics and science education in the United States, and improve the technological literacy of all people in the United States.

(6) The emerging global economic, scientific, and technical environment challenges longstanding assumptions about domestic and international policy, requiring the National Science Foundation to play a more proactive role in sustaining the competitive advantage of the United States through superior research capabilities.

(7) Commercial application of the results of Federal investment in basic and computing science is consistent with longstanding United States technology transfer policy and is a critical national priority, particularly with regard to cybersecurity and other homeland security applications, because of the urgent needs of commercial, academic, and individual users as well as the Federal and State Governments.

SEC. 3. POLICY OBJECTIVES.

(C) expanding the pool of scientists and engineers in the United States;

(D) modernizing the Nation's research infrastructure; and

(E) establishing and maintaining cooperative international relationships with premier research institutions, with the goal of such relationships being the exchange of personnel, data, and information in an effort to alleviate problems common to the global community.

(2) To increase overall workforce skills by—

(A) improving the quality of mathematics and science education, particularly in kindergarten through grade 12;

(B) promoting access to information technology for all students;

(C) raising postsecondary enrollment rates in science, mathematics, engineering, and technology disciplines for individuals identified in section 33 or 34 of the Science and Engineering Equal Opportunities Act (42 U.S.C. 1885a or 1885b);

PROCEEDINGS AND DEBATES OF THE 107th CONGRESS, SECOND SESSION

Vol. 148

WASHINGTON, THURSDAY, NOVEMBER 14, 2002

No. 147—Part II

Senate

HOMELAND SECURITY ACT OF 2002—Continued

Mr. BYRD [continuing]. We have done the same thing right here. This was concocted in secrecy in the darkness of the night. It didn't see the light of day until yesterday—484 pages. We are expected to pass this. We are expected to invoke cloture on it tomorrow and pass it and tell the American people they are safer after the passage of that monstrosity.

No doubt there are some good things about that bill. There are some good things in it. Some of the provisions in this 484-page bill have come out of Senator LIEBERMAN's committee's deliberations, and it passed. Some of these have been discussed before, but not all of them. There are a lot of provisions

in this bill that had not seen the light of day until yesterday.

The press has been kept in the dark. The press is going to realize all too late what has happened to the people's right to know that we were going to pass right here in this bill. I am going to address those provisions briefly in a few minutes. I hope the press will stay tuned because I want to point out to the press what is about to happen to the people's right to know.

I have often had my differences with reporters, but I am a firm believer in the freedom of the press and in the responsibilities of the fourth estate. If the Congress is going to so willingly blindfold itself to the inner workings of this administration and this new bureaucracy, I hope the press will not be

so compliant. Hear me, those in the fourth estate. You stay tuned. I will point out part of this bill in a few minutes. But if you haven't read it as yet, it is going to turn your stomach because you believe in the people's right to know. I hope it will keep a watchful eye. I am talking about the media. I hope the media will keep a watchful eye on this new agency. Unfortunately, provisions contained in this bill will make it harder for the fourth estate—harder for you in the press—and harder for the people to do so.

I still find it difficult to believe that the American war on terrorism hinges on the building of a new, huge bureaucracy. Our plan to eradicate a vicious, cunning nest of vipers is to reorganize the Government.

S11033

I have read much about Senator BYRD and whether or not he would filibuster this bill. If I thought for a moment I could kill this bill here tonight by filibustering it, I would do it. But there are a lot of Senators here who wouldn't know a filibuster—a lot of people who wouldn't know a filibuster—if they met one on the way home. There are a lot of people who wouldn't know it if they met it in the middle of the road.

I intend to stand on my feet and try to expose some of the things in this bill that are not going to be good for the American people and which will not contribute to their safety.

Our plan to eradicate a vicious, cunning nest of vipers is to reorganize the Government. This is a massive reorganization. This is our battle plan—talking about the administration. This is its priority. This is our ammunition against the terrorist threat to our homeland.

A certain Senator here a few days ago talked about killing snakes. He talked about snakes in his State. He knew snakes when he saw them. Well, there are some snakes in West Virginia too. I knew about those snakes when I walked the red clay hills of southern West Virginia in Mercer County. We had copperheads back in those hills in those days and a few rattlesnakes. There are snakes. I know a snake when I see it. I saw a snake in this bill. This bill is a snake. If I could chop off its head, kill it dead, dead, dead, I would do it.

This 484 pages right here is what I am talking about. This is our initiative—this is the administration's ammunition. They know better than that. They know that is not going to make this homeland one whit safer.

I have listened very hard. I do not hear the American people clamoring for us to build a new, cumbersome, bureaucratic leviathan.

The midterm elections—despite what many of the pundits may believe—had little to do with the creation of this new Department. The American people weren't clamoring for this new bureaucracy. While Americans cast their ballots, they may have had hopes for safer communities than protection from terrorism, but I sincerely doubt that they were voting to create a huge, new bureaucracy.

Surely nobody believes that building a giant bureaucracy has suddenly become the nemesis to the threat of the acts of madmen on our people here at home.

With a battle plan such as the Bush administration is proposing, instead of crossing the Delaware River to capture the Hessian soldiers on Christmas Day, George Washington would have stayed on his side of the river and built a bureaucracy.

During the Civil War, President Lincoln would dismiss one general after another until he found one capable of building a better bureaucracy.

Perhaps what we are lacking to make this new idea really resonate with the

American people is a powerful, stimulating slogan—a dramatic slogan such as the kind of slogan that we politicians slap on bumper stickers, one that would serve to inspire and unite our soldiers and our citizens.

Maybe we could draw from history to see how our new lust for a huge bureaucracy would fair.

I can picture Nathan Hale saying: I regret that I have but one bureaucracy to lose. I regret that I have but one life to give for my bureaucracy.

I can hear Captain John Paul Jones on September 23, 1779—shouting: I have not yet begun to fight for my bureaucracy.

I can think of Commodore Oliver Perry hoisting his famous flag upon his ship with the motto: Don't give up the bureaucracy.

I can just imagine Commodore Stephen Decatur returning from the war on the Barbary Coast, offering his famous toast: My bureaucracy, right or wrong.

It just gives me chills to think of the people of Texas remembering the Alamo and being inspired to fight with the restoring battle cry: Remember the bureaucracy.

What about the professorial President Woodrow Wilson taking us into World War I with the proclamation: The world must be made safe for bureaucracy.

I was born during his administration. Nonsense, of course. But it has been said that necessity is the mother of invention. I guess then that political expediency has now become the mother of bureaucracy.

I don't think there is much doubt that the Senate will pass this legislation to restructure our homeland defense agencies. But my point is that the administration's plan is a sham. It is a sham. It is a political ploy. It worked well during the campaign. It was worked up in haste and for the wrong reasons.

Homeland security is a serious and dangerous matter involving the lives and the livelihoods of millions of Americans. We ought to be ashamed of ourselves to offer our people a quick bureaucratic pacifier instead of taking our time and working thoughtfully and carefully on an effective and lasting plan for the protection of the American people.

What we ought to be even more ashamed of, however, is the manner in which we are passing this bill. Prior to our recessing, hundreds of amendments were filed to make changes to the pending bill that had been reported by the Governmental Affairs Committee.

There were hundreds of amendments up at that desk. Yet Senators are choosing not to call up amendments. We are told that any amendments to this bill would force a conference with the House.

Now, get this. We are told that if we amend this bill, it will force a conference with the House of Representatives and could delay or even kill this

bill. So Senators are being urged not to call up their amendments. And in many instances, they are choosing not to call up their amendments.

Is the Senate afraid of its own shadow? Are we afraid to think, to debate, to ask questions, to stand for something? Are we afraid to stand for something? Are we afraid to stand against a President of the United States? Is the Senate afraid to stand up against an administration, a political administration? Is the Senate afraid? Are Senators afraid to stand up against the President, to be the loyal opposition at this time of great distress?

It is a dangerous thing when a President believes that he is so right that he should be given any and all powers he deems necessary to achieve his ends. That is a dangerous thing. It is dangerous when a President believes that he possesses the people's consent to freely tamper with their rights and their liberties.

But it is considerably more dangerous when the elected officials such as ourselves, whose duty it is to protect the people's liberties against the excesses of an overreaching Executive, an overreaching White House, accede to a President's every request. Shame on us. Shame on us.

And it is even worse when we not only fail to impose restraint but actually aid and abet the Executive in a brazen power grab. That is exactly what this is.

The American people feel unsettled. They are nervous. They are jittery. They are scared. And they have every right to be. Their President has spent months and loads of taxpayers' dollars frightening them. Their Government has issued an unceasing proliferation of warnings about potential violence.

But the threats to our homeland go well beyond terrorist attacks. Our Nation is threatened, perhaps most seriously threatened, by a mentality that says that Presidents should have a free hand to do whatever they deem necessary whenever they deem to do it as necessary.

Our President has been speaking a great deal in recent months about our enemies and how they hate our freedoms. Mr. President, I doubt that they hate our freedoms. They hate our arrogance. They do not hate our freedoms. They hate our arrogance.

Our President has made protecting our freedoms a rallying cry. I have been working at protecting our freedoms for 50 years in this Congress. Fifty years come January 3 I have been working at protecting our freedoms. I have been helping to appropriate the moneys for our men and our women who serve in our military services.

The President has touched a raw nerve with the public, in speech after speech after speech about foreign terrorists who are attacking their liberties, and yet, in many ways, it is this President's proposals that are the most serious threats to the liberties of Americans.

We should be standing up and fighting for what is right in this legislation. That is the place to start to fight. That is where we start to fight to protect this land of ours, these people of ours, its institutions, the institutions of our country.

We should be standing up and fighting for what is right in this legislation. We talk about justice. Justice is fine. But what is right? We should be debating, offering amendments, and telling the American people like it is. We should be honest enough to admit that this new Department is a massive undertaking that is far more likely to provide political security for its proponents than to provide domestic security for the American people out there, at least for the foreseeable future.

I do not believe this is a time for us or for the American people to cower in a corner. I do not believe this is a time for the elected representatives of the American people to run like whipped dogs. This is a time for us to seize the power that was established for us by the courageous Founders of our Nation.

Mr. President, were it not for this Constitution, which I hold in my hand, you would not be presiding over this body at this moment. I say that to every Senator who sits in this body. And I say that for the people on the staffs of Senators. You would not be here. You would not be here, I would not be here were it not for this Constitution and for the great compromise—talk about a compromise—the great compromise which was entered into on July 16, 1787, out of which came this Senate, and the equality of votes of every State that is represented in this body.

This is not a time to be voiceless. This is not a time to be silent. This is not a time to vote for cloture and to hurry away home. This is not a time to give in and to give up on the ideals that led to the creation of our country.

Far too many Americans failed to go to the polls on election day and vote—far too many. I spoke of Nathan Hale, who said: "I only regret that I have but one life to lose for my country." And how many Americans did not even walk around the corner to cast a vote? They did not give one vote for their country. Far too many felt that the outcome of the election was beyond their control, that their votes would make no difference.

Today, I see far too many Members in this Senate falling into the same desultory way of thinking. Our votes matter, if we have the guts to make them matter. But, no, we are going to tuck our tails between our legs and run like whipped dogs and vote for cloture and go home. That is not right.

The American people have a right to know what is in these 484 pages. My constituents have a right to know. Your constituents, Mr. President, have a right to know. The constituents of every Senator on both sides of the aisle have a right to know what is in this bill.

We Senators have a right to know what is in this bill. We Senators ought to insist that we not invoke cloture on tomorrow but that we wait. Invoking cloture is all right down the road somewhere, maybe a week from now, but we ought to take the time to study this bill. Our staffs ought to know what is in this bill. We ought to know what is in this bill before we cast our votes.

Yes, I admit the handwriting on the wall is all too obvious. But I will do what is right in my frail way of thinking and seeing things. I will vote against this bill, unless it is amended—unless it is amended.

(Mr. CORZINE assumed the Chair.)

Mr. BYRD. I will probably vote against it, anyhow, because we are being pressured into voting for something that has not had a committee hearing, not a single hearing, 484 pages. There has not been a single hearing on this bill. There have been no witnesses called to testify in support of this bill. There have been no witnesses who have had an opportunity to stand before a committee and oppose this bill.

That is no way to legislate. Yet we are going to pass one of the most far-reaching pieces of legislation that we have passed in my 50 years in Congress.

It will provide for a massive shift of power. To whom? To the President of the United States. If he were a Democrat, I would oppose this just as vociferously, just as strongly, just as bitterly as I oppose this piece of legislation right here. I don't oppose it because we have a Republican President. I am going to oppose it because it gives away the powers of the people. It provides for a massive shift of power to the executive branch. It upsets that delicate balance of power the Framers provided to the American people over 200 years ago.

The popularity of a President is a fleeting thing, a fleeting thing. Our duty to our Nation is not.

One serious problem with the legislation before the Senate is the expanded authority it gives to the executive branch to conduct its actions in secret. Here is where I hope the press, and the fourth estate, will pay close attention.

I have great respect for a free press. I have not always been happy with what the free press has written about me, but in my 50 years, I think overall the press has been very fair to me. I have no complaints. Some of the things the press has said that I didn't like I deserved. I am for a free press.

One serious problem with the legislation currently before the Senate is the expanded authority that this legislation gives to the executive branch to conduct its actions in secret, protected from the oversight, protected from the scrutiny of the Congress, the media, and the American people.

An example of this expanded secrecy that has been added in this new bill can be found in the exemptions that it provides from the Federal Advisory Committee Act. This is section 871 of the new substitute that we have just been

given, the substitute that fell like manna from heaven. But this didn't come from heaven, I can assure you. It fell into our laps about 48 hours ago without any warning, and we are asked to invoke cloture on this thing tomorrow.

Let me say that again. An example of this expanded secrecy that has been added in this new bill can be found in the exemptions it provides from the Federal Advisory Committee Act. Section 871 of this new substitute we have just been given provides the Secretary of Homeland Security blanket authority—get that, blanket authority—to exempt all advisory committees in the Department from existing public disclosure rules.

That is pretty serious. This provision was not included in Senator LIEBERMAN's substitute, but it has been slipped into this new bill which was made available to us, as I said, late Tuesday night of this week. I am told it was 5 in the morning. It appeared on the web site of the House Rules Committee, I believe, the night before, Tuesday night. It was made available to us just within these last 48 hours with the hope that Senators will not have enough time to scrutinize this dramatic change to an existing statute.

The statute I am talking about here, the Federal Advisory Committee Act, applies to the ad hoc committees that are often used in the executive branch to formulate policy. This statute, the Federal Advisory Committee Act, which has been on the books for 30 years now, requires the advice provided by these advisory committees is objective and accessible to the public.

The purpose of making this information available to the public is to allow the Congress, the media, and groups outside of Government to know how the executive branch is making important policy decisions. The role of this oversight and scrutiny from the public and a free press is central to upholding the principles of our government, of our constitutional system. It ensures that the people—the people—will be the ultimate judges of the wisdom of the policies of the Federal Government.

I understand this new Homeland Security Department will be wrestling with many issues of national security that should not be subjected to public disclosure rules. Sometimes these advisory committees will be dealing with classified intelligence information or with sensitive security policy, and making this information available to the public might compromise national security and the fight against terrorism. I understand that. But that is exactly why existing law allows the President of the United States, be he a Democrat or a Republican, to waive these public disclosure rules for any advisory committee for national security reasons.

The President can do that on a case-by-case basis in the current law. So the President has this authority today. He

will have it tomorrow. And he will be able to use it to protect any advisory committee in the Homeland Security Department from having to disclose information when national security information is involved. But he will be accountable for that. He will be responsible for that.

So why do we see an expansion of this authority given to the Secretary in this bill? Why do we see an expansion of this authority given to the Secretary of the Department of Homeland Security in this bill?

Advisory committees can already be exempted from public disclosure rules for national security reasons by the President on a case-by-case basis. So why does this bill, then, allow the Secretary of Homeland Security to exempt any committee, regardless of whether national security is pertinent?

Why is it in there? Why do we see this new blanket authority in this bill? I will tell you why. It is because this administration wants to shield itself from any scrutiny of the public. This administration has made it very clear that it does not want anyone meddling in executive branch decisions—not the Congress, not the media, not the American public.

Since the first day this administration took office, all we have seen is a concerted effort to prevent outside criticism of its policies and conduct. The White House has refused to share information or cooperate with the Congress at every turn—maybe not at every turn, but at all too many turns.

The Vice President has refused to release documents concerning a secret energy working group, even after court orders demanding that he do so. We have read in the newspapers that the Attorney General is trying to expand the powers of the Justice Department to operate in secret, appealing another court decision that rejected his new secrecy rule. Even Tom Ridge, the President's top man in the war on terrorism, refused to testify before Congress about the steps that the administration was taking to protect the American people.

With the President's support, top officials in this administration have stonewalled Congress—stonewalled the Congress. Tom Ridge stonewalled the Appropriations Committee of the U.S. Senate. I know; I am the chairman of that committee. Invitation after invitation was extended by my colleague, Senator STEVENS, and myself for him to appear before the Appropriations Committee to testify. The answer was no. With the President's support, top officials in the administration have stonewalled Congress, stonewalled the media, and they have stonewalled the American public. Now they are hoping to expand their ability to operate in secret, to allow even less public scrutiny. There it is. It is in the bill.

The provisions in the bill allow the Secretary to use ad hoc advisory committees to craft policy in secret, without making specific findings that such

secrecy is necessary in any particular instance. This unnecessary new blanket authority will give the President *carte blanche* to expand the culture of secrecy that now permeates this White House.

This substitute language that we have just been given also provides the same blanket exemption from disclosure rules for the Justice Department's new Office of Science and Technology. This new exemption will allow John Ashcroft, the Attorney General, to conduct even more of his duties in secret, even after the courts and the press have recently rebuked the Justice Department for secrecy abuses. This Senate is being asked to authorize the Attorney General to cloak even more of the Justice Department's activities in secrecy.

I am worried that exempting this new Science and Technology Office will allow the Justice Department to provide special treatment for corporate campaign contributors who are pushing new technologies.

Let me say that again. I am worried that exempting this new Science and Technology Office will allow the Justice Department to provide special treatment for corporate campaign contributors who are pushing new technologies. These exemptions are unnecessary and they are a danger to our people's liberty.

I believe that I have a duty to the people I represent to do what I can to improve this legislation. So I hope to offer an amendment to strike these exemptions from the bill. I will do whatever I can do to improve the legislation and keep the people and the press from being locked out of the process. The people have a right to know.

I am not among those who are willing to let this Senate be beaten into rubber stamping the language sent to us by the House. It is our job as legislators to see that the Senate protects the interests of the people who sent us here and who will foot the bill for this behemoth department.

The public disclosure exemptions in this bill are a license for abuse. I do not believe that they are worthy of the Senate's approval. So I am doing everything I can to see that this Senate does not roll over at the command of any President—whether he is a Democrat or a Republican or an Independent—when there are dangerous provisions remaining in this bill that ought not be put into law.

These issues are too fundamental to let slide with the vain hope that we will get a chance to revisit them next year. Don't forget, it is easier to pass a law than it is to repeal that law. We only need a majority in each body to pass a law and have the President sign it. Once that law is on the books, in order to repeal it, a President can veto the repeal. And, then, if only one-third plus one in either body uphold that President's veto, that is the end of it. There won't be any repeal.

The Senate must act, and act responsibly, and we ought not to be in all that hurry to pass this legislation.

Having been up until almost 2 o'clock this morning, I am tired. I want to speak a little longer. I won't be able to speak tomorrow. The Senate is going to vote on cloture in the morning. And as I wet my finger and hold it to the wind, I sense that the pressure is going to be on tomorrow to invoke cloture on this bill.

Here it is, 484 pages. It has only seen the light of 2 days—yesterday and today. It has not been before a committee; there has not been a single hearing on this bill; not a single witness has appeared before any committee in support of this 484-page bill. I doubt that any Senator in this body knows everything there is to know about this bill. I do believe that the great majority of Senators know very little about this bill, and what little most Senators know about this bill comes about as a result of some of the provisions in the bill that have been lifted out of the legislation that was reported out of Senator LIEBERMAN's committee when the bill was reported earlier this year.

Mr. President, the pressure is on. We are going to be asked to vote for cloture tomorrow. I will be surprised if the Senate does not vote for cloture. But I appeal to Senators on both sides of the aisle not to vote for cloture. Nathan Hale regretted that he had but one life to lose for his country. I hope Senators will take the same view about their responsibilities to the people.

They have a responsibility to stay until they know what is in this bill, and not to invoke cloture on it until they know what is in it, until their staffs know what is in it, and until they, Senators, have had an opportunity to offer amendments to make corrections in the bill.

I daresay many Senators will find provisions in this bill they have not seen in any bill before, that are new to this bill, that are new to the Senate, and that they, those Senators, dislike. They have a duty to their constituents. I do not have to tell other Senators what their duties are to their constituents. They have the same duties to their constituents that I have to my constituents. But I have a duty to my constituents not to roll over and play dead, not to roll over and appear to be oblivious to what is in the bill, just pass it and go home and say: We have passed a bill creating the Department of Homeland Security. Whoopee. This will make us all safer.

This will not make us one whit, not one tiny whit safer.

That bill, if it passed tomorrow, would not be implemented for another year. It will take another 12 months before it is implemented. The same people who will be out there protecting the homes of the American people a year from today, if they are out there a year from today, will be out there tomorrow. They are out there tonight.

They are out there on the borders—the northern border, the southern border—the Atlantic coastline, the Pacific coastline, the gulf coastline, the ports of this country, the ports of entry.

They are out there tonight protecting the airports. They are protecting the ports of entry all over this country. They are protecting the nuclear facilities, the nuclear plants. They are standing at their stations in the law enforcement agencies. They are standing at their stations in the fire departments. They are standing at their stations in the health departments. They are out there now. They are out there tonight. When I go home to sleep tonight and pray the Lord my soul to keep, they will be out there. I will be asleep; they will be there.

This bill is not what is putting them there. They are already there, and they are being put there by the taxpayers' money that flows through the Appropriations Committee in this Senate. So they are there. Do not think for a moment that this country has to have this bill creating this massive bureaucracy in which there will be at least 28 agencies that will be crammed into a new Department—170,000 people employed.

May I say to the people sitting back here on the benches—I am talking to these staff people right back here—pay attention here—170,000 people employed in this new agency. They are not employed by virtue of these 484 pages in this bill.

The Senate apparently is on a path to rush to consider this legislation, and we can all say: Whoopee, let's go home now. We have created a Department of Homeland Security. Everybody is safer now.

But don't you believe it.

The Senate's legislative counsel did not finish drafting this behemoth bill until the wee hours of yesterday morning, and now Senators are being pressured to pass it without question and without comment. What a shabby way to treat the security and safety of the American people, those people who are looking right at us through those electronic lenses.

As I have said all along, this new Department likely will take many years to become effective. We should not simply put a new name on a hodgepodge of agencies and claim that the Nation is, ipso facto, instantly safer. What a sham. What a sham. A lot of Senators who vote for this are going to come to realize that when it is too late to change their votes. What a sham. Yet this legislation is being bull-rushed through Congress and is being hailed as the great homeland security panacea.

This new bill is 484 pages long. Here it is. I have not weighed it, but it weighs as heavy as 484 pages. Yet we will not be one whit closer to homeland security if it passes.

If the House and Senate wanted to provide true protections, we would be working to complete action on the appropriations bills instead of playing this gargantuan shell game. If the

President wanted to do more than score political points in a rehashed re-tread of a stump speech, he would loose the bonds, he would cut the handcuffs from the House leadership and urge them to pass appropriations bills which contain critical homeland security funds that could provide real protection for our people, and provide it quickly.

Those dollars could make a difference today. Those dollars and the protections they would fund could save people's lives. We need not wait for a new Department to set up yet another huge bureaucracy. Instead, the House leadership is stuck in concrete. The appropriations bills may never see the light of day. There are 11 of them—11 of them—that have been reported from the Senate Appropriations Committee. They may never see the light of day, and the security of American people continues to be at risk.

How many tape recordings of Osama bin Laden do we need to hear before we start to take immediate action to protect ourselves in a meaningful way, not in a sham, sham legislative procedure that will produce another massive bill, massive shift of power, in a massive new bureaucracy? How many more threats do we need to hear? How many more threats need to be made?

Just in recent times, in recent hours the newspapers are reporting that U.S. intelligence officials believe that terrorist groups may be planning a new wave of attacks on Western targets. According to these reports, our intelligence agencies have detected a significant spike in intelligence chatter during the last 10 days that strongly indicate new assaults are being planned.

What more warning do we need? Do we have to wait until the chatter turns into screams of terror? Do we really believe this new Department of Homeland Security will provide the immediate protections that are so desperately needed? We are not only fooling ourselves, we are also jeopardizing the lives of the American people.

The new Department of Homeland Security will provide no immediate security—none. The legislation gives the President another year in which to put the pieces of this Department together. That is a year without any significant improvements to our Nation's protections. Maybe we should rename this the Department of Homeland Security Delay.

The appropriations bills, on the other hand, that are languishing in the other body controlled by the President's party would provide real security right now. All we have to do is just enact them.

The Senate Appropriations Committee reported appropriations bills for fiscal year 2003 that contained a total of \$25.6 billion for homeland defense funding.

That is a lot of money, \$25.6 billion for homeland defense. That is real money for the real defense of our

homeland that could be available now, under our committee-reported bill, if the House Republican leadership on the other side of the Capitol could get White House permission to complete action on those appropriations bills. It could be done now.

The House is getting ready to leave town. They do not have to leave town. They could stay in town. We ought to pass those appropriations bills. That is money available now to protect lives and prevent future attacks. But under this constant stream of continuing resolutions, many homeland defense investments cannot take place.

The Commerce Justice State appropriations bill, the Treasury appropriations bill, the Agriculture appropriations bill, the VA/HUD appropriations bill, the Labor, Health and Human Services appropriations bill, these are fancy names that probably do not mean that much to anyone listening, but to the security and safety of the American people, these bills mean a whole lot more than a new letterhead on the same old Government stationery, which will come about as a result of the passage of this 484-page bill.

Instead, we are being told to create this new bureaucracy and put funding for homeland security on autopilot with a constant stream of continuing resolutions. It is an irresponsible path and one I hope Congress has the wisdom to avoid. The Senate's VA/HUD and Commerce Justice State appropriations bills provide more than \$3.5 billion for police officers, for firefighters, and for other first responders. That is \$3.5 billion that could be made available next week. All that has to be done is for the House to get the signal from the executive branch which controls the Republican leadership in the House. All that is needed is for the White House to unloose the shackles that are on the House leadership and say, pass that appropriations bill. We restored over \$1 billion of cuts the President proposed for State and local law enforcement programs. That is real safety, without any delay.

What is the administration's response? The administration says we are spending too much money on the security of the American people.

Mr. President, you cannot place a price tag on homeland security. You cannot protect lives on the cheap.

The Senate Labor, Health and Human Services appropriations bill provides \$3.8 billion to protect against biological and chemical weapons. We know that terrorists have them. We are fools if we do not invest in defenses against these weapons. The funds in these appropriations bills help to provide real savings now, without delay. You do not have to wait on passing a 484-page bill which cannot be implemented for another 12 months.

What is the President's response? Hold the line on the appropriations, he says. Hold the line. He has stopped the House Republican leadership from allowing these investments in homeland security to move forward.

Mr. President—I am talking to the President at the other end of the avenue—you cannot place a price tag on homeland security. You cannot protect lives on the cheap.

The Senate Agriculture appropriations bill includes more than \$150 million for the Food and Drug Administration to ensure our food supply is protected from terrorism and to accelerate the development and approval of medicines and tests to protect Americans from bioterrorism agents. This is a real saving. There is no delay here. Just pass the appropriations bill. We stand ready. But the administration has the handcuffs on the House leadership.

Apparently the administration thinks a safe food supply and vaccines to counter anthrax are too expensive. I say once again, a price tag cannot be placed on homeland security. You cannot protect lives on the cheap.

Take the Senate Commerce-Justice-State appropriations bill. It funds new FBI agents. The Treasury appropriations bill funds critical border security initiatives. These bills represent billions of dollars for homeland security. They help to provide real safety without delay, but regrettably the White House says no deal. According to this administration, the price is too high.

In my 50 years in Congress, if the Lord lets me live a few more days, this is the most cynical and potentially most devastating political game any administration has ever played. I am talking about administrations under Republican Presidents and under Democratic Presidents.

While funding battles are not uncommon and while many Congresses and administrations have not agreed on all the priorities, there has never been such a dispute that threatens the security of the American people. This administration would rather protect its political backside than the lives of this Nation's citizens. It is a calculated, cynical, manipulative, and irresponsible approach that I pray does not result in lost lives.

It disgusts me that the President has worked with the House Republican leadership to delay these appropriations bills. That is exactly what has happened. You mark my word. After the new year, when there is a new administration that takes over and this body goes under Republican control, as the other body will be under Republican control, you watch how fast those appropriations bill will pass. They will then pass, and this administration will be able to say; see now how things work under this new administration, how fast we get things done. I think that is the game we will see.

In fact, at the administration's urging, the House of Representatives has not considered a regular appropriations bill in 16 weeks. That is 4 months. And the White House machinations have not stopped at the regular appropriations bills. At the direction of the administration, \$8.9 billion for homeland

security investments were squeezed out of supplemental appropriations bills approved unanimously by the Senate Appropriations Committee, made up of 15 Democrats and 14 Republicans. If the President were serious about homeland security, we would do far more than simply pass a feel-good bill of 484 pages that creates a new department. We would pass these appropriations bills. We would train our first responders. We would provide them with equipment to carry out their mission of protecting the American people. We would put more agents on the borders. We would close the security loopholes in our ports. We would buy vaccines and increase our capacity to handle an attack using a biological weapon. We would invest in immediate homeland security initiatives and not rely on a campaign slogan to protect us 6 months or 1 year or even 5 years from now.

I hope we will not try to sell the American people this bill of goods on homeland security. It is nothing but snake oil. A new department would be welcome, but it will not be enough. We need to do much more and we need to do it quickly.

The Senate Appropriations Committee reported appropriations bills for fiscal year 2003 that contained a total of \$25.6 billion for non-DOD homeland defense funding, an increase of \$5 billion over the levels approved last year. That is real money for the defense of our homeland that could be available now, under our committee-reported bills for fiscal year 2003, if the White House would but take off the shackles from the House Appropriations Committee and let it work, let it complete action on the bills in the regular manner.

This authorizing bill we are debating right now provides nothing immediately for homeland defense. It has a 12-month transition period built into it. It sounds good. It will make a good headline. But it does nothing immediately to increase the security of our country. The appropriations bills, on the other hand, would do something immediately. Right now, all we have to do is enact. That is real money for real protection.

Under the continuing resolution we are operating under now, the significant increases for homeland defense funding that we approved in our committee bills cannot take place. Let me give some examples of what will not be funded under the continuing resolution.

Under the continuing resolution, only \$651 million will be available for the Office of Domestic Preparedness to train and equip State and local law enforcement personnel to handle biological and chemical weapons, this compared to \$2 billion that would be available in the Senate Commerce-Justice-State appropriations bill. Crucial bioterrorism research will be postponed. The Senate Labor-HHS appropriations bill provided nearly \$1.5 billion for bio-

terrorism activities at the National Institutes of Health. This would fund research and infrastructure improvements necessary to develop countermeasures against smallpox, anthrax, and other deadly pathogens. Bioterrorism funding for NIH under a long-term continuing resolution would be limited to approximately \$107 million.

The fiscal year 2003 Senate bill contains a large increase for hospital preparedness funding. Why worry about local hospitals? Again, just today news accounts detail a warning from the FBI to hospitals in Houston, San Francisco, Chicago, and Washington, DC, that they may be targets of a terrorist threat perhaps from anthrax. That is getting close to home, Washington, DC. The \$593 million worth of grants in the Senate appropriations bill are necessary to make sure hospitals have the proper equipment, the staff, and the training to handle a bioterrorism attack. A long-term continuing resolution, however, would provide only \$129 million in fiscal year 2003 for this activity. In total, a long-term continuing resolution for the Labor-HHS bill would provide only \$1.8 billion for bioterrorism preparedness in fiscal year 2003. This is \$2 billion less than the committee-reported appropriations bill. What a difference.

Under the continuing resolution, only \$540 million would be available to local fire departments, from FEMA, for training and equipping firemen for weapons of mass destruction. For fiscal year 2003, the Senate committee VA-HUD appropriations bill provided a total of \$900 million for the fire grant program.

On September 11, 2001, in New York City, we learned that fire and police could not communicate by radio, undermining the response to those vicious terrorist attacks. This is a nationwide problem. We found that out as we conducted testimony on our appropriations bills earlier this year in hearings conducted by the Senate Appropriations Committee. We included \$180 million in the committee bill for grants for interoperable communications equipment for firefighters, none of which would be available under the continuing resolution. Under the continuing resolution, \$180 million that the committee approved for grants to upgrade State and local emergency operation centers would not be funded and \$75 million for grants to upgrade FEMA's 28 research and rescue teams would not be funded.

The Coast Guard is also one of the largest agencies to be included in the new Department of Homeland Security. The Coast Guard just signed the largest procurement contract in the history of the entire Department of Transportation, the so-called deep water capability replacement project. It is a comprehensive effort to modernize the Coast Guard's aging fleet of ships, planes, and helicopters so that the agency can better execute its homeland security and other missions.

Under the continuing resolution—that is what we will be operating under—the Coast Guard will have to start delaying the procurement of long-range aircraft as soon as December. In fact, due to the absence of adequate funding, the Coast Guard will have to start paying contract penalties totaling \$500,000 per month.

So at the same time as the Coast Guard is being merged into the new homeland security agency, the inadequate funding provided under the continuing resolution will mean the Coast Guard will delay the procurement of critical homeland security aircraft while simultaneously wasting half a million of the taxpayers' dollars every month on contract penalties.

The Senate committee Treasury-general government bill added \$18 million to the Customs Service for container security administration. This funding allows for inspection of shipping containers before they reach U.S. ports. Currently, only 2 percent of the containers that come into this country are inspected. Yet this funding will not be available under the continuing resolution.

The Senate committee energy and water bill includes \$64 million to provide for the security guards at critical Corps of Engineer infrastructure sites. Under a long-term continuing resolution, this funding would not be available. Pass the appropriations bill. There is the money. It is available.

This Congress faces a choice. Despite its myriad problems, we will likely pass this legislation to create a Department of Homeland Security. The President will make his speeches to try to convince the American people to feel good. My, we can feel good about this new Department we will have created. What the President will not tell the American people is that the shiny new Department will not be effective until far into the future. What he will not tell the American people is that in the interim, they—the American people—may be less safe rather than more safe because of the chaos and confusion inherent in massive Government reorganizations. What he will not tell the American people is that he continues—he, the President—to block investments that would help to protect the American people from terrorist attacks today.

If we truly want to protect our constituents, if we truly want to make a difference in our constituents' lives, we will provide the funds that are so critically needed. We will support the FBI. We will support the police officers. The funds will support our firefighters in our hometown. We will strengthen our border patrols and our port security. We will take steps to fight terrorism today. We will not wait until the station is ready at the new Department of Homeland Security. The price of continued delay is simply too great to fathom.

Mr. President:

The Moving Finger writes; and, having writ,

Moves on; nor all your Piety nor Wit
Shall lure it back to cancel half a Line,
Nor all your Tears wash out a Word of it.

So, Mr. President, tonight I am writing the record. I will not have that opportunity tomorrow because on tomorrow the Senate will vote to invoke cloture. I urge Senators not to do that, not to vote to invoke cloture tomorrow. Senators should give themselves more time, give their staffs more time to study these 484 pages in this new bill, this bill that has not seen a committee witness, this bill that has not been in a committee room, this bill that was unknown to the Members of this Senate 48 hours ago—a massive bill providing for a massive shift of power to the President of the United States. And once that power is shifted, Senators, remember, it is going to be very difficult to retrieve that power. Yet the legislative branch is just about to do that.

The executive branch never hesitates to stand up in defense of its prerogatives. The judicial branch never hesitates to stand up in defense of its prerogatives. But the same cannot be said of the legislative branch. Nearly always in the legislative branch, half of the branch is made up of supporters of the administration. If it were a monarchy, these would be supporters of the king. If it were in the days of the Revolution, they would be Tories. Half the legislative branch stands up in the defense of the king, in the defense of the executive branch. Only half, if that many, stand up in defense of the legislative branch. Yet we all in this legislative branch, whether we are members of the party that controls the administration or not, we stand before that desk up there and we lift our hand to Almighty God and we put a hand upon the Holy Bible and we swear an oath to support and defend the Constitution of the United States against all enemies, foreign and domestic.

Are we doing that? Are we supporting and defending this Constitution which provides for a balance of powers, a separation of powers, three departments equally balanced? Is that what we are supporting? That is what we swore to support. That is what we swore we would support. But not all of us are going to vote that way.

There are half of us in the two bodies, roughly speaking, who are always ready to run to the executive branch and uphold the executive branch against our own nest, against the legislative branch. I hope it will not be that way tomorrow. I hope that Senators will say whoa, whoa, whoa, just hold on here; let's just wait a little bit. Let's don't vote for cloture today. Let's have a few more days to debate this legislation, see what's in it, offer amendments to it, clean it up, protect the American people, their liberties and their rights. I call upon Senators to do that.

I have watched the Senate floor today. I have heard the assertion made that the Senate has been considering

the pending homeland security bill for 7 weeks now. Let's be clear about that. The Senate just received this homeland security bill, not 7 weeks ago but just the night before yesterday. We have had access to it for 36 to 48 hours, perhaps. The Senate did spend 7 weeks debating another homeland security bill, but that bill is no longer before the Senate. That bill is no longer before the Senate. All of those weeks of debate and amendments have been thrown out the window. In its place we are now debating a new bill, crafted in secret, crafted behind the shades and curtains of darkness; a new bill which many of us have not had the time to read because we just received it. I haven't had time to read it. I have only read parts of it. I haven't had time to read this bill.

We were not involved in drafting this bill. I had nothing to do with the drafting of that bill. It did not go through the committee process. There were no hearings, no markups. It was drafted, not unlike the President's plan, behind closed doors and hidden away from the eyes of the American public. So I must say I am a little distressed when I hear Senators saying that the Congress should pass this bill quickly because we have exhausted debate on it.

I grow even more distressed when I read in this morning's papers that a number of controversial provisions had been quietly inserted into this new bill in the hopes that no one would notice them before the bill passed.

Congress Daily reported this morning that provisions have been inserted into this bill to eliminate or reduce a manufacturer's product liability. Sure enough, title VIII of the new bill would authorize the new Homeland Security Secretary to provide manufacturers with liability protections for a broad range of items, from drugs to life preservers, in case such equipment malfunctions or does not work. According to the Democratic staff of the Governmental Affairs Committee, even if manufacturers sold equipment, technology, or drugs that they knew would not work as intended, the manufacturer could not be held liable for punitive damages unless he knowingly participated in the terrorist act giving rise to the injuries.

Do Senators know that? Do Senators know that this bill does just that? Exactly. Do Senators know that?

Congress Daily reports that limited liability protections already in place for vaccines would be expanded in this bill to include vaccine components such as the preservative Thimerosal, manufactured by Eli Lilly and Company. These drugs, I am informed, are already the subject of class action lawsuits by parents who claim the product's high mercury levels have caused their children's autism.

I have heard other Senators expressing dismay about these provisions that have been slipped into this bill. I have heard other Senators expressing puzzlement, dismay, consternation, surprise—to find such provisions, to find

this bill as it is. And yet we are being asked to invoke cloture tomorrow, invoke cloture so that we limit ourselves in future debate to 30 hours, a total of 30 hours on this bill.

The American people out there don't know this. The American people are being told that this is a great bill, this is a good bill, we are about to create a Department of Homeland Security and you will all be safer, ladies and gentlemen, out there in the hills and the prairies and the valleys and the mountains. You will all be safer.

The American people are being hoodwinked. We are complicitous in going along with the idea—going along with this sham. We are all guilty of going along with this. Yet we are going to invoke cloture on ourselves. We are going to invoke the gag rule.

We hear that this Senate is the greatest deliberative body in the world—greatest deliberative body in the world, the Senate of the United States. Yet we have been on this bill now parts of 2 days—just parts—and tomorrow morning we are going to put the gag rule on. We are going to invoke cloture so that we will deprive ourselves of the opportunity and we will deprive ourselves willingly of the opportunity to expose the weaknesses of this bill—to expose to the people who send us here, the judges of our political fortunes. We are going to say no to the people who send us here when we put this gag rule into effect and say to ourselves that we are not going to be interested in debating this longer than 30 hours, if that much time is used. We are saying to the American people who send us here we are putting the gag rule on you. We are putting the blindfolder on you.

How many of us would like to go to the American people in the next campaign for reelection and tell them that we believe in blindfolding them, and we don't believe they should know what is in this bill. It has some good provisions, I am sure, but we are willing to shut ourselves off here.

This is a bad bill—bad because there are some provisions in it that are bad—not all but some provisions in it are bad. Some provisions we don't even know about. We intend to vote on it—pig in a poke, blindfold ourselves, gag ourselves. We are willing to do that.

Are we willing to draw our moneys, our salaries? The American people pay us to represent them, to protect them, to protect their liberties, to protect their Constitution. If the American people knew that there were certain provisions in here of which some Senators were just becoming aware, the American people would say to all of us: Hold up. Take a look at that bill. Don't you vote for that homeland security bill until you fully know what you are doing. They would say: Hold up here. Don't you come back to me asking for my vote again if you are going to vote to hoodwink the American people by shutting off debate so you can get out of there, so you can go home. We ought

to be right here. Here is where we ought to be until we know what is in this bill. We ought not pass this bill now. We ought to pass the appropriations bills that provide real homeland security for the American people.

So these drugs, as I say, are already the subject of class action lawsuits by parents who claim the products with high mercury levels have caused their children's autism. Is this what the President's homeland security proposal is really all about—exempting multi-billion-dollar pharmaceutical companies from lawsuits when the products they sell to the American public do not function properly or, even worse, injure or kill somebody—multibillion-dollar companies from lawsuits when the technological products they sell to the American people do not function properly? What is this? Is this a payoff for those companies for their contributions in the past election?

Yet another provision in the bill would require liability claims against smallpox vaccine manufacturers to go through the Federal tort system.

Let me say that again.

Yet another provision in the bill would require liability claims against smallpox vaccine manufacturers to go through the Federal tort system. The Federal Government would pay the damages. And punitive damages would be banned.

The new bill also would limit liabilities for airport screening companies and high-tech firms that develop equipment for domestic security. It would aid the airline industry by extending aviation war-risk insurance for a year, and giving airports another year to install baggage screening equipment.

I wonder how many Senators know that provision is in this bill.

According to the New York Times, the bill would reverse an earlier measure and allow American companies that have moved offshore in order to evade taxes to contract with the Homeland Security Department.

How about that? How many Senators know that? Let me say that again.

The bill would reverse an earlier measure and allow American companies that have moved offshore in order to evade taxes to contract with the Homeland Security Department.

These kinds of provisions underscore just how ridiculous this homeland security debate has become. Anyone who opposes this legislation will be labeled unpatriotic. You can count on that. The sting of that political attack is enough to allow gobs of complete and utter junk to be shoved in this bill and shoved through the Congress with lightning speed. The fear of being subjected to utterly vile campaign political attacks is allowing a slew of dangerous provisions—provisions that would never ever get through on their own—to be pushed along with hardly a glance. Just hold your nose, pinch it, and vote for cloture and vote for this bill. Go home feeling good. Oh, we passed some feel-good legislation.

Whoopee, great, hot diggedy dog. We passed a piece of feel-good legislation.

The American people should be afraid. The American people should be very afraid not only of Osama bin Laden and Saddam Hussein but of the monumental cynicism driven by this White House, and regrettably unopposed by this body.

Mr. President, I apologize to the Senate, to the staff, to the pages, all who work in this body—they work hard; they work long hours—for detaining you from going home early and getting an early supper. We call it supper down in West Virginia. Call it dinner, if you wish. We have kept you waiting, and I apologize for my part. Who else has done it? I am the one rascal here who has kept you waiting. I apologize for that.

Had we not been faced with a cloture vote tomorrow, I could have waited until tomorrow and said these things. But when else am I supposed to say it? If cloture is invoked tomorrow, I will have no opportunity to say it. Then we only have 30 hours—all of us, 100 Senators have 30 hours—and I suppose that is an hour each at most.

There is a record standing. There is a record that stands with him who holds the waters in his hands; there is a record that stands. That record will be written, and it will be there for the next thousand years for all who want to read it.

I believe the American people expect us to oppose this way of legislating. It is not as our children are being told the way to make laws.

Mr. President, I end my remarks, as I began them earlier today, by reading from 1st Corinthians, chapter 14, verse 8 and verse 9:

For if the trumpet give an uncertain sound, who shall prepare himself to the battle?

So likewise ye, except ye utter by the tongue words easy to be understood, how shall it be known what is spoken? For ye shall speak into the air.

Mr. President, that is the way I began my remarks. If we pass this bill, we are going to be the trumpet that gives forth an uncertain sound. The American people are going to be told, and they are going to believe, that they are made more safe, but we will have sent forth an uncertain sound. The people will not be made more safe by this piece of legislation.

The PRESIDING OFFICER. Senator from Alaska.

Mr. STEVENS. Mr. President, I have two short statements that I would like to make concerning this legislation. The first deals with the use of appropriated funds.

As my colleagues know, one of the major issues confronting Congress with respect to establishing the Department of Homeland Security was the extent to which the Homeland Secretary would be given the authority to transfer funds between appropriations accounts or among the organizations and programs within the new Department.

Underlying this issue are two critical questions—how best to give the Homeland Secretary the flexibility he or she needs to organize and operate the new Department, and how best to preserve the Congress's constitutional authority to appropriate funds and to oversee their use.

Previous versions of the Homeland Security Department legislation included extensive language governing how the Department would allocate and use appropriated funds and funds generated through property disposal or gifts from outside the Federal Government.

The compromise embodied in the final version of the Homeland Security Department legislation now before us takes a somewhat different approach, but the net effect is the same: Congress's appropriations authorities are maintained. Transferred funds must be used for the purposes for which they were appropriated, and Congress must approve, in advance, the reallocation of transferred funds away from their originally intended purposes.

Language added to the final bill reinforces the requirement that personnel, assets, and obligations transferred to the new Department shall be allocated in accordance with section 1531(a)(2) of title 31, United States Code. That section of permanent law requires that funds transferred within or between Executive branch agencies to finance transferred functions or activities must be used for a purpose for which the appropriation was originally available.

During the final negotiations on this bill, any language dealing directly with use of the general authority to transfer funds was dropped, since it is an authorization act. That authority will be included in the continuing resolution that I hope we will pass to keep the Federal Government functioning after we adjourn or recess this year. Since virtually every annual appropriations act includes general transfer authority language, the negotiators agreed that it was more consistent and effective to include the new Department's transfer authority in an appropriations act. The continuing resolution is our first appropriations opportunity to accomplish this objective. I intend to see to it that it will be in the resolution if at all possible, and I believe it is already agreed to.

The negotiators did retain in the authorization bill the language regarding property disposal and gifts. The language also requires that the new Department submit a detailed budget request annually beginning with fiscal year 2004. That will be the request we receive next year.

The continuing resolution language provides general transfer authority of \$500 million for fiscal year 2003 and the same amount in fiscal year 2004. It stipulates that this authority may not be used unless for higher priority items, based on unforeseen homeland security requirements, than those for

which originally appropriated and in no case where the item for which funds are requested has been denied by the Congress. The language provides an additional \$140 million in transfer authority for fiscal year 2003 for the salaries and expenses associated with the initiation of the Department.

The appropriations language further requires that the Senate and House Committees on Appropriations receive 15 days' advance notice before any funding transfer is made, and it establishes that the new Department will submit formal reprogramming requests to these committees for any proposed funding transfer. The language further stipulates that, of the total amount of transfer authority provided, and except as otherwise specifically authorized by law, not to exceed two percent of any appropriations available to the Home Secretary may be transferred between appropriations. I am satisfied those meet our general requirements, although they are not in the original request I made in the Governmental Affairs Committee on which I serve.

In many respects, these provisions mirror language that is included annually in every Department of Defense Appropriations Act. In addition, use of transfer authority would be subject to approval or disapproval in writing by the Committees on Appropriations, which would review reprogramming requests submitted and considered under established procedures based on the reprogramming procedures used by the Defense Department and Congress for defense transfer authority actions. We intend to mirror the procedure that has been used so successfully with regard to defense matters when we are reviewing national security matters.

Finally, the authorization bill includes a provision intended to help Congress to assess the long-term funding requirements for the new Department. That provision requires annual submission of a Future Years Homeland Security Program that projects spending requirements for at least five fiscal years. This detailed, multi-year document is due beginning with the fiscal year 2005 budget request.

The final authorization language, and the language in the continuing resolution, preserve the statutory and administrative requirements needed to ensure that any funds made available to the new Department are used effectively and efficiently and according to the will of the people as reflected through their elected Senators and Representatives.

This language, and the annual appropriations process, ensure that the Homeland Security has the appropriate authorities to organize and operate the new Department, and that Congress will remain directly engaged in deciding how appropriated funds are used, or reallocated, by the Executive branch.

In so doing, I believe, and it has been my intent working with the distinguished chairman, that this language preserves Congress's Constitutional

and rightful role in our government—a role that the Founding Fathers intended and that our constituents demand. Our constitutional oath requires Members to assure that our constituents' demand for our oversight will be fulfilled.

I have a second short statement. I have been very interested in preserving the Coast Guard's non-homeland security mission performance under this bill. I will discuss for the Senate today a vitally important section of the homeland security legislation that we consider here.

This section—Section 888—is entitled "Preserving Coast Guard Mission Importance," and its implementation is essential to maintaining without significant reduction the Coast Guard's non-homeland security capabilities and missions.

We all recognize the critical homeland security missions the Coast Guard performs. However, it is just as critical to the United States that the Coast Guard effectively and successfully accomplish its non-homeland security missions. The criticality of these non-homeland security missions extends far beyond the 30 coastal and Great Lake states. These non-homeland security missions affect the maritime safety, law enforcement, environmental conditions, and economic security of our entire nation.

The Coast Guard's non-homeland security missions are marine safety, search and rescue, aids to navigation, living marine resources—including fisheries law enforcement, marine environmental protection, and ice operations.

All these missions are critical to the well-being of Alaskans, and we rely on the Coast Guard virtually every day for protection and assistance in these mission areas. I am confident that my colleagues who also will speak on this section of the bill will attest further to the importance to their states and to the rest of the nation of preserving the Coast Guard's vital non-homeland security capabilities and missions.

Preserving these missions and capabilities is the fundamental intent and purpose of Section 888.

The Coast Guard cannot accomplish its non-homeland security missions effectively and successfully unless its current capabilities in these areas are preserved intact and without significant reduction. Section 888 mandates the preservation of these capabilities, and of the Coast Guard's authorities and functions in these areas, unless Congress specifies otherwise in subsequent acts.

I would add at this point that, since September 11, 2001, the Coast Guard has assumed greatly expanded homeland security responsibilities without seeing a reduction in its non-homeland security requirements. This is a strong justification for allocating even more total resources to the Coast Guard on an annual and long-term basis.

Section 888 further reinforces and protects the Coast Guard's non-homeland security missions and capabilities by preventing the diversion of any mission, function, or asset—including ships, aircraft, and helicopters—to the principal and continuing use of any other organization, unit, or entity of the Homeland Security Department. This restriction is intended to minimize, if not eliminate, any prospect of the diversion from the Coast Guard of the personnel, equipment or other resources needed to perform its non-homeland security missions. Personnel details or assignments that do not reduce the Coast Guard's capability to perform these missions are permitted.

Section 888 further prohibits the Homeland Secretary from reducing the Coast Guard's non-homeland security missions and capabilities substantially or significantly unless Congress specifies otherwise in subsequent Acts.

The Homeland Security Secretary may waive this restriction for no more than 90 days, but he or she must first declare and certify to Congress that a clear, compelling, and immediate need exists for such a waiver.

If he or she exercises the waiver authority, the Homeland Secretary must submit to Congress a detailed justification. Thus, the elected Senators and Representatives of the American people will have an opportunity to determine whether they agree or disagree with the waiver. We will have the opportunity to assess the impact of such a waiver on the Coast Guard's non-homeland security missions and to make our views known should there be any cause for concerns.

The language in Section 888 does provide more flexibility than the Coast Guard-related language in the earlier versions of the Homeland Security Department bills that we have been debating since July. However, this latest language still will protect the Coast Guard from any major changes to its non-homeland security missions and capabilities because it clearly does not provide the authority to make wholesale and sweeping changes in these areas.

This final language also includes other important provisions that will contribute to the Coast Guard's overall well-being and effectiveness as part of the new Homeland Security Department, as well as help preserve its non-homeland security missions and capabilities. These provisions have been carried over from at least one of the previous versions of the legislation, or they have been crafted to further enhance the Coast Guard's position in the new Department.

These provisions include language transferring the Coast Guard to the new Department as a freestanding and distinct entity that is not under the jurisdiction of any of the Department's new directorates, and language ensuring that the Service's Commandant shall report directly to the Homeland Secretary without being required to re-

port through any other departmental official.

Take separately and together, these subsections strengthen the institutional position of the Coast Guard and the Commandant within the Department, thus enhancing the Service's ability to compete for resources and to influence policy in both the non-homeland security and homeland security areas. They are an unambiguous statement by the Congress about the importance of the Coast Guard and all its missions within the Department.

Another subsection requires the new Department's Inspector General to report annually to Congress on the mission performance of the Coast Guard, with a particular emphasis on the non-homeland security missions. This information should help Congress identify whether additional actions are needed to preserve these non-homeland security missions and capabilities.

The Homeland Secretary also is required by another subsection to report to Congress not later than 90 days after enactment of the Act on whether the procurement rate in the Service's top-priority modernization program—the integrated deepwater system—can be accelerated by 10 years. Timely implementation of the Deepwater program is essential to maintaining and improving the Coast Guard's capabilities to accomplish all its missions. Congress should consider whether accelerating the program is an affordable and cost-effective way to accomplish these objectives, especially in the non-homeland security area.

A final subsection ensures that the conditions and restrictions in Section 888 shall not apply when the Coast Guard operates as a service in the Navy under section 3 of title 14, United States code. It would be inappropriate to apply these conditions and restrictions under such circumstances. Under section 3 of title 14, the Coast Guard becomes part of the Navy in Wartime or as directed by the President.

In summary, Section 888 resulted from productive negotiations with the White House and our House colleagues during which all sides strived to make reasonable compromises that would enable Congress to pass a final version of the Homeland Security Department legislation during this post-election session. Refinements suggested by the Coast Guard also are included in the language.

The language maintains the structural and operational integrity of the Coast Guard, the authority of the Commandant, the non-homeland security missions of the Coast Guard, and the Service's capabilities to carry out these missions even as it is transferred to the new Department. The language is clearly intended to assure that the important homeland security priorities of the new Department will not eclipse the Coast Guard's crucial non-homeland security missions and capabilities.

Section 888 strikes the right balance at this time between maintaining the

Coast Guard's vital non-homeland security missions and capabilities and permitting it to carry out important homeland security responsibilities.

Just as importantly, this language and the annual appropriations process, ensure that Congress will remain directly engaged in deciding the extent to which any significant changes occur in the future to the Coast Guard's non-homeland security missions and capabilities. Congress's continued and direct engagement in such matters is essential given the importance to the American people of these missions and capabilities.

And again, these missions and capabilities are vital to my State of Alaska.

I thank my distinguished friend for allowing me to make these two statements. I am late to a meeting. I wanted to make sure we explained to the Senate what we have done in modifying this bill.

I know it does not meet totally the requirements and approval of my friend from West Virginia. But I do think, under the circumstances, that we will have this continued role of supervision and we will retain the same type of control over reprogrammings of the new Homeland Security Department that we have over the Department of Defense. We should be able to continue in the future the same kind of Congressional connection to the changes in the use of funds—and there will be changes, based on changing priorities, changing circumstances—and we are part of that process. It will not be done without the prior approval of Congress.

I think I can assure my friend, in my judgment, we have preserved to the maximum extent possible our constitutional role in this process as it goes forward. There is no question every appropriations bill annually will address this issue and we will address it as we have in connection with defense matters in the past.

I thank my friend from West Virginia.

Mr. BYRD. Mr. President, the distinguished Senator is welcome. I appreciate what he has said. I hope the Senator's assurances—I know they are sincerely given—will prove to be direct and true. I must say I have great concerns about this legislation as it is written as to the verbiage that we find in this new package that is on our desks today. It made its appearance yesterday. I hope the distinguished Senator from Alaska is accurate and that he is correct, and that the assurances which he has been given and which he is giving will prove to be the case.

I have a great deal of confidence in my friend from Alaska. I have implicit confidence in him. I have never had that confidence shaken. But that confidence I have in him does not extend beyond him, I have to say truthfully, to the people in this administration. But I do trust my friend and I know he will try to his level best to see to it that the administration deals fairly

and squarely with us in the appropriations process.

With that, I again thank him.

Mr. STEVENS. Mr. President, if the Senator will yield—

Mr. BYRD. Yes, I yield.

Mr. STEVENS. I give the Senator my assurance we will continue to work together to assure we maintain our constitutional role in the activities of this new Department. But I also feel it is absolutely necessary that this bill be passed this year because if it is not, regardless of the size of the bill, it will literally die at the end of December and we will have to start all over again. With the tensions facing the world and challenges our Government faces to maintain homeland security, it is absolutely essential we start forward. We have a slight disagreement on that. But I do believe this bill gives us a framework to work with this subject.

I think the ongoing responsibility to assure the new Department will continue to be effective will primarily rest with the appropriations process. This will be an enormous demand, a new demand on our Treasury, to fund a wholly new type of homeland security.

We are consolidating a whole series of agencies, hopefully bringing about some new efficiencies. But it will require increased money.

Senator BYRD and I have, will continue to have, the role of seeing to it the Senate's operations with regard to the appropriations process are fully understood by the new homeland security department and its personnel, and that we will work effectively to see to it we fulfill our constitutional responsibility with regard to control of the people's money.

Mr. BYRD. Mr. President, I thank the distinguished Senator. I have never seen anything in the demeanor of the distinguished Senator from Alaska, anything in his words, anything in his daily activities, the record he has made here, that would create any doubt, as far as I am concerned, in him and his intention to carry this out. I have to say I don't have the same kind of confidence in the people at the other end of the avenue. I think we are making a huge mistake in passing this bill at this time.

I think the appropriations the distinguished Senator from Alaska and I have worked together in making possible, along with the other members of our committee—I think those appropriations, which have not been signed into law by the President, some of which have not passed the other body, and most of which have been held in check by the other body at the behest of the administration—those would have given to the American people far more security than would this bill. But as to the Senator, my trust in him—as I said it before and I will say it again—is implicit. I have no doubt he intends to do the best he can to see this appropriations process goes along as the Framers and as our predecessors have intended.

Mr. STEVENS. I thank the Senator.

Mr. AKAKA. Mr. President, I rise to discuss the critical distinctions between the legislation as reported out by the Governmental Affairs Committee and the House passed bill, creating a Department of Homeland Security.

I think it is wise to proceed cautiously when creating a mega-Department of Homeland Security which would encompass approximately 22 agencies and involve about 170,000 employees. We all recognize that we face new threats, and we all recognize the need to better coordinate efforts to protect Americans from these threats. However, it is also critically important, as the distinguished senior Senator from West Virginia has repeatedly noted, to consider carefully what is being proposed to ensure that any legislation enhances our security and does not detract from it.

William Safire describes in Thursday's New York Times how the House proposed Homeland Security Act will create a computerized dossier on the private life of every American citizen. I urge my colleagues to read Mr. Safire's prescient column entitled, "You Are a Suspect". His arguments are one reason why we should proceed cautiously to creating a Department of Homeland Security.

The President compares the reorganization of agencies within the federal government into a new Department of Homeland Security to the creation of the Department of Defense after World War II. But the two departments that were combined to create the Department of Defense, the Department of the Army and the Department of the Navy, had the same primary mission, to defend the United States. They had similar cultures and management priorities. This is not true of the proposed new Department of Homeland Security. Many of the agencies, such as the Coast Guard, the Immigration and Naturalization Service, and the Federal Emergency Management Agency, have varying missions, priorities and cultures.

Any far-reaching change to the structure of the federal government demands thorough and open discussion. Senator LIEBERMAN has done a great service to his country by holding hearings and debating extensively the structure of such a department. But there needs to be further debate and amendment to the proposal offered by the Republicans.

Let me make a dozen points as to why the legislation reported out by our Governmental Affairs Committee, which was subjected to numerous public hearings, represents an improvement over legislation passed by the House last night and why the House proposal, supported by the President, is seriously flawed.

First, the House proposal raises serious concerns about the collection, use, and dissemination of private information, the issue addressed by Mr. Safire.

It gives the Secretary broad access to information relating to investigations and places restrictions on the authority of the inspector general to conduct inquiries into the new department's operations. Our committee substitute corrected this oversight by creating both a strong Civil Rights Officer and a strong Chief Privacy Officer.

The privacy officer would assist the Department with the development and implementation of policies and procedures to ensure that privacy considerations and safeguards are incorporated and implemented in programs and activities, and that information is handled in a manner that minimizes the risks of harm to individuals from inappropriate disclosure. Such officers are necessary to protect Americans from encroachments on their civil liberties.

The committee-reported legislation created a powerful civil rights officer, ensuring compliance with all civil rights laws, coordinating with the administration, assisting in the development and implementation of civil rights policies, and reporting to the Inspector General on matters warranting further investigation. In contrast, the new bill just passed by the House would only require the Civil Rights Officer to review and assess alleged abuses and report to Congress. In the House bill the Secretary appoints the officer and in the Governmental Affairs committee-reported bill the President appoints and the Senate confirms the officer, ensuring greater accountability. The Committee alternative worked to ensure that civil rights were not violated in the first instance.

The threat of a "Big Brother" new department cannot be overemphasized. With the President proposing programs like the Terrorism Information and Prevention System, Operation TIPS, a national program to encourage volunteers to report suspect activities to the Department of Justice, and the Department of Defense's new "Total Information Awareness," we need strong protections against violations of Americans' privacy and civil rights. The first defense of our freedom comes from a system with checks and balances. The House proposal, supported by the President, does not contain sufficient checks and balances.

Second, under the first House-passed bill and the President's original proposal, whistleblowers were not protected. Merit Systems Protection Board, MSPB, appeal rights as well as Office of Special Counsel, OSC, enforcement were not included. I am pleased to say that under the proposal before us today, whistleblowers retain most of their rights. However, the bill does not go far enough. Due to the waiver of collective bargaining rights, third-party arbitration may not be protected for those federal employees who are union members and blow the whistle. Third party arbitration is an effective way to resolve whistle blower cases due to the hostile decisions of the Federal Circuit.

Third, the administration proposal transfers the Transportation Security

Agency, TSA, into the new department. Baggage screeners are our first line of defense against terrorism on our airlines, and they need to have the same protections as our border patrol agents, INS employees, and custom inspectors so that they can come forward to disclose risks to our public health and safety. The committee's bill, as a result of an amendment offered by Senator LEVIN and myself, gave full whistleblower rights to baggage screeners and their supervisors and to contract screeners. This is something that the House proposal fails to do.

Fourth, the new administration-supported bill gives minimal assurances that non-homeland security functions in the 22 agencies to be absorbed in the new Department will be preserved and not eliminated or diminished. The committee's amendment, which I offered with Senator CARPER, required that all non-homeland security functions of each agency be identified, along with the resources needed to preserve these functions, and the additional changes needed to ensure that non-homeland security functions would not be diminished. The new proposal drops this critical reporting requirement. In fact, the new bill removes all reports to Congress which would allow Congress to monitor closely the creation of the new department and to ensure vital non-homeland security functions are preserved.

Fifth, the committee-reported bill provided critical management guidance to the development of an effective homeland security mission. Agencies need specific guidance on how to achieve success. There are over 40 federal agencies with homeland security missions—some to be within the new department but others to remain outside. For many, homeland security is a new responsibility that must be added to existing missions. Agencies will need to rationalize their new homeland security missions with their existing responsibilities. The committee's amendment provided for a process for ensuring that this occurs. The House proposal does not.

Sixth, the House-passed bill creates a new Under Secretary for Information Analysis and Infrastructure Protection with two subordinate directorates, including one for intelligence which is given extraordinary access to sensitive information, both domestic and foreign. Under the House formulation as supported by the President, the new Secretary can trump the authority of the Director of Central Intelligence. The new directorate will duplicate work already being performed by the CIA's Counter Terrorism Center. Furthermore, Section 202 of the President's bill requires all agencies to provide all information to the new Department, including information which might pertain to intelligence sources and methods, without the Secretary even having to request that information. This gives this new office unprecedented access with few checks and

balances, suggesting that the new office may have the capability to intrude to an extraordinary extent into the private lives of individual American citizens. These are very worrisome developments. The new formulation risks endangering our individual, as well as our national, security. Senator THOMPSON, Senator LIEBERMAN, Senator LEVIN and I had worked out an amendment which was contained in the committee bill. This amendment should have been accepted by the President. I am deeply troubled concerning the administration's new mission for the Department's intelligence directorate.

Seventh, the latest proposal does not address the serious shortcomings across the Federal Government in communicating security threats to the public. The American people are confused and frustrated by threat advisories without direction and repeated statements by the administration that future terrorist attacks are inevitable. The committee bill ensured that the Secretary of the new Department worked with state and local officials to develop more effective alert systems, more useful warnings, and improved communication with the public and private sector. In short, the Governmental Affairs Committee's legislation would have empowered the American people to play a role in the war on terrorism.

Eighth, this new proposal transfers the Plum Island Animal Disease Center from the Department of Agriculture to the Department of Homeland Security. However, many potential agriculture terrorism diseases, such as anthrax, are not studied at Plum Island. Rather than pulling off one piece of the Department of Agriculture's much needed and underappreciated laboratory network, the Governmental Affairs Committee alternative left Plum Island where it was and instead ensured coordination and consultation between the Department of Homeland Security and Agriculture on bioterrorism research priorities.

Ninth, the House proposal does not address serious shortfalls in emergency preparedness and response capabilities for agricultural terrorism. The Lieberman alternative acknowledged the importance of agriculture to our national economy and the dangers that an infectious animal or plant disease could pose to human health, rural America, and our Nation's economy. A large scale agricultural disease outbreak, whether of natural or deliberate origin, will require rapid and coordinated efforts by the Department of Agriculture, the Federal Emergency Management Agency, the Environmental Protection Agency, the Departments of Health and Human Services, Transportation, Defense, and Justice, and local and State emergency managers. The committee's amendment ensured that agricultural health diseases were considered in security assessments and that the animal health and agriculture

communities would be included in planning, training, and response activities.

Tenth, in the name of flexibility, the President's initial proposal waived all of the provisions of title 5 leaving federal employees without protection from discrimination or whistleblower retaliations. The House proposal maintains most of title 5; however, it allows for the waiver of provisions affecting collective bargaining rights and appeal rights. One of the key factors to the so-called success of the Federal Aviation Administration, FAA, and the Internal Revenue Service, IRS, two agencies that have managerial flexibilities, is the strong role federal labor unions play in the shaping of the personnel system and in resolving employee disputes through third-party arbitration. This third-party arbitration is even more critical since cases involving coercion to participate in political activity, violations of veterans preference rights, giving unlawful preference or advantage to any employee, or other prohibited personnel practices can no longer be appealed to an independent body such as the Merit Systems Protection Board, MSPB. The personnel system at the FAA removed MSPB appeal rights in 1996 only to have them reinstated by Congress in 2000 at the urging of Federal employees and managers.

While the merit system principles are designed to ensure that Federal employment is efficient, fair, open to all, and free from political interference, the civil service rules of title 5, reinforced by collective bargaining rights, provide the framework for implementing and enforcing merit principles. Without such laws in place, the principles we all strive for cannot be reached. The Governmental Affairs Committee's reported bill preserved all of title 5, protected collective bargaining rights, and provided additional flexibilities governmentwide.

Some 25 years ago, the Civil Service Reform Act, CSRA, of 1978 responded to the same issues confronting our Government today. The act established the principles of openness and procedural justice that define the civil service today. It created the Merit Systems Protection Board and the Office of Special Counsel to protect the rights of Federal employees. The Federal Labor Relations Authority was created to oversee labor-management practices. The act provided a statutory basis for the collective bargaining rights of Federal workers. It prohibited reprisals against employees who expose government fraud, waste and abuse. Those in the Federal workforce demonstrate their loyalty and dedication not just to their employer but to their country every day. On September 11, the Federal workforce responded with courage, dedication, and sacrifice. Why is the President repaying their sacrifice by undermining their rights and our civil service by proposing these changes?

Eleventh, the House legislation fails to protect veterans by allowing the

waiver of chapter 77 of title 5 relating to appeals. This would make veterans go to an agency management-operated process to challenge anti-veteran personnel actions by the same agency management. Under current law, veterans who believe that they have been denied a position or have been subject to a "designer" Reduction-In-Force, RIF, action in violation of veterans' preference requirements can challenge such wrongful actions through the Merit Systems Protection Board or through a union grievance procedure. This will no longer be possible under the House bill. The Committee's bill would have preserved MSPB review of veterans' preference complaints. Ironically, as we are in the midst of a war on terrorism and have authorized a war against Iraq, the Administration is weakening veterans' preference rights. This is fundamentally wrong.

Twelfth, the House proposal and the Governmental Affairs Committee-reported bill include provisions protecting the confidential sharing of critical infrastructure information. With cyber attacks on the rise, government and industry leaders have been seeking a way to facilitate the sharing of information related to cyber vulnerabilities and attacks. Sharing such information is important because 85 percent of the Nation's infrastructure is controlled by private utility, telecommunications, or other similar companies. Despite the need to facilitate information sharing, I question the extent to which such information will be protected and the impact of such protections on environmental and public health laws.

In general, the owners and operators of critical infrastructure are concerned about the type and scope of information they are being asked to submit to the government. This data deals with vulnerabilities, incidents, and remedies which, if made available to business competitors or to the general public, could compromise their competitive position, expose them to liability, disclose sensitive information to terrorists and others who might wish to disrupt the function of their infrastructure, or harm their public relations.

However, current law provides adequate protection to the private sector for disclosing this type of information to the Federal Government. Nonetheless, industry has expressed its concern over non-binding case law that could be overturned. As such, the Governmental Affairs Committee bill provided a narrow exception to the Freedom of Information Act which closely follows current law. This provision was designed to facilitate the sharing of information with the Federal Government, while at the same time providing citizens with necessary information on public health and environmental issues. The Committee bill was careful not to provide an inadvertent safe harbor for those who violate Federal health and safety statutes.

For these reasons, I believe that the Governmental Affairs Committee's leg-

islation offered a more effective approach to guarding homeland security than the proposal advocated by the President who recently stated that "our job—our government's greatest responsibility is to protect the American people. "I agree with the President, but I do not agree that by voting for the President's flawed proposal we will be adequately protecting the American people.

Mr. JEFFORDS. Mr. President, I would like to commend Senator CORZINE for his efforts to address the serious issue of chemical site security. The Chemical Security Act, S. 1602, which I cosponsored, would require "high priority" facilities to improve security and reduce hazards. The bipartisan and strong support for this issue was demonstrated last July when the bill unanimously passed the Senate Environment and Public Works Committee.

Across the country, thousands of industrial facilities use dangerous chemicals in amounts that could endanger nearby communities if the facilities were attacked by terrorists. According to the Environmental Protection Agency's Risk Management Planning program, there are 123 facilities where a release of chemicals could threaten more than 1 million people. There are also more than 700 facilities from which a chemical release could threaten more than 100,000 residential neighbors. Yet there is no Federal security standard for chemical facilities, no Federal guidelines on facility proximity to neighboring communities, and no Federal agency overseeing the operations and safety of these facilities.

This bill is not intended to address chemical accidents. The Clean Air Act already provides existing authority. However, a review of the chemical accident data provides clear insight into the dangers associated with chemical releases from these facilities. Federal data suggests that in 1998 there were almost 50,000 incidents—fires, spills and explosions—over 100 deaths, and nearly 5,000 injuries, related to chemical industrial accidents in the United States. Some analysts suggest that for each catastrophic chemical accident that causes a fatality, there are 300 recordable incidents and 30,000 near misses. One estimate suggests that U.S. chemical accidents cost about \$15 billion a year.

In 1999, Congress required the Department of Justice to issue, within 3 years, a report to Congress on the vulnerability of chemical facilities to criminal and terrorist activity. For over a year, the Senate Environment and Public Works Committee has been asking for this report. Beyond a very thin and useless preliminary draft, the administration has not complied with this requirement of the Clean Air Act amendments. The Justice Department claims that funding constraints have impacted their work. This excuse is completely unacceptable, as is the administration's delay in addressing

what may be this Nation's biggest terrorist vulnerability. Three years ago, Congress recognized the potential risks to our Nation's chemical security. Not 1 more year or month should pass with this issue unresolved.

Press reports highlight the public's frustration. In September, Newsweek reported a failing grade to the Federal Government in protecting chemical plants and other hazardous materials. I believe the article accurately described the forces blocking action: "industry lobbyists and infighting among a multitude of government agencies trying to defend their turf have combined to hold (Governor) Ridge's office and the Environmental Protection Agency at bay."

I ask my colleague to step beyond bureaucratic delays and special interest pressures to think of the families that could be impacted by our inaction here today. We must act on this issue as soon as possible.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. SCHUMER). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

NOMINATION OF JOHN M. ROGERS

Mr. LEAHY, Madam President, last night, the Senate voted to confirm the nomination of John Rogers who is nominated to the U.S. Court of Appeals for the Sixth Circuit. By confirming this nomination, we are trying to move forward in providing help to the Sixth Circuit. Earlier this year, we held a hearing for Judge Julia Gibbons to a seat on the Sixth Circuit, who was confirmed by the Senate on July 29, 2002 by a vote of 95 to 0. With last night's vote, the Democratic-led Senate confirmed the 15th judge to our Federal Courts of Appeal and our 98th judicial nominee since the change in Senate majority in July 2001. I have placed a separate statement in the RECORD on the occasion of confirming that many of this President's judicial nominees in just 16 months.

Republicans often say that almost half of the seats on the Sixth Circuit are vacant but what they fail to acknowledge is that most of those vacancies arose during the Clinton Administration and before the change in majority last summer. None, zero, not one of the Clinton nominees to those current vacancies on the Sixth Circuit received a hearing by the Judiciary Committee under Republican leadership. With the confirmation of Professor Rogers, we have reduced the number of vacancies on that court to six, but four of those remaining lack home-State consent due to the President's failure to address the legitimate concerns of Senators in that circuit whose nominees were blocked by Republicans during the period of Republican control of the Senate.

The Sixth Circuit vacancies are a prime and unfortunate legacy of the past partisan obstructionist practices under Republican leadership. Vacancies on the Sixth Circuit were perpetuated during the last several years of the Clinton administration when the Republican majority refused to hold hearings on the nominations of Judge Helene White, Kathleen McCree Lewis and Professor Kent Markus to vacancies in the Sixth Circuit.

One of those seats has been vacant since 1995, the first term of President Clinton. Judge Helene White of the Michigan Court of Appeals was nominated in January 1997 and did not receive a hearing on her nomination during the more than 1,500 days before her nomination was withdrawn by President Bush in March of last year. Judge White's nomination may have set an unfortunate record.

Her nomination was pending without a hearing for more over 4 years—51 months. She was first nominated in January 1997 and renominated and renominated through March of last year when President Bush chose to withdraw her nomination. Under Republican control, the committee averaged hearings on only about eight Courts of Appeals nominees a year and, in 2000, held only five hearings on Courts of Appeals nominees all year.

In contrast, Professor Rogers was the fifteenth Court of Appeals nominee of President Bush to receive a hearing by the committee in less than a year since the reorganization of the Senate Judiciary Committee. In 16 months we held hearings on 20 circuit court nominations. Professor Rogers was being treated much better than Kathleen McCree Lewis, a distinguished African American lawyer from a prestigious Michigan law firm. She never had a hearing on her 1999 nomination to the Sixth Circuit during the years it was pending before it was withdrawn by President Bush in March 2001.

Professor Kent Markus, another outstanding nominee to a vacancy on the Sixth Circuit that arose in 1999, never received a hearing on his nomination before his nomination was returned to President Clinton without action in December 2000. While Professor Markus' nomination was pending, his confirmation was supported by individuals of every political stripe, including 14 past presidents of the Ohio State Bar Association and more than 80 Ohio law school deans and professors.

Others who supported Professor Markus include prominent Ohio Republicans, including Ohio Supreme Court Chief Justice Thomas Moyer, Ohio Supreme Court Justice Evelyn Stratton, Congresswoman DEBORAH PRYCE, and Congressman DAVID HOBSON, the National District Attorneys Association, and virtually every major newspaper in the state.

In his testimony to the Senate in May, Professor Markus summarized his experience as a federal judicial nominee, demonstrating how the "history regarding the current vacancy backlog is being obscured by some." Here are some of things he said:

On February 9, 2000, I was the President's first judicial nominee in that calendar year. And then the waiting began. . . .

At the time my nomination was pending, despite lower vacancy rates than the 6th Circuit, in calendar year 2000, the Senate confirmed circuit nominees to the 3rd, 9th and Federal Circuits. . . . No 6th circuit nominee had been afforded a hearing in the prior two years. Of the nominees awaiting a Judiciary Committee hearing, there was no circuit with more nominees than the 6th Circuit.

With high vacancies already impacting the 6th Circuit's performance, and more vacancies on the way, why, then, did my nomination expire without even a hearing? To their credit, Senator DEWINE and his staff and Senator HATCH's staff and others close to him were straight with me.

Over and over again they told me two things: (1) There will be no more confirmations to the 6th Circuit during the Clinton

Administration[.] (2) This has nothing to do with you; don't take it personally it doesn't matter who the nominee is, what credentials they may have or what support they may have—see item number 1. . . . The fact was, a decision had been made to hold the vacancies and see who won the presidential election. With a Bush win, all those seats could go to Bush rather than Clinton nominees.

As Professor Markus identified, some on the other side of the aisle held these seats open for years for another President to fill, instead of proceeding fairly on the consensus nominees pending before the Senate. Some were unwilling to move forward, knowing that retirements and attrition would create four additional seats that would arise naturally for the next President. That is why there are now so many vacancies on the Sixth Circuit.

Had Republicans not blocked President Clinton's nominees to this court, if the three Democratic nominees had been confirmed and President Bush appointed the judges to the other vacancies on the Sixth Circuit, that court would be almost evenly balanced between judges appointed by Republicans and Democrats. That is what Republican obstruction was designed to avoid, balance. The same is true of a number of other circuits, with Republicans benefitting from their obstructionist practices of the preceding six and a half years. This combined with President Bush's refusal to consult with Democratic Senators about these matters is particularly troubling.

Long before some of the recent voices of concern were raised about the vacancies on that court, Democratic Senators in 1997, 1998, 1999, and 2000 implored the Republican majority to give the Sixth Circuit nominees hearings. Those requests, made not just for the sake of the nominees but for the sake of the public's business before the court, were ignored. Numerous articles and editorials urged the Republican leadership to act on those nominations.

Fourteen former presidents of the Michigan State Bar pleaded for hearings on those nominations. The former Chief Judge of the Sixth Circuit, Judge Gilbert Merritt, wrote to the Judiciary Committee Chairman years ago to ask that the nominees get hearings and that the vacancies be filled. The Chief Judge noted that, with four vacancies—the four vacancies that arose in the Clinton administration the Sixth Circuit "is hurting badly and will not be able to keep up with its work load due to the fact that the Senate Judiciary Committee has acted on none of the nominations to our Court." He predicted: "By the time the next President is inaugurated, there will be six vacancies on the Court of Appeals. Almost half of the Court will be vacant and will remain so for most of 2001 due to the exigencies of the nomination process. Although the President has nominated candidates, the Senate has refused to take a vote on any of them."

However, no Sixth Circuit hearings were held in the last three full years of the Clinton administration—almost his

entire second presidential term—despite these pleas. Not one. Since the shift in majority last summer, the situation has been exacerbated further as two additional vacancies have arisen.

The committee's April 25th hearing on the nomination of Judge Gibbons to the Sixth Circuit was the first hearing on a Sixth Circuit nomination in almost 5 years, even though three outstanding, fair-minded individuals were nominated to the Sixth Circuit by President Clinton and pending before the Committee for anywhere from one year to over four years. Judge Gibbons was confirmed by the Senate on July 29, 2002, by a vote of 95 to 0. We did not stop there, but proceeded to hold a hearing on a second Sixth Circuit nominee, Professor Rogers, just a few short months later in June.

Just as we held the first hearing on a Sixth Circuit nominee in many years, the hearing we held on the nomination of Judge Edith Clement to the Fifth Circuit last year was the first on a Fifth Circuit nominee in seven years and she was the first new appellate judge confirmed to that Court in six years.

When we held a hearing on the nomination of Judge Harris Hartz to the Tenth Circuit last year, it was the first hearing on a Tenth Circuit nominee in six years and he was the first new appellate judge confirmed to that Court in 6 years. When we held the hearing on the nomination of Judge Roger Gregory to the Fourth Circuit last year, it was the first hearing on a Fourth Circuit nominee in three years and he was the first appellate judge confirmed to that court in three years.

A number of vacancies continue to exist on many Courts of Appeals, in large measure because the recent Republican majority was not willing to hold hearings or vote on half—56 percent—of President Clinton's Courts of Appeals nominees in 1999 and 2000 and was not willing to confirm a single judge to the Courts of Appeals during the entire 1996 session.

From the time the Republicans took over the Senate in 1995 until the reorganization of the committee last July, circuit vacancies increased from 16 to 33, more than doubling. Democrats have broken with that recent history of inaction. In the last 16 months, we have held 26 judicial nominations hearing, including 20 hearings for circuit court nominees.

Professor Roger's nomination was also the fourth judicial nomination from Kentucky to be considered by the committee in its first year, and the eighth nomination from Kentucky overall. There are no judicial vacancies left in the State.

Professor Rogers of the University of Kentucky College of Law has experience as an appellate litigator and a teacher, and is a prolific author on a number of difficult legal topics. It is important to note that aspects of his record raise concerns. As a professor, he has been a strong proponent of judi-

cial activism. No Clinton judicial nominee with such published views would ever have been confirmed during the period of Republican control. In his writings, Professor Rogers has called on lower court judges to reverse higher court precedents, if the lower court judge thinks the higher court will ultimately reverse its own precedent. Such an activist approach is inappropriate in the lower federal courts. The Supreme Court itself has noted that lower courts should follow Supreme Court precedent and not anticipate future decisions in which the Supreme Court may exercise its prerogative to overrule itself.

Prognostications about how the Supreme Court will rule often turns out to be wrong. For example, some predicted that the Supreme Court would overturn *Miranda*, but the Supreme Court, in an opinion by Chief Justice Rehnquist, declined to do so. Similarly, people like Professor Rogers have called on the Supreme Court to overturn *Roe v. Wade*, but thus far the Supreme Court has rejected calls to reverse itself in this important decision regarding the rights of women and has resisted calls to return this country to the awful period of dangerous back alley abortions.

Professor Rogers also suggested in his academic writings that lower court judges should consider the political views of Justices in making the determination of when lower courts should overrule Supreme Court precedent. In his answers to the committee, Professor Rogers acknowledged that he had taken that position but he now says that lower courts should not look to the views of Justices expressed in speeches or settings other than their opinions. Also, in his answers to the committee, Professor Rogers said he would give great weight to Supreme Court dicta, or arguments that are not part of the holding of the case. I would like to take this opportunity to urge him to take seriously the obligation of a judge to follow precedent and the holdings of the Supreme Court, rather than to look to dicta for views that may support his own personal views. I would also urge him resist acting on his academic notion that a judge should diverge from precedent when he anticipates that the Supreme Court may eventually do so.

Professor Rogers has assured us that he would follow precedent and not overrule higher courts, despite his clear advocacy of that position in his writings as a scholar. He has sworn under oath that he would not follow the approach that he long advocated. As with President Bush's Eighth Circuit nominee Lavenski Smith, who was confirmed earlier this summer, I am hopeful that Professor Rogers will be a person of his word: that he will follow the law and not seek out opportunities to overturn precedent or decide cases in accord with his private beliefs rather than his obligations as a judge.

I would also note that during his tenure at the Justice Department, Pro-

fessor Rogers appeared to support an expansive view of the power of the executive branch vis-a-vis Congress. I am hopeful, however, that Professor Rogers will recognize the important difference between being a zealous advocate for such positions and being a fair and impartial judge sworn to follow precedents and the law.

When he was asked to describe any work he had handled which was not popular but was nevertheless important, he said that the case which came to mind was one in which he defended the CIA against a lawsuit seeking damages for the CIA's illegal opening of the private mail of tens of thousands of U.S. citizens during this 1970s or 1980s. Those were dark days of overreaching by the intelligence community against the rights of ordinary law-abiding American citizens. Although times have changed forever since the tragic events of September 11, I think it is important that the American people have access to judges who will uphold the Constitution against government excesses while also giving acts of Congress the presumption of constitutionality to which our laws are entitled by precedent.

Professor Rogers has repeatedly assured the committee, however, that he would follow precedent and not seek to overturn decisions affecting the privacy of women or any other decision of the Supreme Court. Senator MCCONNELL has also personally assured me that Professor Rogers will not be an activist but is sincerely committed to following precedent if he is confirmed. I sincerely hope that his decisions on the Sixth Circuit do not prove us wrong.

Mr. HATCH. Madam President, I am particularly pleased today to speak in support of the confirmation of John M. Rogers to the U.S. Court of Appeals for the Sixth Circuit. As we know, there is a judicial vacancy crisis in the Sixth Circuit and the addition of Mr. ROGERS to the bench represents a positive step in alleviating that regrettable situation.

John M. Rogers is currently the Thomas P. Lewis Professor at the University of Kentucky College of Law, where he has taught since 1978. He is a Phi Beta Kappa graduate of Stanford University and an Order of the Coif graduate of the University of Michigan Law School, where he served on the Michigan Law Review. He is an expert in international, administrative, and constitutional law and a respected teacher and scholar.

Prior to teaching, Professor Rogers was an appellate attorney in the Civil Division of the United States Department of Justice. This work, and a later stint at DOJ, led to his being awarded a Special Commendation for Outstanding Service to the Civil Division of the U.S. Department of Justice. Rogers has twice been a Fulbright Senior Lecturer in the People's Republic of China, and is a member of the Council on Foreign Relations. He has also

served this country for 28 years as a reserve officer in the U.S. Army Reserve and the Kentucky Army National Guard.

All of these accomplishments and contributions explain why the American Bar Association has rated Professor Rogers unanimously qualified. I agree with that judgment, I applaud President Bush for making this nomination, and I urge all of my colleagues to confirm Professor Rogers to the Sixth Circuit. I am confident he will serve with distinction as a Federal judge.

NOMINATIONS OF U.S. DISTRICT COURT
NOMINEES

Mr. HATCH. Madam President, I rise in support of the fine group of district court nominees who are being confirmed tonight. I have reviewed their individual records and I find all of them to be excellent choices for the Federal bench. Permit me a moment to highlight the merits of each nominee.

U.S. Magistrate Judge Stanley R. Chesler, our nominee to the District Court for the District of New Jersey, received his undergraduate degree from Harpur College. He then went on to do graduate work at Brooklyn College where he accumulated 30 graduate credits in education. While working as teacher during the day, he graduated magna cum laude and first in his class from St. John's University School of Law, receiving no less than 12 American Jurisprudence Awards and consistently making the dean's list.

Upon graduation, Magistrate Judge Chesler joined the Bronx District Attorney's Office and specialized in prosecuting public corruption, organized crime, narcotics and fraud cases. In 1980 he became a Special Attorney for the U.S. Department of Justice's Newark Organized Crime Strike Force, before becoming an Assistant United States Attorney. During his career at the Department of Justice, he was awarded the Special Commendation Award and the Special Achievement Award. The nominee was then appointed by the New Jersey District Court judges to the office of Magistrate Judge in 1987. Magistrate Judge Chesler has also been recognized by his colleagues in receiving an ABA rating of Unanimously Well Qualified.

Rosemary Collyer, our nominee to the U.S. District Court for the District of Columbia, is a graduate of the University of Denver School of Law. She began her career at the Denver firm of Sherman & Howard as an associate in the labor and employment law group. Four years later she was nominated by President Reagan and confirmed by the Senate to be the Chairman of the Federal Mine Safety and Health Review Commission, which reviews decisions of specialized administrative law judges who adjudicate cases dealing with mine safety, health and discrimination claims under Federal law.

In 1984 Ms. Collyer was nominated by President Reagan and confirmed by the Senate to be General Counsel of the

National Labor Relations Board. In this capacity, she served as the nationwide prosecutor of labor law violations, overseeing election processes, representing the NLRB before State and Federal courts, and overseeing agency personnel and budget matters. Since 1989, Ms. Collyer has been a partner at Crowell & Moring in Washington, D.C. Her specialization has been in labor law and employment law.

A July 22, 2002 Legal Times article reported that Ms. Collyer is "well-regarded by her fellow labor lawyers." One colleague asserted, "She cares about getting it right. She is definitely capable of navigating complex cases." Another stated that during her time of government service, "she was an oasis of perceived neutrality. She pandered to no one." These are traits that will undoubtedly serve Ms. Collyer well upon her confirmation to the Federal bench.

Mark E. Fuller, nominated to be a U.S. District Court Judge for the Middle District of Alabama, is an excellent choice for the federal bench. After graduating from the University of Alabama School of Law in 1985, Mr. Fuller joined the firm of Cassady, Fuller & Marsh, a small litigation firm specializing in all aspects of state and federal practice in rural southeast Alabama. He became a partner in 1986 and remained with the firm until 1996, handling insurance and corporate defense work, and domestic relations, real estate, and corporate law matters.

From 1987 to 1992 and from 1995 to 1996, Mr. Fuller worked as a part-time Assistant District Attorney. In 1996 Mr. Fuller accepted the position of Chief Assistant District Attorney for Alabama's Twelfth Judicial Circuit, serving there until 1997, when he was appointed District Attorney in the same office. While working in the District Attorney's office, Mr. Fuller has represented the people of Pike and Coffee counties in criminal cases, including capital murder trials and juvenile and district court matters. In 1998 Mr. Fuller was elected to a full six-year term as District Attorney. He oversees the operations of the office and continues to handle criminal jury trials.

Daniel Hovland, nominated to the District Court for the District of North Dakota, promises to be an excellent federal judge. Upon graduation from the University of North Dakota School of Law, he served as a law clerk to the Honorable Ralph J. Erickstad on the North Dakota Supreme Court. He then accepted a position with the Office of the Attorney General for North Dakota, working as an Assistant Attorney General and acting as Director of the Consumer Fraud Division from 1980 to 1983.

From there he moved into private practice, working with Fleck Mather & Strutz from 1983 to 1994 and Smith Bakke Hovland & Opegard from 1994 to the present. As a trial lawyer, Mr. Hovland handles personal injury, wrongful death, medical malpractice,

employment/labor, and product liability cases. While in private practice, Mr. Hovland has gained experience particularly helpful for the federal bench. Since 1994 he has served as an Administrative Law Judge for North Dakota's Office of Administrative Hearings, he currently serves on the North Dakota Parole Board, and he has experience with mediation and arbitration.

Kent A. Jordan, who has been nominated to the U.S. District Court for the District of Delaware, comes fully recommended by Senators BIDEN and CARPER, and I urge my colleagues to support him as well.

Mr. Jordan possesses the experience needed for handling the court's heavy caseload of intellectual property, government corruption, and corporate matters. Following graduation from Georgetown University Law Center in 1984, he served as a law clerk to the Honorable James L. Latchum, judge on the U.S. District Court for the District of Delaware. He then worked in private practice with a Wilmington, Delaware, firm, focusing on corporate and commercial litigation. From 1987 to 1992, Mr. Jordan worked in public service as an Assistant U.S. Attorney for the District of Delaware, advancing to become lead attorney on many civil and criminal issues.

Mr. Jordan currently works as a Vice President and General Counsel for the Corporation Service Company, which provides registered agent, public records filing and retrieval, corporate and intellectual property information management, and litigation information management services.

James E. Kinkeade, nominated to the U.S. District Court for the Northern District of Texas, is a graduate of Baylor University School of Law. Judge Kinkeade began work as a law clerk and then associate for Brewer & Price in Irving, Texas. One year later he became a partner at Power & Kinkeade Law Firm. He represented a large number of closely held businesses and acted as local counsel for several national corporations. In addition, he had an active domestic relations and criminal practice. Judge Kinkeade served as an Associate Municipal Judge for the City of Irving from 1976-1980.

Judge Kinkeade stopped practicing law in January of 1981 to become a judge for the County Criminal Court in Dallas, Texas. In fall of 1981, he became a judge for the 194th District Court of Texas. Since 1988, Judge Kinkeade has served on the State of Texas, 5th District Court of Appeals. In addition, Judge Kinkeade has served as an adjunct professor for over 10 years at the Texas Wesleyan School of Law. He received the Outstanding Adjunct Professor award four times while teaching Professional Responsibility.

Judge Robert Gary Klausner, who has been nominated to the District Court for the Central District of California, graduated from Loyola Law School (Los Angeles) in 1967. Though awarded

a merit scholarship by Loyola he supported himself as a gas station attendant. Upon graduation, he commenced his service as an active duty officer in the U.S. Army, rising to the rank of Captain and receiving the Bronze Star.

After leaving the Army, Judge Klausner worked as a Deputy District Attorney for Los Angeles County. In 1974, he became Court Commissioner to the Pasadena Municipal Court for 6 years. In 1980, he became a Judge to that Court. Judge Klausner then left the Pasadena Municipal Court to become a Judge for the Los Angeles Superior Court. He has been with the Los Angeles Superior Court for the last 17 years. This nominee's life has been dedicated to the people of California and I cannot urge the Senate enough to confirm this well-qualified and well-deserving nominee.

Our nominee to the District of New Jersey, Judge Robert Byron Kugler, graduated from Rutgers, Camden Law School and then clerked for the Honorable John F. Gerry of the United States District Court in Camden, New Jersey. In 1979, he was appointed Assistant Camden County Prosecutor and then one year later he was appointed Deputy Attorney General for the New Jersey Department of Law and Public Safety. In these positions, he prosecuted criminal cases brought by county and/or State law enforcement agencies. As a prosecutor, Judge Kugler tried over 30 cases to jury verdict and over 100 cases to verdict in bench trials.

In 1982 Judge Kugler entered private practice and focused on matters of civil and criminal litigation. While in private practice, he tried as sole counsel to verdict over 50 cases. Before becoming a Magistrate Judge, Judge Kugler qualified for appointment by the New Jersey Supreme Court as a Certified Trial Attorney and Certified Civil Trial Attorney. Since 1992, Judge Kugler has been a United States Magistrate Judge in the District Court for the District of New Jersey. In January of 2002, the Camden County Bar Association presented its most prestigious award, the Peter J. Devine Award, to Judge Kugler and his wife for their service to the community and bar.

Ronald B. Leighton, who has been nominated to the U.S. District Court in the Western District of Washington, is a highly experienced and respected federal trial attorney. Upon graduation from UC—Hastings College of Law, Mr. Leighton clerked for the Honorable Frank Richardson of the California Supreme Court. He then joined the Tacoma, WA, firm of Gordon, Thomas, Honeywell, Malanca, Peterson & Daheim, becoming a partner in 1978. He has remained with the same firm to the present day, working as a trial attorney with emphasis on complex litigation in Federal court.

Mr. Leighton's excellence as a litigator has not gone unrecognized. Among other honors, he is a member of the American College of Trial Attor-

neys, the American Board of Trial Advocates, the International Association of Defense Counsel, and the International Society of Barristers. He has represented clients on both sides of the docket.

Mr. Leighton was nominated by President George H.W. Bush to the same position in the spring of 1992, but the Democrat-controlled Judiciary Committee did not grant him a hearing. I am pleased that we can finally vote Mr. Leighton to the federal court, and I urge my colleagues to join me in my support.

Nominated to the U.S. District Court for the District of New Jersey, Judge Jose Luis Linares immigrated to the United States from Cuba when he was 12 years old. He received his undergraduate degree from Jersey City State University in 1975, where he was a member of the National Honor Society. He then graduated from Temple Law School in 1978. During his studies at Temple, he was on the Dean's List for 2 years and was the recipient of the that law school's Barristers' Society Award for Excellence in Trial Advocacy.

Judge Linares started his career with the New York Department of Investigation, where he supervised white-collar crime and corruption investigations in the City of New York. Later, as an attorney at Horowitz, Bross, Sinnins & Imperial, P.A., he was responsible for the preparation and trial of both civil and criminal cases. In 1982, Judge Linares started his own law firm, litigating both civil and criminal cases with a focus on complex medical malpractice and product liability cases. After 18 years as a partner in his own firm, in its many incarnations, he was appointed as a Judge to the New Jersey Superior Court in Essex County. He currently oversees complex medical malpractice cases in the Civil Division of the court. His fellow attorney's are quite impressed with his record as well. He has received the highest rating by the ABA, unanimously Well Qualified. I am proud to say that I will vote for this nominee and I recommend him without reservation to the Senate.

Nominated to the U.S. District Court for the Western District of Texas, Judge Alia Moses Ludlum, graduated from the University of Texas School of Law in 1986. She continued her law school job as a law clerk in the Travis County Attorney's Office, where she eventually was promoted to Assistant County Attorney. She held a variety of positions in the office, first as Intake Attorney, then as Trial Attorney, and ultimately as Chief of the office's Appellate Division. Her primary responsibility as an Assistant County Attorney was the prosecution of criminal cases at the trial and appellate levels. She also handled all civil expunction suits and some mental health commitment cases, and represented battered spouses in protective order proceedings.

After 4 years at the County Attorney's Office, Judge Ludlum was hired

to work as the sole resident AUSA in the Del Rio Division of the U.S. Attorney's Office for the Western District of Texas. She assumed that position on a full-time basis in 2000.

William J. Martini, who has been nominated to the U.S. District Court for the District of New Jersey, has solid prosecutorial and private practice experience, as well as congressional service all of which will serve him well on the federal bench.

A graduate of Rutgers School of Law, Mr. Martini served as a law clerk for the Superior Court of New Jersey, before working as an assistant prosecutor in the Hudson County (New Jersey) Prosecutor's Office. He then took a position as an assistant U.S. Attorney in the U.S. Attorney's Office in Newark, NJ, where he tried a dozen criminal jury trials to completion. Beginning in 1977, Mr. Martini worked as a sole practitioner, initially representing criminal defendants and later branching out into civil litigation, including plaintiff's personal injury suits and commercial contract matters. Following a term serving the people of New Jersey in the House of Representatives, he joined Sills Cummis Radin Tischman Epstein and Gross as partner, focusing on governmental affairs/regulatory law and general litigation.

Magistrate Judge Thomas Wade Phillips, nominated to the District Court for the Eastern District of Tennessee, received his undergraduate degree from Berea College in 1965. After college, he attended Vanderbilt University School of Law on a full academic scholarship. In law school he was an assistant articles editor for the law review and was the recipient of the Dean's Award for Best Senior Dissertation. After graduation, he was commissioned into the United States Army, Judge Advocate General Corps, where he received a Appellate Advocacy Award, Government Appellate Division, in 1973. During that same year, he retired from the military and earned an LL.M. in Labor Law from George Washington University Law School.

Entering private practice, he was an associate at two firms, before becoming a partner at the firm of Baker, Worthington, Cossley, Stansberry & Woolf. Judge Reade is well prepared to serve as a district court judge.

bench. He received his undergraduate degree from Queens College of the City University of New York in 1977. He then graduated magna cum laude from the State University of New York, Buffalo's School of Law in 1980. NOMINATION OF JUDGE THOMAS PHILLIPS

Mr. THOMPSON. Madam President, I am very pleased that the Senate is taking up the nomination of judge Thomas Phillips, who is the President's nominee to fill a vacancy on the United States District Court for the Eastern District of Tennessee.

Judge Phillips was born and raised in Scott County, TN, the home county of our former colleague, Senator Howard Baker. His academic record is superb. A Phi Beta Kappa graduate of Berea College in Kentucky, he went on to at-

tend Vanderbilt Law School, my own alma mater, on a full academic scholarship. While at Vanderbilt, he was an editor of the Law Review and received the Dean's Award for Best Senior Disertation.

Upon finishing law school, Judge Phillips joined the Army Judge Advocate General's Corps, which awarded him its Outstanding Appellate Advocacy Award and the Army Commendation Medal in 1973. While serving in the Army, Judge Phillips also received a master of laws degree from George Washington University Law School here in Washington.

In 1973, Judge Phillips returned to Tennessee and entered the private practice of law. Public service called him back, however, and in 1976, Judge Phillips was elected as County Attorney for Scott County. Between 1976 and 1991, Judge Phillips continued to serve as Scott County Attorney, being re-elected four times, while continuing to engage in private law practice with his own firm in his home town, Oneida. During this period, he tried hundreds of cases.

In 1991, Judge Phillips was appointed by the judges of the Eastern District of Tennessee to serve as a Magistrate Judge in Knoxville, the position he continues to hold. During the time he has served as Magistrate Judge, he has earned the respect of all who have appeared before him for his demeanor, courtesy, and intellect. During the rigorous screening process that Senator FRIST and I undertook to review the records of interested candidates for this judgeship, we heard uniformly and highly favorable comments about Judge Phillips.

I think the record before the committee demonstrates his outstanding qualifications. I cite just one example. In over 11 years on the bench, out of thousands of decisions and recommendations, Judge Phillips has been reversed on just two occasions, and on only one occasion has a District Judge rejected his recommendations.

Judge Phillips has excelled not only in his professional career, but in his commitment to his community as well. He has promoted legal education by serving as a member of the Inns of Court and by teaching at the University of Tennessee Law School. He is an Elder of the Huntsville Presbyterian Church, a member of the American Legion, and a leader of the American, Tennessee, Scott County, and Knoxville Bar Associations. In private practice, Judge Phillips provided extensive pro bono services and served on the boards of Scott County Hospital and Opportunities for the Handicapped.

I would be remiss if I failed to note the importance of moving forward with this nomination. Traditionally, two district judges sit in Knoxville, Tennessee's third largest city. Late last year and early this year, Judge Jordan and Judge Jarvis respectively assumed senior status, leaving the district court in Knoxville with no active judges. I

want to express my thanks and appreciation to both senior judges for the service they rendered for many years on the Federal bench in Knoxville.

I am confident that there is no one better qualified to fill the large hold left by Judge Jordan and Judge Jarvis than Judge Phillips. I am pleased to endorse Judge Phillips and urge my colleagues to support his nomination.

[Strike the part printed in black brackets and insert the part printed in italic.]

S. 1742

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

[This Act may be cited as the "Restore Your Identity Act of 2001".]

SEC. 2. FINDINGS.

[Congress finds that—

(1) the crime of identity theft is the fastest growing crime in the United States;

(2) the Federal Trade Commission reports that between March and June of 2001, the total number of identity theft victims in the Commission's Complaint Clearinghouse System, tallied from November 1999, increased from 45,593 to 69,370;

(3) consumer inquiries and complaints to the Federal Trade Commission Identity Theft Hotline increased from 68,000 to over 97,000 over the same 3-month period, and consumer calls into the Hotline increased in the same period from 1,800 calls per week to over 2,000;

(4) the Federal Trade Commission estimates that the call volume to the Identity

Theft Hotline represents only 5 to 10 percent of the actual number of victims of identity theft;

(5) victims of identity theft often have extraordinary difficulty restoring their credit and regaining control of their identity because of the viral nature of identity theft;

(6) identity theft may be ruinous to the good name and credit of consumers whose identities are misappropriated, and victims of identity theft may be denied otherwise well-deserved credit, may have to spend enormous time, effort, and sums of money to remedy their circumstances, and may suffer extreme emotional distress including deep depression founded in profound frustration as they address the array of problems that may arise as a result of identity theft;

(7) victims are often required to contact numerous Federal, State, and local law enforcement agencies, consumer credit reporting agencies, and creditors over many years, as each event of fraud arises;

(8) the Government, business entities, and credit reporting agencies have a shared responsibility to assist identity theft victims, to mitigate the harm that results from fraud perpetrated in the victim's name;

(9) victims of identity theft need a nationally standardized means of—

(A) reporting identity theft to law enforcement, consumer credit reporting agencies, and business entities; and

(B) evidencing their true identity to business entities and credit reporting agencies;

(10) one of the greatest law enforcement challenges posed by identity theft is that stolen identities are often used to perpetrate crimes in many different localities in different States, and although identity theft is a Federal crime, most often, State and local law enforcement agencies are responsible for investigating and prosecuting the crimes; and

(11) the Federal Government should assist State and local law enforcement agencies to effectively combat identity theft and the associated fraud.

SECTION 1. SHORT TITLE.

This Act may be cited as the “Identity Theft Victims Assistance Act of 2002”.

SEC. 2. FINDINGS.

Congress finds that—

(1) *the crime of identity theft is the fastest growing crime in the United States;*

(2) *victims of identity theft often have extraordinary difficulty restoring their credit and regaining control of their identity because of the viral nature of identity theft;*

(3) *identity theft may be ruinous to the good name and credit of consumers whose identities are misappropriated, and victims of identity theft may be denied otherwise well-deserved*

credit, may have to spend enormous time, effort, and sums of money to remedy their circumstances, and may suffer extreme emotional distress including deep depression founded in profound frustration as they address the array of problems that may arise as a result of identity theft;

(4) victims are often required to contact numerous Federal, State, and local law enforcement agencies, consumer credit reporting agencies, and creditors over many years, as each event of fraud arises;

(5) the Government, business entities, and credit reporting agencies have a shared responsibility to assist identity theft victims, to mitigate the harm that results from fraud perpetrated in the victim's name;

(6) victims of identity theft need a nationally standardized means of—

(A) reporting identity theft to consumer credit reporting agencies and business entities; and

(B) evidencing their true identity and claim of identity theft to consumer credit reporting agencies and business entities;

(7) one of the greatest law enforcement challenges posed by identity theft is that stolen identities are often used to perpetrate crimes in many different localities in different States, and although identity theft is a Federal crime, most often, State and local law enforcement agencies are responsible for investigating and prosecuting the crimes; and

(8) the Federal Government should assist State and local law enforcement agencies to effectively combat identity theft and the associated fraud.

Mr. GRAMM. Madam President, the Senate today is considering S. 1742, the Identity Theft Victims Assistance Act of 2002. This is an important issue, and it is proper for the Senate to be giving it consideration. While the text of this bill is seriously flawed and needs careful work and refinement in order for it to have a significantly positive effect in curbing identity theft, I believe that passage of this legislation by the Senate will be seen as an indication of the importance that the Senate attaches to relieving the disruption caused in the lives of victims of these crimes.

When the Senate returns to this issue in the next Congress, I hope that the problems with this bill can be resolved, that the complexity of the issues involved can be adequately considered so that the legislation focuses on the real culprits without penalizing law-abiding citizens and businesses, and without the substantial confusion to the enforcement responsibilities of federal financial regulators that the draft before us would cause. The text in its current form would also expand opportunities for predatory lawsuits, creating new

victims, and we must avoid that. We do little good for the country that way.

Mr. REID. Mr. President, Senators CANTWELL and GRASSLEY and others have an amendment at the desk. I ask that that amendment be considered and agreed to; that the committee substitute, as amended, be agreed to; the bill, as amended, be read the third time and passed, and the motion to reconsider be laid upon the table; and that any statements be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4954) was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The committee amendment in the nature of a substitute, as amended, was agreed to.

The bill (S. 1742), as amended, was read the third time and passed, as follows:

(The bill will be printed in a future edition of the RECORD.)

Mr. REID. Mr. President, let me say I have been working in recent hours with the Senator from Washington, Ms. CANTWELL. She has worked tirelessly on this piece of legislation. She has given a number of statements on the floor related to this issue, dealing with what has taken place and what she knows regarding identity theft. I commend and applaud her for her diligence and perseverance. The burden is now on the House of Representatives. They are still in session. There is no reason in the world that they cannot pass this most important piece of legislation.

Mr. REID. Mr. President, I ask unanimous consent the Senate proceed to executive session and the list of Coast Guard promotions which are at the desk be discharged from the Commerce Committee, the Senate proceed to their consideration, that the nominations be confirmed, the motions to reconsider be laid on the table, and that any statements appear at the appropriate place in the RECORD as if read, that the President be immediately notified of the Senate's action, and the Senate return to legislative session.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 107-19 AND TREATY DOCUMENT NO. 107-20

Mr. REID. I ask unanimous consent that the injunction of secrecy be removed from the following treaties transmitted to the Senate on November 14, 2002, by the President of the United States:

Convention with Great Britain and Northern Ireland regarding Double Taxation and Prevention of Fiscal Evasion (Treaty Doc. 107-19); and

Protocol Amending Convention with Australia regarding Double Taxation and Prevention of Fiscal Evasion (Treaty Doc. 107-20).

I further ask that the treaties be considered as having been read the first time; that they be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed; and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The messages of the President are as follows:

To the Senate of the United States:

I transmit herewith, for Senate advice and consent to ratification, the Convention Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and on Capital Gains, signed at London on July 24, 2001, together with an exchange of notes, as amended by the

Protocol signed at Washington on July 19, 2002 (the "Convention"). I also transmit the report of the Department of State concerning the Convention.

The proposed Convention transmitted herewith would replace the Convention Between the Government of the United States of America and the Government of the United Kingdom of Great Britain and Northern Ireland for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income and Capital Gains, signed at London on December 31, 1975, as modified by a subsequent agreement and protocols.

This Convention, which is similar to tax treaties between the United States and other developed nations, provides for maximum rates of tax to be applied to various types of income, protection from double taxation of income, and for the exchange of information. The Convention also contains rules making its benefits unavailable to persons who are engaged in treaty shopping. The proposed Convention is the first U.S. income tax convention to provide a zero rate of withholding on certain direct investment dividends.

I recommend that the Senate give early and favorable consideration to this Convention, and that the Senate give its advice and consent to ratification.

To the Senate of the United States:

I transmit herewith, for Senate advice and consent to ratification, a Protocol Amending the Convention Between the Government of the United States of America and the Government of Australia for the Avoidance of Double Taxation and the Prevention of Fiscal Evasion with Respect to Taxes on Income, signed at Canberra on September 27, 2001 (the "Protocol"). I also transmit, for the information of the Senate, the report of the Department of State concerning the Protocol.

The Convention, as amended by the Protocol, would be similar to recent tax treaties between the United States and other developed nations. It provides maximum rates of tax to be applied to various types of income and protection from double taxation of income. The Convention, as amended by the Protocol, also provides for resolution of disputes and sets forth rules making its benefits unavailable to residents that are engaged in treaty shopping.

I recommend that the Senate give early and favorable consideration to this Protocol, and that the Senate give its advice and consent to ratification.

LEGISLATIVE SESSION

Mr. REID. Mr. President, I ask unanimous consent that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

RECESS SUBJECT TO THE CALL OF THE CHAIR

The PRESIDING OFFICER. In my capacity as a Senator from the State of New York, I ask unanimous consent that the order for the quorum call be rescinded.

Without objection, it is so ordered.

In my capacity as a Senator from the State of New York, I ask unanimous consent that the Senate stand in recess subject to the call of the Chair.

There being no objection, the Senate, at 9:36 p.m., recessed subject to the call of the Chair and reassembled at 10:15 p.m., when called to order by the Presiding Officer (Ms. CANTWELL).

The PRESIDING OFFICER. The Senator from New York.

ECONOMIC SECURITY AND WORKER ASSISTANCE ACT OF 2001

Mrs. CLINTON. Madam President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 308, H.R. 3529.

The PRESIDING OFFICER. The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 3529) to provide tax incentives for economic recovery and assistance to displaced workers.

There being no objection, the Senate proceeded to the consideration of the bill.

The PRESIDING OFFICER. The Senator from New York.

Mrs. CLINTON. Madam President, before formally making the unanimous consent request, I wish to thank Senator NICKLES for his understanding and cooperation in reaching this point this evening. I very much appreciate his willingness, and that of his staff, to work with us throughout today. And I am very personally grateful for his leadership and good advice and counsel.

This unemployment insurance extension is being sponsored, in addition to myself, by the Presiding Officer, the Senator from Washington, who has been a tremendous advocate, by Senator FITZGERALD of Illinois, and Senator SPECTER of Pennsylvania.

The commitment of all of the sponsors, and others, have made it possible for us to agree this evening to pass a bill that will be extremely welcomed by about 2.1 million Americans who will be able to take advantage of this extension that runs through the end of March. This will also specifically help approximately 177,000 New Yorkers as they enter the holiday season.

Obviously, this is not all that the Presiding Officer and I would have wanted. Perhaps it is more than some would have thought we should do. But I think it works out to be an acceptable compromise in bringing this about at this time.

Again, I personally thank Senator NICKLES for his extraordinary assistance.

So, Madam President, I ask unanimous consent that the substitute amendment at the desk be agreed to, the act, as amended, be read a third time, passed, and the motion to reconsider be laid upon the table, with no intervening action or debate; and that any statements related thereto be printed in the RECORD.

The PRESIDING OFFICER. Is there objection?

Without objection, it is so ordered.

The amendment (No. 4960) was agreed to, as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. Section 114 of Public Law 107-229 is amended by striking "the date specified in section 107(c) of this joint resolution" and inserting "March 31, 2003".

SEC. 2. EXTENSION OF THE TEMPORARY EXTENDED UNEMPLOYMENT COMPENSATION ACT OF 2002.

(a) IN GENERAL.—Section 208 of the Temporary Extended Unemployment Compensation Act of 2002 (Public Law 107-147; 116 Stat. 30) is amended to read as follows:

"SEC. 208. APPLICABILITY.

"(a) IN GENERAL.—Except as provided in subsection (b), an agreement entered into under this title shall apply to weeks of unemployment—

"(1) beginning after the date on which such agreement is entered into; and

"(2) ending before April 1, 2003.

"(b) TRANSITION FOR AMOUNT REMAINING IN ACCOUNT.—

"(1) IN GENERAL.—Subject to paragraphs (2) and (3), in the case of an individual who has amounts remaining in an account established under section 203 as of March 29, 2003, temporary extended unemployment compensation shall continue to be payable to such individual from such amounts for any week beginning after such date for which the individual meets the eligibility requirements of this title.

"(2) NO AUGMENTATION AFTER MARCH 26, 2003.—If the account of an individual is exhausted after March 29, 2003, then section 203(c) shall not apply and such account shall not be augmented under such section, regardless of whether such individual's State is in an extended benefit period (as determined under paragraph (2) of such section).

"(3) LIMITATION.—No compensation shall be payable by reason of paragraph (1) for any week beginning after June 28, 2003."

(b) EFFECTIVE DATE.—The amendment made by this section shall take effect as if included in the enactment of the Temporary Extended Unemployment Compensation Act of 2002 (Public Law 107-147; 116 Stat. 21).

The bill (H.R. 3529), as amended, was read a third time and passed.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. NICKLES. Madam President, I thank my colleague and friend from New York for working with us. I think we have worked out an acceptable compromise. Senator FITZGERALD and Senator SPECTER were very much interested in passing this bill so we were happy to accommodate them.

In contrast to the previous legislation, which was a significant expansion over current law, of which efforts had been made to pass by unanimous consent earlier today, this is an extension of current law. It is a lot less expensive. This is an extension for 3 months.

We also did something else I think is important. We eliminated the cliff. In other words, current law would say by January 1 the 13-week Federal program would be terminated. This says, no, there is a phaseout. So there is not a cliff. At the end of March, if people are already into the system, they can complete their 13-week program. So I think it is responsible.

Also, for the benefit of my colleagues—and some have reservations about this program because, legitimately, they are wondering whether, if you continue to pay out unemployment benefits, they will stay unemployed. And I happen to appreciate many of those concerns.

Now we will not be wrapped up with this beginning in January. So this will give Congress a chance and hopefully

offer some assistance to those people who really need it and also offer Congress a chance to get off to a good start without wrestling and debating this issue.

I have debated this issue more than I want to debate it. And I appreciate our colleagues on both sides willing to compromise.

The House passed a 1-month extension. This is a 3-month extension eliminating the cliff. I think it is a more orderly and more well-thought-out program that makes sense.

So I will not object to its passage and appreciate our colleagues from New York and Washington, as well as Illinois and Pennsylvania, for their cooperation in making this happen.

I yield the floor.

The PRESIDING OFFICER. The Senator from New York.

Mrs. CLINTON. As I was listening to the Senator from Oklahoma explain why this makes sense, and particularly to eliminate the cliff that, frankly, people would have fallen off at the end of the year, right at the beginning of a new year—and hopefully providing new hope for people—I could not help but think of our colleague, Paul Wellstone. I think he is smiling down on us. I think he is up there waving his arms, pacing around, and saying, good work, and thanks for doing that.

To me, this is tremendous evidence of the kind of cooperation that can come about to bring us together to help people.

Again, I thank my friend from Oklahoma.

I yield the floor.

The PRESIDING OFFICER. The Senator from Nevada.

Mr. REID. Madam President, I have been on this floor many, many times when there have been speeches on both sides on extending unemployment insurance going back several months. This is what legislating is all about, the art of compromise. Not everyone got what they wanted. But we got something, and it is very important and very positive.

I extend my appreciation to the Presiding Officer, the Senator from Washington, who worked on this diligently, and, of course, the Senator from New York, who has worked on this very hard.

No one has been on the floor more than the Senator from Oklahoma, and he needs to be complimented because he certainly could have stopped this in the last few hours of the session. He chose not to do that. He chose to move forward on a positive note.

I, not only for the Senate, but for the respective States and the whole country, extend my appreciation to the three of you, all fine legislators.

Mr. NICKLES. Thank you.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Ms. CANTWELL. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. CLINTON). Without objection, it is so ordered.

Ms. CANTWELL. Madam President, I would like to take the opportunity to congratulate my colleagues on the passage of the unemployment extension bill which we just did by unanimous consent.

This really was a bipartisan effort by the Senator from Oklahoma and from two of our colleagues, the Senator from Illinois, Mr. FITZGERALD, and the Senator from Pennsylvania, Mr. SPECTER, who played a very important role in communicating the needs of unemployment benefit extensions in their States.

I thank the Chair, the Senator from New York, Mrs. CLINTON, who has since July advocated passage of this legislation, talked about the importance of making sure that as our economy has faced a downturn, we continued to make sure the opportunities for income and stimulus in our economy were there.

As she fought for the State of New York, which has been gravely impacted by the events of 9/11 and the downturn in the economy where jobs are just not being created, the Senator got all of us in the country to realize how critical the issue was for us moving forward at a time when the economy has not returned to positive growth.

Obviously the State of Washington has been greatly impacted by that same downturn, in the aerospace industry, in high tech. This legislation will actually help over 75,000 Washingtonians who will get the benefit of having an extension of a program and, being a high unemployment State, will qualify for the benefits of that program. This is actually something I think a few Washingtonians tonight, maybe a few Seattlites, will be sleeping a little bit better from, knowing that in the impending months, as we struggle to get the economy going again, they will actually be able to meet those mortgage payments, pay those health care bills, and continue to move forward.

Economists have said this kind of stimulus has a two-to-one effect; that for every dollar spent on unemployment benefits, it generates about \$2.15 into the local economy. We have done a good service for my State's economy and for New York's and Pennsylvania and Illinois, for the whole country, because we will be stimulating those individuals' disposable income.

Again, I thank the Senator from New York for her hard work and vision, pointing out last summer the need to do it, being diligent in this process. And tonight, because of this bipartisan support, there will be more Americans sleeping better as we approach the tough challenges ahead in getting our economy moving but knowing that we have not left workers behind, workers who would rather have a paycheck than an unemployment check, but at least now they will be continuing to add to the economy.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. REID. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. CANTWELL). Without objection, it is so ordered.

MORNING BUSINESS

Mr. REID. Madam President, I ask unanimous consent that the Senate now proceed to a period of morning business with Senators allowed to speak therein for a period not to exceed 5 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

IN REMEMBRANCE OF PAUL WELLSTONE

Mr. CHAFEE. Madam President, today I offer my condolences to all the friends, family members and admirers of Paul Wellstone. As has been said many times, Paul Wellstone was fiercely proud of the causes with which he associated himself. Certainly, to have Paul Wellstone articulately and strongly arguing on one's behalf was a great asset. His many friends are forever grateful for his wrestler's tenacity as he advocated for those issues in which he so emotionally believed.

Several years ago a candidate for Congress in Rhode Island retired from the campaign because of a shortage of funds, declaring that no longer could "Mr. Smith go to Washington." Paul Wellstone proved that yes, indeed, Mr. Smith could go to Washington. In 1990 he challenged an incumbent who possessed a huge financial advantage in what many assumed to be a quixotic and hopeless campaign. In November of that year Paul Wellstone was the only challenger to beat an incumbent, providing inspiration forever to long shots.

Three cheers for the people of Minnesota who have shown a propensity for embracing people of divergent philosophies. In the last few years Minnesota has elected Rod Grams, Jesse Ventura and Paul Wellstone; public servants with very different approaches to the issues of the day. I join Minnesotans and Americans in mourning the death of the passionate and good-natured Paul Wellstone.

TRIBUTE TO SENATOR MAX CLELAND

Mr. CONRAD. Madam President, I am honored to pay tribute and recognize the leadership, dedication to public service and hard work of my colleague from Georgia, Senator MAX CLELAND. Few Members of the Senate have sacrificed so much for their country.

Senator CLELAND has had a remarkable 30-year career in public service including a tour of duty in Vietnam in 1967 in which he was awarded the Bronze and Silver Stars for meritorious service. MAX started his career in the military soon after graduating from Stetson University, where he was a member of the Army ROTC. In 1967, he volunteered for duty in Vietnam. He quickly worked his way up the ranks, earning a promotion to Captain in 1968. In April of the same year, he was seriously wounded in a grenade explosion, which cost him both of his legs and his right arm. One month before his tour was up, he was sent home to recover from his injuries.

His dedication to public service continued when he won a seat in the Georgia State Senate. As the youngest state senator, he pushed for a State law making public facilities accessible to the disabled. In 1975, Senator CLELAND began his lifelong mission of improving the lives of the men and women in the military. MAX was asked to work for the Senate Veterans Affairs Committee, and 2 years later he accepted the position to head up the U.S. Veterans Administration. He was the youngest administrator and only Vietnam veteran to ever head up the agency. During his time with the Veterans Administration, MAX instituted the "Vets Center Program," which for the first time provided psychological counseling to combat veterans. This program has now led to over 200 Vet Centers around the country.

Senator CLELAND continued his public service for the people of Georgia in 1982, when he was elected Secretary of State. During his time in this position, he fought relentlessly for campaign finance reform and to reduce telemarketing fraud. Senator CLELAND also played a key role in the implementation of the National Voter Registration Act, or Motor Voter, in the State of Georgia. This in turn allowed an increase in access to government by getting nearly 1 million citizens of Georgia registered to vote.

MAX was elected to the U.S. Senate in 1996; he filled the spot that was vacated by the retiring Sam Nunn. The 6 years that he spent in the Senate were marked by his passion and drive to accomplish what was of importance to the people he served. He was a proponent for the Patients' Bill of Rights and doggedly battled for the improvement of education by way of increased resources for teacher training and certification.

As a former military man who served his country in Vietnam, Senator CLELAND brought an understanding to the Senate Chamber, of the sacrifices made by individuals in the armed forces. This understanding led him to champion military causes. As chairman of the Personnel Subcommittee of the Armed Services Committee, he fought for improvements in the quality of life of our active-duty, reserve, and retired military personnel through enhancement of the Montgomery G.I. Bill

and improvement of retirement benefits. All his hard work has not gone unnoticed, Senator CLELAND has been recognized nationally as the "Minute Man of the Year," an award given by the Reserve Officers Association of America to two individuals annually for their tremendous leadership in the areas of military and national security. There is no doubt that on and off the battlefield, MAX was a leader for the Armed Forces.

Senator CLELAND also provided support to military personnel stationed at the Grand Forks Air Force Base in North Dakota. In 1997, during the devastating floods in North Dakota, several hundred active duty personnel from the Grand Forks base were unable to access disaster relief because Federal law limited assistance to personnel living on the base. Senator CLELAND, as a member of the Senate Armed Services Committee, was instrumental in amending the law to enable those servicemen living off base to be eligible for this critical disaster assistance.

MAX's bravery, courage, and passion for these issues and many others will be missed. It has been an honor to serve with somebody who represents his constituents with such energy, drive and passion. I would like to join my colleagues in wishing the Senator and his family the best in the future and paying tribute to his outstanding public service. I wish him well.

TRIBUTE TO REPRESENTATIVE JAMES V. HANSEN

Mr. HATCH. Madam President, I rise to pay tribute to my long-time friend and colleague, Representative JAMES V. HANSEN. After 22 years of dedicated service to his country and to the State of Utah, Jim has chosen to end his career as a Member of Congress and return home to Utah and to his grandchildren.

I am pleased that Mr. HANSEN will be able to enjoy his retirement, but we will miss him. Utah has never been better served by a Member of Congress. Just this year he was described by a national media source as one of the 10 most powerful Members of the House of Representatives. Considering the number of Members of that body, that is really saying something. Representative HANSEN has had a very positive impact on our Nation, but his impact on Utah and Utahns is truly incalculable.

Mr. HANSEN was the first Representative from Utah to chair a full committee. Due in large part to the respect he earned among his colleagues on both sides of the aisle, he was appointed to chair the high-profile Committee on Standards of Official Conduct.

As some of my colleagues may know, Utah is made up of about 70 percent public lands which includes national parks, Bureau of Land Management lands, national forests, national monuments, national wildlife refuges, and

vast military holdings. As a very senior member of the House Armed Services Committee and the Chairman of the Committee on Natural Resources, Representative HANSEN has the protector and promoter of so many of Utah's interests.

Mr. HANSEN's service to the public has spanned more than four decades. He spent the first 12 years of his public service career on the City Council of Farmington, UT. Following that, he served for four terms as a member of the Utah House of Representatives, including one term as the Speaker of the House. In 1980, Mr. HANSEN was elected to Congress where he has served diligently until today.

Mr. HANSEN's honesty, hard work, and strong character have made him a lawmaker that we will never forget. I am one of many who will sorely miss his plain talking leadership and his wisdom on matters of public policy. On behalf of my colleagues in the Senate and the people of Utah, I would like to publicly thank JIM and his wonderful wife Ann for giving so much of themselves to their State and to their Nation.

GRATITUDE FOR NEW ZEALAND'S FIREFIGHTERS

Mr. SMITH of Oregon. Madam President, I rise today, on behalf of my State of Oregon, to express our deepest gratitude for the New Zealanders who put their lives on the line this last summer in fighting the ravenous wildfires experienced in the West.

Even as the rains of fall settle into the forests of the Pacific Northwest, it is not difficult to remember the fiery infernos that engulfed the West only a few months ago. The year 2002 was the second worst fire season in 50 years. Nationwide 21 lives were lost and 6.7 million acres were burned.

It was one of the Nation's largest fires, called the Biscuit Fire, that drew a cadre of international firefighters to Oregon, the world's best sent to join the fight against our worst disaster. The Biscuit Fire, the largest wildfire in Oregon in over a century, eventually burned 500,000 acres in southwestern Oregon. At times, firefighters put the chances of losing one or all of the Illinois Valley's four towns at 75 percent. However, 7,000 of the world's best firefighters beat the odds and staved off an exploding fire that threatened hundreds of square miles and thousands of homes. As a result of their relentless work, no lives were lost and structural loss was virtually nonexistent.

On behalf of my State of Oregon, I want to thank and commend the brave New Zealand firefighters who helped win that battle against wildfire. They are John Barnes, Darryl Robson, John Sutton, Richard McNamara, Paul Tolladay, Phil Wishnowsky, Robin Thompson, Trevor Today, Jock Darragh, and Ross Hamilton.

While I hope that such perilous circumstances will never call these fire-

fighters back to Oregon or elsewhere, I know that forest fires will continue to burn and brave firefighters will continue to put their lives between the fire and ours. We will never forget that.

TRIBUTE TO SENATOR BOB SMITH

Mr. CONRAD. Madam President, I take this opportunity to pay tribute to and recognize the hard work of my colleague from New Hampshire, Senator BOB SMITH. Since joining the Senate in 1990, he has fought with honesty and commitment for the issues that he believed to be most important.

As the ranking member and former chairman of the Environment and Public Works Committee, he focused great attention on reforms of the Corps of Engineers and funding to expand and improve transportation infrastructure. Also, as a senior member of the Armed Services Committee, Senator SMITH fought passionately for a strong military, and always made national security a top priority.

I had the pleasure of working with BOB SMITH in his efforts to establish accountability measures for missing MIAs and POWs. In his capacity as a member of the Senate Select Committee on POW/MIA Affairs, Senator SMITH was very helpful in answering and addressing questions about Vietnam POWs from North Dakota. He also helped North Dakotans on POW issues from the cold war era.

I also had the privilege of serving with Senator SMITH on the Ethics Committee, which he chaired. I found him to be completely fair and non-partisan in his conduct of his duties.

He also was one of the first of my colleagues to console me on the untimely death of my chief of staff, Kent Hall.

Mr. President, it has been an honor to serve in the Senate with BOB SMITH. I have the utmost respect for his service to the people of New Hampshire. While sitting in the historic desk of Daniel Webster, he has made contributions not only to the Senate but also to our Nation. I would like to join my colleagues in wishing Senator SMITH and his family the best in the future.

LOCAL LAW ENFORCEMENT ACT OF 2001

Mr. SMITH of Oregon. Madam President, I rise today to speak about hate crimes legislation I introduced with Senator KENNEDY in March of last year. The Local Law Enforcement Act of 2001 would add new categories to current hate crimes legislation sending a signal that violence of any kind is unacceptable in our society.

I would like to describe a terrible crime that occurred December 28, 2001 in Marshfield, MA. According to police, a teenage assailant beat a man because the assailant thought the victim was gay. The victim was standing outside a local store when a car containing three men pulled into the parking lot. One of

the men in the car yelled anti-gay obscenities at the victim. The victim entered the store with two friends, and upon exiting, was beaten by the assailant. The assailant yelled anti-gay epithets while punching and kicking the victim, continuing the beating even after the victim fell to the ground.

I believe that government's first duty is to defend its citizens, to defend them against the harms that come out of hate. The Local Law Enforcement Enhancement Act of 2001 is now a symbol that can become substance. I believe that by passing this legislation and changing current law, we can change hearts and minds as well.

21ST CENTURY DEPARTMENT OF JUSTICE APPROPRIATIONS AUTHORIZATION ACT

Mr. LEAHY. Madam President, I thank the Senate for voting to end debate and to pass the bipartisan 21st Century Department of Justice Authorization Act conference report. I commend the Majority Leader for bringing this important legislation the floor and filing cloture in order for the Senate to take final action on the conference report.

I regret that consideration and a vote on final passage on this important measure was delayed, but I thank the overwhelming majority of my colleagues for supporting cloture and passage of the conference report.

This measure was passed by the House, by a vote of 400 to 4, last Thursday. All Democrats were prepared to pass the conference report that same day last week and any day this week. Given the Republicans' objection to proceed to a vote and given the refusal to agree to a time agreement, the Majority Leader was required to file cloture. I am glad that the filibuster is over.

This legislation is truly bipartisan. It passed the House 400 to 4. The conference report was signed by every conferee, Republican or Democrat, including Senator HATCH and Representatives SENSENBRENNER, HYDE, and LAMAR SMITH.

Senators from both sides of the aisle spoke in favor of the legislation. In particular, I thank Senator HUTCHISON for coming to the floor on Tuesday to support this conference report. Senator HUTCHISON has spoken to me many times about the need for more judgeships along the Texas border with Mexico to handle immigration and criminal cases.

The conference report includes three new judgeships in the conference report for Texas, one more than was included in the bill reported to the Senate by the Senate Judiciary Committee and passed by the Senate last December.

I thank Senator SESSIONS for his statements on Tuesday and today in support of this bipartisan conference report.

Although he opposes Senator HATCH's legislation regarding automobile dealer

arbitration, which enjoys more than 60 Senate cosponsors and 200 House cosponsors and was included in the conference report, Senator SESSIONS is supporting this conference report because it will improve the Department of Justice and support local law enforcement agencies across the nation. I appreciate Senator SESSIONS' work on the provisions in the conference report on the Paul Coverdell Forensic Sciences Improvement Grants and the Centers for Domestic Preparedness in Alabama and other States.

Senator BROWNBACK also spoke in favor of certain immigration provisions in this bill that he worked on with Senator KENNEDY, the Chairman of the Immigration Subcommittee of the Judiciary Committee. In particular, the conference report includes language sought by Senators CONRAD and BROWNBACK to reauthorize the program allowing foreign doctors educated in the United States to remain here if they will practice in underserved communities. This is a crucial provision to ensure that residents in some of our most rural states receive adequate medical care.

The conference report also contains another important immigration provision to permit H-1B aliens who have labor certification applications caught in lengthy agency backlogs to extend their status beyond the sixth year limitation or, if they have already exceeded such limitation, to have a new H-1B petition approved so they can apply for an H-1B visa to return from abroad or otherwise re-obtain H-1B status. Either a labor certification application or a petition must be filed at least 365 days prior to the end of the 6th year in order for the alien to be eligible under this section.

The slight modification to existing law made by this section is necessary to avoid the disruption of important projects caused by the sudden loss of valued employees. At a time when our economy is weak, this provision is intended to help. I thank Senator KENNEDY and Senator BROWNBACK for their work on this provision and their contributions to the conference report. I thank Senator FEINSTEIN for her excellent speech earlier this week in support of this conference report. Senator FEINSTEIN has been a tireless advocate for the needs of California, including the needs of the federal judiciary along the southern border. She has led the effort to increase judicial and law enforcement resources along our southern border. I am proud to have served as the chair of the House-Senate conference committee that unanimously reported a bill that includes five judgeships for the Southern District of California. Long overdue relief for the Southern District of California could be on the way once this conference report is adopted.

Senator BIDEN also contributed a great deal to this conference report. He has fought doggedly to authorize a new Violence Against Women Office at the

Justice Department, and his efforts have borne fruit in this legislation. He has also been one of the Senate's best advocates for reauthorizing the Juvenile Justice and Delinquency Prevention Act, which we do here. In addition, he was a cosponsor of the Drug Abuse Education, Prevention, and Treatment Act, and we have included many provisions from that bill in this conference report.

I also would like to thank Senator DURBIN for statements on the Senate floor and his dedicated efforts to authorize a new Violence Against Women Office, to expand the number of Boys and Girls Clubs in our nation, and to create new judgeships in Illinois.

Senator KOHL was a tremendous help in our efforts to reauthorize the Juvenile Justice and Delinquency Prevention Act, especially Title V of that Act, which provides for crucial prevention programs for our nation's youth.

Senator CARNAHAN deserves the credit for the inclusion of the Law Enforcement Tribute Act in this conference report. That provision provides Federal assistance for local communities seeking to honor fallen law enforcement officers. Without her tireless work, we would not have been able to include that provision in this conference report.

For his part, Senator FEINGOLD was able to include his and Senator HATCH's Motor Vehicle Franchise Contract Arbitration Fairness Act in this conference report. That bill will ensure that auto dealers will have a level playing field in their disputes with the auto manufacturers.

Finally, I also thank Senator REID for his helpful comments and support throughout the debate on the legislation.

Of course, our bipartisanship is evidenced by our including authorization for additional judgeships not only in California but also in Texas, Arizona, New Mexico, Ohio, North Carolina, Illinois and Florida. I have tried to improve on the record we inherited.

In the six and one-half years that they controlled the Senate, the Republican majority was willing to add only eight judgeships to be appointed by a Democratic President, and most of those were in Texas and Arizona, States with two Republican Senators. We have, on the other hand, proceeded at our earliest opportunity to increase federal judgeships by 20, including in the border States where they are most needed, well aware these positions will be filled with appointments by a Republican President who has shown little interest in working with Democrats in the Senate. These include a number of jurisdictions with Republican Senators.

I also commend the senior Senator from California for her leadership on the "James Guelff and Chris McCurley Body Armor Act," the State Criminal Alien Assistance Program reauthorization, and the many anti-drug abuse provisions included in this conference

report. She spoke eloquently on the floor of the Senate regarding many of the important provisions she has championed in this process.

This conference report will strengthen our Justice Department and the FBI, increase our preparedness against terrorist attacks, prevent crime and drug abuse, improve our intellectual property and antitrust laws, strengthen and protect our judiciary, and offer our children a safe place to go after school.

This conference report is the product of years of bipartisan work. By my count, the conference report includes significant portions of at least 25 legislative initiatives. This legislation is neither complicated nor controversial. It passed the House overwhelmingly and in short order with a strong bipartisan vote.

I thank my colleagues again for supporting the cloture motion and final passage of this conference report so that all of this bipartisan work and all the good that this legislation will do, will reach the President's desk. I particularly want to thank Senator HATCH, who worked very hard to help construct a good, fair and balanced conference report as did all of the conferees. Likewise, I want to thank Chairman SENSENBRENNER and Representative CONYERS of the House Judiciary Committee for working with us to conclude this conference report successfully.

The staffs of these Members must also be thanked for working through the summer and over the last month to bring all the pieces of the conference report together into a winning package. In particular, the House Judiciary Committee staff has been enormously helpful, including Phil Kiko, Will Moschella, Blaine Merritt, Perry Apelbaum, Ted Kalo, Sampak Garg, Bobby Vassar, and Alec French. I would also like to thank the staff of the House Education and Workforce Committee, including Bob Sweet and Denise Forte. The Senate Judiciary Committee staff has shown its outstanding professionalism and I want to thank Bruce Cohen, Beryl Howell, Ed Pagano, Tim Lynch, Jessica Berry, Robyn Schmidek and Phil Toomajian, Makan Delrahim, Leah Belaire, Michael Volkov, Melody Barnes, Esther Olavarria, Robert Toone, Neil MacBride, and Louisa Terrell.

I appreciate that not all Members were or could be conferees and participate in the conference, but after a full opportunity to study the conference report passed last week in the House by a vote of 400 to 4, I hope that even those Members who raised objection will conclude that on the whole this is a good, solid piece of legislation.

Although the debate is over, I want to address the objections raised by a few Members to this legislation. I thank these Members for coming to the floor to discuss their views and concerns, and want to show them the respect they deserve by responding to

those objections. I should note that even in posing an objection to and delaying passage of the conference report—as is their rights as Senators—these Members acknowledged that there were parts of this bill they liked or may like upon review.

Contrary to those who may argue that this legislation is not a priority, it is. Congress has not authorized the Department of Justice in more than two decades. While the Justice Department would certainly continue to exist if we were to fail to reauthorize it, that is not an excuse for shirking our responsibility now. I know that Senator HATCH and Representatives SENSENBRENNER and CONYERS share my view. It is long past time for the Judiciary Committees of the House and Senate—and the Congress as a whole—to restore their proper oversight role over the Department of Justice.

Through Republican and Democratic administrations, we have allowed the Department of Justice to escape its accountability to the Senate and House of Representatives and through them to the American people. Congress, the people's representative, has a strong institutional interest in restoring that accountability. The House has recognized this, and has done its job. I am glad that we have done ours.

I agree with those Members who say that we need to give anti-terrorism priority, but not lose sight of the other important missions of the Department of Justice. The conference report takes such a balanced approach. Those critics who say that there is nothing new in this legislation to fight terrorism, have missed some important provisions in the legislation as well as my floor statements over the past week outlining what the conference report contains to help in the anti-terrorism effort.

Let me repeat the highlights of what the conference report does on this important problem.

The conference report fortifies our border security by authorizing over \$20 billion for the administration and enforcement of the laws relating to immigration, naturalization, and alien registration. It also authorizes funding for Centers for Domestic Preparedness in Alabama, Texas, New Mexico, Louisiana, Nevada, Vermont and Pennsylvania, and adds additional uses for grants from the Office of Domestic Preparedness to support State and local law enforcement agencies. These provisions have strong bipartisan support. I thank Senator SESSIONS, Senator SHELBY and Senator SPECTER for supporting cloture on the conference report and for final passage.

Another measure in the bill would correct a glitch in a law that helps prosecutors combat the international financing of terrorism. I worked closely with the White House to pass the original provision to bring the United States into compliance with a treaty that bans terrorist financing, but without this technical, non-controversial

change, the provision may not be usable. This law is vital in stopping the flow of money to terrorists. Worse yet, at a time when the President is going before the U.N. emphasizing that our enemies are not complying with international law, by blocking this minor fix, we leave ourselves open to a charge that we are not complying with an anti-terrorism treaty.

I agree with other Members that we should do more to help the FBI Director in transforming the FBI from a crime fighting to a terrorism prevention agency and to help the FBI overcome its information technology, management and other problems to be the best that it can be. The Judiciary Committee reported unanimously the Leahy-Grassley FBI Reform Act, S. 1974, over six months ago to reach those goals, but this legislation has been blocked by an anonymous hold from moving forward. This conference report contains parts of that bipartisan legislation, but not the whole bill, which continues to this day to be blocked to this day.

Since the attacks of September 11 and the anthrax attacks last fall, we have relied on the FBI to detect and prevent acts of catastrophic terrorism that endanger the lives of the American people and the institutions of our country. Reform and improvement at the FBI was already important, but the terrorist attacks suffered by this country last year have imposed even greater urgency on improving the FBI. The Bureau is our front line of domestic defense against terrorists. It needs to be as great as it can.

Even before those attacks, the Judiciary Committee's oversight hearings revealed serious problems at the FBI that needed strong congressional action to fix. We heard about a double standard in evaluations and discipline. We heard about record and information management problems and communications breakdowns between field offices and Headquarters that led to the belated production of documents in the Oklahoma City bombing case. Despite the fact that we have poured money into the FBI over the last five years, we heard that the FBI's computer systems were in dire need of modernization.

We heard about how an FBI supervisor, Robert Hanssen, was able to sell critical secrets to the Russians undetected for years without ever getting a polygraph. We heard that there were no fewer than 15 different areas of security at the FBI that needed fixing.

The FBI Reform Act tackles these problems with improved accountability, improved security both inside and outside the FBI, and required planning to ensure the FBI is prepared to deal with the multitude of challenges we are facing.

We are all indebted to Senator GRASSLEY for his leadership in the area. Working with Republicans and Democrats on the Senate Judiciary Committee we unanimously reported

the FBI Reform Act more than six months ago only to be stymied in our bipartisan efforts by an anonymous Republican hold.

The conference report does not contain all of the important provisions in the FBI Reform Act that Senator GRASSLEY and I, and the other members of the Judiciary Committee, agreed were needed, but it does contain parts of that other bill.

Among the items that are, unfortunately, not in the conference report and are being blocked from passing in the stand-alone FBI Reform bill by an anonymous Republican hold are the following: Title III of the FBI Reform bill that would institute a career security officer program, which senior FBI officials have testified before our Committee would be very helpful;

Title IV of the FBI Reform bill outlining the requirements for a polygraph program along the lines of what the Webster Commission recommended;

Title VII of the FBI Reform bill that takes important steps to fix some of the double standard problems and support the FBI's Office of Professional Responsibility, which FBI Ethics and OPR agents say is very important; and

Title VIII to push along implementation of secure communications networks to help facilitate FISA processing between Main Justice and the FBI. These hard-working agents and prosecutors have to hand-carry top secret FISA documents between their offices because they still lack send secure e-mail systems.

The FBI Reform bill would help fix many of these problems and I would hope we would be able to pass all of the FBI Reform Act before the end of this Congress. These should not be controversial provisions and are designed to help the FBI.

During the debate on this conference report, some Members complained it included provisions that were not contained in either the Senate or House bills. Now, each of the proposals we have included are directly related to improving the administration of justice in the United States. We were asked to include many of them by Republican members of the House and Senate.

Let me give you some examples. The conference report reauthorizes the State Criminal Alien Assistance Program, which President Bush has sought to eliminate. On March 4 of this year, Senator KYL and Senator FEINSTEIN sent me a letter asking me to include an authorization for SCAAP—which was not authorized in either the House or Senate-passed bill—in the conference report. That proposal had been considered and reported by the Judiciary Committee but a Republican hold has stopped Senate consideration and passage. I agreed with Senator KYL that we should authorize SCAAP. I still believe that it is the right thing to do.

In addition to including the reauthorization of SCAAP, the conferees

also authorized an additional judge for Arizona. Members have been arguing for years that their States need more judges. We took those arguments seriously, and added another new judge for Arizona on top of the two that were added in 1998 and the third that was added in 2000. As I said before, we have added 20 additional judicial positions in this conference report.

Some have been critical of the conference report's authorization of funding for DEA police training in South and Central Asia, and for the United States-Thailand drug prosecutor exchange program. I believe that both of these are worthy programs that deserve the Senate's support.

I have listened to President Bush and others in his Administration and in Congress argue that terrorist organizations in Asia, including Al Qaeda, have repeatedly used drug proceeds to fund their operations. The conferees wanted to do whatever we could to break the link between drug trafficking and terror, and we would all greatly appreciate the Senate's assistance in that effort.

Beyond the relationship between drug trafficking and terrorism, the production of drugs in Asia has a tremendous impact on America.

For example, more than a quarter of the heroin that is plaguing the northeastern United States, including my State of Vermont, comes from Southeast Asia. Many of the governments in that region want to work with the United States to reduce the production of drugs, and these programs will help. It is beyond me why any Senator would oppose them.

Some have complained that the conference report demands too many reports from the Department of Justice and that this would interfere with the Department's ongoing counterterrorism efforts. It is true that our legislation requires a number of reports, as part of our oversight obligations over the Department of Justice. I assure the Senate, however, that if the Department of Justice comes to the House and Senate Judiciary Committees and makes a convincing case that any reporting requirement in this legislation will hinder our national security, we will work out a reasonable accommodation. I think, however, that such a turn of events is exceedingly unlikely, as no one at the Department has mentioned any such concerns.

Some Members have complained that the conference report includes pieces of legislation that had not received Committee consideration. Let me deal with some of the specific proposals that have been cited.

The Law Enforcement Tribute Act was mentioned as a provision not considered by the Judiciary Committee, but this is incorrect. In reality, the Committee reported that bill favorably on May 16. Its passage has been blocked by an anonymous Republican hold.

Complaints have been made about inclusion of the motor vehicle franchise

dispute resolution provision in the conference report for bypassing the Committee. But, again, that is incorrect. The Judiciary Committee fully considered this proposal and reported Senator HATCH's Motor Vehicle Franchise Contract Arbitration Fairness Act last October 31. It has been stalled from the Senate floor by anonymous Republican holds.

A section allowing FBI danger pay was cited as a proposal that bypassed Committee consideration, but, again, the Judiciary Committee did consider this proposal as part of the original DOJ Authorization bill, S. 1319.

Some have complained that the Federal Judiciary Protection Act, which is included in the conference report, had not come before the Committee, but on the contrary, this legislation, S. 1099, was passed the Judiciary Committee and the Senate by unanimous consent last year and in the 106th Congress, as well.

A complaint was raised on the floor about a provision on the U.S. Parole Commission being included in the conference report. That was included because the Bush Administration included it in its budget request.

A complaint was also raised about the conference report's provision establishing the FBI police to provide protection for the FBI buildings and personnel in this time of heightened concerns about terrorist attacks. Contrary to the critics, this proposal was considered by the Judiciary Committee as part of the FBI Reform Act, S. 1974, which was reported unanimously on a bipartisan basis but has been blocked by an anonymous hold.

Similarly, a complaint was made on the floor about bypassing the Committee with the provision in the conference report for the FBI to tell the Congress about how the FBI is updating its obsolete computer systems. Again, this is incorrect. This provision was included in the FBI Reform Act, S. 1974, which was considered by the Judiciary Committee and unanimously reported without objection.

Some critics have complained that the conference report includes intellectual property provisions that have passed neither the House or the Senate. It is not for lack of trying to pass these provisions through the Senate, but anonymous Republican holds have held up for months passage of the Madrid Protocol Implementation Act, S. 407. This legislation has passed the House on three separate times in three consecutive Congresses. Let us get it passed now in the conference report.

The conference report also contains another intellectual property matter, the Hatch-Leahy TEACH Act, to help distance learning. Contrary to the critics' statements, this passed the Senate in June, 2001.

The Intellectual Property and High Technology Technical Amendments Act, S. 320, contained in this conference report, was passed by the Senate at the beginning of this Congress,

in February, 2001. It is time to get this done.

The criticism made on the floor that the juvenile justice provisions in the conference report never passed the House or Senate is simply wrong. The conference report contains juvenile justice provisions passed by the House in September and October of last year, in H.R. 863 and H.R. 1900.

The criticism that the conference report contains criminal justice improvements that were passed by neither the House or the Senate glosses over two important points: First, that many of the provisions were indeed passed by the House, and, second, that others have been blocked from Senate consideration and passage by anonymous Republican holds. Let me give you some examples.

The conference report contains the Judicial Improvements Act, S. 2713 and HR 3892, that passed the House in July, 2002, but consideration by the Senate was blocked after the Senate bill was reported by the Judiciary Committee.

The Antitrust Technical Corrections bills, H.R. 809, had the same fate. After being passed by the House in March, 2001, and reported by the Senate Judiciary Committee, consideration was blocked in the Senate.

CONCLUSION

This conference report is a comprehensive attempt to ensure the administration of justice in our nation. It is not everything I would like or that any individual Member of Congress might have authored.

It is a conference report, a consensus document, a product of the give and take with the House that is our legislative process. It will strengthen our Justice Department and the FBI, increase our preparedness against terrorist attacks, prevent crime and drug abuse, improve our intellectual property and antitrust laws, strengthen and protect our judiciary, and offer our children a safe place to go after school.

The conference report merits the support of the United States Senate to help the Justice Department and the American people.

FY 2003 DEFENSE AUTHORIZATION CONFERENCE REPORT

Mr. SNOWE. Madam President, I rise today to speak briefly about my support for the fiscal year 2003 National Defense Authorization Conference Report and would like to particularly endorse its name as the Bob Stump National Defense Authorization Act for Fiscal Year 2003 in recognition of the chairman of the House Armed Services Committee's 25 years of distinguished service to that Committee.

I also acknowledge the senior Senator from Michigan, Mr. CARL LEVIN, the chairman of the Armed Services Committee, for the leadership he provided in support of the authorization bill, and, of course, the ranking member, Senator JOHN WARNER of Virginia, whose tireless efforts on behalf of vet-

erans led to the final agreements that brought this bill to the floor.

Let me recognize the efforts of every Senator on the Committee. As a former member of that committee, I well understand the long hours and persistent effort needed to move this vital bipartisan legislation.

The conference report takes great strides toward improving the quality of service for our dedicated men and women of the military, modernizing our armed services, and making our homeland safe.

Because we recognize that our service members are our most valuable asset, this legislation makes a solid investment in their quality of life by increasing pay and enhancing educational and health care opportunities for our active duty military members and their family members. And that is only right, for today we are asking a great deal of our gallant young men and women as they guard our Nation at home and abroad in this dangerous and deadly post-September 11 world.

This legislation recognizes that we also owe a continuing debt to those who have served honorably by finally granting combat-wounded military retirees the same benefit available to every other retired Federal employee—the ability to collect full retirement pay and disability entitlements without offsets. There is much work to be done before we achieve the full equity of concurrent receipt for all disabled military retirees, but as Senator WARNER has appropriately noted, we have established a “beachhead” for this issue.

I do find it regrettable, however, that the conference report does not complete the job of overturning the ban on privately funded abortion services in overseas military hospitals for military women and dependents based overseas, which was reinstated in the Fiscal Year 1996 authorization bill.

This is a ban that, without merit or reason, puts the reproductive health of these women at risk . . . a ban that the Senate voted to overturn in June by a vote of 52-40. Sadly, this is the second time that this policy change, which has been supported by the majority of the Senate, has fallen victim to the conference committee process.

This ban continues to be a threat to more than just the freedoms of American military women overseas, it's also a threat to their health because it places them at the mercy of the local health care infrastructure in whatever country that they are based. While I support this conference report, I remain deeply disappointed that the conference did not include this critical change of policy regarding this arbitrary ban.

As for modernizing our forces, let me speak on an area that is critical to the security of the Nation—shipbuilding. We are learning that in order to effectively engage the forces of terror wherever they hide, we must have the ability to project our power immediately

to any part of the globe. Today, we can do that by dispatching our forces in carrier battle groups or amphibious ready groups. However, as a former chair of the Seapower Subcommittee, I remained concerned, as I know the committee is, about the continuing decline in shipbuilding investments made by the Navy.

I note the conferees included detailed language about the Navy's ship acquisition program and completely agree with their conclusion that, without a fully vetted long range ship-building program, we will be faced with a Navy that is unable to carry out the missions assigned to them in both the short-term and the long-term.

To quote the report, “Absent more immediate investment, DOD will have to reduce the number or scope of missions assigned to Navy ships. Witnesses have testified that, if neither course is incorporated in future Navy budget programs, the men and women of the Navy and the Marine Corps will bear the burden of these decisions through some combination of longer deployments and less time at home between deployments.”

I find that very troubling indeed in these dangerous times.

Therefore, I am encouraged this legislation mandates stronger shipbuilding funding and construction in the future years. Provisions such as section 1022 that requires the Navy to submit an annual 30 year shipbuilding plan with their budget request will not only assist us in understanding the Navy's ship recapitalization plan but will ensure that the Department of Defense and Navy are committed to buying the number and type of ships necessary to fulfill all of their missions.

I am also pleased that this authorization provides \$2.4 billion for the construction of two DDG-51 *Arleigh-Burke* class destroyers and extends through fiscal year 2007 the multi-year procurement authority for that class. For it is these ships, along with cruisers and frigates, that provide protection to the carriers and amphibious ships we are deploying to the Persian Gulf to prosecute the war on terrorism. Surface combatants are the backbone of our Navy and I support section 1021 that requires the Secretary of the Navy to notify Congress should the number of active and reserve surface combatant ships drop below 116.

The legislation also looks to the future by authorizing almost \$970 million for the development of technologies to be incorporated into the next generation of surface combatant, the DD(X) land attack destroyer. Moreover, it adds \$5 million for the DDG Destroyer Optimized Manning Initiative, a Navy effort to enhance the operational effectiveness of Aegis destroyers with new technologies, policies and procedures to significantly reduce crew workload and improve readiness.

The legislation authorizes \$10.4 billion, \$376 million more than requested, for science and technology programs

including many that will be performed in Maine to protect our troops and our homeland such as the project designed to help identify and address the needs of military personnel in the event of a biowarfare attack.

Of potentially significant value to the Navy, it authorizes \$1 million for research at the University of Maine aimed at developing a specialized structural reliability analysis process to optimize the use of polymers in future ship construction, and provides \$5 million in funding for development of a Small Kill Vehicle Technology, aimed at improving the accuracy of missile and anti-missile technology.

Furthermore, among the more critical provisions of this legislation are those aimed at protecting our homeland. It provides the President with \$10 billion for the war against terrorism including \$4.3 billion for military operations and \$1 billion for equipment replacement and upgrades to military capabilities.

And finally, the legislation includes almost \$1 billion for Chem-Bio programs designed to provide advanced individual protection and equipment to detect and decontaminate chemical and biological agents, as well as an additional \$480 million for DoD homeland security and consequence management.

This authorization provides the men and women of our armed forces with the equipment they need to accomplish their mission, the quality of life they have earned and security for their families. I have been proud to support this legislation because in a year when our Nation is facing unprecedented security challenges and dangers, we can do no less.

THE PIPELINE SAFETY IMPROVEMENT ACT OF 2002

Mr. HOLLINGS. Madam President, I am pleased that last night the Senate unanimously passed pipeline safety legislation in the form of H.R. 3609, the Pipeline Safety Improvement Act of 2002. This bill is the product of over three years of bipartisan work and compromise, and I thank my colleague, Senator MCCAIN, for his leadership on this important issue.

Mr. MCCAIN. I would like to thank my many colleagues for joining us in supporting this important legislation. This bill will result in improvements in the safety regulatory program at the Department of Transportation, increased levels of safety throughout our national pipeline system, and in the communities through which pipelines run. This bill contains several important improvements, including: requirements for minimum standards for pipeline integrity management programs, requirements for public education programs, and requirements that the Office of Pipeline Safety and the Research and Special Programs Administration comply with safety recommendations made by the National Transportation Safety Board and the

Department of Transportation Inspector General, many of which have already been started.

Mr. HOLLINGS. To expedite enactment of the significant pipeline safety reforms included in this bill, the leadership of the Senate Committee on Commerce, Science, and Transportation has worked with the House Committees on Transportation and Infrastructure and Energy and Commerce in developing the compromise agreement. This Joint Explanatory Statement therefore represents the views of the Chairman and Ranking Member of the Senate Commerce Committee, along with the Chairmen and Ranking Members of the Transportation and Infrastructure Committee and the Energy and Commerce Committee. This Joint Explanatory Statement will provide legislative history for interpreting this important pipeline safety legislation.

I ask unanimous consent that this statement be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

SECTION-BY-SECTION ANALYSIS

Section 1. Short title; amendment of title 49, United States Code

This section designates the act as the "Pipeline Safety Improvement Act of 2002."

Section 2. One-call notification programs

This section requires that state one-call notification programs provide for the participation of government operators and contract excavators. Section 2 also requires that state one-call notification programs document enumerated items set forth in the statute. Additionally, the requirement that the Secretary of Transportation include certain information in reports submitted under section 60124 of Title 49 is made permanent. Authorizations for appropriations for grants to states for fiscal years 2003 through 2006 are provided at \$1,000,000 per year, and grants for administration in section 6107(b) are updated for fiscal years 2003 through 2006. This section also amends section 6105 of Title 49 by requiring the Secretary of Transportation to encourage the states, operators of one-call notification programs, operators of underground facilities, and excavators (including government and contract excavators) to use the practices set forth in the best practices report entitled "Common Ground," as periodically updated, and requires the Secretary of Transportation to provide technical assistance to a non-profit organization specifically established for the purpose of reducing construction-related damage to underground facilities. Authorizations for appropriations for fiscal years 2003 through 2006 are provided at \$500,000 per year, but would not be derived from user fees collected under section 60301 of title 49.

Section 3. One-call notification of pipeline operators

This section provides for the enforcement of one-call notification programs by a state authority if the state's program meets the requirements set forth in the statute. The application of the term "person" who intends to engage in an activity necessitating the use of the one-call system is expanded to include government employees or contractors.

This section amends section 60123(d) of Title 49 by rearranging the phrase "knowingly and willfully" to address the problem raised when a court interpreted ex-

isting law to require a knowing and willful standard to, not only engaging in an excavation activity, but also to subsequently damaging a pipeline facility. The consequence of the court's interpretation makes prosecutions more difficult by requiring the government to show the defendant knew subsequent damages would result from excavation activity and that the defendant's conduct was willful. This section of the bill corrects the court's interpretation by now requiring that the "knowingly and willfully" standard apply only to engaging in an excavation activity.

This section also provides that penalties under the criminal penalties section can be reduced if the violator promptly reports a violation.

Section 4. State oversight role

This section amends section 60106 of Title 49 to allow the Secretary of Transportation to make an agreement with a state authority authorizing the state authority to participate in the oversight of interstate pipeline transportation including incident investigation, new construction, and other inspection and investigatory duties. However the Secretary shall not delegate the enforcement of safety standards for interstate pipeline facilities to a state authority. This section further provides that the Secretary may terminate agreements with the State authorities if a gap results in the State authority's oversight responsibilities of intrastate pipeline transportation, the State authority fails to meet requirements set forth in this section, or continued participation in the oversight of interstate pipeline transportation would not promote pipeline safety. Existing state agreements shall continue until a new agreement between the state and the DOT is executed or December 31, 2003, whichever is sooner.

Section 5. Public education programs

Section 5 amends section 60116 of Title 49 to include hazardous liquid pipeline facilities in this section requiring a continuing program to educate the public on the use of one-call notification systems, the possible hazards associated with unintended releases, and how to tell if an unintended release occurred, what steps should be taken for public safety in the event of a pipeline release, and how to report such an event. This section also requires owners and operators to review existing public education programs for effectiveness and to modify their programs as necessary. In addition, the section allows the Secretary to issue standards prescribing the elements of public education programs and develop materials for use in such programs.

Previous versions of Senate-passed pipeline safety legislation also included a provision calling for the coordination of emergency preparedness between operators of pipeline facilities and state and local officials, as well as to provide for public access to certain safety information. Agreement was not reached on how safety information could be accessed by the public in a manner that would protect security-sensitive information from distribution. The managers agreed that this issue would be better dealt with in the context of the pending homeland security legislation.

Section 6. Protection of employees providing pipeline safety information

This section adds provisions for the protection of employees who are discharged or otherwise discriminated against with respect to compensation, terms, conditions, or privileges of employment for (1) providing information to the federal government about alleged violations of Federal law relating to pipeline safety; (2) refusing to participate in any practice made illegal by Federal law relating to pipeline safety; or (3) assisting or

participating in any proceeding to carry out the purposes of pipeline safety legislation. This section establishes the procedural framework in which complaints are handled by the Secretary of Labor and the remedies available to the prevailing party.

This section contains a provision that essentially says if a preliminary order provides that an employee must be allowed to return to work, the filing of an objection by the employer "shall not operate to stay any reinstatement remedy contained in the preliminary order." The intention of this language is to assure that the mere filing of an objection would not work as an automatic stay, thus precluding an employee from returning to work pending the outcome of the matter. However, this language would not preclude an employer from filing an independent motion for a stay if sufficient grounds exist for the filing of such a motion.

Section 7. Safety orders

Section 7 adds a paragraph to section 60117 of Title 49 to give the Secretary of Transportation authority to order an operator of a facility to take corrective action if the Secretary decides that a potential safety-related condition exists. The Office of Pipeline Safety (OPS) requested this provision so that corrective action could be taken immediately rather than waiting until a facility is classified as "hazardous" prior to requiring corrective action.

Section 8. Penalties

This section modifies the existing penalties provision set forth in section 60112 of Title 49 to allow the Secretary of Transportation to decide if the operation of a pipeline facility, is "or would be" hazardous to life, property, or the environment. The purpose of the modification is to give the Secretary authority to take action prior to the facility, the construction of the facility, or any component of the facility actually becoming hazardous, thereby establishing a framework of preventative actions, rather than actions only in response to an imminent hazard.

In subsection (a)(1) of section 60122, the amounts of the penalties have been increased. The per day, per incident, amount has been increased from \$25,000 to \$100,000. The maximum civil penalty for a related series of violations has been increased from \$500,000 to \$1,000,000. This section of the bill also provides that, in determining the amount of a civil penalty, the Secretary of Transportation shall consider as an additional consideration in section 60122(b) of Title 49, the adverse impact on the environment. The Secretary of Transportation may consider the economic benefit gained from the violation without reduction because of subsequent damages.

This section also modifies the enforcement section of the statute (section 60120(a)(1) of Title 49) by specifically providing that the court may award appropriate relief, including a temporary or permanent injunction, punitive damages, and the assessment of civil penalties. The current statutory language specifying that the Attorney General may proceed only at the request of the Secretary of Transportation remains in effect.

Section 8 also requires that the Comptroller General conduct a study of the actions, policies, and procedures of the Secretary of Transportation for assessing and collecting fines and penalties.

Section 9. Pipeline safety information grants to communities

Section 9 requires the Secretary of Transportation to make grants for technical assistance to local communities and groups of individuals (not including for-profit entities) relating to the safety of pipelines in local communities. The purpose of this provision

is to provide grants to communities for technical assistance such as engineering or scientific analysis of pipeline safety issues. Applicants must compete for the grants in a procedure established by the Secretary of Transportation, who shall also establish the criteria for the recipients. Additionally, the Secretary must establish procedures to ensure that the funds have been properly accounted for and spent in a manner consistent with the purpose of the grants. Any one-grant recipient may not receive more than \$50,000. The grant funds cannot be used for lobbying or in direct support of litigation. This section authorizes the appropriation of \$1,000,000 for each of the fiscal years 2003 through 2006.

Section 10. Operator assistance in investigations

This section requires the operator of a pipeline facility to make available information and records to the Secretary of Transportation or the National Safety Transportation Board (NTSB) in the event of an accident, subject to constitutional protections for operators and employees. Actions taken by an operator pursuant to this section shall be in accordance with the terms and conditions of any applicable collective bargaining agreement.

Section 11. Population encroachment and rights-of-way

This section requires the Secretary of Transportation, along with the Federal Energy Regulatory Commission (FERC) and other federal agencies and state and local governments, to study land use practices and zoning ordinances, as well as the preservation of environmental resources, with regard to pipeline rights-of-way. Based upon the purposes set forth in this section, a report is to be written that identifies successful practices, ordinances, and laws addressing population encroachment on pipeline rights-of-way, being mindful of protecting the public safety, pipeline workers, and the environment. The report must be completed within one year from the date of enactment and provided to Congress, appropriate federal agencies, and the States for further distribution to the appropriate local authorities.

Section 12. Pipeline integrity, safety, and reliability research and development

This section requires the heads of the participating agencies to carry out a program of research, development, demonstration, and standardization to ensure the integrity of pipelines. The Secretary of Energy, Secretary of Transportation, and the Director of the National Institute of Standards and Technology (NIST) each have defined roles. The Secretary of Transportation, in coordination with the Secretary of Energy and the Director of the National Institute of Standards and Technology, shall prepare and submit to Congress a 5-year plan to guide the activities under this section. The plan shall also be submitted to the Technical Pipeline Safety Standards Committee and the Technical Hazardous Liquid Pipeline Safety Standards Committee for review. The section authorizes appropriations for the fiscal years 2003 through 2006 in the following amounts: Secretary of Energy: \$10,000,000; the Secretary of Transportation: \$10,000,000; and the National Institute of Standards and Technology: \$5,000,000. Any sums authorized pursuant to this section shall not be derived from user fees. In addition \$3,000,000 from the Oil Spill Liability Trust Fund shall be transferred to the Secretary of Transportation, as provided in appropriations Acts, to carry out programs for detection, prevention, and mitigation of oil spills for each of the fiscal years 2003 through 2006.

Even though the Secretary of Transportation does not regulate gathering lines, the

participating agencies are encouraged to include such lines in their research, development, demonstration, and standardization efforts on the integrity of gathering lines.

Section 13. Pipeline qualification programs

This section requires the Secretary of Transportation to require operators of pipeline facilities to develop qualification programs for their personnel who perform covered tasks (as defined in the Code of Federal Regulations). This section also requires the Secretary to have in place standards and criteria for such qualification programs, including a method for examining or testing the qualifications of individuals who perform covered tasks. Such method may include written examination, oral examination, on-the-job training, simulations, observation during on-the-job performance, and other forms of assessment. The method may not be limited to observation of on-the-job performance, except with respect to tasks where the Secretary has determined specifically that such observation is the best method of examining or testing qualifications. Further, the Secretary must ensure that the results of any such on-the-job performance observations are documented in writing. The Secretary may waive or modify requirements if not inconsistent with pipeline safety. The Secretary is required to verify each operator's qualification program, including modifications to previously verified programs. In the event the Secretary fails to establish standards and criteria as set forth in this section, pipeline facility operators are required to develop and implement qualification programs based on the requirements of this section. The Secretary is required to report to Congress within 5 years on the status and results of personnel qualification regulations. A pilot program is established for the certification of individuals who operate computer-based systems for controlling the operations of pipelines. The pilot program seeks the participation of 3 pipeline facilities.

Section 14. Risk analysis and integrity management programs for gas pipelines

This section requires operators of pipeline facilities subject to section 60109 of Title 49 to adopt and implement a written integrity management program to reduce risks to each facility. Within 12 months of the enactment of the bill, this section requires the Secretary of Transportation to prescribe standards to direct each operator's conduct of a risk analysis and adoption and implementation of an integrity management program, which must occur within 24 months from the enactment of the section. Minimum requirements are set forth in this section for integrity management programs and for the rule regulating the same, which include a baseline integrity assessment of each of an operator's facilities which must be completed within 10 years after the enactment of the section (at least 50 percent of such facilities shall be assessed no later than 5 years after the date of enactment of this section), and a reassessment of each facility at a minimum of once every 7 years, with prioritization being based on all relevant risk factors, including any previously discovered defects or anomalies and any history of leaks, repairs, or failures.

The Secretary of Transportation is required to issue a rule on integrity management programs, and each operator of a pipeline facility subject to section 60109 of Title 49 is required to adopt and implement an integrity management program, even if the Secretary does not issue a rule. This section does not apply to natural gas distribution lines because section 60109 of Title 49 does not, nor was it intended to, apply to natural gas distribution lines.

Section 14 authorizes the Secretary of Transportation to grant waivers and modifications pursuant to section 60118(c) of Title 49 for any requirement for reassessment of a facility for reasons that may include the need to maintain local product supply or the lack of internal inspection devices. The waivers or modifications shall not be inconsistent with pipeline safety.

This section also requires that the Comptroller General conduct a study to evaluate the 7-year reassessment interval required by this section. The study is to be completed and transmitted to Congress no later than 4 years from the date of enactment.

In this section, each operator of a gas pipeline facility is required to conduct a risk analysis for facilities located in high consequence areas and to adopt and implement an integrity management program for each such facility to reduce associated risks. This section requires each operator to prioritize facilities for integrity assessment based on all risk factors, including any history of leaks, repairs, or failures, and directs the operator to give priority to facilities with the highest risks.

The Department of Transportation's Research and Special Programs Administration (RSPA) issued a final rule defining "high consequence areas" on August 6, 2002. The managers strongly support RSPA's regulation defining high consequence areas, although recognize that the definition could be subject to alteration by future regulatory action by RSPA.

Pipeline safety regulations have long required gas operators to survey and patrol along their pipeline rights-of-way to classify areas of population. The new definition of high consequence areas builds on the existing classification of areas where the potential consequences of a gas pipeline accident may be significant or may do considerable harm to people and their property, and includes current class 3 and 4 locations, facilities with persons who are mobility impaired, confined, or hard to evacuate, and places where people gather for recreational and other purposes.

In the July 2002 Technical Pipeline Safety Standards Committee meeting to consider the proposed definition, RSPA made clear its intent to include in its definition known areas where people gather, such as the Pecos River pipeline crossing near Carlsbad, New Mexico, which was commonly used by campers and fishermen and was the location of a pipeline rupture in August 2000 that resulted in 12 fatalities. The managers support is expressed for this new definition of high consequence areas and expect RSPA to further clarify the application of the definition in the substantive rule to be issued on integrity management programs.

Section 15. National Pipeline Mapping System

Section 15 requires operators of pipeline facilities, except distribution lines and gathering lines, to provide to the Secretary of Transportation geospatial data appropriate for use in the National Mapping System, the name and address of the person with primary operational control, and a means for a member of the public to contact the operator for additional information about the facilities. There is a requirement to update the information as necessary.

Section 16. Coordination of environmental reviews

Section 16 requires the President to establish an interagency committee for the purpose of developing and ensuring the implementation of a coordinated environmental review and permitting process in order for pipeline operators to complete all activities necessary to carry out pipeline repairs within any time periods specified by rule by the Secretary of Transportation.

The chairman of the Council on Environmental Quality shall chair the Interagency Committee, which shall consist of representatives of Federal agencies with responsibilities relating to pipeline repair projects. The Interagency Committee shall evaluate Federal permitting requirements and shall examine the access, excavation, and restoration practices of the pipeline industry for the purpose of developing a compendium of best practices used by the industry to access, excavate, and restore the site of a pipeline repair. Based upon the evaluation conducted, the members of the Interagency Committee shall enter into, by unanimous consent, a memorandum of understanding to provide for the coordinated and expedited pipeline repair permit review process so that pipeline operators may commence and complete pipeline repairs within any time periods imposed on the repair projects by rules promulgated by the Secretary of Transportation. Each agency represented on the Interagency Committee is required to revise its regulations to implement the provisions of the memorandum of understanding.

This section also provides for the implementation of alternative mitigation measures to be used by operators of pipeline facilities until all applicable permits have been granted. To the extent necessary, the Secretary of Transportation is required to revise the regulations of the Department to accommodate such implementation. However, such revisions shall not allow an operator of a pipeline facility to implement alternate mitigation measures unless to do so would be consistent with the protection of human health, public safety, and the environment; the operator has applied for and is diligently and in good faith pursuing all required Federal, state, and local permits necessary to carry out the repair project; and is compatible with pipeline safety.

The Secretary of Transportation is required to designate an ombudsman to assist in expediting pipeline repairs and resolving disagreements between Federal, state, and local permitting agencies and the operator of a pipeline facility. The actions of the ombudsman must be consistent with the protection of human health, public safety, and the environment.

The Secretary of Transportation is required to encourage states and local governments to consolidate their respective permitting processes for pipeline repair projects that are subject to any time periods for repairs specified by rule by the Secretary of Transportation.

Section 17. Nationwide toll-free number system

Section 17 requires the Secretary of Transportation to work in conjunction with the Federal Communications Commission (FCC), facility operators, excavators, and one-call notification system operators for the establishment of a nationwide toll-free 3-digit telephone number system to be used by state one-call notification systems.

Section 18. Implementation of Inspector General recommendations

Section 18 requires the Secretary of Transportation to respond to each of the recommendations of the Department of Transportation Inspector General contained in RT-2000-069 every 90 days and to submit the responses to the appropriate committees of Congress.

Section 19. NTSB safety recommendations

Section 19 requires RSPA and OPS to respond to recommendations received from the NTSB within 90 days from receipt of such recommendations. Such responses shall state the intentions of the OPS with respect to the recommendations and shall state the timetable for completing the procedures and rea-

sons for refusals to do so. The responses shall be made available to the public. The OPS is required to submit an annual report describing each recommendation received and the OPS response to each recommendation for the previous year.

Section 20. Miscellaneous amendments

Section 20 amends section 60102(a) of Title 49 by adding language expressing that the purpose of the chapter is to provide adequate protection against risks to life and property posed by pipeline transportation pipeline facilities by improving the regulatory and enforcement authority of the Secretary of Transportation.

This section also modifies the qualifications of the individuals selected to serve on the Technical Safety Standards Committees pursuant to section 60115 of Title 49 so that none of the individuals selected for committee membership from the general public "may have a significant financial interest in the pipeline, petroleum, or gas industry." The intent of this provision is to prevent industry employees and individuals with a sizable stake in the pipeline industry from serving as representatives from the general public, not prevent service from individuals who have pipeline, petroleum, or gas industry stock interests in their retirement plans.

Section 21. Technical amendments

Section 21 makes technical amendments to correct previous drafting errors in the existing legislation.

Section 22. Authorization of appropriations

Section 22 authorizes appropriations for the Department of Transportation and state grants for safety programs for the fiscal years 2003 through 2006.

Section 23. Inspections by direct assessment

Section 23 requires the Secretary of Transportation to issue regulations prescribing standards for inspections of a pipeline facility by direct assessment.

Section 24. State pipeline safety advisory committees

Section 24 requires the Secretary of Transportation to respond within 90 days after receiving recommendations from advisory committees appointed by the Governor of any state.

Section 25. Pipeline bridge risk study

Section 25 requires the Secretary of Transportation to conduct a study to determine whether cable-suspension pipeline bridges pose structural or other risks. The Secretary may only use funds specifically appropriated to carry this section.

Section 26. Study and Report on Natural Gas Pipeline and Storage Facilities in New England

Section 26 requires the Federal Energy Regulatory Commission, in consultation with the Department of Energy, to conduct a study on the natural gas pipeline transmission network in New England and natural gas storage facilities associated with that network and report back to the relevant House and Senate Committees within a year of the date of enactment.

AVERTING A BREAKDOWN IN FEDERAL TAX ENFORCEMENT

Mr. LEVIN. Madam President, many have said they want the next Congress to work on tax reform. Any tax reform effort we undertake, however, needs to address the grave warning recently provided by IRS Commissioner Charles O. Rossotti about the need for immediate steps to avert a breakdown in federal tax enforcement.

Mr. Rossotti has just completed 5 years of work to restore confidence in the effectiveness and fairness of the IRS. He left the administration last week after submitting a report to the IRS Oversight Board summarizing his efforts and the current state of the IRS. His overall conclusion was that, while the IRS made significant progress over the last 5 years in re-vamping its procedures and improving interactions with average taxpayers, the IRS is "losing the war" on stopping tax cheats.

Mr. Rossotti wrote that while the size and the complexity of the Tax Code have continued to increase, IRS enforcement resources have continued to diminish. He described the IRS as "outnumbered" and facing a huge and growing gap "between the number of taxpayers whom the IRS knows are not filing, not reporting or not paying what they owe, and our capacity to require them to comply." Using specific facts and figures, he provides data supporting the shocking statistic that four out of five U.S. tax cheats will likely escape detection and correction action due to the IRS' limited resources to enforce the tax laws.

Mr. Rossotti also summarized what is happening among tax professionals to enable so-called sophisticated taxpayers to escape paying their fair share, and what the likely consequence is for honest taxpayers left footing the bill. Here is what he said:

Recognizing the IRS' diminished capacity, promoters and some tax professionals are selling a wide range of tax schemes and devices designed to improperly reduce taxes to taxpayers based on the simple premise that they can get away with it. When this perception becomes increasingly widespread, the essential pillar of our tax system is lost—namely, the belief of honest taxpayers that if someone does not pay what he or she owes, then the IRS will do something about it.

Mr. Rossotti's full analysis appears in the report he filed with the IRS Oversight Board, and I ask unanimous consent for the complete text of that report to appear in the record following my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. LEVIN. This report not only sets out the scope and causes of the growing enforcement problems at the IRS, it also identifies practical and immediate steps that can be taken by Congress to avert an enforcement breakdown. Essentially, it comes down to Congress' providing the IRS with a steady increase of 2 percent per year over the next 5 years in resources for audits, investigators, and enforcement actions. This increase is not only modest, the numbers show that it will more than pay for itself through the collection of taxes that have improperly been withheld.

Federal tax reform is an important goal, but any reform effort must include a clear-eyed recognition of the growing problem of tax compliance and the need to revitalize the agency

charged with ensuring all Americans pay their fair share. Mr. Rossotti was scheduled to bring the enforcement problem to the attention of Congress at a hearing in October, but that hearing was cancelled after, according to press reports, he was asked by the administration not to disclose his report or recommendation for increased enforcement resources.

To further contribute to an understanding of the scope and nature of tax noncompliance, my staff on the Permanent Subcommittee on Investigations has been digging into the problems of offshore tax evasion and tax promoters shopping improper tax shelters. I hope to have more to report on these issues early next year.

In the meantime, I urge all my colleagues to read Mr. Rossotti's report in full and take its warnings and advice to heart as we approach tax reform issues in the coming year.

EXHIBIT 1

REPORT TO THE IRS OVERSIGHT BOARD—ASSESSMENT OF THE IRS AND THE TAX SYSTEM

As the Board requested, and as my term of office draws to a close, I want to share with you my thoughts on the current state of the IRS, our tax administration system, as well as the opportunities and challenges that the agency and new commissioner will face.

The IRS is today capable of executing its mission with increasing effectiveness and efficiency. We made measurable progress on a number of high priority areas, such as e-filing, telephone and in-person taxpayer service, protection of taxpayer rights and burden reduction. We stabilized and refocused our key compliance activities to make the best use of our limited resources and are identifying and attacking systematic areas of non-compliance, such as the promotion and use of abusive tax devices. Financial management improved, as evidenced by unqualified audit opinions. Internal morale, which was heavily affected by criticism and internal and external change, turned around. Perhaps most importantly, we regained the confidence of the public and other stakeholders.

For the longer term, the IRS created a firm foundation upon which to make further progress. It includes: a modern organization structure with clear accountability for meeting the widely varying needs of specific taxpayer segments; information systems and support organizations capable of supporting operations efficiently while managing modernization; and a planning and management process for allocating resources, assigning goals to managers and measuring progress.

Our Business System Modernization Plan is beginning to deliver tangible benefits to taxpayers and practitioners. Equally important, we have a complete vision and architecture to guide the continuing modernization of every IRS business process and supporting technology.

The plans in place for FY 2003 and FY 2004 reflect aggressive but achievable productivity gains, exceeding those that were historically achieved in the private financial sector.

Taken together, these achievements demonstrate the progress we made over the past five years in the entire way we serve taxpayers, although finishing the job will still take the full decade I originally projected.

However, amidst what I believe is justified optimism for continued improvements in the performance of the IRS lies a critical problem. We are winning the battle, but losing the war. Over the last ten years, the size and

complexity of the tax system increased enormously. Beyond the simple increase in number of taxpayers and revenue dollars, the majority of tax revenues now come from sources that are more subject to manipulation by those who wish to pay less than the law requires and much more difficult and time consuming for our agents to uncover. Meanwhile, the size of the IRS declined, not just relatively but in absolute terms, because of budget constraints.

The cumulative effect of these conflicting trends over a 10-year period has been to create a huge gap between the number of taxpayers whom the IRS knows are not filing, not reporting or not paying what they owe, and our capacity to require them to comply.

Recognizing the IRS' diminished capacity, promoters and some tax professionals are selling a wide range of tax schemes and devices designed to improperly reduce taxes to taxpayers based on the simple premise they can get away with it. When this perception becomes increasingly widespread, the essential pillar of our tax system is lost—namely, the belief of honest taxpayers that if someone does not pay what he or she owes, then the IRS will do something about it.

If the trend of the last ten years is allowed to continue, it is only a matter of time until this problem will emerge into the forefront of public consciousness, likely leading to an eruption of criticism such as has occurred periodically in the last 50-year history of the IRS.

Fortunately, it is not too late to solve this problem, nor is it an open-ended problem. In fact, in the past year we succeeded in quantifying better than ever the resources we need. Modernization and internal productivity improvements will provide a major part of the needed gains. However, these alone will not be sufficient to close the gap, even if we assume greater productivity gains than the private sector was able to achieve over a decade.

To succeed, we need more trained personnel to close the known compliance gap while continuing to protect taxpayer rights and provide essential services. Specifically, we must add approximately 2 percent annual net increase in staffing over five years. Even with this increase, the size of the IRS by 2010 would be smaller than it was 20 years earlier in 1990 while the economy will have increased 86 percent.

Over the same period, we must also fund adequate increases for computer modernization programs to accelerate the delivery of key projects and benefits that will provide for greater service, efficiency and productivity.

Together with effective management of the IRS, this modest level of resources can reverse the dangerous trend the tax system is currently taking—but only if it is consistently provided. If, on the other hand, the trend of the past ten years is maintained, in which the demands on tax administration increase and the capacity of the IRS declines, the eventual cost for our nation is certain to be enormous.

STARTING POINT

Before I discuss the opportunities and challenges that lie ahead, it is helpful to place them in their proper historical context.

By the mid-1990s, the public, Congress and most key stakeholders had lost confidence in the IRS. According to the Roper Starch surveys, favorable public opinion of the IRS steadily declined since the early 1980s, reaching an all-time low of 32 percent in 1998. The results of the American Customer Satisfaction Index of key federal agencies were similarly alarming. The IRS measured the lowest of any agency or institution in both surveys.

Taxpayers were not alone in their negative perceptions. Congress and many of our

stakeholders also lost confidence in the agency's ability to do its job at an acceptable level. In 1995, the Tax Systems Modernization program was terminated after several billion dollars were spent. Handling complaints about IRS treatment of constituents became a time-consuming duty in many congressional offices, and many stakeholders, especially those representing small business, had an adversarial relationship with the agency.

Poor quality service to taxpayers over the telephone or in person contributed to the public's low perceptions. At the nadir in the mid-1990s, the IRS registered 400 million busy signals a year on its toll-free lines, and when taxpayers did reach the IRS, the likelihood of getting an accurate answer or resolution to a problem was low.

A number of external factors also buffeted the IRS. Budget and staff cuts, rapid economic growth and the shift in the tax base from middle-income wage earners and domestic corporations to upper-income entrepreneurs, passthrough entities and global corporations, all contributed to a diminished capacity to cope with service and compliance demands.

The IRS responded to this pressure by emphasizing enforcement revenue and statistics as a way of justifying its budget. The IRS measured the success of its compliance activities by direct enforcement revenues. This is like a police department assessing its success by the number of traffic tickets written rather than by the safety and security of the community it serves. As we well know from the ensuing fallout, this grave mistake further alienated the public, yet failed to address the systematic, emerging compliance and budget problems.

While emphasizing enforcement statistics, the IRS was also slow to update its compliance practices, such as models used to select returns for audits and the management of the exam and collection processes. Until we changed it recently, \$100,000 was the highest income class used by the IRS in assigning exam cases, although people with incomes over \$100,000 pay more than 60 percent of the income tax.

Moreover, although exam coverage was declining, many of these examinations concentrated on relatively straightforward issues of deductions or timing differences, such as the use of cash versus accrual accounting by small businesses. Very little emphasis was placed on partnerships and trusts, high-income individuals or offshore accounts, although vast sums of income flow through these entities. There was no specific program to identify and combat promoters of abusive tax devices. The IRS succeeded in winning some tax shelter court cases, but there was no overall strategy for dealing with corporate tax shelters.

ACHIEVING A TURNAROUND

The IRS addressed, although certainly not completely solved, the major problems and internal constraints it faced five years ago. Some are resolved; clear plans are in place to correct the remaining ones over the next five years. This work provided the foundation for steady improvement in the effectiveness and efficiency with which the IRS carries out its mission.

Public confidence in the IRS rebounded. The Roper Starch surveys found our rating increased each of the past three years after 1998's historic low. The University of Michigan's American Customer Satisfaction Index survey released in December 2001 showed greatly improved customer satisfaction among individual taxpayers—the largest favorable gain of the 30 federal agencies surveyed.

In May 2002, the Federal Performance Project, a collaboration of Government Ex-

ecutive Magazine and George Washington University's Department of Public Administration, released its scorecard on federal agencies. The IRS earned a "B-", as compared to a "C" three years ago. While the trend is good, much more remains to be done. The IRS can be and should be managed at the "A" level and is on its way to achieving this.

This turnaround in public confidence reflects the clear progress in five distinct areas: (1) customer service, (2) stakeholder relations, (3) compliance, (4) internal management, and (5) technology and modernization.

Customer service

The customer service improvements were the most visible to individual taxpayers. The upward trend in telephone service was particularly important given how far we had to climb. By the end of the 2002 filing season, taxpayers were receiving correct responses to 83.6 percent of tax law questions and 89.9 of account questions. Access to service and time spent waiting, while still below private sector standards, improved substantially. Average wait time is down 26 percent from the previous year. Assistor access rose from 56 percent only two years ago to nearly 70 percent this year.

Last year, Web site usage smashed all records with 2.7 billion hits and 336 million files downloaded. We are well on our way to a new record this year. Also, in January 2002, we introduced a newly designed and more accessible Web site.

E-filing tripled over the past five years, and this filing season, was up 16 percent over the previous one. We are systematically removing the remaining barriers to e-filing. For example, this year, virtually all 1040 forms and schedules could be filed electronically, and no paper signature document was required. Improved electronic tax administration is also critical to better serving business taxpayers, especially given the number of forms and payments they must file and make. In September 2001, we launched Electronic Federal Tax Payment System On-Line that allows businesses large and small to save precious time by making their federal payments on-line.

We are also building a new e-file system that will grow and serve taxpayers for years to come. Scheduled to start in 2004, it will address the current system's problems. For example, it will accept complex business returns, such as 1120s, eliminate software barriers and resolve standardization issues, such as reject codes and validations.

Service in local taxpayer assistance centers, which was extremely poor in many places, improved in both quality and consistency. However, it will still take several more years to reach fully acceptable standards. Taxpayers can now schedule appointments in more than 400 locations for face-to-face meetings with IRS employees to resolve account or case problems. This helps make the well-received idea of "Problem Solving Days" a regular part of IRS everyday operations. While making these improvements, we are also requiring fewer personnel details from the compliance functions to filing season duty—an expensive and very unpopular practice.

Within the limits of a complex and changing Tax Code, the IRS acted to reduce taxpayer burden. For example, we simplified forms, such as the Schedule D for reporting capital gains. We also rewrote and simplified procedures, such as those for distributions from qualified retirement plans. We removed 2.6 million small business taxpayers from the time-consuming reporting and record-keeping requirements of reconciling tax returns with balance sheets. We eliminated the need

for most small businesses to use the more burdensome accrual method of accounting for tax purposes. We implemented a new and much more reliable way of measuring taxpayer burden. In the newly created Office of Taxpayer Burden Reduction, we also have an organization dedicated to continuously measuring and reducing burden.

The IRS implemented 71 taxpayer rights provisions of RRA 98, including such major provisions as collection due process, expanded innocent spouse relief, third party notification and expanded opportunities for offers in compromise. The Taxpayer Advocate Service was established as an effective independent entity within the IRS. It assists taxpayers with hardship cases and makes recommendations to improve the way IRS works for them. Because of these efforts, the number of taxpayers with serious unresolved cases, such as those that generate a need for intervention by a congressional office, declined. More generally, our improved service helped to reduce the numbers of cases needing TAS intervention. In 2002, case receipts fell from 194,790 to 169,390 compared with the same 9-month period in 2001.

Stakeholder relations

In the past, relations with IRS stakeholders were often strained and adversarial. Through improved communications and frequent, substantive meetings, our relationship with Congress, oversight bodies and business groups—especially small businesses—greatly improved. Congressional hearings, once contentious, have been almost universally positive and constructive—although not without tough questioning. Much closer relationships were formed with organizations representing practitioners and small businesses. A consortium was forged with the software industry on the thorny issue of no-cost e-filing.

One of our basic strategies is to develop the kind of stakeholder relationships that can improve the efficiency and effectiveness of our services. Over the past few years, we developed a method of engaging stakeholders as part of our decision-making process. We call the new approach, "Engage and Then Decide" as contrasted with "Decide and Then Explain." Seriously engaging key stakeholders as a regular part of the decision-making process has shown that it improves the final product, shortens the time for decisions and implementation, and strengthens relationships.

Although we successfully used this engagement approach, and have much experience with the hazards and costs of the opposite approach, IRS top management must continue to work hard to ensure that it is employed in all decision-making processes because it is so different from traditional practice in the federal government.

Compliance

As the Board is well aware, we do not have the resources to attack every case of non-compliance. Therefore, we must apply our resources to where non-compliance is greatest while still maintaining adequate coverage in other areas. We must also use carefully, but effectively, the enforcement tools available to us.

After careful study, we identified some of the most serious and current compliance problem areas. These include: (1) promoters of tax schemes of all varieties, (2) the misuse of devices such as trusts and offshore accounts to hide or improperly reduce income, (3) abusive corporate tax shelters, (4) under-reporting of tax by higher-income individuals, and (5) accumulation and the failure to file and pay large amounts of employment taxes by some employers.

To address these problems, we revamped our compliance programs to refocus our resources and to use a full scope of tools and

techniques. They range from educating the public, to systematically identifying promoters and participants, to reinvigorating enforcement actions such as summons enforcement, injunctions and criminal investigation of promoters.

If we can eliminate confusion and errors before a return or form is ever filed, America's taxpayers will be spared countless numbers of notices and communications with the IRS. If we can warn taxpayers not to participate in "too good to be true" tax schemes, we can save taxpayers from penalties and more. Moreover, the agency will be in a better position to use its limited compliance resources on the most serious cases of non-compliance.

To achieve these purposes, we created dedicated taxpayer education and pre-filing organizations in our operating divisions, e.g., TEC and SPEC in SB/SE and W&I respectively, and pre-filing technical staffs in LMSB and TEGE. We also created new pre-filing tools, such as pre-filing agreements and industry issue resolution published guidance. We greatly stepped up our output of traditional forms of published guidance, including revenue rulings and notices, by increasing their emphasis in Chief Counsel and forging an effective working relationship with Treasury's Office of Tax Policy.

For example, this past year, both the TEC and SPEC organizations worked to raise public awareness about the slavery reparation schemes. Materials were distributed nationally and locally to African-American churches and religious coalitions, fraternities, sororities and associations, including the NAACP and the Urban League. As a result, the average weekly number of incoming slavery reparation claims declined from 1,538 in CY 2001 to 63 this year.

Although these preventive measures hold great promise, we must still detect, correct and deter non-compliance. We must focus resources, improve efficiency and use our enforcement powers appropriately, all of which we are doing.

As identified through our research and strategic planning, both SB/SE and LMSB are directing their examination resources at the most important cases and issues. Exam and collection reengineering are focused on improving the efficiency with which these cases are carried out. For example, SB/SE is tackling business tax cases, such as unpaid, in-trust taxes, including employment and withholding taxes, much earlier than in the past.

Within two years, our new Filing and Payment compliance modernization program will begin to reduce from several years to six months or less the time required to resolve most collection cases.

Other initiatives, first outlined in our Strategic Plan, are taking effect. Earlier this year, we began matching information reported on Schedule K-1 with income or losses reported on Form 1040 and other schedules. We also reinvigorated the use of long dormant enforcement tools that are needed to deal with serious cases of non-compliance, and especially, promoted tax schemes. For example, we are aggressively identifying promoters and schemes through summonses of records, including John Doe summonses on credit card accounts in offshore tax havens and vendor summonses to refine that data.

Multiple approaches were taken to aggressively attack the use of abusive tax shelters. The LMSB organization initiated 43 contacts of promoters to uncover lists of taxpayers participating in their shelters. In addition, a tax shelter disclosure initiative was launched earlier this year. As of August 1, 2002, the IRS processed 1,664 disclosures from 1,206 taxpayers who came forward. These dis-

closures cover 2,264 tax returns and involved more than \$30 billion in claimed losses or deductions. Moreover, we announced a new policy in June 2002 to request tax accrual work papers when we audit returns that claim a tax benefit from certain tax avoidance transactions that we identified as abusive.

Civil and Criminal Lead Development Centers (LDC) were also established to identify cases of abusive tax promoters. For example, the Civil LDC works leads received from within the IRS, or from external sources, and conducts Internet searches looking for abusive tax promoters and promotional materials.

Also, the Webster Report gave a detailed blueprint for making Criminal Investigation a more effective component of tax administration. The need to refocus CI's resources on tax cases was the centerpiece of this report. CI's top priority is now investigating promoters and participants in illegal tax schemes. We also established a closer working relationship between field counsel and the operating divisions on compliance work.

This new emphasis on action against promoters has already shown results. The numbers of actions related to promoters went from "none" to a vigorous program. As of July 8, 2002, we had nine promoter injunctions granted, 11 promoter injunctions pending in District Court and three pending at the Department of Justice, 150 promoter exams and information requests underway, and 51 ongoing criminal investigations (numbers are for FY 01 through 02).

Also, key to successfully executing our compliance program is better data. As I discussed, the IRS failed to detect new areas of non-compliance in part because of a reliance on increasingly obsolete data from the old Taxpayer Compliance Measurement Program. (TCMP was last conducted in 1988.) In addition, we designed and are now implementing a National Research Program that will obtain the essential information with far less burden on the taxpayer. New scoring models are being developed using 21st century techniques, with interim models already deployed.

Obviously, our success in compliance also depends on a cadre of highly qualified trained individuals to perform tasks that require a high level of judgment. After a freeze of nearly six years, recruitment for professional occupations, such as revenue agent and revenue officer, restarted; training was completely revamped and improved; and employee engagement became part of balanced measures and everyday management.

Internal management

The IRS successfully made the transition to a modern customer-focused organization in which a management team has clear responsibility for meeting the needs of a specific set of taxpayers. The service needs and compliance issues of the 90 million taxpayers with wage and investment income are vastly different from those of large and mid-sized businesses, which in turn are different from those of small businesses and tax-exempt organizations. One team now works full time to understand and meet the needs of each set of taxpayers and has nationwide authority to execute its plans, eliminating the historically deep and counterproductive organizational separation between the "field" and the "national office."

Supporting these operating divisions are specialized functional units and shared services organizations to provide information technology and common support services throughout the organization.

As part of the reorganization, the number of management layers was reduced and the role of executives and senior managers is being redirected towards substantive engage-

ment in tax administration, rather than predominantly administrative duties. A new model of executive recruitment was successfully established, which includes a recruitment of a limited number of highly experienced top executives from private industry and other government agencies to complement our internally-developed executives.

Many specialized programs, ranging from processing business returns to handling innocent spouse claims to answering tax law calls, are being consolidated into fewer locations with fewer management layers. This enables greater standardization and faster implementation of improvements.

An entirely new system of balanced measures has been designed and implemented, aligning goals throughout the organization down to the territory and site level.

The gains in service and the widespread redirection of compliance programs over the last two years reflect the benefits of a more customer-focused and accountable organization. The major benefits are still to come, in the form of continuous improvements in productivity and quality in every major program.

The improvements in customer service and other programs can also be linked to increased employee engagement in our mission and goals, increased and improved training and heightened focus on employee concerns. Among the most important of these concerns was the fair and careful administration of Section 1203—the so called ten deadly sins—so that no employee was wrongly disciplined under this section. In addition, legislative proposals were formulated and are under consideration by Congress to alleviate employee anxiety over Section 1203.

Because of these actions and focus, and according to a recent Gallup survey of IRS employees, the level of engagement within the Service increased from 49th to the 56th percentile of all public sector organizations tracked by the organization.

The IRS is also the steward of massive taxpayer revenue and budget and financial resources, and we are expected to properly account for the government's money and property. To this end, internal accounting standards were raised to a higher level. For the past two fiscal years, we received unqualified GAO opinions on our financial statements for both the Revenue and Administrative accounts. This year, we have plans in place to close the books months earlier than in prior years and to address remaining material weaknesses over the next two years.

As our FY 2003 and 2004 budget requests demonstrate, strategic planning, budgeting, resource allocation and performance goals were aligned. For the first time, we fully integrated development of our budget with the establishment of performance measures.

Technology and modernization

Critical to our success was better managing our massive technology and Business Systems Modernization program. From 15 separate information systems operations, we created one MITS organization that has the job of serving all of our operating units and managing our modernization program.

As part of this major transition, standards were established and largely implemented for hardware and software. We consolidated mainframes from 12 centers to three and established one standard for desktop and laptop hardware and software. We implemented a nationwide e-mail and voice messaging systems, standard office automation software, and security certifications and standards. We deployed important interim applications systems, including Intelligent Call Routing, Integrated Case Processing and the Integrated Collection System.

Business Systems Modernization laid the foundation for success of this massive program. Both the long-term vision and enterprise architecture were established and embedded as a living blueprint for all business and technology improvement programs.

BSM began delivering projects with tangible and meaningful benefits to taxpayers, such as moving the first set of taxpayers to a modern, reliable database early next year. Over the next five years, all individual taxpayers will be moved to it, cutting times for refunds on e-filed returns to less than a week and allowing us to provide taxpayer and employees with up-to-the-minute accuracy on their accounts. Of paramount importance, we implemented the first project on our new security system, which provides one standard for ensuring the security of all future IRS data and systems.

All major management processes, which are needed to manage this program on a continuing basis, were improved. Our goal is to obtain certification in the near future as only the second agency in the federal government to reach Level Two in the Software Engineering Institutions Capability Maturity Model.

STEADY PROGRESS CAN CONTINUE YEAR AFTER YEAR

The aforementioned progress and achievements do not mean that the IRS solved all of its problems, or that there are no more opportunities to improve. Rather, it means that the IRS addressed the major impediments and obstacles that previously stood in the way of progress and has a clear committed plan to continually reach even higher levels of performance. There should be no doubt that the IRS can be raised to a level of quality and efficiency comparable to the best managed financial services organizations.

WINNING THE BATTLE BUT LOSING THE WAR

Despite significant improvements in the management of the IRS, the health of the federal tax administration system is on a serious long-term downtrend. This is systematically undermining one of the most important foundations of the American economy.

The source of this problem is two conflicting long-term trends: one, ever increasing demands on the tax administration system due to rapid growth in the size and complexity of the economy; and two, a steady decline in IRS resources due to budget constraints. The cumulative effect of these conflicting trends over a 10-year period has been to create a huge gap between the number of taxpayers who are not filing, not reporting or not paying what they owe, and the IRS' capacity to require them to comply.

As seen in the next chart, "Trends in Indicators of IRS Workload and Resources," from 1992 to 2001, weighted average returns filed, a measure of overall IRS workload, increased by 16 percent because of the economy's growth. However, during this same period, FTEs dropped 16 percent from 115,205 in FY 1992 to 95,511 in FY 2001. Since more and more of the IRS' declining resources are required to perform essential operational functions—such as processing returns, issuing refunds and answering taxpayer mail—a disproportionate reduction occurred in Field Compliance personnel, falling 28 percent from 29,730 in FY 1992 to 21,421 in FY 2002.

In assessing these trends, it is extremely important to recognize a critical fact: tax administration workload increases every year because of increased filings by taxpayers related to the long-term growth of the economy. These workload increases affect every facet of tax administration, from processing returns to answering correspondence to collecting delinquent returns to accounting for payments and refunds. In addition to this growth related to the economy, tax legislation often adds additional workload.

Looking more closely at the most recent five years (see chart), we see that the number of income tax returns increased by 12 million, while 19 tax bills were passed that changed 292 tax code sections and required 515 changes to forms and instructions. On the average, IRS workload grows at a compounded rate of 1.8 percent per year. Therefore, just to handle this increased workload, the IRS would either have to add staff—which is what occurred fairly consistently for the 45-year period from 1950 through 1995—or would have to increase productivity by 1.8 percent per year just to stay even.

FEDERAL TAX SYSTEM HAS BEEN GROWING AND CHANGING RAPIDLY FROM 1997 THROUGH 2002

Volume of activity has been growing rapidly

Income Tax Returns: 12 Million Increase—9.4%.

IRS Gross Collections: \$527 Billion Increase—32.5%.

IRS Refunds Issued: \$121 Billion Increase—61.3%.

Tax Code has been changing rapidly

19 Public Laws passed.

293 Tax Code provisions changed.

171 (58%) of provisions with concurrent or retroactive effective dates.

515 completed changes to forms and/or instructions.

Restructuring and Reform Act added many taxpayer rights

71 taxpayer rights.

1,900 implementing actions.

Hundreds of thousands of new transactions per year.

Innocent spouse.

Collection due process.

Offers in compromise.

Third party notification.

Section 1203 allegations.

Special events created additional activity and change

Century date change required massive three year project.

Advance rate reduction credit—126 million notices, 91 million taxpayers, \$39 billion.

Returns of political organizations (section 527)—new reporting to IRS.

September 11th terrorist attack—victims relief, IRS security response, money laundering task forces.

Anthrax threat—rapid response required prior to 2002 Filing Season.

Globalization is increasing international tax activity

U.S. controlled foreign corporations up 25%.

Foreign controlled corporations up 31%.

Resources have been shrinking

IRS full-time equivalent personnel: -2,952.

This is no different from a car company producing 1.8 percent more cars or a hospital servicing 1.8 percent more patients. But, rather than increasing staff, IRS staff decreased during this period, creating a major gap in IRS capacity to administer the tax system.

In addition to growth in raw numbers, the tax revenue stream is now dominated by sources that provide greater opportunities for manipulation by those who wish to take advantage of the decline in IRS compliance resources. For example, returns for taxpayers with incomes exceeding \$100,000 grew by 342 percent over 1991 levels. The enormous amounts of money that flow through "passthrough" entities—such as partnerships, trusts and S-corporations—also adds to the complexity of tax administration and increases the opportunities for under-reporting of income. In Tax Year 2000, these "passthrough" entities filed 4.78 million returns with gross revenue of \$6 trillion and income to partners/shareholders of more than \$660 billion.

The IRS Restructuring and Reform Act of 1998 added major new or expanded taxpayer rights programs, such as innocent spouse relief, third party notification and collection due process. The rights are very important to taxpayers but created very substantial additional resource demands on the IRS to process hundreds of thousands of new transactions and additional steps in existing audits and collection actions.

Business globalization creates another administration complexity and more opportunities for reducing U.S.-reported income. From 1997-2002, U.S.-controlled foreign corporations and foreign-controlled corporations grew respectively by 25 and 31 percent.

Looking at this imbalance, one fact emerges. The IRS is simply out-numbered when it comes to dealing with the compliance risks. As noted, IRS employment (FTEs), and in particular, Field Compliance FTE steadily declined. With the decline in personnel came a decline in the coverage of all types of returns (see chart). Even after we refocus on the most egregious non-compliance cases, we can only handle a small fraction of them.

COVERAGE OF ALL TYPES PLUMMETED 60-70%

The effect of these trends was to create a gap in what work the IRS should be doing and what it had the capacity to do. In the last two years, the IRS made progress in quantifying this gap, which is summarized below. As noted, the majority of the workload gap is in compliance.

For each category of compliance, the IRS computed the number of known cases of taxpayers who did not file or pay, or who substantially underreported their taxes. These numbers, therefore, represent not general estimates or assumptions, but specific taxpayer cases. Based on the information available to the IRS, they should and could be treated as cases of non-compliance through collection, audit or other actions.

However, as can be seen from the chart, only a fraction of each category of case, even the most serious, can be worked with available resources. The "gap" represents the number of cases that should be, but cannot be worked because of resource limitations. These cases represent tens of billions of dollars per year that could be, but are not collected. More importantly, they represent a failure of fairness to the millions of honest taxpayers whose commitment to paying their taxes is based on the assumption that the IRS will act if they or their neighbors do not pay their fair share.

Tax professionals, promoters, sophisticated taxpayers and even some ordinary taxpayers are becoming more aware of our deteriorating ability to deal with compliance. Increasingly, this issue is being reported by publications ranging from The Wall Street Journal, the New York Times, Fortune and Forbes, and even on national television.

Recognizing the IRS' diminished capacity, promoters and some tax professionals are selling a wide range of schemes and devices to taxpayers based on the simple premise they can probably get away with it. When this perception becomes increasingly widespread, the essential pillar of the fairness of our tax system is lost.

Our John Doe summonses of records for credit cards issued by offshore banks in tax haven countries revealed one facet of the problem. Just one of these summons, issued in 2000 to MasterCard, yielded a large database of transactions by those using cards issued by banks in Antigua, Barbuda, the Bahamas and the Cayman Islands. Many of

these taxpayers were solicited through various channels by a variety of promoters.

Indeed, some sophisticated tax professionals, including those in accounting and law firms and investment banks, are aggressively marketing tax shelters to their clients. Some of these turn out to be abusive tax avoidance transactions prohibited by the Treasury Department.

Demand is also driving up supply. There is widespread anecdotal evidence from honest practitioners about clients demanding that their return preparer find a way to reduce reported income, to the point of refusing advice from honest professionals to comply with required reporting and disclosure. In effect, they are saying, "Get me one of these deals or I will take my business elsewhere." This has reached the point where recently a former IRS Commissioner was faxed a solicitation from a "Senior Investment Manager" that began, "As we approach December 31st, you may have a large income tax liability for the year 2002. The amount you pay could be up to you."

Although it is impossible to prove conclusively that attitudes towards tax compliance shifted, we must make informed judgments about behavior and trends. The only responsible conclusion I can draw is that the trend in attitudes of taxpayers and tax professionals poses a real threat to the health of the tax system and ultimately to the American economy.

If these problems and conditions are left unaddressed, we could face an enormous crisis in confidence in the tax administration system. It would not be surprising if this problem emerged into the forefront of public concern, causing an eruption about the IRS similar to those that occurred periodically over the last 50 years. The long-term impact on the economy and our nation of not reversing this trend will be extremely high.

WHAT IS NEEDED

What is the answer? Fortunately, the problem is not open-ended and can be solved with a reasonable amount of resources. We need

what the National Commission on Restructuring the IRS argued for five years ago: a steady and consistent budget. It must consist of two items over the next five years. The first is a steady growth in staff in the range of 2 percent per year. The second is steadily increased funding for modernization until this program levels off several years from now.

Together with aggressive increases in productivity, as called for by the IRS Strategic Plan, this combination can solve the problem by the end of this decade. In fact, as shown in the "Closing the Gap" chart below, a combination of 2 percent per year staff growth with 3 percent per year productivity growth will keep up with increasing demand and close the gap by 2010. But without both elements—modest but steady staff growth and aggressive productivity increases—the trend will not be reversed.

Computer systems alone, even with the most aggressive reasonable assumptions about the productivity gains from modernization, cannot solve the problem. Trained and effective staff is also required. However, modernization will allow the IRS to perform the tax administration function with proportionately fewer staff than in the past. If the IRS staff grew by 2 percent per year through 2010, the total staff would still be smaller than it was 20 years earlier (1990), while the economy is projected to be 86 percent larger in real GDP and the tax system far more complex.

There is another critical point. Sufficient funding must be provided to fund the actual projected staffing. There is no "extra" funding lying around to "absorb" items that are mandated, but not paid for. As shown below, the IRS dollar budget consistently underfunded advertised staffing levels. The actual number of FTEs is lower every year than proposed in the budget. This is the effect of making unrealistically optimistic assumptions about such items as pay raises, inflation and other mandates, including specific mailing and notification requirements.

IRS DOLLAR BUDGET HAS CONSISTENTLY UNDER-FUNDED ADVERTISED STAFFING LEVEL

[Full Time Equivalent (FTE) Personnel without EITC]

	FY 2000	FY 2001	FY 2002	FY 2003	FY 2004
FY 2000 President's Budget	96,767				
FY 2001 President's Budget	95,523	98,051	*99,873		
FY 2002 President's Budget	95,155	97,273	99,116		
FY 2003 President's Budget		95,511	97,548	98,727	
FY 2004 Treasury Submission			97,423	96,182	98,182

* Includes 1,822 FTE for STABLE Annualization.

Our plan already requires very rapid and sustained productivity growth of over 3 percent per year—in excess of the 2 to 2.4 percent achieved in the private sector. It supposes complete success of BSM, aggressive reallocation of internal resources, such as eliminating some submissions processing centers, rapid growth of e-filing, and use of productivity enhancing techniques, such as competitive sourcing for some activities. These items make it possible to cope with growth in filings and filling the gap in required workload with very limited staff growth, but do not make it possible in addition to “absorb” unfunded but required line items.

SIMPLIFYING THE TAX CODE

Most informed observers are justifiably horrified at the complexity of the Tax Code. The cost of taxpayer compliance with this code is over \$80 billion per year, more than eight times the cost of the IRS budget. The sheer size and complexity in itself can be a source of disrespect for the law. Therefore, it is a worthy, though difficult and uncertain, challenge to pursue simplification to the maximum extent possible.

However, there is no proposal that has been seriously advanced for simplification that would have any significant effect in the foreseeable future on the problem of IRS resources.

Apart from the fact that even simplifying changes take time and effort to develop, pass in Congress and to implement, the reality is that the gap in IRS resources is so large that nearly all of our resources are required to perform the basic operations of the tax system and to pursue the clearest and most important cases of non-compliance.

With the exception of some resources in the large corporate sector, the IRS redirected nearly all compliance resources away from less significant technical tax issues to cope with current operational requirements and the most serious cases of non-filing, non-payment or underreporting of income. Even then, resources are far below what is required.

The only reasonable course is to pursue parallel paths: to address the practical problem the tax administration system faces by gradually closing the gap in the capacity of the IRS to perform its essential tasks, while pursuing a parallel path attempting tax simplification.

CONCLUSION

Five years ago, the IRS embarked on a new direction. Following it, we achieved much progress for America's taxpayers, although we have much more left to do to improve the entire way the IRS works. Today, we are faced with a growing crisis—in our ability to do our job and the fairness of our tax system. We cannot turn our back on this crisis or believe that it will go away, because it will not. But like five years ago, I believe the problem is solvable. We know the right course of action and we should have the courage and resolve to take it.

ADDITIONAL STATEMENTS

TRIBUTE TO GUIDE DOGS

• Mrs. CLINTON. Madam President, after reading an article in The Saturday Evening Post about the Germans training dogs to aid veterans blinded during World War I, a blind man living in Tennessee named Morris Frank wrote to the author, “Thousands of blind like me abhor being dependent on others. Help me and I will help them.

Train me and I will bring back my dog and show people here how a blind man can be absolutely on his own.” The author, Dorothy Harrison Eustis agreed to Mr. Frank's request, and Mr. Frank's dog Buddy became the first guide dog in America.

That was 1929 and today, there are more than 7,000 guide dogs serving in America, and two performed miracles in New York on September 11.

That morning, Roselle, a yellow Labrador Retriever and her owner, Michael Hingson, went to the office on the 78th floor of the World Trade Center. While Mr. Hingson worked, Roselle slept underneath his desk. Then the plane hit the South Tower, and what she did next was nothing short of heroic. She guided Mr. Hingson through the smoke and to the stairwell. Not only did Roselle help Mr. Hingson down 78 flights of stairs, but another woman who had been blinded by debris clutched Roselle's harness until they reached safety.

There was another yellow lab in the World Trade Center named Salty. His owner, Omar Rivera, worked on the 71st floor of the Port Authority. After the planes hit, Salty refused to leave Omar's side and walked through the smoke-filled stairway, broken glass and debris to get Mr. Rivera and a co-worker to safety. Even as the North Tower collapsed and the debris cloud filled the streets, Salty remained calm, loyal, and focused on guiding Mr. Rivera to a place free from danger.

These two guide dogs performed their jobs under the most extreme circumstances. But what they did that day reinforced what guide dogs do every day—they provide independence to individuals who are blind and visually impaired so that they can live their life free from constraints. To serve as another's set of eyes, to navigate busy city streets, and to keep their owners from harm's way is a responsibility that only a loyal dog would welcome with no questions asked.

Throughout the United States and around the world, Guide Dog Schools have given more than one hundred thousand people the chance to move about the world with freedom and dignity. Each school offers their guide dogs at no cost to the owners. All they have to do is apply, attend training, and promise to care for their dog for the rest of his or her life. The success of each school is dependent upon thousands of staff, volunteers, and generous supporters. Many people volunteer to raise puppies, socialize them and then give them up at the end of the year. And we see these dogs every day sitting patiently on the subway, stopping at walk lights, and maneuvering people around hazards that prevent a safe, straight path. They wear bright colored vests that read “Guide Dog in Training.”

Not only did Morris Frank bring the first guide dog to America, he opened the first school in 1929, The Seeing Eye.

Now in every State, guide dog schools provide an invaluable service. In California, The Guide Dog School just celebrated its 60th Anniversary, and in New York, The Guide Dog Foundation in Smithtown, has assisted New Yorkers and others from around the world since 1946. And Guiding Eyes for the Blind in Yorktown Heights has graduated more than 5,000 dogs and owners since 1954.

Each success story is testament that one good idea can transform the lives of many. But the success of the guide dog schools would not have occurred without two key components: those who believed that the blind and visually impaired could lead more independent lives with the right kind of help, and the dogs, the Labrador Retrievers, the Golden Retrievers, the German Shepherds, and other breeds that are ready, willing, and able to guide their owners through the world.

Every day, thousands of people grab on to the harness and place their trust in their companion. Some have acted with remarkable heroism like those on September 11, and we have all heard the stories about guide dogs waking their owners in the event of a fire and blocking them from the path of a speeding car. But most go through their days with quiet dignity and they deserve our utmost respect. Whether they are named Roselle or Salty or Buddy, they all respond in the same way. That harness goes on, their eyes open, and they show us that it is possible to walk through this world with a profound desire to help another so that life is limitless.●

RECOGNIZING MOTT CHILDREN'S HEALTH CENTER

• Mr. LEVIN. Madam President, I wish to express my heartfelt congratulations to the Mott Children's Health Center (MCHC), in Flint, MI, which has been selected by the American Lung Association of Michigan-Genesee Valley Region as the 2002 Corporate Health Advocate of the Year.

The American Health and Lung Association of Michigan-Genesee Valley Region grants this prestigious award to an organization that aspires to restrict or ban smoking, offers employee programs for smoking cessation, or exhibits respect and sensitivity to those suffering with lung disease. Winners must demonstrate financial support to local non-profit agencies as well as encourage employees to sit on local boards of directors for community based non-profit organizations. Recipients also need to display a commitment to improving the quality of life of Genesee Valley's residents. MCHC has not only met but far surpassed the American Health and Lung Association's criteria and is a worthy recipient of this award.

Founded in 1939 by Charles Stuart Mott, MCHC's mission is to better the lives of Genesee County's at-risk youth through health services and community advocacy. As a health service provider, MCHC offers the Genesee County

community both emotional and physical pediatric health services, educates families on health-related issues, and supports local schools and neighborhoods with on-site health care. In order to inform community decision makers on issues related to Genesee County's children's health needs, MCHC sponsors events on matters affecting children's health, supports various state and local children's advocacy organizations, and develops educational materials on children's issues. In its 63-year history, MCHC has expanded to become a principal in child health advocacy in the Genesee Valley community and throughout Michigan.

MCHC is a recognized leader in the battle against childhood asthma, an illness that affects 15 percent of Genesee County's children. As part of the Childhood Asthma Task Force, (CATF), MCHC provides staff and other resources, including a home to CATF's three Mini Asthma Resource Centers. MCHC nurses, who dedicate themselves to educating families about asthma and available treatments, staff these CATF centers. Additionally, in its continuing effort to highlight children's respiratory health issues, last year MCHC sponsored the 29th Annual Tuuri Day Conference, which addressed topics such as "New Approached to Pediatric Asthma" and "Smoking Among Children and Families."

MCHC has a long and impressive history of advocacy for the children of Genesee Valley. I know my colleagues join me in congratulating Mott Children's Health Center for being named the 2002 Corporate Health Advocate of the Year and wishing them continued success.●

RECOGNIZING GLORIA R. BOURDON

● Mr. LEVIN. Madam President, I wish to express my sincerest congratulations to Gloria R. Bourdon of Michigan who has recently been recognized by the American Lung Association of Michigan-Genesee Valley Region as the 2002 Individual Health Advocate of the Year.

The American Lung Association of Michigan-Genesee Valley Region awards this honor to an individual who has served as board member on a health association or participated in a health related activity for at least 5 years. Recipients must contribute to the community's health, education, and general well-being. The individual must have been involved in promoting health care research, contributing to articles on health care, and involved in lung health care advocacy. Gloria Bourdon has not only met these criteria but has far exceeded them; for this she is a worthy recipient of this prestigious award.

Gloria Bourdon's promotion of children's health issues began in 1970 as a teacher in Pinconning and Linden Areas Schools, where she taught students to lead healthy lifestyles. As the Director of Health, Safety and Nutri-

tion Services for the Genesee Intermediate School District, Gloria is now responsible for the health and safety of the children in 55 public schools, public academies, and private schools. She is also an active member of the community. She supports many coalitions including Priority Children, Childhood Asthma Task Force, and the Genesee County Curriculum Council. Her outstanding work and dedication have been recognized by various organizations. Most recently, Gloria received the Genesee County Child Advocacy Award, the Michigan Association of School Board's Health and Safety Award, and the Rainmaker Award from HealthPlus.

Gloria's dedication to children's health is evident in her writing and fundraising efforts. In 1998, she authored a Health Action Team Manual for Substance Abuse Education, Physical Activity, Nutrition Education, and Safe and Drug Free School Zones. She has assisted the American Lung Association in efforts regarding asthma, tobacco and air-quality awareness. Gloria also encourages her nursing and teaching staff to support the Association's goals.

I join the American Lung Association of Michigan-Genesee Valley Region in congratulating Gloria on her great accomplishments in promoting the health and safety of the children in Genesee County and surrounding areas. I know that my colleagues in the Senate will support me in thanking Gloria Bourdon for her efforts and wishing her well in her future endeavors.●

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. REED (for himself and Mr. DEWINE):

S. 3158. A bill to establish a grant program to provide comprehensive eye examinations to children, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. REED. Mr. President, I rise today to introduce the "Children's Vision Improvement and Learning Readiness Act." I am pleased to be joined by my colleague from Ohio, Senator DEWINE, in this effort. Vision disorders are the fourth most common disability in the United States and the most prevalent handicapping condition among children. This is a startling fact when one considers that eighty percent of what children learn is acquired through vision processing information and the quality of children's eye health has a direct impact on their learning and achievement.

It is estimated that almost ten percent of children have clinically significant vision impairment, which are associated with developmental delays and the need for special education, vocational, and social services. Specifically, studies have found that among the twenty percent of school age children who have a learning disability in

reading, seventy percent have some form of visual impairment, such as ocular motor, perceptual or binocular dysfunction, that could interfere with their reading skills. The "Children's Vision Improvement and Learning Readiness Act" recognizes the importance of diagnosing vision disorders in children at an early age so as to allow intervention at a time when these disorders are highly responsive to treatment.

Unfortunately, too many children in school today live with an undiagnosed vision impairment and too many times these same children have not had a comprehensive eye examination prior to entering school. In fact, only one-third of all children have had an eye examination or vision screening prior to entering school despite evidence that the earlier a vision problem is diagnosed and corrected, the less the potential negative impact it may have on a child's development.

In addition, undiagnosed visual problems impose economic costs on our Nation. In 1995, the economic impact of visual disorders and disabilities was approximately \$38.4 billion. Yet, early, comprehensive eye exams in children can help reduce the economic and social costs associated with undiagnosed eye disorders. Providing comprehensive eye examinations to children before they enter school helps to decrease long-term medical expenditures, prevent inappropriate placement of children in special education programs, and avoid social welfare spending by improving children's ability to learn and achieve a greater degree of educational and economic attainment.

The "Children's Vision Improvement and Learning Readiness Act" gives the Secretary of Health and Human Services the authority to provide grants to States for a variety of educational and outreach activities related to improving and safeguarding the eye health and academic success of our nation's children. Grants may be used for the development of a voluntary statewide school-based comprehensive eye examination program for elementary school age children; the development of State-based education programs to increase public awareness of the benefits of comprehensive eye examinations; and the flexibility of providing comprehensive eye examinations through other related federal programs, such as Head Start, the Individuals with Disabilities Education Act, the Child Care Block Grant, and the Consolidated Health Centers programs.

This important measure will help ensure that our nation's children have access to comprehensive eye examinations from qualified health professionals so they can start school prepared for a lifetime of learning and achievement. I urge my colleagues to join me and Senator DEWINE in supporting this legislation that will help to boost the well-being and academic achievement of our nation's school children.

By Mr. FEINGOLD (for himself, Mr. KENNEDY, and Mr. JEFFORDS):

S. 3161. A bill to provide a definition of a prevailing party for Federal fee-shifting statutes; to the Committee on the Judiciary.

Mr. FEINGOLD. Madam President, I am pleased today to introduce the Settlement Encouragement and Fairness Act of 2002. This bill provides that when plaintiffs bring a lawsuit that acts as a catalyst for a change in position by the opposing party, they will be considered the "prevailing party" for purposes of recovering attorneys' fees under Federal law. The bill will help ensure that people who are the victims of civil rights, environmental, and worker rights' abuses can obtain legal representation to enforce their rights.

Over the course of our history, Congress has often enacted laws encouraging private litigants to implement public policy through our court system. An integral part of many such laws are provisions that help individuals obtain adequate legal representation by providing that the defendants will pay the plaintiffs' attorneys' fees in cases where the plaintiff prevails. In laws involving public accommodations, housing, labor, disabilities, age discrimination, violence against women, voting rights, pollution, and other areas, Congress has acted over and over again to empower private litigants in their pursuit of justice. Currently, there are over two hundred statutory fee-shifting provisions that allow for some sort of payment of attorneys' fees to a prevailing plaintiff.

Until last year, in interpreting these fee-shifting statutes in cases where a settlement was reached before trial, nine circuit courts of appeals embraced the "catalyst theory" to determine whether attorneys' fees could be obtained. The catalyst theory required the payment of fees where the lawsuit caused a change in the position or conduct of the defendant. Only one circuit court, the Fourth Circuit, applied a more narrow definition of prevailing party, requiring a judgment or a court approved settlement in order for a plaintiff to obtain attorneys' fees.

In *Buckhannon Board of Care & Home Inc. v. West Virginia Department of Health and Human Services*, 2001, a case arising out of the Fourth Circuit, the U.S. Supreme Court ruled, in a 5-4 decision, that plaintiffs may recover attorneys' fees from defendants only if they have been awarded relief by a court, not if they prevailed through a voluntary change in the defendant's behavior or a private settlement. The *Buckhannon* ruling eliminated the catalyst theory for all fee shifting statutes in Federal law.

The bill I introduce today restores the catalyst theory that the vast majority of courts had approved prior to the *Buckhannon* decision as a basis for seeking attorneys fees under Federal fee shifting statutes. It provides a new definition of "prevailing party" for all

such statutes to encompass the common situation where defendants alter their conduct after a lawsuit has commenced but without waiting for a court order requiring them to do so. This critical change in the definition of "prevailing party" will allow attorneys representing clients who cannot otherwise afford to hire a lawyer to recover their costs and to be paid a reasonable rate for their work.

The *Buckhannon* case itself illustrates the need for this legislation. *Buckhannon Board and Care Home* in West Virginia, an operator of assisted living residences, failed a state inspection because some residents were incapable of "self-preservation" as defined by State law. After receiving orders to close its facilities, *Buckhannon* sued the State seeking declaratory and injunctive relief that the "self-preservation" requirement violated the Fair Housing Amendments Act and the Americans with Disabilities Act. While the lawsuit was pending but before the court ruled, the state legislature eliminated the "self-preservation" requirement.

Imagine how the plaintiffs felt when they learned that their lawsuit had forced a change in the law not only for their own case but also for all of the other individuals who had been subject to the improper self-preservation doctrine. If ever there was a complete and total victory caused by litigation, this was it. But, as Casey Stengel once said, "It ain't over 'till it's over." Once the State legislature changed the law, the District Court granted defendant's motion to dismiss the case as moot and denied *Buckhannon's* request for attorneys' fees. The court ruled that the legislative action did not amount to a judicially required change in position that would permit *Buckhannon* to be considered a "prevailing party" in the case. On appeal, the Court of Appeals for the Fourth Circuit and then the U.S. Supreme Court denied attorneys' fees for the plaintiffs, ruling that because the change in the defendants' conduct was voluntary rather than ordered by the court, *Buckhannon* was not a prevailing party.

I believe the narrow definition of "prevailing party" endorsed by the *Buckhannon* decision will result in many injustices going unchallenged. Indeed, in calculating whether to take a case, an attorney for a plaintiff will have to consider not only the chances of losing, but the chances of winning too easily. If businesses or individuals are able to engage in egregious conduct, refuse to change their behavior without a lawsuit being filed against them, and then avoid paying attorneys' fees by changing their conduct on the eve of trial, the effect will be that some lawyers will decide that they cannot afford to take a case even if the claims are very strong.

Imagine a case involving a legitimate claim of housing discrimination where, after many months, perhaps even years of work, as the attorney for the plain-

tiff prepares into the evening for opening statements, the attorney learns that the defendant has admitted its wrongful conduct and offered substantial compensation and a promise to change its practices. This offer came about only because of the spotlight the lawsuit put on the defendant and the possibility of a large jury verdict. This would be a complete victory for the plaintiff, but under *Buckhannon*, the attorney who labored for years to bring about this result may not be paid. Later, if the same defendant returns to discriminatory practices, the next plaintiff might very well not be able to find competent counsel who will take the case.

Ironically, the failure to correct the *Buckhannon* decision could lead to plaintiffs' attorneys dragging out law suits out far beyond a point in time where the parties could reach a fair settlement, in order to insure that they meet the *Buckhannon* definition of "prevailing party." This will increase the costs of litigation and discourage settlement. Simply put, *Buckhannon* creates unnatural tensions between attorneys and clients and may even push attorneys to not act in the best interest of their clients.

Certainly we can do better. Congress has passed important laws to protect the public in the work place and in our communities; we must ensure that these laws can be enforced, when necessary, in court. The Settlement Encouragement and Fairness Act of 2002 will help insure that all our citizens have the ability to meaningfully challenge injustice.

By Mr. DURBIN (for himself, Mr. NELSON of Florida, Mr. CLELAND, and Mr. EDWARDS):

S. 3162. A bill to amend title 49, United States Code, to enhance the security of transporting high-level nuclear waste and spend nuclear fuel, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. DURBIN. Mr. President, I rise today to introduce legislation to improve the safety of nuclear waste transportation across our Nation. This bill, the Nuclear Waste Transportation Security Act of 2002, seeks to address the concerns raised by the Congress' decision earlier this year to transport spent nuclear fuel to Yucca Mountain, NV, for underground storage. Joining me in its introduction are Senators CLELAND, EDWARDS, and NELSON.

I voted in favor of moving nuclear waste to Yucca Mountain. My decision was not a simple one; rather its ramifications required serious consideration. At that time, I predicated my 'yes' vote on the waste being transported safely and securely through my home State of Illinois and across our Nation, and I indicated that I would introduce legislation to improve that safety and security. This is that legislation.

The Nuclear Waste Transportation Security Act directs the Secretary of

Transportation to establish a comprehensive transportation safety program that considers terrorist threats and other potential dangers to the safe transportation of this spent fuel. The Department of Transportation, the regulator of these shipments, will consult with numerous cabinet and sub-cabinet offices, including the soon to be created Department of Homeland Security, to develop this program. After one year, the Secretary will deliver a progress report to Congress on the program's development and implementation.

To better assist State, local, and tribal governments in implementing this program, our bill establishes a grant program at DOT related to the transportation of nuclear spent fuel. First responders will be eligible for these grants, which will emphasize frequently used routes. The grants will be used for infrastructure improvements, drills and training, and other activities as determined by the Secretary. DOE and the Federal Radiological Preparedness Coordinating Committee, FRPCC, of FEMA will consult on the grant program. For this purpose, the bill authorizes \$3,000,000 for fiscal year 2003 and additional funds as necessary for fiscal years 2004 through 2012.

A key component of spent nuclear fuel transportation is ensuring the safety and security of routes nationwide. Much of this fuel is likely to be transported through my own State of Illinois, right through the center of Chicago and Springfield, our State capitol. I want to be certain that its transport does not endanger my constituents in any way. The Department of Energy ranks Illinois seventh in truck shipments under what is called the "mostly truck scenario," and sixth in rail shipments in the "mostly rail scenario." Nearly half of Illinois' electricity is generated from nuclear power. With seven nuclear power plants and two nuclear research reactors Illinois produces more nuclear waste than any other State and is home to some of the busiest transportation corridors in the Nation. The safety of Illinoisans is at stake. These stakes are too high for us to gamble. Safety must be a top priority.

To ensure this safety, my bill requires that the DOT consult with State governments in establishing routes and provide 14-days' notice to governors of shipments through their States. The bill requires dedicated trains for the waste with trained guards stationed at the front and rear ends of each train. The bill provides the Secretary of Transportation and the Director of Homeland Security with waiver authority for national or homeland security. Under my legislation, trains must be equipped with communication systems providing continuous access to first responders and must be equipped with the best available technology, including appropriate health monitoring systems. Finally, to ensure the safe transportation of passengers and ship-

pers on our nation's waterways, nuclear waste shipments may not be made via the inland waterways or on the Great Lakes unless waived for national or homeland security purposes. This is critical to adequately protect these important natural resources.

Once the infrastructure is established and the routing determined, employees must be certified to handle any such emergencies that may result from this transportation and to mitigate their impact on local populations. My bill amends certification requirements for hazmat employees, requiring that certification be renewed every three years. Currently, this certification, without renewals, is required by regulation but not codified in statute.

The bill directs hazmat employers to submit training programs to DOT for review and approval and expands the definition of covered employees to include those who may be among the first responders to an accident but who do not receive training under current regulations. To provide funding for this additional training, the bill reauthorizes the training grant program for hazmat instructors who train hazmat employees, and enables it to cover hazmat employee training as well. Appropriations are authorized at \$3,000,000 for fiscal year 2003 and for such sums as necessary for fiscal years 2004-2012.

The maximum civil penalties for violating hazmat laws regarding radioactive materials are increased from \$25,000 to \$100,000.

As a means of involving the public in these decisions affecting safety and security, the bill establishes a public outreach program to protect public health and safety. The program will be developed by FEMA in coordination with other agencies. In addition, the bill requires the EPA and the Centers for Disease Control and Prevention to conduct a study and report to Congress regarding the effects on public health of routine transportation of nuclear waste and accidents involving its transportation. The report is due one year after the date of enactment.

Especially important to my legislation is the establishment of requirements for casks. Also known as packages, these casks contain the spent nuclear fuel that is being shipped. The bill requires the Nuclear Regulatory Commission, which has authority over the casks, to execute a comprehensive testing program in conjunction with DOT and DHS, and requires them to conduct a survey of potential terrorist and other threats that may be posed to casks. The NRC and DOT must jointly certify the safety of the casks, which must be designed to handle head-on collisions at any speed at which they will be transported, attempted puncture by armor-piercing ammunition, falls of the maximum distance to which the package could fall on likely routes, submersion in water to the maximum depth to which the package could be submerged, continuous exposure to the maximum temperature to

which the package is likely to be subjected in an event involving fire, and other threats that may be identified. The agencies involved in this effort must report to Congress every two years on these activities.

Finally, the bill amends current statute to exclude DOT and NRC contractors from participating on the Nuclear Waste Technical Review Board and enables the Board to review the activities of the DOT and NRC and to obtain documents from them as part of its existing investigative powers. This provision will prevent any conflicts of interest between the reviewers and implementers of this law. The Board's termination date is extended from one year after nuclear waste begins to be deposited at a national repository to 10 years after such waste begins to be deposited.

I believe that our legislation alleviates many of the concerns of shippers, hazmat employees, the federal government, and affected citizens regarding the transportation of nuclear spent fuel across our Nation. In the course of its development, we consulted with shippers, railroads, labor unions, the nuclear industry, federal regulators, the environmental community, and our colleagues in the Senate. The bill seeks to address the real threats we face and to take economic and safety concerns into account, with the primary goal of increasing the safety and security of these materials during their transportation to Yucca Mountain. I appreciate the assistance that these groups have provided. I remain open to their further input and look forward to working with them to enact this critical legislation.

Mr. NELSON. Mr. President, I am pleased to join my colleagues, Senator DURBIN, Senator EDWARDS and Senator CLELAND in introducing the Nuclear Waste Transportation Security Act.

Ensuring the safe and secure transportation of our high-level nuclear waste across this country is of paramount importance. The greatest concern I had voting for the Yucca Mountain Resolution was the safe transportation of our waste to Yucca.

This piece of legislation is the first step in what I see as Congress' ongoing duty to oversee and evaluate our Nation's transport of nuclear waste.

Specifically, this bill directs the Department of Transportation to develop and carry out a comprehensive safety program that considers, among other things, terrorist threats.

State and Federal cooperation is required. States must be consulted by DOT in making routing decisions and notified when shipments are traveling through their State.

Dedicated trains, armed escorts and state of the art communication systems must be employed.

Full-scale testing of casks to withstand the maximum temperature, water depth and piercing likely to be encountered must also be carried out.

The EPA and CDC must conduct a study and report to Congress on the effects, if any, on public health of routine transportation of nuclear waste and accidents involving the transportation of nuclear waste.

And, the Federal Emergency Management Agency must administer a public outreach program on nuclear waste to educate the public on appropriate means of responding to an accident or attack involving high-level nuclear waste.

Employing the expertise of the DOT, NRC, FEMA, EPA and CDC to protect the American people from any potential danger posed by nuclear waste transport is the aim and goal of this legislation and I hope my colleagues will support it.

The first shipments of nuclear waste to Yucca Mountain will not take place until 2010. We need to use the time between now and then to ensure that the transportation system that will carry this waste is as safe as it can possibly be.

S. 3167. A bill to provide grants to States and outlying areas to encourage the States and outlying areas to enhance existing or establish new statewide coalitions among institutions of higher education, communities around the institutions, and other relevant organization or groups, including anti-drug or anti-alcohol coalitions, to reduce underage drinking and illicit drug-use by students, both on and off campus; to the Committee on Health, Education, Labor, and Pensions.

Mr. DEWINE. Mr. President, I join several of my colleagues today to introduce a series of bills related to the reauthorization of the Higher Edu-

cation Act, HEA. These five bills emphasize a number of issues that are vital to higher education, including teacher quality; loan forgiveness for social workers, family lawyers, and early childhood teachers; and the reduction of drug use and underage drinking at our colleges and universities.

The quality of a student's education is the direct result of the quality of that student's teachers. If we don't have well trained teachers, then future generations of our children will not be well educated. That is why I am introducing a bill that would provide \$200 million in grants to our schools of education to partner with local schools to ensure that our teachers are receiving the best, most, extensive training available before they enter the classroom.

The Secretary of Education's annual report on teacher quality reported that a majority of graduates of schools of education believe that the traditional teacher preparation program left them ill prepared for the challenges and rigors of the classroom. Part of the responsibility for this lies in the hands of our schools of education. However, Congress also has a responsibility to give our schools of education the tools they need to make necessary improvements. This new bill would create a competitive grant program for schools of education, which partner with low income schools to create clinical programs to train teachers. Additionally, it would require schools of education to make internal changes by working with other departments at the university to ensure that teachers are receiving the highest quality education in core academic subjects. Finally, it would require the college or university to demonstrate a commitment to improving their schools of education by providing matching funds.

Another complex issue affecting the teaching force is the high percentage of disillusioned beginning teachers who leave the field. Our bill would help combat this issue, as well. Schools of education receiving these grants would be responsible for following their graduates and continuing to provide assistance after they enter the classroom. The more we invest in the education of teachers especially once they have entered the profession the more likely they will remain in the classroom.

Today, I also would like to reintroduce the Early Care and Education Loan Forgiveness Act that Senator Wellstone and I had included in the last higher education reauthorization bill. We had been working on this legislation together before Paul's tragic death. I know he cared deeply about this issue and about making sure that all children receive a quality education. He was passionate about that. And, in his memory, I would like to rename our bill the "Paul Wellstone Early Educator Loan Forgiveness Act."

This bill would expand the loan forgiveness program so that it benefits not just childcare workers, but also early childhood educators. This loan forgiveness program would serve as an incentive to keep those educators in the field for longer periods of time.

Paul Wellstone knew how important early learning programs are in preparing our children for kindergarten and beyond. Research shows that children who attend quality early childcare programs when they were three or four years old scored better on math, language arts, and social skills in early elementary school than children who attended poor quality childcare programs. In short, children in early learning programs with high quality teachers, teachers with a bachelor's degree or an associate's degree or higher, do substantially better.

When we examine the number and recent growth of pre-primary education programs, it becomes difficult to differentiate between early education and childcare settings because they are so often intertwined, especially considering that 11.9 million children younger than age five spend part of their time with a care provider other than a parent and demand for quality childcare and education is growing as more mothers enter the workforce.

Because the bill targets loan forgiveness to those educators working in low-income schools or childcare settings, we can make significant strides toward providing high quality education for all of our young children, regardless of socioeconomic status. The bill would serve a two-fold function. First, it would reward professionals for their training. Second, it would encourage professionals to remain in the profession over longer periods of time, since more time in the profession leads to higher percentages of loans forgiveness. The bill would result in more educated individuals with more teaching experience and lower turnover rates, each of which enhances student performance.

I encourage my colleagues to join me in this effort to ensure that truly no children, especially our youngest children, are left behind.

I also am working on two bills with my friend and colleagues from West Virginia, Senator JAY ROCKEFELLER. These bills would provide loan forgiveness to students who dedicate their careers to working in the realm of child welfare, including social workers, who work for child protective services, and family law experts.

Currently, there aren't enough social workers to fill available jobs in child welfare today. Furthermore, the number of social work job openings is expected to increase faster than the average for all occupations through 2010. The need for highly qualified social workers in the child protective services is reaching crisis level.

We also need more qualified individuals focusing on family law. The wonderful thing about family law is its

focus on rehabilitation, that is the rehabilitation of families by helping them through life's transitions, whether it is a family going through a divorce, a family dealing with their troubled teenager in the juvenile system, or a child getting adopted and becoming a member of a new family.

Across the United States, family, juvenile, and domestic relations courts are experiencing a shortage of qualified attorneys. As many of my colleagues and I know, law school is an expensive investment. In the last 20 years, tuition has increased more than 200 percent. Currently, the average rate of law school debt is about \$80,000 per graduate. To be sure, few law school graduates can afford to work in the public sector because debts prevent even the most dedicated public service lawyer from being able to take these low-paying jobs. This results in a shortage of family lawyers.

The shortage of family law attorneys also disproportionately impacts juveniles. The lack of available representation causes children to spend more time in foster care because cases are adjourned or postponed when they simply cannot find an attorney to represent their rights or those of the parent or guardian. Furthermore, the number of children involved in the court system is sharply increasing. We need to make sure the interests of these children are taken care of by making sure they have an advocate, someone working solely on their behalf.

By offering loan forgiveness to those willing to pursue careers in the child welfare field, we can increase the number of highly qualified and dedicated individuals who work in the realm of child welfare and family law.

Finally, I am introducing a bill today with my friend and colleague from Connecticut, Senator LIEBERMAN, that would help address an epidemic, the epidemic of underage drinking, binge drinking, and drug-related problems on college and university campuses across the United States. Our bill would provide grants to states to establish statewide partnerships among colleges and universities and the surrounding communities to work together to reduce underage and binge drinking and illicit drug use by students.

According to a study by Boston University, over 1,400 students aged 18-24 died in 1998 from alcohol-related injuries, more than 600,000 students were assaulted by another student, and another 500,000 were unintentionally injured while under the influence of alcohol. According to a 1999 Harvard University study, 40 percent of college students are binge drinkers and according to the Department of Health and Human Services, nearly 10.5 million current drinkers were under the legal age of 21, and of these, over 5 million were binge drinkers.

Currently, 28 States, including my home State of Ohio, have coalitions that deal specifically with the culture

of alcohol and drug abuse on our Nation's college campuses. They work with the surrounding communities, including local residents, bar, restaurant and shop owners, and law enforcement officials, toward a goal of changing the pervasive culture of drug and alcohol abuse. They provide alternative alcohol-free events, as well as support groups for those who choose not to drink. They also educate students about the dangers of alcohol and drug-use.

Furthermore, the coalitions recognize that while it is important to promote an alcohol aware and drug-free campus community, if the community surrounding the campus does not promote these initiatives, there will be no long-term solutions. Therefore, these coalitions also have worked to establish regulations both on and off campus, which will help our nation's youth to stay healthy, alive, and get the most out of their time at college. Some of these regulations include the registration of kegs. This provides accountability for both the store and the student. This is just an example of one step that colleges, local communities, and organizations can take.

To help start the expansion of these coalitions, our bill would provide \$50 million dollars in grants. This is an important demonstration project that would help lead to positive effects for our young people. It is up to us to change the culture, which has been perpetuated by years of complacency and a dismissal tone of "that's just the way it is in college." We must protect the health and education of our young people by changing this culture of abuse—and that is exactly what this bill would do.

Next year when we consider the reauthorization of the Higher Education Act, I encourage my colleagues to join in support of these initiatives.

By Mr. DODD:

S. 3168. A bill to improve funeral home, cemetery, and crematory inspections systems to establish consumer protections relating to funeral service contracts, and for other purposes; to the Committee on Commerce, Science, and Transportation.

Mr. DODD. Mr. President, I rise today to introduce the Federal Death Care Inspection and Disclosure Act of 2002, a bill which I believe will go a long way in restoring the trust that Americans place in the funeral and death care industries.

None of us like to think about death and dying. It is a painful and uncomfortable subject, and most Americans, understandably, choose not to confront matters related to the death of a loved one until the death actually occurs. And when a loved one does pass on, we turn to our friends and family to grieve. Certainly, the last thing anyone wants to do at such a painful time is to spend hours or days negotiating or shopping for a funeral, casket, or other goods and services. Instead, we leave

most of these arrangements in the hands of funeral service providers, turning to them to ensure that our loved ones are cared for and treated with respect and dignity after their passing.

We place a great deal of trust in funeral service providers. A funeral, after all, represents one of the largest purchases many consumers will ever make, just behind a home, college education, and a car. However, unlike these transactions, the purchase of funeral services is most often done under intense emotional duress, with very little time to spare, and without the benefit of the type of consumer information generally available when making such a large purchase. As a result, we trust funeral service providers to give us fair prices, to represent goods and services accurately, and to not take advantage of us during our moments of greatest grief and vulnerability.

For the most part, this trust is well deserved. I have no doubt, that the majority of individuals working in the funeral industry are good men and women who practice their profession with the honor and gravity it demands. However, recent revelations of abuses in the industry have shown us that not all members of the death care industry are honest and upstanding. We all remember hearing, earlier this year of the discovery of over 200 bodies strewn in the woods near a crematorium in Noble, GA. There is also recent evidence of desecration of graves and remains at cemeteries in Florida, California, Hawaii, and my own State of Connecticut. These incidents, as well as developments in the funeral industry as a whole, compel us to reexamine the regulatory structure we currently have in place for this industry.

Currently, the death care industry is regulated by a patchwork of State and local laws. These regulations may have been sufficient years ago, but the character of the industry has changed substantially since many of these laws were passed. The industry has become surprisingly large and diverse. Today, the death care industry generates annual revenues of over \$15 billion and employ over 104,000 Americans. The 1990s saw the rise of multi-state "consolidators" who purchased local funeral homes across the country. Even for small local firms, the business has become increasingly complex. As more and more Americans travel and live in places far from where they were born, the industry has become one that frequently does business across State and county lines.

There have also been changes in Americans' cultural expectations of funeral services. For example, the percentage of cremations has risen from 5 percent in the 1970s to 25 percent today. However, only 12 States have substantive laws which cover cremation. In fact, in the case in Georgia I mentioned earlier, the crematorium in question was statutorily exempt from inspection, allowing the abuses to continue undiscovered.

The only significant Federal regulation of the industry exists in the Federal Trade Commission's Funeral Rule, promulgated nearly 20 years ago. Again, this rule has not kept up with the nature of the industry. Perhaps most importantly, the rule does not cover numerous sectors of the industry such as cemeteries, crematories, and casket makers. It also does not effectively regulate prepaid funeral contracts, which have become an increasingly popular option in recent years.

Earlier this year, I chaired a hearing of the Subcommittee on Children and Families in which we examined developments in the industry and how they have impacted American families. Since that hearing, I have worked with both consumer and industry groups to craft legislation to protect Americans from potential abuse by funeral service providers. The Federal Death Care Inspection and Disclosure Act of 2002 would provide Federal funding to allow States to hire and train inspectors and give consumers the right to legal action against those who violate regulatory standards. In order to be eligible for funding, states would have to adhere to standards which are outlined in the legislation. The act would also codify and strengthen the existing FTC regulations governing licensing and registration, recordkeeping, inspection, resolution of consumer complaints, and enforcement of State laws in the industry. It would clarify regulations to prevent deceptive trade practices in the industry and ensure that consumers can make informed decisions as they make funeral arrangements. Finally, the FTC rules would be expanded to cover all segments of the death care industry.

I am aware that as we are in the closing days of this Congress, the Senate will not have the opportunity to consider this legislation this year. However, I would like to take this opportunity to raise this issue with colleagues today in the hope that we will be able to move on this issue when we reconvene for the 108th Congress. This legislation is bipartisan. A House companion bill is being sponsored by Representative FOLEY of Florida. He has been a leader in the effort to ensure that dignity and respect prevail in all aspects of death care services. I look forward to working with him and all of our colleagues in the 108th Congress to advance this same worthy objective.

By Ms. LANDRIEU:

S. 3169. A bill to provide for military charters between military installations and local school districts, to provide credit enhancement initiatives to promote military charter school facility acquisition, construction, and renovation, and for other purposes; to the committee on Health, Education, Labor, and Pensions.

Ms. LANDRIEU. Mr. President, I rise to offer a bill which addresses a growing population who seek a distinct supportive voice: our military dependent children.

Education is an issue which many Senators on both sides of the aisle have worked very hard to improve in every State in our union. This bill, however, is unique in that it strives to increase the quality of education for hundreds of thousands of our children of members of the Armed Services by catering to their specific needs and frequent moves.

Let me begin by expressing my thanks to most members of this body for always working diligently to introduce and pass great initiatives for education. I firmly believe that we, at this juncture in our Nation's great history, have continued to bring family issues, such as education and the economy to the forefront of our discussion. Further, amid our continued discussion of the possibility of sending our military men and women into harm's way in Iraq, there is no better time to concentrate on their children, children who have the added burden of worrying about a deployed parent, or who must move to a new school many times as their parent or parents move to new assignments around the country.

This bill, I am proposing, will provide Stable Transitions I Education for our Active Duty Youth. It is called the STEADY Act and is the first step to a smoother educational career for military dependent children.

When I last spoke of this bill, I said that we in "Congress are becoming wiser and wiser on the issue of education" by recognizing that our future and our economy depend on the education of our children.

It truly is an issue of strengthening our Nation. We cannot have an economically strong and militarily secure Nation moving in a progressive way without an excellent school system. No matter where a child is born, rural or urban, on the east coast or west coast, if we do not do a better job as a Nation of giving our children a quality education, the future of our Nation will not be as bright, and it could put us in jeopardy.

I also make the argument that for our military, the same holds true. It is not just about providing our military with the most extraordinary weapons. It is not just about training our military men and women to the highest levels. It is not just providing them the basics.

We have an obligation to recognize that when our men and women sign up to be in our military, they have willingly made sacrifices, but their families' quality of life should not be one of those sacrifices. We need to provide them, between the Department of Defense and the Department of Education, a quality education for their children.

When we send our soldiers into battle, we want them focused on the battle and mission at hand. We do not want them worried, as they naturally would be, about spouses and dependents at home, about their happiness, about their comfort, about their security. It

makes our military stronger when we provide good, quality-of-life initiatives for their families at home. One of the ways we can do that is by improving the schools for military dependents. There are over 800,000 children who are military dependents out of an overall force strength of 1.4 million adults connected to the military. Many of them are school-age children. Because of the specific demands of our military, which are very unlike the civilian sector, many move every 2 years. Some military members move from the east coast to the west coast, moving families with them. It is very difficult providing an excellent education generally, and yet the military has even more challenges.

What is the solution? I offer this bill to strengthen our military schools in the United States in a creative way. This bill will set up the a pilot program to help create military charter schools around the Nation in partnership with local public school systems to provide an opportunity not only for our military dependents, but this framework will also help communities who have a large military presence. The benefit overall is that the community gets a better school, a school that has the opportunity to provide an excellent education, while being extremely flexible to accommodate the unique needs of a military dependent student.

The second benefit is that it gives children whose families might not have any connection to the military, an introduction into who military people and what military life can be like.

This is a partnership. It is a pilot program that will help establish charter schools, will give important consideration to military children as they move from community to community, and will create for the first time what we call an academic passport.

An academic passport will help to stabilize and standardize the curriculum without micromanaging, without dictating what the curriculum should be. It sets up a new approach or a new framework for our local elementary and secondary schools throughout the country to set up a standardized curriculum to address the vast peaks and valleys encountered by military dependent students as they move from one district to another. To illustrate: one school district might require 3 years of a foreign language or 2 years of algebra or 1 year of algebra, or a whole different curriculum. That is part of this bill. It is something about which military families feel very strongly. I hope that with this new pilot program to help create charter schools with a new academic passport, we can begin to focus some of our resources, again, not all within the Department of Defense; some of this is within the jurisdiction of the Department of Education, to create something exciting and wonderful for these 800,000 children.

Madam President, 600,000 of these children are in public schools today, at

great stress to those public districts; 100,000 of these children are either in private schools or are home schooled; and only 32,000 of the 800,000 are in Department of Defense schools. These schools are concentrated in a few States. There are only 32,000 children, as I said, of 800,000 dependents in DDESS schools in New York, Kentucky, Virginia, North Carolina, South Carolina, Georgia, and Alabama.

As my colleagues can see, dependent children of military personnel are in public schools throughout the country. Sometimes they are good public schools; sometimes they are not so good. We are working hard to make every public school excellent, but I think we have a special obligation to our military families to make sure that those children, with the added burdens they face, are getting an excellent education.

If you look at the general population, non-officers in our military, 91.5 percent have a high school degree or GED, 91 percent. In our general population, it is about 80 percent. This is a very upwardly mobile group of Americans. These are men and women with great discipline, great patriotism, great commitment to the Nation. Obviously, they are serving their country, but they are committed to their families, their communities, and their education.

As one can see, the officers exceed the general population at large. Almost 40 percent have advanced degrees; 99 percent or more have bachelor degrees. This is also a very upwardly mobile population. If we can provide excellent schools and opportunities for the children of this 91 percent, I think we will be doing a very good job in helping to strengthen our military but also helping our country be a better place. It is truly something on which we should focus more.

In conclusion, let me tell you of a school of which I am very proud. It might be one of the first military charters, if not the first, in the Nation. This is a school which opened in September and is an even larger success than we anticipated. This is a state-of-the-art, brand new charter school in Plaquemines Parish, which serves the military and civilian community there. It has alleviated a huge burden on the local school district, and is ready for its first expansion.

I think we can work all day long on pay raises, on building more ships, on buying more tanks, and on building a stronger Air Force, but truly I think focusing on educational opportunities for military dependent children, will help us build morale, help us improve retention, will help us strengthen our military in the intermediate and the long term, and it is something that, with a little creativity, a little bit of thinking outside of the box, I am convinced we could finance the construction of these schools through means laid out in the bill, and end up coming out with some excellent facilities

around this Nation to serve both our military and our nonmilitary families and do a great job for our Defense Department and a great job for our country. That is what this bill would accomplish: again, it sets up a pilot program to establish military charter schools in the neediest areas of the Nation. I would hope that it would be met with enthusiasm from my colleagues who consistently support good education initiatives, and from all of us who know the value of military service to our great Nation.

“Every few years you make new friends. Then you’re gone. You do it all the time. I keep in touch. My best friend and I email, and write back and forth.”—Military dependent student.

Subtitle E—Chemical Security**SEC. 241. SHORT TITLE.**

This subtitle may be cited as the “Chemical Security Act of 2002”.

SEC. 242. FINDINGS.

Congress finds that—

(1) the chemical industry is a crucial part of the critical infrastructure of the United States—

(A) in its own right; and

(B) because that industry supplies resources essential to the functioning of other critical infrastructures;

(2) the possibility of terrorist and criminal attacks on chemical sources (such as industrial facilities) poses a serious threat to public health, safety, and welfare, critical infrastructure, national security, and the environment;

(3) the possibility of theft of dangerous chemicals from chemical sources for use in terrorist attacks poses a further threat to public health, safety, and welfare, critical infrastructure, national security, and the environment; and

(4) there are significant opportunities to prevent theft from, and criminal attack on, chemical sources and reduce the harm that such acts would produce by—

(A)(i) reducing usage and storage of chemicals by changing production methods and processes; and

(ii) employing inherently safer technologies in the manufacture, transport, and use of chemicals;

(B) enhancing secondary containment and other existing mitigation measures; and

(C) improving security.

(B) reducing the vulnerability of the chemical source to an unauthorized release of a covered substance of concern through use of well-maintained secondary containment, control, or mitigation equipment;

(C) reducing the vulnerability of the chemical source to an unauthorized release of a covered substance of concern by implementing security measures; and

(D) reducing the potential consequences of any vulnerability of the chemical source to an unauthorized release of a covered substance of concern through the use of buffer zones between the chemical source and surrounding populations (including buffer zones between the chemical source and residences, schools, hospitals, senior centers, shopping centers and malls, sports and entertainment arenas, public roads and transportation routes, and other population centers).

“(iii) The Secretary shall promptly notify Congress of the implementation of any part of the proposal and shall furnish with such notice an explanation of the proposal, any changes made to the proposal as a result of recommendations from employee representatives, and of the reasons why implementation is appropriate under this subparagraph.

(B) a majority of the employees within such agency or subdivision have, as their primary duty, intelligence, counterintelligence, or investigative work directly related to terrorism investigation.

(3) EXCLUSIONS ALLOWABLE.—Nothing in paragraph (1) or (2) shall affect the effectiveness of any order to the extent that such order excludes any portion of an agency or subdivision of an agency as to which—

(B) any such recognition has been revoked or otherwise terminated as a result of a determination under subsection (b)(1).

(b) PROVISIONS RELATING TO BARGAINING UNITS.—Each unit, which is recognized as an appropriate unit for purposes of chapter 71 of title 5, United States Code, as of the day before the effective date of this Act (and any subdivision of any such unit) shall, if such unit (or subdivision) is transferred to the Department under this Act, continue to be so recognized for such purposes, unless—

(d) COORDINATION RULE.—No other provision of this Act or of any amendment made by this Act may be construed or applied in a manner so as to limit, supersede, or otherwise affect the provisions of this section, except to the extent that it does so by specific reference to this section.

On page 451, strike line 17 and all that follows through page 452, line 12, and insert the following:

(d) EFFECTIVE DATE AND PUBLICATION OF REORGANIZATION PLANS.—

(1) EFFECTIVE DATE.—Except as provided under paragraph (3), a reorganization plan shall be effective upon approval by the President of a resolution (as defined in subsection (g)) with respect to such plan, only if such resolution is passed by the House of Representatives and the Senate, within the first period of 90 calendar days of continuous session of Congress after the date on which the plan is transmitted to Congress.

(2) SESSION OF CONGRESS.—For the purpose of this section—

(A) continuity of session is broken only by an adjournment of Congress sine die; and

(B) the days on which either House is not in session because of an adjournment of more than 3 days to a day certain are excluded in the computation of any period of time in which Congress is in continuous session.

(3) LATER EFFECTIVE DATE.—Under provisions contained in a reorganization plan, any provision thereof may be effective at a time later than the date on which the plan otherwise is effective.

(4) PUBLICATION OF PLAN.—A reorganization plan which is effective shall be printed—

(A) in the Statutes at Large in the same volume as the public laws; and

(B) in the Federal Register.

(e) EFFECT ON OTHER LAWS; PENDING LEGAL PROCEEDINGS.—

(1) EFFECT ON LAWS.—

(A) DEFINITION.—In this paragraph, the term “regulation or other action” means a regulation, rule, order, policy, determination, directive, authorization, permit, privilege, requirement, designation, or other action.

(B) EFFECT.—A statute enacted, and a regulation or other action made, prescribed, issued, granted, or performed in respect of or by an agency or function affected by a reorganization under this section, before the effective date of the reorganization, has, except to the extent rescinded, modified, superseded, or made inapplicable by or under authority of law or by the abolition of a function, the same effect as if the reorganization had not been made. However, if the statute, regulation, or other action has vested the functions in the agency from which it is removed under the reorganization plan, the function, insofar as it is to be exercised after the plan becomes effective, shall be deemed as vested in the agency under which the function is placed in the plan.

(2) PENDING LEGAL PROCEEDINGS.—A suit, action, or other proceeding lawfully commenced by or against the head of an agency or other officer of the United States, in the officer's official capacity or in relation to the discharge of the officer's official duties, does not abate by reason of the taking effect of a reorganization plan under this section. On motion or supplemental petition filed at any time within 12 months after the reorganization plan takes effect, showing a necessity for a survival of the suit, action, or other proceeding to obtain a settlement of the questions involved, the court may allow the suit, action, or other proceeding to be maintained by or against the successor of the head or officer under the reorganization effected by the plan or, if there is no successor, against such agency or officer as the President designates.

(f) RULES OF SENATE AND HOUSE OF REPRESENTATIVES ON REORGANIZATION PLANS.—Subsections (g) through (j) are enacted by Congress—

(1) as an exercise of the rulemaking power of the Senate and the House of Representatives, respectively, and as such they are deemed a part of the rules of each House, respectively, but applicable only with respect to the procedure to be followed in that House in the case of resolutions with respect to any reorganization plans transmitted to Congress (in accordance with subsection (a)); and they supersede other rules only to the extent that they are inconsistent therewith; and

(2) with the full recognition of the constitutional right of either House to change the rules (so far as relating to the procedure of that House) at any time, in the same manner and to the same extent as in the case of any other rule of that House.

(g) TERMS OF RESOLUTION.—For the purposes of subsections (f) through (j), “resolution” means only a joint resolution of Congress, the matter after the resolving clause of which is as follows: “That Congress approves the reorganization plan transmitted to Congress by the President on _____, 20____”, and includes such modifications and revisions as are submitted by the President under subsection (c). The blank spaces therein are to be filled appropriately. The term does not include a resolution which specifies more than 1 reorganization plan.

(h) INTRODUCTION AND REFERENCE OF RESOLUTION.—

(1) INTRODUCTION.—No later than the first day of session following the day on which a reorganization plan is transmitted to the House of Representatives and the Senate under subsection (a), a resolution, as defined in subsection (g), shall be—

(A) introduced (by request) in the House by the chairman of the Government Reform Committee of the House, or by a Member or Members of the House designated by such chairman; and

(B) introduced (by request) in the Senate by the chairman of the Governmental Affairs Committee of the Senate, or by a Member or Members of the Senate designated by such chairman.

(2) REFERRAL.—A resolution with respect to a reorganization plan shall be referred to the Committee on Governmental Affairs of the Senate and the Committee on Government Reform of the House (and all resolutions with respect to the same plan shall be referred to the same committee) by the President of the Senate or the Speaker of the House of Representatives, as the case may be. The committee shall make its recommendations to the House of Representatives or the Senate, respectively, within 75 calendar days of continuous session of Congress following the date of such resolution's introduction.

(i) DISCHARGE OF COMMITTEE CONSIDERING RESOLUTION.—If the committee to which is referred a resolution introduced pursuant to subsection (h)(1) has not reported such a resolution or identical resolution at the end of 75 calendar days of continuous session of Congress after its introduction, such committee shall be deemed to be discharged from further consideration of such resolution and such resolution shall be placed on the appropriate calendar of the House involved.

(j) PROCEDURE AFTER REPORT OR DISCHARGE OF COMMITTEES; DEBATE; VOTE ON FINAL PASSAGE.—

(1) PROCEDURE.—When the committee has reported, or has been deemed to be discharged (under subsection (i)) from further consideration of, a resolution with respect to a reorganization plan, it is at any time thereafter in order (even though a previous motion to the same effect has been disagreed to) for any Member of the respective House to move to proceed to the consideration of the resolution. The motion is highly privileged and is not debatable. The motion shall not be subject to amendment, or to any motion to postpone, or a motion to proceed to the consideration of other business. A motion to reconsider the vote by which the motion is agreed to or disagreed to shall not be in order. If a motion to proceed to the consideration of the resolution is agreed to, the resolution shall remain the unfinished business of the respective House until disposed of.

(2) DEBATE.—Debate on the resolution, and on all debatable motions and appeals in connection therewith, shall be limited to not more than 10 hours, which shall be divided equally between individuals favoring and individuals opposing the resolution. A motion further to limit debate is in order and not debatable. An amendment to, or a motion to recommit the resolution is not in order. A motion to reconsider the vote by which the resolution is passed or rejected shall not be in order.

(3) VOTE ON FINAL PASSAGE.—Immediately following the conclusion of the debate on the resolution with respect to a reorganization plan, and a single quorum call at the conclusion of the debate if requested in accordance with the rules of the appropriate House, the vote on final passage of the resolution shall occur.

(4) APPEALS.—Appeals from the decisions of the Chair relating to the application of the rules of the Senate or the House of Representatives, as the case may be, to the procedure relating to a resolution with respect to a reorganization plan shall be decided without debate.

(5) PRIOR PASSAGE.—If, prior to the passage by 1 House of a resolution of that House, that House receives a resolution with respect to the same reorganization plan from the other House, then—

(A) the procedure in that House shall be the same as if no resolution had been received from the other House; but

(B) the vote on final passage shall be on the resolution of the other House.

SA 4954. Mr. REID (for Ms. CANTWELL (for herself, Mr. GRASSLEY, Mr. ENZI, and Mr. KOHL)) proposed an amendment to the bill S. 1742, to prevent the crime of identity theft, mitigate the harm to individuals victimized by identity theft, and for other purposes; as follows:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Identity Theft Victims Assistance Act of 2002”.

SEC. 2. FINDINGS.

Congress finds that—

(1) the crime of identity theft is the fastest growing crime in the United States;

(2) victims of identity theft often have extraordinary difficulty restoring their credit and regaining control of their identity because of the viral nature of identity theft;

(3) identity theft may be ruinous to the good name and credit of consumers whose identities are misappropriated, and victims of identity theft may be denied otherwise well-deserved credit, may have to spend enormous time, effort, and sums of money to remedy their circumstances, and may suffer extreme emotional distress including deep depression founded in profound frustration as they address the array of problems that may arise as a result of identity theft;

(4) victims are often required to contact numerous Federal, State, and local law enforcement agencies, consumer credit reporting agencies, and creditors over many years, as each event of fraud arises;

(5) the Government, business entities, and credit reporting agencies have a shared responsibility to assist identity theft victims, to mitigate the harm that results from fraud perpetrated in the victim’s name;

(6) victims of identity theft need a nationally standardized means of—

(A) reporting identity theft to consumer credit reporting agencies and business entities; and

(B) evidencing their true identity and claim of identity theft to consumer credit reporting agencies and business entities;

(7) one of the greatest law enforcement challenges posed by identity theft is that stolen identities are often used to perpetrate crimes in many different localities in different States, and although identity theft is a Federal crime, most often, State and local law enforcement agencies are responsible for investigating and prosecuting the crimes; and

(8) the Federal Government should assist State and local law enforcement agencies to effectively combat identity theft and the associated fraud.

SEC. 3. TREATMENT OF IDENTITY THEFT MITIGATION.

(a) IN GENERAL.—Chapter 47 title 18, United States Code, is amended by adding after section 1028 the following:

“§ 1028A. Treatment of identity theft mitigation

“(b) INFORMATION AVAILABLE TO VICTIMS.—

“(1) IN GENERAL.—A business entity that possesses information relating to an alleged identity theft, or that has entered into a transaction, provided credit, products, goods, or services, accepted payment, or otherwise done business with a person that has made unauthorized use of the means of identification of the victim, shall, not later than 20 days after the receipt of a written request by the victim, meeting the requirements of subsection (c), provide, without charge, a copy of all application and transaction information related to the transaction being alleged as an identity theft to—

“(A) the victim;

“(B) any Federal, State, or local governing law enforcement agency or officer specified by the victim; or

“(C) any law enforcement agency investigating the identity theft and authorized by the victim to take receipt of records provided under this section.

“(A) IN GENERAL.—No provision of Federal or State law prohibiting the disclosure of financial information by a business entity to third parties shall be used to deny disclosure of information to the victim under this section.

“(B) LIMITATION.—Except as provided in subparagraph (A), nothing in this section requires a business entity to disclose information that the business entity is otherwise prohibited from disclosing under any other provision of Federal or State law.

“(C) VERIFICATION OF IDENTITY AND CLAIM.—Unless a business entity, at its discretion, is otherwise able to verify the identity of a victim making a request under subsection (b)(1), the victim shall provide to the business entity—

“(1) the business entity complies with subsection (c); and

“(2) such disclosure was made—

“(A) for the purpose of detection, investigation, or prosecution of identity theft; or

“(B) to assist a victim in recovery of fines, restitution, rehabilitation of the credit of the victim, or such other relief as may be appropriate.

“(e) AUTHORITY TO DECLINE TO PROVIDE INFORMATION.—A business entity may decline to provide information under subsection (b) if, in the exercise of good faith and reasonable judgment, the business entity believes that—

“(1) this section does not require disclosure of the information; or

“(2) the request for the information is based on a misrepresentation of fact by the victim relevant to the request for information.

“(f) NO NEW RECORDKEEPING OBLIGATION.—Nothing in this section creates an obligation on the part of a business entity to obtain, retain, or maintain information or records that are not otherwise required to be obtained, retained, or maintained in the ordinary course of its business or under other applicable law.

“(g) AFFIRMATIVE DEFENSE.—In any civil action brought to enforce this section, it is an affirmative defense (which the defendant must establish by a preponderance of the evi-

dence) for a business entity to file an affidavit or answer stating that—

“(1) the business entity has made a reasonably diligent search of its available business records; and

“(2) the records requested under this section do not exist or are not available.

“(h) NO PRIVATE RIGHT OF ACTION.—Nothing in this section shall be construed to provide a private right of action or claim for relief.

“(i) ENFORCEMENT.—

“(A) IN GENERAL.—In any case in which the attorney general of a State has reason to believe that an interest of the residents of that State has been, or is threatened to be, adversely affected by a violation of this section by any business entity, the State, as *parens patriae*, may bring a civil action on behalf of the residents of the State in a district court of the United States of appropriate jurisdiction to—

“(i) enjoin that practice;

“(ii) enforce compliance of this section;

“(C) SERVICE OF PROCESS.—Upon request of the Attorney General of the United States, the attorney general of a State that has filed an action under this subsection shall, pursuant to Rule 4(d)(4) of the Federal Rules of Civil Procedure, serve the Government with—

“(i) a copy of the complaint; and

“(ii) written disclosure of substantially all material evidence and information in the possession of the attorney general of the State.

“(C) to compel the attendance of witnesses or the production of documentary and other evidence.

(b) CLERICAL AMENDMENT.—The table of sections at the beginning of chapter 47 of title 18, United States Code, is amended by inserting after the item relating to section 1028 the following new item:

“1028A. Treatment of identity theft mitigation.”.

SEC. 4. AMENDMENTS TO THE FAIR CREDIT REPORTING ACT.

(a) CONSUMER REPORTING AGENCY BLOCKING OF INFORMATION RESULTING FROM IDENTITY THEFT.—Section 611 of the Fair Credit Reporting Act (15 U.S.C. 1681i) is amended by adding at the end the following:

“(e) BLOCK OF INFORMATION RESULTING FROM IDENTITY THEFT.—

“(1) BLOCK.—Except as provided in paragraph (3) and not later than 30 days after the date of receipt of proof of the identity of a consumer and an official copy of a police report evidencing the claim of the consumer of identity theft, a consumer reporting agency shall block the reporting of any information identified by the consumer in the file of the consumer resulting from the identity theft, so that the information cannot be reported.

“(2) NOTIFICATION.—A consumer reporting agency shall promptly notify the furnisher of information identified by the consumer under paragraph (1)—

“(A) that the information may be a result of identity theft;

“(B) that a police report has been filed;

“(C) that a block has been requested under this subsection; and

“(D) of the effective date of the block.

“(3) AUTHORITY TO DECLINE OR RESCIND.—

“(A) IN GENERAL.—A consumer reporting agency may decline to block, or may rescind any block, of consumer information under this subsection if—

“(i) in the exercise of good faith and reasonable judgment, the consumer reporting agency finds that—

“(I) the information was blocked due to a misrepresentation of fact by the consumer irrelevant to the request to block; or

“(II) the consumer knowingly obtained possession of goods, services, or moneys as a result of the blocked transaction or transactions, or the consumer should have known that the consumer obtained possession of goods, services, or moneys as a result of the blocked transaction or transactions; or

“(ii) the consumer agrees that the blocked information or portions of the blocked information were blocked in error.

“(B) NOTIFICATION TO CONSUMER.—If the block of information is declined or rescinded under this paragraph, the affected consumer shall be notified promptly, in the same manner as consumers are notified of the reinsertion of information under subsection (a)(5)(B).

“(C) SIGNIFICANCE OF BLOCK.—For purposes of this paragraph, if a consumer reporting agency rescinds a block, the presence of information in the file of a consumer prior to the blocking of such information is not evidence of whether the consumer knew or should have known that the consumer obtained possession of any goods, services, or monies as a result of the block.

“(4) EXCEPTIONS.—

“(A) NEGATIVE INFORMATION DATA.—A consumer reporting agency shall not be required to comply with this subsection when such agency is issuing information for authorizations, for the purpose of approving or processing negotiable instruments, electronic funds transfers, or similar methods of payment, based solely on negative information, including—

- “(i) dishonored checks;
- “(ii) accounts closed for cause;
- “(iii) substantial overdrafts;
- “(iv) abuse of automated teller machines;

or

SA 4955. Mr. REID (for Mr. HELMS (for himself and Mr. LEAHY)) proposed an amendment to the bill H.R. 5469, To amend title 17, United States Code, with respect to the statutory license for webcasting; as follows:

Strike all after the enacting clause and insert the following:

SECTION 1. SHORT TITLE.

This Act may be cited as the “Small Webcaster Settlement Act of 2002”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Some small webcasters who did not participate in the copyright arbitration royalty panel proceeding leading to the July 8, 2002 order of the Librarian of Congress establishing rates and terms for certain digital performances and ephemeral reproductions of sound recordings, as provided in part 261 of the Code of Federal Regulations (published in the Federal Register on July 8, 2002) (referred to in this section as “small webcasters”), have expressed reservations about the fee structure set forth in such order, and have expressed their desire for a fee based on a percentage of revenue.

(2) Congress has strongly encouraged representatives of copyright owners of sound recordings and representatives of the small webcasters to engage in negotiations to arrive at an agreement that would include a fee based on a percentage of revenue.

(3) The representatives have arrived at an agreement that they can accept in the extraordinary and unique circumstances here presented, specifically as to the small webcasters, their belief in their inability to pay the fees due pursuant to the July 8 order, and as to the copyright owners of sound recordings and performers, the strong encouragement of Congress to reach an accommodation with the small webcasters on an expedited basis.

(4) The representatives have indicated that they do not believe the agreement provides for or in any way approximates fair or reasonable royalty rates and terms, or rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller.

(5) Congress has made no determination as to whether the agreement provides for or in any way approximates fair or reasonable fees and terms, or rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller.

(6) Congress likewise has made no determination as to whether the July 8 order is reasonable or arbitrary, and nothing in this Act shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of such order.

(7) It is, nevertheless, in the public interest for the parties to be able to enter into such

an agreement without fear of liability for deviating from the fees and terms of the July 8 order, if it is clear that the agreement will not be admissible as evidence or otherwise taken into account in any government proceeding involving the setting or adjustment of the royalties payable to copyright owners of sound recordings for the public performance or reproduction in ephemeral phonorecords or copies of such works, the determination of terms or conditions related thereto, or the establishment of notice or recordkeeping requirements.

SEC. 3. SUSPENSION OF CERTAIN PAYMENTS.

(a) NONCOMMERCIAL WEBCASTERS.—

(1) IN GENERAL.—The payments to be made by noncommercial webcasters for the digital performance of sound recordings under section 114 of title 17, United States Code, and the making of ephemeral phonorecords under section 112 of title 17, United States Code, during the period beginning on October 28, 1998, and ending on May 31, 2003, which have not already been paid, shall not be due until June 20, 2003.

(2) DEFINITION.—In this subsection, the term “noncommercial webcaster” has the meaning given that term in section 114(f)(5)(E)(i) of title 17, United States Code, as added by section 4 of this Act.

(b) SMALL COMMERCIAL WEBCASTERS.—

(1) IN GENERAL.—The receiving agent may, in a writing signed by an authorized representative thereof, delay the obligation of any 1 or more small commercial webcasters to make payments pursuant to sections 112 and 114 of title 17, United States Code, for a period determined by such entity to allow negotiations as permitted in section 4 of this Act, except that any such period shall end no later than December 15, 2002. The duration and terms of any such delay shall be as set forth in such writing.

(2) DEFINITIONS.—In this subsection—

(A) the term “webcaster” has the meaning given that term in section 114(f)(5)(E)(iii) of title 17, United States Code, as added by section 4 of this Act; and

(B) the term “receiving agent” shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002.

SEC. 4. AUTHORIZATION FOR SETTLEMENTS.

Section 114(f) of title 17, United States Code, is amended by adding after paragraph (4) the following:

“(5)(A) Notwithstanding section 112(e) and the other provisions of this subsection, the receiving agent may enter into agreements for the reproduction and performance of sound recordings under section 112(e) and this section by any 1 or more small commercial webcasters or noncommercial webcasters during the period beginning on October 28, 1998, and ending on December 31, 2004, that, once published in the Federal Register pursuant to subparagraph (B), shall be binding on all copyright owners of sound recordings and other persons entitled to payment under this section, in lieu of any determination by a copyright arbitration royalty panel or decision by the Librarian of Congress. Any such agreement for small commercial webcasters shall include provisions for payment of royalties on the basis of a percentage of revenue or expenses, or both, and include a minimum fee. Any such agreement may include other terms and conditions, including requirements by which copyright owners may receive notice of the use of their sound recordings and under which records of such use shall be kept and made available by small commercial webcasters or noncommercial webcasters. The receiving agent shall be under no obligation to negotiate any such agreement. The receiving

agent shall have no obligation to any copyright owner of sound recordings or any other person entitled to payment under this section in negotiating any such agreement, and no liability to any copyright owner of sound recordings or any other person entitled to payment under this section for having entered into such agreement.

“(B) The Copyright Office shall cause to be published in the Federal Register any agreement entered into pursuant to subparagraph (A). Such publication shall include a statement containing the substance of subparagraph (C). Such agreements shall not be included in the Code of Federal Regulations. Thereafter, the terms of such agreement shall be available, as an option, to any small commercial webcaster or noncommercial webcaster meeting the eligibility conditions of such agreement.

“(C) Neither subparagraph (A) nor any provisions of any agreement entered into pursuant to subparagraph (A), including any rate structure, fees, terms, conditions, or notice and recordkeeping requirements set forth therein, shall be admissible as evidence or otherwise taken into account in any administrative, judicial, or other government proceeding involving the setting or adjustment of the royalties payable for the public performance or reproduction in ephemeral phonorecords or copies of sound recordings, the determination of terms or conditions related thereto, or the establishment of notice or recordkeeping requirements by the Librarian of Congress under paragraph (4) or section 112(e)(4). It is the intent of Congress that any royalty rates, rate structure, definitions, terms, conditions, or notice and recordkeeping requirements, included in such agreements shall be considered as a compromise motivated by the unique business, economic and political circumstances of small webcasters, copyright owners, and performers rather than as matters that would have been negotiated in the marketplace between a willing buyer and a willing seller, or otherwise meet the objectives set forth in section 801(b).

“(D) Nothing in the Small Webcaster Settlement Act of 2002 or any agreement entered into pursuant to subparagraph (A) shall be taken into account by the United States Court of Appeals for the District of Columbia Circuit in its review of the determination by the Librarian of Congress of July 8, 2002, of rates and terms for the digital performance of sound recordings and ephemeral recordings, pursuant to sections 112 and 114.

“(E) As used in this paragraph—

“(i) the term ‘noncommercial webcaster’ means a webcaster that—

“(I) is exempt from taxation under section 501 of the Internal Revenue Code of 1986 (26 U.S.C. 501);

“(II) has applied in good faith to the Internal Revenue Service for exemption from taxation under section 501 of the Internal Revenue Code and has a commercially reasonable expectation that such exemption shall be granted; or

“(III) is operated by a State or possession or any governmental entity or subordinate thereof, or by the United States or District of Columbia, for exclusively public purposes;

“(ii) the term ‘receiving agent’ shall have the meaning given that term in section 261.2 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002; and

“(iii) the term ‘webcaster’ means a person or entity that has obtained a compulsory license under section 112 or 114 and the implementing regulations therefor to make eligible nonsubscription transmissions and ephemeral recordings.

“(F) The authority to make settlements pursuant to subparagraph (A) shall expire December 15, 2002, except with respect to noncommercial webcasters for whom the authority shall expire May 31, 2003.”.

SEC. 5. DEDUCTIBILITY OF COSTS AND EXPENSES OF AGENTS AND DIRECT PAYMENT TO ARTISTS OF ROYALTIES FOR DIGITAL PERFORMANCES OF SOUND RECORDINGS.

(a) FINDINGS.—Congress finds that—

(1) in the case of royalty payments from the licensing of digital transmissions of sound recordings under subsection (f) of section 114 of title 17, United States Code, the parties have voluntarily negotiated arrangements under which payments shall be made directly to featured recording artists and the administrators of the accounts provided in subsection (g)(2) of that section;

(2) such voluntarily negotiated payment arrangements have been codified in regulations issued by the Librarian of Congress, currently found in section 261.4 of title 37, Code of Federal Regulations, as published in the Federal Register on July 8, 2002;

(3) other regulations issued by the Librarian of Congress were inconsistent with the voluntarily negotiated arrangements by such parties concerning the deductibility of certain costs incurred for licensing and arbitration, and Congress is therefore restoring those terms as originally negotiated among the parties; and

(4) in light of the special circumstances described in this subsection, the uncertainty created by the regulations issued by the Librarian of Congress, and the fact that all of the interested parties have reached agreement, the voluntarily negotiated arrangements agreed to among the parties are being codified.

(b) DEDUCTIBILITY.—Section 114(g) of title 17, United States Code, is amended by adding after paragraph (2) the following:

“(3) A nonprofit agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts to any person or entity entitled thereto other than copyright owners and performers who have elected to receive royalties from another designated agent and have notified such nonprofit agent in writing of such election, the reasonable costs of such agent incurred after November 1, 1995, in—

“(A) the administration of the collection, distribution, and calculation of the royalties;

“(B) the settlement of disputes relating to the collection and calculation of the royalties; and

“(C) the licensing and enforcement of rights with respect to the making of ephemeral recordings and performances subject to licensing under section 112 and this section, including those incurred in participating in negotiations or arbitration proceedings under section 112 and this section, except that all costs incurred relating to the section 112 ephemeral recordings right may only be deducted from the royalties received pursuant to section 112.

“(4) Notwithstanding paragraph (3), any designated agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) may deduct from any of its receipts, prior to the distribution of such receipts, the reasonable costs identified in paragraph (3) of such agent incurred after November 1, 1995, with respect to such copyright owners and performers who have entered with such agent a contractual relationship that specifies that such costs may be deducted from such royalty receipts.”.

(c) DIRECT PAYMENT TO ARTISTS.—Section 114(g)(2) of title 17, United States Code, is amended to read as follows:

“(2) An agent designated to distribute receipts from the licensing of transmissions in accordance with subsection (f) shall distribute such receipts as follows:

“(A) 50 percent of the receipts shall be paid to the copyright owner of the exclusive right under section 106(6) of this title to publicly perform a sound recording by means of a digital audio transmission.

“(B) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Musicians (or any successor entity) to be distributed to nonfeatured musicians (whether or not members of the American Federation of Musicians) who have performed on sound recordings.

“(C) 2½ percent of the receipts shall be deposited in an escrow account managed by an independent administrator jointly appointed by copyright owners of sound recordings and the American Federation of Television and Radio Artists (or any successor entity) to be distributed to nonfeatured vocalists (whether or not members of the American Federation of Television and Radio Artists) who have performed on sound recordings.

“(D) 45 percent of the receipts shall be paid, on a per sound recording basis, to the recording artist or artists featured on such sound recording (or the persons conveying rights in the artists’ performance in the sound recordings).”.

SEC. 6. REPORT TO CONGRESS.

By not later than June 1, 2004, the Comptroller General of the United States, in consultation with the Register of Copyrights, shall conduct and submit to the Committee on the Judiciary of the House of Representatives and the Committee on the Judiciary of the Senate a study concerning the economic arrangements among small commercial webcasters covered by agreements entered into pursuant to section 114(f)(5)(A) of title 17, United States Code, as added by section 4 of this Act, and third parties, and the effect of those arrangements on royalty fees payable on a percentage of revenue or expense basis.

SEC. 206. PROMOTING SECURE DELIVERY OF HUMANITARIAN AND OTHER ASSISTANCE IN AFGHANISTAN AND EXPANSION OF THE INTERNATIONAL SECURITY ASSISTANCE FORCE.

(a) FINDINGS.—Congress finds the following:

(1) The President has declared his view that the United States should provide significant assistance to Afghanistan so that it is no longer a haven for terrorism.

(2) The delivery of humanitarian and reconstruction assistance from the international community is necessary for the safe return of refugees and is critical to the future stability of Afghanistan.

(3) Enhanced stability in Afghanistan through an improved security environment is critical to the functioning of the Government of Afghanistan and the traditional Afghan assembly or "Loya Jirga" process, which is intended to lead to a permanent national government in Afghanistan, and also is essential for the participation of women in Afghan society.

(4) Incidents of violence between armed factions and local and regional commanders, and serious abuses of human rights, including attacks on women and ethnic minorities throughout Afghanistan, create an insecure, volatile, and unsafe environment in parts of Afghanistan, displacing thousands of Afghan civilians from their local communities.

(5)(A) On July 6, Vice President Haji Abdul Qadir was assassinated in Kabul by unknown assailants.

(B) On September 5, 2002, a car bomb exploded in Kabul killing 32 and injuring 150

and on the same day a member of Kandahar Governor Sherzai's security team attempted to assassinate President Karzai.

(6) The violence and lawlessness may jeopardize the "Loya Jirga" process, undermine efforts to build a strong central government, severely impede reconstruction and the delivery of humanitarian assistance, and increase the likelihood that parts of Afghanistan will once again become safe havens for al-Qaida, Taliban forces, and drug traffickers.

(7) The lack of security and lawlessness may also perpetuate the need for United States Armed Forces in Afghanistan and threaten the ability of the United States to meet its military objectives.

(8) The International Security Assistance Force in Afghanistan, currently led by Turkey, and composed of forces from other willing countries without the participation of United States Armed Forces, is deployed only in Kabul and currently does not have the mandate or the capacity to provide security to other parts of Afghanistan.

(9) Due to the ongoing military campaign in Afghanistan, the United States does not contribute troops to the International Security Assistance Force but has provided support to other countries that are doing so.

(10) The United States is providing political, financial, training, and other assistance to the Afghan Interim Authority as it begins to build a national army and police force to help provide security throughout Afghanistan, but this effort is not meeting the immediate security needs of Afghanistan.

(11) Because of these immediate security needs, the Government of Afghanistan, its President, Hamid Karzai, and many Afghan regional leaders have called for the International Security Assistance Force, which has successfully brought stability to Kabul, to be expanded and deployed throughout the country, and this request has been strongly supported by a wide range of international humanitarian organizations, including the International Committee of the Red Cross, Catholic Relief Services, and Refugees International.

(b) STATEMENT OF POLICY.—It should be the policy of the United States to support measures to help meet the immediate security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government.

(c) IMPLEMENTATION OF STRATEGY.—

(1) INITIAL REPORT.—Not later than 60 days after the date of the enactment of this Act, the President shall provide the Committee on International Relations and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate with—

(A) a strategy for meeting the immediate and long-term security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government, including an update to the strategies submitted pursuant to Public Law 107-206; and

(B) a description of the progress of the Government of Afghanistan toward the eradication of poppy cultivation, the disruption of heroin production, and the reduction of the overall supply and demand for illicit narcotics in Afghanistan in accordance with the provisions of this Act.

(2) IMPLEMENTATION OF STRATEGY.—Every 6 months after the enactment of this Act through January 1, 2007, the President shall

submit to the congressional committees specified in paragraph (1) a report on the implementation of the strategies for meeting the immediate and long-term security needs of Afghanistan, which shall include the following elements—

(A) since the previous report, the progress in recruiting, training, and deploying an Afghan National Army and police force, including the numbers and ethnic composition of recruits; the number of graduates from military and police training; the numbers of graduates retained by the Afghan National Army and police forces since the previous report; the numbers of graduates operationally deployed and to which areas of the country; the degree to which these graduates are assuming security responsibilities; whether Afghan army and police units are establishing effective central governmental authority over areas of the country, and which areas; and the numbers of instances of armed attacks against Afghan central governmental officials, United States or international officials, troops or aid workers, or between the armed forces of regional leaders;

(B) the degree to which armed regional leaders are cooperating and integrating with the central government, providing security and order within their regions of influence, engaging in armed conflict or other forms of competition that are deleterious to peace, security, and the integration of a unified Afghanistan under the central government;

(C) the amount of humanitarian relief provided since the previous report to returnees, isolated populations and other vulnerable groups, as well as demining assistance and landmine survivors rehabilitation; and the numbers of such persons not assisted since the previous report;

(D) the steps taken since the previous report toward national reconstruction, including establishment of the ministries and other institutions of the Government of Afghanistan;

(E) the numbers of Civil Affairs Teams working with regional leaders, as well as the quick impact infrastructure projects undertaken by such teams since the previous report;

(F) efforts undertaken since the previous report to rebuild the justice sector, including the establishment of a functioning judiciary, a competent bar, reintegration of women legal professionals and a reliable penal system, and the respect for human rights; and

(G) a description of the progress of the Government of Afghanistan with respect to the matters described in paragraph (1)(B).

(d) EXPANSION OF THE INTERNATIONAL SECURITY ASSISTANCE FORCE.—

(1) SENSE OF CONGRESS.—Congress urges the President, in order to fulfill the objective of establishing security in Afghanistan, to take all appropriate measures to assist Afghanistan establish a secure environment throughout the country, including by—

SMALL WEBCASTER AMENDMENTS ACT OF 2002

Mr. REID. Madam President, I ask unanimous consent the Senate proceed to the consideration of H.R. 5469.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 5469) to amend title 17, United States Code, with respect to the statutory license for webcasting.

There being no objection, the Senate proceeded to consider the bill.

Mr. LEAHY. Madam President, I am pleased that the Senate is taking the important step of passing H.R. 5469, the "Small Webcaster Amendments Act of 2002." This legislation reflects hard choices made in hard negotiations under hard circumstances. I commend House Judiciary Chairman Sensenbrenner and Representative Conyers for bringing this legislation to a successful conclusion and passage in the House of Representatives in a timely fashion to make a difference in the prospects of many small webcasters.

The Internet is an American invention that has become the emblem of the Information Age and an engine for bringing American content into homes and businesses around the globe. I have long been an enthusiast and champion of the Internet and of the creative spirits who are the source of the music, films, books, news, and entertainment content that enrich our lives, energize our economy and influence our culture. As a citizen, I am impressed by the innovation of new online entrepreneurs, and as a Senator, I want to do everything possible to promote the full realization of the Internet's potential. A flourishing Internet with clear, fair and enforceable rules governing how content may be used will benefit *all* of us, including the entrepreneurs who want us to become new customers and the artists who create the content we value.

The advent of webcasting—streaming music online rather than broadcasting it over the air as traditional radio stations do—has marked one of the more exciting and quickly growing of the new industries that have sprung up on the Web. Many of the new webcasters, unconstrained by the technological limitations of traditional radio transmission, can and do serve listeners across the country and around the world. They provide music in specialized niches not available over the air. They feature new and fringe artists who do not enjoy the few spots in the Top 40. And they can bring music of all types to listeners who, for whatever reason, are not being catered to by traditional broadcasters.

We have been mindful on this Committee that as the Internet is a boon to consumers, we must not neglect the artists who create and the businesses which produce the digital works that make the online world so fascinating and worth visiting. With each legislative effort to provide clear, fair and enforceable intellectual property rules

for the Internet, a fundamental principle to which we have adhered is that artists and producers of digital works merit compensation for the value derived from the use of their work.

In 1995, we enacted the Digital Performance Right in Sound Recordings Act, which created an intellectual property right in digital sound recordings, giving copyright owners the right to receive royalties when their copyrighted sound recordings were digitally transmitted by others. Therefore when their copyrighted sound recordings are digitally transmitted, royalties are due. In the 1998 Digital Millennium Copyright Act, DMCA, we made clear that this law applied to webcasters and that they would have to pay these royalties. At the same time, we created a compulsory license so that webcasters could be sure of the use of these digital works. We directed that the appropriate royalty rate could be negotiated by the parties or determined by a Copyright Arbitration Royalty Panel—or CARP—at the Library of Congress.

Despite some privately negotiated agreements, no industry-wide agreement on royalty rates was reached and therefore a CARP proceeding was instituted that concluded on February 20, 2002. The CARP decision set the royalty rate to be paid by commercial webcasters, no matter their size, at .14 cents per song per listener, with royalty payments retroactive to October 1998, when the DMCA was passed.

At a Judiciary Committee hearing I convened on this issue on May 15, 2002, nobody seemed happy with the outcome of the arbitration and, in fact, all the parties appealed. The recording industry and artist representatives feel that the royalty rate—which was based on the number of performances and listeners, rather than on a percentage-of-revenue model—was too low to adequately compensate the creative efforts of the artists and the financial investments of the labels. Many webcasters declared that the per-performance approach, and the rate attached to it, would bankrupt small operations and drain the large ones. I said then that such an outcome would be highly unfortunate not only for the webcasters but also for the artists, the labels and the consumers, who all would lose important legitimate channels to connect music and music lovers online.

On appeal, the Librarian in June, 2002, cut the rate in half, to .07 cents per song per listener for commercial webcasters. Nevertheless, many webcasters, who had been operating during the four-year period between 1998 and 2002, were taken by surprise at the amount of their royalty liability. The retroactive fees were to be paid in full by October 20th and would have resulted in many small webcasters in particular, going out of business.

In order to avoid many webcasting streams going silent on October 20, when retroactive royalty payments are due, I urged all sides to avoid more expense and time and reach a negotiated

outcome more satisfactory to all participants than the Librarian's decision. I also monitored closely the progress of negotiations between the RIAA and webcasters. On July 31, I sent a letter with Senator HATCH to Sound Exchange, which was created by the RIAA to act as the agent for copyright holders in negotiating the voluntary licenses with webcasters under the DMCA and to serve as the receiving agent for royalties under the CARP process. The letter posed questions on the status of the reported on-going negotiations between RIAA/Sound Exchange and the smaller webcasters, the terms being proposed and considered, and how likely the outcome of those negotiations would be to produce viable deals for smaller webcasters, while still satisfying the copyright community.

Reports on the progress of these negotiations were disappointing, which makes this legislation all the more important. As a general principle, marketplace negotiations are the appropriate mechanism for determining the allocation of compensation among interested parties under copyright law. Yet, we have made exceptions to this general principle, as reflected in this legislation and the very compulsory license provisions it amends.

The legislation reflects a compromise for all the parties directly affected by this legislation—small webcasters that could not survive with the rates set by the Librarian and copyright owners and performers who under this bill will give certain eligible webcasters an alternative royalty payment scheme. This legislation does not represent a complete victory for any of these stakeholders. Artists and music labels may believe that they are forgoing significant royalties under this legislation and I appreciate that they are those in the webcasting business, who are either not covered or not sufficiently helped by the bill, who believe that this legislation should do more. As one analyst at the Radio and Internet Newsletter stated, in the October 11, 2002 issue, "Clearly, the 'Small Webcaster Amendments Act of 2002' (a/k/a H.R. 5469) is an imperfect bill that doesn't fix everything for everybody . . . Still, overall, does it do more good than harm for more people? My belief is that many are helped one way or the other and virtually no one is assured of being hurt. Thus, the answer, on the whole, would be yes."

I know that most webcasters share my belief that artists and labels should be fairly compensated for use of their creative works. This legislation provides both compensation to the copyright owners and helps to support the webcasting industry by offering more variable payment options to small webcasters than the one-size-fits all per performance rate set out in the original CARP and Librarian decisions. The rates, terms and record-keeping provisions are applicable only to the parties that qualify for and elect to be

governed by this alternative royalty structure and no broad principles should be extrapolated from the rates, terms and record-keeping provisions contained in the bill. The Copyright Office is presently engaged in a rule-making on record-keeping and this bill does not supplant that ongoing process.

This legislation does three things to help small webcasters pay royalties and stay in business. As one Vermont webcaster told me, "Although the percentage of revenue is too high, at least we have the option. A percentage of revenue deal will enable [us] to stay in business moving forward, grow our audience, and compete."

First, the Librarian royalty rate is based on a per performance formula, which has the unfortunate effect of requiring webcasters to pay high fees for their use of music, even before the audience of the webcaster has grown to a sufficient size to attract any appreciable advertising revenues. Without any percentage of revenue option (as provided by the legislation), the webcasting industry would be closed to all but those with the substantial resources necessary to subsidize the business until the advertising revenue caught up to the per performance royalty rate. The bill provides a percentage of revenue option for small businesses with less than \$500,000 in gross revenue in 2003 and \$1.25 million dollars in 2004. The bill also provides for minimum fees and a percentage of expenses floor on the royalties, to assure that copyright owners and artists receive some payment for performance of their music.

Second, for noncommercial webcasters, such as college webcasters, the bill corrects an anomaly in the Librarian's decision. Under that decision, nonprofit entities held FCC licenses were given a lower per performance rate than were commercial entities. However, the decision made no such provision for noncommercial entities that were not FCC licenses. The bill extends the lower rate to all nonprofit entities.

Finally, the bill reduces the retroactive burden on many of the small commercial webcasters by allowing them to make their payments based on a percentage of revenue or percentage of expense, but also allows both small commercial and noncommercial webcasters to pay these retroactive fees in three payments over the span of a year.

To accommodate the concerns of artists and the RIAA, the bill provides for the reporting of information about which songs were played by the small commercial webcasters. This information will be used to account properly for the distribution of the royalties to the copyright holders and the artists.

A number of concerns have been raised that the rate, terms and record-keeping provisions in the bill do not constitute evidence of any rates, rate structure fees, definitions, conditions or terms that would have been negotiated in the marketplace between a

willing buyer and willing seller. This concern stems from the DMCA's statutory license fee standard directing the CARP to establish rates and terms "that most clearly represent the rates and terms that would have been negotiated in the marketplace between a willing buyer and a willing seller," rather than a determination of "reasonable copyright royalty rates" according to a set of balancing factors. This new webcasting standard may be having the unfortunate and unintended result that webcasters and copyright owners are concerned that the rates and terms of any voluntary licensing agreements will be applied industry-wide. The new webcasting standard appears to be making all sides cautious and reluctant to enter into, rather than facilitating, voluntary licensing agreements.

Passage of this legislation does not mean that our work is done. As this webcasting issue has unfolded, I have heard complaints from all sides about the fairness and completeness of procedures employed in the arbitration. Indeed, the concerns of many small webcasters were never heard, since the cost of participating in the proceedings was prohibitively expensive and their ability to participate for free was barred by procedural rules. One thing is clear: Compulsory licenses are no panacea and their implementation may only invite more congressional intervention. To avoid repeated requests for the Congress or the courts to intercede, we must make sure the procedures and standards used to establish the royalty rates for the webcasting and other compulsory licenses produce fair, workable results. Next year, we should focus attention on reforming the CARP process.

Mr. REID. Madam President, I ask unanimous consent that the Helms amendment at the desk be agreed to; the bill, as amended, be read a third time, passed, and the motion to reconsider be laid on the table, with no intervening action or debate.

[The purposes of assistance authorized by this title are—

[(1) to help assure the security of the United States and the world by reducing or eliminating the likelihood of violence against United States or allied forces in Afghanistan and to reduce the chance that Afghanistan will again be a source of international terrorism;

[(5) to support the Government of Afghanistan in its development of the capacity to fa-

cilitate, organize, develop, and implement projects and activities that meet the needs of the Afghan people;

[(6) to foster the participation of civil society in the establishment of the new Afghan government in order to achieve a broad-based, multiethnic, gender-sensitive, fully representative government freely chosen by the Afghan people, without prejudice to any decisions which may be freely taken by the Afghan people about the precise form in which their government is to be organized in the future;

[(1) **TERRORISM AND NARCOTICS CONTROL.**—Assistance should be designed to reduce the likelihood of harm to United States and other allied forces in Afghanistan and the region, the likelihood of additional acts of international terrorism emanating from Afghanistan, and the cultivation, production, trafficking, and use of illicit narcotics in Afghanistan.

[(2) **ROLE OF WOMEN.**—Assistance should increase the participation of women at the national, regional, and local levels in Afghanistan, wherever feasible, by enhancing the role of women in decisionmaking processes, as well as by providing support for programs that aim to expand economic and educational opportunities and health programs for women and educational and health programs for girls.

[(3) **AFGHAN OWNERSHIP.**—Assistance should build upon Afghan traditions and practices. The strong tradition of community responsibility and self-reliance in Afghanistan should be built upon to increase the capacity of the Afghan people and institutions to participate in the reconstruction of Afghanistan.

[(5) **COORDINATION.**—Assistance should be part of a larger donor effort for Afghanistan. The magnitude of the devastation—natural and man-made—to institutions and infrastructure make it imperative that there be close coordination and collaboration among donors. The United States should endeavor to assert its leadership to have the efforts of international donors help achieve the purposes established by this title.

assistance has taken or has committed to take.

[SEC. 206. PROMOTING SECURE DELIVERY OF HUMANITARIAN AND OTHER ASSISTANCE IN AFGHANISTAN.]

[(a) FINDINGS.—Congress finds the following:

[(1) The President has declared his view that the United States should provide significant assistance to Afghanistan so that it never again becomes a haven for terrorism.

[(2) The delivery of humanitarian and reconstruction assistance from the international community is necessary for the safe return of refugees and is critical to the future stability of Afghanistan.

[(3) Enhanced stability in Afghanistan through an improved security environment is critical to the fostering of the Afghan Interim Authority and the traditional Afghan assembly or “Loya Jirga” process, which is intended to lead to a permanent national government in Afghanistan, and also is essential for the participation of women in Afghan society.

[(4) Incidents of violence between armed factions and local and regional commanders, and serious abuses of human rights, including attacks on women and ethnic minorities throughout Afghanistan, create an insecure, volatile, and unsafe environment in parts of Afghanistan, displacing thousands of Afghan civilians from their local communities.

[(5) The violence and lawlessness may jeopardize the “Loya Jirga” process, undermine efforts to build a strong central government, severely impede reconstruction and the delivery of humanitarian assistance, and increase the likelihood that parts of Afghanistan will once again become safe havens for al-Qaida, Taliban forces, and drug traffickers.

[(6) The lack of security and lawlessness may also perpetuate the need for United States Armed Forces in Afghanistan and threaten the ability of the United States to meet its military objectives.

[(7) The International Security Assistance Force in Afghanistan, currently led by Turkey, and composed of forces from other willing countries without the participation of United States Armed Forces, is deployed only in Kabul and currently does not have the mandate or the capacity to provide security to other parts of Afghanistan.

[(8) Due to the ongoing military campaign in Afghanistan, the United States does not contribute troops to the International Security Assistance Force but has provided support to other countries that are doing so.

[(9) The United States is providing political, financial, training, and other assistance to the Afghan Interim Authority as it begins to build a national army and police force to help provide security throughout Afghanistan, but this effort is not meeting the immediate security needs of Afghanistan.

[(10) Because of these immediate security needs, the Afghan Interim Authority, its Chairman, Hamid Karzai, and many Afghan regional leaders have called for the International Security Assistance Force, which has successfully brought stability to Kabul, to be expanded and deployed throughout the country, and this request has been strongly supported by a wide range of international humanitarian organizations, including the International Committee of the Red Cross, Catholic Relief Services, and Refugees International.

[(11)(A) On January 29, 2002, the President stated that “[w]e will help the new Afghan government provide the security that is the foundation of peace”.

[(B) On March 25, 2002, the Secretary of Defense stated, with respect to the reconstruction of Afghanistan, that “the first thing . . . you need for anything else to happen, for

hospitals to happen, for roads to happen, for refugees to come back, for people to be fed and humanitarian workers to move on the country . . . [y]ou’ve got to have security”.

[(b) STATEMENT OF POLICY.—It should be the policy of the United States to support measures to help meet the immediate security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government.

[(c) PREPARATION OF STRATEGY.—Not later than 45 days after the date of the enactment of this Act, and every six months thereafter, the President shall transmit to the Committee on International Relations and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate a strategy for meeting the immediate and long-term security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government.

[SEC. 207. SUNSET.]

[(The authority of this title shall expire after December 31, 2004.)

[TITLE III—ADDITIONAL REQUIREMENTS WITH RESPECT TO ASSISTANCE FOR AFGHANISTAN]

[SEC. 301. PROHIBITION ON UNITED STATES INVOLVEMENT IN POPPY CULTIVATION OR ILLICIT NARCOTICS GROWTH, PRODUCTION, OR TRAFFICKING.]

[(No officer or employee of any Federal department or agency who is involved in the provision of assistance under this Act may knowingly encourage or participate in poppy cultivation or illicit narcotics growth, production, or trafficking in Afghanistan. No United States military or civilian aircraft or other United States vehicle that is used with respect to the provision of assistance under this Act may be used to facilitate the distribution of poppies or illicit narcotics in Afghanistan.)

[SEC. 302. REQUIREMENT TO REPORT BY CERTAIN UNITED STATES OFFICIALS.]

[(b) DEFINITION.—In this section, the term “appropriate official” means the Attorney General, the Inspector General of the Federal department or agency involved, or the head of such department or agency.

(1) The United States and the international community should support efforts that advance the development of democratic civil authorities and institutions in Afghanistan and the establishment of a new broad-based, multi-ethnic, gender-sensitive, and fully representative government in Afghanistan.

(2) The United States, in particular, should provide its expertise to meet immediate humanitarian and refugee needs, fight the production and flow of illicit narcotics, and aid in the reconstruction of Afghanistan.

(3) By promoting peace and security in Afghanistan and preventing a return to conflict, the United States and the international community can help ensure that Afghanistan does not again become a source for international terrorism.

(4) The United States should support the objectives agreed to on December 5, 2001, in Bonn, Germany, regarding the provisional arrangement for Afghanistan as it moves toward the establishment of permanent institutions and, in particular, should work intensively toward ensuring the future neutrality of Afghanistan, establishing the principle that neighboring countries and other countries in the region do not threaten or interfere in one another’s sovereignty, territorial integrity, or political independence, including supporting diplomatic initiatives to support this goal.

(5) The special emergency situation in Afghanistan, which from the perspective of the

American people combines security, humanitarian, political, law enforcement, and development imperatives, requires that the President should receive maximum flexibility in designing, coordinating, and administering efforts with respect to assistance for Afghanistan and that a temporary special program of such assistance should be established for this purpose.

(6) To foster stability and democratization and to effectively eliminate the causes of terrorism, the United States and the international community should also support efforts that advance the development of democratic civil authorities and institutions in the broader Central Asia region.

SEC. 102. PURPOSES OF ASSISTANCE.

The purposes of assistance authorized by this title are—

(1) to help assure the security of the United States and the world by reducing or eliminating the likelihood of violence against United States or allied forces in Afghanistan and to reduce the chance that Afghanistan will again be a source of international terrorism;

(2) to support the continued efforts of the United States and the international community to address the humanitarian crisis in Afghanistan and among Afghan refugees in neighboring countries;

(3) to fight the production and flow of illicit narcotics, to control the flow of precursor chemicals used in the production of heroin, and to enhance and bolster the capacities of Afghan governmental authorities to control poppy cultivation and related activities;

(4) to help achieve a broad-based, multi-ethnic, gender-sensitive, and fully representative government in Afghanistan that is freely chosen by the people of Afghanistan and that respects the human rights of all Afghans, particularly women, including authorizing assistance for the rehabilitation and reconstruction of Afghanistan with a particular emphasis on meeting the educational, health, and sustenance needs of women and children to better enable their full participation in Afghan society;

(5) to support the Government of Afghanistan in its development of the capacity to facilitate, organize, develop, and implement projects and activities that meet the needs of the Afghan people;

(6) to foster the participation of civil society in the establishment of the new Afghan government in order to achieve a broad-based, multi-ethnic, gender-sensitive, fully representative government freely chosen by the Afghan people, without prejudice to any decisions which may be freely taken by the Afghan people about the precise form in which their government is to be organized in the future;

(7) to support the reconstruction of Afghanistan through, among other things, programs that create jobs, facilitate clearance of landmines, and rebuild the agriculture sector, the health care system, and the educational system of Afghanistan; and

(8) to provide resources to the Ministry for Women's Affairs of Afghanistan to carry out its responsibilities for legal advocacy, education, vocational training, and women's health programs.

SEC. 103. PRINCIPLES OF ASSISTANCE.

The following principles should guide the provision of assistance authorized by this title:

(1) **TERRORISM AND NARCOTICS CONTROL.**—Assistance should be designed to reduce the likelihood of harm to United States and other allied forces in Afghanistan and the region, the likelihood of additional acts of international terrorism emanating from Afghanistan, and the cultivation, production, trafficking, and use of illicit narcotics in Afghanistan.

(2) **ROLE OF WOMEN.**—Assistance should increase the participation of women at the national, regional, and local levels in Afghanistan, wherever feasible, by enhancing the role of women in decisionmaking processes, as well as

by providing support for programs that aim to expand economic and educational opportunities and health programs for women and educational and health programs for girls.

(3) **AFGHAN OWNERSHIP.**—Assistance should build upon Afghan traditions and practices. The strong tradition of community responsibility and self-reliance in Afghanistan should be built upon to increase the capacity of the Afghan people and institutions to participate in the reconstruction of Afghanistan.

(4) **STABILITY.**—Assistance should encourage the restoration of security in Afghanistan, including, among other things, the disarmament, demobilization, and reintegration of combatants, and the establishment of the rule of law, including the establishment of a police force and an effective, independent judiciary.

(5) **COORDINATION.**—Assistance should be part of a larger donor effort for Afghanistan. The magnitude of the devastation—natural and man-made—to institutions and infrastructure make it imperative that there be close coordination and collaboration among donors. The United States should endeavor to assert its leadership to have the efforts of international donors help achieve the purposes established by this title.

SEC. 206. PROMOTING SECURE DELIVERY OF HUMANITARIAN AND OTHER ASSISTANCE IN AFGHANISTAN.

(a) FINDINGS.—Congress finds the following:

(1) The President has declared his view that the United States should provide significant assistance to Afghanistan so that it never again becomes a haven for terrorism.

(2) The delivery of humanitarian and reconstruction assistance from the international com-

munity is necessary for the safe return of refugees and is critical to the future stability of Afghanistan.

(3) Enhanced stability in Afghanistan through an improved security environment is critical to the fostering of the Afghan Interim Authority and the traditional Afghan assembly or “Loya Jirga” process, which is intended to lead to a permanent national government in Afghanistan, and also is essential for the participation of women in Afghan society.

(4) Incidents of violence between armed factions and local and regional commanders, and serious abuses of human rights, including attacks on women and ethnic minorities throughout Afghanistan, create an insecure, volatile, and unsafe environment in parts of Afghanistan, displacing thousands of Afghan civilians from their local communities.

(5) The violence and lawlessness may jeopardize the “Loya Jirga” process, undermine efforts to build a strong central government, severely impede reconstruction and the delivery of humanitarian assistance, and increase the likelihood that parts of Afghanistan will once again become safe havens for al-Qaida, Taliban forces, and drug traffickers.

(6) The lack of security and lawlessness may also perpetuate the need for United States Armed Forces in Afghanistan and threaten the ability of the United States to meet its military objectives.

(7) The International Security Assistance Force in Afghanistan, currently led by Turkey, and composed of forces from other willing countries without the participation of United States Armed Forces, is deployed only in Kabul and currently does not have the mandate or the capacity to provide security to other parts of Afghanistan.

(8) Due to the ongoing military campaign in Afghanistan, the United States does not contribute troops to the International Security Assistance Force but has provided support to other countries that are doing so.

(9) The United States is providing political, financial, training, and other assistance to the Afghan Interim Authority as it begins to build a national army and police force to help provide security throughout Afghanistan, but this effort is not meeting the immediate security needs of Afghanistan.

(10) Because of these immediate security needs, the Afghan Interim Authority, its Chairman, Hamid Karzai, and many Afghan regional leaders have called for the International Security Assistance Force, which has successfully brought stability to Kabul, to be expanded and deployed throughout the country, and this request has been strongly supported by a wide range of international humanitarian organizations, including the International Committee of the Red Cross, Catholic Relief Services, and Refugees International.

(11)(A) On January 29, 2002, the President stated that “[w]e will help the new Afghan government provide the security that is the foundation of peace”.

(B) On March 25, 2002, the Secretary of Defense stated, with respect to the reconstruction of Afghanistan, that “the first thing . . . you need for anything else to happen, for hospitals to happen, for roads to happen, for refugees to come back, for people to be fed and humanitarian workers to move on the country . . . [y]ou’ve got to have security”.

(b) STATEMENT OF POLICY.—It should be the policy of the United States to support measures to help meet the immediate security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government.

(c) PREPARATION OF STRATEGY.—

(1) IN GENERAL.—Not later than 45 days after the date of the enactment of this Act, and every

six months thereafter through January 1, 2006, the President shall provide the Committee on International Relations and the Committee on Appropriations of the House of Representatives and the Committee on Foreign Relations and the Committee on Appropriations of the Senate with—

(A) a strategy for meeting the immediate and long-term security needs of Afghanistan in order to promote safe and effective delivery of humanitarian and other assistance throughout Afghanistan, further the rule of law and civil order, and support the formation of a functioning, representative Afghan national government; and

(B) a description of the progress of the Government of Afghanistan toward the eradication of poppy cultivation, the disruption of heroin production, and the reduction of the overall supply and demand for illicit narcotics in Afghanistan in accordance with the provisions of this Act.

(2) **FORM OF INFORMATION.**—The initial provision of information under paragraph (1) shall be made by transmittal of a written report. Thereafter, the information required under paragraph (1) may be provided in a written report or in an oral briefing.

SEC. 207. RELATIONSHIP TO OTHER AUTHORITY.

(a) **ADDITIONAL AUTHORITY.**—The authority to provide assistance under this title is in addition to any other authority to provide assistance to the Government of Afghanistan.

(b) **LAWS RESTRICTING AUTHORITY.**—Assistance under this title to the Government of Afghanistan may be provided notwithstanding any other provision of law.

SEC. 208. SENSE OF CONGRESS REGARDING EXPANSION OF THE INTERNATIONAL SECURITY ASSISTANCE FORCE; AUTHORIZATION OF APPROPRIATIONS.

(a) **SENSE OF CONGRESS.**—Congress urges the President, in order to fulfill the objective of establishing security in Afghanistan, to use the full diplomatic influence of the United States to expand the International Security Assistance Force (ISAF) beyond Kabul, Afghanistan by—

(1) sponsoring in the United Nations Security Council a resolution authorizing such an expansion of that force;

(2) enlisting the European and other allies of the United States to provide forces for an expanded International Security Assistance Force in Afghanistan; and

(3) providing such financial and military assistance, including personnel, as the President considers necessary to achieve the expansion of the International Security Assistance Force.

(b) **AUTHORIZATION OF APPROPRIATIONS.**—There is authorized to be appropriated to the President \$500,000,000 for each of fiscal years 2003 and 2004 to provide the assistance described in subsection (a)(3).

S. CON. RES. 155

Whereas the President has sought the support of the international community in responding to the threat of terrorism, violent extremist organizations, and states that permit or host organizations that are opposed to democratic ideals;

Whereas a united stance against terrorism and terrorist regimes will likely lead to an increased threat to the armed forces and law enforcement personnel of those states that oppose these regimes of terror and that take an active role in rooting out these enemy forces;

Whereas Congress has aided and supported a united response to acts of terrorism and violence inflicted upon the United States, our allies, and peaceful individuals all over the world;

Whereas President Abraham Lincoln, at the outbreak of the Civil War, proclaimed that the last Thursday in September 1861 should be designated as a day of humility, prayer, and fasting for all people of the Nation;

Whereas it is appropriate and fitting to seek guidance, direction, and focus from God in times of conflict and in periods of turmoil;

Whereas it is through prayer, self-reflection, and fasting that we can better examine those elements of our lives that can benefit from God's wisdom and love;

Whereas prayer to God and the admission of human limitations and frailties begins the process of becoming both stronger and closer to God;

Whereas becoming closer to God helps provide direction, purpose, and conviction in those daily actions and decisions we must take;

Whereas our Nation, tested by civil war, military conflicts, and world wars, has always benefited from the grace and benevolence bestowed by God; and

Whereas dangers and threats to our Nation persist and in this time of peril, it is appropriate that the people of the United States, leaders and citizens alike, seek guidance, strength, and resolve through prayer and fasting: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that—

(1) November 27, 2002, should be designated as a day for humility, prayer, and fasting for all people of the United States; and

(2) all people of the United States should—

(A) observe this day as a day of prayer and fasting;

(B) seek guidance from God to achieve greater understanding of our own failings;

(C) learn how we can do better in our everyday activities; and

(D) gain resolve in how to confront those challenges which we must confront.

After defeating the New York Yankees in the first round of the playoffs and then going on to beat the Minnesota Twins for the American League Championship, the Angels battled my hometown team, the San Francisco Giants, in an exciting all-California World Series. The Angels have proven to the world their outstanding ability to win and work as a team.

Led by manager Mike Scioscia and players Scott Spezio, Garret Anderson, and Darin Erstad the Angels offense destroyed even the mightiest pitchers through October. Most Valuable Player Troy Glaus batted an astounding .385 average with three homeruns in the seven-game series.

Another key player in the Angels' march to glory is Troy Percival. The veteran closing pitcher stifled the Giants' hitters in pivotal game 7 and throughout the playoffs. Furthermore, Troy Percival would not have been able to perform his masterful pitching had it not been for starting pitcher John Lackey who pitched five strong innings in game 7.

Manager Mike Scioscia's leadership proved to be invaluable to the team. His experience as a catcher with Southern California's other major league franchise, the Los Angeles Dodgers, helped the Angels through what started as Anaheim's worst season ever and turned it into a glorious year.

The Anaheim Angels truly epitomize the importance of teamwork, as nearly every member of the roster contributed to their phenomenal season. It should be noted that the championship could not have been won without the dedication of the entire team: David

Eckstein, Tim Salmon, Adam Kennedy, Bengie Molina, Brad Fullmer, Jarrod Washburn, Kevin Appier, Brendan Donnelly, Ben Weber, Ramon Ortiz, and Francisco Rodriguez.

I also would like to congratulate chairman and CEO of the Walt Disney Company Michael Eisner, General Manager Bill Stoneman and all of the Angels' staff on their hard work assembling Anaheim's first championship team. I should also congratulate Jackie Autry, widow of former Angels owner Gene Autry. One of her husband's greatest dreams was to see the Angels win a World Series.

And, most importantly, I would like to thank the Angels fans in Southern California who have earned national recognition for their enthusiasm and unbridled support of their team.

Finally, it is nearly impossible to congratulate the Angels or their fans without mentioning the "Rally Monkey," the adorable mascot that has become Anaheim's symbol of resilience and refusal to give up hope in the most difficult situations.

The Angels have begun a new era of baseball in Southern California and will certainly defend their title with the same heart and determination that brought them to the World Series this year. The Anaheim Angels are a team with an unquenchable desire to win.

They have made the city of Anaheim, the county of Orange, and all of California proud.

Mr. REID. Madam President, I ask unanimous consent that the resolution and preamble be agreed to en bloc; that the motion to reconsider be laid upon the table, with no intervening action or debate; and that any statements relating to the resolution be printed in the RECORD.

The preamble was agreed to.

Whereas the San Francisco Giants were a worthy rival for the Anaheim Angels and set the stage for an exciting and suspenseful World Series that was watched with great interest by many Californians;

EXPRESSING SENSE OF CONGRESS ABOUT PUBLIC AWARENESS AND EDUCATION ABOUT IMPORTANCE OF HEALTH CARE COVERAGE

Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to the consideration of Calendar No. 757, S. Con. Res. 94.

The PRESIDING OFFICER. The clerk will report the concurrent resolution by title.

The legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 94) expressing the sense of Congress that public awareness and education about the importance of health care coverage is of the utmost priority and that a National Importance of Health Care Coverage Month should be established to promote that awareness and education.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. REID. Madam President, I ask unanimous consent that the concurrent resolution be agreed to; that the preamble be agreed to; that the motion to reconsider be laid upon the table; and that any statements relating to the concurrent resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 94) was agreed to.

The preamble was agreed to.

The concurrent resolution, with its preamble, reads as follows:

S. CON. RES. 94

Whereas census estimates indicate that some 42,000,000 people in the United States are without health insurance coverage, many of whom are among the most vulnerable and can be financially devastated by serious illness, disease, or accident;

Whereas studies have shown that people with health insurance are healthier than those who are uninsured and receive care through emergency rooms or safety net health care services, because the insured are entitled to, and receive, more preventive

care, follow-up care, and care for chronic conditions such as diabetes and high blood pressure;

Whereas over 17,300,000 of the uninsured are employed but are not offered health insurance through their employers;

Whereas such employers are small business owners who are often unaware of the benefits of offering health insurance, including that such benefits are tax deductible, reduce employee turnover, and reduce employee sick days;

Whereas over 16,000,000 people in the United States, more than 1/3 of the uninsured, are in families where at least 1 member of the family has been offered employer based health care coverage but has declined coverage;

Whereas many individuals are eligible for public assistance programs such as the State Children's Health Insurance Program, known as SCHIP, and the medicaid program, but are not currently enrolled due primarily to lack of outreach, education, and accessible enrollment processes;

Whereas studies have shown that many individuals and small businesses are unaware of the various options they have for obtaining affordable health care coverage;

Whereas surveys have shown that many individuals who cite expense as the reason for not purchasing insurance find insurance affordable once they are informed of the true cost of various options; and

Whereas education about health care coverage helps uninsured individuals and employers understand the critical value of health insurance as a preventive measure and the ways to keep their health insurance premiums manageable once they have health care coverage: Now, therefore, be it

Resolved by the Senate (the House of Representatives concurring), That it is the sense of Congress that—

(1) a National Importance of Health Care Coverage Month be established to—

(A) promote a multifaceted educational effort about the importance of health care coverage;

(B) increase awareness of the many available health care coverage options; and

(C) inform those eligible for public insurance programs on ways to access those programs; and

(2) the President issue a proclamation calling on the Federal Government, States, localities, citizens, and businesses of the United States to conduct appropriate programs, fairs, ceremonies, and activities to promote this educational effort.

SECTION 1. SHORT TITLE.

This Act may be cited as the “Prosecutorial Remedies and Tools Against the Exploitation of Children Today Act of 2002” or “PROTECT Act”.

SEC. 2. FINDINGS.

Congress finds the following:

(1) Obscenity and child pornography are not entitled to protection under the First Amendment under *Miller v. California*, 413 U.S. 15 (1973) (obscenity), or *New York v. Ferber*, 458 U.S. 747 (1982) (child pornography) and thus may be prohibited.

(2) The Government has a compelling state interest in protecting children from those who sexually exploit them, including both child molesters and child pornographers. “The prevention of sexual exploitation and abuse of children constitutes a government objective of surpassing importance,” *New York v. Ferber*, 458 U.S. 747, 757 (1982) (emphasis added), and this interest extends to stamping out the vice of child pornography at all levels in the distribution chain. *Osborne v. Ohio*, 495 U.S. 103, 110 (1990).

(3) The Government thus has a compelling interest in ensuring that the criminal prohibitions against child pornography remain enforceable and effective. “[T]he most expeditious if not the only practical method of law enforcement may be to dry up the market for this material by imposing severe criminal penalties on persons selling, advertising, or otherwise promoting the product.” *Ferber*, 458 U.S. at 760.

(4) In 1982, when the Supreme Court decided *Ferber*, the technology did not exist to: (A) create depictions of virtual children that are indistinguishable from depictions of real children; (B) create depictions of virtual children using compositions of real children to create an unidentifiable child; or (C) disguise pictures of real children being abused by making the image look computer generated.

(5) Evidence submitted to the Congress, including from the National Center for Missing and Exploited Children, demonstrates that technology already exists to disguise depictions of real children to make them unidentifiable and to make depictions of real children appear computer generated. The technology will soon exist, if it does not already, to make depictions of virtual children look real.

(6) The vast majority of child pornography prosecutions today involve images contained on computer hard drives, computer disks, and/or related media.

(7) There is no substantial evidence that any of the child pornography images being trafficked today were made other than by the abuse of real children. Nevertheless, technological advances since *Ferber* have led many criminal defendants to suggest that the images of child pornography they possess are not those of real children, insisting that the government prove beyond a reasonable doubt that the images are not computer-generated. Such challenges will

likely increase after the *Ashcroft v. Free Speech Coalition* decision.

(8) Child pornography circulating on the Internet has, by definition, been digitally uploaded or scanned into computers and has been transferred over the Internet, often in different file formats, from trafficker to trafficker. An image seized from a collector of child pornography is rarely a first-generation product, and the retransmission of images can alter the image so as to make it difficult for even an expert conclusively to opine that a particular image depicts a real child. If the original image has been scanned from a paper version into a digital format, this task can be even harder since proper forensic delineation may depend on the quality of the image scanned and the tools used to scan it.

(9) The impact on the government's ability to prosecute child pornography offenders is already evident. The Ninth Circuit has seen a significant adverse effect on prosecutions since the 1999 Ninth Circuit Court of Appeals decision in *Free Speech Coalition*. After that decision, prosecutions generally have been brought in the Ninth Circuit only in the most clear-cut cases in which the government can specifically identify the child in the depiction or otherwise identify the origin of the image. This is a fraction of meritorious child pornography cases. The National Center for Missing and Exploited Children testified that, in light of the Supreme Court's affirmation of the Ninth Circuit decision, prosecutors in various parts of the country have expressed concern about the continued viability of previously indicted cases as well as declined potentially meritorious prosecutions.

(10) In the absence of congressional action, this problem will continue to grow increasingly worse. The mere prospect that the technology exists to create computer or computer-generated depictions that are indistinguishable from depictions of real children will allow defendants who possess images of real children to escape prosecution, for it threatens to create a reasonable doubt in every case of computer images even when a real child was abused. This threatens to render child pornography laws that protect real children unenforceable.

(11) To avoid this grave threat to the Government's unquestioned compelling interest in effective enforcement of the child pornography laws that protect real children, a statute must be adopted that prohibits a narrowly-defined subcategory of images.

(12) The Supreme Court's 1982 *Ferber v. New York* decision holding that child pornography was not protected drove child pornography off the shelves of adult bookstores. Congressional action is necessary to ensure that open and notorious trafficking in such materials does not reappear.

SEC. 3. CERTAIN ACTIVITIES RELATING TO MATERIAL CONSTITUTING OR CONTAINING CHILD PORNOGRAPHY.

Section 2252A of title 18, United States Code, is amended—

(1) in subsection (a)—

(A) by striking paragraph (3) and inserting the following:

“(3) knowingly—

“(A) reproduces any child pornography for distribution through the mails, or in interstate or foreign commerce by any means, including by computer; or

“(B) advertises, promotes, presents, distributes, or solicits through the mails, or in interstate or foreign commerce by any means, including by computer, any material or purported material in a manner that conveys the impression that the material or purported material is, or contains, an obscene visual depiction of a minor engaging in sexually explicit conduct;”.

(B) in paragraph (4), by striking “or” at the end;

(C) in paragraph (5), by striking the period at the end and inserting “; or”; and

(D) by adding at the end the following:

“(6) knowingly distributes, offers, sends, or provides to a minor any visual depiction, including any photograph, film, video, picture, or computer generated image or picture, whether made or produced by electronic, mechanical, or other means, of sexually explicit conduct where such visual depiction is, or appears to be, of a minor engaging in sexually explicit conduct—

“(A) that has been mailed, shipped, or transported in interstate or foreign commerce by any means, including by computer;

“(B) that was produced using materials that have been mailed, shipped, or transported in interstate or foreign commerce by any means, including by computer; or

(2) in subsection (b)(1), by striking “(1), (2), (3), or (4)” and inserting “(1), (2), (3), (4), or (6)”;

(3) by striking subsection (c) and inserting the following:

“(c) It shall be an affirmative defense to a charge of violating paragraph (1), (2), (3), (4), or (5) of subsection (a) that—

“(1)(A) the alleged child pornography was produced using an actual person or persons engaging in sexually explicit conduct; and

“(B) each such person was an adult at the time the material was produced; or

“(2) the alleged child pornography was not produced using any actual minor or minors.

No affirmative defense shall be available in any prosecution that involves obscene child pornography or child pornography as described in section 2256(8)(D). A defendant may not assert an affirmative defense to a charge of violating paragraph (1), (2), (3), (4), or (5) of subsection (a) unless, within the time provided for filing pretrial motions or at such time prior to trial as the judge may direct, but in no event later than 10 days before the commencement of the trial, the defendant provides the court and the United States with notice of the intent to assert such defense and the substance of any expert or other specialized testimony or evidence upon which the defendant intends to rely. If the defendant fails to comply with this subsection, the court shall, absent a finding of extraordinary circumstances that prevented timely compliance, prohibit the defendant from asserting such defense to a charge of violating paragraph (1), (2), (3), (4), or (5) of subsection (a) or presenting any evidence for which the defendant has failed to provide proper and timely notice.”.

SEC. 4. ADMISSIBILITY OF EVIDENCE.

Section 2252A of title 18, United States Code, is amended by adding at the end the following:

“(e) ADMISSIBILITY OF EVIDENCE.—On motion of the government, in any prosecution under this chapter, except for good cause shown, the name, address, social security number, or other nonphysical identifying information, other than the age or approximate age, of any minor who is depicted in any child pornography shall not be admissible and may be redacted from any otherwise admissible evidence, and the jury shall be instructed, upon request of the United States, that it can draw no inference from the absence of such evidence in deciding whether the child pornography depicts an actual minor . . .”.

SEC. 5. DEFINITIONS.

Section 2256 of title 18, United States Code, is amended—

(1) in paragraph (1), by inserting before the semicolon the following: “and shall not be construed to require proof of the actual identity of the person”;

(2) in paragraph (8)—

(A) in subparagraph (B), by inserting “is obscene and” before “is”;

(B) in subparagraph (C), by striking “or” at the end; and

(C) by striking subparagraph (D) and inserting the following:

“(D) such visual depiction—

“(i) is, or appears to be, of a minor actually engaging in bestiality, sadistic or masochistic abuse, or sexual intercourse, including genital-genital, oral-genital, anal-genital, or oral-anal, whether between persons of the same or opposite sex; and

“(ii) lacks serious literary, artistic, political, or scientific value; or

“(E) the production of such visual depiction involves the use of an identifiable minor engaging in sexually explicit conduct.”;

(3) by striking paragraph (9), and inserting the following:

“(9) ‘identifiable minor’—

“(A)(i) means a person—

“(I)(aa) who was a minor at the time the visual depiction was created, adapted, or modified; or

“(bb) whose image as a minor was used in creating, adapting, or modifying the visual depiction; and

“(II) who is recognizable as an actual person by the person’s face, likeness, or other distinguishing characteristic, such as a unique birthmark or other recognizable feature; and

“(ii) shall not be construed to require proof of the actual identity of the identifiable minor; or

“(B) means a computer or computer generated image that is virtually indistinguishable from an actual minor; and

“(10) ‘virtually indistinguishable’ means that the depiction is such that an ordinary person viewing the depiction would conclude that the depiction is of an actual minor.”.

**NATIONAL SCIENCE FOUNDATION
AUTHORIZATION ACT OF 2002**

Mr. REID. I ask unanimous consent the HELP Committee be discharged from further consideration of H.R. 4664 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 4664) to authorize appropriations for fiscal years 2003, 2004, and 2005 for the National Science Foundation, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. KENNEDY. Madam President, I am pleased the Senate will consider and pass today, the National Science Foundation Doubling Act. This bill is the product of extensive bipartisan, bicameral negotiations among the House of Representatives Committee on Science, the Senate Committee on Health, Education, Labor, and Pensions, and the Senate Committee on Commerce, Science, and Transportation. It is based on S. 2817, which I introduced with Senator HOLLINGS, Senator MIKULSKI, and Senator BOND. I commend them, together with Senator GREGG, Senator MCCAIN, House Science Committee Chairman BOEHLERT, Congressman NICK SMITH, and Congressman RALPH HALL for their leadership in crafting this important legislation.

NSF performs two key functions for the federal government and the broader research community. It supports basic research and development in math, science, engineering, and technology, and it promotes math and science learning at every level, from K-12 through post-graduate education.

Few people realize how influential NSF has been to their daily lives. NSF has funded basic research leading to the creation of doppler weather radar, retail bar codes, speech recognition software, magnetic resonance imaging machines, and even World Wide Web browsers, such as Netscape and Microsoft's Internet Explorer. NSF education initiatives of the late 1980s

were the forerunners of the standards-based school reform movement embraced throughout the Nation today and most recently in the new No Child Left Behind Act governing nearly all federal elementary and secondary education programs.

We can and should build on NSF's record in improving the lives of millions of Americans. The 20th Century was the era of the industrial age, and the 21st Century will be the era of information technology and the life sciences.

The bill before us doubles NSF's budget authority over the next five years. It matches the growth of the National Institutes of Health over the last five years. We double budget authority for research and development in the physical sciences and theoretical mathematics, because they support advances in the health sciences and because they are valuable in their own right.

I am particularly proud that the legislation before us authorizes a new secondary school systemic initiative at NSF that will develop model school reforms to improve high school student math and science performance and better prepare all students for college-level and technical work. For too long, federal policy has paid scant attention to the needs of secondary school students. Senator JEFFORDS and I have been working extensively in this area. I commend him for his leadership and look forward to continued work with him on the needs of secondary students.

The bill before us supports model math and science partnerships between institutions of higher education and local school districts to improve the knowledge and teaching techniques of current and future math and science teachers. The math and science partnership provisions are based on proposals offered by the Administration, Senator FRIST, Senator ROBERTS, Senator ROCKEFELLER, and Senator BINGAMAN. They track a strong body of educational research that emphasizes the importance of training math and science teachers to improve student performance in those important subject areas.

This legislation supports institutions of higher education in increasing the number of students, particularly women and minorities, who study toward and obtain degrees in science, math, engineering, and technology. Senator LIBBERMAN, Senator MIKULSKI, and Senator BOND are leaders on this issue, and I commend them as well. We have an economic need and a national security imperative to increase the number and quality of students studying science, math, engineering, and technology at the post-secondary level.

Finally, the bill before us reforms NSF's program on major research and facilities equipment, to help prioritize projects and guard against cost overruns and approval of proposals that have not received adequate analysis.

This is an area of concern for Senator CLINTON, Senator BOND, and Senator MIKULSKI, and I commend them for this initiative. Quality and merit should be the touchstones of our Nation's investment in the sciences.

The National Science Foundation Doubling Act is a thoughtful piece of bipartisan legislation that prepares us for the future. I urge my colleagues to support it.

Mr. HOLLINGS. Madam President, today, the Senate will pass legislation that authorizes the doubling of the National Science Foundation budget by fiscal year 2007. As you all know, NSF is the nation's premier federal science agency that invests in basic research across all disciplines. We rely on NSF research to open new frontiers of science, and I am proud that we can pass this important legislation today.

We have approached this legislation in concert with our friends on the Health, Labor, Education, and Pensions Committee, Senators KENNEDY and GREGG. Once again, it has been a pleasure to work with Chairman BOEHLERT and ranking member RALPH HALL of the House Science Committee. Obviously, we could not have produced this product without Senator MCCAIN, Senator ROCKEFELLER, and the other members of the Commerce Committee. We were also pleased to work with our friends, Senators BOND and MIKULSKI, who have been leaders on the NSF.

This doubling bill is vital. The Hart-Rudman Commission on National Security, and former speaker Newt Gingrich, warned that our failure to invest in science and to reform math and science education was the second biggest threat to our national security. NSF is well positioned to address this threat. After all, NSF invests in math and science education from kindergarten all the way through to the post-doctoral level and beyond. This bill allows the Foundation to increase that investment, while reaffirming our commitment to women, minorities, and people with disabilities. These underrepresented groups, together, make up more than half of our nation's work force and are only increasing. Letting these groups fall by the wayside would not only threaten our economic competitiveness, but also our national security.

It is often said that more than one-half of our nation's economic growth since World War I has stemmed from technology driven by science. Let me give just one example of how NSF's investments can spur our economy. NSF is the leading agency in the National Nanotechnology Initiative. Nanotechnology—which is the science of manipulating matter at the atomic and molecular level—will cut across every scientific discipline, including materials and manufacturing, healthcare and medicine, energy and the environment, agriculture, biotechnology, information technology, and national security. Worldwide, the market for nanotechnology is expected

to be \$1 trillion annually within 10 to 15 years. NSF's cross-disciplinary approach, which includes groundbreaking research into the way society and this new technology will interact, will help this nation take advantage of Nanotechnology sooner, better, and with greater confidence.

Finally, I want to note that NSF is responsible for the overall health and well-being of the research enterprise in this country. Congress is now completing its 5-year commitment to double funding for the National Institutes of Health. We made that investment because we want to cure and prevent disease. But increasingly, it's not just the biomedical research that NIH supports that brings us breakthroughs. Recent advances in biomedical science have relied on advances in fields such as computer science, physics, and chemistry. For example, the sequencing of the human genome was enabled by powerful computers networked in innovative ways. The commitment that we are making today to science at NSF will build our base knowledge in non-medical fields to complement the research done at NIH.

NSF research is not just for large universities. The Foundation's continued support for the EPSCoR program supports the development of the science and technology resources of individual states like South Carolina, through partnerships that involve the state's universities, industry, government, and the Federal research and development enterprise. These partnerships put researchers in these states in a better position to compete and win NSF grants.

Mr. President, I think these arguments are solid, simple, and straightforward. We can talk about NSF's past outstanding contributions to science. We can talk about the future and the importance of science and technology to our economy. But, Mr. President, where the rubber meets the road, we have to stop talking and invest, with real money, in the science and engineering enterprise that will guaranty the health, economic viability, and security of our future. I, for one, appreciate the hard work that NSF has done over the past 52 years promoting the progress of science, and I thank my Senate colleagues for supporting me in providing this agency the resources needed to conquer tomorrow.

Mr. LIEBERMAN. Madam President, I am proud with my Senate colleagues, particularly Senators KENNEDY, GREGG, and HOLLINGS, in expressing support for this historic legislation, which will help ensure that our country continues to be a leader in scientific and technological innovation. I also want to extend my appreciation to Chairman BOEHLERT of the House Science Committee for his leadership in moving this strongly bipartisan legislation.

The reality is that technological and scientific innovation is now widely understood to be the major driver of economic growth, not to mention a crit-

ical factor in our military superiority. Education is essential to ensuring that the American workforce possesses the skills necessary to meet these innovation needs. The provisions included in this legislation will help give universities and colleges in Connecticut and nationwide the tools they need to boost our domestic pool of brainpower—the next generation of people who will incubate and implement the next generation of ideas to expand our economy.

I am extremely pleased that the bill passed today includes all of the key elements of the Technology Talent Act of 2001 S. 1549, legislation that I and my colleagues, most notably Senators MIKULSKI, BOND, FRIST and DOMENICI, first proposed a year ago today. The Technology Talent Act of 2001, "Tech Talent Act", sought to stimulate economic growth by boosting the number of math, science, technology and engineering graduates from U.S. institutions of higher learning. House Science Committee Chairman BOEHLERT introduced similar legislation in the House, H.R. 3130, on October 16, 2001.

In keeping with the Tech Talent Act, the National Science Foundation Act of 2002 "NSF Authorization Act" approved today establishes a framework for a multi-year competitive grant program that would award performance-based grants to institutions of higher learning to increase the number of math, science, technology and engineering graduates. The legislation will formally authorize an existing program at NSF that was inspired by and modeled after Tech Talent Act—the Science, Mathematics, Engineering, and Technology talent Expansion Program, STEP. STEP, has already received Federal appropriations for fiscal year 2002 and elicited more than 170 applications from interested colleges and universities, of which 16 were awarded grants. I am pleased that Naugatuck Valley Community College in my home state was selected to be one of the first grantees under the program and have every confidence that it will lead the Nation in developing creative and effective ways to build a 21st century workforce.

The provisions in the NSP Authorization Act before us today achieves the same goals as were proposed in my Tech Talent Act. The following analysis describes the growing talent gap that threatens America's leadership in science and technology and clarifies the goals, concepts, and themes underpinning both my original legislation and the STEP, or Tech Talent, provisions of the NSF Authorization Act.

America's technological prowess is unequalled in the world today—which is why, despite our economic slowdown and the financial burdens of prosecuting the war against terror and ensuring our collective defense, we still have the strongest, most vibrant economy on the planet. However, our long-term competitive standing and economic security could well be at risk if we do not address a troubling trend

line in our workforce, the mismatch between the demand and supply of workers with science and engineering training.

Studies show that the number of jobs requiring significant technical skills is projected to grow by more than 50 percent in the United States over the next ten years. But outside of the life sciences, the number of degrees awarded in science and engineering has been flat or declining. This has helped fuel a well-chronicled shortage of qualified New Economy workers.

We have tried to temporarily plug this human capital hole with a stopgap of foreign workers. Unfortunately, there is a broad consensus among high-tech leaders and policymakers that it would be a serious mistake to prolong this dependence and essentially render our GDP contingent on the supply of H-1 B visa holders.

That may sound like a bit of an overstatement to some. But the reality is that technological innovation has been a key enabler of our economic and military dominance over the last half century. It is widely acknowledged, moreover, that we cannot continue to expand our economy in the future if we don't take steps now to expand our domestic pool of human intellectual capital.

Now, most answers to serious economic challenges flow from the private sector, which is where growth must occur. But there are things that the Federal Government can do to help, particularly when it comes to educating and training our workforce. We can provide leadership, focus, and not least of all resources, and that was the purpose of the Tech Talent Act as introduced, and STEP as is included in this NSF legislation.

Specifically, the Tech Talent program aims to fix a critical link in this "tech talent" gap—undergraduate education in science, math, engineering, and technology. As established in our bill, it would provide competitive grants to institutions of higher learning, from universities to community colleges, to encourage them to find creative methods for increasing the number of graduates in these disciplines.

This is not another scholarship program, but a targeted, results-driven initiative that goes straight to the gatekeepers. We're not asking them to change their admissions policies, but, in effect, to design new missions. Come up with effective ideas, and we will provide the dollars to make them work.

For example, institutions could propose to add or strengthen the interdisciplinary components of undergraduate science education. Or they could establish targeted support programs for women and minorities, who are 54 percent of our total workforce, but only 22 percent of scientists and engineers, to increase enrollment and graduation numbers in these fields. Or they could partner with local technology companies to provide summer industry internships for ongoing research experience.

This initiative was conceived with strong bipartisan, bicameral support. The Tech Talent Act, as noted, was introduced last year by Senators MIKULSKI, BOND, FRIST, DOMENICI, and myself; the House companion bill, H.R. 3130, was introduced by House Science Committee Chairman BOEHLERT and Representative LARSON. By the end of the year, Congress had agreed to appropriate \$5 million for this fiscal year to jumpstart the program in the form of NSF's STEP, even though our authorizing legislation had not yet been passed. Most recently, the Senate VA-HUD Committee Appropriations bill for fiscal year 2003 included \$20 million for the program.

The program also has extremely broad support outside the Congress. The Administration has supported Tech Talent as a priority, including funding for it in its budget request for FY 2003. In addition, the response from leaders in industry, academia, and educational communities, also has been tremendous, we have received letters of support from TechNet, Semiconductor Industry Association, National Alliance of Business, K-12 Science, Mathematics, Engineering & Technology Coalition, American Association of State Colleges and Universities, Texas Instruments, and the American Society for Engineering Education, to name but a few.

Even more encouraging are the preliminary data obtained from NSF's STEP. NSF received 177 applications requesting a total of \$59.7 million in aid, clear evidence of the vast interest in, and need for, the Tech Talent program among undergraduate institutions seeking to implement reforms in science and math education. In its first year, the program has awarded 16 grants to colleges and universities.

The NSF Authorization Act passed today will do much to enhance the efforts already underway at NSF in this area and to permanently establish "Tech Talent" as a national priority. I want to make clear the intent of a few provisions in this legislation as their implementation will be critical to the success of the program.

The intent of H.R. 4664, expressed in section (8)(a)(7)(A), is to prioritize funding for programs in fields of science, mathematics, engineering, and technology that have witnessed a period of stagnant or declining enrollment and degree conferrals, especially where such declines have resulted, or are likely to result, in adverse social, economic, technological, or military costs. It deserves clarification that a declining trend can be indicated not only through an absolute decrease in the number of students enrolling or graduating in a particular field, but through a relative decrease in the proportion that students of a particular field constitute relative to the total number of students enrolled or graduating across all fields.

For example, statistics from the National Science Foundation, NSF,

demonstrate that between 1985 and 2000, the number of bachelor's degrees awarded declined from 77,572 to 59,536 in engineering, and from 16,270 to 14,580 in the physical sciences. Furthermore, the NSF predicts that the number of jobs requiring skills and backgrounds in information technology will vastly outstrip the number of people capable of filling such positions over the next decade. The negative consequences of such trends with respect to economic growth, technological innovation, and gainful employment have been widely documented and should represent near to medium-term priorities for Tech talent funding.

In emphasizing the need to remediate stagnant or declining trends, we recognize and appreciate previous criticisms regarding the difficulty of accurately modeling future employment scenarios and of forecasting areas of societal need. Nevertheless, we believe that investments must bear a relationship to desired outcomes if limited funds are to be allocated intelligently. The NSF is therefore expected to undertake efforts to the best extent it can to identify and account for broader social considerations, including generally anticipated industry requirements or imbalances between the number of students graduating across different fields, in determining fields appropriate for prioritization. To this end, the NSF may require applicants to specify the specific societal needs being addressed by their proposals and to articulate how such proposals would further the remediation of targeted needs.

The fundamental goal of the Technology Talent Act as introduced was to increase the number of graduates with expertise in math, science, technology and engineering to meet the critical needs of our U.S. businesses, industries, research community and military. As such, the intention of sections (8)(a)(7)(B) and (8)(a)(7)(D)(i) of H.R. 4664 is to require applicants to clearly establish measurable targets to both increase the number of students studying toward degrees in science, mathematics, technology and engineering, and to increase the number of students who have completed degrees, concentrations, or certificates in these fields. Therefore, it is intended that applicants that fail to establish goals for both enrollment and completion shall be considered inadequate.

Likewise under section (8)(a)(7)(D)(ii), it is intended that the Director shall terminate funding in the case of a grantee that has failed to make substantial progress toward meeting the targets established in section (8)(a)(7)(D)(i) for increasing the number of students completing degrees, concentrations or certificates in science, mathematics, technology and engineering. However, I would encourage the Director to work with grantees and provide technical assistance to help ensure that grantees make substantial progress during the first three years of the grant toward meeting the

targets established in (8)(a)(7)(D)(i) and to achieve such targets by the end of the grant period. I further believe that it is inherent in this legislation that grantees that successfully meet their targets established in (8)(a)(7)(D)(i) shall be eligible to compete for subsequent grants.

I believe that this NSF bill provides a real boost to efforts that are being undertaken in parts of the country to address our technical workforce challenge. As such, it is the intention that innovative consortias between institutions of higher education and non-profits, industry or state or local governments are eligible to compete for grants under the STEP program per section (8)(a)(7)(F). In particular, I believe that legislation under (8)(a)(7)(F)(iii) allows for non-profits established on behalf of such high-quality and proven consortias to apply directly for grants.

For example, the State of Texas passed legislation last year that created a consortium—the Texas Engineering and Technical Consortium, TETC, among private industry and 32 colleges and universities to increase the number of students graduating from Texas schools with degrees in electrical engineering and computer science. Grants are awarded to universities and colleges to support curriculum changes, bridge programs, and various forms of student and faculty support to help increase the retention rate of students pursuing degrees in these areas and to attract and retain more underrepresented groups. This collaborative effort has received funding from Advance Micro Devices, Texas Instruments, Hewlett Packard, Motorola, Intel, Applied Materials and Sabre, with in-kind support from AeA and TechNet. The state matches private and other contributions up to \$5 million per year.

In April, grants worth \$5.3 million were awarded to fund 33 projects as 23 institutions. The appeal of this program is that industry, academia and the state are working cooperatively and collaboratively to address a pressing workforce need, rather than on a school-by-school or company-by-company basis. While it is still too early to determine the success of these projects, which were funded at 64 percent of the potential grant amount, the institutions are projecting a 13 percent increase in total student numbers in these programs for fall 2003. If fully funded, that increase could go as high as 23 percent. This is just the type of innovation that the Tech Talent is meant to encourage.

Finally, the real success the version of the "Tech Talent" program encompassed in this legislation will be based on the successful replication and expansion of model programs supported through this grant program at all of our higher education institutions. Therefore, I believe it is critical that the Director follow the intent of the original language as introduced in S.

1549, section (5)(a), and H.R. 3130, section (4)(d), and select an independent evaluative organization to develop metrics for measuring the impact of the program, particularly on the number of students enrolled, academic performance of students, persistence to degree completion, and placement in post-graduate education or career pathways, and to identify the program approaches assisted under this program that are the most effective in increasing the number of students obtaining degrees in science, mathematics, technology and engineering.

In addition, both S. 1549 and H.R. 3130 intend for the Director to regularly disseminate information on the activities conducted by grantees and the results of programs assisted under this grant program, including best practices, to participating institutions of higher education and other interested institutions of higher education. Similarly, I believe it is imperative to share the findings of programs assisted under STEP grants with Congress through interim and final reports so that we may make better policy decisions to enhance our nation's standing as a scientific and technological leader.

We all realize that solving the undergraduate problem is not going to single handedly close our talent gap. At the same time, we should also realize that the talent gap cannot be closed without first solving the problem at the undergraduate level. Therefore, I am pleased by the Senate's unanimous support today for the NSF Authorization Act of 2002, and the STEP, or Tech Talent, provisions encompassed therein. In doing so, we will be helping to ensure that the young minds of today will be capable of mastering and fueling the high-tech economies of tomorrow.

Ms. MIKULSKI, Madam President, I rise today to join with Senator KENNEDY, Senator HOLLINGS, Senator GREGG, Senator MCCAIN, and Senator BOND to urge passage of the National Science Foundation Doubling Act.

On July 12, 2002, Senator KIT BOND and I joined together and called on our Senate colleagues to join us in an effort to double the budget of the National Science Foundation over five years. We said at that time, that just as we worked collectively to double the NIH budget, now was the time for a parallel effort on behalf of the fundamental research supported by the NSF.

NSF's impact over the past half century has been monumental—especially in the field of medical technologies and research. The investments have also spawned not only new products, but entire new industries, such as biotechnology, the internet, and e-commerce. Medical technologies such as biotechnology, the internet, and e-commerce. Medical technologies such as magnetic resonance imaging, ultrasound, digital mammography and genomic mapping could not have occurred, and cannot now improve to the next level of proficiency, without underlying knowledge from NSF-sup-

ported work in biology, physics, chemistry, mathematics, engineering, and computer sciences.

Today, with this bill, we take an important step to ensure the well-being of this Nation and its citizens with passage of this bill to double the funding for the basic research and science education activities of the National Science Foundation over the next five years.

Some might ask, "Why should we do this now?" Let me try and answer that question.

We have seen some dramatic increases in research and development investments during the past decade, largely from industry. These investments have contributed to this country's standing as a global economic powerhouse.

However, according to the National Science Board—in its latest report on science indicators—developments abroad could affect U.S. preeminence in the years to come. The Board says that the United States finances 44 percent of the total worldwide investment in R&D—equal to the combined total of Japan, the United Kingdom, Canada, France, Germany and Italy.

But other nations are increasing their R&D investments and focusing on areas such as physical sciences and engineering, which receive comparably less funding in the United States. Those changes could lead to the creation of new centers for research excellence abroad, which will encourage many of those who have come here from other countries and have become a part of our science enterprise to return home.

The fact is that this country's future competitiveness rests on our ability to develop a U.S. work force that has the skills necessary to meet the increased competition coming from abroad.

In this country, R&D investments by U.S. industry have contributed to a steady stream of innovations and economic growth. We are seeing new partnerships develop that connect firms and universities, nonprofit organizations and government.

Meanwhile, the balance of R&D investments continues to shift. As industry R&D grew to nearly 75 percent of the national total by 2000, Federal expenditures remained essentially flat over the past decade.

At the same time federal research expenditures in life sciences have grown, from 41 to 47 percent of the federal total between 1990 and 2000. However, the combined share of physical sciences and engineering in federal research total dropped from 37 to 29 percent in the same period.

Changes in the U.S. economy have spilled into the workforce. Information- and technology-based changes in the economy have created new opportunities for highly trained workers.

Science and engineering occupational fields are growing faster than the overall growth of the American work force.

the Bureau of Labor Statistics predicts that during this decade, hi-tech occupations will grow by 47 percent, compared to 15 percent for the labor force as a whole.

Despite many state and national reforms initiated during the last decade, the quality of mathematics and science education at the precollege level is not where it should be. America's high school students continue to lag behind in international achievement measures in science and mathematics. U.S. high school students taking physics lag behind students in Norway, Sweden, the Russian Federation, Denmark, Germany, Australia and seven other countries.

A persistent issue in science and mathematics education remains the size and adequacy of the teaching force. According to the National Commission on Mathematics and Science Teaching for the 21st Century, the nation's schools will need to hire 2.2 million teachers, including 240,000 middle and high school mathematics and science teachers, in the next decade.

The need for teachers is most pronounced in urban and rural areas and within specific disciplines and grade levels of mathematics and science. A survey of urban school districts, by the Council of the Great City Schools and Recruiting New Teachers, Inc., in 1998–99, indicated that up to 95 percent of our urban school districts had an immediate demand for high school science and mathematics teachers.

A high percentage of science and mathematics teachers lack even a minor in their teaching field, with 56 percent of public secondary students receiving instruction in the physical sciences from teachers without a major or minor in the physical sciences. And as many as 50 percent of new teachers in urban school districts leave the teaching profession within their first three years, further exacerbating shortages.

Solving the problem of producing more high-quality, homegrown scientists and engineers—and a well educated workforce—depends upon solving the math and science education problems we have at the elementary and secondary levels of our school system.

The bill before us today authorizes substantial growth in all areas of basic research—including the physical, engineering, biological, and computer sciences—fields vital for progress in just about every other area of science including biomedical research. The bill also puts a high priority on cutting edge programs such as information technology, nanotechnology and plant genome research.

Under this bill, the NSF budget would grow from today's level of \$5 billion to nearly \$10 billion by fiscal year 2007 which should allow for substantial growth in both the size of the average award as well increase the number of awards NSF is able to make. Increasing the size of the grants will benefit those currently conducting research. Increasing the number of awards should help

those individuals who are just starting their careers in science as well as attract more women and minorities into our science and technology enterprise.

In the area of math and science education, the bill firmly establishes the President's Math and Science Partnership program at the National Science Foundation. This is a new effort designed to create strong connections between state and local school districts with our institutions of higher education.

This bill also includes a provision for a new undergraduate "tech talent" program. The "tech talent" program is designed to provide financial support to undergraduate students to pursue bachelor degrees in science and engineering—all in an effort to help meet today's and tomorrow's workforce needs.

The funding in this bill will also help increase the graduate student stipends in both the NSF fellowship programs as well as in the support graduate students receive as research assistants on the NSF research grants. Under this bill, NSF's entire education and human resources program would grow from \$875 million in fiscal year 2002 to almost \$1.8 billion by fiscal year 2007.

Finally, this bill includes two provisions that relate to the National Science Board. These are "good government" provisions that give the National Science Board, the policy making body of the Foundation, the authority and funding to hire its own staff. Our rationale is to ensure that the Board remains independent with respect to its policy making and oversight responsibilities. This is particularly important as Congress attempts to double the NSF over the next five years. Finally, it is equally important to know that these provisions do not preclude the Board and the NSF from continuing to work closely together as they have over the years such as in the staffing of NSB committees, subcommittees, and task forces and the development of the biennial Science and Engineering Indicators report.

As a Nation, we have a big challenge ahead of us as we enter the new millennium. Our world has changed and we must do what is necessary to meet the new challenges that will surely come our way. The sustained and effective investment in our Nation's research and education enterprise is one of the keys to meeting those challenges. I urge all my colleagues to join us in enacting this important investment in the future of our country.

NSF REAUTHORIZATION: NSF DOUBLING ACT

Mr. HARKIN. Will the Senator yield for a question?

Mr. KENNEDY. I would be happy to yield to the Senator from Iowa.

Mr. HARKIN. I see that in this legislation, there is an authorization for the Plant Genome Project, a program that had previously been authorized only in appropriations acts.

Mr. KENNEDY. That is correct.

Mr. HARKIN. Is the intent of the managers in including this provision

merely to provide a permanent authorization for the Plant Genome Project, and not to state a preference by the Senate for plant genomics over other agricultural genomics programs when it comes to additional funding provided through appropriations?

Mr. KENNEDY. The Senator is correct. That plant genomics language included in the NSF doubling legislations is only to establish an authorization, it does not state a preference for plant genomics over other agricultural genomics programs that might be provided through later appropriations acts.

Mr. HARKIN. I thank the Senator. I think that is an important point because Senator LUGAR and I worked hard in the Agricultural Research, Extension, and Education Reform Act of 1998 to authorize an agricultural genomics program administered by the National Science Foundation because we felt a balanced genomics program was essential to keeping U.S. agriculture productive and competitive.

While I think the plant genomics program is an excellent one, I sincerely hope that any further increases provided for agricultural genomics be open to animal and microbiological research as well, not just plants. We need a balanced portfolio of agricultural research to best capitalize on the resources devoted to agriculture-related genomics research. I would not want anyone to think that the Senate was now backtracking on the progress we made with the passage of the 1998 agricultural research legislation.

Mr. KENNEDY. It is certainly not the manager's intent to limit the Agricultural, Research, Extension, and Education Reform Act of 1998.

Mr. HARKIN. I thank the Senator for that. I thank the Senator for yielding.

Mr. REID. I understand Senators KENNEDY, GREGG, and HOLLINGS have a substitute amendment at the desk; I ask that that amendment be considered and agreed to, the motion to reconsider be laid upon the table; the bill, as amended, be read three times and passed; the motion to reconsider be laid upon the table; the title amendment be agreed to; and any statements be printed in the RECORD with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4958) was agreed to.

(The amendment is printed in today's RECORD under "Text of the Amendments.")

The bill (H.R. 4644), as amended, was read the third time and passed.

The amendment (No. 4959) was agreed to, as follows:

Amend the title so as to read: "An Act to authorize appropriations for fiscal years 2003, 2004, 2005, 2006, and 2007 for the National Science Foundation, and for other purposes."

ORDERS FOR FRIDAY, NOVEMBER 15, 2002

Mr. REID. Madam President, I ask unanimous consent that when the Senate completes its business tonight, it stand in adjournment until tomorrow at 9:45 a.m. I further ask that on Friday, immediately following the prayer, the morning hour be deemed expired, the Journal of proceedings be approved to date, the time for the two leaders be reserved for their use later in the day, and there be a period of morning business until 10 a.m. with the time equally divided between the two leaders or their designee; and that at 10 a.m. the majority leader, Senator DASCHLE, or his designee be recognized.

Further, that the live quorum with respect to cloture motions filed with respect to the Homeland Security Act be waived.

The PRESIDING OFFICER. Without objection, it is so ordered.

ARMED FORCES TAX FAIRNESS ACT OF 2002

Mr. REID. Madam President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 5557, which is now at the desk.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 5557) to amend the Internal Revenue Code of 1986 to provide a special rule for members of the uniformed services and Foreign Service in determining the exclusion of gain from the sale of a principal residence and to restore the tax exempt status of death gratuity payments to members of the uniformed services, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

TAX STATUS OF SERVICE PERSONNEL ON DIEGO GARCIA

Mr. BAUCUS. The distinguished Senator from Louisiana, Ms. LANDRIEU has raised an issue with respect to the legislation before us. That legislation, H.R. 5557, deals with tax benefits for military service personnel. Senator LANDRIEU would like clarification from the Administration on the status of service men and women on the Island of Diego Garcia. These service personnel have participated in military operations as part of Operation Enduring Freedom and will participate in future military operations from that location. There is a question whether these members of the armed forces are entitled to be treated in the same manner as if such services were in a combat zone.

Mr. GRASSLEY. Let me respond to the distinguished chairman on this point. At the request of the Senator from Louisiana, our staffs made inquiries of the administration on this question this evening. In discussion with Treasury officials, our staffs have been assured that the Treasury Department will look into this matter and work

with the Senator from Louisiana to address the questions raised by the Senator. We look forward to an expeditious response from the Administration.

Mr. BAUCUS. I thank my good friend from Iowa.

Mr. HARKIN. Madam President, I am pleased that we are passing the Armed Services Tax Fairness Act that will make a number of useful tax changes benefitting our military personnel including the National Guard and Reserve. It includes a provision that I introduced that broadens the allowable membership of veterans organizations so ancestors and descendants can be members. This will allow veterans organizations, particularly at the local chapter level to preserve as tax exempt a variety of their activities which otherwise would be subject to tax as the number of veterans who are members decline.

Unfortunately, because of opposition from the House, this measure does not include a provision passed by the Senate on an earlier version of the Armed Services Tax Fairness Act that I feel very strongly about. I introduced it earlier this year. It was companion to a measure introduced by Congressman RANGEL.

My bill blocks the ability of the very rich to reduce their taxes by renouncing their U.S. citizenship. The Joint Tax Committee has estimated that it will raise \$656 million from a very few people who I call Benedict Arnolds. These are people who turn their back on their country which provided so

well for them so they can avoid paying their fair share of U.S. taxes.

Under current law, there are special rules that apply to these former citizens that appear to recover funds lost to the Treasury. But, they are full of holes. Under the current regime, for 10 years after a U.S. citizen renounces his or her citizenship with a principal purpose of avoiding U.S. taxes, the person is taxed at the rates that would have applied had he or she remained a citizen. Actually the tax is nominally on a broader base of income and on more types of transactions. In addition, if the expatriate dies within 10 years of the expatriation, more types of assets are included in his or her estate. But, the reality is that taxes are very often not paid.

The reality is that once a person has expatriated and removed U.S. assets from U.S. jurisdiction, it is extremely difficult to enforce the current rules, particularly for an entire decade after the citizenship is renounced. The measure I introduced simply provides that the very act of renouncing ones citizenship triggers the recognition of tax. So, rather than collecting tax every time an asset is sold over the next decade, my bill treats all of the assets of an expatriate as having been sold the day prior to when the person renounces their citizenship. The taxes are due up front rather than over time. In regard to estate taxes, rather than attempting to collect the tax from the estate of an expatriate not in U.S. jurisdiction, my measure taxes the inheritance of an

heir remaining in the U.S. in such a way as to remove any tax benefit from the renouncement of citizenship.

Madam President, \$656 million in revenue from these very few former citizens is a lot of revenue that must be made up by loyal Americans or in higher debt that Americans will face. I intend to reintroduce my measure at the beginning of the next Congress and will be working hard for its passage at the earliest possible point.

Mr. REID. I ask unanimous consent that the Baucus amendment at the desk be agreed to, the bill be read three times and passed, the motion to reconsider be laid on the table, and any statements be printed in the RECORD, with no intervening action or debate.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 4961) was agreed to.

(The amendment is printed in today's RECORD under "Text of the Amendments.")

The bill (H.R. 5557), as amended, was read the third time and passed.

PROGRAM

Mr. REID. Madam President, I announce that a motion to proceed to the terrorism insurance conference report is possible at about 10 a.m. tomorrow.

The PRESIDING OFFICER. Without objection, it is so ordered.
